THE RESOLUTION (984-22-BZ)

WHEREAS, this application under section 7f or the zoning resolution, permitting in a residence use district for a temporary term of two years, the maintenance of a garage for the storage of three motor vehicles, three spaces rented to persons not residing on the premises; affecting premises 2379 Tiebout avenue, west side, 116.05 ft. north of East 184th street (Block 3147, Lot 32), Borough of The Bronx, was granted by the Board on February 19, 1924, on certain conditions; and

WHEREAS, this permit was extended from time to time, the last extension being on September 21, 1943, and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 19, 1924, as amended through September 21, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under Section 7f for a term of five (5) years from the date of this *amended* resolution, to permit the storage of five automobiles on the premises restricted to the plot of ground 25.0 ft. by 125.0 ft. in depth, located 141.05 ft. north from the intersection of 184th street and Tiebout avenue, including the maintenance of one two-car and one three-car garage for the storage of automobiles of the pleasure-car type, space for three of which may be rented to persons not residing on the premises, *on condition* . . . and that other as herein *amended,* the conditions of the resolution of February 19, 1924, shall be complied with, and that a certificate of occupancy shall be obtained."

31-35-BZ

APPLICANT—Leon Cohn, for Whitlock Building Corp., owner.
SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7i of the zoning resolution, permitting in a business use district, the alteration and change of occupancy of an existing building to a motor vehicle repair shop, for a term of years.
PREMISES AFFECTED—1506 Jerome avenue, east side, 55.36 ft. north of East 172nd street (Block 2846, Lot 4), Borough of The Bronx.
APPEARANCES—
For Applicant: Leon Cohn.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (31-35-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a business district, the alteration and change of occupancy of an existing building to a motor vehicle repair shop, affecting premises 1506 Jerome avenue, east side, 55.36 ft. north of East 172nd street (Block 2846, Lot 4), Borough of The Bronx, was granted by the Board April 23, 1935, on certain conditions; and

WHEREAS, the permit was extended on January 4, 1938, July 15, 1941 and September 14, 1943 and the applicant requested a further extension on the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 23, 1935, as amended through September 14, 1943, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7i for a temporary term of five (5) years from the date of this *amended* resolution, to permit the existing building to be occupied as a motor vehicle repair shop, *on condition* . . . . and that other than as herein *amended,* the conditions of the resolution of April 23, 1935, shall be complied with, except for substituting the section under which the variance is based, from Section 21 to Section 7, subdivision i."

RULES

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stairhall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the Administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or mounmental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

CONTENTS

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting of Tuesday Morning, October 2, 1945, Affecting Calendar Numbers 958-40-BZ, 351-45-BZ, 470-45-BZ, 475-45-BZ, 476-45-BZ, 481-45-BZ, 535-45-BZ, 390-19-BZ, 11-33-BZ, 260-42-BZ, 146-45-BZ, 551-45-BZ, 330-45-A, 412-45-A, 508-45-A and 523-45-A.

Minutes of Regular Meeting of Tuesday Afternoon, October 2, 1945, Affecting Calendar Numbers 517-45-A, 518-45-A, 522-45-A, 532-45-A, 560-45-A, 571-45-A, 572-45-A, 573-45-A, 432-37-A, 433-37-A, 434-37-A, 575-41-A, 736-41-A, 359-44-A, 325-45-A, 410-45-A, 503-45-A, 461-45-A, 561-45-A and 306-37-BZ.

(Remaining minutes of the meeting of October 2, 1945 will be printed in the Bulletin of October 16, 1945.)

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION
10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

For Applicant: Alfred A. Lama and Edward Brodlieb.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (390-19-BZ)

WHEREAS, this application, permitting in a business use district, the erection of a garage for more than five motor vehicles, affecting premises 6902-6912 4th avenue and 378-386 Bay Ridge avenue, southwest corner (Block 5872, Lot 42), Borough of Brooklyn, was granted by the Board on June 26, 1919, on certain conditions; and

WHEREAS, the resolution was amended on October 30, 1934 and on January 7, 1936; and

WHEREAS, the applicant requested a further amendment of the resolution, under section 7i of the zoning resolution, to permit the change of occupancy of a garage for more than five motor vehicles and store, previously granted by the Board, to garage, showroom, servicing and repairs to motor vehicles; and

WHEREAS, this case was reopened by vote of the Board on May 29, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 2, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Bay Ridge avenue is in a business use, C area and Class 1¼ height district; 4th avenue is in a business and residential use, C area and Class 1¼ height district, 68th street and Ovington avenue are in a residential use C area, Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated April 27, 1945 re Alt. Applic. 1104-45, reads:

"1. Resubmit additional nonconforming uses, to the Board of Standards and Appeals. See Cal. 390-19, BZ Bul. 45, Vol. 19 (Business zone)

2. Area for manufacturing excessive—contrary to Art II, Sec. 4, par. "B" of zone resolution."

and

WHEREAS, the applicant contends that the premises in question has a frontage of 78 ft. 4¾ in. on Bay Ridge avenue, 99 ft. 11⅞ in. on 4th avenue, 97 ft. 8 in. on the westerly lot line; 101 ft. 11¼ in. on the southerly lot line; that the premises are improved with a two story public garage, and store, for more than 5 motor vehicles, covering the entire plot; that this building was constructed under Permit 11083-1934, for which Certificate of Occupancy 74994 was issued on January 2, 1935; that this garage was granted by the Board of Standards and Appeals under Cal. 390-1919; that it is the intention of the owner to add to the present use, an automobile showroom, parts department and general servicing of automobiles; that as the premises in question is presently zoned for business, the building is existing and the additional uses are in a business zone, it is requested that the application be granted.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 26, 1919, as amended through January 7, 1936, so that as amended, the resolution as a whole, shall read:

"Resolved, that the decision of the superintendent of buildings, acting on N. B. Applic. 5452-19, dated May 26, 1919, be and it hereby is *modified* and that the application be and it hereby is *granted on condition* that the westerly and southerly walls of the structure shall be unpierced throughout their entire height; that there shall be no skylight or other opening in the roof within 20 ft. of the adjoining property on the west and south; that the sills of the windows on the Bay Ridge avenue front shall be placed at least 6 ft. above the level of the sidewalk; that the walls of the structure facing on Fourth avenue and Bay Ridge avenue shall be of pressed brick or similar materials; that there shall be but one doorway in the Bay Ridge avenue frontage, which may be used as a fire exit only and to be located within 3 ft. of the westerly line of the lot; and

Resolved further, that the decision of the borough superintendent, acting on Alt. Applic. 1104-45, Objection 1, be and it hereby is *modified* and that the application be and it hereby is *granted on condition* that in the event the owner desires to occupy the first story of the building as a sales room for the Chrysler agency, in lieu of the present permitted garage use on such floor, that such use of the first floor may be permitted and the alterations to the first floor may be substantially in accordance with the revised plans marked 'Received September 27, 1945,' provided that in all other respects, the requirements of the resolution as above recited are complied with, and in all other respects, the building and occupancy complies with all laws, rules and regulations applicable to the continued use of the second story as a garage for more than five cars entirely independent of the permitted use in the first story as a sales room for such sales agency, including minor repairs hereby permitted under section 7 subdivision i and servicing, consisting of greasing and washing, exclusively for cars dealt in by such agency; that all signs shall be removed from the building and no new signs erected, except there may be one sign on the Fourth avenue front, advertising the Chrysler sales agency; that such

sign may be illuminated and may extend beyond the building line for a distance of not more than 4 ft.; that there shall be no roof sign, wall sign or temporary sign; that the windows along Bay Ridge avenue may be cut down to within 6 ft. of the floor where such windows occur within the proposed enclosed showroom, as shown on plans marked 'Received September 27, 1945'; that all such repair work, except for wheel realignment, shall be done by hand tools with no machine driven tools greater than one-half horse power; that the gasoline pumps may be reset as therein indicated and as an accessory use only for supplying cars dealt in; that such portable fire fighting appliances shall be maintained throughout the building as the fire-commissioner shall direct; that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and *withdrawn* as to objection 2."

11-33-BZ

APPLICANT—Max Bache, for Richmond Borough Home Sites Corp., owner (P. Piccininni and James Coscia, lessees).

SUBJECT—Application reopened and restored to calendar May 16, 1944 (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business use district, the extension of an existing office and accessory building to include a lubritorium on a gasoline service station, previously granted by the Board for a temporary period.

PREMISES AFFECTED—2435 Hylan boulevard, northwest corner of New Dorp lane (Block 3649, Lot 1), New Dorp, Borough of Richmond.

APPEARANCES—

For Applicant: Max Bache and Italo Nicolai.

For Opposition: Mrs. Fisher, Mrs. J. McWilliams, Mrs. Ziallo and A. Ziallo.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (11-33-BZ)

WHEREAS, this application under section 7f of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, affecting premises 2435 Hylan boulevard, northwest corner of New Dorp lane (Block 3649, part of Lot 1), New Dorp, Borough of Richmond, was granted by the Board on May 2, 1933, on certain conditions, for a term of two (2) years; and

WHEREAS, the resolution was amended on June 20, 1933 and on July 18, 1933; and

WHEREAS, the permit was extended on March 19, 1935, the resolution amended on October 6, 1936 and the permit further extended on March 30, 1937 and March 14, 1939, for a term of two years; and

WHEREAS, on March 18, 1941, the permit was further extended for a term of five years; and

WHEREAS, the applicant requested a further amendment of the resolution, to permit the extension of an existing office and accessory building to include a lubritorium; and

WHEREAS, this case was reopened by vote of the Board on May 16, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, as its regular meeting, October 2, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Hylan boulevard and New Dorp lane, northwest corner is in a business use, D area and class ¾ height district and that East New Dorp lane is in a retail-1 and business use, D area and class ¾ height district; and

WHEREAS, the decision of the borough superintendent dated April 14, 1944 on Alt. Applic. 38-44 reads:

> "The proposed alteration to an existing gasoline service station in a business use district is denied, being contrary to Art II, sec. 4a, 4b Zonng Resolution. Refer to Cal. 11-33-BZ, Board of Standards and Appeals."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 100 ft. in depth, on which is located a building 48 ft. front by 22 ft. deep, 1 story (15 ft.) in height; that it is proposed to extend and existing office and accessory building to include a lubritorium, on a gasoline service station previously granted by the Board; and

WHEREAS, the applicant contends that this application is based on the fact that this building was erected in 1933 to be used as a gasoline service station and intended to continue so, but now it is inadequate, because the automobile business has changed immensely in the past few years, due to war conditions; that car laundering and lubricating work has boomed; that when this building was erected, it included a four car lifter, but for lack of space, only two were installed and because of the low ceiling, they could not operate very conveniently and it was decided to install one of them on the open space on the northeast side of the building and its use is possible only when the elements permit; that for this reason it was decided to extend the building, to house the car lifters and in the meantime procure additional space for batteries recharging; that the proposed extension is of the type and style as the existing building, with hollow masonry walls, steel casement windows, fire-retarded ceiling and cement floor; that the wall on the northeast side, connecting to the extension, will be opened as to form an entire open area to facilitate movements; and

WHEREAS, a temporary variance, to permit the construction and operation of the gasoline service station was originally granted by the Board on May 2, 1933, and continued by resolution of March 18, 1941, expiring on March 18, 1946; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision f of the zoning resolution as to the proposed extension of the accessory building.

Resolved, that the decision of the borough superintendent dated April 14, 1944, on Alt. Applic. 38-44, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

260-42-BZ

APPLICANT—Clayton G. Shirkey, for Mollie Lilienfeld, owner.

SUBJECT—Application reopened September 11, 1945 for consideration as to extension of permit (expired by limitation)—Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—36-02 Sprayview avenue and 111 Beach 36th street, northwest corner (Block 317, part of Lots 83 and 87), Edgemere, Borough of Queens.

APPEARANCES—

For Applicant: Clayton G. Shirkey.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (260-42-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 36-02 Sprayview avenue and 111 Beach 36th street, northwest corner (Block 317, part of Lots 83 and 87), Edgemere, Borough of Queens, was granted by the Board on July 14, 1942, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on September 11, 1945, restored to the calendar and set for hearing on October 2, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting October 2, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted July 14, 1942, and modified the new decision of the borough superintendent, acting on Misc. Applic. 1620-42, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the premises, with a frontage of 60 ft. on Sprayview avenue and 100 ft. on Beach 36th street, to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* . . . and that other than as herein *amended*, the conditions of the resolution of July 14, 1942, shall be complied with and that a certificate of occupancy shall be obtained."

146-45-BZ

APPLICANT—James Whitford, for Adam V. Bell, owner.

SUBJECT—Application reopened and restored to calendar July 17, 1945, (decision of the Commissioner of Marine and Aviation) under section 7f of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station for motor boats for a term of years, and parking and storage of more than five motor vehicles (previously withdrawn).

PREMISES AFFECTED—126 Mansion avenue, south side, foot of McKee avenue (Block 5202, Lots 10 and 13), Great Kills, Borough of Richmond.

APPEARANCES—
For Applicant: James Whitford and Adam V. Bell.
For Opposition: L. E. Steffenson, S. Brittin, Mrs. McCormick, H. Hill, Mr. Bloch, Mr. Daint and H. Brown.
For Administration: Fred Dahlem, Dep't of Housing and Buildings, and Charles Pekus, Dep't of Marine and Aviation.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative: Chairman Murdock 1
Negative: Commissioners Savage and Blum and Deputy Chief Gunn 3

THE RESOLUTION (146-45-BZ)

WHEREAS, James Whitford, for Adam V. Bell, owner, filed March 13, 1945, an application under section 7f of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station for motor boats for a term of years and the storage of more than five motor vehicles, affecting premises 126 Mansion avenue, south side, foot of McKee avenue (Block 5202, Lots 10 and 13), Great Kills, Borough of Richmond; and

WHEREAS, on June 5, 1945, the application was withdrawn at request of applicant after discussion; and

WHEREAS, the application was reopened by vote of the Board on July 17, 1945, and restored to the calendar, subject to the usual procedure; and

WHEREAS a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting, October 2, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Mansion avenue is a business and residence use, D area and Class 1½ height district and McKee avenue is in a residence use, D area and Class 1½ height district; and

WHEREAS, the decision of the Commissioner of Marine and Aviation, dated June 28, 1945, reads:

"The application which you filed with this Department under date of June 6th, 1945, covering the installation of an 1100 gallon gasoline tank on your property located at the foot of Mansion Avenue facing McKee Avenue, Great Kills, Borough of Richmond, and also to occupy a portion of this property for a parking lot after the site has been properly bulkheaded and in accordance with a permit to be obtained from this Department, is hereby denied.

This action is taken inasmuch as the premises upon which the tank and parking lot would be located are situated in a business zone and the proposed installation would therefore be contrary to the provisions of Section 4-46 of the Zoning Resolution.

It is our understanding that you will, in accordance with the direction given you by the Chairman of the Board of Standards and Appeals, at the hearing held on June 5th, 1945, submit an appeal to the Board of Standards and Appeals."

and

WHEREAS, the applicant states the premises consist of a plot 150 ft. frontage by 641.61 ft. in depth, now vacant, on which it is proposed to install an 1100 gallon gasoline tank and to run a 2 in. line from tank to 2 pumps at the end of the pier for servicing of motor boats; and

WHEREAS, the applicant contends that he now applies for the inclusion of a gasoline filling station for motor boats and a parking area for more than five cars on the subject premises and that since this case was presented to the Board on June 5, 1945, several conferences have been held with the objectors who appeared at that time and a verbal agreement has been entered into, which he believes will eliminate any objection to the application; and

WHEREAS, the following resolution was offered for consideration:

"The motion is to *grant* under section 7f of the zoning resolution, for a term of ten (10) years, to permit the premises to be occupied as proposed, as a gasoline service station for servicing boats and for the parking of more than five motor vehicles of persons using the pier and boats for fishing purposes and not for others, *on condition* that the construction of the pier and dock shall be as may be required by the Commissioner of Marine and Aviation; and that all permits required shall be obtained and all work completed within one year from the date of this resolution;"

and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision f of the zoning resolution.

Resolved, that the decision of the Commissioner of Marine and Aviation, dated June 28, 1945, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

APPEALS FROM ADMINISTRATIVE DECISIONS

551-45-A

APPLICANT—I. D. Watch Case Co., lessee, for Eastport Realty Corp., owner.

SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—137-11 90th avenue, northeast corner of Van Wyck boulevard (main floor); (Block 9971, Lot 38), Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: Jacob M. Zinam, Bernard Discount and Nicholas Schilling.
For Administration: Insp. E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Laid over to October 23, 1945, at 10 A.M. for applicant to file plans.

330-45-A

APPLICANT—Lama and Proskauer, for Edward Brodlieb, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—6902-6912 4th avenue and 378-386 Bay Ridge avenue, southwest corner (Block 5872, Lot 42), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred A. Lama and Edward Brodlieb.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal withdrawn.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (330-45-A)

WHEREAS, Lama and Proskauer, for Edward Brodlieb, owner, filed May 29, 1945, an appeal from a decision of the borough superintendent, affecting premises 6902-6912 4th avenue and 378-386 Bay Ridge avenue, southwest corner (Block 5872, Lot 42), Borough of Brooklyn; and
WHEREAS, the decision of the borough superintendent, dated April 27, 1945 on Alt. Applic. 1104-45, reads:

"3. Exit to comply with Sect. 270 of Labor Law."

and
WHEREAS, the applicant states the building is 2 stories (33 ft.) in height; 99 ft. 11 in. by 75 ft. 4 in., irregular in area, of Class 1 construction; erected in 1919; located in a business use, C area and Class 1¼ height district and used and occupied as follows: cellar, boiler room; 1st floor, store and garage, 3 persons; 2nd floor, garage, 2 persons; proposed to be used and occupied: cellar, boiler room, 1st floor, showroom, garage, minor repairs and parts department, 5 persons; 2nd floor, minor repairs, garage, painting and spraying, 10 persons; that the building is equipped with one 3 ft. wide fireproof stairs, fireproof enclosed, equipped with fireproof, self-closing doors and leading directly to the street and provided with a ladder and scuttle to the roof; and
WHEREAS, the applicant contends that it is proposed to add to the present use, an automobile showroom, parts department and general servicing of automobiles; that the premises do not comply with Section 270 of the Labor Law; that the 2nd floor will not have more than 10 persons employed, for which there is a 3 ft. enclosed stairway, leading directly to Bay Ridge avenue; that in addition, there is an existing ramp, leading to the street and it is proposed to install a new fire escape and sliding counterbalanced ladder; that in view of the fireproof construction and the sufficient exit facilities, it is requested that this appeal be granted.
Resolved, that the appeal be and it hereby is *withdrawn,* in view of change of proposal not to occupy the 2nd floor for repair work, constituting a factory and to continue permitted garage occupancy on the 2nd floor independent of the sales agency proposed for first-floor as permitted under 390-19-BZ, amended October 2, 1945.

412-45-A

APPLICANT—Herman E. Horwood, for Elizabeth A. Stevenson, owner. (Eugene Lackenbach, lessee).
SUBJECT—Appeal from a decision re an order of the fire commissioner.
PREMISES AFFECTED—24-26 Steinway street, west side, 103.48 ft. south of Astoria boulevard (1st floor); (Block 654, Lot 54), Astoria, Borough of Queens.
APPEARANCES—
For Applicant: H. E. Horwood.
For Administration: Insp. E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (412-45-A)

WHEREAS, Herman E. Horwood, for Elizabeth A. Stevenson, owner (Eugene Lackenback, lessee), filed July 2, 1945, an appeal from a decision re an order of the fire commissioner, affecting premises 24-26 Steinway street, west side, 103.48 ft. south of Astoria boulevard (1st floor); (Block 654, Lot 54), Astoria, Borough of Queens; and
WHEREAS, Order 99014-LC issued by the fire commissioner February 14, 1945, and repeated in his decision of June 6, 1945, reads:

"1. With reference to your application for the storage and use of sodium chlorate, aluminum grindings and ammonium carbonate, please be advised that this Department disapproves such storage and use, as it creates a grave fire risk and is against the interest of public safety.

"2. You are therefore ordered to discontinue the storage of sodium chlorate, aluminum grindings and ammonium carbonate and discontinue the manufacture of curling powders."

and
WHEREAS, the applicant states that the building is one story (11 ft. 2 in.) in height, 50 ft. by 67 ft. and 36 ft. in area; Class 3 construction; located in a business use, B area and Class 1¼ height district; erected in 1921 and used and occupied since October, 1944, as follows: Cellar, boiler room; 1st floor, south store manufacturing hair wave pads, 3 persons; center and north store, retail furniture show room, 0 persons; that the building is equipped with one 24 in. wide wood stairs, unenclosed; and
WHEREAS, the applicant contends that the occupant of the south store is engaged in the manufacture of hair wave pads, packed in small containers with 28 pads in each, which are shipped out as fast as they are made; that the portion of the premises occupied for this purpose has an area of 930 sq. ft.; that permission was requested to store and use 200 lbs. each of sodium chlorate and aluminum grindings and were refused, although the tenants were formerly in business at 22 East 26th street, Manhattan and received a permit for operation at that location; that only three persons are employed and all mixing is done at the room in the northwest corner, which has a window to the outer air and exit at the front to the street and at the rear to the yard; that the other two stores are used for furniture showroom and entered only occasionally when a salesman will bring a customer from the main store located nearby.
Resolved, that Order 99014-LC of the fire commissioner, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to Item 1, *on condition* that the premises shall remain substantially as proposed and maintained to the satisfaction of the fire commissioner; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct and the portable fire-fighting equipment installed in the mixing room shall be a CO_2 extinguisher of the type and size recommended by the fire commissioner; that the material used shall be maintained in

metal containers with metal covers; that any finished product not shipped out at the end of each day shall be stored in metal cabinets, satisfactory to the fire commissioner.

508-45-A

APPLICANT—Proctor and Gamble Manufacturing Co., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—West side of Western avenue, 1500 ft. south of Richmond Terrace (Laboratory Building, 2nd floor); (Block 1400, Lot 1), Port Ivory, Borough of Richmond.

APPEARANCES—
For Applicant: S. W. Blackett and Jas. E. Egan.
For Administration: Insp. E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (508-45-A)

WHEREAS, Proctor & Gamble Manufacturing Company, owner, filed August 24, 1945 an appeal from an order of the fire commissioner, affecting premises, west side of Western avenue, 1500 ft. south of Richmond Terrace (Laboratory Building, 2nd floor); (Block 1400, Lot 1), Port Ivory, Borough of Richmond; and

WHEREAS, order 42270-LC, issued by the fire commissioner, July 26, 1945, reads:

"Before a permit may be issued to you for a technical establishment, the following must be done:

"6. Either submit evidence from the Department of Housing and Buildings that the recreation area and cafeteria do not constitute a place of assembly or discontinue storage and use of liquid chlorine on these premises. (This refers to laboratory building). Sec. C19-95.0-d."

and

WHEREAS, the applicant states that the building is 2 stories (34 ft.) in height, 97 ft. by 84 ft. 10 in. in area, of class 1 construction, erected in 1916, located in an unrestricted use, A area class 1½ height district and used and occupied as follows: basement, private recreation room, 150 persons; 1st floor, private cafeteria, 250 persons; 2nd floor, analytical laboratory, 30 persons; that the building is equipped with a two source sprinkler system, two 3 ft. 6 in. wide steel stairs with cast iron treads, enclosed in 3 in. solid cement plaster partition, equipped with tinclad self-closing, fireproof doors and leading directly to the street and provided with a ladder and scuttle to the roof; and

WHEREAS, the applicant contends that although no certificate of occupancy was available, the 2nd floor was first used as an analytical laboratory about 1918 and the private cafeteria installed on the first floor during 1927; that the basement was first used as a private recreation room in 1934; that permission has been requested to store and use on the 2nd floor, three one pound bottles of chlorine; that 1½ bottles of chlorine is normally carried in storage, but permission is requested for three bottles to cover possible variations in shipment; that the normal usage is about 1/6 lbs. per week used for chemical testing in evaluating fats; that when in use, the chlorine bottle is in a hood equipped with mechanical draft and when in storage, the bottles are kept under an open sprinkler controlled by a valve outside the room; that the chlorine is used only by a properly qualified chemist who holds a certificate of fitness; it is requested that the Board approve the use of chlorine in the analytical laboratory, because of the limited amounts involved, the fireproof construction of the building, the limited occupancy of the private cafeteria and recreation room which is in use only 1½ hours per day at lunch time and the hardship that would be imposed on the owner if the construction of a new laboratory were necessitated.

Resolved, that Order 42270-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to Item 6, *on condition* that the storage of bottles shall be maintained in a cabinet ventilated to the outer air and to the satisfaction of the fire commissioner and shall otherwise be maintained as proposed; that all other items of the order shall be complied with, to the satisfaction of the fire commissioner; that the sprinkler system shall be maintained in accordance with the requirements therefor.

523-45-A

APPLICANT—Hospital for Joint Diseases, owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—1911-1929 Madison avenue, 41-59 East 123rd street and 44-58 East 124th street (Block 1748, Lots 44, 48, 49 and 35), Borough of Manhattan.

APPEARANCES—
For Applicant: Eugene Koch.
For Administration: Insp. E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (523-45-A)

WHEREAS, Hospital for Joint Diseases, owner, filed August 14, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 1911-1929 Madison avenue, 41-59 East 123rd street and 44-58 East 124th street (Block 1748, Lots 44, 48, 49 and 35), Borough of Manhattan; and

WHEREAS, Order 40263-LC issued by the fire commissioner, dated January 16, 1945, reads:

"Before a permit may be issued for your refrigerating system, the following must be done:

5. Provide a hood and independent mechanical ventilation for open flames, so arranged as to convey all the products of combustion to the outside of the building, as per Sec. C19-96.0-8, Administrative Code of the City of New York.

Note: Applies to the seven new (Mueller) refrigerating machines containing 4 lbs. Freon in each one located in Diet kitchens in Ward "O" 8th floor, Ward "L" 7th floor, 5th, 4th, 3rd, 2nd and 1st floors."

and

WHEREAS, said order was repeated in a decision of the fire commissioner, dated August 10, 1945; and

WHEREAS, the applicant states that the building is 7 stories (84 ft.) in height, 210 ft. by 97 ft. in area, of class 1 construction, erected in 1925, located in a business and residence use B area and class 1½ height district and used throughout as a hospital; and

WHEREAS, a conviction was had and sentence suspended June 29, 1945 on a charge of violation of the Administrative Code on complaint of the Fire Department; and

WHEREAS, Certificate of Occupancy 9329, issued March 10, 1925 on N.B. Applic. 106-22, permits the present use and occupancy; and

WHEREAS, the applicant contends that the blowers for hoods are not available, due to war time restrictions; that hermetically sealed units cannot be obtained for civilian use at this time; that each room is equipped with a self-closing door; that the kitchens on the 7th and 8th floors have windows containing 2,924 sq. in. of glass area; that on the 2nd, 3rd, 4th and 5th floors, each kitchen has two windows containing 5,208 sq. in. of glass area; that on the first floor the kitchen has one window containing 3,600 sq. in. of glass area; that the Board is therefore requested to extend the time for compliance with the order, until sealed units are available, when they will be promptly installed by the contractor who furnished the refrigerators now installed.

MINUTES

Resolved, that Order 40263-LC of the fire commissioner be and it hereby is *modified* as to Item 5, and that the appeal be and it hereby is *granted on condition* that natural ventilation shall be maintained; that the door opening to each room in which the refrigerator is installed shall be reasonably tight-fitting and self-closing; that the equipment shall at all times be under the control of qualified persons; that the open flame shall consist only of the gas flame for preparing special diets; that the flame shall be removed from the refrigerator at a distance indicated on plans filed with this appeal.

Adjourned: 12:55 P.M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, OCTOBER 2, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS.

517-45-A

APPLICANT—L. E. Driver, for New York Dock Co., owner (Universal Terminal and Stevedoring Co., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—West side of Wharf (Furman street), 1100 ft. north of Montague street (Block 199, part of Lot 3), Pier 9, East River, Borough of Brooklyn.

APPEARANCES—

For Applicant: George Eweler, C. E. Hicks and L. E. Driver.

For Administration: Thomas A. Larkin, Fire Dept.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (517-45-A)

WHEREAS, L. E. Driver, for New York Dock Company, owner (Universal Terminal and Stevedoring Company, lessee), filed August 24, 1945, an appeal from an order and a decision of the fire commissioner, affecting Pier 9, East River, West side of Wharf (Furman street) 1100 ft. north of Montague street (Block 199, part of Lot 3), Borough of Brooklyn; and

WHEREAS, Order 9879-LF, issued by the fire commissioner January 9, 1943, reads:

"1. Provide a fixed fire extinguishing system or other means for the extinguishment of fire satisfactory to the fire commissioner. The transferring and storage of sisal at this location is in violation of stipulation in Resolution 154-32-A of Board of Standards and Appeals, which expressly prohibits the transfer or storage of inflammable, explosive or highly combustible material. Sprinkler Rules of the Board of Standards and Appeals and C19-161.0 Adm. Code."

and

WHEREAS, a decision of the fire commissioner dated August 9, 1945, reads:

"In reply to your request for rescindment of Order 9879-LF, covering above mentioned premises you are advised that your request must be denied. However, you may appeal this decision to the Board of Standards and Appeals, Room 1015, Municipal Building, Manhattan."

and

WHEREAS, the applicant states that the building is one story (23 ft. 6 in. and 28 ft.) in height; 81 ft. 6 in. by 604 ft. average area, Class 4 construction; erected prior to 1880; located in an unrestricted use, A area and Class 2 height district and used and occupied since July, 1943, for repairing and equipping steamships, 100 persons and that the building is equipped with a standpipe system; and

WHEREAS, the applicant contends that the order requiring the installation of a fixed fire extinguishing system was issued by the fire commissioner apparently because of the discharge of a shipment of sisal at this pier, alleged to be in violation of the Board's resolution under Cal. 154-32-A; that the issuance of such an order to correct the violation of the resolution is unfair, when a simple order to discontinue handling such shipment would have served the purpose; that shortly after receiving the order, the cargo objected to, was removed and the department notified with a request that the order be withdrawn, only to be told that a subsequent inspection disclosed the storage of paint, which was also considered objectionable; and

WHEREAS, the applicant contends a determination of what might be considered inflammable, explosive or highly combustible material is difficult; that the applicant does not concede that sisal is in that category, especially when suitably packed for transportation; that a prohibition against the handling of paint on steamship piers seems extraordinarily restrictive; that pier owners and occupants have no way of determining in advance what materials the Fire Department may object to, since the Department makes public no list of such materials; that the Fire Department on November 17, 1943, stated that they also took exception to the premises being used for making repairs to ships; that the owner applied to the Department of Marine and Aviation for approval of this occupancy and received an approval on May 27, 1944; that this approval permits the use of the premises for the usual storage and transfer of products and merchandise from cargo ships, as well as its use for repairing, equipping and servicing vessels; that the premises in addition to being equipped with a standpipe system, possesses numerous auxiliary fire preventive, fire fighting and extinguishing apparatus, including a portable pumper unit; that the pier is in direct charge of a Fire Marshal, who employs a dozen or more fire watch aids to patrol the premises, in addition to the U. S. Coast Guard supervision.

Resolved, that Order 9879-LF issued by the fire commissioner, dated January 9, 1943, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

518-45-A

APPLICANT—Lama and Proskauer, for Harry Peritz, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—830-836 Hemlock street, west side, 91 ft. 7½ in. south of Linden boulevard (Block 4486, Lot 12), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama, Harry Peritz and Arthur Peritz.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO GRANT—

Affirmative 0

Not Voting: Commissioner Savage and Deputy Chief Gunn 2

Negative: Chairman Murdock and Commissioner Blum 2

THE VOTE TO RECONSIDER—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (518-45-A)

WHEREAS, Lama and Proskauer, for Harry Peritz, owner, filed August 22, 1945, an appeal from a decision of the borough superintendent, affecting premises 830-836 Hemlock street, west side, 91 ft. 7¼ in. south of Linden boulevard (Block 4486, Lot 12), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated July 28, 1945, on N.B. Applic. 145-45, reads:

"3. Const:—Building which was partially destroyed by fire and demolished under Unsafe Bldg. violation #178-45 was of frame construction (See N.B. 9933-27).

The proposed new Class 3 building does not constitute a restoration within the meaning of Sec. 25 of the zoning resolution."

and

WHEREAS, the applicant states that the building will be one story (15 ft. 6 in.) in height; 30 ft. by 50 ft. in area, of Class 3 construction; located in a residence use, D area and Class 1 height district and to be used and occupied for auto wrecking and storage of used auto parts, 3 persons; and

WHEREAS, Violation U. B. 178-45, issued March 19, 1945, stated: "Building badly damaged by fire. All vertical supports, roof beams and siding badly charred. All roof covering entirely burnt off. Building open to unauthorized persons. Damage about 95%. You are therefore required to have the building demolished"; and

WHEREAS, the applicant contends that up until the early part of 1945, the premises were used for auto wrecking and for storage and sale of used auto parts; that the building was of frame construction, took fire and was destroyed more than 90%; that unsafe Building Violation 178-45, was placed and the structure demolished; that the building was originally erected under N.B. Applic. 4933-27, when such use was permitted on the plot; that the premises were placed in an unrestricted use district on May 10, 1928; that the building originally measured approximately 69 ft. along the westerly lot line; 50 ft. along the southerly lot line; 100 ft. along the northerly lot line and 30 ft. on the easterly lot line; that it is now proposed to erect a new building of Class 3 construction 30 ft. by 50 ft. in area, as under the Building Code a frame building is prohibited; that it is requested permission be granted to construct the building of masonry and reduce its size from what it was when originally constructed; that in view of the fact that Section 25 of the Zoning Resolution permits reconstruction of buildings declared unsafe and the Code prohibits reconstruction of a frame building in this area, it is requested that this appeal be granted; and

WHEREAS, the Board deemed that the proposed Class III building could not be permitted as a matter of right to replace a frame building of larger area and located differently on the lot destroyed by fire and that an application for a Zoning Variance should be filed.

Resolved, that the appeal be and it hereby is *withdrawn.*

522-45-A

APPLICANT—Joseph Kleinberger and Paul Chapman, for Central Hanover Bank and Trust Co., trustee (Atlantic Leasing Co., Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1572-1576 Broadway, 201 West 47th street, northeast corner and 702-708 7th avenue (Block 1019, Lot 29), Borough of Manhattan.

APPEARANCES—
For Applicant: Joseph Kleinberger and Paul Chapman.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (522-45-A)

WHEREAS, Joseph Kleinberger and Paul Chapman, for Central Hanover Bank and Trust Company, trustee (Atlantic Leasing Company, Incorporated, lessee), filed August 23, 1945, an appeal from a decision of the borough superintendent, affecting premises 1572-1576 Broadway, 201 West 47th street, northeast corner and 702-708 7th avenue (Block 1019, Lot 29), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated August 23, 1945, on B. N. Applic. 1982-44, reads:

"1. Proposal to place a sheet metal plaque or sign directly behind existing sign is an enlargement and contrary to Sec. B26-16.0 Adm. Code."

and

WHEREAS, the applicant states the building is 3 stories (40 ft.) in height; 44 ft. 11 in. by 77 ft. 7 in. in area; of Class 3 Construction; erected prior to 1900; located in a retail-1 use B area and Class 2 height district and used and occupied since 1912 as follows: cellar, service men's center, 20 persons; 1st floor, service men's center and stores, 25 persons; 2nd floor, offices, 32 persons; 3rd floor, offices, 32 persons; that no change in use or occupancy is proposed; that the building is equipped with a one source sprinkler system, one interior 3 ft. 8 in. steel stairs, enclosed in partitions of wire lath and cement plaster, without doors; and

WHEREAS, the applicant contends that the existing sign approximately 60 ft. wide and 129 ft. high was originally approved May 29, 1912 and has not been enlarged, rebuilt, structurally altered or relocated since that day; that the sign meets the requirements of the zoning law; that the proposed plaque does not increase the area of the sign exposed to wind; that under Cal. 397-45-A, the Board ruled that "the sign as shown to be double-sided shall be deemed a single sign structure;" that Section B-26-16.0 of the Administrative Code is not intended to interfere with existing property rights; that the existing sign conforms to the Building Code and the mere addition of the proposed plaque behind the existing plaque does not affect these requirements; that the sign is not to be enlarged, rebuilt, structurally altered or relocated in any manner by the mere addition of the proposed plaque; and

WHEREAS, the applicant stated that this appeal is solely for the purpose of obtaining an interpretation of the law and is not a request for variance of the provisions of law; and

WHEREAS, the Board deemed that the proposal constituted an addition to the sign and therefore was contrary to section B26-16 and B26-11.

Resolved, that the decision of the borough superintendent dated August 23, 1945 on B. N. Applic. 1982-44, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

532-45-A

APPLICANT—Kitzler and Nurick, for Lawrence Avenue Building Corp., owner. (Edward Dobbin and Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—134-144 Lawrence avenue, south side, 200 ft. east of East 3rd street (1st floor); (Block 5423, Lot 16), Borough of Brooklyn.

APPEARANCES—
For Applicant: Henry J. Nurick.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (532-45-A)

WHEREAS, Kitzler and Nurick, for Lawrence Avenue Building Corporation, owner (Edward Dobbin & Company, lessee), filed September 5, 1945, an appeal from a decision of the borough superintendent, premises 134-144 Lawrence avenue, south side, 200 ft. East of 3rd street (1st floor); (Block 5423, Lot 16), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 2258-45 dated September 5, 1945, reads:

"6. Proposed change of occupancy from public garage to bottling, packaging and shipping liquid and other products with the right to revert to the present use at the end of five years, cannot now be approved, as the zoning regulations at that time may not permit the public garage use at the location."

and

WHEREAS, the applicant states the building is 1 story (12 ft.) in height, 100 ft. 2 in. by 90 ft. in area; of Class 3 construction; erected in 1924, located in an unrestricted use, C area and Class 1 height district; and used and occupied as follows: cellar, boiler room; 1st floor, bottling, packaging, crating and shipping liquid products and other goods, 21 persons, and proposed to be used and occupied without change and the building to revert to garage use at termination of present lease or its renewal; and

WHEREAS, Violation 2736 issued June 28, 1945 was for changing the occupancy to factory, without a certificate of occupancy; and

WHEREAS, the applicant contends the building was erected 1924 as a public garage and Certificate of Occupancy 28631 issued therefor; that the building is now under lease for bottling, packaging and shipping liquids and other products; that at the termination of the lease, the owner proposes that the building revert to the garage use; that the products handled are non-inflammable; that dressing rooms, toilet space and exits will be provided to the satisfaction of the Department of Housing and Buildings; that the purpose of this application is to protect the owner in the event of a possible use district change, which might prevent the reversion to garage use at some future date; it is therefore requested that the Board grant permission to maintain the present use for a stated period subject to renewal and with the provision that the building revert to public garage use at the termination of the present lease or its renewal.

Resolved, that the decision of the borough superintendent on Alt. Applic. 2258-45, Objection 6, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the proposed use for a term not to exceed the time during which the building is occupied in connection with war contracts as proposed and in no event later than May 31, 1947 and to permit the building to be restored as a garage for more than five (5) motor vehicles after that date, *on condition* that meanwhile, the building shall comply with all laws, rules and regulations applicable thereto.

560-45-A

APPLICANT—Sidney L. Strauss, for Atland Holding Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1203 Atlantic avenue, north side, 265 ft. west of Nostrand avenue (2nd floor); (Block 1866, Lots 12 and 13), Borough of Brooklyn.

APPEARANCES—
For Applicant: Sidney L. Strauss.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (560-45-A)

WHEREAS, Sidney L. Strauss, for Atland Holding Corporation, owner, filed September 20, 1945, an appeal from a decision of the borough superintendent, affecting premises 1203 Atlantic avenue, north side, 265 ft. west of Nostrand avenue (2nd floor); (Block 1866, Lots 12 and 13), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 2603-45, dated September 20, 1945, reads:

"1. Exists to comply with Section 270 of Labor Law.

2. Floors to be adequate for 120 lbs. per sq. ft. live load."

and

WHEREAS, the applicant states the building is 2 stories (32 ft.) in height; 90 ft. by 99 ft. 1 in. in area; of Class 3 construction; located in an unrestricted use, C area and Class 1¼ height district, and used and occupied as follows: cellar, boiler room; 1st floor, U. S. Post Office, 50 persons; 2nd floor, public garage, 5 persons; and proposed to be used and occupied: cellar, same; 1st floor, same; 2nd floor, metal parts factory, 20 persons, and non-public post office; that the building is equipped with one interior 44 in. wide fireproof stairs, equipped with one hour self-closing doors and leading directly to the street and provided with a ladder and scuttle to the roof; and

WHEREAS, the applicant states that the cellar is used as a boiler room, the first floor as a post office, the second floor was originally erected as a public garage and post office and that it is now proposed to convert the garage portion of the 2nd floor to a factory manufacturing small metal parts; and

WHEREAS, the applicant contends that the Labor Law requires two means of egress and it is proposed to erect a new fireproof interior stair, as indicated on plans filed with this appeal, as additional means of egress and to use the existing ramp which is of fireproof construction, extending from 2nd floor directly to the street, as a third means of egress; that the **ramp has no enclosure** at the 2nd floor, but it is now proposed to be enclosed at 2nd floor with fireproof partitions and one hour test fireproof doors, leading thereto and to install proper exit doors at the foot of the ramp leading to the street; that the existing interior stair, which is fireproof enclosed on the 2nd floor but open on the first floor, is entirely within the post office space and in an emergency, access could be had to this stair; that the 2nd floor is designed to sustain 85 lbs. live load; that the proposed use will be light and permission is requested to post this floor for 75 lbs. and

WHEREAS, Certificate of Occupancy 70073 issued January 12, 1933 permits the use of the building as a post office and public garage.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 2603-45 and that the appeal be and it hereby is *granted,* as to Objection 1, *on condition* that in addition to the proposed stairway 4 ft. in width leading to Herkimer place, there shall be constructed and maintained a fire escape from the easterly side of the Herkimer place portion of the premises, with a counter balanced stair complying with the requirements of the Labor Law; that the existing ramp may be continued with a fireproof self-closing door as proposed, but shall not be deemed as a permitted means of exit; as to Objection 2, that the floor load of 75 lbs. per sq. ft. may be permitted for light manufacturing as proposed, provided the floor at no time shall be loaded beyond such carrying capacity; that the approved floor load shall be posted; that such portable fire-fighting appliances shall be maintained within the space proposed to be occupied for factory purposes as the fire commissioner

shall direct; that the building shall not be increased in height or area, except for the stair as proposed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that a new certifificate of occupancy shall be obtained.

571-45-A

APPLICANT—Wininger & Selby, Inc., for Third Avenue Transit Corp. (Successor to Third Ave. Railway Co.), owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1391 Amsterdam avenue, east side, between West 128th and West 129th streets (Block 1968, Lot 1), Borough of Manhattan.

APPEARANCES—

For Applicant: Arthur C. Mandel, Frank E. Seeney, Edward Wininger and Raymond L. Brandin.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (571-45-A)

WHEREAS, Wininger & Selby, Incorporated for Third Avenue Transit Corporation (Successor to Third Avenue Railway Company) owner, filed September 27, 1945, an appeal from a decision of the borough superintendent, affecting premises 1391 Amsterdam avenue, east side, between West 128th and West 129th streets (Block 1968, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, acting on Misc. F.P. Applic. 1701-45, dated September 19, 1945, reads:

"1. The proposed installation of four (4) 5000 gallon tanks to hold Diesel Oil is contrary to C19-51 a.1 of the Adm. Code, which limits the tanks to 550 gallons each.

"2. Pumps not to be installed below grade level."

and

WHEREAS, the applicant states that the building will be one story (26 ft.) in height; 200 ft. by 367 ft. in area; of Class 1 construction; located in an unrestricted use, B area and Class 1½ height district, and used and occupied as follows: 1st floor, bus repair and storage, 60 persons; mezzanine, locker rooms, office, recreation, etc., 100 persons; that the building will be equipped with an approved two source sprinkler system; and

WHEREAS, it is proposed to install four 5,000 gallon Diesel oil tanks for servicing of approximately 200 45 passenger buses powered by Diesel electric motors; and

WHEREAS, the applicant contends as to Objection 1 of the borough superintendent's decision, that the proposed four 5,000 gallon Diesel oil storage tanks will be installed in lieu of thirty-six (36) 550 gallon tanks, to eliminate hundreds of pipe fittings, each one of which is a possible source of leakage; eliminate 40 valves which would be required to control these thirty-six (36) 550 gallon tanks; that the Diesel oil is not a volatile liquid; and

WHEREAS, the applicant contends as to Objection 2, that there is an existing deep basement on the present property in which the Diesel oil tanks will be placed; that this is a firm base and will eliminate the likelihood of settlement and, therefore, possible leakage; that there is ample space between the tops of these tanks and the bottoms of the work pits overhead, to install the pumps; that there is no space on the main floor level to place the pumps, without seriously impairing the efficiency of bus operation and storage; that the suction lift of rotary pumps is a maximum of 12 ft.; that even if the tanks were placed hard against the underside of the pits, the lift would still be in excess of 12 ft.; that it is essential to conserve and utilize all possible main floor space for bus operation; that at best, there is hardly enough room available in this garage for the number of buses that are required at this station; that if forced to place the pumps on the main floor, it would impose an additional hardship; that it is proposed to locate these pumps in a space where there will be two means of egress and which will be provided with ample ventilation by means of louvered doors and air ducts; that Diesel oil is not a volatile liquid, and while the Code states that no gasoline pumps may be installed below grade, it is not proposed to dispense gasoline; that this installation is similar to an oil burner pump, of which there are many thousands installed below grade in the City of New York.

Resolved, that the decision of the borough superintendent on Misc. F.P. Applic. 1701-45, dated September 19, 1945, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the tanks shall be used for storing only the Diesel oil (fuel oil No. 2); that the construction of the tanks shall comply with the requirements for similar size tanks in the Oil Burner Rules of the Board; that the installation of tanks shall be substantially as proposed and as shown on plans filed with this appeal marked "Received September 27, 1945," three sheets, to the satisfaction of the fire commissioner; as to objection 2, that the motor-driven pumps may be installed as shown on such plans, provided they are sparkproof and of a type satisfactory to the fire commissioner; that the entire installation shall meet the requirements of all departments having jurisdiction and shall be maintained to the satisfaction of the fire commissioner; that the ventilation of the pump space shall be by means of louver doors and air ducts, as described and shown on such plans; that the outward flow of air through the ducts shall be actuated by means of an electrically driven fan connected with the dispensing system, so as to assure operation when the pumps are being operated; that the installation of filling pipes and vents shall be in accordance with the requirements of the Administrative Code and the Oil Burner Rules of the Board; that there shall be no gasoline storage tank installed on the premises; that such automatic fire-fighting appliances consisting of a foam system or other system as required by the fire commissioner, shall be installed in connection with the pump room and storage tanks; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

572-45-A

APPLICANT—Joseph S. Ammirati, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—185-02 to 185-10 Ilion avenue, inclusive, south side, and 185-03 to 185-11 Jordan avenue, inclusive, north side and east side of Dunkirk street, from Ilion to Jordan avenues (Block 10409, Lot 26), St. Albans, Borough of Queens.

APPEARANCES—

For Applicant: William G. Burke.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (572-45-A)

WHEREAS, Joseph S. Ammirati, owner, filed September 27, 1945, an appeal from a decision of the borough superintendent, affecting premises 185-02 to 185-10 Ilion avenue, 185-03 to 185-11 Jordan avenue and east side of Dunkirk street, from Ilion avenue to Jordan avenue (Block 10409, Lot 26), St. Albans, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated September 17, 1945, re N.B. Applics. 1162 through 1167—1945, reads:

"1. Proposed erection of frame buildings inside of fire limits is contrary to Section 4.1.2 Bldg. Code."

and

WHEREAS, the premises consist of a plot fronting 216 ft. on Dunkirk street, 111 ft. on Ilion avenue and 171 ft. on Jordan avenue, located in a business and residence use, D area and Class 1 height district, which it is proposed to subdivide into seven lots and to erect on each lot, a one-story, one-family dwelling 24 ft. 6 in. by 39 ft. 2 in. in area, 23 ft. in height, as indicated on plans filed with this appeal marked "Received September 27, 1945"; that the dwellings will be set back from Ilion avenue 30, 22 and 25 feet respectively and from Jordan avenue 27, 25, 27 and 30 feet, respectively and from Dunkirk street 5 ft. 11 in. and 11 ft. 4 in., respectively; that the dwellings will be surfaced on the exterior with masonry veneer to the plate line and with asbestos shingles above; that the side yards will be not less than 5 ft. 2 in. in width and will be provided along the northerly lot lines of the dwellings fronting on Ilion avenue and not less than 15 ft. will be maintained between the buildings; that the dwelling to be erected at 185-17 Jordan avenue, indicated on plot plan filed with this appeal, will be located on the portion of the lot zoned for residence use and therefore not subject to this appeal; that front entrance steps will project into front setbacks not more than five feet and chimney breasts will project into rear yards approximately 2 feet; and

WHEREAS, the applicant contends that each dwelling be limited to one-family occupancy; that the construction as proposed, will bring the dwellings into conformity with the type of construction and architecture existing in the surrounding area; that it will be impossible for the applicant under the present conditions, to comply with the Code within the price range for which these dwellings must sell and it will be impossible to achieve the architectural features desired for this locality, unless relief is granted from the objections of the borough superintendent; that any private garages erected on the plots will be of Class 3 construction to the plate line and located not nearer than one foot to the side and rear lot lines, with roofs surfaced with approved asphalt shingles or other incombustible materials and the rear walls, if of frame construction above the plate line, will be brick filled between studs, or if such garages are of frame construction, they will be masonry veneer to the plate line and constructed above plate line as described above.

RESOLVED, that the decision of the borough superintendent on N.B. Applications 1162 to 1167-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building on each lot shall be limited to residential use and for one family only; that the dwellings shall be constructed substantially as proposed; that any garage erected in connection with each dwelling shall be a private garage for the use of such dwelling and shall comply with the requirements of the zoning resolution therefor; that as soon as lot numbers have been assigned, record of same shall be filed under the above application with the borough superintendent and a copy of such notification filed with this Board; that application shall be filed with the City Planning Commission for change of the area of the plot covered by this appeal for business use to residence use; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

573-45-A

APPLICANT—Stanley H. Klein, for Vanzan Realty Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—51-01 to 51-71 Marathon parkway, incl., east side, from south side of Cambria avenue to north side of 52nd (Brattle) avenue (Blocks 8236, part of Lot 6, 8237, part of Lot 12 and 8238, part of Lot 1), Little Neck, Borough of Queens.

APPEARANCES—

For Applicant: John Menichino.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (573-45-A)

WHEREAS, Stanley H. Klein, for Vanzan Realty Corp., owner, filed September 27, 1945, an appeal from a decision of the borough superintendent, affecting premises 51-01 Marathon parkway, southeast corner Cambria avenue, 51-11 to 51-19 Marathon parkway, northeast corner Van Zandt avenue, 51-29 to 51-45 Marathon parkway, east side, between Van Zandt avenue and 51st (Sanborn) avenue, 51-55 to 51-71 Marathon parkway, east side, between 51st (Sanborn) avenue and 52nd (Brattle) avenue (Block 8236, part of Lot 6; Block 8237, part of Lot 12 and Block 8238, part of Lot 1), Little Neck, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated September 12, 1945, on N.B. Applications 1131-1144 of 1945 inclusive, reads:

"1. Proposed erection of frame buildings inside the fire limits is contrary to Sec. 4.1.2., Building Code."

and

WHEREAS, the premises consist of four parcels as follows: 51-01 Marathon parkway, southeast corner Cambria avenue, N.B. Applic. 1131-45, 40 ft. front by 95.25 ft. deep; 51-11 to 51-19 Marathon parkway, northeast corner of Van Zandt avenue, 120 ft. front by 91.37 ft. in depth; 51-29 to 51-45 Marathon parkway, 200 ft. front by 84.91 ft. in depth on Van Zandt avenue and 91.48 ft. in depth on 51st avenue; 51-55 to 51-71 Marathon parkway, east side, between 51st and 52nd avenues, 200 ft. front by 89.78 ft. and 98.74 ft. in depth; that it is proposed to divide these premises into four separate plots and to divide three of these plots into lots 40 ft. in width and to erect on each lot, a one and one-half story frame, one family dwelling (and garage), 22 ft. in height, 26 ft. 4 in. by 36 ft. in area; that the dwellings will be set back from Marathon parkway a distance of 20 ft. and into each setback, front entrances and steps will project; that corner dwellings will be set back from the side building lines a distance of 8 ft. 8 in.; that side yards will be provided for a width of 6 ft. along the southerly lot lines where each of the dwellings is to be erected on interior lots and for a width of 5 ft. along the interior side lot lines of the corner dwellings; and

WHEREAS, the applicant contends that Marathon parkway is in a business use district, both sides for a depth of 100 ft.; that the entire area is in an E area district and the section beyond the 100 ft. business zone, is residential; that there are old frame dwellings on the west side of Marathon parkway directly opposite the premises and more recent brick veneer dwellings are to the north; that there is an existing brick veneer 2½ story frame dwelling at 51-05 Marathon parkway, which was erected in 1933; that there are no buildings on Marathon parkway south of 52nd avenue to Horace Harding boulevard; that as the proposed dwellings will be in harmony with the character of the area and as this property is not needed for business, it is requested that the Board grant a variation of the provisions of the Building Code to permit the construction of the frame dwellings as proposed.

Resolved, that the decision of the borough superintendent on N.B. Applications 1131-1144 of 1945, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building on each lot shall be limited to residential use and for one family only; that

the dwellings shall be constructed substantially as proposed; that as soon as lot numbers have been assigned, record of same shall be filed under the above application with the borough superintendent and a copy of such notification filed with this Board; that application shall be filed with the City Planning Commission for change of the area of the plot covered by this appeal for business use to residence use; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Negative 0

THE RESOLUTION (306-37-BZ)

WHEREAS, this application, under section 7h of the zoning resolution, permitting in a retail use district, the parking and storage of more than five motor vehicles, for a term of two years, affecting premises 238-242 West 50th street, south side, 125 ft. east of Eighth avenue (Block 1021, Lots 57, 58 and 59), Borough of Manhattan, was granted by the Board October 26, 1937, on certain conditions; and

WHEREAS, the permit was extended on October 10, 1939, October 21, 1941 and October 13, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 26, 1937, only so far as it has reference to the term of the permit, so that as *amended*, this portion of the resolution shall read:

"*Granted* under section 7h, to permit on Lots 57 and 59 the parking and storage of more than five motor vehicles for a term of two (2) years from the date of this *amended* resolution, and to permit the occupied rear portion of Lot 58 to be used in conjunction therewith for the same use, *on condition* . . . and that other than as herein *amended*, the conditions of the resolution of October 10, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

(Remaining minutes of the meeting of October 2, 1945 will be printed in the Bulletin of October 16, 1945.)

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Minutes of Regular Meeting of Tuesday Morning, October 9, 1945, Affecting Calendar Numbers 293-45-BZ, 354-45-BZ, 309-45-BZ, 535-45-BZ, 624-39-BZ, 968-40-BZ, 585-42-BZ, 399-45-A and 531-45-A.

Minutes of Regular Meeting of Tuesday Afternoon, October 9, 1945, Affecting Calendar Number 212-45-A, 327-45-A, 427-45-A, 511-45-A, 142-45-A, 391-44-A, 533-45-A, 407-44-A, 416-45-A, 37-45-A, 328-45-A, 561-45-A, 582-45-A, 130-42-SM and 737-39-BZ.

(Remaining minutes of the meeting of October 9, 1945 will be printed in the Bulletin of October 23, 1945.)

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION
10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

OCTOBER 16, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, October* 16, 1945 at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

150-45-BZ—Application, March 15, 1945, under sections 7e, 7i and 21 of the zoning resolution, of Henry P. Nordheim, applicant, on behalf of Marion A. Mallon, owner (Edmund Fucci, lessee), to permit in a business use district, the change of occupancy from an existing garage to motor vehicle repair shop; premises 3327 Boston road, west side, 27.5 ft. north of East 211th street (Block 4706, Lot 76), Borough of The Bronx.

351-45-BZ—Application, May 29, 1945, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Precision Realty Corp., owner, to permit in a business and residence use district, the change in occupancy from a bakery, private garage, office and storage, to factory, garage for five motor vehicles, storage, showroom and office with manufacturing in the business zone in excess of lot area; premises 79-01 to 79-11 Rockaway Beach boulevard and 177-199 Beach 79th street, southwest corner (Block 615, Lot 30), Rockaway Beach, Borough of Queens.

475-45-BZ—Application, July 31, 1945, under sections 7c and 21 of the zoning resolution, of Colonial Beacon Oil Co., applicant, on behalf of Chichester Realty Co. and Margaret Skene, owners, to permit in a business use district, the reconstruction and extension in area of an existing gasoline service station; premises 75-03 to 75-17 Rockaway boulevard and 91-02 76th street northwest corner (Block 8948, Lots 32 and 38), Woodhaven, Borough of Queens.

481-45-BZ—Application, July 27, 1945, under section 21 of the zoning resolution, of Chadbourne, Wallace, Parke & Whiteside (David I. Shivitz, of Counsel), applicants, on behalf of Morewood Realty Corp., owner (Saks & Co., lessee), to permit in a restricted retail district, the erection of an addition to a building exceeding the area limitations; premises 1293-1311 Broadway, 102 West 34th street, southwest corner and 105 West 33rd street (Block 809, Lot 45), Borough of Manhattan.

354-45-BZ—Application, June 5, 1945, under section 7c of the zoning resolution, of Louis C. Wills, applicant, on behalf of L. R. Realty Co., Inc., owner, to permit in a business and residence use district, the conversion of occupancy of a garage (previously granted by Board) to a factory; premises 341-347 Reid avenue, and 63-79 Marion street, northeast corner (Block 1692, Lot 1), Borough of Brooklyn.

535-45-BZ—Application, September 7, 1945, under sections 7b, 7c, 7e and 21 of the zoning resolution, of Paul Friedman, applicant, on behalf of Helena Morrissey and William J. Flanagan (Executors under Will of Matthew J. Morrissey, deceased), owners, to permit in a partly residence and partly business use district, the alteration and conversion of garage and auto repair shop to curtain cleaning plant; premises 403-405 East 123rd street, north side, 75 ft. east of 1st avenue (Block 1811, Lot 5), Borough of Manhattan.

256-45-BZ—Application, May 2, 1945, under sections 7c and 21 of the zoning resolution, of Samuel J. Resnick, applicant, on behalf of Angelo Rodolico, Vincenzo Bongiorno, Sebastiano Rodolico and Guiseppe Rodolico, owners (Jack Wollenberg, lessee), to permit in a residence and local retail use district, the inclusion of auto repairs, auto painting, and fender and body repairs, in an existing garage for more than five automobiles; premises 1732-1740 Pacific street, south side, 75 ft. west of Utica avenue (Block 1342, Lot 40), Borough of Brooklyn.

310-45-BZ—Application, May 23, 1945, under section 7f of the zoning resolution, of Josephine Linnemeyer, applicant and owner, to permit in a business use district, the erection of a one-story brick building to be used as a store and gasoline filling station with auto laundry and lubritorium; premises 258-15 Hillside avenue and 83-60 259th street, northwest corner (Block 8770, Lot 1), Queens Village, Borough of Queens.

550-45-BZ—Application, September 14, 1945, under section 7c of the zoning resolution, of Horace Ginsbern, applicant, on behalf of 248 West 18th Street Corp., owner, to permit partly in a residence and partly in a retail district, the change of occupancy from a stable for more than five horses, to manufacturing and bakery; premises 248-252 West 18th street, south side, 100 ft. east of 8th avenue (Block 767, Lot 68), Borough of Manhattan.

241-33-BZ—Application, of Gale Realty Corp. and Charles M. Spindler, applicants, on behalf of North American Oil Corp., owner, reopened June 26, 1945, under sections 7c and 21 of the zoning resolution, to permit the change in use from a former gasoline service station (now vacant) to gasoline service station, lubrication, auto washing, office and accessory sales; premises 875-881 4th avenue, northeast corner of 33rd street (Block 681, part of Lot 1), Borough of Brooklyn.

530-45-BZ—Application, September 5, 1945, under sections 21 and 7e of the zoning resolution, of Ervin Palmer, applicant, on behalf of Jacob Ruppert, owner (Walter Schultz, lessee), to permit in a residence and unrestricted use district, an automobile repair shop for a term of two years; premises 436-440 East 93rd street, south side, 51 ft. 6 in. west of York avenue (Block 1572, Lot 30), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

OCTOBER 16, 1945, 2 P. M.

HARRIS H. MURDOCK, *Chairman.*

NOVEMBER 7, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Wednesday morning,* November 7, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

296-45-BZ—Application, May 14, 1945, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Ida Gottfried, owner, to permit in a business use district, the reconstruction and extension of gasoline service station (previously granted by the Board); premises 1769-1779 Coney Island avenue, east side, 315 ft. south of Avenue N (Block 6749, Lots 78 and 81), Borough of Brooklyn.

322-45-BZ—Application, May 29, 1945, under sections 7e, 7i and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Israel Fleiss, owner, to permit in a partly residence and business use district, the change in occupancy from stores to motor vehicle repair shops; premises 2243-2259 White Plains road, west side, 65 ft. north of Thwaites place (Block 4342, Lot 39), Borough of The Bronx.

408-45-BZ—Application, June 29, 1945, under section 7i of the zoning resolution, of Jack Z. Cohen, applicant, on behalf of DAF Holding Corp., owner (David Anhisiger, lessee), to permit in a business use district, the change of occupancy from auto laundry and brake testing station, to motor vehicle repair shop; premises 561 Utica avenue, east side, 265 ft. south of Rutland road (Block 4604, Lot 71), Borough of Brooklyn.

528-45-BZ—Application, August 31, 1945, under section 21 of the zoning resolution, of William I. Hohauser, applicant, on behalf of Simon Ginsberg Estate, Inc., owner, to permit in a residence use district, the change of occupancy from store and showrooms to store and doctor's offices; premises 1082 Park avenue, west side, 25.85 ft. north of East 88th street (Block 1500, Lot 34), Borough of Manhattan.

97-45-BZ—Application, February 26, 1945, under section 21 of the zoning resolution, of Alden B. MacNeil, applicant, on behalf of Abe L. Malamut, owner, to permit in a residence use, G area district, the existing storm enclosure in the side yard; premises 108-22 66th road, south side, 100 ft. east of 108th street (Block 2175, Lot 16), Forest Hills, Borough of Queens.

423-45-BZ—Application, July 2, 1945, under sections 7 (b), 7(c) and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Mt. Eden Construction Corp., owner, to permit in a residence and business use district, the extension of present building and to occupy more than 65% of the area of the lot in B area; premises 101-115 East Mt. Eden avenue and 1600-1606 Walton avenue, northeast corner (Block 2838, Lot 1), Borough of The Bronx.

548-45-BZ—Application, September 13, 1945, under sections 7(b) and 21 of the zoning resolution, of Stanley Lieberman, applicant, on behalf of Scandinavian Good Templars Temperance Mission of N. Y. C., owner, to permit partly in a residence use district, and partly in an unrestricted use district, the alteration and conversion of occupancy from clubrooms, office and one-family to funeral chapel and one-family; premises 641 66th street, north side, 325 ft. east of 6th avenue (Block 5829, Lot 53), Borough of Brooklyn.

265-28-BZ—Application of Herman Kron, applicant, on behalf of Ottilia Realty Corp., owner (Hamilton Buick, Inc., lessee), reopened October 2, 1945, under sections 7(e) and 7(i) of the zoning resolution, to permit in a business and residence use district, the extension (of use) of garage for more than five cars to garage for more than five cars, repair shop, sales of auto parts and auto showroom; premises 3181 Westchester avenue, west side, 140.49 ft. south of Wilkinson avenue (Block 4235, Lot 43), Borough of The Bronx.

NOVEMBER 13, 1945, 10 A. M

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, November* 13, 1945. at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

Negative 0

THE RESOLUTION (968-40-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 168-33 Jamaica avenue, north side, 111.50 ft. west of 169th street (Block 9799, Lots 7 and 42), Jamaica, Borough of Queens, was granted by the Board on January 14, 1941, on certain conditions; and

WHEREAS, the permit was extended on February 16, 1943 and the applicant requested a further extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on September 11, 1945, restored to the calendar and set for hearing on October 2, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its reguar meeting October 2, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the premises are now owned by the Brown Company, 435 Fulton street, Brooklyn, New York.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 14, 1941, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the premises as indicated on plot plan marked "Received December 11, 1940" to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* . . . that other than as herein *amended*, the provisions of the resolution of January 14, 1941 shall be complied with and that a certificate of occupancy shall be obtained (Misc. Applic. 4185-45)."

585-42-BZ

APPLICANT—Lama and Proskauer, for Socony-Vacuum Oil Co., Inc., owner.

SUBJECT—Application reopened February 6, 1945—Application (decision of the borough superintedent) under section 7c of the zoning resolution, to permit in a business use district, the extension in area of an existing gasoline service station and also the erection and maintenance of a building to be used as a laundry and lubritorium (previously withdrawn).

PREMISES AFFECTED—4091 Hylan boulevard and 293 Nelson avenue, northeast corner (Block 5158, Lot 37), Great Kills, Borough of Richmond.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposion: None.

For Administration: Fred. Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (585-42-BZ)

WHEREAS, this application under section 7c of the zoning resolution, to permit in a business use district, the extension in area of an existing gasoline service station and also the erection and maintenance of a building to be used as a laundry and lubritorium, affecting premises 4091 Hylan boulevard and 293 Nelson avenue, northeast corner (Block 5158, Lot 37), Great Kills, Borough of Richmond, was withdrawn on November 16, 1943, after argument; and

WHEREAS, the applicant requested a reopening of the application and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on February 6, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 9, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Hylan boulevard and Nelson avenue are in a business use, D area and Class 1 height district and Tarlee place is in a residence use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 11, 1945 on N. B. Applic. 555-42 reads:

"The proposed gasoline service station together with a lubritorium and car washing service with extension of area is not permitted in a business zone.
(Zone Res. Art. II—Sec. 4-a-46)"

and

WHEREAS, the applicant states that the premises consist of a plot, 113.83 ft. frontage by 105.66 ft. in depth, on which is located a one story frame office, 16 ft. by 20 ft. in area, a one story frame shed, 16 ft. by 16 ft., a grease pit, a lift and four pumps and that it is proposed to reconstruct this gasoline service station, by extending it to the northeast, an additional 9.88 ft. on Hylan boulevard, to remove the frame building and erect a new building, 43 ft. 8 in. by 26 ft. 8 in. for office and lubritorium and to relocate the pumps; and

WHEREAS, the applicant contends that the facilities which now exist at the site are inadequate to carry on the business and operate properly; that the old frame buildings have become obsolete, and the outside lubricating pits are detrimental to both the appearance of the site and the neighborhood; that the old street grades are hazardous and would require a resetting of the buildings to adjust the level to suit the requirements of the surrounding street grades which have been lowered since the original construction of this station; that it is proposed to remove the old buildings, outside lift, and pits entirely properly regrade the entire site and erect a new modern masonry and stucco service station building, as indicated on the plans filed with the application; that a new office, toilets and proper heating facilities will be provided; that all lubrication work, car washing, etc. will be done inside the building; that it is also proposed to extend the area of the service station so as to include the entire premises as shown on deed to the property, a copy of which deed has been filed with this application; that the proposed extension would include a triangular shaped area at the northerly end of the legal gasoline service station, having a frontage of 5.66 ft. on Nelson avenue and a depth of 123.04 ft.; that the proposed extension will also include an irregular shaped area at the easterly side of the legal gasoline service station, having a frontage of 9.8 ft. on Hylan boulevard, 100 ft. along the easterly lot line and 20.04 ft. along the northerly lot line; that a variance from the Borough Superintendent's ruling is requested under Section 7c of the zoning resolution, to permit the proposed building in a business district; that this redevelopment is necessary to relieve the owner of a hazardous condition and hardship in operation of his business; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, to permit the lawfully existing gasoline service station to be extended as proposed and to be re-arranged substantially as indicated on plans filed with this application marked "Received May 27, 1943," sheets a, b, c and d, and sheet No. 6 marked "Received November 1, 1943" *on condition* that all existing buildings and structures shall be entirely removed from the premises and the plot shall be re-arranged substantially as proposed, except that the accessory building shall be of Georgian design, constructed of face brick with a pitched roof surfaced with natural slate; that the entire plot, where not covered by the accessory building, pumps and planting, shall be paved with cement or asphalt; that the gasoline pumps shall be erected not nearer than ten (10) feet to the existing street building line; that the base of such pumps shall be of brick of the parkway type and conforming in design with the accessory building; that the accessory building shall be arranged as proposed with office and lubritorium; that the greasing rack shall be of the hydraulic type; that the heater room shall be separated from the balance of the building by fireproof construction and enterable only from the exterior; that signs shall be restricted to the portable globes of the gasoline tanks and to a permanent sign attached to the facade of the accessory building and to one post standard within the building line at the intersection, for supporting a sign advertising only the brand of gasoline on sale and permitting such sign to be illuminated and to extend beyond the building line for a distance of not more than four (4) feet; that planting areas suitably landscaped shall be maintained as indicated on plan No. 6; that such planting areas shall be protected with a concrete curb not less than 12 in. in height and not less than 6 in. in width, on a suitable foundation; that along the westerly and easterly interior lot lines, there shall be installed a fence as proposed and as indicated on drawing No. 6, which shall be erected on a concrete base; that such fence may be of wood, provided the wood fencing is kept properly painted and is not less than four (4) feet in height above the 12 in. concrete base; that curb cuts shall be restricted to the two existing curb cuts on Hylan boulevard, not over 48 ft. in width and one curb cut on Nelson avenue, not over 25 ft. in width; that the curbing shall be restored where not herein permitted for curb cuts and a new cement sidewalk shall be constructed on both street frontages of the premises; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that no additional uses shall be maintained on the premises other than the main use as a gasoline service station and accessory use of washing and greasing of motor vehicles and the sale of motor vehicle accessories; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 53-45-A; that in the event the portion of the premises along Nelson avenue permitted to be maintained as a part of the gasoline service station under Cal. 53-45-A, is taken by the City for street widening of Nelson avenue, all pumps, light poles, air meter, sign posts and any other equipment shall be removed and replaced within the reduced plot, no gasoline pumps to be nearer than 10 ft. of the proposed building line and the existing curb cut to Hylan boulevard shall be reduced in width, so that no portion of the curb cut shall be nearer than 5 ft. from the new building line of Nelson avenue as extended; that there shall be erected at the intersection, a block of concrete not less than 5 ft. along either street building line, segmental in shape, and upon the widening of Nelson avenue, a similar block of concrete shall be constructed at the new intersection; that complete working drawings shall be submitted for the approval of the Board before same are filed with the borough superintendent and such plans shall be filed within two months; that after approval of plans, all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

399-45-A

APPLICANT—Stanley Kilburn, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—209-01 to 209-19 Northern boulevard, north side, between Corporal Kennedy street (Stewart avenue) and 209th street (Wright avenue); (Block 6279, Lot 21), Bayside, Borough of Queens (Under section 35, General City Law re bed of mapped street—Corporal Kennedy street (Stewart avenue).
APPEARANCES—
For Applicant: Berg J. Jensen.
For Opposition: Fred Rothstein.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to October 23, 1945 at 10 A.M., at request of applicant.

531-45-A

APPLICANT—Lama and Proskauer, for Socony-Vacuum Oil Co., Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—4091 Hylan boulevard and 293 Nelson avenue, northeast corner (Block 5158, Lot 37), Great Kills, Borough of Richmond (Under section 35, General City Law re bed of mapped street—Nelson avenue).
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (531-45-A)

WHEREAS, Lama and Proskauer, for Socony-Vacuum Oil Company, Inc., owner, filed August 15, 1945 an appeal from a decision of the borough superintendent, affecting premises 4091 Hylan boulevard and 293 Nelson avenue, northeast corner (Block 5158, Lot 37), Great Kills, Borough of Richmond; and

WHEREAS, the decision of the borough superintendent, dated July 30, 1945, on N.B. Applic. 555-42, reads:

"2. The proposed gasoline service station, together with a lubritorium and car washing service is not permitted, as it will encroach into the bed of a mapped street. (General City Law—Section 35)."

and

WHEREAS, the applicant states that the proposed building will be 1 story (15 ft.) in height, 43 ft. 8 in. by 26 ft. 8 in. in area, of class one construction, located in a business use, D area and Class 1 height district and to be used and occupied as a gasoline service station, office and lubritorium, as indicated on application filed with the Board under Cal. 585-42-BZ; and

WHEREAS, the applicant contends that the premises are improved with a gasoline service station which consists of old frame buildings; that it is intended to remove the frame buildings and reconstruct a new building 50 ft. from the present building line of Nelson avenue and 45 ft. from the building line of Hylan boulevard; that the pumps facing Nelson avenue will be located 10 ft. from the present building line which will place them in the bed of a mapped street; that sufficient space remains between the location of the proposed new building and the proposed building line, to permit relocation of the pumps 10 ft. from the proposed building line, in the event of the widening of Nelson avenue.

Resolved, that the decision of the borough superintendent on N.B. Applic. 555-42, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under section 35 of the General City Law, to permit this portion of the premises to be continued as part of the gasoline service station, pending the proposed widening of Nelson avenue for a depth of approximately 15 ft., as shown on plans filed with this appeal marked "Received August 15, 1945," *on condition* that in the event this portion of the premises is taken by the City for the widening of Nelson avenue, no claim will be made other than for the fair value of the land so taken: that the requirements of the resolution adopted by the Board under Cal. 585-42-BZ shall be complied with.

Adjourned: 11:35 A.M.

JOSEPH J. DOYLE,
Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, OCTOBER 9, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS.

212-45-A

APPLICANT—Herman Kron, for Long Acre Properties, Inc,. owner (Lewis J. Hoffman, lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—441-443 West 40th street, north side, 75 ft. west of Dyer avenue and 440-444 West 41st street (1st floor); (Block 1050, Lots 12, 13, 53, 153 and 54), Borough of Manhattan.
APPEARANCES—
For Applicant: Herman Kron.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (212-45-A)

WHEREAS, Herman Kron, for Long Acre Properties, Inc., owner, filed on April 6, 1945, an appeal from a decision of the borough superintendent, affecting premises 441-443 West 40th street, north side, 75 ft. west of Dyer avenue and 440-444 West 41st street (1st floor); (Block 1050, Lots 12, 13, 53, 153 and 54), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated July 17, 1945, on amendment to N.B. Applic. 83-45, reads:

"6. Under Article V, Section 21-A of the zoning resolution, the entrance to or exit from a garage is not permitted if it is situated on either side of any portion of a street between two intersecting streets on which portion there exists an exit or entrance to a public library or school."

and

WHEREAS, the applicant states that the building will be 1 story (17 ft.) in height; 50 ft. by 197 ft. 6 in. in area; of Class 3 construction; located in an unrestricted and retail use district and occupied—shipping, storage and garage for more than 5 cars, 10 persons; and

WHEREAS, the applicant contends that the building will run through from West 40th street to West 41st street; that it is proposed to use the 40th street side as a garage for more han 5 motor vehicles and the 41st street side as a shipping and storage space; that the premises on 40th street is located on the north side, 75 ft. west of Dyer avenue; that there is a church with parochial school on the south side of 40th street between Dyer avenue and 9th avenue, which in the applicant's opinion does not conflict with Section 21-A in the Building Zone Resolution; that the zoning resolution has no definition of the word "street" and it is conceded that Dyer avenue was acquired and improved by the Port Authority as an approach to the Lincoln Tunnel and will never be closed as long as the Lincoln Tunnel is in existence; that Dyer avenue is used as a public highway by motorists and the public and should be considered as a public street whether the city has title to it or not; it is therefore requested that the Board reverse the decision of the borough superintendent and permit the use of the proposed building as a garage; and

WHEREAS, this appeal was filed solely to determine as a matter of law, whether the decision of the borough superintendent appealed from is correct; and

WHEREAS, the Board found that Dyer avenue is a private approach to the Lincoln Tunnel and is not a street within the meaning of Section 21A of the zoning resolution and that the decision of the borough superintendent is correct; and

WHEREAS, under the provisions of section 7, subdivision g, the applicant has the remedy of applying for a zoning variance under the procedure prescribed by the rules of the Board.

Resolved, that the decision of the borough superintendent, dated July 17, 1945, on amendment to N.B. Applic. 83-45, objection 6, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

327-45-A

APPLICANT—M. Martin Elkind, for Budget Holding Corporation, owner.
SUBJECT—Appeal from a decision of the borough superintendent.

MINUTES

PREMISES AFFECTED—41-03 Broadway and 31-89 41st street, northeast corner (1st floor); (Block 679, Lot 7), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: M. Martin Elkind.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (327-45-A)

WHEREAS, M. Martin Elkind, for Budget Holding Corporation, owner, filed May 29, 1945, an appeal from a decision of the borough superintendent, affecting premises 41-03 Broadway and 31-89 41st street, northeast corner (1st floor); (Block 679, Lot 7), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated May 22, 1945, on amendment to Alt. Applic. 1476-44, reads:

"1. The installation of stationary iron bars on all 1st floor windows in a two story factory is contrary to Sec. 272 (3) of the Labor Law (not further considered)."

and

WHEREAS, the applicant states that the building is 2 stories (41 ft.) in height, 55 ft. by 96 ft. in area, of class 3 construction, erected in 1922, located in a business use, B area and Class 1½ height district and used and occupied since 1945 as follows: cellar—storage—no persons; 1st floor—stock room, factory and office—50 persons; 2nd floor—manufacturing clothing—100 persons; mezzanine—women's rest room—50 persons, pursuant to variance granted by the Board under Cal. 725-44-A; that there are two interior iron stairs, one 3 ft. 8 in. wide and the other 5 ft. 6 in. in width; that the rear stairway is enclosed in 4 in. terra cotta and the front stairway is enclosed in part terra cotta and part in studs, with metal lath and plaster, equipped with fireproof, self-closing doors and leading directly to the street; that a ladder and scuttle to roof is provided; and

WHEREAS, Violation 172-45 was issued January 17, 1945, for installing stationary metal on windows on the 1st story in violation of Section 272, par. 3, of the Labor Law; and

WHEREAS, the applicant states that all openable windows on the first floor are affected; that the bars in question were placed on the outside of all first-floor window frames and have been set into the brick at jambs of openings; and

WHEREAS, the applicant contends that the lessee had these bars installed in compliance with the requirements of his burglary insurance company; that valuable stocks of cloth are kept on the premises and a foolproof protection is required; that the lessee had this work done in ignorance of the regulations; that in view of the ready means of egress through the doorways, it would be a hardship on the lessee to remove the bars from the seventeen windows affected and to install other protective means; and

WHEREAS, the applicant states that the bars in question were not installed at the time of the Board's action under Cal. 725-44-A.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Labor, as cited in a decision of the borough superintendent, acting on amendment to Alt. Applic. 1476-44, objection 1, and that the appeal be and it hereby is *granted on condition* that no bars shall be placed on exterior windows other than those indicated on plans filed with this appeal, as to the first floor, marked "Received May 29, 1945" and that the exits from the first floor area, as shown on such plans, shall be maintained, including the three openings from the cutting room, where manufacturing is carried on to the hallway, from which three means of exit are available; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 725-44-A.

427-45-A

APPLICANT—Abraham Farber, for Nedma Corporation, owner (Louis Chazanov, lessee).
SUBJECT—Appeal reopened and restored to calendar on September 18, 1945—re Appeal from a decision of the borough superintendent (previously withdrawn).
PREMISES AFFECTED—125-127 Sutter avenue, north side, 100 ft. east of Legion (Barrett) street and 107 Legion street (2nd floor); (Block 3514, Lot 72), Borough of Brooklyn.
APPEARANCES—
For Applicant: Abraham Farber.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (427-45-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 125-127 Sutter avenue, north side, 100 ft. east of Legion (Barrett) street and 107 Legion street (2nd floor); (Block 3514, Lot 72), Borough of Brooklyn, was withdrawn on July 24, 1945; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on September 18, 1945, and restored to the calendar; and

WHEREAS, the decision of the borough superintendent, dated August 21, 1945, on Alt. Applic. 1426-45, reads:

"2. Building was erected under permit N.B. 1620—1921. For proposed conversion to factory use, provide two fireproof stairs, comply in all respects with Section 270 of the Labor Law.

"4. Second floor construction to comply with Section 7.3.2.3 as to required live load capacity of 120#."

and

WHEEREAS, the applicant states the building is two stories (25 ft.) in height, 50 ft. by 92 ft. 1 in., irregular in area at 1st floor, 50 ft. by 50 ft. in area at second floor; Class 3 construction; erected in 1921; located in a business use, C area and Class 1½ height district: used and occupied since February 1945, as follows: Cellar, ordinary and storage; 1st floor, store and public markets; 2nd floor, pool parlor, 50 persons; proposed to be used and occupied; Cellar, same; 1st floor, same; 2nd floor, manufacturing leather tobacco pouches, 16 persons; that the building is equipped with one 4 ft. wide wood stairs, enclosed in fire-retarded material, equipped with wood, self-closing doors and extending from the roof bulkhead, directly to the street; and

WHEREAS, Violation 1507-45 was issued for changing the occupancy of the 2nd floor from billiard parlor to factory, without obtaining a certificate of occupancy; and

WHEREAS, Certificate of Occupancy 72263 was issued November 2, 1933 on Alt. Applic. 1083-33 and permits the use of the first floor for store and public market and 2nd floor for pool and billiard parlor, but does not state the number of occupants permitted or the liveloads; and

WHEREAS, the applicant contends that there is a 4 ft. wide wood stair with fire-retarded enclosure leading directly to the street and another wood stair leading to the roof, where on the west, the roofs of adjoining buildings are on the same level; that the windows in the rear wall of the second floor open to the roof of the one-story extension, which leads directly to Legion street and is about 13 feet above the sidewalk; and

WHEREAS, the applicant contends specifically as to ob-

jection 2, that for all practical purposes the 2nd floor is equipped with two means of egress; that in view of the small number of persons who occupy the second floor and as the second floor is less than 2,500 sq. ft. in area, it would require a major alteration to comply fully with requirements of Section 270 of the Labor Law; that public safety and justice would be served by maintaining the present exit conditions, which seem sufficient and practical under these circumstances; that particularly, as the Building Code accepts one exit where the area of the 2nd floor is under 4,000 sq. ft. for an occupancy of 50 persons; and

WHEREAS, the applicant now contends that an amended plan was filed with the borough superintendent, showing the proposed secondary means of egress, consisting of an approved counterbalanced steel stairway on the street front wall (Sutter avenue) and the objection dated August 21, 1945, was issued; and

WHEREAS, the applicant contends as to objection 4, that the present floor liveload capacity is 100 lbs. p.s.f.; that considering that the proposed manufacturing is done on a few light sewing machines and some sorting tables, it would be a great hardship to have the floor reinforced; that the liveload will never exceed 75 lbs. p.s.f. and it is requested the Board accept the present 100 lb. liveload, so long as this type of manufacturing is maintained.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough uperintendent, acting on Alt. Applic. 1426-45, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 2, *on condition* that the primary means of exit shall be maintained, leading directly to Sutter avenue as proposed and as shown on revised plans marked "Received September 10, 1945"; and that in addition, a second means of exit, consisting of a labor law fire escape, with counterbalanced stair to the street, shall be constructed and maintained *on condition* that the number of persons occupying the second floor at work for factory shall at no time exceed the number permitted by the primary means of exit and never more than 16 persons; that the enclosure around the primary means of exit shall meet the test for one hour construction, with one hour fireproof, self-closing doors therein, opening in the direction of exit; that the door leading from the 2nd floor to such primary means of exit shall be not less than 3 ft. 8 in. in width; as to Objection 4, that the floor construction shall be not less than 100 lbs. per sq. ft., but at no time shall the loading exceed such capacity and that the floor load shall be posted; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable therto.

511-45-A

APPLICANT—Herman Horowitz, for 167th Street Terminal Co., Inc., owner (Inter City Transportation Co., Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—550 West 167th street, south side, from Audubon avenue to St. Nicholas avenue, 28-34 Audubon avenue and 1140 St. Nicholas avenue (Block 2124, Lot 17), Borough of Manhattan.

APPEARANCES—

For Applicant: Herman Horowitz, Joseph Feldman and Joseph Krueger.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (511-45-A)

WHEREAS, Herman Horowitz, for 167th Street Terminal Co., Inc., owner (Inter City Transportation Co., Inc., lessee), filed August 17, 1945, an appeal from a decision of the borough superintendent, affecting premises 550 West 167th street, south side, from Audubon to St. Nicholas avenues, 28-34 Audubon avenue and 1140 St. Nicholas avenue (Block 2124, Lot 17), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated July 18, 1945, reads:

> "Referring to your application of May 17, 1945, for certificate of occupancy for the subject premises, please be advised that your application has been considered, also your statement attached.
>
> "We find, however, that the records of this department do not bear out the contention made in your statement, but, on the contrary seem clearly to indicate that the lot in question was not legally used as a parking lot prior to 1935.
>
> "Your application is therefore denied."

and

WHEREAS, the applicant states that the premises are located in a business use, B area and Class 1½ height district, used an occupied since 1932 as bus station, ticket office, waiting room and parking of more than five motor vehicles; and

WHEREAS, the applicant contends that application was filed with the borough superintendent, to correct the permanent certificate of occupancy to show the following lawful uses: bus station, waiting room, ticket office, parking of more than five motor vehicles; and

WHEREAS, the applicant further contends that the premises have been used as a bus station and for the laying over (parking) of more than five motor vehicles since 1932; that the ticket office and waiting room were built in 1933; that the laying over has consisted of keeping buses on the premises for several hours during the day between their morning and afternoon runs; that vehicles have never been kept on the premises overnight; they have always been and still are garaged in Maywood, New Jersey; that in 1932, there were no improvements on the premises; that it was not the practice then to apply for certificates of occupancy for vacant lots; that at that time, bus station and parking were permitted uses in a business district; that in 1933, a violation was issued against the premises for "occupyng lot for parking and storage of buses without a certificate of occupancy"; that vehicles have never been stored on the premises; that the then Commissioner of Buildings did not recognize the difference between "parking" and "storage"; that this misunderstanding by the Commissioner was the underlying cause of the erroneous certificate here sought to be corrected; that from the time the violation was issued in 1933, it was made clear to the Commissioner of Buildings that it was sought to use the premises for a bus station, ticket office, waiting room, and for the laying over or parking of buses; that such uses were then lawful and a certificate of occupancy should have been issued and no doubt would have been issued if the office of the Commissioner of Buildings had properly understood the matters involved; that in May, 1935, after another violation had been issued against the premises, the Commissioner of Buildings advised that the violation could be removed by filing and obtaining approval "for use of premises as a bus terminal, ticket office and waiting room"; that such application was filed and subsequently approved; that thereafter the words "bus terminal" were erased from the City's copy of the application and a new certificate of occupancy was issued, without the words "bus terminal"; that though bus station and parking use was continuous thereafter, a few years went by before the city again questioned the use of the premises for parking more than five cars; that in 1938, the borough superintendent issued a subpoena and advised it would be necessary to apply to the Board for permission to park more than five cars; that this advice was followed and such application was subsequently renewed on several occasions; that buses completing their morning runs, stay on the premises after discharging their passengers until they depart with the evening rush; that if parking were not permitted, the buses would have to leave the premises in the morning, go elsewhere to be parked and return in

afternoon; that this is not a case where the owner or occupant failed to apply for a certificate of occupancy or failed to apply for a certificate of occupancy at a time when the uses in question were legal, or tried to deceive municipal officials; that timely application was made, but due to misunderstanding an incorrect certificate of occupancy was issued; that subsequent action was similarly based on the incorrect advice of city officials; and

WHEREAS, the use as proposed, for parking of buses, is now permitted by a variance granted by the Board, under Calendar No. 1179-38-BZ, expiring May 29, 1947.

Resolved, that the decision of the borough superintendent, dated July 18, 1945, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

142-45-A

APPLICANT—Mayer and Whittlesey, for Rudolph Kahn, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—2766-2770 3rd avenue, northeast corner of East 146th street (2nd floor); (Block 2307, Lot 34), Borough of The Bronx.

APPEARANCES—

For Applicant: M. Milton Glass.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (142-45-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 2766-2770 3rd avenue, northeast corner of East 146th street (2nd floor); (Block 2307, Lot 34), Borough of The Bronx, was granted by the Board on March 20, 1945, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 20, 1945, by adding thereto:

"that the space herein proposed to be occupied on the second floor for factory purposes, may be permitted in addition to the space occupied on the first floor for same, complying with all requirements therefor, as indicated on plans marked 'Received September 27, 1945'; that this amendment modifies the decision of the borough supeprintendent on Alt. Applic. 116-45, Objection 2, dated September 19, 1945."

391-44-A

APPLICANT—Earl D. Roberts, for Sixty Wall Tower, Inc., owner.

SUBJECT—Appeal reopened and restored to calendar September 18, 1945—re Appeal from an order of the fire commissioner (previously dismissed for lack of prosecution).

Negative 0

THE RESOLUTION (737-39-BZ)

WHEREAS, this application, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 91-125 Bayard street and 441-463 Manhattan avenue, northwest corner (Block 2718, Lot 14), Borough of Brooklyn, was granted by the Board November 8, 1939, on certain conditions; and

WHEREAS, the permit was extended on March 10, 1942 and October 5, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 8, 1939, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h, to permit that portion of the premises at the corner of Bayard street and Manhattan avenue as indicated on revised plans marked 'Received November 8, 1939,' to be occupied for the parking and storage of more than five (5) motor vehicles for a term of two (2) years from the date of this *amended* resolution . . . that other than as herein *amended*, the provisions of the resolution of November 8, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

(Remaining minutes of the meeting of October 9, 1945 will be printed in the Bulletin of October 23, 1945.)

Minutes of Regular Meeting of Tuesday Morning, October 16, 1945, Affecting Calendar Numbers 256-45-BZ, 310-45-BZ, 351-45-BZ, 241-33-BZ, 150-45-BZ, 354-45-BZ, 475-45-BZ, 481-45-BZ, 530-45-BZ, 535-45-BZ and 550-45-BZ.

Minutes of Regular Meeting of Tuesday Afternoon, October 16, 1945, Affecting Calendar Numbers 412-44-A, 37-45-A, 516-45-A, 547-45-A, 568-45-A, 574-45-A, 576-45-A, 582-45-A, 585-45-A, 599-45-A, 656-44-A, 226-45-A, 81-45-A, 137-45-A, 307-45-A, 482-45-A, 527-45-A, 553-45-A, 472-45-A, 554-45-A, 561-45-A, 567-45-A and 274-38-BZ.

(Remaining minutes of the meeting of October 16, 1945 will be printed in the Bulletin of October 30, 1945.)

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION
10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

(Continuation of the minutes of the meeting of October 9, 1945.)

470-40-BZ

APPLICANT—William Cohn, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete work—re Application (decision of the borough superintendent) previously granted on condition under section 7c of the zoning resolution, permitting partly in a business use and partly in a residence use district, the extension of an existing gasoline service station and, also, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—4070-4076 Broadway, southeast corner of West 172nd street (Block 2141, Lots 17 to 20, inclusive), Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph B. Lynch, W. B. L. Cosel and J. J. Mahran.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (470-40-BZ)

WHEREAS, this application, under section 7c of the zoning resolution, permitting partly in a business use and partly in a residence use district, the extension of an existing gasoline service station, and also the parking and storage of more than five motor vehicles, affecting premises 4070-4076 Broadway, southeast corner of West 172nd street (Block 2141, Lots 17 to 20 inclusive), Borough of Manhattan, was granted by the Board November 13, 1940, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on October 7, 1941, September 29, 1942, September 21, 1943 and October 3, 1944; and

WHEREAS, the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 13, 1940, as amended through October 3, 1944, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that in view of the statement by applicant's representative that about 25% of the work required by the Board's resolution has been complied with and that permits are in force and completion of the work will speedily progress, all work shall be completed within one (1) year from the date of this *amended* resolution."

MINUTES

1075-40-BZ

APPLICANT—Renander and Miller, for Caroline B. Gale and J. Sheldon Fosdick, owners. (Jamaica Parking & Realty Co., Inc., lessee).

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough supperintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parkng and storage of more than five motor vehicles.

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 88-01 169th street, southeast corner of 88th avenue (Block 9823, Lot 9), Jamaica, Borough of Queens, was granted by the Board July 1, 1941, on certain conditions; and

WHEREAS, the permit was extended on October 13, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 1, 1941, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h to permit the premises where unbuilt upon to be occupied for the parking and storage of more than five (5) motors vehicles for a term of two (2) years from the date of this *amended* resolution, *on condition* that the lot shall be leveled and properly surfaced with a suitable material; that the existing fences shall be maintained and kept in good repair; that the entrance shall be solely from 88th avenue, through the existing drop curb 20 ft. in width; that as proposed, the existing one story garage opposite such entrance may be removed; that during the term of this variance, the premises shall be occupied for no other use other than the parking and storage herein permitted and the dwelling use; that no signs shall be erected on the premises advertising the parking and storage use, except that there may be a sign near the entrance, provided such a sign does not extend beyond the building line, does not exceed 15 sq. ft. in area, is not illuminated and advertises only the parking and storage use and the rates charged; that there shall be no lights maintained for general illumination; that all permits shall be obtained and all work completed within two months from the date of this *amended* resolution and that a certificate of occupancy shall be obtained (Misc. Applic. 10436-40)."

254-45-BZ

APPLICANT—Lama and Proskauer, for Joseph Ledogar and James Pond, owners.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the borough superintendent) previously granted on condition under section 7i of the zoning resolution, permitting in a business use district, the erection of a building to be occupied as a showroom and for motor vehicle repairs, with business entrance more than 25 ft. from the intersection of the business and residential streets.

PREMISES AFFECTED—186-35 to 186-49 Merrick boulevard and 186-01 to 186-15 Ridgedale avenue, northwest corner (Block 12718, Lot 1), Springfield, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (254-45-BZ)

WHEREAS, this application under sections 7i and 7a of the zoning resolution, permitting in a business use district, the erection of a building to be occupied as a showroom and for motor vehicle repairs, with business entrance more than 25 ft. from the intersection of the business and residential streets, affecting premises 186-35 to 186-49 Merrick boulevard and 186-01 to 186-15 Ridgedale avenue, northwest corner (Block 12718, Lot 1), Springfield, Borough of Queens, was granted by the Board on July 17, 1945, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, relative to the installation of a gasoline storage tank.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 17, 1945, by adding thereto:

"that there may be installed within the building, one 550 gallon gasoline storage tank complying with the requirements therefor and one gasoline pump; that such equipment shall be used solely for the servicing of cars dealt in by the sales agency and no gasoline shall be sold (N.B. Applic. 143-45)."

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn .. 4

THE RESOLUTION (241-33-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting partly in a business use district and partly in a residence use district, the erection and maintenance of a gasoline service station and automobile salesroom, affecting premises 875-881 4th avenue, northeast corner of 33rd street (Block 681, part of Lot 1), Borough of Brooklyn, was granted by the Board on December 15, 1933, on certain conditions; and

WHEREAS, the resolution was amended and plans approved on February 23, 1934; and

WHEREAS, the resolution was further amended on July 17, 1934 and April 30, 1935; and

WHEREAS, the applicant requested a further amendment of the resolution, to permit under sections 7c and 21 of the zoning resolution, the change in use from a former gasoline service station (now vacant), to a gasoline service station, lubrication, auto washing, office and accessory sales; and

WHEREAS, this case was reopened by vote of the Board, on June 26, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that 4th avenue is in a business use, B area and Class 1½ height district and 33rd street is in a business use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 12, 1945, re N.B. App. 250-45, reads:

> "1. Proposed gasoline service station, auto washing, lubrication and office in a business use district is contrary to Art. 2, Sec. 4(a) 46 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 100 ft. 2 in. frontage by 100 ft. in depth, on which it is proposed to erect a building 60 ft. front by 30 ft. deep, 1 story high, of Class 3 construction and that it is proposed to reconstruct a gasoline service station, lubrication, auto washing, office and accessory sales; and

WHEREAS, the applicant contends that in the original application, the Board granted permission to erect a gasoline service station on this site; that plans were filed and approved in the Building Department, the building erected and a certificate of occupancy issued; that the premises were used continuously as a gasoline service station until approximately two years ago, when the occupant moved out and the premises stood vacant; that neighborhood children began breaking the windows and doors, gradually demolishing the building to such an extent that an "unsafe building" violation was issued by the Department of Housing and Buildings; that the balance of the building was thereafter demolished by a demolition contractor; the gasoline tanks, however, are still buried on the site; that it is now proposed to reconstruct this site as a gasoline station and to comply substantially with all the Board's original requirements, including brick walls along interior lot lines and along the 33rd street building line; that the curbing and curb-cuts will comply with the original requirements and planting maintained as shown; that the Board originally granted this use on a plot 100 ft. 2 in. by 130 ft.; which was voluntarily reduced by the owner to 100 ft. 2 in. by 75 ft.; that it is now proposed to reconstruct the station on a plot 100 ft. 2 in. by 100 ft., entirely within the business zone; that the character of this neighborhood has not changed since the granting of the original appeal and all the conditions which influenced the Board's decision eleven years ago, still apply; that the property is not suitable for any other improvement and all safeguards for the character of the residential property along 33rd street will be taken; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7c which is inapplicable or under section 7f and that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and was therefore not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent acting on N.B. Applic. 250-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

150-45-BZ

APPLICANT—Henry Nordheim, for Marion A. Mallon, owner (Edmund Fucci, lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7e, 7i and 21 of the zoning resolution, to permit in a business use district, the change of occupancy from existing garage to motor vehicle repair shop.

PREMISES AFFECTED—3327 Boston road, west side, 27.5 ft. north of East 211th street (Block 4706, Lot 76), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (150-45-BZ)

WHEREAS, Henry P. Nordheim, for Marion A. Mallon, owner (Edmund Fucci, lessee), filed March 15, 1945, an application under section 7e, 7i and 21 of the zoning resolution, to permit in a business use district, the conversion of existing garage to a repair shop, affecting premises 3327 Boston road, west side, 27.5 ft. north of East 211th street, (Block 4706, Lot 76), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Boston road is in a business use C area and Class 1 height district, and that East 211th, East 212th streets and Pearsall avenue are in a business and residence use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated February 15, 1945, on Alt. Applic. 51-45, reads:

"1. The proposed change to a repair shop for motor vehicles is contrary to Article 2, Section 4(a) (29) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 99.84 ft. frontage by 100 ft. in depth, on which is located a one story class 3 constructed building, 23.33 ft. by 36.33 ft., occupied as a non-storage garage and that it is proposed to be occupied as a motor vehicle repair shop; and

WHEREAS, the applicant contends that originally this building was erected as a garage, but proved a failure, since there were not sufficient residents near it to support the water bill and the taxes; that much vacant ground still remains; that there is a type of occupancy on this Boston road frontage altogether in keeping with what is proposed for this building; that the east side of Boston road (Block 4732) directly opposite the site, almost the entire frontage is occupied by plumbing material concerns dealing in second hand fixtures; that the west side of Boston road (Block 4705), 123 ft. of that frontage is occupied by a gasoline service station; that on the same block with this site (Block 4706), 100 ft of the frontage is occupied by a gasoline service station which directly adjoins this site; that on Block 4707, Lot 1, along the Boston road frontage, there is a large advertising sign and the balance of this large plot is vacant, so no one would be annoyed by the operation of motor vehicle repairing; that most of the Boston road, from Pelham Parkway to the City line is taken up with garages, gasoline service stations, parking lots, used car sales lots and motor vehicle repair shops; that Boston road is the main highway to the New England States, with heavy truck traffic daily, 24 hours a day and the regular passenger car traffic and interstate bus routes, making this an ideal location for a motor vehicle repair shop; that the dimensions of the repair shop permit only two large vehicles at a time or three smaller cars for repairing and will be only minor repairs, since space does not permit storage of auto parts or large machinery; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7e and 7i of the zoning resolution and that the applicant failed to substantiate a basis of appeal under section 21 thereof and was, therefore, not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 51-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

354-45-BZ

APPLICANT—Louis C. Wills, for L. R. Realty Co., Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business and residence use district, the conversion of occupancy of a garage (previously granted by Board) to a factory.

PREMISES AFFECTED—341-347 Reid avenue and 63-79 Marion street, northeast corner (Block 1692, Lot 1,) Borough of Brooklyn.

APPEARANCES—
For Applicant: A. Lama, D. Brown, L. Rosmay, M. Bienenfeld and P. Blumenheim.
For Opposition: J. Bottitta.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (354-45-BZ)

WHEREAS, Louis C. Wills, for L. R. Realty Company, Inc., owner, filed June 5, 1945, an application under section 7c of the zoning resolution, to permit in a business and residence use district, the conversion of occupancy of a garage (previously granted by the Board) to a factory; affecting premises 341-347 Reid avenue and 63-79 Marion street, northeast corner (Block 1692, Lot 1), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Reid avenue is in a business use, C area and Class 1 height district and that Marion and Chauncy streets are in a residence and business use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 11, 1945, on Alt. Applic. 1321-45, reads:

"1. Present use as garage and gasoline service station in a non-conforming zone was granted by the Board of Standards and Appeals under resolution 201-27-BZ. Proposed use modification to a factory to be referred to the Board of Standards and Appeals.

3. Proposed use is contrary to Article II, Sections 3 and 4 (c) in premises located partly in a residential and partly in a business zone."

and

WHEREAS, the applicant states the building has a frontage of 200 ft. and 100 ft. in depth, of fireproof construction, two stories (30 ft.) in height, with a gasoline selling alcove on Reid avenue, the balance of the building is used for a public garage for more than five motor vehicles and that it is proposed to discontinue the present uses and substitute a factory for silvering of mirrors, processing of glass, bending glass and manufacture of picture frames out of wood, metal and glass; and

WHEREAS, the applicant contends that the premises are improved with a two story building, 100 ft. by 200 ft. with a gasoline selling alcove on Reid avenue, the balance of the building is used for a public garage for more than five motor vehicles; that this use was permitted by the Board under Cal. 201-27-BZ, for which Certificate of Occupancy 49870 was issued March 26, 1928; that it is the owner's intention to discontinue the present uses and substitute a factory for silvering of mirrors, processing of glass, bending glass and manufacture of picture frames out of wood, metal and glass; that it is proposed to remove existing gasoline tanks and pumps, facing Reid avenue and reconstruct the front with brick sash; that this space is to be used for offices; that it also proposed to

remove the existing ramp and construct new fireproof stairs and enclosure; that the plot is in a business use, C area and Class 1 height district for 100 ft. along Marion street and the balance of the block is in a residential zone; that inasmuch as the proposed use is less objectionable than a garage and gasoline service station, it is respectfully requested that the application be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, to permit the building to be occupied as proposed, *on condition* that in all respects, the building shall comply with the requirements of the Building Code and the State Labor Law and in all other respects with the zoning resolution; that the building shall not be increased in height or area; that no windows not now existing, shall be installed in the lot line walls to the east or north; that signs shall be restricted to permanent signs erected, as permitted by law in the portion of the building within the business use district; that the existing gasoline storage system and tanks shall be entirely removed; that no openings to the building shall be constructed, other than those shown located within the business use district; that the ramps shall be removed and the stairways constructed to comply with the requirements of the law, as indicated on the plans filed with this application marked "Received June 5, 1945" and as proposed; that if any elevator is installed, same shall be located where the existing ramp is now located; that all machines used in connection with manufacturing shall be located within the business use area toward Reid avenue and the interior lot line to the north and away from Marion street; that this variance is granted only so long as the premises are used for the purposes proposed; that proper recreational facilities shall be installed within the building for employees, so as to prevent lounging in the street; that the resolution supersedes the resolution adopted under Calendar Number 201-1927-BZ; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

475-45-BZ

APPLICANT—Colonial Beacon Oil Co., for Chichester Realty Co. and Margaret Skene, owners.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use district, the reconstruction and extension in area of an existing gasoline service station.

PREMISES AFFECTED—75-03 to 75-17 Rockaway boulevard and 91-02 76th street, northwest corner (Block 8948, Lots 32 and 38), Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (475-45-BZ)

WHEREAS, Colonial Beacon Oil Company, for Chichester Realty Company and Margaret Skene, owners, filed July 31, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a business use district, the reconstruction and extension in area of an existing gasoline service station; affecting premises 75-03 to 75-17 Rockaway boulevard and 91-02 76th street, northwest corner (Block 8948, Lots 32 and 38), Woodhaven, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Rockaway boulevard and 91st avenue is in a business use, B area and Class 1½ height district and that 76th and 77th streets are in a business and residence use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated July 26, 1945, re N.B. Applic. 533-45, reads:

"1. Proposed reconstruction of existing gasoline service station and extension in area, is contrary to §4-46 of the building zone resolution."

and

WHEREAS, the applicant states the premises consist of a plot 113.22 ft. frontage on Rockaway boulevard, 106.18 ft. on 91st avenue, on which is located a gasoline service station and store and that it is proposed to extend this station, so as to have a frontage of 141.52 ft. on Rockaway boulevard and 132.72 ft. on 91st avenue, and reconstruct for a gasoline service station, lubritorium and auto laundry; and

WHEREAS, the applicant contends that the Building Department records show that Plan NB-20647-24 was approved June 24, 1925; that Certificate of Occupancy 21099-A was issued on this plan approval for a one-story gasoline service station and store, metes and bounds being 113 ft. 3⅛ in. on Rockaway boulevard, 112 ft. 9⅝ in. on 76th street, 96 ft. 1 in. on 91st avenue and 25 ft. 0⅛ in. as a cross dimension; that same is substantially in accordance with the metes and bounds of Lot 32; that Fire Department records indicate the present gasoline service station now located in Block 8948, Lot 32 was established under F.D. Plan 1720-25, metes and bounds being 125 ft. on Rockaway boulevard, 100 ft. on 76th street and 100 ft. on 91st avenue; that the proposed work consists of extending the present gasoline service station to include Lot 38, which abuts on the west; that this lot is now vacant and would constitute an extension in area of present legal station; that present conditions as indicated on plan filed, marked "existing conditions" shows a one story office and store, outside car greasing equipment, peastone paving and a large ground sign; that all present buildings, tanks, outside greasing equipment, etc., will be removed and a new servicenter will be erected, substantially in accordance with the plans filed with this application; that the building will be of masonry finished with porcelain enamel; that the present gasoline tanks will be permanently sealed and eight (8) new 550 gallon tanks installed; that new pumps installed will be located not less than 10 ft. from any lot line; that the entire area will be repaved with cold asphalt concrete, curb cuts rearranged and new post standard for illuminated signs installed; that in the immediate neighborhood, as indicated on the radius diagram, there are numerous gasoline service stations, garages and other non-conforming uses; that Rockaway boulevard is a main traffic artery, redesignated under the amended Master Plan of the City of New York as a principal route; that in view of the fact that this station was legally established prior to the prohibitive zone restrictions of 1925 and that competitive demands require that we provide a modern servicenter, it is requested the Board grant this application; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c thereof, to permit the lawfully existing gasoline service station to be extended and rearranged substantially as indicated on revised plans marked "Received September 26, 1945," *on condition* that complete working drawings shall be submitted to the Board for imposing conditions before such plans are filed

with the borough superintendent; that all existing buildings and gasoline storage tanks shall be removed; that new gasoline storage tanks shall not exceed eight, containing 550 gallons each; that there shall be no curb cuts to 76th street, as shown on aforementioned plans and not over two curb cuts to Rockaway boulevard and two curb cuts to 91st avenue; that pumps shall be erected not nearer than ten feet to the street building line and shall consist of one island toward each street front; that suitable planting shall be maintained toward the east at either side of the proposed centrally located accessory building; that such planting shall be protected by a concrete curb not less than 6 inches by 6 inches on a suitable foundation and shall extend from the corner of the accessory building on each side to the street line; that the premises where not occupied by accessory building, pumps and planting shall be paved with concrete or asphalt; that new sidewalks shall be constructed around the entire premises and any curbing required shall be restored; that the accessory building shall be substantially of the design indicated on plans, with roof of natural slate; that the exterior shall be of face brick; that any greasing equipment shall be of the hydraulic type; that in all other respects, the building shall comply with the requirements of the Building Code therefor; that the boiler room shall be of incombustible construction, separated from the balance of the building and enterable only from the exterior; that signs shall be restricted to flat signs attached to the facade of the accessory building and to the illuminated globes of the gasoline pumps, excluding all temporary and roof signs, but permitting the erection of post standards at the intersection of 76th street and Rockaway boulevard and also near the intersection of Rockaway boulevard and 91st avenue, for supporting a brand sign, which may be illuminated and which may project beyond the building line for a distance of not more than five feet; that additional planting area shall be installed with curb protection near the intersection of 91st avenue and Rockaway boulevard for a distance of not less than 8 feet from the property line; and that all permits required shall be obtained and all work completed within one year after working drawings hereinbefore mentioned as required are submitted and approved by the Board.

481-45-BZ

APPLICANT—Chadbourne, Wallace, Parke & Whiteside (David I. Shivitz, of Counsel), for Morewood Realty Corporation, owner (Saks & Co., lessee).

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a restricted retail district, the erection of an addition to a building exceeding the area limitations.

PREMISES AFFECTED—1293-1311 Broadway, 102 West 34th street, southwest corner and 105 West 33d street (Block 809, Lot 45), Borough of Manhattan.

APPEARANCES—

For Applicant: David I. Shivitz, William Eipel and H. Lovett.

For Opposition: Joseph Lorenz, M. A. Gette and F. D. Higson.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (481-45-BZ)

WHEREAS, David I. Shivitz, for Morewood Realty Corporation, owner (Saks and Company, lessee), filed July 27, 1945, an application under section 21 of the zoning resolution, to permit in a restricted retail district, the erection of an addition to a building exceeding the area limitations, affecting premises 1293-1311 Broadway, 102 West 34th street, southwest corner and 105 West 33rd street (Block 809, Lot 45), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Broadway, West 34th street and West 33rd street are in a retail use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated June 25, 1945, re Alt. Applic. 520-45, reads:

> "1. As premises are located in a restricted retail district, and as building now occupies a greater percentage of the area of its lot than is permitted under the present provisions of Sec. 13-b, zone resolution, further increase in lot coverage by the proposed installation of elevators in the existing court cannot be accepted."

and

WHEREAS, the applicant states the premises consist of a plot, 203 ft. 2¾ in. frontage by 150 ft. in depth; irregular in area, on which is located an 8-story (122 ft. 7 in.), Class 1 constructed building, occupied as a department store and that it is proposed to re-arrange the interior of the building, so as to provide escalators from floor to floor and to relocate elevators; and

WHEREAS, the applicant contends that the premises comprise a sub-basement, sub-basement mezzanine, basement and 8-story department store, occupying the entire block frontage on the west side of Broadway, between 33rd and 34th streets; that it practically covers the entire area and has since its erection in 1901; that in 1924 the building was altered under Alt. Applic. 1531-24, at which time Certificate of Occupancy 11531 was issued; that the building is located in a retail use, B area and Class 2 height district; that the comprehensive amendments to the zoning resolution of November, 1944, limit the bulk and ground floor coverage, according to height and use districts; that it is proposed to re-arrange the interior of the building, so as to provide escalators from floor to floor, to expedite the functions of the building; that to do this, it is necessary to relocate the elevators now on the premises; that in order to accomplish this, it is proposed to erect new elevator shafts within a court, which actually is the only portion of the plot not built upon at this time; that this court, which it is now proposed to use, is of no benefit or value to the subject premises or any adjoining property; that in view of the foregoing, as well as the fact that the existing structure has no semblance of compliance with the area district requirements as amended, and since the proposed extension will not materially change the picture in that regard, nor adversely affect anybody, it is respectfully requested that a variation of the zoning resolution be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution, and that the application be and it hereby is *granted*, under section 21 thereof, to permit the construction of elevators, as indicated, within the existing yard space, *on condition* that the elevators shall not extend for a distance of more than 8 ft. 6 in. and that not more than three elevators, as proposed, shall be so installed; that the existing chimney to the west of the proposed elevators shall be completely removed and such space left vacant for the common benefit of the applicant's building and that of the owner in rear on Lot 49; that the new northerly enclosing wall shall be faced with light colored brick; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits required shall be obtained and all work completed within one year from the date of this resolution.

530-45-BZ

APPLICANT—Ervin Palmer, for Jacob Ruppert, owner (Walter Schultz, lessee).

SUBJECT—Application (decision of the borough superintendent) under sections 21 and 7e of the zoning resolution, to permit in a residence and unrestricted use district, an automobile repair shop for a term of two years.

PREMISES AFFECTED—436-440 East 93rd street, south side, 51 ft. 6 in. west of York avenue (Block 1572, Lot 30),. Borough of Manhattan.

APPEARANCES—

For Applicant: Ervin Palmer.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (530-45-BZ)

WHEREAS, Ervin Palmer, for Jacob Ruppert, owner (Walter Schultz, lessee), filed September 5, 1945, an application under sections 21 and 7c of the zoning resolution, to permit in a residence and unrestricted use district, an automobile repair shop for a term of two years; affecting premises: 436-440 East 93rd street, south side, 51 ft. 6 in. west of York avenue (Block 1572, Lot 30), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that East 93rd street is in a residence and unrestricted use, A area and Class 2 height district; East River drive is in a residence use, A area, and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated August 21, 1945, re Alt. Applic. 933-45, reads:

> "1. Building is partly in a residence district. Proposed use of bldg. for an automobile repair shop is not permitted as per Sec. 3, Article II, zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot having a frontage of 47 ft. and a depth of 100 ft. 8½ in., on which is a building (vacant) 47 ft. in frontage by 100 ft. 8½ in. in depth, one story, 18 ft. high, of Class 1 construction and that it is proposed to use the vacant building as an automobile repair shop; and

WHEREAS, the applicant contends that it is a one story building occupying the full depth of its lot, made of brick walls, steel columns, girders, terra cotta roof arch, built about 1910 as a pump house; that while pumping is no longer a necessity, the building by no means outlived its usefulness; that due to its height, size, arrangement, and construction, the building cannot conceivably be adopted to any use which would be in conformity with the presently amended zoning law and certainly the owner should not be expected to tear it down, nor to leave it vacant while in its present condition; that at this time, it could serve as an automobile service station; that the intent of the law will not be harmed if the building is occupied as stated, during the next several years, since the character of the entire neighborhood is similar to it and will make a far better appearance than at present; that public safety will not be endangered, due to the absence of residential life in the block, both sides of which are lined with garages and factories; that a portion of the building is in an unrestricted zone; that the balance was changed to residential in 1934, when the East River drive was cut through, a 100 ft. strip of the block was made residential, probably to improve the appearance of the drive; that the improvement did not take place and except for a few spottily located properties, the blocks are unimproved and have factories, junk yards, fenced-in-land, unattended vacant lots and garages; that from present indications, large scale facing lifting will not take place at least not until transportation facilities will reach there; that substantial justice will be done if the Board modifies the zoning resolution under section 21, to permit the use of this building as an automobile repair shop for the next 5 or 10 years; but should this not be considered favorably, then under section 7e for a term of two years; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7c, and that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and was therefore not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 933-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

535-45-BZ

APPLICANT—Paul Friedman, for Helena Morrissey and William J. Flanagan, owners (Executors under Will of Matthew J. Morrissey, deceased).

SUBJECT—Application (decision of the borough superintendent) under section 7b, 7c, 7e and 21 of the zoning resolution, to permit partly in a residence and partly in a business use district, the alteration and conversion of garage and auto repair shop to a laundry for curtains.

PREMISES AFFECTED—403-405 East 123d street, north side, 75 ft. east of 1st avenue (Block 1811, Lot 5), Borough of Manhattan.

APPEARANCES—

For Applicant: Paul Friedman and Maxwell Ross.

For Opposition: H. A. Cottanaccio.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (535-45-BZ)

WHEREAS, Paul Friedman, for Helen Morrissey and William J Flanagan, owners (executors u/w of Matthew J. Morrissey), filed September 7, 1945, an application under section 7b, 7c, 7e and 21 of the zoning resolution, to permit in a partly residence and partly business use district, the alteration and change of occupancy of garage and auto repair shop to a laundry for curtains, affecting premises 403-405 East 123rd street, north side, 75 ft. east of 1st avenue (Block 1811, Lot 5), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that East 123rd street is in a business and residence use, A area and Class 2 height district and 1st avenue is in a business use, A area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated August 14, 1945, and revised October 2, 1945, re Alt. Applic. 1136-45, reads:

> "1. This building is partly in a residence and partly in a business district. Proposal to change use of a building from garage for more than five cars and auto repair shop to a laundry for curtains, is not permitted as per Article II, Section 3 and Section 4, subdivision 51 Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 50 ft. frontage by 100 ft. in depth, occupied by a building 50 ft. front by 100 ft. in depth, one story in height, of Class 3 construction that it is proposed to change the occupancy from garage and auto repair shop, to a laundry for curtains; and

WHEREAS, the applicant contends that the use district maps show that the easterly half of the plot is located in a residence district and the westerly half in a business district; that in 1916, the property was zoned for unrestricted use and on May 28, 1938, it was changed to the present zoning; that the premises consist of a plot 50 ft. frontage by 100 ft. in depth, on which is a one story nonfireproof building, erected in 1920, occupying the entire lot, for which Certificate of Occupancy 4214 of 1922 was issued for garage and auto repair shop; that there are two automobile doorways at the front with one wide drop curb, extending for the full width of the two doorways; that there is an existing roof sign approximately 100 sq. ft. in area; that the front of the building has numerous signs painted thereon, advertising body and fender works, automobile painting, etc.; that the premises is being used as a warehouse for baled rags, at present in violation of the law and without the permission of the landlord, and the landlord has therefore instituted proceedings to terminate the lease; that the proposed use is for a proposed occupant, who is compelled to vacate his present space because the landlord requires it for his own use; that it is proposed to remove the westerly driveway at the front of the building and replace it by steel sash window, approximately 8 ft. sq.; to replace existing westerly window by a 3 ft. by 7 ft. door, to serve as a secondary means of egress; to replace easterly driveway door with 8 ft. by 8 ft. overhanging door with a 3 ft. by 7 ft. wicket door hinged to it; to install brick work to conform to existing brick work where necessary and paint the facade of the building brick red, obliterating existing signs, and painting one neat sign over the vehicular entrance; to remove the existing roof sign; to restore the westerly part of the drop curb; to construct an 8 in. cinder block enclosure for a 9 9/10 h.p. boiler which will supply steam and hot water for the washing machine, dry room and pressing equipment; to erect a 7 ft. high frame partition with doors, enclosing the offices and vestibule; to install separate toilets for men and women and install a skylight over both toilets; to install a rest room with wood partitions for the use of female employees; to install a concrete curb 6 in. high at the northeast corner of building to accommodate a 35 lb. per hour washing machine and electric mangle and to change the use of the existing gasoline tank to a fuel oil tank; and

WHEREAS, the applicant further contends that the Board has jurisdiction under section 7b, because the proposed use is authorized in the portion of the premises zoned for business use and is prohibited only as to the 25 ft. portion of the premises zoned for residence use; that the Board has jurisdiction under Section 7c, because the premises are devoted to a non-conforming use and it is proposed to extend the proposed use into a district restricted against the proposed use, under such conditions as will safeguard the character of the neighborhood; that in the event the Board deems it has not jurisdiction under section 7b or 7c, the applicant contends the Board has jurisdiction under section 7e to grant the relief requested for a stated term of years; and

WHEREAS, the applicant further contends that this is an appropriate case for the Board to grant relief because the character of the district will be safeguarded, for the reason that the proposed use will increase the safety of pedestrians, by reducing the width of the existing drop curb, by eliminating one driveway door through which automobiles cross the sidewalk, and by substantially reducing the frequency of crossing of the sidewalk by motor vehicles; that the proposed use of a laundry for curtains involves cleaning by a wet wash process; that no dry cleaning will be done at the premises and no inflammable liquids will be used and no unpleasant odors will be emitted; that in contrast, the permitted use includes the storage and use of inflammable liquids and the painting of motor vehicles creates unpleasant odors; that the building will be made more attractive by removing the roof sign and other signs from the facade of the building and the existing broken doors will be replaced by a steel sash window on the west and an overhead door on the east; that the proposed use will not be inharmonious because the existing building is permitted to be used as a garage and auto repair shop and many non-conforming uses exist in the neighborhood; that the Triborough Bridge ramp revolves at the rear of the premises and could not be adversely affected by the proposed use; that the Board has jurisdiction to grant under section 21 of the zoning resolution, as the proposed use will not alter the essential character of the neighborhood; that the hardship is unique, because this plot is located immediately adjoining a junk shop, and it could not yield a fair return on the investment, because the tenant for the garage and auto repair shop could not pay the rent, required to pay the carrying charges; that in view of the foregoing, it is respectfully requested the application be granted, subject to such conditions and limitations as the Board may deem appropriate; and

WHEREAS, the premises and surrounding areas were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations and that the application be and it hereby is *granted* under section 7e thereof for a term of ten years, to permit the building to be occupied substantially as proposed and indicated on plans filed with this application marked "Received September 7, 1945," *on condition* that the building shall not be increased in height or area; that no windows shall be erected on the interior lot lines; that the front wall of the building shall be altered as indicated on such plans and shall be repainted or stuccoed; that no dry-cleaning operation shall be permitted on the premises and no laundry work except washing as proposed; that no steam mangles shall be installed on the premises; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

550-45-BZ

APPLICANT—Horace Ginsbern, for 248 West 18th Street Corp., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence district, the change of occupancy from a stable for more than five horses, to manufacturing and bakery.

PREMISES AFFECTED—248-252 West 18th street, south side, 100 ft. east of 8th avenue (Block 767, Lot 68), Borough of Manhattan.

APPEARANCES—

For Applicant: H. Ginsbern, C. Gottfried and A. Cowen.

For Opposition: W. Cowen.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (550-45-BZ)

WHEREAS, Horace Ginsbern, for 248 West 18th Street Corporation, owner, filed September 14, 1945, an application under section 7e of the zoning resolution, to permit in a residence use district, the change of occupancy from a stable for more than five horses, to manufacturing and bakery; affecting premises 248-252 West 18th street, south side, 100 ft. east of 8th avenue (Block 767, Lot 68), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that West 18th street is in a residence and retail use, B area and Class 1½ height district and 8th avenue is in a retail use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 17, 1945, re Alt. Applic. 1158-45, reads:

"1. Building being in a residence district, proposal to change use from stable to factory is not permitted as per Sec. 3, Art. II Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 78 ft. frontage by 92 ft. in depth, and the frontage of the building is 75 ft. 8 in. and the depth 90 ft. 8 in., 5 stories in height; of Class 3 construction and that it is proposed to convert this vacant building from a stable use to a manufacturing and bakery use, by installing new stairways, toilets and elevators; and

WHEREAS, the applicant contends that this block has been rezoned from unrestricted use to residence use on March 31, 1937; that the building was originally built in 1903 as a livery stable and that it is proposed to convert the building from a stable use to a light manufacturing use by installing new stairways, toilets and elevator all in accordance with Labor Law requirements; that the cellar will be used for storage, the first and second floors will be occupied and used as a bakery, the other floors for light manufacturing; that there will be a driveway door at the street level and all loading and unloading will be done inside the premises; that of the 600 ft. frontage on the north side of this street, 423 ft. is devoted to business and factory use; that the height of these factory buildings are from 3 to 12 stories, and other business buildings are 19 stories in height; that the property immediately adjoining at the rear of this plot is a 9-story factory; that the granting of this application cannot be considered as an entering wedge for a new non-conforming use in a residential use district, for the following reasons: that the building to continue its use as a livery stable is far more objectionable than if the building were converted into light factory use; that a livery stable is detrimental to the health of residents; that the surrounding and adjoining buildings devoted to business and factory use, constitute 75% of both street frontages, and will continue indefinitely, thereby determining the character of this block; that the conversion of the premises in question will change the value of neighboring property and bolster real estate values on the street, and it is within contemplation that this will tend to hasten this block to conforming uses; that it requested that under the powers granted to the Board under Section 7e of the zoning resolution, and the fact that the proposed use will not be detrimental to the area, that the Board grant this application; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, it appears that the former stable use was discontinued years ago and that the building has been occupied for storage and that an unsafe order as to the front wall has been issued; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7e thereof for a term of ten (10) years from the date of this action, to permit the building to be occupied substantially as proposed and as indicated on plans filed with this application marked "Received September 14, 1945," *on condition* that the building shall not be increased in height or area and shall be made to comply with the requirements of the Building Code and Labor Law and with all other laws, rules and regulations applicable thereto, including the zoning resolution; other than as varied herein as to use; that a space shall be provided on the first floor as proposed, for accommodation of not less than five motor vehicles, used in the conduct of the business on premises; that such space shall be for the purpose of loading and unloading and no loading and unloading shall be done other than inside the building and no motor vehicles, pending entrance to the building, shall be parked on the street adjacent to the premises; that all existing windows on the side lot lines and rear lines shall be fireproof, self-closing and glazed with wire glass and no new windows not now existing shall be installed in such walls; that the cellar shall be occupied for boiler room, storage and maintenance shop and not for any baking operations; and that all permits required shall be obtained and all work completed within one year from the date of this resolution.

Adjourned: 11:55 A.M.

JOSEPH J. DOYLE,
Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, OCTOBER 16, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

412-44-A

APPLICANT—Tobias Goldstone, for Barton, Inc., owner.

SUBJECT—Application reopened September 18, 1945 re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—76-82 DeKalb avenue and 2-10 Rockwell place, southwest corner (Block 2094, Lot 18), Borough of Brooklyn.

APPEARANCES—

For Applicant: Tobias Goldstone.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (412-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 76-82 DeKalb avenue and 2-10 Rockwell place, southwest corner (Block 2094, Lot 18), Borough of Brooklyn, was granted by the Board on July 11, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this case was reopened by vote of the Board on September 18, 1945 and restored to the calendar; and

WHEREAS, the decision of the borough superintendent, dated July 24, 1945, re Alt. Applic. 1635-45, reads:

"1. Exits to comply with Section 270 of Labor Law.

"Also refer to the Board of Standards and Appeals resolution of 412-44-A. Denied."

and

WHEREAS, the applicant contends that amendment was filed to Alt. 1635-45, for the erection of an extension to the 3rd floor, such extension to be approximately 26 ft. 4 in. by 49 ft. 4 in. in area; that in extending the third floor, the new walls of the extension will rest directly on the present walls of the 2nd floor, thereby allowing the present yard of 13 ft. 4 in. to remain at the rear of 3rd floor level; that the proposed extension will have brick walls and the floor and roof will be of steel beams, reinforced cinder

concrete arches and a new door will be cut from the proposed extension to the present stairhall and the present westerly wall removed, thus creating an opening 20 ft. 6 in. wide between the present building and the proposed extension; that the number of employees on the third floor will not be increased.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 11, 1944, so that it shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent acting on Alt. Applic. 2017-43, and that the appeal be and it hereby is *granted,* as to Objection 1, *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue only so long as the building is maintained substantially as proposed herein and as shown on plans filed with this appeal marked 'Received June 30, 1944,' and also that a gooseneck double rung ladder shall be installed, leading from the third story roof to the second story roof.

"*Resolved further,* that in the event the owner desires to construct an extension at the 3rd floor level as indicated on revised plans marked 'Received October 3, 1945,' filed with this appeal, Volume 2, the decision of the borough superintendent acting on Alt. Applic. 1635-45, Objection 1, is hereby *modified,* and the appeal be and it hereby is *granted on condition* that the requirements of the resolution adopted by the Board on July 11, 1944, as to exits, shall be complied with in all respects and the number of persons occupying the 3rd floor as extended shall not exceed the number therein stated, namely 50 persons."

37-45-A

APPLICANT—William Shary, for Wedgewood Realty Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—2551-2561 Webster avenue, west side, 158.8 ft. north of Fordham road and 2552-2562 Decatur avenue (2nd floor); (Block 3275, Lot 103), Borough of The Bronx.

APPEARANCES—

For Applicant: William Shary.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (37-45-A)

WHEREAS, William Shary, for Wedgewood Realty Co., Inc., owner, filed January 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 2551-2561 Webster avenue, west side, 158.8 ft. north of Fordham road and 2552-2562 Decatur avenue (2nd floor); (Block 3275, Lot 103), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated July 11, 1945, on amendment to Alt. Applic. 583-44, reads:

"1. State in specification, the liveload and number of people on each floor. N.B. 257/15 was approved for 120 lbs. liveload on first floor and 75 lbs. in front on 2nd floor and 90 lbs. in rear. State correct height district. The number of people on first floor has not been stated. Reconsideration denied.

2. State on plans the materials of all stairs, stair enclosures, partitions, etc. Stairs and stair enclosures should be of incombustible materials. Public halls and corridors should be of fireproof materials and doors should be fireproof, self-closing and in accordance with Section 6.3.1 to 6.3.3. Rise of stairs may be not more than 8 ft. (Section 6.4.1.6). Width may not be less than 3 ft. 8 in. for stairs. Reconsideration denied.

"3. The means of egress are inadequate. Provide at least two (2) fireproof stairs of sufficient width to accommodate people stated. Show all doors, same should swing out. Show egress to roof. Reconsideration denied.

"6. Building is considered a public building and should be fireproof construction throughout. Section 4.2.1."

and

WHEREAS, the applicant states that the building is 2 stories (32 ft.) in height, 125 ft. by 95.80 ft. in area, of class 3 construction, erected in 1915, located in a business use, B area and Class 1½ height district and used and occupied: cellar —bowling alley and storage—74 persons; mezzanine—accessory to first floor stores and toilets; 1st floor—stores—5 persons in each store; 2nd floor—offices and lofts—249 persons; proposed to be used and occupied without change, except that the second floor will be used for offices and meeting rooms—249 persons; that the building is equipped with three iron stairs, enclosed in partitions of wood studs, metal lath and cement plaster, equipped with fireproof, self-closing doors and leading from the 2nd story to the street; that one stair is 5 ft. 6 in. wide and two are 3 ft. in width each; and

WHEREAS, Violation 3422-44 was issued December 6, 1944, for maintaining a place of assembly without a permit; and

WHEREAS, the applicant contends that the building fronts on two streets and was erected in 1915 and approved for 120 lbs. liveload on 1st floor, 75 lbs. in front office section on 2nd floor and 90 lbs. in rear section on 2nd floor, designed as lifts; that these lift spaces on the 2nd floor have been occupied as meeting rooms and lodge rooms, according to the owner's records dating back to 1926; that the present owner was owner when the building was erected and states that the loft spaces on the 2nd floor were occupied as meeting and lodge rooms from the beginning; that the bowling alley occupancy in the cellar was approved under N.B. 257-1915; that Public Assembly Application 138-44 was filed by the tenant of the meeting room on the 2nd floor on objection issued requiring a certificate of occupancy; that the meeting rooms are used for fraternal and religious purposes and are less than 2300 sq. ft. in area; that meeting room No. 1, in loft N is 1520 sq. ft. in area, with an occupancy of 75 persons, is enclosed in metal lath and cement plaster partitions; that primary egress is by means of a 5 ft. 6 in. wide iron stairs, enclosed in metal lath and cement plaster partitions, leading down to the arcade on the 1st floor, opening on two streets; that the arcade floor is fireproof; that the arcade ceiling is metal lath and cement plaster and the sides are of brick and wire glass store show windows; that secondary egress is by means of a 3 ft. wide iron stairs to street, enclosed in metal lath and cement plaster partitions; that meeting room No. 2, in loft M is 2272 sq. ft. in area with an occupancy of 150 persons and enclosed in metal lath and cement plaster partitions; that primary egress is by means of a 5 ft. wide exit door through the reception room to a 5 ft. 6 in. corridor leading to a 5 ft. 6 in. wide stairway; that the secondary egress is by means of a 3 ft. wide iron stairs to the street, enclosed in metal lath and cement plaster partitions; that egress to the roof is by means of an iron ladder and scuttle in the toilet room; and

WHEREAS, the applicant contends as to Objection 6, that the height of the building on Decatur avenue is less than the height limit established in Section 4.2.1 and only slightly in excess on Webster avenue; that the area of each meeting room and the number of persons in each is less than that defined in Section C26-116.0 for Place of Assembly.

Resolved, that the decision of the borough superintendent acting on amendment to Alt. Applic. 583-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that the floor loads shall be maintained as proposed and as indicated on plans filed with this appeal marked "Reiceived July 23, 1945"; that such

spaces shall at no time be loaded beyond such loadings and that all spaces shall be posted in accordance with approved loads; as to Objection 2, that the existing stairs may be continued, as permitted when erected in 1915 and as existing, as indicated on plans filed with this appeal; as to Objection 3, that the number of persons permitted to occupy the various spaces on the second floor shall at no time exceed the number of persons permitted under the Code requirement, based on the exits as provided and shown; that at all times, while meeting rooms are occupied, the doors leading to such exits, shall be kept unlocked, so as to provide an immediate escape in the event of fire; that the door, at the head of stairs leading from 2nd floor to arcade, shall be equipped with hardware, so that both leaves are available for exit at all times; as to Objection 6, that the building may be continued for the use as proposed, provided it is not extended in height or area and complies in all other respects with all laws, rules and regulations applicable thereto, other than as modified by this resolution; that the windows in the shaft on the 2nd floor shall be fireproof, self-closing and glazed with wire glass; that the existing wood enclosure, in the arcade at the head of stairs leading to bowling alleys, shall be removed and enclosure complying with the requirements of the Code constructed of approved masonry, provided approved outwardly swinging fireproof doors as indicated are maintained; that in all other respects, the building and the occupancy of all storage, including the cellar, shall comply with the occupancy requirements and that a new certificate of occupancy shall be obtained.

516-45-A

APPLICANT—Michael Bernstein, for 481 East Tremont Avenue Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—481 East Tremont avenue, north side, 90.83 ft. east of Washington avenue (Block 3043, Lot 38), Borough of The Bronx.

APPEARANCES—

For Applicant: Michael Bernstein.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock. Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (516-45-A)

WHEREAS, Michael Bernstein, for 481 East Tremont Avenue Corp., owner, filed August 28, 1945, an appeal from a decision of the borough superintendent, affecting premises 481 East Tremont avenue, north side, 90.83 ft. east of Washington avenue (Block 3043, Lot 38), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, re amendment to Alt. App. 332-45, dated August 27, 1945, reads:

"2. The means of egress are inadequate. Two lawful stairs are required from second floor. Stairs should be enclosed by fireproof partitions supported on steel and should extend to roof. Provide two exits from first floor to street remote from each other."

and

WHEREAS, the applicant states that the building is three stories (37 ft.) in height, 25 ft. 4⅛ in. by 99 ft. 6½ in. and 103 ft. 4½ in. in area at first floor, 25 ft. 4⅛ in. by 60 ft. and 63 ft. 10 in. in area at typical floor; of Class 3 construction; located in a business use, B area and Class 1½ height district; erected in 1887 and used since 1935 as follows: cellar, boiler room and refrigeration; 1st floor, vacant (previously used as store); 2nd floor, shirt factory; 3rd floor, apartment (now vacant); proposed to be used: cellar, same; 1st floor, bar and grill, 96 persons; 2nd floor, restaurant, 75 persons; 3rd floor, apartment for 1 family; that the building is equipped with one interior stairs, 3 ft 8 in. wide from the 1st to the 2nd floors and 3 ft. wide above, of steel construction, enclosed in gypsum block partitions, equipped with fireproof, self-closing doors and leading from the roof bulkhead, directly to the street; that it is proposed to install a fire escape at the front of the building, with counter-balanced stairs to the street, with fireproof self-closing windows along the course thereof on the second floor; that there is a fire escape on the rear which will be retained as an additional means of exit from the third floor; and

WHEREAS, the applicant contends that instead of an additional stair inside of the building, it is proposed to construct a balcony fire escape with counter-balanced stair, facing the street with fireproof, self-closing casement windows; that this would not only be a more convenient arrangement, but would offer far better protection from fire and smoke than an interior stair.

Resolved, that the decision of the borough superintendent, acting on amendment to Alt. Applic. 332-45, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be mainained, as indicated on plans filed with this appeal marked "Received August 28, 1945", three sheets, except that the stair from the 2nd floor to 1st floor shall be not less than 5 ft. in width and the number of persons in the second story restaurant shall not exceed 74; that the fire escape on the street front of the building shall be constructed and maintained with a counter-balanced stair to sidewalk as proposed and shown; that such counter-balanced ladder shall be so located as to not interfere with the exit doors from the first floor, when the stair is in the down position; that this variance is granted only so long as there is a means of exit from the one story roof to the roof of adjoining premises; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

547-45-A

APPLICANT—J. M. Felson, for 201st Street Realty Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—500 West 180th street, and 2416 Amsterdam avenue, southwest corner (2nd and 3rd floors); (Block 2152, Lot 46), Borough of Manhattan.

APPEARANCES—

For Applicant: Jacob M. Felson.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (547-45-A)

WHEREAS, J. M. Felson, for 201st Street Realty Corp., owner, filed September 13, 1945, an appeal from a decision of the borough superintendent, affecting premises 500 West 180th street and 2416 Amsterdam avenue, southwest corner (2nd and 3rd floors); (Block 2152, Lot 46), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated August 21, 1945, re Alt. Applic. 1340-45, reads:

"2. Bldg. being erected after Oct. 1, 1913, provide two fireproof stairways as per Sec. 270, Labor Law."

and

WHEREAS, the applicant states the building is 3 stories (37 ft. 4 in.) in height, 25 ft. by 100 ft. in area; Class 3 construction; erected in 1923; located in a business use, B area and Class 1½ height district; used and occupied: cellar, boiler room; 1st floor, store and garage 3 cars, 5 persons; 2nd floor, showroom and warehouse, 5 persons; 3rd floor, same, 40 persons; proposed to be used and occupied: cellar, same; 1st floor, same; 2nd floor, office and

factory—20 persons; 3rd floor, same; manufacturing to be such as permitted in this district; that the building is equipped with one 3 ft. 8 in. wide steel and concrete stairs, enclosed in partitions of fireproof block, equipped with metal, self-closing doors and leading from the roof bulkhead to the street and one fire escape on the side street, extending to the roof by stairs and to the street by counterbalanced stairs; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy 6533 issued July 24, 1923, on N.B. Applic. 30-23, permits the use of the building as follows: 1st floor—store and garage for three cars; mezzanine—office; 2nd story—showrooms and warehouse—5 persons; 3rd story—showrooms and warehouse—40 persons; and

WHEREAS, the applicant states that a variation of the provisions of the Labor Law is requested, so as to permit the erection of a fire escape as a second means of egress; and

WHEREAS, the applicant contends that the area of the building is only 2500 sq. ft. and that it will be a hardship to be required to install two interior stairways; that it is proposed to install one interior stairway from the street to the roof, enclosed in fireproof materials, equipped with fireproof, self-closing doors at all openings, to comply with the Labor Law and it is requested that the fire escape be accepted as a second means of egress; that the fire escape will be in accordance with the Labor Law, with counterbalanced stairway directly to the street from the second floor level; that on the original certificate of occupancy, the second floor has an occupancy of five people and the third floor of forty people and it is requested that the occupancy be permitted to be 20 males and two females on each of the 2nd and 3rd floors.

Resolved, that the Board of Standards and Appeals does hereby make a *variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 1340-45, that the appeal be and it hereby is *granted* as to Objection 2, *on condition* that the primary means of exit shall be maintained as proposed and as indicated on plans filed with this appeal marked "Received September 13, 1945" and in addition, a secondary means of exit shall be maintained, consisting of a fire escape to West 180th street, complying with the requirements of the Labor Law therefor, reaching from the street to the roof, with a counter-balanced stair to the street; that the number of occupants permitted for factory on the 2nd and 3rd floors at no time shall exceed that lawfully permitted for the primary means of exit for each floor; that the ceiling of the first floor shall be fire-retarded throughout; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

568-45-A

APPLICANT—George G. Miller for Martin Urban, owner (Girl Scouts of America, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—30 West 48th street, south side, 411 ft. 6 in. west of 5th avenue (4th floor); (Block 1263, Lot 55), Borough of Manhattan.

APPEARANCES—

For Applicant: George G. Miller.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Savage 1

Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3

THE RESOLUTION (568-45-A)

WHEREAS, George G. Miller, for Martin Urban, owner, (Girl Scouts of America, lessee), filed September 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 30 West 48th street, south side, 411 ft. 6 in. west of 5th avenue (4th floor); (Block 1263 Lot 55), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated September 11, 1945, on amendment to Alt. Applic. 1244-45, reads:

"1. Conversion of non-fireproof structure from dwelling to commercial building exceeding 4 stories and 50 ft. in height, is contrary to Section 4.2.1 Code."

and

WHEREAS, the applicant states that the building is 4 stories and basement (55 ft.) in height, 20 ft. 6 in. by 70 ft. in area at 1st floor, 20 ft. 6 in. by 60 ft. 3 in. in area at typical floor, of Class 3 construction, erected about 1890, located in a retail use, B area and Class 1¼ height district and used as a one family dwelling; proposed to be used and occupied for offices—6 persons on the basement story and four persons on each story above; that the building is equipped with one 3 ft. wide wood stairs from the roof bulkhead, directly to the street, enclosed in wire lath and portland cement plaster partitions, equipped with kalamein one hour self-closing doors; and

WHEREAS, the applicant contends that the building contains only 1500 sq. ft. in total area on each floor, divided into small private offices and will be used to keep the records of the activity of the Girl Scouts of America, which organization subsists primarily on donations from its benefactors; that if at any time, the building is used for commercial purposes, the top story will be sealed off; that the stairhall partitions are covered both sides with metal lath and ¾ in. portland cement mortar from the basement entrance to the roof bulkhead and the soffits of the stairs and cellar ceiling are covered with the same material; that the iron stairs on the top story leads to the roof and the adjoining building to the east is the same height; that stairs are of ample width for the occupancy.

Resolved, that the decision of the borough superintendent, acting on amendment to Alt. Applic. 1244-45, Objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

574-45-A

APPLICANT—David J. Beck, for Bohack Realty Corp., owner (H. C. Bohack Co., Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—47-05 to 47-27 Metropolitan avenue, north side, 248 ft. 8 in. west of L.I.R.R. right of way (Bushwick Division); (Block 2611, Lot 71), Maspeth, Borough of Queens (under Section 35, General City Law re beds of mapped streets—48th and 49th streets).

APPEARANCES—

For Applicant: David J. Beck.

For Administration: Fred Dahlem, Dep't. of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (574-45-A)

WHEREAS, David J. Beck, for Bohack Realty Corp., owner, (H. C. Bohack Co., Inc., lessee), filed September 28, 1945, an application pursuant to Section 35 of the General City Law, affecting premises, 47-05 to 47-27 Metropolitan avenue, north side, 248 ft. 8 in. west of Bushwick Division, L.I.R.R. right of way (Block 2611, lot 71), Maspeth, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated September 18, 1945, on Alt. Applic. 1547-45, reads:

"1. Proposed extension partly in the bed of 48th street and partly in the bed of 49th street is not permitted by Section 35 of the General City Law."

and

WHEREAS, the applicant states that the proposed building will be one story and basement (30 ft.) in height, 319 ft. irregular by 125 ft. in area, of Class 1 construction, located in an unrestricted use, A area and Class 1½ height district, proposed to be used and occupied: basement—packing, shipping and storage of food products and cosmetics—60 persons; 1st floor—manufacturing paper products and storage of groceries —138 persons; that the existing building to which the proposed extension will be added, is used and occupied for the same purposes in the basement and on the first floor for the manufacturing of paper products, with an occupancy of 90 persons; that the building will be equipped throughout with a two source sprinkler system; and

WHEREAS, the applicant contends that it is proposed to erect a one story and basement fireproof extension to the existing fireproof factory and storage building, erected under N.B. 7004-30; that the proposed extension will be located in the bed of 48th street and will encroach slightly on the bed of 49th street, as shown on the City Map; that by reason of the location of the Long Island Railroad right-of-way (Bushwich Division), 48th and 49th streets can never be used as through streets, without construction of expensive grade elimination facilities; that by reason of the arrangement of the buildings on these premises and the premises on the easterly side of the railroad right-of-way, these streets can not be used, due to physical encroachments; that by reason of the arrangements of buildings on the premises in question, the opening of 48th and 49th streets is not necessary, adequate access having been provided for fire department apparatus and for trucking, by the construction of driveways throughout the plant; that the Topographical Bureau of the office of the Borough President is making a study of this general area, with a view of revising the City Map to conform to existing conditions; that it is therefore requested that the Board grant permission to erect the proposed extension under the powers vested in the Board by Section 35 of the General City Law.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1547-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under Section 35 of the General City Law, to permit the extension partially within the bed of 48th street and partially within the bed of 49th street as proposed, and as indicated on plans filed with this appeal marked "Received September 28, 1945", *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; that in the event 48th street and 49th street are not removed from the City Map and the land in the bed of mapped streets proposed to be covered by the building is acquired by the City of New York for street purposes, no claim shall be made for the portion of the building within the bed of such streets, except for the fair cost of new enclosing walls on street lines and for the fair value of the land so taken.

576-45-A

APPLICANT—William R. Shirley, for Anna Murphy, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—108 West 74th street, south side, 80 ft. west of Columbus avenue (cellar); (Block 1145, Lot 37), Borough of Manhattan.

APPEARANCES—

For Applicant: Franklin Klosse.

For Administration: Fred Dahlem, Dep't. of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (576-45-A)

WHEREAS, William R. Shirley, for Anna Murphy, owner, filed September 28, 1945, an appeal from a decision of the borough superintendent, affecting premises 108 West 74th street, south side, 80 ft. west of Columbus avenue (cellar); (Block 1145, Lot 37), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated September 28, 1945, on amendment to Misc. P & D. Applic. 132-45, reads:

"1. Provide extra heavy cast iron house drain."

and

WHEREAS, the applicant states the building is 5 stories (54 ft.) in height; 20 ft. by 74 ft. 6 in. in area at 1st floor; 20 ft. by 54 ft. in area at typical floor; of Class 3 construction; located in a residence use, B area and Class 1-½ height district; erected 1886; now vacant, and proposed to be used and occupied as follows: cellar, boiler room and storage; 1st to 5th stories, 2 apartments per floor; that the entire building is to be used as a Class A multiple dwelling; that the building is equipped with one interior 3 ft. wide stairs of fireproof construction, enclosed in fire retarded partitions, equipped with wood doors which are self-closing and leading from roof the bulkhead, directly to the street and two fire escapes, leading to the roof by stair, with egress from the lowest termination, through an adjoining yard; and

WHEREAS, the applicant contends that the fittings to comply with the Code are unobtainable and it is requested that the Board permit the retention of the present house drain and fittings of standard cast iron pipe, in good condition, in lieu of the extra heavy cast iron, which is not obtainable.

Resolved, that the decision of the borough superintendent, acting on Misc. P & D Applic. 132-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the existing 6 in. standard weight cast iron main house drain, as shown on plans filed with this appeal marked "Received September 28, 1945", shall be in sound condition and that in all other respects, the plumbing and drainage shall comply with all laws, rules and regulations applicable thereto; that this modification as to continuance of the house drain, as proposed, shall continue only as long as the building is not increased in height or area and is maintained for the use as proposed..

582-45-A

APPLICANT—J. J. McNamara, for Overton Operating Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1201-1211 Quentin road (Avenue Q) and 1679-1683 East 12th street, northeast corner (Block 6775, Lot 43), Borough of Brooklyn.

APPEARANCES—

For Applicant: John J. McNamara, Joseph M. Geoghan, Martin J. Tracy, Leonard Loberfeld and Max Grossman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (582-45-A)

WHEREAS, J. J. McNamara, for Overton Operating Corp., owner, filed September 28, 1945, an appeal from a decision of the borough superintendent, affecting premises 1201-1211 Quentin road (Avenue Q) and 1679-1683 East 12th street, northeast corner (Block 6775, Lot 43), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 3423-44, dated September 21, 1945, reads:

"1. Proposed factory use in theatre building, is contrary to Section C26-717.0 of the Building Code.

"2. Provide two fireproof stairs from second floor, complying with Section 270 of the Labor Law in all respects.

"3. Floor construction for factory use, to comply with Section C26-3405.0 of the Building Code, as to liveload capacity of 120 lbs."

and

WHEREAS, the applicant states that the building is two stories (28 ft.) in height, 83 ft. 5½ in. by 50 ft. in area at first floor, 100 by 50 ft. in area at second floor; Class 3 construction; located in a business use, C area and Class 1¼ height district; erected prior to 1927; used and occupied: 1st floor, stores, 20 persons; 2nd floor, office and restaurant, 55 persons; proposed to be used and occupied: 1st floor, same; 2nd floor, office and sales distribution and compounding of pharmaceuticals, manufacturing drapes, curtains and clothing, 20 persons; that the building is equipped with one 5 ft. wide wood stairs, enclosed on the 1st floor with terra cotta blocks, plastered both sides and on second floor, enclosed with studs with wire lath and plastered both sides, equipped with wood doors on the 1st floor and kalamein door on the 2nd floor, both self-closing; that there is also one existing fire escape at the rear and one proposed on the East 12th street front; and

WHEREAS, the applicant contends that the auditorium of the theatre is separate and distinct from the commercial building and there is an alleyway between the two buildings; that the lobby was constructed through one of the stores on the main floor of the commercial building and is cut off from the commercial building by 12 in. masonry wall and 12 in. concrete ceiling; that the proposed use of the 2nd floor of the commercial portion of the building will not use any combustible materials; that it is proposed to meet Objection 2 of the borough superintendent's decision, by installing an exterior counter-balanced stairway on the East 12th street side of this building and a ladder from the main hall to the roof; that the proposed stairway will be located at a point remote from the present interior stairway and a ladder to the roof, located near the main stairway; that in addition to the counter-balanced stairway and the roof ladder to the existing means of egress, there will be a fire stairway at the rear and the main stairway in the commercial building at the center, thus providing three means of egress to the street and one to the roof; that the original of the certificate of occupancy describes the liveload capacity of the 2nd floor as 120 lbs.; that however, such floor load will not be necessary for the proposed pharmaceutical business, as no machinery of any kind will be used, it is therefore requested the Board grant the variation, to permit the occupancy of the 2nd floor as herein proposed.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3423-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that the portion of the building, where factory work is proposed, shall be separated from the theatre portion at all points, with fire walls and floors of equivalent value as proposed; as to Objection 2, that in addition to the existing means of exit, as indicated on plans filed with this appeal marked "Received September 28, 1945," there shall be constructed and maintained on the East 12th street side as indicated, a fire escape complying with the requirements of the Labor Law therefor, and *on condition* that the space now occupied for the manufacture of light clothing, namely the most easterly space, shall be discontinued for the factory use; that the two adjoining spaces next west shall at all times be under one tenancy and the two means of exit to corridor therefrom, maintained as shown; as to Objection 3, that the floor load of the 2nd floor shall be maintained at 120 lbs. per superficial foot, as stated in the superseded Certificate of Occupancy 43691; that the latest certificate of occupancy now in effect, shall be superseded by a new certificate of occupancy, so as to set forth the permitted uses of the building and the approved live loads required thereon; that such loads shall be posted; that in the event the space shown directly west of the primary means of exit is rented in conjunction with the balance of the space to the west, an additional door towards Quentin road shall be constructed and maintained, so as to provide two means of exit from such space; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

585-45-A

APPLICANT—Jacob W. Sherman, for Aaron Agency, Inc., owner (Kings County Buick, Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—44-60 Empire boulevard and 1039-1063 Franklin avenue, southeast corner (1st floor); (Block 1313, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Jacob W. Sherman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (585-45-A)

WHEREAS, Jacob W. Sherman, for Aaron Agency, Inc., owner (Kings County Buick, Inc., lessee), filed September 28, 1945, an appeal from a decision of the borough superintendent, affecting premises 44-60 Empire boulevard and 1039-1063 Franklin avenue, southeast corner (1st floor); (Block 1313, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated September 27, 1945, re Alt. Applic. 2653-45, reads:

"6. The proposed covering of the ceiling of the office and showroom with Celotex, of this building which is used as a garage, showroom and office, is in violation of the Board of Standards and Appeals rules governing combustible ceiling materials uses. Denied."

and

WHEREAS, the applicant states that the building is one story (15 ft.) in height, 195 ft. 5 in. by 152 ft. 4 in. in area, upon a plot 195 ft. 5 in. by 152 ft. 4 in. in area; Class 3 construction; located in a business use, B area and Class 1¼ height district; erected in 1923 and used and occupied since as follows: Cellar, boiler room; 1st floor, garage, for more than five cars, showroom, offices, 30 persons and that no change in use or occupancy is proposed; and

WHEREAS, the applicant contends that the building has been occupied since erection as a showroom, office and garage in conjunction with the adjacent buildings, by Kings County Buick, Incorporated, for sales and distribution station for automobiles; that the building is constructed of brick with concrete floors throughout and wood roof beams; that the showroom is separated from the garage by 8 in. cinder concrete wall and all other partitions between showroom and office space and garage are one hour construction, with metal lath and cement plaster; that the garage portion is provided with an approved standpipe system; that all overhead doors in the garage portion are kept open regardless of weather conditions, during business hours and when showrooms and offices are in use; that Alt. 2653-45 was filed to replace the present deteriorated store fronts and to replace the wood office partitions with new fireproof partitions, install new wood sash in office, replace wood entrance doors; install new fireproof, self-closing doors between the garage and office and install new asphalt tile floor and Accusti-Celotex cane fiber tile ceilings in showrooms and offices; that in order to overcome a break in showroom ceiling, 2 in. by 4 in. blocking was applied to the present ceiling, which was originally fire retarded with metal lath and plaster; the Celotex cane fiber tile was installed over practically 90% of the showroom area, when the work was stopped; that the Celotex was installed in good faith in the belief that it would be permitted in a showroom where cars were on display not having any gas, oil, or batteries; that in view of the fact that those parts

of the structure, where Celotex has been used, do not require a combustible permit and are separated from the portion where a combustible permit is required by fireproof and fire retarded partitions, equipped with fireproof doors, it is requested that the Board modify the decision of the borough superintendent and permit the use of the cane fiber board ceiling.

Resolved, that the decision of the borough superintendent on Alt. Applic. 2653-45, Objection 6, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the space between the proposed Celotex ceiling and the fire-retarded ceiling, as indicated on plans filed with this appeal marked "Received September 28, 1945," shall be completely packed between the enclosing walls, for the full height of the space furred down from the fire-retarded ceiling with approved rock wool, to a density of not less than 5 lbs. per cu. ft.; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

599-45-A

APPLICANT—Mac L. Reiser, for Murray and Al Rosof, owners (Jack Miller, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—675-679 (675-677 displayed) Rockaway avenue, east side, 225 ft. south of Dumont avenue (2nd floor); (Block 3576, Lot 15), Borough of Brooklyn.

APPEARANCES—

For Applicant: Mac L. Reiser.

For Administration: Fred Dahlem, Dep't. of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (599-45-A)

WHEREAS, Mac L. Reiser, for Murray and Al Rosof, owners (Jack Miller, lessee), filed October 8, 1945, an appeal from a decision of the borough superintendent, affecting premises 675-679 (675-677 displayed) Rockaway avenue, east side, 225 ft. south of Dumont avenue (2nd floor); (Block 3576, Lot 15), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated October 5, 1945, on Alt. Applic. 3094-45, reads:

"1. As building was erected after Oct. 1, 1913, exits should comply with Section 270 of Labor Law."

and

WHEREAS, the applicant states that the building is 2 stories (24 ft. 6 in.) in height, 50 ft. by 100 ft. in area, of Class 3 construction, erected in 1915, located in a business use, C area and Class 1 height district and used and occupied since 1931 as follows: cellar—boiler room; 1st floor—retail sales of rugs and carpets—5 persons; 2nd floor rear—storage of rugs and carpets; proposed to be used and occupied: cellar—same; 1st floor—same; 2nd floor rear—storage of rugs and carpets; 2nd floor front—manufacturing of ladies' coats and suits—20 persons; that the building is equipped with one interior stair, 37 in. wide, of iron construction, enclosed in brick, equipped with fireproof, self-closing doors and leading directly to the street and equipped with a ladder and scuttle to the roof, and one fire escape on the side towards the rear, leading to the side court with egress to the street; that windows on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that in addition to the brick enclosed iron stairway leading from the 2nd floor to the street, there is an open iron stairway 42 in. wide, leading to an 8 ft. court and thence to the street through the front stairhall; that access to this stairway on the 2nd floor from the front portion will be had by a door in the existing partition, which will remain unlocked at all times during working hours; that the occupancy for factory will not be more than 20 persons and the area of the factory will be about 2400 sq. ft.; and

WHEREAS, Certificate of Occupancy 66200, issued December 12, 1931, permits the use of the first floor for light manufacturing and the 2nd floor for billiard room and gymnasium.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3094-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be maintained, as indicated on plans filed with this appeal marked "Received October 8, 1945", and the secondary means of exit shall be maintained, consisting of the present iron stair leading to the 8 ft. side court, except that such stair shall be relocated and the platform extended, so as to provide a means of exit from the rear stock room and also from the rear portion of the second floor factory; that the number of persons engaged in work for factory on the 2nd floor shall not exceed the number lawfully permitted for the primary means of exit; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that the building shall not be increased in height or area.

656-44-A

APPLICANT—Morris Whinston, for A. R. R. Realty Corp., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution— re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—24-26 East 21st street, south side, 148 ft. 6 in. east of Broadway (Block 849, Lot 58), Borough of Manhattan.

APPEARANCES—

For Applicant: Morris Whinston.

THE RESOLUTION (274-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 102 Sherman avenue, north side, 100 ft. east of Dyckman street and 169-171 Dyckman street (Block 2224, Lots 45-48 and 53), Borough of Manhattan, was granted by the Board on February 7, 1939, on certain conditions; and

WHEREAS, the permit was extended on October 28, 1941 and October 19, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 7, 1939, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five motor vehicles, *on condition* . . . that other than as herein *amended,* the provisions of the resolution of February 7, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

(Remaining minutes of the meeting of October 16, 1945 will be printed in the Bulletin of October 30, 1945.)

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION
10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

378-45-BZ

APPLICANT—Lama & Proskauer, for Sinclair Refining Co., owner, (Litterin Service Station Co., lessee).
SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residential and business use district, the proposed extension to permit lubritorium, auto laundry in the present gasoline service station.
PREMISES AFFECTED—116-60 Sutphin boulevard, west side, 64.44 ft. north of Foch boulevard (Block 12008, Lots 30 and 36), South Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: Alfred A. Lama and John Loughnam.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative 0

THE RESOLUTION (378-45-BZ)

WHEREAS, Lama and Proskauer for Sinclair Refining Company, owner (Litterin Service Station Co., lessee), filed June 19, 1945, an application under section 7c of the zoning resolution, to permit in a residence and business use district, the proposed extension to permit lubritorium, auto laundry in the present gasoline service station, affecting premises 116-60 Sutphin boulevard, west side, 64.44 ft. north of Foch boulevard (Block 12008, Lots 30 and 36), South Jamaica, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Sutphin boulevard is in a business use, D area and Class 1 height district; 148th street and 116th drive are in a residence and business use, D area and Class 1 height district; and

WHEREAS, the decison of the borough superintendent, dated June 12, 1945, on Alt. Applic. 667-45, reads:

"1. Proposed extension to gasoline service station located partly in a business and partly in a residence district, is contrary to Sections 3 and 4—46."

and

WHEREAS, the applicant states that the premises consists of a plot, 120.97 ft. frontage by 141.10 ft. in depth, irregular, on which is located a one story masonry building, 23 ft. front by 13.6 ft. deep, 13 ft. in height, to which an addition is to be added, 30 ft. deep and 25 ft. wide, constructed of concrete block (class 3 construction); that it is proposed to remove the present metal building and construct at the rear of the present office, a masonry extension to house a lubritorium and laundry room; and

WHEREAS, the applicant contends that the present one story masonry building is used as a store, office, to which there is attached a one story metal building, which is used for storage and there are four open steel grease pits and a one story tool shed 8 ft. 2 in. by 27 ft.; that it is proposed to remove the present metal building and construct at the rear of the present office, a masonry extension 25 ft. by 30 ft. to house a lubritorium and laundry room; that the present gasoline service station was erected prior to 1925, at which time a service station was permissible in a business use district; it is requested that this application be granted, in view of the fact that this is an existing gasoline station and the proposed extension is an improvement to the premises; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zonng resolution; and

WHEREAS, the applicant states that the present tenant has a lease which expires in two years and at the end of that time, the owner proposes to file plans for complete alteration and re-arrangement of the plot as a modern gasoline service station for consideration by this Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, for a term of two (2) years from the date of this resolution, to permit the proposed extension for a lubritorium as indicated on plans filed with this application, marked "Received June 19, 1945", *on condition* that at the end of the term herein granted, the building shall be removed; that all permits shall be obtained and all work completed within six (6) months from the date of this resolution.

570-45-BZ

APPLICANT—New York Telephone Co., owner.
SUBJECT—Application (decision of the borough superintendent) under sections 7c and 7d of the zoning resolution, to permit in a residence use district, the extension of an existing auxiliary telephone repeater station.
PREMISES AFFECTED—3813 Victory boulevard, north side, 120 ft. west of Baron boulevard (Block 2785, Lot 7), Travis, Borough of Richmond.
APPEARANCES—
For Applicant: Ralph W. Brown, Harry Kaiser and Irving W. Young.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (570-45-BZ)

WHEREAS, New York Telephone Company, owner, filed September 26, 1945, an application under section 7c and 7d of the zoning resolution, to permit in a residence use district, the extension of an existing auxiliary telephone repeater station, affecting premises 3813 Victory boulevard, north side, 120 ft. west of Baron boulevard (Block 2785, Lot 7), Travis, Borough of Richmond; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Victory boulevard is in a residence and retail use, E area and Class 1 height district and Baron boulevard is in a residence use, E area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 28, 1945, on Alt. Applic. 172-45 reads:

"1. This proposed non-fireproof extension to a telephone auxiliary cable house it not permitted in this use

district, as such use is contrary to a use permitted in a residential use district. Zoning Resolution, Art. II, Sec. 3" and

WHEREAS, the applicant states that the premises consist of a plot 60 ft. frontage by 100 ft. in depth (irregular), on which is located a building one story 19.33 ft. in height, of Class 3 construction and that it is proposed to extend the present building to the rear of present building, a distance of 12 ft. 11½ in. (a one story lateral extension to existing one story building); and

WHEREAS, the applicant contends that at the time the owner acquired title to this plot of land in 1938 on which the existing building is constructed, it was zoned in an A area, unrestricted use district; that in 1942, the area was zoned for residence use; that said parcel was acquired and the building constructed in furtherance of a general plan for the orderly development of adequate long distance telephone facilities throughout the eastern seaboard, including the enlarging of said building from time to time, to take care of growing service demands; that the plot of land is irregular and trapezoidal in shape with a frontage of 60 ft. on Victory boulevard, a parallel rear one of 81.45 ft. and a depth of 100 ft.; that the existing building is regularly shaped with pitched slate roof, 26 ft. 11 in. square and 19 ft. 4 in. in height, with easterly side yard of 12 ft. and westerly side yards of 25.38 ft. and 34.01 ft. on the front and rear of the building elevations respectively, and with front and rear yards of 20 ft. and 53 ft. 1 in. respectively; that a 4 ft. wire link fence extends across the property 16 ft. to the rear of the existing building; that the proposed one story extension, without basement, will extend the building an additional 12 ft. 11½ in. toward this fence and into the rear yard of 53 ft. 1 in.; that the wire link fence extends also along the side property lines of the premises and across the front yard at the old line of Victory boulevard; that the fenced area contains lawn, concrete walk and shrubbery attractively maintained; that the combined building will have pitched slate roof 19 ft. 4 in. in height, rectangular in shape, fronting 26 ft. 11 in. on Victory boulevard and a depth of 39 ft. 10½ in. and a rear yard of 40 ft. 1-½ in.; that the existing front and side yards will be retained; that the portion of the new building will further extend into the residence district 26 ft. 5 in. by 12 ft. 11½ in.; that the extension will conform architecturally with the existing building, non-fireproof Class 3 building, with wood framed roof, concrete footings, reinforced concrete floors, without basement and solid brick walls faced with red Colonial brick and limestone trim, centered metal front door and limestone door frame, set back 20 ft. from the proposed line of Victory boulevard, with a concrete walk leading to the front door steps and a 4 ft. cyclone wire link fence enclosing the premises; that the building will house electrical voice-amplifying equipment for approximately 100 existing Type K cable carrier telephone systems; that telephone traffic has increased rapidly for a number of years and has been cared for in the New York-Washington section principally by the installation of Type K carrier systems on cables, which necessitates repeater office equipment at certain definite intervals, determined by transmission requirements; that there is not sufficient space in the present building for the additional equipment; that the proposed extension is the minimum which can be provided to permit a satisfactory operating layout of the equipment; that any appreciable change in the location of the delicately adjusted transmission equipment housed in this building, would unbalance telephone operation over these long lines and would adversely affect the quality of service transmission; that the structure will be wholly unattended by operators or other employees, except for infrequent visits of short duration for inspection and maintenance; that in April of 1945, the WPB authorized the additional equipment involved in this project and the construction of additions to four of the repeater stations and the project was approved by the Federal Communications Commission; that orders have been placed for the K carrier equipment to conform to Western Electric Company's production schedules, so that the equipment may be made available for service by February 1946; that strict application of the use district provisions would be contrary to the general purposes and intent of the building zone resolution, resulting adversely to efficient and proper telephone operation and service to the public; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivisions c and d, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under sections 7c and 7d thereof, to permit the extension as proposed into the residential district, as indicated on plans filed with this application marked "Received September 26, 1945". *on condition* that the premises shall be maintained as proposed, with the grounds properly landscaped and surrounded on all sides by a woven metal fence as proposed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS.

399-45-A

APPLICANT—Stanley Kilburn, owner.

SUBJECT—Appeal from a decision of the borough superintendent. (Under section 35, General City Law re bed of mapped street—Corporal Kennedy street (Stewart avenue).

PREMISES AFFECTED—209-01 to 209-19 Northern boulevard, north side, between Corporal Kennedy street (Stewart avenue) and 209th street (Wright avenue); (Block 6279, Lot 21), Bayside, Borough of Queens.

APPEARANCES—

For Applicant: P. Harold Paltrow and Stanley S. Kilburn.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to November 7, 1945, at 10 A. M. at request of applicant.

407-44-A

APPLICANT—Regal Chemical Corporation, lessee, for 115 Dobbin Street Corporation, owner.

SUBJECT—Application reopened October 9, 1945 re Appeal from a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—115-117 Dobbin street, west side, 100 ft. south of Meserole avenue (1st and 2nd floors); (Block 2616, Lot 12), Borough of Brooklyn.

APPEARANCES—

For Applicant: E. Norman Clark.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (407-44-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 115-117 Dobbin street, west side, 100 ft. south of Meserole avenue (1st and 2nd floors); (Block 2616, Lot 12), Borough of Brooklyn, was granted by the Board on July 5, 1944, on certain conditions: and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the borough superintendent; and

WHEREAS, this appeal was reopened by vote of the Board on October 9, 1945, based on a decision of the borough superintendent, dated March 13, 1945, on Alt. Applic. 3661-43, which reads:

"1. Freon tanks to be stored as specified in resolution of Board of Standards and Appeals. Denied."

and

WHEREAS, the applicant now contends that it has complied with all other conditions of the Board's resolution adopted July 5, 1944, to the satisfaction of the fire commissioner, except "that no open flames of any kind shall be in any part of the second floor; and that such cylinders shall be stored in a fireproof room, located toward the front of the first story"; that there are no open flames on any part of the 2nd floor, with the exception of small bunsen burners operated occasionally under direct supervision of research and control chemists, within a small laboratory of fire retarding construction, equipped with sufficient fire extinguishers and that the burners in operation are on a fireproof surface and most of the time, located within a hood, mechanically ventilated to the roof of the building; that the laboratory on the second floor is adequately ventilated; and contends as to the fireproof storage room on the first floor, as required by the resolution, it is requested the Board accept the proposed condition as shown on plans filed with this appeal.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted July 5, 1944, so that as amended it shall read:

"*Resolved,* that order 97178-LC of the fire commissioner be and it hereby is *modified* and the appeal be and it hereby is *granted,* as to item 1, *on condition* that not more than ten 1-ton cylinders of Freon shall be stored on the premises; that such cylinders shall be stored in a fireproof room, located at the front of the first story, substantially as indicated on revised plans filed with this appeal marked 'Received May 26, 1945'; that piping from such tanks to the second floor work benches shall be constructed and maintained to the satisfaction of the fire commissioner; that no open flames of any kind shall be in any part of the second story, except in a laboratory room shut off from the balance of the second floor, where a bunsen burner may be permitted for laboratory purposes; that the boiler room on the first floor shall be separated by a fireproof partition with a fireproof, self-closing door, as indicated; that proper signs satisfactory to the fire commissioner shall be posted as to the presence of Freon on the premises; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. Nos. 28-44-A and 81-44-A.

Resolved, further, that the decision of the borough superintendent as to Alt. Applic. 3661-43, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the fireproof room as proposed and shown on plans marked 'Received May 26, 1945' shall comply with all requirements of the Building Code therefor; that such fireproof room shall be ventilated by means of fixed louvers at top and bottom, opening directly to the street, to the satisfaction of the fire commissioner; and that in all other respects, the requirements of this resolution shall be complied with."

551-45-A

APPLICANT—I. D. Watch Case Co., lessee, for Eastport Realty Corporation, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—137-11 90th avenue, northeast corner of Van Wyck boulevard (main floor); (Block 9971, Lot 38), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: J. M. Zinam.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (551-45-A)

WHEREAS, I. D. Watch Case Company, lessee, for Eastport Realty Corporation, owner, filed September 12, 1945, an appeal from an order of the fire commissioner, affecting premises 137-11 90th avenue, northeast corner of Van Wyck boulevard (main floor); (Block 9971, Lot 38), Jamaica, Borough of Queens; and

WHEREAS, Order 304-LC, issued by the fire commissioner, dated August 13, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store and use acids, shows that the following must be done before the permit requested by you can be issued:

FORTHWITH

2. Discontinue the storage and use of hydrogen gas, since this use creates an undue hazard and is not in the interest of public safety. C19-11.0, Administrative Code."

and

WHEREAS, the applicant states that the building is 1 story (22 ft. 3½ in.) in height, 188 ft. 9 in. by 214 ft. in area at street level, 92 ft. by 45 ft. in area at typical floor level, of Class 1 construction, erected in 1945, located in an unrestricted use, C area district and used and occupied: basement—cafeteria—two persons, boiler room—1 person, store room, locker rooms and gold molding department—1 person; 1st floor—manufacturing watch cases—155 persons, offices—10 persons; 2nd floor—offices—4 persons, manufacturing watch cases—3 persons, and conference room; that the building was equipped with one stairway to the basement, leading to the street and rear area, two stairways to the office area and three exits directly to the exterior; that the basement stairway is 5 ft. 4 in. wide, office stairways are 3 ft. 8 in. wide, all of steel and cement treads, enclosed in 6 in. concrete block, equipped with 1-½ hour hollow metal self-closing doors; and

WHEREAS, Certificate of Occupancy Q32548, issued under Alt. 528-45, permits the use and occupancy of the building as follows: basement—locker rooms—264 persons; restaurant—132 persons, not to be used when lockers are used, and boiler room—1 person; 1st floor—factory and office—300 persons; 2nd floor—office—30 persons; and

WHEREAS, the applicant contends that the building was recently erected and is equipped with every type of new equipment available for safety of employees; that the use of hydrogen gas does not create an undue hazard and no possible hazard is attached to its use; that the hydrogen gas is used in a container which has a door on each side; that the only possible place the gas could escape is through one of these doors when open; that directly in front and below each of these doors is a pilot gas light and the operator of the container will never open either of these doors unless the pilot light is lit; that so long as either of the pilot lights is lit, none of the hydrogen gas can escape, even when the doors are open; that the company has used this method for the past 30 years and at no time has there been any accident; that if the use of hydrogen gas is required to be discontinued, the plant will have to shut down, as the gas must be used for the soldering, stamping and heat-treating of the products made.

Resolved, that the order of the fire commissioner on Order 304-LC, item 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the number of cylinders of hydrogen gas stored on the premises shall not exceed two, each with a capacity of not over 200 cu. ft. of gas; that such cylinders shall be stored in a separate compartment, erected outside the existing building at a point as indicated on revised plans filed with this appeal marked "Received October 18, 1945"; that such building shall not exceed the dimensions indicated and shall be constructed of incombustible material; that the entire roof shall consist of a skylight with fixed louvre ventilators; that such skylight shall rest unattached on top of the walls; that ventilation shall also be provided near the floor as proposed; that the floor of such storage space shall be of the sparkproof type and any wiring within the building shall be of a type as approved

for explosive atmospheres; that such cylinders shall be firmly maintained in place by straps of non-ferrous metal, in an upright position, with a manifold of a type satisfactory to the fire commissioner; that piping from such manifold into the building for use as proposed, shall be maintained to the satisfaction of the fire commissioner and shall be painted as he shall require; that such piping shall be single length tubing, or where joined, shall be properly welded or brazed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

578-45-A

APPLICANT—Ladis H. Csanyi, for President of the Borough of Manhattan, City of New York, owner.

SUBJECT—Re transportation of gasoline and kerosene in a gasoline type tank truck (not in conformity with Fire Department's specifications governing tank trucks) in New York City.

APPEARANCES—
For Applicant: Ladis H. Csanyi.
For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (578-45-A)

WHEREAS, Ladis H. Csanyi, for the President of the Borough of Manhattan, City of New York, owner, filed on October 1, 1945, an appeal from decisions of the fire commissioner affecting the transportation of gasoline and kerosene in a gasoline type tank truck within the City of New York; and

WHEREAS, the decision of the fire commissioner dated May 23, 1945, reads:

"Our inspector reports having seen Truck #22 operated by your Department. It is used for the transportation of petroleum products and is not in conformity with our requirements, and further that no permit has been obtained for the transportation of this material. It is therefore suggested that a representative from your Department call at this office, where we will be pleased to explain our requirements."

and

WHEREAS, the decision of the fire commissioner dated September 20, 1945, reads:

"In reply to your request of September 19th, we herewith quote our communication of July 23rd, 1945, regarding the use of a truck to transport both gasoline and kerosene:

'In reply to your letter regarding the use of a gasoline type tank truck to transport both gasoline and kerosene at the same time, please be advised that such transportation is contrary to Section 26-1 of the Fire Department tank truck regulations.'"

and

WHEREAS, the applicant states the tank truck in question will have a capacity of 1920 gallons, divided into six compartments, none of which shall exceed 320 gallons; that the tank truck will meet all the requirements of the Fire Department relating to tank trucks for transportation of gasoline, benzine, benzole, etc.; that the truck will be used in the transportation of both gasoline and kerosene, the five front compartments for kerosene and the last compartment for gasoline; that gasoline or kerosene will be dispensed as required, through separate approved pumps, meters and hoses; that kerosene will be pumped through an approved meter and thence through the prescribed hose; that gasoline will be pumped through a separate manifold to a separate discharge line; that gasoline or kerosene will have separate discharge manifolds, each equipped with a hose at least 12 ft. in length, mounted on a reel with manual control; that portions of the vehicle utilized for kerosene tank and all discharge mechanisms, valves, etc., including hose tip, will be painted dark green and the portions used for gasoline, including tank, valves and all discharge mechanisms shall be painted red; that the cab, bonnet or hood, and wheels will be painted grey-green; and

WHEREAS, the applicant contends that in the process of repairing and maintaining streets and sewers in the Borough of Manhattan, it utilizes numerous types of gasoline driven machinery and kerosene heating or lighting equipment; that since the majority of the repair crews utilize both gasoline and kerosene equipment, it is necessary that both gasoline and kerosene be furnished to them daily, to permit the carrying out of their work; that tests have been carried out in order to determine the manner in which the gasoline and kerosene may be handled to avoid loss of time; that by virtue of the character of the work and the locations throughout the borough, it has been found that the transportation of kerosene and gasoline in one vehicle yielded the highest efficiency; that a tank truck was constructed for this use, but cannot be revised to meet the requirements of the fire department; that it is proposed to purchase a gasoline tank truck of 1940 gallon capacity, meeting the fire department requirements for gasoline and to provide this truck with one section of 340 gallons capacity, with a separate manifold for gasoline and the regular manifold to serve the remaining five compartments for kerosene; it is therefore requested that the Board grant special permission to utilize the gasoline tank truck to transport both gasoline and kerosene, in order that the Department may carry on its functions economically, safely and efficiently; and

WHEREAS, the applicant states that the tank truck will comply in all respects with the requirements of the fire commissioner for a gasoline truck, except that it is desired to carry both gasoline and kerosene in the same truck, five tanks to carry kerosene and one, gasoline.

Resolved, that the decision of the fire commissioner, dated September 20, 1945, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the tank truck shall comply with the requirements therefor and shall be maintained substantially as proposed; that in addition to painting the kerosene tanks green, all valves, piping, etc. in connection therewith shall be painted green, and the gasoline tank with its valves, pipings and fittings shall be painted red; that there shall be a sign attached to the outlets stating the contents of each tank and also on the gasoline dispensing nozzle there shall be a tag firmly attached thereto, stating that it is for gasoline; that when dispensing, the tank truck shall be removed as far as possible from the equipment to be filled and that such filling of gasoline and kerosene shall be done only when the apparatus being serviced is shut down.

MATERIALS SUBMITTED FOR APPROVAL.

APPLICANT—Panther Oil and Grease Manufacturing Co., owner.

SUBJECT—Battleship Liquid Asbestos Coating, approval of.

APPEARANCES—
For Applicant: Robert E. Cushman and H. A. Mingler.

ACTION OF BOARD—Material approved in accordance with the report of the committee on tests.

THE VOTE TO APPROVE—
Affirmative—Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (356-43-SM)

WHEREAS, the Panther Oil and Grease Manufacturing Co., owner, filed on July 12, 1943, an application with the Board of Standards and Appeals for approval of the material known as Battleship Liquid Asbestos Coating; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

MINUTES

REPORT OF COMMITTEE ON TESTS

September 19, 1945.

Re: Cal. 356-43-SM

Subject: Battleship Liquid Asbestos Coating, Approval of.

The Panther Oil and Grease Manufacturing Company, filed an application with the Board of Standards and Appeals for approval of Battleship Liquid Asbestos Roof Coating (reroofing and resurfacing material), under the provisions of C26-178.0.b, C26-605.0 and C26-680.0 Administrative Building Code.

DESCRIPTION

The material is intended for use as a coating or finish on roofs of old or new buildings. The coating is composed of Gilsonite, which has a melting point of 280 degrees F, other oils, asbestos and other materials to form a smooth homogenous mixture.

Test was conducted by the Robert W. Hunt Company, as to this material, report #K2550 with the following results:

Condition of Material in container . . . Smooth, homogeneous mixture—no livering.

Consistency . . . Brush coat produces a film of appreciable thickness with easy application.

% Volatile Matter 20.50
% Non-Volatile Matter 79.50

Behavior of Coating at 140 deg. F for 5 hours:

On Smooth surfaced asphalt prepared roofing . . . No blistering, sagging nor appreciable absorption.

On metal panel . . . No blistering nor sagging.

Behavior of Coating at 32 deg. F for 1 hour:

On metal test panel when quickly bent over a 1 inch mandrel . . . No cracking or separation of metal and coating.

% Mineral Filler 6.38
% Residue from Ignition of Mineral Filler.... 89.30

The above tests indicate that this material meets the requirements of Federal Specification SS-R-451 for Brushing Consistency asphalt for roof sealing. In addition, the test shows as follows:

Behavior of coating on tin panel when heated to 700 deg. F and immediately plunged into ice water . . . No harmful effects could be observed. Immediately upon withdrawal from ice water film withstood bending and straightening without cracking.

A brand test was conducted on a roof panel 3′ x 4′ square of ⅞ in. t. and g. planking on 2″ x 4″ rafters by the New York Testing Laboratories, Inc., in the presence of the Committee on Tests of the Board, in accordance with the requirements of Administrative Building Code, Group 16, with the following results:

Time elapsed until flame was out—23 min.
Time elapsed until glow was out—28 min. 50 sec.
Surface area scorched by spread of flame—15″ x 11″
Surface area burned—8″ x 8″
Plies consumed—All (apparently 3 plies)
Area of wood deck stained—10″ x 10″
Area of wood deck charred—5″ x 5″
Depth of Charring—9/16″
At six minutes the deck coating was burning.

RECOMMENDATION

As a result of these tests, the Committee recommends approval under C26-680. and Group 16, Administrative Building Code as a roof covering applied over old or new roofing, provided that when used within the fire limits over new roofing two plies consisting of one 30 lb. and one 14 lb. felt mopped at the rate of 2 gallons of Battleship liquid asbestos coating per square shall be applied for each layer and when used over old roof shall have equivalent under laying.

It is also recommended that each container of Battleship Liquid Asbestos Coating shall be clearly marked or labeled, "Approved by the Board of Standards and Appeals for use in New York City under Cal. 356-43-SM."

(Sgd.) Bernard A. Savage,
Commissioner.
Charles M. Blum,
Commissioner.
Leslie V. Huber,
Chief Engineer.
Committee on Tests.

and

Whereas, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Battleship Liquid Asbestos Coating, *on condition* that the material be manufactured, used and lebelled in accordance with the above report.

652-44-SM

THE RESOLUTION (652-44-SM)

Whereas, Crest Manufacturing Co., Inc., owner, filed on November 17, 1944, an application with the Board of Standards and Appeals for approval of the material known as Crest Setting Compound (Plumbing Fixture Setting Compound); and

Whereas, this material was referred to the Committee on Tests of the Board for test and report; and

Whereas, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

September 29, 1945.

RE: Cal. 652-44-SM

Subject: Crest Setting Compound (Plumbing Fixture Setting Compound) approval of.

The Crest Manufacturing Company of Long Island City, New York, filed an application with the Board of Standards and Appeals for the approval of their Crest Setting Compound under the requirements of C26-178.0b for use as a material that is impervious to moisture in floor outlet connection leading to the fixture placed thereon, as provided in C26-1250.0 of the Administrative Building Code.

DESCRIPTION

Crest Setting Compound is composed of asbestos, pertrolatum, clay, whiting and a germicide. None of the material in the compound is of vegetable or animal matter. The applicant contends that the binder is not subject to deterioration by oxidation, exposure to water or to elevated temperatures, and that it will not dry out, and will adhere to even wet surfaces. It is further claimed that it will prevent the ordinary passage of gases and fumes and that since it has no asphalt or highly colored resinous matter, it is non-staining on marble tile or other similar surfacing materials with which the compound is used. These claims have been checked and certified to, in a report of the laboratory of Foster D. Snell, dated December 9, 1944. Crest Setting Compound is applied around the horn of the bowl after which it is placed in position and rocked, which allows the spreading of the compound, thus sealing the fixture to the floor outlet connection.

TESTS

A sample of this compound was submitted to the laboratories of Foster D. Snell, Inc., of Brooklyn, N. Y. for test to meet the requirements of Fed. Spec. HH-C-536 "Compound; Plumbing Fixture Setting" June 5, 1936 with requirements and results as follows:

E-1. Characteristics.—The composition shall be gas and fume proof, watertight, and nonstaining when applied on tile or concrete surfaces, and shall not rot, harden or dry. Meets requirements.

E-2. Condition in container.—The compound shall be a smooth homogeneous mixture and shall not lump or liver. Meets requirements.

E-3. Workabilty.—The compound shall spread readily when applied to vitreous or metal surfaces and shall be capable of being rolled into a ring. Meets requirements.

E-4. Behavior at 32 deg. F.—Test pieces ½ inch in diameter and 3 inches long, when bent quickly over a mandrel 1 inch in diameter, immediately after exposure to a temperature of 32 deg. F. for 1 hour, shall not show signs of cracking or breaking. Meets requirements.

E-5. Behavior at 180 deg. F.—Test pieces exposed for 60 minutes in a well-ventilated room, then in an oven at 180 deg. F. for 5 minutes, and then back in the room for 60 minutes shall remain plastic, smooth, and homogeneous. Meets requirements.

E-6. Behavior in water.—A piece of 14-mesh wire cloth bent to form a basin not less than 6 inches deep, coated with the compound to a thickness not exceeding 1/16 inch and filled with water, shall show no leakage within 72 hours. Meets requirements.

The report also states that sample conforms to all the requirements of the Federal Specification, including the presence of a germicide to prevent the compound from supporting bacterial life.

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests recommends the approval under the Board's authority as provided in C26-191.0a, of Crest Setting Compound for use in setting bowls, urinals, service sinks and similar fixtures, as provided in C26-1250.0 Administrative Building Code, provided that the material be made and used as described herein and that each container bear wording reading as follows: "Approved for use in New York City by the Board of Standards and Appeals under Cal. 652-44-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner

CHARLES M. BLUM,
Commissioner

LESLIE V. HUBER,

THE RESOLUTION—(393-45-SM)

WHEREAS, Tagul Laboratories, Inc., owner, filed on June 22, 1945, an application with the Board of Standards and Appeals for approval of the material known as Taguline (flameproofing compound); and

WHEREAS, this material was referred to the Committee on Tests of the Board for tests and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

September 28, 1945.

RE: Cal. 393-45-SM

Subject: Taguline (flameproofing compound), Approval of.

The Tagul Laboratories, Inc., owner, filed an application with the Board of Standards and Appeals for approval of the material known as Taguline (flameproofing compound), under the provisions of Sec. C26-191.0 and C26-721.0.b of the Administrative Building Code and the rules of the Board of Standards for Tests of Fire-Resistive Flameproof Materials such as Textiles, Paper and similar Materials and Adhesives, used for decorative purposes and treated acoustical draperies, carpets and similar materials for use in places of public assembly and special occupancy structures.

DESCRIPTION

Taguline is a compound of inorganic and organic salts to which gelatine is added. The material is dissolved at room temperature in the proportion of one pound to a gallon of water. It is applied by: 1. Immersion of the fabrics to be treated; 2. By spraying until the fabrics are thoroughly saturated. Fabrics submitted for test purposes were treated and tested at the Better Fabrics Testing Bureau, Inc., New York, in the presence of the representatives of the Committee on Tests. These tests were conducted in accordance with the Rules of the Board, the samples being immersed for a period of 10 to 35 minutes and dried at room temperature for 48 hours. Other samples were hand sprayed and dried. The following are the results:

Material	Description	Flashing	Duration of Flame	Duration of Glare
Linen—3 samples	treated	none	none	none
Corrugated cardboard (3 samples)	"	"	"	"
Brown wrapping paper	"	"	"	"
Viscose type rayon Marquisette	"	"	"	"
Cotton-wool-upholtery fabric Jacquard pattern	"	"	"	"
Viscose Rayon-cotton Brocade	"	"	"	"
*All cotton velveteen	"	"	"	.13.18 .3 sec.
*Painted scenery on canvas	"	"	"	3, 4 & 9 sec.
All cotton Mattress Ticking	"	"	"	none

* Sprayed

The chemical analyses of the flameproofing compound show inorganic borates and chlorides

Total solids
Moisture
pH value range 7.5 to 8.2

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests recommends the approval of Taguline (flameproofing compound) for use on fabrics listed herein, as susceptible of being satisfactorily flameproofed by the proper application of the flameproofing compound. Tests for each specific installation of originally treated combustible material or any retest thereof shall be made by the Fire Commissioner or in a laboratory approved by him, in accordance with the Rules of the Board heretofore referred to.

The Committee further recommends that each container in which this material is marketed shall be labeled or marked "Approved by the Board of Standards and Appeals for use in New York City under Cal. 393-45-SM."

The label shall also include specifications to be followed in the application of Taguline (flameproofing) compound as to the various types of fabrics, so as to insure their being flameproofed in accordance with the requirements of the Rules for Tests of Fire-resistive Flameproof Materials, such as Textiles, Paper, Similar Materials and Adhesives used for Decorative Purposes and Treated Acoustical Draperies, Carpets and Similar Materials, for use in Places of Public Assembly and Special Occupancy Structures adopted by the Board under Cal. 294-40-SR.

(Sgd.) BERNARD A. SAVAGE,
Commissioner
CHARLES M. BLUM,
Commissioner
LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Taguline (flameproofing compound) *on condition* that the material be manufactured, used and labelled in accordance with the above report.

THE RESOLUTION (499-45-SM)

WHEREAS, Plymouth Welding Co., owner, filed on August 13, 1945, an application with the Board of Standards and Appeals for approval of the material known as Plymouth Welding Company's 275 Gallon Obround Fuel Oil Storage Tank; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the committee on tests reads:

REPORT OF COMMITTEE ON TESTS

September 28, 1945.

RE: Cal. 499-45-SM.

Subject: Plymouth Welding Co.'s 275 Gallon Obround Fuel Oil Storage Tank, approval of.

The Plymouth Welding Co. of Conshohocken, Pennsylvania, owner, filed an application with the Board of Standards and Appeals for approval of their material known as the Plymouth Welding Co. 275 Gallon Obround Fuel Oil Storage Tank, under the provisions of the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION

These tanks are constructed of #10 U.S. gauge mild sheet steel both heads and shell. They are obround in shape and measure 44" by 26" by 62" inside diameter. The heads are dished (convex) and are formed with rim approximately 1-¼ inches wide and fillet welded. The shells are formed of one piece with a lap of one inch and fillet welded. There are four 2-inch welded pipe connections at top of plate and a ¾-inch opening iron pipe size in one head for draining tank. There are four lugs welded to the body plate with 1-¼ in. tap connections for anchoring tank to floor or other supports. Total weight of tank without lugs 418 lbs.

TEST

A sample tank was subjected to a pressure test at the applicant's plant at Conshohocken, in the presence of the Committee on Tests of the Board and the representatives of the manufacturer, and it successfully met the requirements of Rule 10.3.1 of the Oil Burner Rules. Details of construction, workmanship and protection of steel were found to comply with the Rules of the Board.

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests of the Board recommends that the Plymouth Welding Co. 275 Gallon Obround Fuel Oil Tank be approved for use in fuel oil installations in New York City, when constructed in accordance with the details of this report and drawings filed with this application, but nothing herein shall be deemed to waive any requirement of the Oil Burner Rules of the Board.

It is further recommended that all welding conform to the Fusion Welding and Gas Cutting Rules of the Board and that the permanent affixed plate required by rule 5.3.2 of the Oil Burner Rules, in addition to the wording thereon, shall have the following wording, "Approved by the Board of Standards and Appeals for use in New York City under Cal. 499-45-SM."

RE: Cal. 543-45-SM.

Subject: Astoria 275 Gallon Obround Fuel Oil Tank, approval of.

The Astoria Tank Co. of Long Island City, owner, filed September 11, 1945, an application with the Board of Standards and Appeals for approval of the material known as the Astoria 275 Gallon Obround Fuel Oil Tank, under the provisions of the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION

These tanks are made with long diameter, vertical, and are constructed of #10 U.S. gauge commercial grade, hot rolled sheet steel. They are obround in shape and measure 42" by 26" by 63", long axis verticle. The heads are dished (convex) and are formed with rim approximately 1-¼ in. wide and welded. The shells are formed of one piece with a lap of 1 inch at seam and welded. There are four 2-inch pipe connections welded on top and a ¾-inch steel spud is provided in the bottom of one head to be used as a drain. The tanks are provided with standard pressed steel pipe support lugs. The seams, spuds and lugs are welded. Total weight without lugs 375 lbs.

TEST

A sample tank was subjected to a pressure test at the applicant's plant in the presence of the Committee on Tests of the Board and representatives of the manufacturer and it successfully met the requirements of rule 10.3.1 of the Oil Burner Rules. Details of construction, workmanship and protection of steel were found to comply with the rules of the Board.

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests recommends that the Astoria 275 Gallon Obround Fuel Oil Tank be approved for use in fuel oil installations in New York City, when constructed in accordance with the details of this report and drawings filed with this application, but nothing herein shall be deemed to waive any requirements of the Oil Burner Rules of the Board. It is further recommended that all welding conform to the Fusion Welding and Gass Cutting Rules of the Board, and that the permanent affixed plate required by rule 5.3.2 of the Oil Burner Rules, in addition to the wording thereon, shall have the following wording, "Approved by the Board of Standards and Appeals for use in New York City under Cal. 543-45-SM."

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Astoria 275 Gallon Obround Fuel Oil Tank, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 11:50 A. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, OCTOBER 23, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS.

328-45-A

APPLICANT—Henry Nordheim, for Aldo Pasquini, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1711 Adams street, west side, 86.75 ft. north of Van Nest avenue (Block 4051, Lots 31 and 32), Borough of The Bonx.

APPEARANCES—

For Applicant: Henry Nordheim, Edward Latti and Aldo Pasquini.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (328-45-A)

WHEREAS, Henry Nordheim, for Aldo Pasquini, owner, filed May 29, 1945, an appeal from a decision of the borough superintendent, affecting premises, 1711 Adams street, west side, 86.75 ft. north of Van Nest avenue (Block 4015, Lots 31 and 32), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated May 1, 1945, on Alt. Applic. 510-44, reads:

"Your application for a certificate of occupancy for use of the above premises as a private club, is DENIED, as the subject alteration application was approved in error, said application having been revoked."

and

WHEREAS, a prior decision of the borough superintendent dated April 4, 1945 reads:

"You are hereby notified that Alteration Application No. 510/44 and Permit No. 12/1945, issued for the above premises, are hereby revoked, as the approvals were issued in error, as the records of this Department show that this building was erected under Temporary Building Application No. 61/1933, the approval of which expired July 1st, 1935. This approval was extended November 29, 1935 for one year, expiring November 29, 1936.

"Since this date, the building has been occupied contrary to subdivision 4 of Section 478 of the old code and Section 8-7-2-7.4 or Section C26-542.0-c of the Administrative Code.

"You are directed to discontinue the present occupancy, and demolish the building, forthwith."

and

WHEREAS, the applicant states that the building is 1 story (16 ft.) in height, 16 ft. 7 in. front width by 76 ft. in depth, by 23 ft. 9 in. at the rear; of Class 4 construction, erected prior to 1907, located in an unrestricted and business use, B area and Class 1¼ and 1½ height district and used and occupied as a private club for 25 persons; and

WHEREAS, the applicant contends that the action of the borough superintendent is in error, for the reason that the index card record shows that this building existed before 1907, as Alteration Plan No. 547-07 was filed relating thereto; that in filing Alt. 510-44, there was an objection raised as to the occupancy and affidavits were offered and accepted by the borough superintendent, showing that the building was occupied as a club as far back as 1930; that in the letter of the borough superintendent dated April 4, 1945, demolition of the building is directed; that the question is whether this building which existed prior to 1907, should be destroyed just because the Department plan records are so depleted that there remains nothing but the index card to prove its existence; that this is a glaring instance of the Department policy to declare a building an outlaw, if there is no plan in their files; that at one time this building housed the woodworking shop of the Mackenzie Lumber Company; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board finds that the statement in the decision of the borough superintendent dated April 4, 1945 is correct as to the record.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 510-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted* for a term two (2) years from the date of this action, *on condition* that the building shall comply with the requirements as approved under N.B. Applic. 61-1933, and the alterations as approved prior to revocation of the application under Alt. Applic. 510-44 and Permit No. 12 of 1945; that this variance shall continue only so long as the building is not increased in height or area, and *on condition* that no further structural alteration shall be made and for the term as above stated, and occupied as a private club as proposed, by the club now in possession; that the door shall be maintained in the rear fence opposite the second means of exit and permission to cross adjoining premises under other ownership shall be obtained and filed with the borough superintendent.

507-45-A

APPLICANT—A. F. Morganier, for City and Suburban Homes Co., owner.

SUBJECT—Application for consideration—reopening and restoration to calendar—re Appeal from a decision of the borough superintendent (previously dismissed for lack of prosecution September 25, 1945).

PREMISES AFFECTED—43-10 48th avenue, south side, between 43rd and 44th streets (Block 177, Lot 1), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: A. F. Morganier.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and restored to the calendar and granted on condition.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE VOTE TO GRANT ON CONDITION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (507-45-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 43-10 48th avenue, south side, between 43rd and 44th streets (Block 177, Lot 1), Long Island City, Borough of Queens, was dismissed for lack of prosecution on September 25, 1945; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, the decision of the borough superintendent, dated July 27, 1945, on Misc. Applic. 2695-45, reads:

"3. No burner shall be installed in any boiler, heater, range or stove unless each boiler, heater, range or stove be connected with a separate flue in a legal chimney, complying with Art. 11 of the Admin. Code, etc., Rule 12.1, Oil Burner Rules of the Board of Standards and Appeals."

and

WHEREAS, the applicant states that the building is 5, 6 and 7 stories (73 ft.) in height, 190 ft. by 150 ft. in area, of Class 3 construction, erected in 1930, located in a residence and business use, B area and Class 1 height district and used and occupied since 1931 as a multiple dwelling; and

WHEREAS, the applicant contends that the premises have been heated by coal burning boilers, connected by means of a common breaching to a single 4 in. firebrick lined chimney; that the two boilers which it is now proposed to convert to oil burning boilers, are set side by side in the boiler room located on the same floor level, with a very short common smoke breaching, running from the back of each boiler to the common chimney, which is located a short distance from the rear of the two boilers; that boiler manufacturers recommend a smaller chimney area for oil fired boilers than for coal fired boilers; it is therefore felt that the chimney will give safer and more satisfactory operation for oil fired boilers than was obtained with coal fired boilers.

Resolved, that the decision of the borough superintendent acting on Misc. Applic. 2695-45, objection 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the installation shall be maintained substantially as proposed and shown on plans filed with this appeal, marked "Received August 22, 1945" and in all other respects, shall comply with all laws, rules and regulations applicable thereto, including the Oil Burner Rules of the Board; that this variance shall continue only so long as conditions are maintained substantially as proposed and to the satisfaction of the fire commissioner.

510-45-A

APPLICANT—George D. Scott, for Radio Engineering Laboratories, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—36-40 37th street, west side, 349.5 ft. north of 37th avenue (Block 1216, Lot 43), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: George D. Scott.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Chairman Murdock and Commissioner Blum 2

Negative: Commissioner Savage and Deputy Chief Gunn 2

THE RESOLUTION (510-45-A)

WHEREAS, George D. Scott, for Radio Engineering Laboratories, owner, filed July 27, 1945, an appeal from a decision of the borough superintendent, affecting premises 36-40 37th street, west side, 349.5 ft. north of 37th avenue (Block 1216, Lot 43), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated July 26, 1945, on Misc. Applic. 1534-45, reads:

"1. Sprinkler requirements under Art. 4.2.1 shall consist of a system having two approved automatic sources as required by Art. 15.36.

"2. Sprinkler spacings where indicated do not comply with Art. 15.18."

and

WHEREAS, the applicant states that the building is 3 stories (42 ft. 4 in.) in height, 100 ft. by 100 ft. in area at the 1st floor and 100 ft. by 90 ft. in area at the 2nd and

3rd floors, of class 3 construction, erected in 1924, located in an unrestricted use, B area and Class 1½ height district and used and occupied: cellar—boiler room; 1st, 2nd, 3rd floors—radio manufacturing—100 persons on the 1st floor, 100 persons on the 2nd floor and 50 persons on the 3rd floor; that no change in use or occupancy is proposed; and

WHEREAS, the applicant contends that under Cal. 448-43-A, the Board permitted the extension of the building in height, on condition that the third story would not exceed 5,000 sq. ft. in area; that the owners found it necessary, in order to obtain the required space to perform war contracts, to enlarge the third story beyond the limits granted by the Board; that the third story as enlarged is 95 ft. by 100 ft. in area; it is proposed to install a sprinkler system throughout the building having a 6 in. source of supply connected to a 12 in. city main on 37th street, having a two way feed with approximately 50 lbs. pressure; that the building as erected, could not structurally support a roof tank; that all partitions, walls, floors and roof are of concrete and steel, tile and cement plaster and no combustible material has entered into the construction of the building; it is requested that the Board accept the one source sprinkler system and permit the omission of sprinklers under stairs and soffits on the second floor landing; that the sprinklers will be provided within the stair enclosures, at the roof and at the first floor ceiling; that stair enclosures are of tile, cement plastered; that the stairs are of steel with concrete treads and landings; it is also requested that the sprinkler spacings and distance from ceilings throughout the premises be accepted, as shown on plans filed with this appeal; that each sprinkler is so located that the coverage is approximately 80 sq. ft. per head; that the installation of the sprinkler system as proposed has been approved by the New York Fire Insurance Exchange; and

WHEREAS, under Cal. 448-43-A, the Board permitted the extension in height not to exceed 41 ft. and the area of the third story not to exceed 5000 square feet, without requiring a sprinkler system, which is now being installed inasmuch as the third story exceeds the 5000 square feet area by approxmately 3600 square feet inside exterior walls measured, as permitted in C26.254.0; and

WHEREAS, it appears that the building while classified as Class III, is more fireproof than required Class III construction, as all materials in the building are incombustible; that the building is less in height than the permitted limits and exceeds the permitted area for a Class III building by approximately 20%; and

WHEREAS, the following resolution was offered for adoption by the Board:

"The motion is to grant, modifying the decision of the borough superintendent, acting on Misc. Applic. 1534-45, objection 1, on condition that there shall be installed a street supply line not less than 6 inches in diameter, fed two ways; as to objection 2, that the sprinkler spacing throughout shall be rearranged so as not to exceed 80 sq. ft. per sprinkler head; that the requirements of the Building Code shall be complied with as to the sprinklering on the stairways and stairway soffits; that the building shall not be further increased in height or area; that such additional portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that in all other respects the building and occupancy shall comply with all rules, laws and regulations applicable thereto."

Resolved, that the decision of the borough superintendent, acting on Misc. Applic. 1534-45, objections 1 and 2 be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

566-45-A

APPLICANT—Irving Adelsohn, for Edward and Henry Rosenblum and Lillie Jasper, owners.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—855 Meeker avenue, north side, 120 ft. west of Varick street (Block 2694, Lot 21), Borough of Brooklyn.

APPEARANCES—

For Applicant: Irving Adelsohn.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (566-45-A)

WHEREAS, Irving Adelsohn, for Edward and Henry Rosenblum and Lillie Jasper, owners, filed September 22, 1945, an appeal from a decision of the borough superintendent, affecting premises 855 Meeker avenue, north side, 120 ft. west of Varick street (Block 2694, Lot 21), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated August 23, 1945, on Alt. Applic. 2476-45, reads:

"1. Changing occupancy from residence to business use in a frame building, is contrary to Sections 2.1.3.5 and 4.2.1 of Bldg. Code.

2. Floors to be adequate for 120 lbs. per sq. ft. Liveload.

3. Exits to comply with Labor Law regulations."

and

WHEREAS, the applicant states that the building is 2 stories (25 ft.) in height, 25 ft. by 50 ft. in area on a plot 30 ft. by 140 ft. in area, of Class 4 construction, erected prior to 1914, located in an unrestricted use, C area and Class 1-½ height district and to be used and occupied as a biological research laboratory, five persons on the 1st floor and four persons on the second floor; that the building is equipped with one 2 ft. 11 in. wide wood stairs, enclosed in partitions of wood studs, lath and plaster and leading directly to the street and provided with a ladder and scuttle to the roof; and

WHEREAS, the applicant contends that it is proposed to change the building from an old law tenement occupied by a store and three families, to a biological research laboratory; that there is an exit door in the front wall on the 1st floor to the street and there are two other doors on the first floor, opening to the hallway, which has access to the street and yard; that the easterly wall is adjacent to an unpierced portion of a brick wall and the other walls and the cellar are accessible to Fire Department apparatus; that the front wall is surfaced on the exterior with asphalt shingles; that the proposed occupancy is less hazardous than the prior occupancy as an old law tenement; that adequate fire extinguishers will be installed, as directed by the Board or by the Fire Department; that the proposed use as a biological research laboratory will be used by the Centro Research Laboratory, Inc. (as a project for the U. S. Navy), managed by the Insl-X Co., Inc., with its regular business conducted in the adjacent building at 857 Meeker avenue; it is requested that the existing liveload be accepted as adequate, as the Code does not require 120 lbs. per sq. ft. liveload for laboratory occupancy; that this occupancy corresponds closely to that of offices, for which the liveload of 50 lbs. is prescribed; that the floors were designed for a liveload of 40 lbs. per sq. ft. and have been adequate for more than 30 years; that the laboratory does not use any heavy equipment; that the proposed occupancy will not bring the building under the Labor Law, as there will be no manufacturing done; it is requested that the existing means of exit and layout of doors, windows and partitions be accepted, as shown on plans filed with this appeal; that premises have been leased to August 1, 1946 and it is requested that this appeal be granted for a period of one year.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 2476-45, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that the building shall not be increased in height or area and *granted* only so long as it is occupied as a

biological research laboratory, as proposed, for not more than the number of occupants stated; as to Objection 2, that the floor loads shall be maintained as proposed and shall be so posted and that no loading beyond such liveloads shall be permitted in any portion of the floors; and *granted* as to Objection 3, provided no factory work shall be done within the building, and provided the exits as indicated on plans filed with this appeal marked "Received September 22, 1945" shall be maintained; that the stair to the cellar, toward the center of the building, shall remain open; with a one hour fireproof, self-closing closure door at the street floor; that a ladder to grade shall be installed in the side court, approximately 25 ft. back from the building and accessible from an existing window at the second story.

567-45-A

APPLICANT—New York City Housing Authority, owner.
SUBJECT—Appeal from decision of the borough superintendent.
PREMISES AFFECTED—2595 3rd avenue, blocks East 139th to East 145th streets, between Morris and 3rd avenues (Morrisania Houses); (Blocks 2321, Lots 1-4, incl., 2322, Lots 1 and 2, 2323, Lots 1 and 2 and 2324, Lots 1-7 incl.) Borough of The Bronx.
APPEARANCES—
For Applicant: Matthew W. Del Gaudio.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (567-45-A)

WHEREAS, the New York City Housing Authority, owner, filed September 21, 1945, an appeal from a decision of the borough superintendent, affecting premises: 2595 3rd avenue, blocks East 139th to East 145th streets, between Morris and 3rd avenues (Morrisania Houses); (Block 2321, Lots 1, 2, 3 and 4; Block 2322, Lots 1 and 2; Block 2323, Lots 1 and 2 and Block 2324, Lots 1, 2, 3, 4, 5, 6 and 7), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated August 1, 1945, on N.B. Applications 103 to 117-44, reads:

"7. The minimum size of column acceptable is 12" x 12". Reinforcement area for columns should be between ½ and 4% of column area (See 264B SS 357)."

and

WHEREAS, reconsideration of such decision was denied September 14, 1945; and

WHEREAS, the applicant states that the proposed buildings will be 6 and 13 stories in height and occupied as class A multiple dwellings, located in an unrestricted use, B area and Class 1½ height district; and

WHEREAS, the applicant contends that Section 8.5.26.1 provides that "principal reinforced concrete columns in buildings shall have a minimum total thickness of 12 inches"; that the ACI Building Regulations for Reinforced Concrete (ACI 318.41), adopted February 20, 1941, ratified July 21, 1941, reflects later thinking in the field of concrete and reinforced concrete than the Building Code; that Section 1101 of the ACI standards reads in part "principal columns in buildings shall have a minimum diameter of 12 inches, or in the case of rectangular columns, a minimum thickness of 10 inches, and a minimum gross area of 120 square inches"; and

WHEREAS, the applicant states that it is proposed to use principal columns having a minimum dimension of 11½ inches, square columns having therefore a gross area of 132 sq. in.; that the minimum dimension and minimum area proposed are above the minimum adopted by the American Concrete Institute; that the reinforcing of the columns is based on the actual cross-sectional area, thus providing adequate safety; that the use of 11½-inch columns will prove more economical and practicable, because of the elimination of waste in the construction of the forms and by providing more available space; and

WHEREAS, the applicant contends that in view of the fact that recommended practices for concrete and reinforced concrete as adopted by the ACI in 1941 are generally accepted in structural design, it is requested that the Board grant this appeal.

Resolved, that the decision of the borough superintendent, acting on N.B. Applications 103 to 117-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to the 1st sentence of Objection 7, *on condition* that the construction shall be substantially as proposed and shall be designed in accordance with the foregoing statement; and *withdrawn* as to the second sentence in Objection 7, to comply.

577-45-A

APPLICANT—George Keister, for Domenica Mauceri, owner (Standard Switchboard Co., lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—134-142 Noll street, south side, 250 ft. west of Central avenue (4th floor); Block 3154, Lots 18-22), Borough of Brooklyn.
APPEARANCES—
For Applicant: George Keister and Milton Schwartz.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (577-45-A)

WHEREAS, George Keister, for Domenica Mauceri, owner (Standard Switchboard Company, lessee), filed October 1, 1945, an appeal from a decision of the borough superintendent, affecting premises: 134-142 Noll street, south side, 250 ft. west of Central avenue (4th floor); (Block 3154, Lots 18-22), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on B.N. App. 825-45, dated October 5, 1945, reads:

"2. Proposed reduction of liveload capacity to 75 lbs. per square foot, is contrary to Sec. C26-345.0 Admin. Code."

and

WHEREAS, the applicant states the building is 4 stories and cellar (57 ft. 6 in.) in height, 125 ft. by 90 ft. in area on a lot 125 ft. by 100 ft. in area, of Class 3 construction; erected in 1927; located in an unrestricted use, B area and Class 1½ height district; used and occupied: Cellar, heating plant; 1st floor, manufacture of switchboards, 50 persons; 2nd floor, manufacture of men's trousers, 75 persons; 3rd floor, manufacture of trousers, 60 persons; 4th floor, manufacture of women's apparel, 15 persons; that no change in use or occupancy is proposed; that the building is equipped with a two-source sprinkler system and a standpipe system, two 4 ft. wide iron and cement stairs, enclosed in brick, equipped with fireproof, self-closing doors and extending from the roof bulkhead, to the street and one fire-escape, leading to the roof by stairs and to the yard by stair, windows and doors on the course thereof are fireproof, self-closing; and

WHEREAS, the applicant contends that the paint spraying installation was approved by the Fire Department, with the requirement that the applicant file plans with the Borough Superintendent for construction of the paint spray room; that the lessee of the 4th floor has no control over the 3d story and cannot obtain consent to reinforce the floor under the new spray room; that the floor construction has been approved for a liveload of 120 lbs. per square foot and the dead load added by the new construction of the spray room,

is not more than 25 lbs. per square foot; that the occupancy of this spray room is never more than two persons and the weight of the materials treated not more than 200 lbs., so that a liveload of 75 lbs. per square foot would be adequate; it is therefore requested that the Board grant a variation for this room only, while used for its present purpose, and permit the liveload of 75 lbs. per square foot to be posted in the spray room.

Resolved, that the decision of the borough superintendent acting on B.N. App. 825-45, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall be maintained as proposed; that all floor loads shall be posted throughout, including the 75 lb. liveload, where the spray room is proposed to be located on the 4th floor; that within such spray room, the 75 lb. floor load shall be posted; that this variance is granted only so long as the premises are occupied as proposed and upon **vacating the 4th floor,** the spray booth shall be removed; that all spray booths and paint storage shall comply with the rules of the Board therefor; that such portable fire-fighting appliances shall be maintained as the fire commissioners shall direct.

620-45-A

APPLICANT—Harry M. Prince, for Ruby Schinasi and Bankers Trust Co., trustees u/w Leon Schinasi (Heckscher Foundation for Children, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—346 West 89th street and 170 Riverside drive, northeast corner (Block 1250, Lot 61), Borough of Manhattan.

APPEARANCES—

For Applicant: Harry M. Prince and Mrs. Arthur Smadeck.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (620-45-A)

WHEREAS, Harry M. Prince, for Ruby Schinasi and Bankers Trust Company, as trustees, owners, (Heckscher Foundation for Children, lessee), filed October 18, 1945, an appeal from a decision of the borough superintendent, affecting premises 346 West 89th street and 170 Riverside drive, northeast corner (Block 1250, Lot 61), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated October 18, 1945, on Alt. Applic. 1743-45, reads:

"1. Change of use from a residence building to a public building (4 stories and basement in height) require building to be fireproof throughout, 4.2.1 Code. Records show roof to be of non-fireproof construction.

"2. Correct Item 9 Specification Sheet to non-fireproof structure.

"3. Exits inadequate under Section 6.1.7 and involve the following:

"a. Provide two means of egress 3 ft. 8 in. in width, remote from each other, to lead directly to street. 6.1.2.2.3, 6.1.2.4, 6.4.1.1 and 6.4.1.11 Code.

"b. Doors to stair halls to be ¾ hr. F.P.S.C. 6.4.1.8.1 Code.

"c. Doors to swing in direction of egress and not obstruct passage. 6.2.2 Code.

"d. Winders are contrary to 6.4.1.4 Code.

"e. Provide handrails both sides of stair 6.4.1.12 Code."

and

WHEREAS, the applicant states that the building is 5 stories and cellar (58 ft.) in height, 65 ft. by 65 ft. in area at 1st floor, 40 ft. by 65 ft. in area at typical floor, of fireproof construction, except for roof, erected in 1916, located on a lot 145 ft. 5¾ in. by 100 ft. 8½ in. in area in a residence use, B area and Class 1½ height district and used and occupied as a one-family dwelling, proposed to be used and occupied as follows: cellar—boiler room and storage; basement—office and classroom—26 persons; 1st floor—dance and art studios—34 persons; 2nd floor—dance and art studios—19 persons; 3rd floor—studios and custodian—35 persons; 4th floor—staff and utility—7 persons; that the building is equipped with two interior fireproof stairs, leading to the street and a ladder and scuttle to the roof is provided; and

WHEREAS, the applicant contends that the building in question is the only structure that could be found to afford a temporary haven for the Foundation to carry on its philanthropic and eleemosynary work and it is therefore requested that the Board modify the decision of the borough superintendent, to permit for a temporary period of two years, the occupancy as proposed in this structure, which is fireproof, except for the roof, with the present stairs, stair enclosures, doors and exits; and

WHEREAS, the applicant specifically contends as to objection 1, that the building is fireproof, with the exception of the roof, which is surfaced with incombustible tile on the exterior and protected on the under side with metal lath and plaster on steel furring; that the records of the Department classify the building as fireproof and Certificate of Occupancy 12666-27, classifies the building as a fireproof residence; and

WHEREAS, the applicant contends as to objection 3, that the main stairway is 6 ft. 6 in. wide, with marble treads and risers and the service stairway is 2 ft. 8 in. wide, of steel construction; that these two stairways provide ample egress within the spirit and intent of the law; as to 3 (a), that the stairs are sufficiently remote from each other and are so located as to carry out the spirit and intent of the law, for the small proposed occupancy; that the combined widths of the two stairs are more than the regular 3 ft. 8 in. required for each stairs; that due to the pitch of the roof, it is impracticable to continue the stairs to the roof through either a bulkhead or a scuttle; that both stairs lead continuously to street levels; as to objection 3b, that the existing doors are generally 1¾ in. and 2¼ in. thick, of well seasoned hardwood; as to objection 3c, that it would be an extreme hardship in any case to be required to swing the doors in the direction of egress, as some of the doors are sliding doors and to open others into the stair enclosure, would create a greater hazard than the existing arrangement; as to objection 3d, that it would be an undue hardship to have to change the existing stairs and eliminate the winders; as to objection 3e, that hand rails on the secondary stair would further reduce its width; that the existing stairs provide adequate means of egress for the number of occupants; that from the Riverside drive terrace, to the finished third floor where any children will be taught, is 34 ft. 6 in. and to the center of the roof slope, 54 ft. 8 in. from the terrace; that there will be no children or others in the school at night, except the custodian; that the building at all times during occupancy will be under the supervision of competent personnel, thoroughly familiar with the means of egress and trained in the orderly evacuation of the building in the event of emergency.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1743-45, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that the building shall not be increased in height or area and shall be used as proposed and as herein required; as to Objection 2, that the fireproof construction of the building, except for the roof, shall be continued; as to Objection 3, a, b, c, d and e, that the existing means of exit shall be maintained, and in addition, the doors shall be maintained at all openings other than shown as sliding doors, and such doors may be of the existing heavy wood construction and shall be made self-closing; that additional hand rails shall be installed on the primary means of exit; that a secondary means of exit from the 4th floor shall be provided, in the form of ladders

leading from the roof, which is accessible through the rear windows to lower roof and thence to grade; that a sign at the front of the building on 89th street, adjacent to the front entrance may be installed reading "Heckscher Foundation for Children," or similar wording, provided such sign does not exceed an area of 1 sq. ft.; that such portable fire extinguishers shall be maintained throughout the building as the fire commissioner shall direct; that the door leading to the cellar shall be made self-closing; that a non-coin telephone shall be installed on the premises, centrally available at all times while the building is being occupied; that the telephone number of fire headquarters shall be posted immediately above same; that this variance shall continue only so long as the premises are occupied as proposed and to the satisfaction of the borough superintendent and for a term of two (2) years from the date of this resolution.

629-45-A

APPLICANT—Louis A. Brown, for Certified Queens Homes, Inc., owner.
SUBJECT—Appeal from decisions of the borough superintendent.
PREMISES AFFECTED—219-17 to 221-19 and 219-20 to 221-16 130th avenue, north side, 1087 ft. west of 226th street, south side, 170 ft. west of 220th street and 40 ft. west of 222nd street (Block 12825, part of Lot 480, Block 12899, part of Lot 250, Block 12898, part of Lot 196 and Block 12897, part of Lot 20), Springfield, Borough of Queens.
APPEARANCES—
For Applicant: Louis A. Brown
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (629-45-A)

WHEREAS, Louis A. Brown, for Certified Queens Homes, Inc., owner, filed October 19, 1945 an appeal from decisions of the borough superintendent, affecting premises 219-17 to 221-19 130th avenue, north side, 1087 ft. west of 226th street, and 219-20 to 221-16 130th avenue, south side, between a point 170 ft. west of 220th street and a point 40 ft. west of 222nd street (Block 12825, part of Lot 480; Block 12899, part of Lot 250; Block 12898, part of Lot 196; Block 12897, part of Lot 20), Springfield, Borough of Queens; and

WHEREAS, the decisions of the borough superintendent, dated October 18, 1945, on N.B. Applications 1430 to 1458-45, inclusive, reads:

"1. The erection of a frame building within the fire limits is contrary to section 4.1.2.—Building Code."

and

WHEREAS, the applicant states that the premises are proposed to be divided into lots 40 ft. and 50 ft. in width by 100 ft. in depth, located in a business use, D area and Class 1 height district and that it is proposed to erect on each lot, a one story frame one family dwelling, surfaced on the exterior to the plate line with masonry veneer and above with asbestos shingles and roofs to be surfaced with asphalt shingles; that the dwellings will be set back from 130th avenue not less than 21 ft., into which set back, front entrances and steps may project; that side yards will be provided, so that dwelling will be not less than 10 ft. apart as indicated on plot plan filed with this appeal marked "Received October 19, 1945"; that corner dwellings will be set back from the side streets not less than 10 ft., as indicated on such plot plan; and

WHEREAS, the applicant contends that it is proposed to erect one family dwellings in question in addition to the dwellings previously permitted by the Board on the premises adjoining to the east, under Cal. No. 356-45-A; that these are low cost homes and it will be impossible to comply with the requirements of the Code for construction within the fire limits; that the dwellings are being built to alleviate the housing shortage for veterans and other hardship cases.

Resolved, that the decisions of the borough superintendent, acting on N.B. Applications 1430 to 1458-45, objection 1, be and they hereby are *modified* and that the appeal be and it hereby is *granted on condition* that the buildings shall be erected and maintained substantially as proposed, restricted at all times to a one-family residence in each building; that any garages erected shall comply with the requirements of the Zoning Resolution as to location and may be constructed similar to construction herein permitted for the dwellings; that such garages shall be only for accessory use to each dwelling.

ZONING APPLICATIONS

1004-25-BZ

APPLICANT—Arthur Jovis, for 2929-2933 Third Avenue Company, Inc., owner.

SUBJECT—Application reopened October 16, 1945—re Application (decision of the borough superintendent) previously granted on condition, under section 21 of the zoning resolution, permitting in a residence use district, the change of occupancy of the 1st story of an existing apartment building, from dwelling use to stores.

PREMISES AFFECTED—2399 Grand Concourse, west side, 232 ft. 3 in. north of East 184th street (Block 3165, Lot 53), Borough of The Bronx.

APPEARANCES—

For Applicant: Arthur Jovis.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (1004-25-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a residence use district, the change of occupancy of the 1st story of an existing apartment building, from dwelling use to stores, affecting premises 2399 Grand Concourse, west side, 232 ft. 3 in. north of East 184th street (Block 3165, Lot 53), Borough of The Bronx, was granted by the Board on January 26, 1926, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this case was reopened by vote of the Board on October 16, 1945, restored to the calendar and set for hearing on October 23, 1945 at 2 P. M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting October 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the decision of the borough superintendent, acting on E. S. Applic. 31-45, dated September 20, 1945, reads:

"1. The erection of the proposed sign located in a residence use district is contrary to Sec. 3 of the zoning resolution."

and

WHEREAS, the applicant states that this is an application to permit continuance of an existing 3 ft. 6 in. high by 15 ft. 6 in. long parallel non-flashing illuminated business sign, advertising the business conducted on the premises; and

WHEREAS, the applicant contends that the sign has been in existence over five years and was illegally erected; that at the time of its erection, the lessee retained a sign contractor with instruction to obtain all necessary permits, the sign was erected and it was not until a violation was served that the lessee knew that a permit had not been obtained; that the sign is necessary to the conduct of the business; that there is no prohibition in the resolution of the Board against erection of a sign; that similar signs exist on practically all of the buildings in the block; and

WHEREAS, the applicant has filed plans marked "Received October 2, 1945," indicating that the proposed sign will be recessed behind the building line.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 26, 1926, by adding thereto:

"*Resolved,* further that a permanent sign may be erected over each store directly above each show window and under the belt course at the second story floor level, *on condition* that such sign shall be only an identification sign above such store, giving the name of the occupant of the store and merchandise sold, providing such sign complies with the requirements of the zoning resolution in all other respects, and also with the requirements of the Administrative Code; that no additional sign shall be erected on the premises other than the signs painted on the door or windows and on the drop portion of the temporary awning; that this addition to the resolution adopted January 26, 1926, is in modification of the borough superintendent's decision as to E. S. Applic. 31-45, Objection No. 1."

(Remaining minutes of the meeting of October 23, 1945 will be printed in the Bulletin of November 6, 1945.)

RULES

OIL BURNER RULES

(217-21-SR)

RULES COVERING THE INSTALLATION AND USE OF OIL BURNING EQUIPMENT AND THE STORAGE OF OILS USED IN CONNECTION THEREWITH

Adopted by the Board of Standards and Appeals June 15, 1934, Amended July 12, 1935, January 28, 1936, December 4, 1936, and July 1, 1941.

(Superseding Fuel Oil Rules adopted by the Board of Standards and Appeals, November 6, 1919; amended January 6, 1922; January 18, 1924; November 3, 1926; September 11, 1928; January 11, 1929; March 20, 1931; May 12, 1931; November 24, 1931; May 10, 1932; June 24, 1932 and November 4, 1932.

Authority: Section 666, paragraph 2 of the New York City Charter.

Rule 1. Scope.

1.1 No person shall install oil-burning, or oil-storage equipment for use within the City of New York except as provided in these rules.

1.2 These rules shall not apply to gas companies storing or using oil in the manufacture of illuminating gas for public use.

Rule 2. Definitions.

2.1 For the purpose of these rules the following terms shall be interpreted in accordance with these definitions:

2.2 APPROVED: Shall mean devices hereafter approved by the Board of Standards and Appeals and also, when required by the Board of Standards and Appeals, approved, listed as standard, and/or labeled by any nationally recognized standard testing laboratory not operated for commercial profit, provided all such devices are installed in accordance with these rules. Such approval is subject to suspension or revocation for non-compliance with these rules. All devices approved by the Board of Standards and Appeals prior to the adoption of these rules shall be accepted.

2.3 AUTOMATIC PUMP: Shall mean an automatic transfer pump operating independent of the burner to provide a continuous supply of oil.

2.4 BURNER: A device designed for the purpose of burning oil.

2.5 COMMERCIAL INSTALLATIONS: Oil burner installations in buildings, other than dwellings when used for heating and generation of power for use on premises.

2.6 CONTROLS: Such electrical or mechanical devices as are installed for the purpose of providing safe and continuous operation.

2.7 DISCHARGE LINE: That portion of the line between the discharge outlet of the pump and the burner oil inlet connection.

2.8 DOMESTIC INSTALLATIONS: Oil burner installations installed in dwellings as defined in these rules.

2.9 DWELLINGS: Buildings used exclusively for dwelling purposes and occupied by one or two families, including convents, rectories and monasteries.

2.10 ELECTRICALLY GROUNDED: For protection against lightning shall mean storage tanks set directly in or on the ground and/or with underground piping connections. Where storage tanks without underground piping connections are built on bases above the surface of the earth, such storage tanks shall be grounded at two (2) points 180° (degrees) apart as follows:

2.10.1 The conductor from tank to ground connection shall be of copper not smaller than No. 6 (.162″) A.W.G. wire, or pipe not less than one-half inch (½″) in diameter.

2.10.2 One end of conductor shall be permanently and electrically bonded to tank. The other end shall be bonded to a ground connection consisting of a water pipe or a rod, pipe or plate having a surface area of not less than one hundred and ninety (190) square inches, buried in moist earth not less than two feet (2′) below the surface of the earth.

2.11 FILL PIPE: That portion of the line between the fill pipe terminal and the fill pipe connection in the storage tank.

2.12 FIRE RETARDING MATERIALS:

2.12.1 One-half (½) inch plaster boards, or asbestos boards, or three-eights (⅜) inch gypsum wall boards weighing not less than 16 pounds per square yard with pointed joints covered with No. 26 U. S. gauge sheet metal with one (1) inch lapped seams nailed to the wood beams when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are spaced more than sixteen (16) inches on centers, or

2.12.2 Two thicknesses of one-quarter (¼) inch asbestos boards laid with tight staggered joints and nailed to the beams, when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are more than sixteen (16) inches on centers, or

2.12.3 Metal lath weighing not less than three pounds per square yard, attached to furring strips and plastered with Portland cement mortar at least three-quarters (¾) inch thick.

2.12.4 Note—All fire retarding material to be applied as required in rules for fire retarding material of the Board of Standards and Appeals.

2.13 GROUND: An electrical conductor having capacity to absorb current.

2.14 INDUSTRIAL INSTALLATIONS: Oil burner installations for industrial purposes.

2.15 OIL: Any liquid mixture, substance or compound derived from petroleum, including kerosene and fuel oil as defined in C19-2.0 of the Administrative Code and Rule 3.

2.16 OIL BURNING EQUIPMENT: Any device including burners, oil burning heaters, internal combustion engines used for heating, power or other purposes designed for and/or using oil as defined in these rules.

2.17 OIL LEVEL INDICATING DEVICE: A means by which the level of the oil in a storage tank may be indicated.

2.18 OVERFLOW PIPE: A pipe which conveys, by gravity, the oil from the maximum level of an auxiliary tank to the storage tank or from the pump to the storage tank.

2.19 PERMANENT DEFORMATION: Wherever phrase, "without permanent deformation," is used in these rules it shall mean that the tanks or containers shall, after release of test pressure, resume their original size and shape.

2.20 PERMIT: Shall mean permit for storage of oil.

2.21 PORTLAND CEMENT CONCRETE: Shall mean a mixture of one (1) part cement and not more than two and one-half (2½) parts sand and five (5) parts of coarse aggregate and complying in all other respects with the requirements of C26-311.0 of the Administrative Building Code.

2.22 PREHEATER: A device designed for heating oil for the purpose of decreasing the viscosity.

2.23 RELIEF VALVE: A valve held shut by a spring or other means of automatically relieving pressure in excess of its setting.

2.24 RELIEF LINE: That portion of the line between the bypass connection of the relief valve and the supply line or storage tank.

2.25 REMOTE CONTROL: A hand, electric, or mechanically-operated device to shut off the oil supply. A thermostat is not acceptable as a remote control.

2.26 SCAVENGING LINE: A line installed to permit the removal of water or foreign matter from a storage tank.

2.27 SHOP FABRICATED: Shall mean completely built in the shop of the tank manufacturer.

2.28 SHUT-OFF VALVE: A device that can be actuated to prevent the flow of liquid in a line of pipe.

2.29 STORAGE CONTAINER: Any container for oil connected to a burner or oil-burning heater and having a capacity of six (6) gallons or less.

2.30 STORAGE TANK: Any tank for oil having a capacity of two hundred and seventy-five (275) gallons or more, having a fill line and vent line connected thereto.

2.31 STORAGE TANK, AUXILIARY: Any container for oil having a capacity of not over 60 gallons and used as an intermediary tank for gravity feed and equipped with an automatic or manually operated pump.

2.32 SUPPLY LINE: That portion of the line between the storage tank and the pump oil inlet connection or hand valve. Where a pump is not used, it shall be that portion of the line between storage tank and burner and burner oil inlet connection or hand valve.

2.33 TEST WELL: An opening in the top of the storage tank or a straight pipe connected to such opening through which a gauge stick may be inserted into the storage tank.

2.34 TRANSFER PUMP: An oil pump that is not an integral part of the burner and which is installed between storage tank and burner.

2.35 VENT PIPE: That portion of the line between vent pipe terminal and vent pipe connection in the storage tank.

Rule 3. Oil Permitted.

3.1 Oil permitted under these rules shall be any hydrocarbon oils free from acid, grit and fibrous or other foreign matter. The fuel oils shall be classified as provided in Commercial Standard CS12-38 U. S. Department of Commerce, and shall have a flash-point not lower than 100 degrees Fahrenheit when tested in a Pensky-Martens closed cup tester (American Society for Testing Materials Method D-93-36) and marketed under the following commercial grades:

Range Oil
No. 1 Fuel Oil
No. 2 " "
No. 3 " "
No. 4 " "
No. 5 " "
No. 6 " "

3.2 The use of crankcase refuse oil as fuel oil is strictly prohibited.

Rule 4. Standards For Approval of Oil Burners by the Board.

4.1 Approved burners, including oil-burning heaters, shall be an assembly of approved parts suitable for use with each other for the service intended, as approved, such burners shall be provided with suitable safeguards to prevent abnormal discharge of oil.

4.1.1 When assembled each burner shall be tested for defects and proper functioning throughout its operating range. Parts shall be so designed as to maintain alignments and to permit interchangeability.

4.1.2 The CO^2 in the flue gas shall be maintained at not less than 8% without smoking and throughout the operating range of the capacity of the burner when tested.

4.1.3 Flexible tubing used as an integral part of burner shall be not longer than 72 inches and of an approved type.

4.2 Approval of burners or oil-burning heaters designed for installation with storage of not more than six (6) gallons shall include approval of storage containers and limitations of installation. If more than six (6) gallons' storage is desired for such burners or oil-burning heaters, a storage tank shall be installed as provided for in these rules. Portable containers of not more than six (6) gallons' capacity may be filled from such storage tanks by means of an approved hand pump located above the top of the tank.

4.3 The requirements of these rules shall not apply to the use and installation of portable burners not requiring a connection to a flue where such burners are of the type commonly used for household purposes including oil stoves, oil heaters and oil lamps equipped with a woven wick, nor do the requirements of these rules apply to such portable apparatus such as blow torches, soldering pots, tar heaters, snow melters, etc.

Rule 5. Material and Construction of Tanks.

5.1 Cylindrical Tanks (except vertical tanks located outside of buildings above ground).

5.1.1 All tanks for the storage of fuel oil shall be built of steel plates made by the open hearth process and known to the trade as "tank steel." Such plate shall be free from physical imperfections, such as laminations, cracks, mill scale, etc. All steel must be new in good condition and free from rust. the thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

5.1.2 All tanks shall be welded or riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates. Filler of any kind between plates is prohibited.

5.1.3 Thickness of cylindrical tanks, except tanks of 275 gallons capacity or less·

Tanks 36 in. in diameter and less—¼ in. shell, ¼ in. heads.

Tanks 37 to 72 in. in diameter—¼ in. shell, 5/16 in. heads.

Tanks 73 to 120 in. in diameter—5/16 in. shell, ⅜ in. heads.

Tanks over 120 in in. diameter to be of ⅜ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

5.1.4 All cylindrical, oval or obround storage tanks shall have dished heads with a curvature the radius of which is not greater than the diameter of the tank. Dished heads shall be formed with an adequate cylindrical extension rim to provide welding or riveting surface. Should flat heads be used they shall be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

5.1.5 Diameter and spacing of rivets:

Riveting in single lap seams shall not exceed a pitch as follows:

In shell ¼ in. thick, ⅝ in. in diameter rivets 2¼ in. pitch.

In shell 5/16 in. thick, ⅝ in. in diameter rivets 2⅜ in. pitch.

In shell ⅜ in. thick, ¾ in. in diameter rivets 2½ in. pitch.

5.2 Rectangular Tanks.

5.2.1 All rectangular tanks shall be built of steel plates of the quality required for cylindrical tanks, and of a thickness of not less than 5/16 of an inch.

5.2.2 Corners may be made up by bending the plates or by use of angles.

5.2.3 Rivets in seams shall be ⅝ of an inch in diameter and spaced not more than 2¼ inches center to center.

5.2.4 All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural steel members which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tanks as the case may be.

5.2.5 When structural steel members are used such as angle, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the members. In no case shall the rivets be in excess of six (6) inches center to center on these members.

5.2.6 When structural steel reinforcing members are tied together with braces in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken in the minimum net section.

5.2.7 If structural steel members are omitted and the sides of the tank are braced by means of rods or bars, these members should not be spaced farther apart than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch on the minimum net section.

5.2.8 The connection between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars so that the bar will break before the connection will let go.

5.3 All Tanks Except Vertical Above-Ground Storage Tanks.

5.3.1 All storage tanks for oil of two hundred and seventy-five (275) gallons' capacity or less, except buried tanks, shall have a minimum thickness of shell and head plates of manufacturers Standard 10 gauge (.134″). Auxiliary storage tanks of 60 gallons or less shall be similarly constructed but need not be of a gauge thicker than U. S. Standard No. 14.

5.3.2 At time of installation all storage tanks shall bear a permanently fixed plate, spot-welded or equivalent, bearing the name of tank manufacture, the gauge of material and capacity of tank. All shop fabricated storage tanks shall be installed without structural alteration.

5.3.3 All openings shall be through the top of the storage tank except that storage tanks of 275-gallons may be provided with a three-quarter inch (¾″) opening for gravity discharge and a one-inch (1″) opening in the bottom for cleaning and protection against corrosion.

5.3.4 All buried storage tanks shall have a thorough coating on the outside of two coats of red lead protected by hot tar, asphaltum, or other equivalent rust-resisting material. All such tanks shall be electrically grounded.

5.3.5 Manholes; Tanks for oils having a viscosity less than 500 sec. Saybolt Universal at 100° F. need not have manholes; where used for such oils the manhole covers shall be bolted and made gastight; where used for oils having a viscosity greater than 500 sec. Saybolt Universal at 100° F. (No. 5 or No. 6 Commercial Standard grades) shall have manhole covers bolted or otherwise secured to the tanks and kept hydrostatically tight at all times.

5.4 Vertical Storage Tanks Over 1,000 Gallons Capacity Located Outside of Building Above Ground.

5.4.1 Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality required for cylindrical tanks.

5.4.2 The minimum thickness of shell or bottom plates shall be ¼ inch and the minimum thickness of roof plates ⅛ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals} \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

R equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No.

14 of the New York State Industrial Commission).

5.4.3 Roof plates shall have single riveted watertight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed with proper efficiency to meet requirements of above formulas for shell plates.

5.4.4 In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

5.5 Storage Containers.

5.5.1 Storage containers for oil of six (6) gallons capacity or less used in connection with burners or oil-burning heaters shall be designed to withstand a hydrostatic pressure test of five (5) pounds per square inch without permanent deformation, rupture or leakage and shall be approved as provided in Rule 4.2. Glass storage containers shall not exceed three gallons capacity, protected with a metal jacket provided with hand grips and designed to be rigidly fastened to stand or wall and shall be approved as provided in Rule 4.2.

Rule 6. Location of Tanks.

6.1 Inside of Buildings, Above Ground.

6.1.1 Storage tanks having a capacity of two hundred and seventy-five (275) gallons and auxiliary tanks may be installed above ground in or on the lowest story of a building, provided such tanks shall be mounted on substantial incombustible supports, with tank permanently attached thereto, and located not less than seven feet (7′) of clear unobstructed space measured horizontally from any furnace or source of exposed flame unless tank is protected as provided for in Rule 6.1.2. Such storage tanks inside buildings shall have an individual capacity of not more than two hundred and seventy-five (275) gallons capacity and not more than one such tank shall be connected to one burner. Not more than two (2) two-hundred-and-seventy-five (275) gallons storage tanks shall be installed in a building above ground without protection as provided for in Rule 6.1.2.

6.1.2 Storage tanks having a capacity of more than two hundred and seventy-five (275) gallons, when installed inside of buildings, shall be located on the lowest floor level and all portions of such tanks above the floor shall be protected by a continuous jacket of not less than four inches (4″) of Portland cement concrete reinforced with not less than No. 20 gauge steel wire cloth 2″ x 2″ mesh, and extending at least four inches (4″) beyond the horizontal outline of tank in all directions, with weep holes along the bottom one inch in diameter not more than 3 ft. apart.

Each storage tank may be placed in a protective enclosure having solid masonry walls not less than eight inches (8″) in thickness and of dimension not less than fifteen inches (15″) greater on all sides than the outside dimensions of the storage tank. The walls of the enclosure shall be carried up to a height not less than two feet (2′) above the top of the tank. A fireproof access door shall be installed in the enclosure above the point where the enclosure has a capacity equal to the tank; and for each additional 10 feet or fraction thereof by which the longest inside dimension of the enclosure exceeds 35 feet an additional fireproof access door shall be similarly installed at one or more intervals of not less than 10 feet. The ceiling above the tank enclosure shall be either fireproof or fire-retarded.

6.1.3 The capacity of individual storage tanks located inside of buildings shall not exceed twenty thousand (20,000) gallons.

6.1.3.1 All buried storage tanks shall be constructed of metal not less than ¼″ in thickness.

6.1.4 All storage containers used in connection with burners or oil-burning heaters shall be installed in a substantial and workmanlike manner with rigid metal fasteners to wall or floor and protected against mechanical injury.

6.2 Inside of Buildings, Below Ground.

6.2.1 Storage tanks having a capacity of 275 gallons or more may be buried inside a building with the top of the tank not less than two feet below floor level. In lieu of two feet of earth over the tank, the tank may be covered by concrete flooring equivalent to the basement floor but not less than the equivalent of 4 inches of reinforced Portland cement concrete with not less than No. 20 gauge steel wire cloth 2″ x 2″ mesh. Tanks shall be placed in firm soil and shall be surrounded by clean sand or well tamped earth, free from ashes or other corrosive substance, and free from stones larger than will pass through a one-inch mesh. When necessary to prevent floating, tanks shall be securely anchored. Storage tanks buried below the floor, prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material.

6.2.2 Storage tanks buried below the floor shall not be less than ¼″ in thickness.

6.2.3 No tank shall be buried so as to be nearer than three feet to any foundation wall or foundation footing.

6.3 Outside of Buildings, Below Ground.

6.3.1 Storage tanks located outside of buildings, below ground, shall be buried with the top of the tank not less than two feet (2′) below the natural grade of the surface of the ground. Tanks shall be placed on firm soil and shall be surrounded by clean sand or well tamped earth, free from ashes or other corrosive substance, and free from stones larger than will pass through a one-inch (1″) mesh. When necessary to prevent floating, tanks shall be securely anchored.

6.3.2 No tank shall be buried so as to be nearer than 3 feet to any foundation wall.

6.3.3 All buried storage tanks larger than two hundred and seventy-five (275) gallons, prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material. All tanks shall be electrically grounded.

6.3.4 All buried storage tanks shall be constructed of metal not less than ¼″ in thickness.

6.4 Outside of Buildings, Above Ground.

6.4.1 Storage tanks located outside of buildings above ground shall be not less than one and one-quarter (1¼) tank diameters and in no case less than ten feet (10′) from the line of adjoining property, the nearest building or adjacent tank. Such tanks shall be electrically grounded. The maximum capacity of individual tanks located outside of buildings above ground shall be fixed by the following schedule:

If distant 25 feet from line of adjoining property which may be built upon	16,000	gallons
If distant 30 feet.....	24,000	"
If distant 40 feet.....	36,000	"
If distant 50 feet.....	48,000	"
If distant 60 feet.....	60,000	"
If distant 75 feet.....	96,000	"
If distant 85 feet, or more	100,000	"

6.4.2 Each such storage tank shall be protected by an embankment or a dyke. Such protection shall have a capacity of not less than one and one-half (1½) times the capacity of the tank so surrounded and shall be at least four feet (4′) high but in no case higher than one-fourth (¼) the height of the tank when the height of the tank exceeds sixteen feet (16′). Embankments or dykes shall be made of earthwork with clay core; or of masonry, or of impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth; free from stones, vegetable matter, etc., and shall have a flat section at the top of not less than three feet (3′) and a slope of at least one and one-half (1½) to two (2) on all sides. Concrete or masonry dykes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded. Embankments or dykes shall be continuous and unpierced. C-19-50.0 of the Administrative Code.

6.4.3 All above ground storage tanks larger than two hundred and seventy-five (275) gallons, prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material. All tanks shall be electrically grounded.

6.5 Tanks Located Along Line of Subways.

6.5.1 Along the line of subways no tank shall be placed within twenty feet (20′) of any wall, separating a building from the subway, and, where practicable, tanks shall be placed in a lower position than the roadbed of the subway, except as may be modified in specific instances by the Board of Standards and Appeals.

Rule 7. Piping.

7.1 Installation of Piping and Tubing.

7.1.1 Piping and tubing shall be run in a substantial and workmanlike manner. Exposed piping shall be protected against mechanical injury and shall be securely supported with rigid metal fasteners or hangers. All pipes connected to buried tanks except test well piping shall be provided with double swing joints at tank.

7.1.2 Only new standard full-weight iron, steel or brass pipe, or new extra-heavy copper brass or aluminium alloy tubing, properly marked and duly approved, may be used. Drawn metal tubing when used for conveying oil, shall be adequately protected. Such tubing unless protected against mechanical injury shall be used only in the same room in which the burner is installed. Drawn tubing when used in domestic installations shall be not less than three-eighths inch (⅜") inside diameter up to shut-off valve at burner. Soldered connections are prohibited.

7.1.3 Overflow pipes where installed shall not be smaller in size than the supply pipe.

7.2 Relief Valves.

7.2.1 Where a shut-off valve is installed in the discharge line from an oil pump a relief valve shall be installed in the discharge line between the pump and the first shut-off valve.

7.2.2 Oil preheaters shall be of approved type and provided with a relief valve to prevent excessive oil pressure. Oil preheaters shall not be installed in the steam or water space of the boiler.

7.2.3 Relief valves shall be set to discharge at not more than one and one-half (1½) times the maximum working pressure of the system. The discharge from relief valves shall be returned to storage tank or to the supply line. There shall be no shut-off valve in the line of relief.

7.3 Vent Pipe.

7.3.1 An open vent of iron or steel, without trap, and draining to the tank, shall be provided for each storage tank. The lower end of the vent pipe shall not extend through the top of the storage tank more than one inch (1"). Cross connection between vent pipe and fill pipe is prohibited.

7.3.2 Where a battery of storage tanks, designed to hold the same grade of oil, is installed, vent pipes may be run into a main header.

7.3.2.1 The area of the header and common vent shall be equal to the sum of the areas of the vent pipe.

7.3.3 Vents shall be not less than one and one-quarter inches (1¼") in diameter for storage tanks up to 1,100 gallons' capacity and not less than two inches (2") in diameter for storage tanks of 1,100 gallons and more. Vents for auxiliary storage tanks shall not be less than ½ inch in diameter and may be run into the storage tank vent.

7.3.4 Vent pipes shall be provided with weatherproof hoods and shall terminate outside the building not less than two feet (2′) from any building opening and not less than two feet (2′) nor more than twelve feet (12′) above the fill pipe terminal, except as may be otherwise approved by the Board. When such openings are fixed and constructed of incombustible materials they shall not be deemed openings within the intent of this rule. If the vent pipe terminal is not visible from the fill pipe terminal location, a one-inch (1") line shall be connected to tank and shall parallel the fill pipe and terminate at the fill pipe terminal with unthreaded end. Such tell tale lines shall be provided with a check valve set to prevent flow of surface water to storage tank.

7.4 **Fill Pipes.**

7.4.1 Fill pipe shall terminate outside the buildings with the fill pipe terminal located at or above grade at least two feet (2′) of any building opening or subway grating at or below the level of the fill pipe terminal. No fill pipe shall be less than 2 inches in diameter.

7.4.2 Each storage tank shall be provided with a separate fill pipe except where a battery of tanks is installed, containing the same grade of oil, a common fill and header pipe may be installed provided the area of common header pipe is no smaller than the largest branch fill pipe. When different grades of oil are piped to separate tanks from a common fill line, each branch fill pipe shall be provided with a shut-off valve.

7.4.3 Where the top of the storage tanks is above the fill pipe terminal the fill pipe shall be connected to the top of the tank and be provided with a shut-off valve and a swing check valve which shall be located at the fill pipe terminal.

7.4.4 All fill pipe terminals shall be of approved type constructed of a suitable material, provided with lugs for imbedding in concrete or in lieu thereof a set screw to fasten terminal to fill pipe. The outer flange of the fill pipe terminal shall be provided with letter reading "Fuel Oil" and the calendar number under which the fill pipe terminal has been approved. The fill pipe terminal shall be separately threaded to receive the seal cap and the fill pipe. The seal cap shall be suitably threaded and slotted for a special opening wrench. An oilproof gasket inserted in a groove in the fill pipe terminal shall be provided so as to render the fill pipe terminal leakproof. A strainer is not required but if used must be of not less than 1/8 inch mesh. Where there is a storage system of volatile inflammable oil and a storage system for fuel oil to be used in the same premises, the terminal of fuel oil fill pipe shall be provided with a left-handed thread, and the fill pipe fitting shall be of a different size than that required for the fill pipes to gasoline tanks.

7.5 **Heating Coils in Storage Tanks.**

7.5.1 All heating to reduce viscosity of oils in storage tanks shall be only by means of hot water or low pressure ten (10) pounds per square inch maximum steam coils or electric heaters approved for oil storage tanks.

7.6 **Scavenging Line.**

7.6.1 When a scavenging line is installed it shall terminate outside of the building and shall be capped oil tight when not in use.

Rule 8. Valves and Control of Oil Flow.

8.1 Each supply line from storage tanks of two hundred and seventy-five (275) gallons' capacity and from auxiliary storage tanks shall be provided with a shut-off valve at the tank and at the burner and when connected to burners designed for gravity feed, shall be provided with an approved constant level device.

8.2 Each supply line for storage tanks of more than two hundred and seventy-five (275) gallons' capacity, shall be provided with a shut-off valve at the burner and where the top of the tank is above the oil inlet connection to the burner and/or transfer pump, shall be provided with an approved anti-syphon device located at the highest point in supply line, except that where heavy oil (No. 6 Commercial Standard Grade) having a viscosity of one hundred (100) seconds or more Saybolt Furol at one hundred and twenty-two degrees Fahrenheit (122° F.) is used, the anti-syphon device shall not be required.

8.3 Except as may be modified in specific instances by the Board of Standards and Appeals, oil from storage tanks of two hundred and seventy-five (275) gallons' capacity or more may be delivered to burners installed above the lowest floor of a business building only under the following provisions:

8.3.1 Plans for such installations shall be submitted for approval to the administrative official having jurisdiction before such installation is made.

8.3.2 Such burners shall not be installed in any story of any building the floor of which is more than fifty feet (50′) above the street level. Only one oil delivery line shall be installed for each floor.

8.3.3 Oil delivery lines to burners located above the lowest floor of a building shall not be larger than two inches (2″) iron pipe size.

8.3.4 The pressure in oil lines to burners located above the lowest floor of a building shall not be more than is necessary to deliver oil to the burners and such pressure shall not in any case exceed thirty (30) pounds per square inch. With each automatic burner there shall be installed and maintained in good working order a set of suitable safety controls of the electric or mechanical type. The proper control for each burner is to be listed in the resolution under which the burner is approved. The controls are to provide the following functions:

Temperature control
Ignition "
Stack or Combustion "
Pressure "
Gravity "

8.4 A remote control shall be provided whereby the flow of oil to any burner can be stopped, and such remote control shall be located outside the entrance to the room in which the burner is located and as close to such entrance as practical, except when outside location is impracticable such control may be located immediately inside the room in which the burner is located if such location is accessible at all times. All such controls shall be legibly labeled "Remote Control for Oil Burner." On auxiliary storage tanks used with manually operated burners such remote control may be installed on feed lines between tank and burner.

8.5 Except as provided by Rule 4.2 of these rules for approved combination burner and storage container devices, pressure in storage tank or container for the purpose of discharging oil is prohibited.

8.6 In systems where either steam or air is used for atomizing the oil, the oil and the atomizing supply shall be interlocked, so that in case of the inter-

ruption of the atomizing supply, the supply of oil will immediately be cut off. Except that this requirement shall not apply to air and oil supply units directly connected to a common driver.

Rule 9. Oil Level Indicating Devices and Test Wells.

9.1 All tanks located inside of buildings shall be provided with an oil level indicating device. Test wells shall not be permitted in tanks located inside of buildings. Unused tank openings shall be permanently sealed to prevent removal of plugs or cover.

9.2 Oil level indicating devices shall be constructed of substantial materials so designed that there can be no leakage of oil or oil vapor.

9.3 Test well shall be capped oil tight and kept closed when not in use.

Rule 10. Permits, Plant, Inspection and Tests of Storage Tanks and Piping.

10.1 Permits.

10.1.1 No oil installation of more than six (6) gallons' capacity shall be operated until after a permit has been issued by the Fire Commissioner.

10.1.2 Applications for permit shall be made by the installer who holds a certificate or license issued by the Fire Commissioner on forms furnished by the Fire Commissioner and shall provide for the location of the building in which the installation is to be made, name and address of owner and/or occupant, name and address of installer, make and approval number of burners, pumps and other devices, capacity number and location of storage tanks, together with approval of such proposed installation by the Borough Superintendent of Buildings when required under Rule 10.2.

10.1.3 No permit shall be issued by the Fire Commissioner until the installation has been inspected by his representative and the installer has furnished an affidavit that the CO_2 content of the flue gas by actual test of the completed installation is not less than 8 per cent without smoking.

10.2 Plans to be Filed Where Structural Considerations Are Involved.

10.2.1 The installer shall file with the Borough Superintendent of Buildings plans showing the size and location of all storage tanks having a capacity greater than 275 gallons where such tanks are to be installed either inside of buildings in or below the lowest floor level or outside of buildings below ground. Plans, however, shall be filed where 275 gallon tanks are to be buried and for all multiple dwellings and for all places of public assembly. All plans, as in this section required, shall be certified to the Fire Commissioner by the Borough Superintendent of Buildings before any work is started. All such plans shall show compliance with all structural requirements and shall show all salient features of the installation. Plans shall also be approved by the Board of Transportation for all tanks located in or outside of buildings along the line of subways under the limitation in Rule 6.5.1.

10.3 Inspection and Tests of Installations of Storage Tanks and Piping.

10.3.1 Storage tanks of approved type and not exceeding two hundred and seventy-five (275) gallons' capacity and all piping for oil connected thereto shall show no leakage when tank and all piping for oil is completely filled with oil when subjected to a test of 10 pounds per square inch for a period of ten (10) minutes in installations in multiple dwellings, places of public assembly and amusement, except that no tests shall be required for installations in occupancies not specifically mentioned herein.

10.3.2 Storage tanks of more than two hundred and seventy-five (275) gallons' capacity and all piping for oil connected thereto shall show no change in shape, rupture or leakage when subjected to a hydrostatic test with water or oil as follows:

10.3.2.1 Oval, obround, rectangular and specially shaped storage tanks and piping connected thereto, twenty-five (25) pounds per square inch.

10.3.2.2 Cylindrical storage tanks and piping connected thereto, fifty (50) pounds per square inch.

Pressure shall be applied for a period of thirty minutes. When oil is used there shall be no fire or flame in the room or rooms in which the test is being conducted. All tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all necessary equipment for conducting tests. Such test may be made with oil in freezing weather for tanks located outside of building.

10.3.3 Defective tanks, if repaired by welding, shall have all oil removed and shall be purged of all explosive gases or vapors.

10.3.4 The anti-syphon devices, where used as provided for in these rules, shall be approved devices.

10.3.5 All piping conveying oil from a transfer pump to a burner subjected to a pressure in excess of 50 lbs. per sq. inch shall be tested for a pressure of 1½ times the working pressure.

10.4 Fee for Permit and Test of Storage Tanks and Piping.

10.4.1 When application for permit is made, as provided for in Rule 10.1, a fee covering the permit shall be paid in accordance with the schedule given in the Administrative Code.

Rule 11. Inspection of Installations With Not More Than Six (6) Gallons' Storage Capacity.

11.1 All installations of burners with not more than six (6) gallons' storage capacity except where such installations are made in dwellings shall be

reported by installer to the Fire Commissioner giving location of building in which installation is made, name and address of owner and/or occupant, name and address of installer and the make and approval number of burner. Such reported installations shall be inspected as required by the Administrative Code.

Rule 12. Ventilation.

12.1 No burner shall be installed in any boiler, heater, range or stove unless each boiler, heater, range or stove be connected with a separate flue in a legal chimney, complying with Article 11 of the Administrative Building Code except that in high pressure mercantile and industrial plants several units may be connected to a boiler room stack.

12.2 Adequate ventilation, at least equivalent to area of the smoke pipe at the point where it enters the flue, shall be provided in all rooms in which burners are installed.

12.3 Dampers shall be so constructed that they cannot completely cut off the passage of flue gases at any time, and on all installations in one and two family dwellings an approved automatic draft control of the same size as the cross-sectional area of the pipe or breaching shall be installed in the breaching or flue pipes.

Rule 13. Automatic Pumps.

13.1 Automatic pumps, when not an integral part of the burner shall be of approved type, provided with automatic means for preventing continuous discharge of oil in case of pipe breakage.

Rule 14. Fire Protection

NOTE: In order that the intent of Local Law No. 145 be carried out, Section C26-693.0, sub. d, par. 1, 2, 3, is superseded by the following:

14.1 The clear distance between smoke pipe connections, of any boilers, furnaces or other heating apparatus to flues, and combustible material shall not be less than eighteen (18) inches, except that this clearance may be reduced to nine (9) inches where a baffle consisting of not less than No. 29 gauge sheet metal backed by ¼ inch thick asbestos is placed two (2) inches above and extending along the entire length of the smoke pipe connections and twice the width thereof and such baffle is securely fastened from the ceiling with substantial hangers. In lieu of such baffle the combustible material may be covered with fire-retarding material as defined in these rules.

14.2 The clear distance between any non-insulated heat-producing parts of boilers, furances or other heating apparatus and combustible material shall not be less than twenty-four inches (24″). Where such parts are insulated by two inches (2″) of asbestos, or equivalent, the clear distance shall be not less than twelve inches (12″), or, in lieu of such insulation the combustible material shall be covered with fire retarding material as defined in these rules extending 8 ft. in front and 4 ft. side and rear of the apparatus.

14.3 No movable combustible material shall be stored or maintained within five feet (5′) of heating apparatus, except where same is protected by fire retarding material.

14.4 Burners and all accessories, including tanks and piping, shall be maintained oil tight and kept clean at all times.

14.5 The floor beneath boiler or furnace and within five (5) feet in all directions shall be of fireproof construction.

14.6 Oil burning devices designed for installation with storage of not more than six (6) gallons shall be firmly anchored to the floor, set level, and the floor beneath the stoves or any such heating devices protected by a shield of ½″ asbestos or equivalent extending at least twelve inches (12″) beyond the projected area of such device where required within the specific approval of each burner. Approved safety cans only shall be used for the storage and filling of oil containers. The fuel oil used for these burners shall be range oil or No. 1 or No. 2 fuel oil. The manufacturer or installer of these burners shall within 48 hours after each installation notify the Fire Department in writing of the name of the person to whom this burner is sold and the address of the premises where installed.

14.7 Near each boiler or furnace of a fuel oil-burning unit there shall be kept ready for use fire extinguishing equipment of not less than two quart capacity approved as suitable for oil fires or not less than two pails of sand, the pails to have rounded bottom.

Rule 15. Instruction Cards and Certificate of Fitness.

15.1 Cards, giving complete instructions for the care and operation of the system shall be permanently fixed near the apparatus in readable condition. Where burners or oil-burning heaters designed for use with storage of not more than six (6) gallons' capacity are installed, there shall also be posted a copy of the specifications under which it was approved by the Board of Standards and Appeals in addition to the instruction card herein provided for.

15.2 Every heating system in which the oil is preheated or systems not fully automatic when operating, shall be under the direct supervision of a person holding a certificate of fitness issued by the Fire Commissioner and who shall be in the building at all times while the burners are in operation, except, that a person holding a certificate of fitness as a licensed engineer or as a licensed fireman issued after May 1, 1941 under the provisions of C-26-213.0 of the Administrative Building Code, or a person with such license issued prior to May 1, 1941 carrying an endorsement reading "Oil Burners" shall not be required to obtain such certificate.

Rule 16. Modification.

16.1 When, for any reason, it may be impracticable to comply strictly with the foregoing rules, the administrative official having jurisdiction shall have power to accept substitute methods provided the spirit and substance of these rules shall be complied with.

Rule 17. Existing Installations.

17.1 Oil burner systems heretofore installed and duly approved as complying with all laws and rules then applicable thereto shall be deemed acceptable, provided there have been no subsequent alterations to the apparatus, except as to Rule 15.2.

Correction Affecting Calendar Numbers 159-45-BZ and 390-19-BZ.

Minutes of Regular Meeting of Tuesday Morning, October 30, 1945, Affecting Calendar Numbers 225-45-BZ, 480-45-BZ, 555-45-BZ, 563-45-BZ, 275-45-BZ, 351-45-BZ, 470-45-BZ, 476-45-BZ, 484-45-BZ, 597-45-A, 151-44-SA, 164-44-SA and 492-45-SM.

Minutes of Regular Meeting of Tuesday Afternoon, October 30, 1945, Affecting Calendar Numbers 513-45-A, 584-45-A, 589-45-A, 590-45-A, 592-45-A, 595-45-A, 601-45-A, 604-45-A, 606-45-A, 504-45-A, 605-45-A, 561-45-A, 564-45-A, 565-45-A, 591-45-A, 598-45-A, 600-45-A, 608-45-A, 614-45-A, 779-38-SA, 32-20-BZ, 1092-38-BZ, 704-39-BZ, 1177-40-BZ, 1212-40-BZ, 72-41-BZ, 232-41-BZ, 385-41-BZ, 10-43-BZ, 212-35-BZ and 205-42-BZ.

Correction Affecting Calendar Number 58-45-A.

Smoking in Factories, Rules for

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION
10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to October 30, 1945.

Cal. No. Dept. Premises Affected

642-45-SM—The Walthaw 275 Gallon Fuel Oil Tank, manufactured by The Walthaw Corp., Material.

643-45-A—H.B.Q.—48-09 Rockaway Beach boulevard, southeast corner of Beach 49th street (Block 336, Lot 60), Edgemere, Borough of Queens, (Under section 35, General City Law re bed of mapped street—Beach 49th street), Alt. 1490-43.

644-45-BZ—H.B.Bx.—801 Bartholdi street, northeast corner of Barnes avenue (Block 4633, Lot 11), Borough of The Bronx, Amendment to Alt. 521-45.

645-45-A—H.B.B.—757-761 Utica avenue, east side, 155 ft. south of Lenox road (Block 4656, Lots 46, 47 and 48), Borough of Brooklyn, N.B. 594-45.

646-45-A—F.D.—550 Broadway, east side, 99 ft. 9½ in. south of Prince street (5th floor); (Block 497, Lot 11), Borough of Manhattan, 40231-LC. and Decision.

647-45-SM—Metcro Metal Cross-Bridging, manufactured by E. C. Maulenbergh, Material.

648-45-SM—Knapp Brothers Plastering Accessories, manufactured by Knapp Brothers Manufacturing Co., Material.

649-45-A—H.B.Q.—136-17 38th avenue, north side, 155 ft. east of Main street (attic); (Block 4978, Lot 75), Flushing, Borough of Queens, Alt. 1707-45.

650-45-A—F.D.—78-01 57th avenue, north side, 745 ft. east of 74th street (Block 2805, Lot 31), Elmhurst, Borough of Queens, 748-LC.

651-45-BZ—H.B.B.—724-726 64th street, south side, 180 ft. east of 7th avenue (Block 5821, Lot 16), Borough of Brooklyn, Alt. 3197-45.

652-45-A—H.B.B.—585-603 Johnson avenue, north side, 100 ft. 4 in. east of Gardner avenue (2nd and 3rd floors); (Block 2989, Lots 42 and 46), Borough of Brooklyn, Amendment to N.B. 356-44.

653-45-A—H.B.M.—630-636 West 26th street, south side, 136.43 ft. east of 12th avenue (Block 670, Lot 66), Borough of Manhattan, N.B. 250-45.

654-45-SA—Amco Diesel Oil Dispensing Unit, No. 2300, Appliance,

---

655-45-A—H.B.B.—43-63 Meadow street, northeast corner of Bogart street (Block 3029, Lot 29), Borough of Brooklyn, Amendment to Alt. 2442-45.

656-45-A—H.B.B.—21-37 Waverly avenue, east side, 177 ft. 2 in. south of Park avenue and 54-58 Washington avenue, west side, 172 ft. 2 in. south of Flushing avenue (4th floor, Buildings 10, 11, 12, 13 and 17); (Block 1874, Lots 1, 38 and 40), Borough of Brooklyn, Alt. 2255-45.

657-45-A—H.B.M.—1317-1329 Broadway, west side, from West 34th to West 35th streets, 105-173 West 34th street, 108-166 West 35th street and 441-459 7th avenue (Block 810, Lot 1), Borough of Manhattan, Alt. 1724-45.

Restored to Calendar.

779-38-SA—M and S Computing Gasoline Pump, Model 80, Appliance.

212-35-BZ—H.B.B.—6501-6507 Fort Hamilton parkway and 948-950 65th street, southeast corner (Block 5750, Lot 42), Borough of Brooklyn, Applic. 4488-36.

205-42-BZ—H.B.Bx.—1754 Jerome avenue and 1-7 East 175th street northeast corner (Block 2850, Lot 1), Borough of The Bronx, E.S. Applic. 46-42.

DESIGNATIONS: H.B.—Department of Housing and Buildings; H.B.B.—Department of Housing and Buildings, Brooklyn; H.B.M.—Department of Housing and Buildings, Manhattan; H.B.Q.—Department of Housing and Buildings, Queens; H.B.R.—Department of Housing and Buildings, Richmond; H.B.Bx.—Department of Housing and Buildings, Bronx; H.D.—Health Department, and F.D.—Fire Department.

CALENDAR

NOVEMBER 7, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Wednesday morning,* November 7, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

296-45-BZ—Application, May 14, 1945, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Ida Gottfried, owner, to permit in a business use district, the reconstruction and extension of gasoline service station (previously granted by the Board); premises 1769-1779 Coney Island avenue, east side, 315 ft. south of Avenue N (Block 6749, Lots 78 and 81), Borough of Brooklyn.

322-45-BZ—Application, May 29, 1945, under sections 7e, 7i and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Israel Fleiss, owner, to permit in a partly residence and business use district, the change in occupancy from stores to motor vehicle repair shops; premises 2243-2259 White Plains road, west side, 65 ft. north of Thwaites place (Block 4342, Lot 39), Borough of The Bronx.

408-45-BZ—Application, June 29, 1945, under section 7i of the zoning resolution, of Jack Z. Cohen, applicant, on behalf of DAF Holding Corp., owner (David Anhisiger, lessee), to permit in a business use district, the change of occupancy from auto laundry and brake testing station, to motor vehicle repair shop; premises 561 Utica avenue, east side, 265 ft. south of Rutland road (Block 4604, Lot 71), Borough of Brooklyn.

528-45-BZ—Application, August 31, 1945, under section 21 of the zoning resolution, of William I. Hohauser, applicant, on behalf of Simon Ginsberg Estate, Inc., owner, to permit in a residence use district, the change of occupancy from store and showrooms to store and doctor's offices; premises 1082 Park avenue, west side, 25.85 ft. north of East 88th street (Block 1500, Lot 34), Borough of Manhattan.

97-45-BZ—Application, February 26, 1945, under section 21 of the zoning resolution, of Alden B. MacNeil, applicant, on behalf of Abe L. Malamut, owner, to permit in a residence use, G area district, the existing storm enclosure in the side yard; premises 108-22 66th road, south side, 100 ft. east of 108th street (Block 2175, Lot 16), Forest Hills, Borough of Queens.

423-45-BZ—Application, July 2, 1945, under sections 7 (b), 7(c) and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Mt. Eden Construction Corp., owner, to permit in a residence and business use district, the extension of present building and to occupy more than 65% of the area of the lot in B area; premises 101-115 East Mt. Eden avenue and 1600-1606 Walton avenue, northeast corner (Block 2838, Lot 1), Borough of The Bronx.

548-45-BZ—Application, September 13, 1945, under sections 7(b) and 21 of the zoning resolution, of Stanley Lieberman, applicant, on behalf of Scandinavian Good Templars Temperance Mission of N. Y. C., owner, to permit partly in a residence use district, and partly in an unrestricted use district, the alteration and conversion of occupancy from clubrooms, office and one-family to funeral chapel and one-family; premises 641 66th street, north side, 325 ft. east of 6th avenue (Block 5829, Lot 53), Borough of Brooklyn.

265-28-BZ—Application of Herman Kron, applicant, on behalf of Ottilia Realty Corp., owner (Hamilton Buick, Inc., lessee), reopened October 2, 1945, under sections 7(e) and 7(i) of the zoning resolution, to permit in a business and residence use district, the extension (of use) of garage for more than five cars to garage for more than five cars, repair shop, sales of auto parts and auto showroom; premises 3181 Westchester avenue, west side, 140.49 ft. south of Wilkinson avenue (Block 4235, Lot 43), Borough of The Bronx.

398-45-BZ—Application, June 20, 1945, under sections 7f and 7i of the zoning resolution, of Stanley Kilburn, applicant and owner, to permit in a business use district, the alteration and extension of an existing building occupied as a restaurant, and the change of occupancy to showrooms, gasoline service station, repair shop and dwelling, and to omit the rear yard required under section 17a of the zoning resolution; premises 209-01 to 209-19 Northern boulevard, north side, between Corporal Kennedy street (Stewart avenue) and 209th street (Wright avenue); (Block 6279, Lot 21), Bayside, Borough of Queens.

Appeals from Administrative Decisions.

399-45-A—209-01 to 209-19 Northern boulevard, north side, between Corporal Kennedy street (Stewart avenue), and 209th street (Wright avenue), (Block 6279, Lot 21), Bayside, Borough of Queens (under section 35, General City Law re bed of mapped street—Corporal Kennedy street [Stewart avenue]).

622-45-A—4-36 Vernon boulevard, northwest corner of 44th drive (1st floor); (Block 489, part of Lot 1), Long Island City, Borough of Queens.

623-45-A—1083-1087 Willoughby avenue, north side, 100 ft. west of Wilson avenue (4th floor); (Block 3196, Lot 38), Borough of Brooklyn.

650-45-A—78-01 57th avenue, north side, 745 ft. east of 74th street (Block 2805, Lot 31), Flushing, Borough of Queens.

Material for Approval

502-45-SM—Western's Standard Concrete Piles.

HARRIS H. MURDOCK, *Chairman.*

NOVEMBER 7, 1945, 2 P. M.

For Applicant: J. Jacques Stone.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (461-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 247-261 Madison avenue, east side, from East 38th street to East 39th street (Block 868, Lots 22, 23, 24 and parts of Lots 20, 54, 55 and 56), Borough of Manhattan, was granted by the Board July 12, 1938, on certain conditions; and

WHEREAS, the resolution was amended on October 25, 1938, September 19, 1939, November 8, 1939 and permit extended on October 15, 1941 and October 19, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted July 12, 1938, as amended through October 19, 1943, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h of the zoning resolution, for a term of two years from the date of this *amended*

resolution, to permit the parking and storage of more than five motor vehicles, *on condition* . . . and that other than as *amended* herein, the conditions of the resolution adopted by the Board July 12, 1938, as amended October 25, 1938, shall be complied with and that a certificate of occupancy shall be obtained."

904-38-BZ

APPLICANT—Harry Annabel, owner.

SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a temporary term of two years, the parking and storage of more than five motor vehicles.

159-45-BZ

APPLICANT—Lama and Proskauer, for George C. Tilyou and George C. McCullough, owners.

SUBJECT—Application (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a business use district, the parking and storage of more than five motor vehicles for a term of years.

PREMISES AFFECTED—1501-1515 Surf avenue and 2932-2950 West 15th street, northwest corner (Block 7063, part of Lot 21), Borough of Brooklyn.

APPEARANCES—

For Applicant: A. Lama and Mr. McCullough.

For Opposition: J. Spargo.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (159-45-BZ)

WHEREAS, Lama and Proskauer for George C. Tilyou and George C. McCullough, owners, filed March 19, 1945, an application under section 7h of the zoning resolution, to permit in a business use district, the parking and storage of more than five motor vehicles for a term of years, affecting premises 1501-1515 Surf avenue and 2932-2950 West 15th street, northwest corner (Block 7063, part of Lot 21), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, July 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Surf avenue, West 15th street and West 16th street are in a business use, C area and class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 16, 1945, on B.N. Applic. 48-45, reads:

"1. Parking and storage of more than five cars within a business use district is contrary to Art. 2, Section 4a-15 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 138 ft. 11 in. frontage by 157 ft. 4⅝ in. in depth, irregular, on which is located a carousel and a one family, 2 story frame dwelling, approximately 47 ft. 8½ in. by 32 ft 9 in. and that it is proposed to park and store more than five motor vehicles on the vacant portion of the plot; and

WHEREAS, the applicant contends that during the summer season, Coney Island triples in population and there are no facilities to accommodate additional cars brought to the area; that the granting of this application will in no way affect the adjoining property owners; that for years people have been parking on this plot without authorization of the owners; that in view of the fact that there is a decided need for parking accommodation in this area, it is requested that this applicaion be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7h of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7h thereof for a term of five (5) years from the date of this resolution, to permit the rear of the premises as proposed to be occupied for the parking and storage of more than five motor vehicles, *on condition* that such spaces, as indicated on plans filed with this application marked "Received March 19, 1945," shall be leveled and surfaced with steam cinders, clean gravel or other suitable material, properly rolled and bound to prevent dusting and to provide for surface drainage; that such parking shall be for cars of the pleasure vehicle type only and only those capable of operation shall be parked or stored; that adjacent to the fence on the interior lot lines there shall be maintained bumpers of adequate size, firmly anchored to the ground, and not nearer than three feet to the lot line, to prevent injury to adjoining fences and buildings on the lot line; that entrance to the premises may be by the existing curb cut to Surf avenue and by a new curb cut not over 15 feet in width to *West* 15th *street,* as shown; that signs advertising the parking and storage use shall be restricted to one sign not over 15 square feet in area, which shall not extend beyond the building line, advertising only the parking and storage use and the rates charged; that all other signs advertising parking and storage shall be removed; that the existing fence, between the driveway to Surf avenue and the portion of the premises occupied for the carousel, shall be maintained in substantial condition and no openings therein shall be made or permitted to the driveway; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

---

* Correction—"Surf avenue" changed to *"West* 15th *street"* in line 63 of the resolution.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION **(390-19-BZ)**

WHEREAS, this application, permitting in a business use district, the erection of a garage for more than five motor vehicles, affecting premises 6902-6912 4th avenue and 378-386 Bay Ridge avenue, southwest corner (Block 5872, Lot 42), Borough of Brooklyn, was granted by the Board on June 26, 1919, on certain conditions; and

WHEREAS, the resolution was amended on October 30, 1934 and on January 7, 1936; and

WHEREAS, the applicant requested a further amendment of the resolution, under section 7i of the zoning resolution, to permit the change of occupancy of a garage for more than five motor **vehicles and store,** previously granted by the Board, to garage, showroom, servicing and repairs to motor vehicles; and

WHEREAS, this case was reopened by vote of the Board on May 29, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 2, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Bay Ridge avenue is in a business use, C area and Class 1¼ height district; 4th avenue is in a business and residential use, C area and Class 1¼ height district, 68th street and Ovington avenue are in a residential use C area, Class 1¼ height district; and

WHEREAS, the decisions of the borough superintendent, dated April 27, 1945 re Alt. Applic. 1104-45, reads:

"1. Resubmit additional non-conforming uses, to the Board of Standards and Appeals. See Cal. 390-19—BZ Bul. 45, Vol. 19 (Business zone)

2. Area for manufacturing excessive—contrary to Art. II, Sec. 4, par. "B" of zone resolution."

and

WHEREAS, the applicant contends that the premises in question has a frontage of 78 ft. 4¾ in. on Bay Ridge avenue, 99 ft. 11⅞ in. on 4th avenue, 97 ft. 8 in. on the westerly lot line; 101 ft. 11¼ in. on the southerly lot line; that the premises are improved with a two story public garage, and store, for more than 5 motor vehicles, covering the entire plot; that this building was constructed under Permit 11083-1934, for which Certificate of Occupancy 74994 was issued on January 2, 1935; that this garage was granted by the Board of Standards and Appeals under Cal. 390-1919; that it is the intention of the owner to add to the present use, an automobile showroom, parts department and general servicing of automobiles; that as the premises in question is presently zoned for business, the building is existing and the additional uses are in a business zone, it is requested that the application be granted.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 26, 1919, as amended through January 7, 1936, so that as amended, the resolution as a whole, shall read:

"*Resolved,* that the decision of the superintendent of buildings, acting on N. B. Applic. 5452-19, dated May 26, 1919, be and it hereby is *modified* and that the application be and it hereby is *granted on condition* that the westerly and southerly walls of the structure shall be unpierced throughout their entire height; that there shall be no skylight or other opening in the roof within 20 ft. of the adjoining property on the west and south; that the sills of the windows on the Bay Ridge avenue front shall be placed at least 6 ft. above the level of the sidewalk; that the walls of the structure facing on Fourth avenue and Bay Ridge avenue shall be of pressed brick or similar materials; that there shall be but one doorway in the Bay Ridge avenue frontage, which may be used as a fire exit only and to be located within 3 ft. of the westerly line of the lot; and

Resolved further, that the decision of the borough superintendent, acting on Alt. Applic. 1104-45, Objection 1, be and it hereby is *modified* and that the application be and it hereby is *granted on condition* that in the event the owner desires to occupy the first story of the building as a sales room for the Chrysler agency, in lieu of the present permitted garage use on such floor, that such use of the first floor may be permitted and the alterations to the first floor may be substantially in accordance with the revised plans marked 'Received September 27, 1945,' provided that in all other respects, the requirements of the resolution as above recited are complied with, and in all other respects, the building and occupancy complies with all laws, rules and regulations applicable to the continued use of the second story as a garage for more than fire cars entirely independent of the permitted use in the first story as a sales room for such sales agency, including minor repairs hereby permitted under section 7 subdivision i and servicing, consisting of greasing and washing, exclusively for cars dealt in by such agency; that all signs shall be removed from the building and no new signs erected, except there may be one sign on the Fourth avenue front, advertising the Chrysler sales agency; that such sign may be illuminated and may extend beyond the building line for a distance of not more than 4 ft.; that there shall be no roof sign, wall sign or temporary sign; that the windows along Bay Ridge avenue may be cut down to within 6 *inches* of the floor where such windows occur within the proposed enclosed showroom, as shown on plans marked 'Received September 27, 1945'; that all such repair work, except for wheel realignment, shall be done by hand tools with no machine driven tools greater than one-half horse power; that the gasoline pumps may be reset as therein indicated and as an accessory use only for supplying cars dealt in; that such portable fire fighting appliances shall be maintained throughout the building as the fire commissioner shall direct; that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and *withdrawn* as to objection 2."

---

* Correction—"6 ft." changed to "6 *inches*" in line 100 of the resolution.

THE RESOLUTION (351-45-BZ)

WHEREAS, Lama and Proskauer, for Precision Realty Corporation, owner, filed May 29, 1945, an application under section 7c of the zoning resolution, to permit in a business and residence use district, the change in occupancy from a bakery, private garage, office and storage, to factory, garage for five motor vehicles, storage, showroom and office with manufacturing in the business use zone in excess of the lot area; affecting premises 79-01 to 79-11 Rockaway Beach boulevard and 177-199 Beach 79th street, southwest corner (Block 615, Lot 30), Bockaway Beach, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Rockaway Beach boulevard is in a business use, C area and Class height district; 79th and 80th streets are in a residence use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 17, 1945, re Alt. Applic. 738-45, reads:

"1. The change in use from bakery, private garage, office and storage, to factory, garage, storage, showroom and office in a business and extending partly into a residence district, is contrary to Sec. 3 of the zone law.

"2. Manufacturing in a business use zone on a total floor area in excess of the area of the lot, is contrary to Sec. 4(c) of the zone law."

and

WHEREAS, the applicant states the premises consist of a plot, 117.65 ft. frontage by 227 ft., irregular in depth, on which is located a 2-story, Class 3 constructed building, 113 ft. 10 in. by 221 ft., irregular in area, occupied as a bakery, office, private garage for five cars, storage and that it is proposed to occupy the building as office and factory, manufacturing of precision instruments, showroom and garage, five cars; and

WHEREAS, the applicant contends that the premises are improved with a 2-story masonry building, 113 ft. 10 in. on Rockaway Beach boulevard and 221 ft. on Beach 79th street; that this building was altered in 1929, establishing a cake bakery, for which Certificate of Occupancy 1461 was issued under Alt. 1163-1929; that it is zoned as a business district for a distance of 100 ft. south of Rockaway Beach boulevard and remainder is zoned as residential district; that the entire plot was zoned as a business district in 1916 and the portion south of a line 100 ft. south of Rockaway Beach boulevard was changed to a residential district on July 31, 1938; that the building has been purchased by The Precision Metal Products Company for the purpose of manufacturing aeronautical precision instruments and assemblies for the War Department; that it is the contention of the owners that this use is far more desirable than a bakery, and therefore it is requested that this application be granted; and

WHEREAS, under Calendar 541-44-A, an appeal was filed to review a decision of the Borough Superintendent, denying the right to occupy the entire existing building for manufacturing use; that it appeared from the records that Certificate of Occupancy 1461 was issued after completion of Alteration Application 1163-1929, to permit the entire first floor to be occupied as a "cake bakery" and the second floor as "office"; this appeal was withdrawn so that an application for a zoning variance could be filed to extend the manufacturing use to the second story; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c thereof,

to permit the extension of the permitted factory use to the second story as proposed, *on condition* that such factory work in the second story shall be restricted to light assembly work; that the building shall not be increased in height or area; that the sprinkler system shall be maintained throughout the premises as proposed and satisfactory to the fire commissioner; that all openings to Beach 79th street, formerly used by the prior bakery occupancy as garage space, shall be enclosed with approved masonry, except that two spaces nearest to Rockaway Beach boulevard shall be maintained for loading and unloading, in accordance with the requirements of the zoning resolution; that all loading and unloading shall be within the building in such loading spaces; that all openings in the wall adjacent to the southerly rear lot line shall be closed up, including windows as well as ventilating spaces, with approved masonry; that the heavy manufacturing shall be maintained only within the business use district toward Rockaway Beach boulevard; that no signs shall be erected on the premises other than signs permitted by the zoning resolution within the business use district, excluding all roof signs; that the system for storage of paint and paint spraying shall be in accordance with the requirements therefor, and the spraying booth shall be equipped with an approved sprinkler curtain system, of a type approved by the Board, to insure no paint spray being emitted from the building; that the order of the Fire Prevention Division, No. 15848-LF, and the order of the Division of Combustibles No. 537-LC, shall be complied with in all respects; that a recreational room shall be maintained within the building for the workers, so as to assure that the workers will not loiter on the streets adjoining the building during recreational or lunch hours; that any heavy machinery shall be equipped with such shock deadeners to reduce the unnecessary noises; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within three (3) months from the date of this resolution.

470-45-BZ

APPLICANT—Lama and Proskauer, for 137-20 Cross Bay Boulevard, Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a residence and business use district, the inclusion of minor repairs, laundry and lubritorium in an existing showroom for the sale and display of motor vehicles, sale of auto parts and offices.

PREMISES AFFECTED—137-20 Cross Bay boulevard, 137-07 to 137-27 Redding street, southwest corner, and 137-02 to 137-24 Old South road (Block 11409, Lots 1 and 10), Woodhaven, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama and H. Pensig.
For Opposition: Jennie Greene.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (470-45-BZ)

WHEREAS, Lama and Proskauer, for 137-20 Cross Bay Boulevard, Inc., owner, filed July 27, 1945, an application under section 7i of the zoning resolution, to permit in a residence and business use district, the inclusion of minor repairs, laundry lubritorium in an existing showroom for the sale and display of motor vehicles, sale of auto parts and offices, affecting premises: 137-20 Cross Bay boulevard, 137-07 to 137-27 Redding street, southwest corner and 137-02 to 137-24 Old South road (Block 11409, Lots 1 and 10), Woodhaven, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Cross Bay boulevard is in a business use, D area and Class 1 height district; Albert street and Redding street are in a business and residence use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated July 13, 1945, on Alt. Applic. 1084-45, reads:

> "1. To change the use from auto showroom to auto repair shop, washing and lubritorium in a business and partly in a residence district, is contrary to Sections 3 and 4 of the Building Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 180.76 ft. frontage by 161.19 ft. in depth (irregular), occupied by a building one-story, 13 ft. in height, 119.4 ft. front by 92 ft. deep, of Class 3 construction and that it is proposed to occupy the building as a showroom for the sale and display of motor vehicles, sale of auto parts, offices and minor repairs, washing and lubritorium; and

WHEREAS, the applicant states that the premises have a frontage of 180.76 ft. on Cross Bay boulevard, 223.14 ft. on Old South road, 216.26 ft. on Redding street and irregular on the southerly lot line; that the premises are improved with a one-story masonry building, which was constructed as a public market and was recently converted to an automobile show and salesroom, and the sale of automobile parts; that the building lies wholly in the business zone; that all minor repairing will be done by hand tools only and no motor over ½ h.p. will be used; that this use is synonomous with the sale of automobiles, as periodical inspections are made on all cars sold by the owners; that directly to the west, Block 11406, Lot 32, there is a gasoline service station and also gasoline service station on Block 11372, Lot 30 and one on Block 11372, Lot 39; therefore in view of the fact that there are several non-conforming uses within the affected area, and that the proposed use will in no way affect the surrounding property owners, and all repairs will be carried on inside the building, it is requested that this application be granted; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision i, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7i thereof, to permit minor repairs within the building in connection only with the sale of cars dealt in by the agency, *on condition* that such repairs shall be with hand tools only, but permitting motor driven machinery such as grinder or drill, provided such equipment does not require more than one-half horse-power motor each; that the building shall not be increased in height or area; that the vacant portion of the premises shall be suitably landscaped; that a fence shall be erected on the entire building line, except where the front of the building occurs and entire side lot lines as shown on plans marked "Received October 29, 1945," with no openings therein, except an access gate to Redding street; that such fence shall be either steel picket or woven wire, chain link, anchor post type; that such fence shall not be less than 4 ft. 6 in. in height; that the existing double door now in the rear wall to the west shall be blocked up with approved masonry and a single door for exit purposes not over 3 ft. 8 in. in width shall be installed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within six (6) months from the date of this resolution.

APPLICANT—Jacob J. Gloster, for Sunny Tower Holding Corp., owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a retail use, D area district, the extension of an existing store without providing rear yard required by zoning resolution (The premises adjoin a residence district).

PREMISES AFFECTED—93-11 63rd drive, southwest corner of Booth street (Block 3090, Lot 30), Rego Park, Borough of Queens.

APPEARANCES—

For Applicant: Jacob J. Gloster and S. Mahlab, Jr.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustave Goldman, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative: 0

THE RESOLUTION (476-45-BZ)

WHEREAS, Jacob J. Gloster, for Sunny Tower Holding Corporation, owner, filed July 31, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a retail use, D area district, the extension of an existing store without providing the required rear yard (the premises adjoin a residence district); affecting premises 93-11 63rd drive, southwest corner of Booth street (Block 3090, Lot 30), Rego Park, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that 63rd drive is in a business use, D area and Class 1 height district; Booth street is in a business and retail use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 12, 1945, re Alt. Applic. 909-45, reads:

"1. Area of building including proposed addition, is in excess of that permitted in Section 14 of the Zoning Resolution.

"2. Provide rear yard as per Sections 14 and 17 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises has a frontage of 100 ft. and a depth of a 100 ft., on which is located a one-story building, 13 ft. in height, of Class 3 construction and that it is proposed to extend present hardware and drug stores and construct a new cellar under the proposed extension; and

WHEREAS, the applicant contends the building was originally in a business district, which permitted a one-story building of this type without a rear yard; that changing the section into retail district has changed matters entirely for the owner of this property; that the fact that this was an existing building built on about 60% of the lot area, while the other taxpayers in the neighborhood cover 90% of the area, was not taken into consideration when the change was made; that the owner was therefore deprived of his property rights; that if this were a new building, the change perhaps would be equitable, inasmuch as the owner had plenty of time to discover what he was doing before purchase and subsequent building; that permitting the extension of this building will not in any way cause injury to adjoining property, nor will any of the adjoining owners suffer any changes in their status, because the hardware store and drug stores which are under lease, are being extended; that the present stores are shallow and that there is hardly any cellar under them at present, as the owner probably did not have any money to cover the entire lot, nor to build enough cellars, hoping and expecting to do that at some future date, but the change of the zone deprived him of his just rights; and

WHEREAS, the applicant contends under section 21, that it is a hardship to carry this property, as its assessed value is $73,000 and the owner cannot get enough rent from the taxpayer at present to cover taxes, maintenance, etc., and still have a return on his investment; that the owner is also experiencing hardship because of cellar space and the stores just have no storage space; it is therefore respectfully submitted that the Board permit the extension of these stores, including the cellars; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that the applicant had substantiated a basis to warrant exercise of discretion to grant an extension of area under section 21 of the zoning resolution, and is therefore entitled to relief on the grounds of practical difficulty and unecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 thereof, to permit the existing building to be extended as to the two most southerly stores, to within 10 ft. of the rear lot line, substantially as indicated on revised plans marked "Received October 26, 1945", but no further than the rear wall of the adjoining building on Lot 35 to the south, except that the cellar shall not be extended to the rear line, as shown, but shall terminate at the point of the rear wall, and except that stairs, giving direct access to each store cellar, shall be constructed without encroaching on the 10 ft. yard space herein required; that the balance of the open space on the lot shall be cement paved and shall be left completely open and not built upon; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be further increased in height or area; that all permits shall be obtained and all work completed within six (6) months from the date of this resolution.

484-45-BZ

APPLICANT—Thomas E. Huser, for International Tailoring Co. of New York, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use district, the extension of an existing factory building to exceed the area and height than that permitted by the zoning resolution.

PREMISES AFFECTED—101-111 4th avenue and 100-106 East 12th street, southeast corner (Block 556, Lots 44, 45 and 46), Borough of Manhattan.

APPEARANCES—

For Applicant: Thomas E. Huser, Edgar L. Kirby and William B. Smith.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (484-45-BZ)

WHEREAS, Thomas E. Huser, for International Tailoring Company of New York, owner, filed August 3, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a business use district the extension of an existing factory building, to exceed the area and height that permitted by the zoning resolution, affecting premises 101-111 Fourth avenue and 100-106 East 12th street, southeast corner (Block 556, Lots 44, 45 and 46), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, October 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that 4th avenue is in a business use, B area and Class 2 height district and East 12th street is in a business use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated July 13, 1945 on Alt. Applic. 739-45, reads:

"1. Height of new addition should comply with Section 8(g) of Zoning Resolution Note that present building and new addition considered as one building in computing excess heights and Section 9(e) of Zoning Resolution.

"2. Extension of present manufacturing use in a business use district is contrary to Sections 4(c) and 6 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of three lots, 44, 45 and 46; that on Lot 44, there is an existing factory building, 13 stories (188 ft.) in height, of Class 1 construction, 142 ft. ¾ in. by 166 ft. 9½ in., irregular in area; that it is proposed to extend this building over Lots 45 and 46, having a frontage of 50 ft. and a depth of 106 ft. 6 in., irregular in area, on which it is proposed to erect on extension exceeding the area and height district regulations; and

WHEREAS, the applicant contends that 107 4th avenue located at the southeast corner of 4th avenue and East 12th street is a loft building erected in 1919-1921 and originally contained 12 stories and basement; that an additional story was erected in 1936; that 104 East 12th street, a vacant plot adjoining the existing structure on the east, was acquired in 1937; that 106 East 12th street, a vacant plot, was acquired in 1944; that the owner is engaged in the manufacture of men's clothing and does not deal directly with customers, but with dealers; that the principal place of business is 107 4th avenue, where it occupies the entire building except the ground floor and basement, which is leased to the U. S. Hoffman Machinery Company; that during the war, the company has had contracts with the U. S. Government for the manufacture of clothing equipment; that the owner anticipates the need of additional manufacturing space to meet the post-war demand; that the use district was changed from unrestricted to business in 1938; that the applicant requests permission to extend the building on the 50 ft. vacant plot on the easterly side of the existing structure; that to comply with objection 1, it would require that the street setback start at the 7th floor, which would create a loss of 1,000 sq. ft. and that the elevator tower be moved back of the street setback line; that from the standpoint of design, it is desirable that the existing belt course on the 8th floor be continued across the proposed addition; that the elevators in the proposed addition are required to serve the 11th, 12th and 13th floors of the existing building, as well as for interfloor communication between buildings, and to move them back would make this impossible, as the existing court and stairway would intervene; that under section 8g, the normal setback point of the street wall would be 90 ft. above curb level and section 9e provides, however, for an increase in height of the street wall equal to the average excess height of the adjacent buildings; that the existing building is 188 ft. in height, an excess of 98 ft. and the number of buildings and lots affected under 9e is 7, which would establish an average of 14 ft. as the permissible increase in height on the street wall of the addition; that section 9d permits the erection of a tower not to exceed 25% of the area of the lot, to unlimited height, provided it is kept back the specified distance from the street; that the drawings contemplate such a tower on the addition, to permit the new elevators in addition to serve the 11th, 12th and 13th floors of the existing building; that in the event a separate building were erected on the inside plot in question and an application filed for the construction of a new building, the average excess height and tower privileges would be permitted under section 9e and therefore the addition should be considered as a separate building or unit; that the intent of the building zone resolution is to provide for a maximum of light and ventilation and the result being the same, the owner should not be penalized for owning both corner and inside plots, but should be permitted to do what any other owner of the inside plot would be permitted to do; that the addition is in fact a separate building, in that it is separated from the corner building by fire walls having a fire-resistive rating of four hours and the openings between the corner and inside buildings are protected by assemblies, having a fire resistive rating of three hours; that the examiner in the building department agreed that the above arguments had merit and suggested that inasmuch as objection 2 was to be presented to the Board, objection 1 should be included in the application; that there would be a great hardship on the owner if it were not permitted to start the setback at 8th floor and if it were not permitted to erect a tower upon the new addition on the 50 ft. plot on the east of the existing structure; that it is vital in the interests of the owner to have additional facilities and it would be impracticable to conduct its manufacturing business at another location or to acquire additional space in other buildings; that the district was still unrestricted when the company acquired the first vacant plot adjoining on the east; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, as to use, and that the applicant had substantiated a basis for appeal under section 21 of the zoning resolution, as to height and area and was therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution, and that the application be and it hereby is *granted* under sections 7c and 21 of the zoning resolution, to permit the extension in height, as proposed and as indicated on plans filed with this application marked "Received August 3, 1945", five sheets, and as to use, to permit manufacturing throughout the building *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

Appeal from Administrative Decision.

597-45-A

APPLICANT—The Queensboro Corp., for Garden Housing Corp., owner.

SUBJECT—Appeal from orders of the fire commissioner.

THE RESOLUTION (151-44-SA)

WHEREAS, the Nash Engineering Company, owner, filed on March 10, 1944, an application with the Board of Standards and Appeals for approval of the appliance known as the Jennings Sewage Ejector, Types A and B; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 151-44-SA October 2, 1945

Subject: Jennings Sewage Ejector, Types A and B, Approval of.

The Nash Engineering Company of South Norwalk, Connecticut, filed an application with the Board of Standards and Appeals under the mandatory requirements of C26-178.0, b for the approval of the Jennings Sewage Ejector, Types A and B, for use under C26-1316.0, Administrative Building Code, as amended by Local Law No. 30, approved by the Mayor on July 7, 1945.

DESCRIPTION

The Jennings Sewage Ejectors, Types A and B, vary only as to size; type B is manufactured in capacities of 30 and 50 gpm each and type A is made in capacities of 100, 150, 200, 250 and 300 gpm. The type B, owing to its smaller size, permits of the inlet and discharge connections and check valves to be arranged in the form of a header, in the type A units these connections are separate.

Essentially both types A and B consist of a cast iron ejector pot, called a receiving tank, operated by an air compressor. The pots are of close-grained gray cast iron, having a tensile strength of approximately 28,000 lbs. per sq. in. air tested for leaks after assembly to 60 lbs. per sq. in. They are of gas-tight construction. A gasketed, quick-opening manhole is fitted to the top of the pot. The following units are furnished with wall thickness and inlet and discharge connections as follows:

Pot Size	*Wall Thickness*	*Inlet & Discharge Sizes*		*Net Weights*
Type B 30 Gal.	7/16"	4"	4"	310 lbs.
Type B 50 Gal.	½"	4"	4"	490 lbs.
Type A 100 Gal.	½"	6"	6"	1150 lbs.
Type A 150 Gal.	¾"	8"	8"	1545 lbs.
Type A 200 Gal.	¾"	8"	8"	2045 lbs.
Type A 250 Gal.	⅞"	8"	8"	3000 lbs.
Type A 300 Gal.	⅞"	8"	8"	3000 lbs.

The inlet and discharge of the pots are fitted with special non-clog check valves designed and manufactured by The Nash Engineering Company, Inc. The clapper and clapper seat can be removed through a quick-opening handhole at the top of the valve body; the cover of the handhole is removable by loosening one bolt. These check valves have an iron body with bronze seat and flap.

The non-clog check valves are designed so as not to restrict free flow through the inlet and discharge connections. The largest spheres which can be passed by the valves are equal to the rated diameter; the actual diameter being larger. A 4" valve will pass a 4" sphere; a 5" valve will pass a 5" sphere; and so on.

A float-actuated switch mounted on the receiving pot acts as a pilot switch to control the automatic starter supplied with the motor driven compressor. The float-switch mechanism is a General Electric Cr-2931S-Cat. No. 2882397 of four-pole, toggle joint design, or equal. It is enclosed in a Nash housing of cast-iron construction. The switch is oil immersed and the housing is waterproof. The switch is actuated by a seamless copper ball 8" dia. fitted to a bronze float rod which passes through a gas tight stuffing box and is properly fastened to the float switch stem.

Air for blowing the pot is furnished by a Nash Hytor Air Compressor. It is of cast-iron or cast-iron bronze fitted construction, having a shaft on which is mounted the rotor supported by annular ball bearings. The compressor has one moving element, the rotor, which is circular, running without contact in its elliptically-shaped casing. The rotor is made of a number of blades which form chambers. Water in the casing revolves, being carried around by the rotor; centrifugal force makes the water follow the casing outline, so that twice in each revolution the water is forced into and then thrown out of each rotor chamber. As the water goes out, air is drawn into each chamber through the inlet ports. The air is carried around and as the water is forced back into the blade spaces, it is compressed and passed through the outlet ports. A constant volume of air is discharged free from pulsations. Nash Hytor Compressors are designed for operation at the higher motor speeds and are direct connected to the driving motor. When the compressor is at rest the seal water from a previous operation lies at the bottom of the compressor body and clears the top inlet and discharge ports. Taking advantage of this feature provides a means of venting the pots by permitting the air to blow back through the compressor.

At the compressor inlet is mounted a Nash Separator regularly supplied with a Nash Hytor Compressor. It traps out the water from the compressor body which may be thrown out with the air being vented from the pot.

Compressors are regularly furnished to deliver sufficient air to completely blow a pot in 30 seconds or less. Coupled with a filling time of 30 seconds, this gives a one-minute cycle and permits the capacity of the pots to be the rating of the ejectors in gallons per minute.

The air line between the compressor and the pots acts in a dual capacity: first, furnishing air under pressure for blowing the ejector during half of the cycle of operations and then venting the air to the regular vent. The air compressor may be said to float in the vent from the ejector pot.

The flow of water required by the Compressor for sealing is regulated by a solenoid-magnet-operated valve in the water-seal line. A positive break between the City water supply and the compressor is achieved by a water-seal tank. This tank provides for a small storage of water; flow into it is controlled by an inverted float valve.

Motors regularly furnished with the Nash Hytor Air Compressor always are of proper characteristics, sufficient capacity and rating that they will not be subjected to overloads or to the effect of undue heating. Controllers furnished with the motors provide overload protection through a thermal relay as well as under-voltage release.

PRINCIPLES AND CYCLE OF OPERATION

Pumping sewage by ejection from a receiving tank with a blast of compressed air is a practical method for this service. The applicant contends that no submerged, inaccessible working parts come in contact with dirt and grit. Any material will be pumped, without screening or separation, which can flow through the

inlet pipe adapting itself automatically to the rate of flow.

Air volume is always available indefinitely at the maximum rate. Air is alternately furnished under pressure and vented to the atmosphere through one pipe by one mechanism—the Nash Hytor Compressor. When discharging the pot, the compressor furnishes air under pressure to the ejector. When the pot is filling, and the compressor is at rest, air, displaced by incoming sewage, passes back through the compressor to the vent.

In the cycle of operation, sewage flows by gravity from its source into the pot through the inlet check valve. As the sewage accumulates, the float in the pot rises and, when the pot is full, the float at the upper limit of its travel actuates a float switch, starting the compressor. At the same time, the solenoid-operated valve opens, and a small amount of water required for operation is supplied to the compressor. While the compressor is running, air under pressure is delivered into the top of the pot, which expels the sewage through an outlet check valve, at the same time holding the inlet check valve closed. When the pot is empty, the float, having reached the lower limit of its travel, opens the float switch, stops the compressor and shuts off the supply of water. The compressed air in the pot is released by being vented back through the compressor. More incoming sewage displaces air directly through the compressor until the pot is again full, and the cycle of operation is repeated as frequently as the amount of sewage flowing requires.

TESTS

A test of a type A 100 gpm unit installed at the applicant's plant by Lawrence A. Teasdale, Licensed Professional Engineer, of Yale University Service Bureau, under date of August 24, 1945, to determine time required to empty a pot, also time required to vent the pot after emptying, with details and results as follows:

A duplex pneumatic sewage ejector as made by the Nash Engineering Company and designated by catalog data as a 100 g.p.m Jennings Pneumatic Sewage Ejector. The principal parts of the unit are two pots, two L2 air compressors, complete with separators, one seal water tank, necessary electrical controls, piping, valves and fittings. The rated capacity is given as 100 g.p.m against a 30 discharge head which includes friction head.

Detail of specification of pots, compressors and compressor motors is as follows:

Pots—Material cast iron:

Capacity, each pot 100 gallons (By actual measurement at time of test the capacity between cut-in and cut-out points of float switch was 99 gallons for the pot used in tests).

Compressors—2 L-2 Hytor units.
Capacity 56 c.f.m. of free air when discharging at 10 lbs. pressure requiring 5.25 brake h.p. Size of inlet and outlet 1½".

Compressor Motors—2 7½ H.P. operating at 1745 R.P.M. 20.1 amperes, 220 volts, 3 phase, 60 cycle alternating current.

Controls—By float actuated pilot switch and automatic starter. Separate float switch, starter and compressor for each pot.

Piping—Substantially as shown on Nash Engineering Company's sketch SK-1010 revised 1/11/38. For the test a second pressure gauge was installed on the left hand pot.

The unit was installed in the plant early in 1938. It handles all sanitary sewage from the main buildings where approximately 550 men and women office and factory employees are working. It takes discharge from all plumbing fixtures including those from floor drains and a cafeteria kitchen. Discharge is to a city sewage line several hundred feet away from the plant which is too high to permit gravity drainage.

Installation as made complies with local and State codes then in effect and is according to manufacturers general recommendations.

Conditions of the test cycles, called 1, 2 and 3 below, were substantially as follows:

In order to increase the speed of the operating cycle, one of the pots was valved off and this in turn made its compressor inoperative.

In order to further speed the operation, clean water was fed into the pot during the filling period.

During test cycle No. 4 no clean water was fed into the pot.

Two pressure gauges were installed. One on top of pot to indicate pressure at this point during filling discharge and venting. One on 1½" air discharge line between compressor and pot which also gave pressures during filling, discharging and venting. This gauge was the one used in timing. After the tests this gauge was calibrated and found to be correct within the limits used in test.

Voltmeter, two ammeters and a watt meter were connected to motor wiring.

For most of the test one man observed pressures and duration of discharge and vent periods; a second man took necessary electrical readings. A stop watch was used for timing. Time between tripping of float switch at high position to start compressor and tripping of float switch at low position to stop compressor was taken as time required to discharge. Time between tripping to stop compressor and instant when gauge reached zero point was taken as time required to vent pot.

All valves in piping connections to pot and compressor were wide open during cycles 1 to 4.

By a check made before actual tests it was found that actual volume of pot between cut-out and cut-in levels of float switch was 99 gallons.

Several trial runs were made before actual tests were made in order to observe operation of instruments.

From detailed tabulation below as a result of these tests it will be found that:

Time to empty pot was 21 seconds.
Time to vent pot was 5 seconds.

Since the gauge settled at about 7.5 lbs. during operation of compressor, the total head against which vent discharged was approximated 18 ft.

In cycle 4, when no clean water was added, there was no appreciable change in discharge or venting time.

Cycle	*Discharge Sec'ds*	*Vent Time Sec'ds*	*Voltage*	*K.W.*	*Amps.*	*Amps.*
No. 1	21	5	236	4.56	13.12	14.00
No. 2	21	5	232	4.48	13.28	13.85
No. 3	21	5	234	4.48	13.36	13.36
No. 4	20	5	231	4.48	Not taken	

After the tests, as described, were run, observation was made of the operation of a smaller single pot Nash pneumatic ejector adjacent to pattern shop. No stop watch was available at the time but check with second hand of pocket watch showed time to discharge equalled 17 seconds and time to vent approximately 4 seconds. This unit had a 1¼" vent connection.

Operating cycles of the 100 gallon unit with the hand valve in compressor discharge partly closed showed no appreciable difference in discharge and vent time until the valve was closed all but 1¾ turns when the discharge period was 32.5 to 34 seconds and vent period 6 seconds.

It should be noted that ejector under test was han-

dling its specified capacity, insofar as discharge rate was concerned, with only one pot in operation.

The applicant has also supplied data as follows: showing that the compressor connections meet the minimum venting requirements of the Administrative Building Code.

Ratings	*Head—in feet*	*Compressor* Inlet	Outlet
30 gpm, 50 gpm	All heads	1¼"	1¼"
100 gpm	to 55'*	1¼"	1¼"
150 gpm	to 28'*	1¼"	1¼"
200 gpm	to 10'	1½"	1½"
150 gpm	29' to 55' inc.	2"	2"
200	11' to 46' "		
250	to 36' "		
300	to 28' "		
200	47' to 51' inc.	2½"	3"
250	36' to 46' "		
300	29' to 41' "		
200	52' to 56' inc.	3"	4"
250	46' to 56' "		
300	42' to 56' "		

All ratings beyond the above will have compressor connections 3" or larger.

* One rating requires 1½" x 1½" because of available motor speeds.

A representative of the Committee on Tests has made inquiry of some 22 installations made in New York City and in each case satisfactory performance was reported.

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests recommends the approval of the Jennings Sewage Ejector, Types A and B in the capacities and when manufactured as described herein under the Board's authorization as provided in C26-191.0, when made and installed as prescribed in C26-1316.0 as amended by Local Law #30 approved July 7, 1945, and provided that each unit bear a label of non-corrodable metal with raised letters reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 151-44-SA."

(Sgd). BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Jennings Sewage Ejector, Types A and B, *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

164-44-SA

APPLICANT—Orr and Sembower, Inc., owner.

SUBJECT—O and S Powermaster Boiler and Oil Burner, Models AA3, B, AC5 and AC6, approval of.

APPEARANCES—
For Applicant: H. E. De Lamater.

ACTION OF BOARD—Appliance approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (164-44-SA)

WHEREAS, Orr and Sembower, Inc., owner, filed on April 7, 1944, an application with the Board of Standards and Appeals for approval of the appliance known as the O and S Powermaster Boiler and Oil Burner, Models AA3, B, AC5 and AC6; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS.

September 27, 1945.

Re: Cal. 164-44-SA.

Subject: O and S Powermaster Oil Burners and Boilers, Models AA3, B, AC5 and AC6, approval of.

Orr and Sembower, Inc., of Reading, Pa., filed an application with the Board of Standards and Appeals for the approval of their oil burners and boilers in sizes as listed herein under the requirements of C26-178.0b for use under Art. 12, Heating Appliances, Combustion and Chimneys and the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION.

The Powermaster Oil Burner and Boiler unit is intended primarily for industrial and commercial uses when quick steam generation is desired and consists of a three pass modified Scotch Marine type boiler unit and their Model B Powermaster Oil Burner unit for No. 3 oil or other approved oil burner for No. 5 or No. 6 fuel oil in horse power sizes as listed herein. The steel boiler is designed in accordance with the requirements of the ASME High Pressure Steam Boiler Code and includes all accessories and safety devices as required therein. The oil burners and nozzle capacities for use with the several boiler sizes are as follows:

H.P.	Gal. / hr.	HP	Gal. / hr.
6	2.5	30	10.5
10	3.5	40	15.0
15	6.0	50	18.0
20	7.0	60	21.0

Model B Powermaster oil burner is designed for use with oil fuel not heavier than No. 3 (flash point not exceeding 100 deg. F. when tested with a Pensky Martens closed tester) and for boilers having a horsepower not exceeding 40. For the horsepower sizes of 30 HP through 250 HP the applicant proposes to use an approved type of horizontal rotary burner of their own type or of other approved make. The oil for use in these larger size units is either No. 5 or No. 6 fuel oil. In each size, the nozzles, the fans and controls are of the required sizes and capacities. The applicant contends that the installation and equipment on both the boiler and the oil burner will comply with all the requirements of the Administrative Building Code and the Oil Burner Rules of the Board.

TEST.

A complete Powermaster unit Model AA Steam Generator with type B oil burner was submitted to a test at the Underwriters' Laboratories, Miscellaneous Petroleum 1434, Applic. No. 43C493B, report dated August 21, 1945 for intermittent and continuous operating periods for a period of 240 hours and it was found that the design, construction, material selection and workmanship on the complete unit was satisfactory. The safety attachments provided automatic ignition instantaneously at 70% normal live voltage with oil at 32°

F. and at room temperature with no extinguishment of flame by starting puffs or back drafts. The controls operated to shut down the burner in 91 seconds following ignition failure. The pilot light was not affected by starting puffs or back drafts. There were no explosions resulting from purposely delayed ignition. The controls shut the burner down within six seconds of flame failure with the combustion chamber hot and again when cold. The pressure control shut off burner before the steam pressure exceeded the maximum working pressure. The low water control actuates the feed pump, and in case of low water in the boiler stops operation until safe water level is restored. Throughout the test the burner designed for automatic ignition and automatic temperature control and for intermittent operation was found to be reliable in starting and continuity of operation.

The applicant has furnished a list of installations of these units. The Committee also inspected a typical installation, Model AA3, in Newark, N. J. at the plant of Morgan Clan Knitting Mills, which was found to be as described herein.

RECOMMENDATION.

On the basis of the foregoing data, the Committee on Tests recommends the approval of the Orr and Sembower Powermaster Boiler, Model AA Model B Oil Burner, in sizes up to 60 horsepower for use with No. 3 oil under the Board's authority as provided in C26-191.0a, when installed as required under Art. 12 of the Administrative Building Code and the Oil Burner Rules of the Board, and provided that the manufacture of the boiler and all of its appurtenances comply with the requirements of the ASME Boiler Code for High Pressure Steam Boilers. The Committee recommends that Model AA3 for No. 3 fuel oil, Model AC5 for No. 5 fuel oil and Model AC6 for No. 6 fuel oil and for horsepower of 40 to 250 be also approved, provided that whatever burner is used with any boiler unit, it shall be approved by the Board as suitable for this type of application and fuel oil. It is further recommended that each burner and each boiler bear a label or plate with raised letters on non-corrodible metal reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 164-44-SA."

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the O and S Powermaster Boiler and Oil Burner, Models AA3, B, AC5 and AC6, *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

492-45-SM

APPLICANT—Condensation Engineering Corp., owner.
SUBJECT—Vitroliner Type "E" Flue Pipe, approval of.
APPEARANCES:
For Applicant: None.
ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (492-45-SM)

WHEREAS, the Condensation Engineering Corp., owner, filed on July 2, 1945, an application with the Board of Standards and Appeals for approval of the material known as the Vitroliner Type "E" Flue Pipe; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

October 6, 1945

Re: Cal. 492-45-SM

SUBJECT: Vitroliner Type "E" Flue Pipe, approval of.

The Condensation Engineering Corporation of Chicago, Ill., filed an application with the Board of Standards and Appeals for the approval of their Vitroliner Type "E" Flue Pipe under the mandatory requirements of C26-178.0b for use in low, medium and high temperature chimneys up to 1400 deg. F. under C26-696.0c as a breeching or outlet pipe from gas, coal or oil fired heating furnaces to a legal chimney.

DESCRIPTION

The liner is made of welded seam cylindrical steel piping of the following gauges for sizes as listed as follows:

Diameter, In.	*Gauge*
5	22
6	22
7	22
8	20
9	20
10	20

The liner is fabricated in 24-in. lengths and has bell and spigot joints with a 2½ in. lap definitely determined by a bead and a bell. The upper section of the liner has a bead at each end which permits it to slip over the corresponding section. The manufacturer establishes the length of the lower section to provide a minimum of 4 in. overlap at this joint. After fabrication, the piping receives a two-coat acid-resisting vitreous enamel finish fired at a temperature of not less than 1550 F. The coating contains not less than 0.4 per cent cobalt. Its thickness is not less than 0.010 in. and not more than 0.018 in. The manufacturer's specification for this coating requires it to conform to Class A according to the Porcelain Enamel Institute test for acid resistance, April 1, 1940. The insulating jacket consists of a material, identified as No. 343 Fyrex, consisting of eight layers of corrugated asbestos paper held together with silicate of soda. Each corrugation is approximately ⅛ in. thick. The inner and outer layers are heavy weight high-temperature asbestos paper. The jacket is nominally 1 in. thick, formed cylindrically and seamless. The usual length is 21⅝ in. It may also be supplied in 36 in. lengths. The lengths of insulation are proportioned so that the joint comes approximately 2½ in. below the bell end of the liner and not flush with the end of the liner. The outer enclosure is welded-seam cylindrical steel piping No. 24 gauge in diameters of 8, 9, 10, 11, 12 and 13 in. It is fabricated in 24 in. lengths and has bell and spigot joints with a 2½ in. lap determined by a bead and bell. After fabrication, the piping receives a 0.005 in. thick coat of acid-resisting vitreous enamel fired at 1550 F.

TESTS

Tests were made at the Underwriter's Laboratory as reported in their report Misc. Haz. 2962 Applic. #43C34A, to determine whether hazardous temperatures would develop on the flue surface or on com-

bustible material adjacent to the flue pipe under severe firing conditions which may be encountered in service. The size of flue tested was 8″ in diameter erected in a simulated single story wood structure, sloping roof type, with completely enclosed attic of small volume. The structure was 7′ long, x 6′ wide, ceiling 5′3″ from the floor. The heating device was gas fired with a metal hood over the burner telescoped the flue inlet about four inches. Thermocouples were located as follows:

Couple No.	*Location*
1	Inlet flue gas—ceiling level—center of liner
2	Outlet flue gas—roof level—center of liner
3	Outlet flue gas—roof level—center of liner
4	Liner—lower joint
5	Liner—center joint
6	Between liner and asbestos—top section
7	Inside surface of asbestos—near lower joint
8	Inside surface of asbestos—near center joint
9	Outside surface of asbestos—near lower joint
10	Outside surface of asbestos—near center joint
12	Under pad—bottom section
13	Under pad—center section
14	Under pad—top section
15	Surface of outer cover—bottom section
16	Surface of outer cover—center section
17	Surface of outer cover—top section
18	On 1 by 4 at roof
19	On 1 by 4 at roof
20	On 1 by 4 at roof
21	On 1 by 4 at roof
22	Inside of flue support at ceiling
23	Underside of flashing plate
24	Between flue support and ceiling
25	On ceiling adjacent to flue support
26	Under shingles—2 in. from pipe
27	Under shingles—3 in. from pipe
28	Under shingles—4 in. from pipe
29	Against roof sheathing under flashing plate
30	Attic—10 in. from flue—near roof
31	Attic—10 in. from flue—18 in. below 30
32	Attic—10 in. from flue—18 in. below 31.

Temperatures at the four corners of the structure 1 ft. from the ceiling were taken with thermometers.

RESULTS

The following table records the maximum temperatures measured in tests A, B, C and D:

Thermocouple No. 1	*Location*	*Temperature F Test A*	*Test B*	*Test C*	*Test D*
1	Inlet flue gas—ceiling level...	1060	1410	1040	1400
2	Outlet flue gas—roof level...	805	1080	823	1155
4	Liner—lower joint	703	979	710	995
5	Liner—center joint	648	915	702	990
7	Inside surface of asbestos—near lower joint.....	543	818	647	930
8	Inside surface of asbestos—near center joint	556	795	600	852
9	Outside surface of asbestos—near lower joint	250	365	283	408
10	Outside surface of asbestos—near center joint	245	333	252	350
12	Under pad—bottom section...	253	356	243	367
13	Under pad—center section ...	243	349	268	390
14	Under pad—top section	261	370	324	478
15	Surface of outer cover—bottom section	215	298	212	295
16	Surface of outer cover—center section	216	292	222	305
17	Surface of outer cover—top section	219	292	252	350
18	On 1 by 4 wood at roof.....	142	181	170	242
19	On 1 by 4 wood at roof.....	120	150	125	160

25	On ceiling—adjacent to flue support	120	144	106	137
26	Under shingles—2 in. from pipe	140	182	156	218
27	Under shingles—3 in. from pipe	140	182	156	218
28	Under shingles—4 in. from pipe	136	170	146	200
29	Against roof sheathing under flashing plate	140	178	158	220
30	Attic—near roof—10 in. from flue	122	152	128	170
31	Attic—18 in. below. No. 30..	140	160	165	—
32	Attic—18 in. below No. 31..	110	132	110	135

	Test A	*Test B*	*Test C*	*Test D*
Duration	3 hr. 10 min.	1 hr.	3 hr. 45 min.	1 hr. 5 min.
Room	76 F	76 F	68 F	68 F
Max. temp on roof wood	140 F	181 F	175 F	268 F
Temp rise on roof wood	64 F	105 F	107 F	200 F
Max temp on shingles...	140 F	182 F	156 F	218 F
Temp rise on shingles...	64 F	106 F	88 F	150 F
Max temp on ceiling wood	120 F	145 F	113 F	152 F
Temp rise on ceiling wood	44 F	69 F	45 F	84 F
Max outer cover temp (under pad)	261 F	370 F	324 F	478 F
Max outer cover temp (uncovered surface) ..	219 F	298 F	255 F	350 F
Max insulation temp (inside surf.)	556 F	818 F	647 F	930 F
Max liner temp	703 F	979 F	710 F	995 F

An analysis of these figures shows that:

Test A—With a flue inlet temperature maintained as high as 1000 F for an extended period, wood parts of the roof, shingles on the roof, and wood parts of the ceiling do not exceed a temperature rise of 64 F above room temperature.
Under this condition, the surface temperature of the flue in the attic against which combustibles may come in contact reached 261 F as measured under a pad, and 219 F on the uncovered surface.
Test B—Under short duration abnormal heating sufficient to provide a 1400 F flue temperature as long as 1 hr., wood parts of the roof, shingles on the roof, and wood parts of the ceiling do not exceed a temperature rise of 106 F above room temperature.
Under this condition, the surface temperature of the flue in the attic against which combustibles may come in contact reached 370 F measured under a pad, and 298 F on the uncovered surface.

Note: Tests C and D involve an assumption that after aging and subjection to high temperatures, the insulation may "shake-down" or settle to a point below the roof level. A consideration of the support provided

by the liner and cover and of the properties of the insulation hardly substantiate such an assumption. However, in the interests of safety, Tests C and D were conducted to determine the performance of the assembly should this condition arise after years of service.

Test C—Under extended firing at 1000 F. with the insulation removed below the roof line, wood parts of the roof, shingles on the roof, and wood parts of the ceiling do not exceed a temperature rise of 107 F. above room temperature.

Under this condition, the maximum surface temperature of the flue in the attic reached 324 F under a pad, and 252 F on the uncovered surface. These temperatures were measured in the top of the flue near where the insulation was removed. Toward the bottom of the flue against which combustible material is more likely to be placed, the respective temperatures were 268 F and 222 F.

Test D—This test with insulation removed below the roof line, with flue temperatures maintained at 1400 F for 1 hr. and with a totally sealed attic, constituted a more severe test condition than would ever be encountered in the field. It was desired to determine the effect of such condition, however.

The results showed that the wood parts of the roof, shingles on the roof, and the wood parts of the ceiling do not exceed a temperature rise of 200 F above room temperature. There was no evidence of smoking or decomposition during this test.

The data show that the inside attic temperature, 10 in. from the flue, reached 170 F during the test. In this test, while the maximum surface temperature of the flue reached 478 F under a pad, and 350 F on the uncovered surface at the top of the flue near where the insulation was removed, the temperatures lower down were 367 F and 295 F, respectively.

After the completion of the above tests and those previously conducted on the same assembly, the flue insulation was carefully examined for evidence of ignition of combustible material and deterioration due to high temperatures. The insulation at this time had been subjected to 36 hour exposure at flue temperatures of 1000-1400 F. The examination showed no indication of serious deterioration.

To determine the amount of combustible material in the insulation, three 5-g samples of asbestos were cut at random from the outer jacket, and similar samples from the interior of the insulation. The samples were dried to constant weight, in a weighed crucible at a temperature of 100-105 C, ignited in an electrically heated muffle furnace, cooled in a desiccator, and weighed. The residue was computed as ash on the basis of the moisture-free sample.

A segment was cut from a full length of insulation, placed in the muffle furnace, and baked for 24 hr. at a temperature of 1000 F. It was then examined for evidence of brittleness, powdering, and other structural weakness.

RESULTS: The ash content of the jacket was 85.5 per cent and of the interior insulation was 84.2 per cent. An examination of the sample after 24 hr. at 1000 F. showed some indication of brittleness. The sample was structurally intact and apparently was not greatly affected.

The vibration test was made after the assembly had been tested for 36 hr. at flue temperatures of 1000 F—1400 F, an air hammer was applied to the bottom section of the assembled flue for several minutes. This resulted in violent, low amplitude vibration of the structure. Observations were made to detect evidence of insulation breakdown, powdering, or settling. The vibration had no apparent effect on the assembly. There was no settling of the insulation.

RECOMMENDATIONS

On the basis of the foregoing data, the Committee on Tests recommends the approval under C26-191.0,a of the Condensation Engineering Corp's Vitroliner Type "E" Flue Pipe, fittings and accessories for use as an outlet pipe or breeching from gas, coal, oil or wood fired heating units to legal chimneys for low, medium or high temperature work not exceeding 1400 deg. F. in diameters of 5, 6, 7, 8, 9 and 10 inches provided that the flue pipe fittings and accessories be marked or labelled reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 492-45-SM."

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (513-45-A)

WHEREAS, Stein-Davies Company, owner, filed August 7, 1945, an appeal from a decision of the fire commissioner, affecting 11-48 47th road, south side, 90 ft. west of 21st street, and 11-35 48th avenue, north side, 117.83 ft. east of Jackson avenue (1st, 2nd and 5th floors); (Block 59, Lots 2 and 23), Long Island City, Borough of Queens; and

WHEREAS, the decision of the fire commissioner dated August 1, 1945, reads:

"This will acknowledge receipt of your letter of July 18th, wherein you request a permit for employees to smoke in designated areas of your factory building situated at the above mentioned premises.

"You are advised that your request must be denied for the reason that smoking is prohibited by mandatory

provisions of the Labor Law and the Rules of the Board of Standards and Appeals.

"You may appeal this decision within 30 days to the Board of Standards and Appeals, Room 1015, Municipal Building Manhattan."

and

WHEREAS, the applicant states the building is 50 and 75 ft. front, by 100 ft. in depth, five stories (58 ft.) in height; of Class 1 construction; erected 1920 and 1939; located in an unrestricted use, A area and Class 2 height district and used and occupied as follows: basement, manufacture of glue and inflammable mixtures, 5 persons; 1st floor, manufacture of glue and starch, 8 persons; 2nd floor, starch storage and office, 15 persons; 3rd floor, starch and food mixing, 4 persons; 4th floor, starch and food storage, 4 persons; 5th floor, laboratory, 12 persons; that the building is equipped with three 4 ft. wide fireproof stairs from the street to the roof; and

WHEREAS, the applicant states the permission is requested to smoke in the locker rooms located on the 2nd floor, laboratory and office located on the 2nd floor, laboratory located on the 5th floor and machine shop located on the ground floor; and

WHEREAS, the applicant contends that employees are permitted two rest periods, of 10 minutes each, one in the morning and one in the afternoon; that at this time they are obliged to step outside of the building to smoke; that this is an unsatisfactory arrangement, as it is difficult to check on the men wandering about in this fashion; it is therefore requested that the Board vary the provisions of the Labor Law, so as to permit smoking in the areas requested.

Resolved, that the decision of the fire commissioner, dated August 1, 1945, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

584-45-A

APPLICANT—Ethel Pheffer, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1070 Bruckner boulevard (formerly 1066 Whitlock avenue), south side, 134.99 ft. east of Bryant avenue (Block 2755, Lot 40), Borough of The Bronx.

APPEARANCES—

For Applicant: Frank A. Amuso.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.... 4

Negative 0

THE RESOLUTION (584-45-A)

WHEREAS, Ethel Pheffer, owner, filed September 27, 1945, an appeal from a decision of the borough superintendent, affecting premises 1070 Bruckner boulevard (formerly 1066 Whitlock avenue), south side, 134.99 ft. east of Bryant avenue (Block 2755, Lot 40), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated September 22, 1945, on N.B. Applic. 55-45, reads:

"1. No gasoline service station may be erected in a street between two intersecting streets where there is a park. Sec. 7G and Section 21-A, Zoning Resolution."

and

WHEREAS, the applicant states that the building is 20 ft. by 14 ft. 3 in. in area, located on a lot 112 ft. by 34 ft. in area, 1 story (16 ft. 8 in.) in height, of Class 3 construction, erected in 1923, located in an unrestricted use, B area and Class 1½ height district; now vacant and proposed to be altered and used and occupied as a gasoline service station with lubritorium; and

WHEREAS, the applicant contends that the premises consist of an irregular shaped plot fronting 112 ft. on Whitlock avenue and 4.75 ft. on Longfellow avenue; that a public garage and gasoline service station was erected on the plot prior to 1925 and were continuously operated with proper licenses and permits until June 28, 1938, when a major portion of the plot was acquired by the City of New York for the widening of Whitlock avenue; that while said public garage and gasoline service station were being operated, the park for which the objection has been issued, was in existence; that under Cal. 300-41-A, the Board granted permission to occupy the bed of a mapped street for the construction of the gasoline station, which was delayed because of the National Emergency; that the Department of Housing and Buildings extended the permit for one year and on October 6, 1943, a further extension was refused; that the plot was fenced in at the request of the Department of Housing and Buildings and also some of the remaining structure was taken down and both requests were complied with at a cost of $350; that the neighborhood has not changed since the previous appeal, except that the proposed street has been withdrawn; that the borough superintendent has no authority to invoke or render any objection pursuant to section 7G of the Zoning Resolution and is therefore invalid; that section 21-A applies to new uses only and has no application to a continuation or extension of a prior and same use; that a public garage and gasoline service station was operated on the same corner with the park as it is now located, from prior to 1925 until the condemnation proceedings for the widening of Whitlock avenue; that under Cal. 300-41-A the Chairman stated "in any event this is not an extension of a new use; it's the same use continued. There is nothing in section 21 that refers to an extension . . ."; that if the objection of the borough superintendent is sustained, the applicant would be penalized on account of the National Emergency; and

WHEREAS, the Board found under Cal. 300-41-A that the gasoline service station had been established for a number of years and was not a new gasoline station and that Section 21A has no prohibition against an extension of an existing gasoline service station.

Resolved, that the decision of the borough superintendent acting on N.B. Applic. 55-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the gasoline service station shall comply with all laws, rules and regulations applicable thereto.

589-45-A

APPLICANT—New York City Housing Authority, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—Flushing avenue to Myrtle avenue, between Marcy and Nostrand avenues (Marcy Houses); (Blocks 1719 and 1738, Lots 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Louis S. Joseph.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (589-45-A)

WHEREAS, the New York City Housing Authority, owner, filed September 27, 1945, an appeal from a decision of the borough superintendent, affecting premises: Flushing avenue to Myrtle avenue, between Marcy and Nostrand avenues (Marcy Houses); (Block 1719, Lot 1 and Block 1738, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent on N.B. Applications 36 to 62-45, dated March 26th and March 27th, 1945, as amended April 25th and September 20, 1945, reads:

"3. Comply with Section 8.5.26.1, as to minimum dimensions of reinforced concrete columns.

6. Provide 4 in. fireproof recess for incinerator opening on public stair hall and public halls and doors for same to be 1 hour test S.C.F. Door and trim."

and

WHEREAS, the applicant states that the project will consist of 27 six story multiple dwellings, of class 1 construction, located in an unrestricted and business use, B area and Class 1½ height district; that each building unit will be equipped with a 3 ft. 3 in. wide steel and concrete stairs, enclosed in 6" tile, located at center of unit and extending to the roof bulkhead and leading directly to the street, and equipped with one hour fireproof self-closing doors; and

WHEREAS, the applicant contends as to objection 3, that the ACI on February 20, 1941 adopted standard "Building Regulations for Reinforced Concrete" (318-41), which reflects later thinking in the field of concrete and reinforced concrete than the current New York City Building Code; that section 1101 of the ACI "Building Regulations for Reinforced Concrete" (318-41), states that principal short columns in buildings shall have a minimum diameter of 12 inches, or in the case of rectangular columns, a minimum thickness of 10 inches, and a minimum gross area of 120 sq. in.; that it is proposed to use principal short columns having a minimum dimension of 11½ in., square columns having, therefore, a gross area of 132 sq. in., which are above the minimum adopted by the ACI and providing adequate safety; that the use of 11½ inch columns will prove considerably more economical and practicable, by the elimination of waste in the construction of the forms and by providing more available space; as to objection 6, that the incinerators are of a non-fuel fired type and not subject to the same degree of heat or fire hazard as fuel oil fired incinerators; that the incinerator openings will be provided with self-closing hopper doors and frames having a one hour fire test rating and therefore it is unnecessary to add further protection; that in buildings where protective doors have been installed, said doors have been a continual nuisance to the tenants, by interfering with the convenient operation of the hopper door and cause the spilling of refuse, creating an unsanitary condition and people's clothes become soiled, as they must lean against the protective door to hold it open; that in general, this additional door is very impractical and in addition, all the buildings in question will be class 1 fireproof structures; and

WHEREAS, the columns in question are proposed to comply with Section 1101 of the ACI standard Building Regulations for Reinforced Concrete (318-41), which was approved on February 20, 1941, and ratified July 21, 1941, and are proposed to comply with the reinforcement requirement of the Building Code.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 36 to 62-45, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to objection 3, *on condition* that the columns shall be designed and constructed as proposed and shall comply with all other requirements of the Code; and as to objection 6, *on condition* that the proposed incinerator hopper assembly shall be of the type as approved by the Board, as meeting the test requirements for one-hour rating and that in all other respects, the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto, including the provisions of the Multiple Dwelling Law, requiring fireproof doors to be installed between the stairhall and the public hall on all stories.

590-45-A

APPLICANT—Frank S. Parker, for Directory of Church Wardens & Vestrymen of Trinity Church, owner (King Street Garage, Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—80-86 King street, south side, 150 ft. west of Varick street and 71-77 Charlton street (2nd floor); (Block 580, Lot 52), Borough of Manhattan.

APPEARANCES—

For Applicant: Frank S. Parker.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (590-45-A)

WHEREAS, Frank S. Parker, for Church Wardens & Vestrymen of Trinity Church, owner (King Street Garage, Inc., lessee), filed September 28, 1945, an appeal from a decision of the borough superintendent, affecting premises 80-86 King street, south side, 150 ft. west of Varick street and 71-77 Charlton street (2nd floor); (Block 580, Lot 52), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 1539-45, dated September 25, 1945, reads:

"1. Building should comply with Sec. 270 Labor Law.

a. Two exits remote from each other should be provided from 2nd floor, consisting of enclosed fireproof stairways or such a stairway and a horizontal exit, with min. width of 44 in.

b. Treads of stairs should not be less than 10 in. wide, exclusive of nosing and risers should not be more than 7¾ in.

c. Doors opening on stairway should have a minimum width of 44 in.

d. No point in any floor area should be more than 100 ft. distant from an exit."

and

WHEREAS, the applicant states the building is 2 stories (34 ft.) in height; 100 ft. by 201 ft. 6 in. in area; of Class 1 construction; erected in 1924; located in an unrestricted use, A area and Class 2 height district, and used and occupied as follows: Cellar, boiler room; 1st floor, garage for more than 5 cars, 2 persons; mezzanine, vacant; 2nd floor, garage for more than five cars; that it is proposed to be used and occupied as follows: basement, boiler room; 1st floor, storage garage, body and auto repair shop, 25 persons; mezzanine, storage and office, 2 persons; 2nd floor, storage garage, 2 persons; that the building is equipped with an approved fire alarm system; that there is one interior stair, 3 ft. 8 in. wide, constructed of reinforced concrete, enclosed in 8 in. brick, equipped with metal covered self-closing door, and leading from the roof to the street; and

WHEREAS, the applicant contends that the building as originally built was constructed as a storage garage, and under the new occupancy, the 2nd floor will still be used solely as a storage garage and there are no alterations contemplated to this floor; that the occupancy of the 2nd floor will be two persons; that the building as originally built, had two means of egress, one an enclosed stairway and the other a ramp, which is entirely separated with fire walls from the first floor; that the occupancy of the 2nd floor will be of no greater hazard than heretofore; that to install an additional stairway to the 2nd floor would seriously obstruct the use of the floor; it is therefore requested that the continued use of the existing stairway be permitted, as now constructed and which has been in use for over 20 years.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1539-45, objection 1a, 1b, 1c and 1d, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the primary means of exit from the second story, leading directly to King street, shall be maintained as shown and proposed; that the door from the second story, leading thereto, shall be not less than 3 feet in width; that a secondary means of exit from the second story shall be provided, which may consist of an exterior balcony on the Charlton street side, with a counterbalanced stair to the street; and that the existing ramp may be maintained, but shall not be deemed as meeting the requirements for exit; that in all other respects, the requirements of all laws and rules relating to the building and occupancy shall be complied with.

MINUTES

592-45-A

APPLICANT—Burros Bag Co., Inc., lessee, for Dom Ben Realty Corp., owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—135 Plymouth street, northeast corner of Adams street (1st floor); (Block 18, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Louis K. Bleecker.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (592-45-A)

WHEREAS, Burros Bag Company, Incorporated, lessee, for Dom Ben Realty Corporation, owner, filed on September 28, 1945, an appeal from an order and decision of the fire commissioner, affecting 135 Plymouth street, northeast corner of Adams street (1st floor); (Block 18, Lot 1), Borough of Brooklyn; and

WHEREAS, Order 15230-LF, issued by the fire commissioner, dated June 6, 1945, reads:

"1. Arrange wire mesh on all windows on the 1st story so as to be readily movable or removable from both sides in such a manner as to afford the free and unconstructed use of such windows for the purpose of egress, as per Sec. 272 of the Labor Law."

and

WHEREAS, the decision of the fire commissioner, issued August 31, 1945, reads:

"In response to your request of this date for rescindment of Order 15230-LF and the reissuance of same for the purpose of filing an appeal, I regret to advise you that your request is denied. However, you may appeal from this denial to the Board of Standards and Appeals."

and

WHEREAS, the applicant states the building is 7 stories (85 ft.) in height; 200 ft. by 200 ft. in area; of Class 3 construction; erected 1890; located in an unrestricted use, A area and Class 2 height district, and used and occupied since 1934 as follows: 1st floor, loading and storage of burlap bags, 4 persons; 2nd floor, manufacture of burlap bags, 40 persons; 3rd floor, same, 30 persons; 4th floor, cabinet making, 35 persons; 5th floor, toy manufacturing, 100 persons; 6th floor, manufacture of footwear, 100 persons; 7th floor, textile screen printing, 4 persons; that the building is equipped with an approved sprinkler system, standpipe system and interior fire alarm system and that fire drills are maintained; that there are two interior fireproof stairs 8 ft. wide, of concrete and steel construction, enclosed with fireproof brick, and equipped with fireproof metal doors, extending to the roof by a scuttle and leading directly to the street; that there is one fire escape leading to the roof by a ladder and to the street by a ladder; that windows and door openings along the courses of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the 24 screens involved are attached on the outside of the windows in question located on the portion of the premises occupied by the applicant, on the ground floor of the building; that each window is approximately 4 ft. by 10 ft.; that the screens were so attached at the time the lessee moved in the premises nine years ago; that the screens were in the same condition as they are now and fastened in the same manner; that the purpose of the maintenance of screens in the manner indicated is for protection against intruders; that the ground floor is used for storage and warehouse purposes and for shipping and receiving; that there is a large truck entrance and loading platform in the front on Plymouth street, which is open all day and affords a means of entrance and exit to employees working on that floor; that there is another exit on the Adams street side of the building, which is a regular stairway exit; there is also a railroad siding in the center of the building, leading from Adams street, which is open all day and also affords a means of exit and entrance; that there are only 4 employees working on the ground floor and at no time can it become necessary for them to use the windows for an exit or entrance; that it is not possible to attach the screens to the inside of the windows instead of the outside, because it would not be possible to open them from the inside, because of the storage work done on this floor; that it is not practical to put locks on the screens on the outside, because of the size of the screens and windows; that to take the screens off the windows entirely is not advisable, because of the possibility of burglaries and damage to windows and merchandise.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor law, as cited in Order 15230-LF of the fire commissioner, and that the appeal be and it hereby is *granted,* as to Item 1, *on condition* that the exits, as indicated on plans filed with this appeal, marked "Received September 28, 1945", giving direct access to the three streets, shall be maintained available at all times while the building is occupied; that this variation applies only to that portion of the first floor occupied by the Burros Bag Company, Inc.; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

595-45-A

APPLICANT—Lama & Proskauer, for Marie Atherton, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—87-24 to 87-38 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (1st floor); (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (595-45-A)

WHEREAS, Lama and Proskauer, for Marie Atherton, owner, filed October 2, 1945, an appeal from a decision of the borough superintendent, affecting premises 87-24 to 87-38 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (1st floor); (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 74-45, dated September 20, 1945, reads:

"1. Area of building exceeds the maximum permitted in non-fireproof construction—Section 4.2.1 of the Building Code."

and

WHEREAS, the applicant states that the building will be one story (13 ft.) in height, 160 ft. by 100 ft. in area, of Class 3 construction, located in a business use, C area and Class 1½ height district and used and occupied: cellar, ordinary use; 1st floor, public garage and gasoline service station, 4 persons; that no change in use or occupancy is proposed; and

WHEREAS, the applicant contends that the premises has a frontage of 160 ft. on Lefferts boulevard and 93 ft. 10 in. in depth; that it is proposed to construct a one-story building occupying the entire plot, with the exception of an open area 30 ft. by 108 ft. to be used as a gasoline service station; that permission is requested to permit the construction of a Class 3 one-story building, as granted by the Board under Cal. 95-45-BZ; that the total area of the

building is 11,700 ft., which includes the two extensions on the north and south, measuring 26 ft. by 30 ft. housing a lubritorium and brake testing machine; that the main garage will be separated from the lubritorium and brake testing machine by masonry wall and steel sashes, cutting the area from 11,700 ft. to 10,140 sq. ft.; that inasmuch as the exceeded area is approximately 2640 ft., it is requested that this appeal be granted; and

WHEREAS, the Board under Cal. 95-45-BZ, granted on certain conditions, a zoning variance, to permit the building as proposed, to cover the area shown on plans filed with that application marked "Received February 23, 1945", replacing existing buildings of substantially similar area.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 74-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the separation shall be maintained between the lubritorium and lift sections and the main building, as proposed; that the building shall not be increased in height and area; that the ceiling throughout shall be fire-retarded; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 95-45-BZ.

601-45-A

APPLICANT—Arthur F. Winter, for Adda Inc., owner (F. W. Woolworth Co., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—1514-1530 Broadway, east side, from West 44th to West 45th streets and 155-169 West 44th street (basement and sub-basement); (Block 997, Lots 1, 6, 9, 54 and 57), Borough of Manhattan.

APPEARANCES—

For Applicant: C. E. Arthus and Robert Jahelka.
For Administration: Peter Maher, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (601-45-A)

WHEREAS, Arthur F. Winter, for Adda, Inc., owner (F. W. Woolworth Co., lessee), filed October 10, 1945, an appeal from an order and decision of the fire commissioner, affecting premises: 1514-1530 Broadway, east side, between West 44th and West 45th streets and 155-169 West 44th street (basement and sub-basement); (Block 997, Lots 1, 6, 9, 54 and 57), Borough of Manhattan; and

WHEREAS, Order 35387-LF, issued by the Fire Commissioner, August 3, 1945, reads:

"1. Provide a fixed fire extinguisher system or other means for the extinguishment of fire satisfactory to the Fire Commissioner in cellar and sub-cellar storage areas occupied by the F. W. Woolworth Co. C19-161.0. Adm. Code."

and

WHEREAS, reconsideration of above order was denied by decision of Fire Commissioner, dated September 13, 1945; and

WHEREAS, the applicant states the building is 3 stories (44 ft.) in height, 203 ft. 9¼ in. by 202 ft. 8½ in. in area; Class 1 construction; located in a retail use, B area and Class 2 height district; erected in 1936 and used and occupied since as follows: Sub-basement, storage, 1 person; basement, stores, kitchen, mechanical euipment, girls' rooms and storage, 52 persons; 1st floor, store, 150 persons; 2nd floor, store, 200 persons; 2nd mezzanine, interviewing office, 10 persons; 3rd mezzanine, alteration dept., 30 persons; that no change in use or occupancy is proposed; that the building is equipped with an approved standpipe system, interior fire alarm system and that fire drills are maintained; that there are two interior stairs at the center and rear, 3 ft. 8 in., 4 ft. and 8 ft. wide, of steel and concrete construction, enclosed with terra cotta, equipped with hollow metal, self-closing doors, leading directly to the street; and

WHEREAS, the applicant contends that as indicated on plans filed with this appeal, "A" is a fireproof 3 ft. 8 in. wide stairway, equipped with self-closing, fireproof doors, running from sub-basement to grade on West 44th street; "B" is a fireproof 4 ft. wide stairs, equipped with self-closing doors, running from sub-basement to basement; "C" is a fireproof 3 ft. 8 in. stairs, equipped with self-closing, fireproof doors, running from sub-basement to the first floor mezzanine; "D" is an accommodation 8 ft. wide stairway, running from the rear of the basement sales floor to the first floor; "E" is an accommodation 8 ft. wide stairway, running from the center of the basement sales floor, to the first floor, terminating directly back of the store entrances on Broadway; "F" is a freight elevator, running from the sub-basement to grade on West 44th street; that mechanical ventilation is provided for these areas; that there is a fireproof enclosed room used for the storage of baled paper which is baled every night; this room is equipped with self-closing doors; that this area is for receiving and marking merchandise before it is stored in stock bins; that there are fire pails provided at the ends of all stock bins and fire extinguishers on both floors; there is an approved standpipe system in each stairway on both floors; that all aisles are 3 ft. wide or more and kept clear at all times; that the merchandise carried on premises is common to this type of occupancy; that applicant feels that adequate fire protection has been provided in these areas and requests this order be rescinded.

Resolved, that Order 35387-LF of the Fire Commissioner, Item 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

604-45-A

APPLICANT—Samuel Rosenblum, for Rose Packer, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1740 Bathgate avenue, east side, 51.19 ft. north of East 174th street (1st floor); (Block 2922, Lot 4), Borough of The Bronx.

APPEARANCES—

For Applicant—Samuel Rosenblum, Monroe Goldwater and Oliver T. Cowan.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (604-45-A)

WHEREAS, Samuel Rosenblum, for Rose Packer, owner, filed October 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 1740 Bathgate avenue, east side, 51.19 ft. north of East 174th street (1st floor); (Block 2922, Lot 4), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated October 4, 1945, on B. N. Applic. 467-45, reads:

"1. Proposed use of store in a business district as a retail rental laundry, is contrary to Art. 2, Section 4(a) (51) of the zoning resolution."

and

WHEREAS, the applicant states the building is one story (15 ft.) in height; 50 ft. by 75 ft. in area; of Class 3 construction; erected 1925; located in a business use, D area and Class 1½ height district and used and occupied as stores since 1925 and that it is proposed to be used and occupied as follows: cellar, storage; 1st floor, south half, dry goods store, 4 persons; north half, retail rental self-service laundry, 2 persons; and

WHEREAS, the applicant contends that the type of occu-

pancy proposed does not come within the purview of the intent of Section 4(a)(51) of the zoning resolution, and is actually a type of business similar to other uses that are permitted in a business district; that the northerly half of the building is to be occupied as follows: a series of individual automatic self-service machines are to be installed and operated as a retail rental laundry; that the place is to be under the supervision of attendants and the public will serve themselves by dropping a 25¢ coin in this automatic machine and then sit by, while the machine does the laundry; that these machines are not noise making or obnoxious in any way; that there are no wagons depositing bundles of clothing, nor is there any steam or power plant in use; that in a business district, machines and apparatus can be used in operating a factory, lathes, milling machines, electro-plating machines and similar apparatus are all permissible, just as long as they do not create any odor or dust, smoke, gas or noise; that the prohibition in the zoning law was intended to prohibit obnoxious occupancy, where a steam plant would be in operation with chimney flues and boiler flues; that the very grouping of steam or wet wash laundry with the other types of businesses enumerated in Section 4(a), indicates the type of occupancy it was intended to prohibit; that the occupancy proposed in this installation has none of the attributes of the industries enumerated in Section 4(a); that one cannot conceive that it a woman brings in a 10 lb. bundle of clothes, places it in this machine which cleanses and rinses the garments and releases them damp dry, should be construed as the same type of occupancy which it was intended to prohibit under Sec. 4(a); that under date of March 16, 1920, under Cal. 549-17-BZ the Board of Appeals, amended a resolution as to the status of community laundries in business districts and held that while a laundry was a factory within the meaning of the Labor Law, under the provisions of Section 4 of the zoning resolution, it was not a prohibited use; that the proposed Bendix automatic machine has a cylinder only 20 in. in diameter and a depth of 12 in. which is considerably less than the size of the apparatus mentioned in the resolution adopted under Cal. 549-17-BZ; that the purpose of the zoning resolution is to protect life and to eliminate menaces to health and property; that to limit uses which it was never the intention to limit, goes beyond the purpose of the zoning resolution.

WHEREAS, the Board deemed that under the provisions of the Zoning Resolution, Article II, Section 4(a), Paragraph 51, the use as proposed constitutes a wet wash laundry within the meaning of the section and that the request for an interpretation, holding otherwise, should be denied.

Resolved, that the decision of the borough superintendent acting on B.N. Applic. 467-45, objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

606-45-A

APPLICANT—James McCreery and Company, lessee, for Adrico Realty Co., owner.

SUBJECT—Appeal for an order of the fire commissioner.

PREMISES AFFECTED—1½-9 West 34th street, north side, 150 ft. west of 5th avenue and 4-22 West 35th street (Block 836, Lots 26 and 54), Borough of Manhattan.

THE RESOLUTION (606-45-A)

WHEREAS, James McCreery and Company, applicant and lessee, for Adrica Realty Company, owner, filed October 5, 1945, an appeal from an order of the fire commissioner, affecting premises 1½-9 West 34th street, north side, 150 ft. west of 5th avenue and 4-22 West 35th street (Block 836, Lots 26 and 54), Borough of Manhattan; and

WHEREAS, Order 35499-LF, issued by the Fire Commissioner, September 27, 1945, reads:

> "5. Relocate the 2½" valves of hose outlets of standpipe system on all stories, so that the wheel controlling same is within 6'6" of stair landing, or within 6'6" of steps that are within 2' of the standpipe riser. Ch. 26, Art. 17, Adm. Code."

and

WHEREAS, applicant states that the building is ten stories (150 ft.) in height, 150 ft. and 213 ft., irregular by 197 ft. 6 in. in area; of Class 1 construction; erected in 1906; located in a restricted retail use, B area and Class 2 height district; used and occupied since 1910 as follows: Cellar engine room; basement to 10th floors, inclusive, department store, with an occupancy as follows: Cellar, 10 persons; basement, 196 persons; 1st floor, 315 persons; 2nd floor 117 persons; 3rd floor, 114 persons; 4th floor, 71 persons; 5th floor, 75 persons; 6th floor, 71 persons; 7th floor, 32 persons; 8th floor, 62 persons; 9th floor, 128 persons; 10th floor, 107 persons; that the building is equipped with a two-source sprinkler system, a standpipe system and a fire alarm system; that monthly fire drills are maintained; that there is one interior fireproof stairs with fireproof enclosure and fireproof, self-closing doors, leading to the roof bulkhead; that there are two fire towers; and

WHEREAS, the applicant contends that there are 63 standpipe hose outlets on the premises, locations of which have not been altered since construction of the building in 1906, 25 of which are higher than 6 ft. 6 in., as follows:

Roof—6'8"			
10th floor,	6'10½"	6'10"	6'8"
9th floor,	6'11"	7'	6'11"
8th floor,	6'11"	6'11"	6'10½"
7th floor,	6'9½"	6'9½"	6'11"
6th floor,	6'8½"	6'9½"	6'10"
5th floor,	6'9"	6'9½"	6'9"
4th floor,	6'8½"	6'9"	
Base.	7'2"	6'9"	
Sub. base.	6'8"		

Resolved, that Order 35499-LF of the Fire Commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Item 5, *on condition* that the wheels of all existing small sized outlet valves shall be replaced by approved wheels not less than 6 inches in diameter, to the satisfaction of the fire commissioner; and that in all other respects, the standpipe system shall comply with all laws, rules and regulations applicable thereto.

Negative 0

THE RESOLUTION (33-20-BZ)

WHEREAS, this application, permitted partly in a business use district and partly in an unrestricted use district, the erection and maintenance of an ice storage plant and garage for more than five motor vehicles, affecting premises 245 West Fordham road, northeast corner of Cedar avenue (Block 3235, Lots 30, 33, 34, 37, 38, 48 and 49), Borough of The Bronx, was granted by the Board on February 3, 1920, on certain conditions; and

WHEREAS, the resolution was amended on January 3, 1945 and the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 3, 1920, as amended January 3, 1945, by adding thereto:

"*Resolved further,* that the cellar and first floor of the building may be occupied for a term of six (6) months from the date of this *amended* resolution, for the storing and sorting of wool clothing under the auspices of the National War Relief Committee, and that order 42616-C issued by the fire commissioner be and it hereby is *modified on condition* that no structural changes shall be made in the building; that after the termination of this temporary variance, the occupancy of the two lower stories shall be in accordance with the resolution amended on January 3, 1945; that during such occupancy, such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct and that other than as herein *amended,* the conditions of the resolutions of February 3, 1920 and January 3, 1945, shall be complied with."

Negative 0

THE RESOLUTION (1092-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, to permit in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 167-01 to 167-19 Depot road, north side, entire block, between 167th street and 168th street, 36-27 to 36-39 167th street and 36-34 to 36-42 168th street (Block 5294, Lot 1 and part of Lot 6), Flushing, Borough of Queens, was denied by the Board on April 11, 1939; and

WHEREAS, the applicant requested a reopening and reconsideration, to permit the parking and storage of more than five motor vehicles, limited to the tenants of the adjoining apartment houses only; and

WHEREAS, on October 31, 1939, this case was granted by the Board, on certain conditions; and

WHEREAS, subsequently the permit was extended on October 28, 1941, the resolution amended on June 23, 1942 and the permit further extended on November 3, 1943; and

WHEREAS, the applicant has now requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of October 31, 1939, as amended through November 3, 1943, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles, *on condition* . . . and that other than as herein *amended,* the provisions of the resolutions of October 31, 1939 as amended June 23, 1942 shall be complied with and that a certificate of occupancy shall be obtained (N.B. 9211-38 and Misc. Applic. 1193-42)."

For Applicant: Rudolph A. Travers.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (385-41-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a residence use district and partly in a retail use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 2-24 West 53rd street, south side, 100 ft. west of Fifth avenue and 3 West 52nd street (Block 1268, Lots 30 and 42 to 52, inclusive), Borough of Manhattan, was granted by the Board on November 12, 1941, on certain conditions; and

WHEREAS, the permit was extended on November 9, 1943 and the resolution was amended on January 25, 1944; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of November 12, 1941, as amended through January 25, 1944, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles, *on condition* . . . and that other than as herein *amended,* the provisions of the resolution of November 12, 1941, as amended by resolution of January 25, 1944, reducing the area, shall be complied with and that a certificate of occupancy shall be obtained."

10-43-BZ

APPLICANT—Renander and Miller, for Estate of Annie Gibney, owner (Title Guarantee and Trust Company, administrator); (Maple Grove Parking Company, Inc., lessee).

MINUTES

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on September 11, 1945, as they appeared in Bulletin No. 39, Vol. 30, are hereby corrected to read as follows:

58-45-A

APPLICANT—Kitzler and Nurick, for Jose-Lee Corp., owner (Honey-Knit, Inc., lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—87-89 Osborne street, east side, 100 ft. north of Pitkin avenue (1st and 2nd floors); (Block 3506, Lot 5), Borough of Brooklyn.

APPEARANCES—
For Applicant: Henry J. Nurick.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (58-45-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 87-89 Osborne street, east side, 100 ft. north of Pitkin avenue (1st and 2nd floors); (Block 3506, Lot 5), Borough of Brooklyn, was granted by the Board on June 5, 1945, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 5, 1945, so that as amended, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent acting on Alt. Applic. 1736-44, Objection 1, and that the appeal be and it hereby is *granted on condition* that no windows shall be barred, except those indicated on the *rear*

easterly wall of the cellar story, the southerly and easterly walls of the first and second stories and the five windows on the northerly wall of the second story toward the rear, and that the windows on the Osborne street front throughout and the three windows on the second story north wall towards Osborne street and one toilet window on the northerly wall of the first story towards Osborne street remain unbarred; that the windows as indicated not to be barred on the 1st and 2nd floors, shall be maintained so as to be readily usable at all times in the event of fire; that all the windows on the course of the fire escape shall be fireproof and self-closing; that exit to such fire escape shall be fireproof and self-closing as indicated; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto."

* Correction—As indicated in italics, beginning with line 16 of the resolution.

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stairhall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the Administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or mounmental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

Minutes of Regular Meeting of Wednesday Afternoon, November 7, 1945, Affecting Calendar Numbers 624-45-A, 630-45-A, 634-45-A, 636-45-A, 645-45-A, 649-45-A, 652-45-A, 669-45-A, 670-45-A, 1194-38-A, 770-42-A, 895-42-A, 1349-39-A, 525-45-A, 611-45-A, 591-45-A, 637-45-A, 653-45-A, 203-33-BZ, 170-37-BZ, 233-41-BZ, 705-41-BZ, 140-42-BZ, 1206-40-BZ, 1213-40-BZ and 901-42-SM.

Rules—Extracts From the Administrative Code of the City of New York, Relating to Refrigerating Systems.

PETITION AND CERTIORARI ORDER SERVED ON THE BOARD OF STANDARDS AND APPEALS.

On November 8, 1945, copy of petition and order of certiorari was served on the Board by Bond & Babson, attorneys, on behalf of Atlantic Leasing Co., Inc., lessee, in re decision by the Board on October 2, 1945, denying appeal for enlargement of existing sign; premises 1572-1576 Broadway, 201 West 47th Street and 702-708 Seventh Ave., Borough of Manhattan; Cal. No. 522-45-A.

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

610-45-BZ—Application, October 9, 1945, under section 7e of the zoning resolution, of Samuel Rosenblum, applicant, on behalf of Bridge 60th Street Realty Corp., owner, to permit in an unrestricted use district, the erection of an electric sign on front of multiple dwelling and store; premises 1133-1141 2nd avenue, southwest corner of East 60th street (Block 1414, Lots 25, 26, 126, 27 and 28), Borough of Manhattan.

701-45-BZ—Application, November 14, 1945, under sections 7c and 7i of the zoning resolution, of R. J. Farrington, applicant, on behalf of Krause Service Station, Inc., owner, to permit in a business use district, the change of occupancy from stores and welding to auto showroom and service station, motor vehicle repair shop and garage for more than five cars; premises 700-710 Southern boulevard and 1031 Leggett avenue, northeast corner (Block 2729, Lot 1), Borough of The Bronx.

644-45-BZ—Application, October 22, 1945, under section 7a of the zoning resolution, of Julius Eckmann, applicant, on behalf of Marguerite Corporation, owner, to permit in a residence use district, the extension of an existing factory; premises 801 Bartholdi street, northeast corner of Barnes avenue (Block 4633, Lot 11), Borough of The Bronx.

602-45-BZ—Application, October 10, 1945, under section 21 of the zoning resolution, of James Allen Tuck, applicant, on behalf of United Grocers Co., owner, to permit in an unrestricted use district, and C area, the extension of an existing warehouse, occupying more than the prescribed percentage of area of the lot; premises 1630 Cody avenue, east side, 274 ft. west of Wyckoff avenue (Block 3557, Lot 28), Ridgewood, Borough of Queens.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

WEDNESDAY MORNING, NOVEMBER 7, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning and Tuesday afternoon, October 9, 1945, were approved as printed in Bulletin No. 42, Volume No. 30.

ZONING APPLICATIONS

296-45-BZ

APPLICANT—Lama & Proskauer, for Ida Gottfried, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the reconstruction and extension of gasoline service station (previously granted by the Board).

PREMISES AFFECTED—1769-1779 Coney Island avenue, east side, 315 ft. south of Avenue N (Block 6749, Lots 78 and 81), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama and E. Gottfried.

For Opposition: Jeannette Ramberg and Max Weinman.

For Administration: Fred Dahlem. Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to November 20, 1945 at 10 A. M. for an inspection by a committee of the Board and for decision without further argument.

322-45-BZ

APPLICANT—Henry Nordheim, for Israel Fleiss, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c, 7i and 21 of the zoning resolution, to permit in a partly residence and business use district, the change of occupancy from stores to motor vehicle repair shops.

PREMISES AFFECTED—2243-2259 White Plains road, west side, 65 ft. north of Thwaites place (Block 4342, Lot 39), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim.

For Opposition: A. Pelizzari and Cristina Pelizzari.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to November 20, 1945 at 10 A. M. for an inspection by a committee of the Board and for decision without further argument.

398-45-BZ

APPLICANT—Stanley Kilburn, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the alteration and extension of an existing building occupied as a restaurant, and the change of occupancy to showrooms, gasoline service station, repair shop and dwelling, and to omit the rear yard required under section 17a of the zoning resolution.

PREMISES AFFECTED—209-01 to 209-19 Northern boulevard, north side, between Corporal Kennedy street (Stewart avenue) and 209th street (Wright avenue); (Block 6279, Lot 21), Bayside, Borough of Queens.

APPEARANCES—

For Applicant: R. Harold Paltrow and S. S. Kilburn.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application placed on the Reserve Calendar.

423-45-BZ

APPLICANT—Henry Nordheim, for Mt. Eden Construction Corp., owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7(b), 7(c) and 21 of the zoning resolution, to permit in a residence and business use district, the extension of present building and to occupy more than 65% of the area of the lot in B area.

PREMISES AFFECTED—101-115 East Mt. Eden avenue and 1600-1606 Walton avenue, northeast corner (Block 2838, Lot 1), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim and Meyer Schulman.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to November 27, 1945 at 10 A. M., for applicant to file corrected diagrams and for the Building Department records to be obtained.

265-28-BZ

APPLICANT—Herman Kron, for Ottilia Realty Corp., owner (Hamilton Buick, Inc., lessee).

SUBJECT—Application reopened October 2, 1945—Application (decision of the borough superintendent) under sections 7(e) and 7(i) of the zoning resolution, to permit in a business and residence use district, the extension (of use) of garage for more than five cars to garage for more than five cars, motor vehicle repair shop, sales of auto parts and automobile showroom.

PREMISES AFFECTED—3181 Westchester avenue, west side, 140.49 ft. south of Wilkinson avenue (Block 4235, Lot 43), Borough of The Bronx.

APPEARANCES—

For Applicant: Herman Kron, W. Altman, G. Nannetori and P. Cuopri.

For Opposition: Albert A. Cuneo.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (265-28-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting partly in a business use district and partly in a residence use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 3181 Westchester avenue, west side, 140.49 ft. south of Wilkinson avenue (Block 4235, Lot 43), Borough of The Bronx, was granted by the Board on October 2, 1928, on certain conditions; and

WHEREAS, the resolution was amended on June 21, 1938; and

WHEREAS, on May 28, 1940, the Board denied an amendment to include a gasoline service station; and

WHEREAS, the applicant requested a further amendment of the resolution, to permit under sections 7e and 7i of the zoning resolution, the inclusion of a motor vehicle repair shop, sales of auto parts and automobile showroom; and

WHEREAS, this case was reopened by vote of the Board on October 2, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 7, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Westchester avenue is in a residence and business use, C and D area and Class 1 and 1¼ height district; Wilkinson avenue is in a business use, D area, Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 4, 1945, re Alt. App. 412-45, reads:

> "1. The change of the subject premises from a storage garage for more than five cars to a storage garage for more than five cars, motor vehicle repair shop and sale of repair parts, is contrary to the resolution in Cal. 265-28-BZ (Board of Standards and Appeals), and Sections 3 and 4, Building Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 104.45 ft. frontage by 136.24 ft. in depth (irregular), on which is a building of same area, one story, (14 ft.) in height, of Class 3 construction; that it is proposed to change the use of present garage for more than five cars, to garage for more than five cars, repair shop, sale of auto parts and auto showroom; and

WHEREAS, the applicant contends that the building was erected in 1928 under approval of the Board of Standards and Appeals, Cal. 265-28-BZ; that it is non-fireproof, one story in height and equipped with an approved sprinkler system; that presently it is operated as a storage garage; that the present application is for an extension of the garage use, to permit its use as a public garage, automobile showroom, repair shop and sales of auto parts; that this integral use will be known as the Hamilton-Buick Service and be financed by the General Motors Corporation, a co-investor in this business; that this new application is made necessary, due to changed circumstances in the neighborhood where the subject garage is located; that it is a large building and it is not feasible in this neighborhood to operate the entire building solely as a public garage, and the operator must supplement the income by also using the garage as a repair shop, etc.; that as the original resolution of the Board did not include the words "repair shop" in addition to public garage, the Building Department is prohibited under the zoning resolution to permit this use; therefore, it is respectfully requested that the Board consider this application and permit the use extended under the authority vested in the Board by sections 7e and 7i of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of October 2, 1928 as amended through June 21, 1938 so that as amended, the resolution shall read:

> *"Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it is *granted on condition,* that the structure shall not exceed in height one story

above grade; that the rear and side walls shall be unpierced throughout their entire height and length; that the building shall be constructed of fireproof materials, except that the roof may be constructed of wood beams and wood boarding, supported on steel girders and steel columns, on condition that a one-source sprinkler system shall be installed in the building and that the columns and main girders are protected with fire resistant construction rated for one hour; that in the event it is decided to install a sprinkler system using one-inch heads, such system shall be installed in accordance with the sprinkler requirements of the Building Code, but not requiring more than one line between girders; that the exterior of the building on Westchester avenue front shall be finished with light-color face brick with architectural terra cotta or natural stone trimmings; that there shall be no advertising display of any nature or description, other than one projecting electric sign, located approximately at the center of the building on street front.

Resolved further, that in the event the owner desires to occupy the premises as a sales agency for Buick automobiles, such use may be permitted as proposed on plans filed with the borough superintendent under Alt. Applic. 412-45; that the decision of the borough superintendent, as to objection 1 thereunder, be and it hereby is *modified* and the permit to use the premises as proposed is hereby *granted on condition* that the use of the building for general garage purposes and for the sale of gasoline shall be discontinued and the building used solely as a sales agency for the Buick automobiles; that the existing gasoline storage system shall be used solely for servicing within the building, the cars dealt in by such agency; that the sale of auto parts may be permitted as indicated on plans filed with this application marked "Received September 13, 1945"; that no motor vehicle repairing shall be permitted on the premises, except such repairing as may be necessary by means of hand tools and only in connection with automobiles sold and dealt in by such agency; that all existing signs shall be removed and only such signs installed in the building as are permitted under the law in a business use district; that such motor vehicle repairing may be permitted under section 7i for a term of five years from the date of this *amended* resolution and upon the termination thereof, the former use as a storage garage for more than five (5) motor vehicles may be restored; that in all other respects, the resolution adopted by the Board October 2, 1928, as amended through June 21, 1938, shall be complied with; that all permits shall be obtained and all work completed within six (6) months from the date of this *amended* resolution; that a new certificate of occupancy shall be obtained."

97-45-BZ

APPLICANT—Alden B. MacNeil, for Abe L. Malamut, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence district, G area, the existing storm enclosure in the side yard.

PREMISES AFFECTED—108-22 66th road, south side, 180 ft. east of 108th street (Block 2175, Lot 16), Forest Hills, Borough of Queens.

APPEARANCES—
For Applicant: Alden B. MacNeil.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (97-45-BZ)

WHEREAS, Alden B. MacNeil, for Abe L. Malamut, owner, filed February 26, 1945, an application under section 21 of the zoning resolution, to permit in a residence use, G area district, the (existing) storm enclosure in the side yard affecting premises: 108-22 66th road, south side, 180 ft. east of 108th street (Block 2175, Lot 16), Forest Hills, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 7, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that 66th road is in a residence use, G area and Class 1 height district; 108th and 110th streets are in a residence use, G area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated February 20, 1945, re Misc. App. 4498-44, reads:

> "1. Side yards for a dwelling within a residence use, G area district, is to comply with sec. 16B of the zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 40 ft. frontage by 100 ft. in depth, on which is located a building, 27 ft. front by 35 ft. in depth, 2 stories (23 ft.) in height, of Class 3 construction; that it is sought to legalize the illegally erected extension, which is built upon the existing stoop as a storm vestibule; and

WHEREAS, the applicant contends that this appeal is from a decision of the Department of Housing and Buildings, requiring the removal of a permanently built storm enclosure on the side yard of a residence in a G area district; that a brick platform and steps, extending out to within three inches of extent of the present enclosure, was built when the house was constructed; that it was found by the owner that due to the arrangement of the surrounding houses, every time the side door was opened when the wind was blowing, a disagreeable indraft of cold air occurred; that the owner then decided in order to make the house more livable and save fuel, it would be necessary to build a storm enclosure; that since some houses in the neighborhood had such enclosures, the owner assumed, not having an intimate knowledge of the Building Code, that such an enclosure would violate no provisions of the zoning law; that a contractor was engaged and the construction of the storm enclosure began in 1944; that it is well constructed, attractive in appearance and in keeping with the architectural style of the house; that there is no increase in area of the building, as existing stoop was built prior to the change of area district and the only change is the enclosure of the stoop for a storm vestibule; it is therefore requested that the storm enclosure be allowed to remain as a necessary convenience to the owner; that this house was formerly in a residence use, F area district and was changed to residence use, G area district, by amendment of the zoning resolution, dated September 25, 1941; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the ground of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standard and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 21 thereof, to permit the continuance of the temporary storm vestibule enclosure as indicated on plans filed with this application marked "Received February 26, 1945," *on condition* that the building and occupancy shall in all other respects, comply with all laws, rules and regulations applicable thereto; that the building shall not be further extended in height or area; that all permits shall be obtained and all work completed within six (6) months from the date of this resolution.

MINUTES

408-45-BZ

APPLICANT—Jack Z. Cohen, for DAF Holding Corporation, owner (David Anhisiger, lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the change of occupancy from auto laundry and brake testing station, to motor vehicle repair shop.

PREMISES AFFECTED—561 Utica avenue, east side, 265 ft. south of Rutland road (Block 4604, Lot 71), Borough of Brooklyn.

APPEARANCES—

For Applicant: Jack Z. Cohen, D. Anhisiger, A. Furmonar and J. Weiss.

For Opposition: I. Ratisher, A. Milder, A. Bminouritz and S. Arenstein.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (408-45-BZ)

WHEREAS, Jack Z. Cohen, for DAF Holding Corporation, owner (David Anhisiger, lessee), filed June 2, 1945, an application under section 7i of the zoning resolution, to permit in a business use district, the change of occupancy from auto laundry and brake testing station to motor vehicles repair shop, affecting premises 561 Utica avenue, east side, 265 ft. south of Rutland road (Block 4604, Lot 71), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 7, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Utica avenue is in a business use, C area and Class 1 height district and Rutland road is in a residence and business use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 27, 1945, on Alt. Applic. 3429-44, reads:

> "1. Proposed change of occupancy to motor vehicle repair shop in business district violates Art. II, Sec. 4a-29, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 20 ft. frontage by 100 ft. in depth, 1 story (14 ft.) in height, of Class 3 construction and that it is proposed to use existing building as a motor vehicle repair shop for body and fender repairs and auto painting; and

WHEREAS, the applicant contends that the building in question was erected under N.B. 8167-32 and Certificate of Occupancy 70119-33, issued January 18, 1933, for auto laundry and brake testing station; that this use was engaged in for about two years and since has been and is now being used as a motor vehicle repair shop without a certificate of occupancy; that the purpose of this application is to legalize this use; that the premises have been used by the present lessee for 11 years and had permits from the fire commissioner for several years to maintain acetylene equipment; that all walls on lot lines are unpierced and all business is conducted from the front of the premises and only minor repairs to auto bodies and fenders and auto painting is done; that the adjoining premises on the north and south, to a distance as shown on plot plan, are vacant and have been so vacant for a long time; that the occupancy is confined to minor auto repairing and the applicant is not conducting the general business of repairing motor vehicles, as defined in the Code; that the only machinery to be used in the shop will be a 1½ h.p. air compressor and acetylene, spraying and painting equipment will be subject to the requirements and permits to be procured as issued by the fire commissioner; that all body and fender repair work will be done by hand tools only and within the premises and not on the sidewalk and all repairs will be limited to pleasure car type; and

WHEREAS, Violation 286-41, was filed against the premises on January 15, 1941, for using the premises for fender repairing and (Duco) finishing; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a variance under section 7i of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3429-44, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

528-45-BZ

APPLICANT—William I. Hohauser, for Simon Ginsberg Estate, Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use district, the change of occupancy from store and showrooms to store and doctor's offices.

PREMISES AFFECTED—1082 Park avenue, west side, 25.8 ft. north of East 88th street (Block 1500, Lot 34), Borough of Manhattan.

APPEARANCES—

For Applicant: William I. Hohauser, Herman Gaines and Louis Ginsberg.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (528-45-BZ)

WHEREAS, William I. Hohauser, for Simon Ginsberg Estate, Inc., owner, filed August 31, 1945, an application under section 21 of the zoning resolution, to permit in a residence use district, the change of occupancy from store and showrooms to store and doctors' offices; affecting premises: 1082 Park avenue, west side, 25.8 ft. north of East 88th street (Block 1500, Lot 34), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 7, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Park avenue is in a residence use, B area and Class 1½ height district; East 87th, 88th, 89th and 90th streets are in a residence, retail and business use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 27, 1945, re Alt. Applic. 1135-45, reads:

> "The change of the non-conforming use (showrooms) in a building located within a residence use, B area district, to another nonconforming use (Doctors offices on 2, 3, 4, 5 floors), is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 25 ft. frontage by 82 ft. in depth, on which is located a building 25 ft. frontage by 68 ft. in depth, 5 stories (60 ft.) in height of Class 3 construction and that it is proposed to change the 2nd to the 5th floors from showrooms to professional offices; and

WHEREAS, the applicant contends that the size of the building and its outside appearance will not be changed; that this building was used for business before 1916 and this use has been continued therein, up to the time it was

vacated by the founder of the estate of the present owner, who died, and the business was discontinued; that the heirs of the original owner have found that they cannot rent the building in its present state and have had a great many inquiries from professional people, such as doctors and dentists, for space on the second and upper floors; that the change in use from showrooms to professional offices is a more restrictive use and therefore beneficial to the neighborhood than if the present showroom use were continued; and

WHEREAS, at the hearing the applicant changed his basis of appeal to section 7e of the zoning resolution; and

WHEREAS, it appears from the records that the building has been used at all times since erection for commercial uses throughout; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7e thereof for a term of fifteen (15) years from the date of this action, to permit the building to be occupied as proposed, as store on the ground floor and doctors' professional offices above, *on condition* that the building shall not be increased in height or area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

548-45-BZ

APPLICANT—Stanley Lieberman, for Scandinavian Good Templars Temperance Mission of New York City, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7(b) and 21 of the zoning resolution, to permit partly in a residence use district, and partly in an unrestricted use district, the alteration and conversion of occupancy from clubrooms, office and one family to funeral chapel and one family.

PREMISES AFFECTED—641 66th street, north side, 325 ft. east of 6th avenue (Block 5829, Lot 53), Borough of Brooklyn.

APPEARANCES—

For Applicant: Stanley Lieberman, Benjamin Rubinowitz and E. C. Halberson.

For Opposition: H. Klorfein, Dep't of Parks, W. K. Teen, Mathilde Pappi, N. Underwood.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (548-45-BZ)

WHEREAS, Stanley Lieberman, for Scandinavian Good Templars Temperance Mission of New York City, owner, filed September 13, 1945, an application under sections 7b and 21 of the zoning resolution, to permit partly in a residence use district and partly in an unrestricted use district, the alteration and conversion of occupancy from clubrooms, office and one family to funeral chapel and one family; affecting premises: 641 66th street, north side, 325 ft. east of 6th avenue (Block 5829, Lot 53), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 7, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that 66th street is in a residential use, C area and Class 1¼ height district; 65th street is in an unrestricted use, C area and Class 1½ height district; 6th avenue and 7th avenue are in a residence, business and unrestricted use, C area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated July 22, 1945, re Alt. Applic. 2579-45, reads:

> "1. Proposed business occupancy in premises located in a partly residential and partly unrestricted zone is contrary to Article II, Section 3 of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 50 ft. frontage by 122 ft. in depth, on which is located a building 35 ft. 8 in. by 66 ft. 8 in. in depth, two stories (25 ft.) in height, of Class 3 construction and that it is proposed to change the occupancy from clubrooms to funeral chapel; and

WHEREAS, the applicant contends that the premises were erected in 1927 by the present owners; that since that time, the building has been used as clubrooms and offices and one family; that in connection with such use, the clubrooms were rented out for public and private meetings and functions of various Scandinavian societies; that the surrounding neighborhood is composed generally of two story buildings used for residential purposes; that however there are other buildings in the neighborhood used for garages and other business purposes such as a dairy, brass foundry, welding plant, lumber yard, poultry market, etc.; that the residential zone only extends about 50 ft. from 66th street north and the rear portion of the premises is located in an unrestricted zone, thus the premises is located in two zones, residential and unrestricted; that this is an application to obtain a variation so that a certificate of occupancy may be issued, to permit the use of the premises for funeral chapel, which is now located at 5310 8th avenue, Brooklyn; that there will be no change in the external appearance of the building and the appearance of the neighborhood will not be affected in any way by such use; that the building in its present condition, is unsuited for any use except that of club rooms or other limited types of social occupancy; that the owners find they are unable to continue the operation and management of the building, because the membership of their organization has dwindled and the financial burden is too great for the members; that it would require expensive alterations to permit the use of the building for residential purposes or some other conforming use; that the present owners have no other alternative but to dispose of the property; that a variation of the requirements of the zoning resolution for the purpose requested, would in no way affect the nature of the neighborhood, but would receive the approval of the neighboring owners and would aid the present owners in their financial predicament; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a variance under section 7, subdivision B of the zoning resolution and that the applicant failed to substantiate a basis of appeal under section 21 of the zoning resolution and was, therefore, not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 2579-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION (622-45-A)

WHEREAS, A. Gordon Lorimer, for Department of Public Works, City of New York, owner, filed October 15, 1945, an appeal from a decision of the fire commissioner, affecting premises 44-36 Vernon boulevard, northwest corner of 44th drive (1st floor); (Block 489, part of Lot 1), Long Island City, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, dated March 3, 1945 and repeated in a decision of the fire commissioner, dated October 2, 1945, reads:

"An inspection by the Fire Department indicates that the following must be done in order to render safe, the premises, 44-36 Vernon boulevard, Borough of Queens, used as a Private Filling Station:

"1. Remove all gasoline from the buried gasoline storage tank, at the above premises; seal all openings of same with concrete or cement, and lock pump with wire and lead seal, as such storage of gasoline in a building wherein materials of a highly inflammable nature are manufactured, is prohibited by C19-51.0-b-3, Administrative Code and C19-65.0-b-3, Administrative Code."

and

WHEREAS, the applicant states that the building is 3 stories (44 ft.) in height, 270 ft. by 426 ft. in area, of Class 1 construction, erected in 1938, located in an unrestricted use, A area and Class 2 height district and used and occupied since 1940: cellar, boiler room and storage, 20 persons; 1st floor, storage and shipping, 30 persons; 2nd floor and 3rd floor, storage and manufacturing of drugs, clothing and paper, 80 persons on the 2nd floor and 20 persons on the 3rd floor; that the building is occupied in its entirety by the Department of Purchase, City of New York, that no change in use or occupancy is proposed; that the building is equipped with a standpipe system, six interior 3 ft. 8 in. wide fireproof stairs, which lead from the roof to the street; and

WHEREAS, the applicant contends that the installation of a gasoline storage tank of 550 gallon capacity and approved pump, was permitted under Application M 4050-41 and it is proposed to maintain the existing approved type pump and gasoline tank, as they are an essential part of the functions of the building; that no inflammable oils or liquids are stored in proximity to the gasoline pump and tank, as both are located in an enclosure, subdivided by doors from the building and enterable directly from the street; that only food stuffs are stored on the first floor and the applicant requests a variation be granted, on the basis that the location and arrangement of the tank and pump do not create an undue hazard and denial of permission to maintain the tank and pump, would create an undue hardship and cause delay in deliveries, which might be a serious detriment to health of the citizens of the City of New York.

Resolved, that the decision of the fire commissioner dated October 2, 1945 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the gasoline pump and tank shall comply in all other respects, with all laws, rules and regulations applicable thereto and granted only so long as the gasoline service is used in connection with the occupancy throughout the building by the Department of Purchase; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the walls as shown, separating the portion of the building where such gasoline pump is installed, from the balance of the building, shall be maintained.

650-45-A

APPLICANT—The Brooklyn Union Gas Company, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—78-01 57th avenue, north side, 745 ft. east of 74th street (Block 2805, Lot 31), Elmhurst, Borough of Queens.

APPEARANCES—

For Applicant: R. L. Heeren and W. M. Wepfer.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (650-45-A)

WHEREAS, Brooklyn Union Gas Company, owner, filed October 26, 1945, an appeal from an order of the fire commissioner, affecting premises 78-01 57th avenue, north side, 745 ft. east of 74th street (Block 2805, Lot 31), Elmhurst, Borough of Queens; and

WHEREAS, Order 748-LC, issued by the fire commissioner October 16, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store and use Diesel oil, shows that the following must be done before the permit requested by you can be issued:

"FORTHWITH

"1. Discontinue the use of an auxiliary storage tank having a capacity greater than 60 gallons, for the stor-

age and use of Diesel oil. Rule 2.31, Oil Burner Rules of Board of Standards and Appeals."

and

WHEREAS, the applicant states that the structure in question is 82 ft. 4 in. by 163 ft. average in area, 1 story and basement (46 ft. 6 in.) in height, erected in 1911, extended in 1933, used to house auxiliary equipment, pumps, etc. and gas compressors, with an occupancy of 7 persons; and

WHEREAS, the applicant contends that additional gas pumping capacity is being installed in anticipation of increased use of gas this winter; that the new plant consists of three 800 h.p. Diesel engine driven gas compressors which will consume about 3,000 gallons of oil per day; that this oil will be supplied to engines by gravity from an elevator tank of 550 gallon capacity and a 24 hour run would require this tank to be filled about 5½ times a day, with the three engines operating at full load; that if a 60 gallon auxiliary tank were used as required, the tank would have to be filled 50 times per day or over twice per hour, an operating condition which would be inefficient and more hazardous than if a larger tank were used; that the auxiliary tank will be placed entirely outside the pumping station building and will have no connection thereto, except the necessary piping through the wall; that the auxiliary tank will be equipped with an automatic CO_2 fire extinguishing system.

Resolved, that Order 748-LC, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the auxiliary tank shall be of an approved type and shall be installed and maintained substantially as proposed and to the satisfaction of the fire commissioner; that the CO_2 fire extinguishing system as proposed, shall be installed and maintained, as the fire commissioner shall approve; that this appeal is granted only so long as the auxiliary tank is used for the storage of fuel oil for use in Diesel engines as proposed.

MATERIAL SUBMITTED FOR APPROVAL

502-45-SM

APPLICANT—Western Concrete Pile Corporation, for Western Foundation Co., owner.

SUBJECT—Western's Standard Concrete Piles, approval of.

APPEARANCES—

For Applicant: H. Q. Burrell and F. T. Jenkins.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (502-45-SM)

WHEREAS, the Western Concrete Pile Corporation, for the Western Foundation Co., owner, filed on July 7, 1945, an application with the Board of Standards and Appeals for approval of the material known as Western's Standard Concrete Piles; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS.

October 9, 1945.

Re: Cal. 502-45-SM

Subject: Western's Standard Concrete Piles, approval of.

The Western Concrete Pile Corporation of New York and Chicago, Ill., filed an application with the Board of Standards and Appeals for the approval of their Standard Concrete Pile under the mandatory requirements of C26-178.0,b for use as a cast-in-place concrete pile under the same restrictions of driving, concreting and loading as provided for other types of cast-in-place concrete piles, under C26-409.0 of the Administrative Building Code.

The Code title in its present form does not apply to the applicant's type of cast-in-place concrete pile, since this form of construction was in development stages at the time the Administrative Building Code was adopted and consequently could not have been considered by the authorities comprising the Sub-committee on Foundations. Section C26-391.0, a, provides in part: "Any type of pile or other foundation construction unprovided for in this title shall meet, in addition to the requirements of this article, all the requirements which may be established by the rules of the board." Clearly, Western's Standard Concrete Pile comes within the purview of this section, as a type of pile unprovided for in the Code title. In substantiation of the foregoing, the applicant has filed a communication from Mr. Ralph W. Chambers and also from Mr. John W. Pickworth of Weiskopf and Pickworth, who were members of the committee who prepared sub-article 3, entitled "Foundations" of Article 9, entitled, "Construction," of the present Administrative Building Code.

To establish the integrity of the applicant's form of construction, considerable test data from construction projects where this type of pile was installed, has been filed. Included also is a complete description of the materials used, method of installation and the job precautions observed by the applicant to insure proper placing of the piles and their correct penetration as required by the Code title, as follows:

DESCRIPTION OF PILE

The pile consists essentially of a precast concrete point or button (Fig. 1, lower portion) which is larger in diameter than the shaft which surmounts it. This shaft consists of a steel shell provided with helical corrugations which impart stiffness and the ability to resist pressure. The lower end of the steel shell is closed with a pressed steel shoe (Fig. 1, upper portion) which is screwed on to the shell by means of indentations which engage in the valleys of the corrugations. The center of this shoe is slotted and the two edges are turned upwards providing two steel wings. When the shell with the attached shoe is lowered onto the precast concrete point or button, these wings slip over and engage a lag screw which has been cast in the center of the point and allowed to project upwards. The shell is thus locked to the point and prevented from moving sideways as well as being held in place. The steel shell is then filled with concrete and cut off at the elevation shown on the plans.

MATERIALS

Point or Button—The point or button is of unreinforced controlled concrete designed to develop a strength of not less than 4,000 lbs. per sq. in. in 28 days when tested in accordance with the requirements of the Code title. The point is pre-fabricated prior to its installation in machined steel forms which have been coated with oil to facilitate stripping. The point is made in the size of 17″ maximum diameter and a depth of 20″, all as shown in Fig. 1, lower portion. The concrete is made with approved high early strength portland cement mixed to a plastic consistency to insure filling of the form and a dense concrete to insure density of the concrete mix. The concrete in the molds is mechanically vibrated until no further settlement takes place. A ⅝″ steel lag screw is placed in the center of the point or button and extends approximately 3″ above the top of the concrete to facilitate handling and anchorage.

SHELL

The shells are manufactured for the applicant by the American Rolling Mill Company and consist of cold rolled steel strip conforming to the Iron and Steel Institute Specification A.I.S.I. 1006 to 1008, known as the Hel-cor type of shell, nominal diameter 12″ plus.

This material comes from the strip mill in coils in the required widths after which the strip is then fed into

a special corrugating and crimping machine which converts it into a spiral helical shell having corrugations 7/16″ deep and 2″ on pitch. The edges of the strip are at the same time joined by a permanent locked seam following the valley of the corrugations and consist of four thicknesses of metal formed into rolled locked seam.

The machine produces shells of indefinite length which are available, cut in lengths commensurate with shipping facilities. This cutting is done with an automatic machine giving a square true surface.

CONCRETE FILLING

While C26-407.0, c, requires that concrete in concrete piles shall be mixed in compliance with Section C26-311.0 which provides for plain concrete, the applicant proposes to furnish Average A concrete complying with the proportions and working stresses as provided in C-26-365.0.

CONSTRUCTION OF PILE

The precast concrete point or button is accurately placed at a pre-determined location and the driving casing is lowered so as to fit onto the shoulder of the button. The driving casing consists of standard grade B, Petroleum Institute material, having an outside diameter of 14″ and approximately a ½″ wall thickness. This shell is reinforced at the lower end with a band accurately machined to fit the conical section of the point. It is also reinforced at the upper end with a reinforcing band to take the blows of the hammer.

The casing having been placed over the button is then plumbed in the leads of the driver by shifting the pile driving rig as required. Positioning is facilitated by a stub core attached to the bottom of the hammer which penetrates several feet into the casing, as shown on Fig. 2. The casing is then driven into the earth by a steam hammer delivering at least 15,000 ft. lb. blow in conformity with the requirements of C26-409.0,c. During this operation the pile is checked to meet all requirements for driving as given in C26-405.0. When the resistance to further driving develops as specified under the formulas given in C26-405.0, c-1, the driving stops. After stopping of the driving, the permanent corrugated shell with shoe attached, as shown in Fig. 3, is lowered into the driving casing and locked on the button by spreading of the wings as they slide over the lag screw in the button. The pile is then filled with concrete in proportions as hereinbefore described. This filling may take place before the withdrawal of the driving casing or subsequently thereafter. The maintenance of the alignment of the shell after withdrawal of the driving casing is insured by the soil which grips the corrugated shell for its entire length and so holds it in place by the soil squeezing back against the casing as a result of the internal pressure developed during driving.

When casings are required to be spliced, they are aligned first by placing the sections to be attached in a

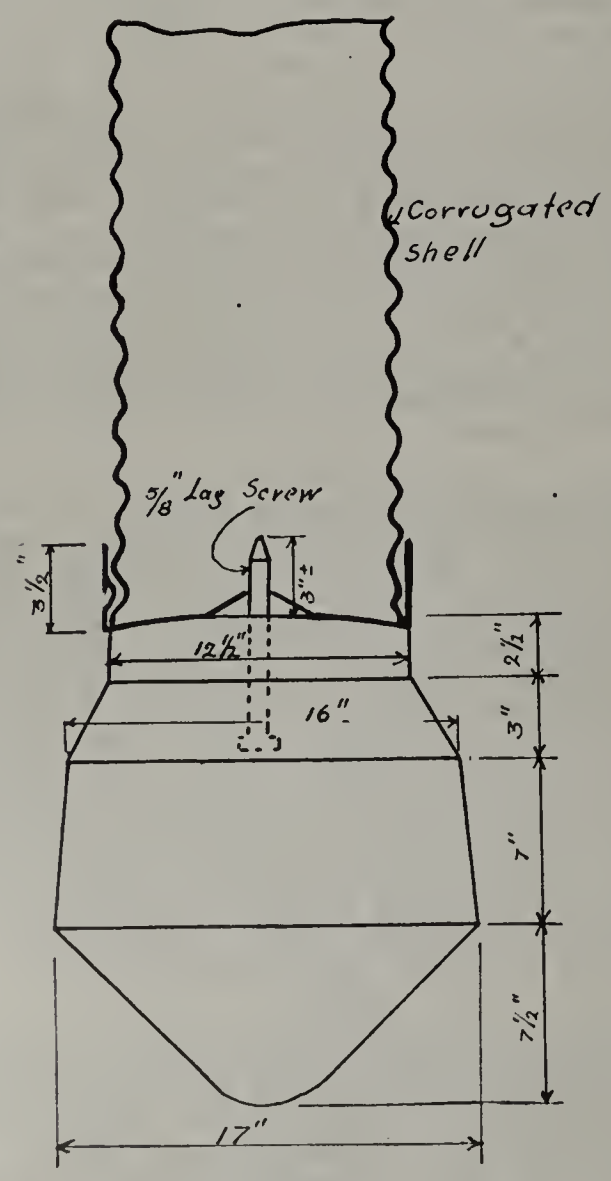

FIG. 1.

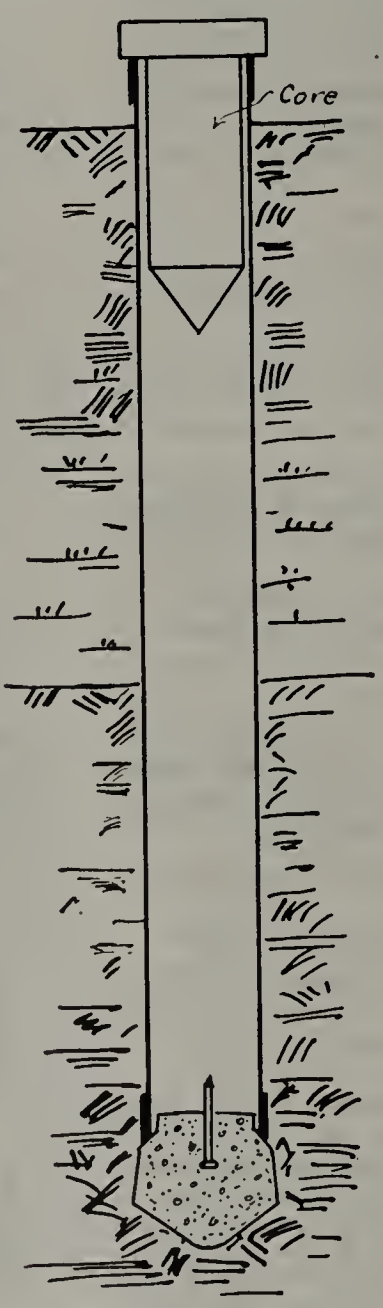

FIG. 2.

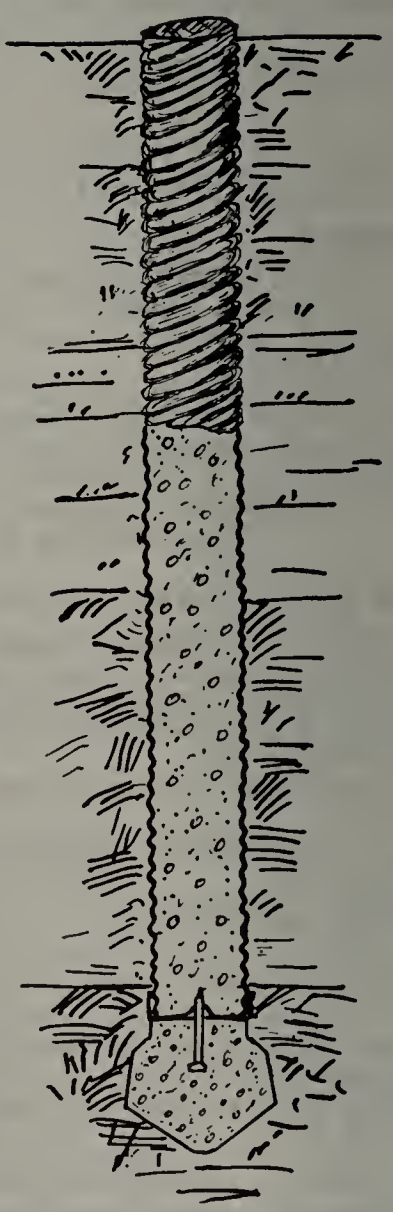

FIG. 3.

trough formed by two shells which have been placed parallel to each other. They are then welded around the periphery to allow the sections to be handled with a pile line without damage. The piles when completed are then cut off by burning the shell at the required elevation and cutting the concrete with a bull point.

TESTS

Since the development of the applicant's pile was begun in 1936, the applicant has installed many piles and has filed with the Board a list of such installations. From the records of some of these jobs as filed there is contained pertinent test data, as follows:

	Located	Type of Structure	Dimensions of Pile	Test Load	Working Load	Number of tests	Number of piles in contract
U.S. Navy	Navy Yard at Portsmouth, Va.	Warehouse	12″ shaft	42 tons shock load 45 tons	30 tons	9	7232
U.S. Navy	New River, N. C.	Heating plant	12″ shaft	82 tons	40 tons	1	1067
U.S. Navy	Boston, Mass.	Warehouse	12″ shaft 17″ point	82 tons	(*) 40 tons	1	2033
City of Fort Wayne	Fort Wayne, Ind.	Sewage Disposal	12″ shaft	60 tons	30 tons	1	1588

* This test was performed to determine how much of the heave to which the piles in large groups were subjected could be eliminated by loading one pile in order to ascertain the probable amount of re-driving that would be required to attain stability. The pile rose during driving of subsequent piles by 4½″ and settled 2⅛″ under a load of 50 tons without showing further settlement when the load was increased to 80 tons.

The load tests were carried out in two ways—one by loading a box of material over the pile and transferring this load to the pile by means of a hydraulic jack which was accurately calibrated; and the second method by moving the pile-driver over the pile and throwing the weight of the driver on to the test pile through a hydraulic jack.

The Administrative Building Code provides for a settlement of not more than 1/100th of an inch per ton of load applied, after load has been removed as provided in C26-405.Od.

At Ft. Wayne, Ind., with a 60 ton load, the allowable settlement would have been .6 of an inch, whereas the settlement actually was .5 of an inch.

At the Portsmouth Navy Yard one pile was tested with a box loaded with anchors. The permissible settlement under 45 tons would have been .45 of an inch; actual settlement was .406 of an inch.

In a number of tests at the Portsmouth Navy Yard made by the shock method, the load was applied suddenly instead of by increments. Forty-two tons were applied in each case and the settlement could have been 7/16th of an inch, or .42″. Actual settlement was zero, 1/8th of an inch, 3/32nds of an inch, 1/16th of an inch, zero, 1/32nds of an inch, 5/32nds of an inch and zero.

The test at the Marine Barracks at New River, N. C., loaded with 81-1/2 tons, could have settled .815 of an inch, whereas the actual settlement was .4375 of an inch. In other words, in each case, tests were better than called for under the Administrative Building Code, C26-405.Od.

Another installation of the applicant's type of pile was made for the Department of Sanitation, of New York City and Bergen Landing, Queens, for a garage in 1939. The number of piles driven was 839. While the description of a shaft in that test specified that the shaft was 14″ this referred to the maximum diameter, the shells used being circumferentially corrugated, maxima and minima diameters succeeded other, the minimum being 12″ and the maximum 14″. These shells were riveted and therefore more irregular in their contour than the Hel-cor type of shell now used. These piles were designed for a working load of 30 tons and were subjected to three tests wherein the total load was 60 tons, one of which without rebound showed a settlement of 3/32″, the 2nd 1/8″ without rebound and the third 11/32″, the latter load being left for two days.

GENERAL

In the drawing of the applicant's standard pile, all loads are transmitted to good bearing strata as reflected by the penetration resulting from the final blows of the pile hammer. The maximum length of the pile is limited by the driving equipment which with the type of equipment now available limits the length of the pile to 75 ft. When more than one length of Hel-cor shell is used additional sections are securely attached by welding around the circumference of the periphery which will be done in conformity with the Board's Fusion Welding Rules. The applicant has filed data showing that thousands of their piles have been driven with no damage to the Hel-cor shell resulting from lateral pressures within the earth. No internal cleaning of the shell is required as the method of driving used by the applicant precludes foreign matter from entering the shell.

While C26-405.O requires that misalignment be not greater than two percent, the applicant contends that misalignment as great as two percent would induce driving difficulties which for economical reasons they prefer to correct by forcing the pile into closer alignment which is accomplished by maneuvering the leads of the driving equipment. If the pile persisted in drifting where misalignment would be excessive, the applicant proposes tnat a substitute pile shall be driven as close to the subject as the conditions would permit and redesigning the pile cap accordingly. Where soils are incompressible the piles are proposed to be re-driven until firm bearing strata is reached, particularly in large groupings of piles where there may be a tendency for the piles to rise in such soil conditions. In any case, no pile is proposed to be placed closer than 30″ as prescribed in C26-407.O.b.

The applicant further proposed that no piles shall be driven in any completed or partially completed pier unless the concrete in the piles already in place is at least seven days old. The concrete used to fill the shells is proposed to be at least equal to Type A concrete as prescribed in C26-365.O,b,1 and in every case the pile shall be continuously and completely filled. Upon withdrawal

of the driving shell should inspection show that water conditions exist within the pile, the applicant proposes to dewater the piles with a special baler they have developed for this purpose. In such locations the pile is equipped with a tight-fitting pressed steel shoe which is turned upwards so that the pile may be attached to the concrete button which is already in place through the lag screw anchored therein. This proposed steel shoe fits tightly over the shell and it is made water-tight by filling with oakum and sealing with an asphaltic cement. Where sub-soil conditions are dry, the pressed steel shoe need not be made water-tight with the Hel-cor shell. Since it is impossible to completely dewater the pile before concreting, the applicant proposes to pour 1/2 cu. ft. of rich cement grout so as not to impair the quality of the average A concrete poured subsequently. Precautions are observed with the setting of the leads to insure that the guides are in a plumb position and after each shift of the equipment, the leads are checked for plumbness to insure axial driving of the pile. All work is under the jurisdiction of the applicant's superintendents who have qualified experience in this type of work.

RECOMMENDATION

The Administrative Building Code under Section C26-391.O gives the Board power to establish rules, sic.: "Any type of pile or foundation construction unprovided for in this title shall meet in addition to the requirements of this article all requirements which may be established by the Board."

The Committee on Tests has reviewed the foregoing data and have inspected a typical installation of the applicant's Standard type of pile at the Philadelphia Navy Yard and on the basis of this data and inspection, recommends under the authority vested in the Board under Section C26-391.O the approval under section C26-191.O of the Western Foundation Company's Standard Concrete Pile (details as contained herein) as a new and unprovided for type of cast-in-place pile for a maximum load of 30 tons when installed as provided in C26-409.O,c and when meeting the requirements of C26-405.O, C26-407.O and C26-409.O, and in accordance with the details and specifications as contained herein; provided further, that there shall be available adequate inspection equipment, so that at all times the integrity of the construction can be evaluated.

It is further recommended that all designs of Western Foundation Company's Standard cast-in-place piles be certified to by the Professional Engineer in charge of design. These drawings submitted to the Department of Housing and Buildings shall bear the following wording: The design of Western Foundation Company's Standard Cast-in-place pile under N. B. Permit..... is strictly in accordance with the approval of the Board granted under Cal. 502-45-SM. All installations of this pile shall be made by the Western Foundation Company or their subsidiaries. This approval is not to be construed as the approval of the Hel-cor shell, the applicant is hereby instructed to have manufacturers of this material file for separate approval.

It is further recommended that the applicant prepare a report of each installation and when completed, aforesaid report shall be filed with the Borough Superintendent. The data contained in this report shall be as follows:

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Western's Standard Concrete Piles, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 12:50 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

WEDNESDAY AFTERNOON, NOVEMBER 7, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

624-45-A

APPLICANT—Harry A. Yarish, for B. Mortimer Cohen, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—75-80 184th street, northwest corner of Union turnpike (1st floor); (Block 7200, Lot 44), Flushing, Borough of Queens.
APPEARANCES—
For Applicant: Harry A. Yarish.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (624-45-A)

WHEREAS, Harry A. Yarish, for B. Mortimer Cohen, owner, filed October 15, 1945, an appeal from a decision of the borough superintendent, affecting premises 75-80 184th street, northwest corner of Union turnpike (1st floor); (Block 7200, Lot 44), Flushing, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated September 21, 1945, re Alt. App. 1502-45, reads:

"1. As original building was approved under Cal. 602-39-A, any changes or increase in area must be approved by the Board of Standards and Appeals."

and

WHEREAS, the applicant states the building is two stories (23 ft.) in height; 25 ft. by 32 ft. in area; of Class 4 con-

struction; erected 1939; located in a business use, D area and Class 1 height district and used and occupied as a one family dwelling and proposed to be used and occupied as follows: cellar, ordinary; 1st floor and 2nd floor combined, one family dwelling with doctor's office on the 1st floor; and

WHEREAS, Certificate of Occupancy Q10476, issued March 21, 1940, permits the use of the building as a one family dwelling, as erected under N.B. Applic. 9910-38; and

WHEREAS, the applicant contends that the premises were purchased by a physician for the specific use as shown on the plans; that the proposed extension will be of masonry and will conform in all respects with the Building Code and zoning resolution and that it is therefore requested the Board grant the relief sought in this appeal; and

WHEREAS, under Cal. 602-39-A, the Board permitted the building in question to be erected of Class 4 construction within the fire limits, on condition that the requirements of an F area district be complied with, except that the side yards need not exceed 4 ft. in width, provided there is at least 10 ft. between houses on adjoining plots and requiring the buildings be of brick veneer and the garages be of similar design.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1502-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the extension as proposed shall be for the purpose as represented, namely as a professional doctor's office in connection with the residential occupancy in the building, as permitted to be erected under Cal. No. 602-39-A, (N.B. Applic. 9910-38); that the requirements of the resolution adopted under Cal. 602-39-A, on May 1, 1939, shall be complied with as to the requirements of the "F" district, including the requirements for the side yards; that the set back from Union turnpike shall be not less than 12 ft. from the street building line at the nearest point substantially as shown on plan; that the extension shall be of masonry as proposed and separated from the frame dwelling by a fireproof door; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

630-45-A

APPLICANT—Eric Kebbon, for Board of Education, City of New York, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—302-340 East 83rd street, 1579-1593 1st avenue, southwest corner, 301-351 East 82nd street and 1584-1598 2nd avenue (basement); (Block 1545, Lots 1-52, inclusive), Borough of Manhattan.

APPEARANCES—

For Applicant: Gustave Goldman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (630-45-A)

WHEREAS, Eric Kebbon, for Board of Education, City of New York, owner, filed October 19, 1945, an appeal from a decision of the borough superintendent, affecting premises 302-340 East 83rd street, 1579-1593 1st avenue, southwest corner, 301-351 East 82nd street and 1584-1598 2nd avenue (basement); (Block 1545, Lots 1-52, inclusive), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent on N. B. Applic. 139-45, dated October 17, 1945, reads:

"1. The connection of more than one oil burner to a single flue, is contrary to Oil Burner Rules 12.1, Board of Standards and Appeals."

and

WHEREAS, the applicant states that the proposed building will be four stories (55 ft. 4 in.) in height, 284 ft. 8 in. by 202 ft. 6 in. in area; Class 1 construction; located in business use, B area and Class 1½ height district; used and occupied as a public school; and

WHEREAS, the applicant contends that if compliance with the Oil Burner Rules were required, three individual flues would have to be installed; that it is proposed to erect a medium temperature chimney for one boiler and a similar chimney for two boilers; that the breeching from one boiler, equipped with a fully automatic type oil burner, will be connected to one chimney and the breeching from two boilers equipped with semi-automatic oil burners will be connected to the other chimney; that these boilers will at all times be under the supervision of a competent and qualified operator; that the estimated temperature at entrance to chimney is about 400 degrees; that these boilers will be operated simultaneously at times.

Resolved, that the decision of the borough superintendent, acting on N. B. Applic. 139-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the installation shall comply with the requirements of the Building Code and the Oil Burner Rules of the Board of Standards and Appeals, and that the conditions as proposed shall be maintained.

634-45-A

APPLICANT—Gerald L. Kaufman, for Sagamore Land Corporation, owner (Jane Engel, Inc., lessee).

SUBJECT—Appeal from an order and decision of the fire commissioner.

PREMISES AFFECTED—1021-1031 Madison avenue and 44-52 East 79th street, southeast corner (cellar); (Block 1393, Lot 52), Borough of Manhattan.

APPEARANCES—

For Applicant: Gerald L. Kaufman.

For Administration: Peter Maher, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Chairman Murdock and Commissioner Blum 2

Negative: Commissioner Savage and Deputy Chief Gunn 2

THE RESOLUTION (634-45-A)

WHEREAS, Gerald L. Kaufman, Sagamore Land Corporation, owner (Jane Engel, Incorporated, lessee), filed October 22, 1945, an appeal from an order and decision of the fire commissioner affecting premises 1021-1031 Madison avenue and 44-52 East 79th street, southeast corner (cellar); (Block 1393, Lot 52), Borough of Manhattan; and

WHEREAS, Order 34712-LF, issued by the fire commissioner June 5, 1945, reads:

"1. Provide a non-automatic sprinkler system in cellar, as provided in C19-161.O of the Adm. Code, and in connection therewith, provide an automatic fire alarm complete with central office connection. Art. 16, Ch. 26, Adm. Code and C19-161.O, Adm. Code."

and

WHEREAS, the decision of the fire commissioner dated October 3, 1945, reads:

"In reply to your request for reconsideration on Order 34712-LF, requiring an approved type automatic sprinkler system in the cellar, you are advised that after consideration of the proposed alteration in the cellar, your request to omit compliance with the order has been denied."

and

WHEREAS, the applicant states the building is two stories and cellar (26 ft.) in height; 100 ft. by 100 ft. in area; of Class 3 construction; erected in 1926, located in a restricted retail use, B area and Class 1½ height district, and used and occupied since 1936—cellar, boiler room and storage, 15 persons; 1st floor, stores and offices, 125 persons; 2nd floor,

showroom and 25% manufacturing, 140 persons; that no change in use or occupancy is proposed; that the building is equipped with three interior metal stairs, enclosed in partitions of fire retarding construction, equipped with three-quarter hour fireproof self-closing doors, two of which lead from the roof to the street; and

WHEREAS, the applicant contends that the order was issued due to the amount of combustible material stored in the cellar and the lack of adequate ventilation for cellar storage spaces; that in order to correct these conditions, it is proposed to move approximately 50% of the dresses now stored in the cellar, to stock rooms to be constructed on the first floor; that the existing 2 ft. 6 in. steel stairs near the work shop will be relocated at the Madison avenue front of cellar, thus providing another means of egress, enclosed in 4 in. terra cotta block partitions with ¾ hour fireproof self-closing doors; that the existing partitions, enclosing storage spaces will be removed, thus improving ventilation and access; that in the box storage room and work shop, a sprinkler system will be installed, connected to the existing domestic water supply, with heads spaced for 80 sq. ft. coverage; that both of these spaces will be enclosed in 4 in. terra cotta block partitions, with fireproof self-closing doors; that air conditioning ducts will be relocated, to provide more ventilation and fuseable link dampers will be installed; and

WHEREAS, the applicant further contends that the cost to comply with the order would be $3200 for the non-automatic sprinkler system; that the automatic fire alarm system with central office connection, in addition to its installation cost, would require charges of several hundred dollars per year; that due to the low story height, the headroom below the present ducts is only 6 ft. 8 in. in parts of the cellar; that sprinkler heads, if set below this point, would interfere with the use of the cellar; that it is proposed to erect a new 3rd story under Alt. 1356-45 and the proposed changes to the cellar and 1st floor will be included in this contract, if this appeal is granted; that in view of the fact that the alterations proposed and as indicated on drawings filed with this appeal, in the opinion of the applicant, will meet the objections of the Fire Department and obviate the necessity for a sprinkler and fire alarm, with central office connections, it is therefore requested that the order be modified; and

WHEREAS, the following resolution was offered for consideration:

Resolved, that the Order 34712-LF of the fire commissioner, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the additional fireproof enclosed stair shall be installed from the cellar to the 1st story, leading to Madison avenue, as indicated on plans filed with this appeal marked "Received October 22, 1945" and the revised cellar plan marked "Received November 7, 1945"; that the cellar shall be maintained as shown on such revised plan, to the satisfaction of the fire commissioner; that the new stair to Madison avenue as proposed, shall be constructed, and the existing stair at East 79th Street shall be maintained, as well as the enclosed interior stair leading to the first floor; that the space proposed for box storage, shall be enclosed with fireproof partitions with a fireproof, self-closing door and shall be protected by a sprinkler system connected to the domestic water supply of the building; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that plans shall be filed immediately with the Department of Housing and Buildings, showing these changes and work shall be proceeded with promptly.

Resolved, that Order 34712-LF of the fire commissioner be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

636-45-A

APPLICANT—Eggers and Higgins, for F. and M. Schaefer Brewing Company, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—440-446 Kent avenue, southwest corner of South 8th street (1st to 4th floors, inclusive); (Block 2134, Lot 1 and Block 2143, Lot 1), Borough of **Brooklyn.**

APPEARANCES—

For Applicant: Mario E. Campioli and Harry B. Rutkins.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (636-45-A)

WHEREAS, Eggers and Higgins, for F. and M. Schaefer Brewing Company, owner, filed October 18, 1945, an appeal from a decision of the borough superintendent, affecting premises 440-446 Kent avenue, southwest corner of South 8th street (1st to 4th floors, inclusive); (Block 2134, Lot 1 and Block 2143, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated September 24, 1945, on Alt. Applic. 3784-44, reads:

"6. Two legal exits should be provided from each portion of the 3rd and 4th floors.

8. Sect. 270 of the Labor Law, par. 7, requires all vertical openings in the floors be enclosed. Submit detail showing enclosure of 'kettle' and tank openings.

10. The use of cork in partition construction on the 3rd and 4th floors is contrary to sections 3.2.1 & 10.4.3.1 of the Bldg. Code."

WHEREAS, the applicant states that the building will be six stories and penthouse (98 ft.) in height, 105 ft. 8 in. by 110 ft. 9½ in. when extended, of Class 1 construction, located in an unrestricted use, A area, and Class 2 height district; that the building was erected prior to 1900 and used since erection for manufacturing and storage of beer and for offices with five persons in the basement, 4 persons on the 1st floor; 4 persons on the 2nd floor; 1 person on the 3rd floor; 1 person on the 4th floor and no occupancy above the 4th floor; that total occupancy throughout building is to be 15 persons; that the building is equipped with two interior 3 ft. 8 in. wide stairs for 3rd and 4th floors and three such stairs for the lower floors; that two stairs extend to the roof bulkhead; that stairs are fireproof enclosed, equipped with fireproof, self-closing doors and lead to the street; and

WHEREAS, the applicant contends as to objection 6, that there has been no change in the existing means of egress and the proposed addition will not increase the occupancy; that the existing egress consists of two 3 ft. 8 in. stairs in fireproof enclosure and other exits, with the arrangement of stairs and exits for the questionable 3rd and 4th floors, are adequate; that there are no men employed on the 3rd and 4th floors, except one man who periodically inspects and operates valves; and contends as to objection 8, that because of the special nature of the business and the processes involved, equipment extends through several stories and the openings in the floors are required; that similar conditions exist in the present building; and contends as to objection 10, that there is existing cork in the building and the proposed addition extends its use and increases by a small percentage, the total amount in the structure; that all rooms, where new partitions or wall enclosures are indicated to have cork application on the wall surfaces, will have all the wall surfaces of the room covered with new cork or existing cork covering; that all cork thicknesses consist of two layers applied to walls with asphalt and the surface of same finished with ¾ in. cement plaster; that the existing building and the proposed addition will be fireproof throughout; and

WHEREAS, Certificate of Occupancy 74665 issued November 20, 1934, permits the use and occupancy of the building as follows: 1st floor, Sternewirt and cooper shop, 8 persons; 2nd floor, locker rooms and maintenance shop, 14 persons; 3rd floor, hop storage, 4 persons; 4th floor, vacant; and

WHEREAS, drawings filed with this appeal indicate that a portion of the extension proposed will project into the lines of South 9th street; and

WHEREAS, the applicant has filed a statement that the Board of Estimate closed South 9th street on May 26, 1938 and that deeds, conveying a portion of the bed of the street involved, were recorded in the office of the Register of Kings County April 12, 1939, lib. 5673, pages 546-549.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3784-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 6, *on condition* that the enclosed exits as indicated on plans filed with this appeal marked "Received October 18, 1945" shall be maintained, as shown on the 3rd and 4th floors; that such stairs shall both lead to the roof and both lead to the street; as to Objection 8, that the vertical kettle and tank openings may be permitted, provided the building in all other respects, except as herein modified, shall comply with all laws, rules and regulations applicable thereto; as to Objection 10, that the use of cork in partitions, as proposed, on the third and fourth floors may be permitted, provided the partitions are covered with asphalt and two coats of cement plaster to a thickness of ¾ in. are applied.

645-45-A

APPLICANT—Irving Adelsohn, for Elix Kravitz, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—757-761 Utica avenue, east side, 155 ft. south of Lenox road (1st floor); (Block 4656, Lots 46, 47 and 48), Borough of Brooklyn.
APPEARANCES—
For Applicant: Irving Adelsohn and Elix Kravitz.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (645-45-A)

WHEREAS, Irving Adelsohn, for Elix Kravitz, owner, filed October 23, 1945, an appeal from a decision of the borough superintendent, affecting premises 757-761 Utica avenue, east side, 155 ft. south of Lenox road (1st floor); (Block 4656, Lots 46, 47 and 48), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated October 15, 1945, on N.B. Application 594-45, reads:

"1. The proof submitted to the Superintendent that the area marked on the plans "unloading space" will be actually so used, is not acceptable. Therefore Section 19(g) of the zoning resolution, permitting this area to be added to the allowable area of the building does not apply."

and

WHEREAS, the applicant states the proposed building will be one story (14 ft. 10 in.) in height; 60 ft. by 100 ft. and 85 ft. in area; of Class 3 construction; located in a business use, C area and Class 1½ height district, and used and occupied as a warehouse for plumbing supplies; and

WHEREAS, the applicant contends the building will be divided into two parts, the warehouse being 36 ft. by 100 ft. and the unloading space 24 ft. by 85 ft.; that the unloading space will be divided into two portions, the front portion will have a ramped floor, so that trucks and trailers delivering merchandise, can back up against the platform located in the rear; that the warehouse portion will occupy 60% of the lot; that section 19(g) states "where provision is made for parking or unloading within a building, the area of such parking and unloading facilities may be added to the area permitted to be occupied by the first floor of the building;" that a reasonable interpretation of Section 19(g) will recognize that types of business handling bulky merchandise require more unloading space than is required for other uses; that this also holds trucks to the size of trucks generally required to deliver merchandise; that the owner kept a record of actual deliveries on their place of business from August 21, 1945 to September 20, 1945; that this record indicates that the length of trucks making deliveries are from 40 to 50 ft. long, whereas the length of the ramp proposed is approximately 47 ft.; that the area to be occupied by various shipments of merchandise immediately after unloading, as is evidenced by records of deliveries during the 8 day's deliveries recorded at the applicant's present premises, shows that the area required exceeded 900 sq. ft. in deliveries per day and in fact on three days exceeded 2500 sq. ft.; that the space provided in the plan for proposed unloading of merchandise is only 827 sq. ft.; that the owner's present establishment employs 4 men to continuously remove merchandise as soon as same is unloaded in order to make room for new deliveries; that this practice will be continued in the proposed building; that in the case of galvanized pipe deliveries, the pipes are delivered in 22 ft. lengths, which leaves very little additional space for the unloading of other merchandise; that the space shown on plans for unloading as proposed, is the minimum that will be practicable, as merchandise is frequently ordered in car load lots and the delivery of such orders is usually made consecutively by two or three large trucks or trailers; and

WHEREAS, the applicant has filed with the Board communications from various concerns delivering merchandise to the owner's present establishment in support of this appeal; and

WHEREAS, this appeal is offered solely for interpretation of the requirements of law and not for variance; and

WHEREAS, in the opinion of the Board, the space as shown for loading and unloading space, complies with the requirements of Section 19(g) of the zoning resolution, provided such space is used only for loading and unloading and at no time used for the storage of merchandise or for motor vehicles other than when such merchandise is being loaded or unloaded.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 594-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the premises is maintained as proposed and complies with all requirements of all laws, rules and regulations in all respects, and that the loading space is maintained in accordance with the Board's finding, as hereinbefore stated, for the special conditions as set forth.

649-45-A

APPLICANT—Fireproof Structure Corporation, for Julius Aptowitz, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—136-17 38th avenue, north side, 155 ft. east of Main street (attic); (Block 4978, Lot 75), Flushing, Borough of Queens.
APPEARANCES—
For Applicant: Samuel Rice.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (649-45-A)

WHEREAS, Fireproof Structure Corporation, for Julius Aptowitz, owner, filed October 25, 1945, an appeal from a decision of the borough superintendent, affecting premises 136-17 38th avenue, north side, 155 ft. east of Main street (attic); (Block 4978, Lot 75), Flushing, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated October 17, 1945, re Alt. Applic. 1707-45, reads:

"1. In the fire limits it is unlawful to increase a two story frame building an additional story. Sec. 4.1.5 (d2) Bldg. Code.

2. A structure of mixed occupancy may not be enlarged in frame construction. Sec. 4.1.5 Bldg. Code."

and

WHEREAS, the applicant states that the building is two stories and attic (26 ft.) in height; 30 ft. by 40 ft. in area; of Class 4 construction; erected 1906, altered 1936; located on a lot 30 ft. front by 87 ft. in depth, in a business use, C area and Class 1½ height district and used and occupied; 1st floor, 2 stores, 2nd floor and attic, combined, one family; that the attic is used for storage and the building is proposed to be used and occupied as follows: 1st floor, same; 2nd floor and 3rd floor combined, one family, with three bedrooms on the new third floor; that the building is equipped with one 3 ft. 8 in. wide wood stairs, enclosed in partitions of wood studs, lath and plaster, equipped with wood doors, which are not self-closing and lead directly to the street, and equipped with a ladder and scuttle to the roof; and

WHEREAS, the applicant contends that the owner has lived on the premises since 1932 in the four rooms shown on the 2nd floor plan, but finds it inadequate for his enlarged family of seven children and wife; that it is proposed to alter the building, by removing the existing peak attic roof and make the same flat, to give 8 ft. clear height for 3 new rooms in new third floor; that the alteration will not increase the occupancy whatever, but due to the increase in the height of the building from 26 ft. to 29 ft., it will not be in compliance with the Code; that the building is at present wire lathed and covered with 7/8 in. cement plaster on the outside surface and the wall 12 in. from the side lot line is masonry filled between studs; that the existing building occupies about 44% of the area of the plot.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1707-45, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, as to objections 1 and 2 *on condition* that the building shall not be extended in height and area other than as proposed and as indicated on plans filed with this appeal, marked "Received October 25, 1945" (4 sheets); that the residential portion of the building shall be occupied by one family only; that a means of access to the two-story front roof shall be provided as shown from the proposed third story and in addition, a fire escape from the rear of such third story, accessible to both rear rooms, shall be constructed and maintained with a drop ladder to the yard grade; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

652-45-A

APPLICANT—Eugene Miller, for Felton Chemical Company, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—585-603 Johnson avenue, north side, 100 ft. 4 in. east of Gardner avenue (2nd and 3rd floors); (Block 2989, Lots 42 and 46), Borough of Brooklyn.

APPEARANCES—

For Applicant: Eugene Miller and Leo Howard.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (652-45-A)

WHEREAS, Eugene Miller, for Felton Chemical Company, filed October 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 585-603 Johnson avenue, north side, 100 ft. 4 in. east of Gardner avenue (2nd and 3rd floors); (Block 2989, Lots 42 and 46), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated October 16, 1945, on amendment to N. B. Applic. 356-44, reads:

"1. Provide two means of egress from each floor, complying with the requirements of Sec. 270 of the Labor Law."

and

WHEREAS, the applicant states that the existing building is one story in height; 56 ft. by 47 ft. in area; of Class 1 construction; located in an unrestricted use, A area and Class 1½ height district and used and occupied as follows: Cellar, storage of essential and vegetable oil in steel containers, 2 persons; 1st floor, same, 4 persons and proposed to be used and occupied as follows: cellar, storage of essential and vegetable oil in steel containers, 2 persons; 1st floor, same and shipping, 4 persons; 2nd floor, manufacturing admixtures and packaging, 5 persons; 3rd floor, factory, admixtures, laboratory and storage, 2 persons; that the building is equipped with one 3 ft. 8 in. wide iron stairs, enclosed in 6 in. terra cotta partitions, equipped with fireproof, self-closing doors and leading from the roof bulkhead, directly to the street; and

WHEREAS, the applicant contends that is it proposed to add two additional stories of fireproof construction to the existing one story and cellar fireproof building; that the gross area of the building is 2450 sq. ft. and the net area, after deducting walls and partitions for stair and elevator is approximately 1992 sq. ft.; that the height from the street level to the third floor will be 25 ft.; that the cellar will be used for storage and has one exit leading to an enclosed fireproof stairway; that the 1st floor will be used for storage and shipping only, with an occupancy of 4 persons and will have one exit to a fireproof stair enclosure and three shipping doors leading to the yard or the street; that the 2nd floor will be used for factory with an occupancy of 5 persons and will have two exits, one to an enclosed fireproof stairway and one to an enclosed steel and concrete bridge to the adjoining building; that 3rd floor will be used as a factory, laboratory and storage with an occupancy of two and will have one exit leading to an enclosed fireproof stairway; that the distance from the remote corner of this area to the exit will be 61 ft.; that the manufacturing to be done, consists of admixture and packaging of various essential and vegetable oils, aromatic chemicals and flavoring materials; that all of the materials are brought to the floors, packaged in shipping containers; that in view of the small area, the fireproof construction, the small occupancy and the type of manufacturing to be done, it is requested the Board permit the use of this building as a factory with the exit conditions as proposed.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on amendment to N. B. Applic. 356-44, objection 1, and that the appeal be and it hereby is *granted on condition* that the primary means of exit as shown, shall be maintained; that a secondary means of exit, from the 2nd floor by means of a bridge to the adjoining building in the same ownership, shall be maintained; that from the third floor, there shall be an exterior fire stairs, leading to such bridge or to grade; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

669-45-A

APPLICANT—A. H. Salkowitz, for Wainwright Homes, Inc., owner.

SUBJECT—Appeal from decisions of the borough superintendent.

PREMISES AFFECTED—221-28 Braddock avenue, south side, from 221st street to 221st place, 89-02 to 89-18 and 89-17 to 89-33 221st street and 89-02 to 89-06 221st place (Block 10666, part of Lot 53 and Block 10667, part of Lot 27), Queens Village, Borough of Queens.

THE RESOLUTION (669-45-A)

WHEREAS, A. H. Salkowitz, for Wainwright Homes, Inc., owner. filed November 1, 1945, an appeal from decisions of the borough superintendent, affecting premises 221-28 Braddock avenue, south side, from 221st street to 221st place, 89-02 to 89-18 and 89-17 to 89-33 221st street and 89-02 to 89-06 221st place (Block 10666, part of Lot 53 and Block 10667, part of Lot 27), Queens Village, Borough of Queens; and

WHEREAS, the decisions of the borough superintendent dated, October 30, 1945, on N. B. Applications 595, 596, 597, 163, 164, 1282, 1281 of 1945, and the decisions of the borough superintendent, dated October 29, 1945, on N. B. Applications 1502 and 1501 of 1945, and the decisions of the borough superintendent, dated October 17, 1945, on N. B. Applications 1277, 1276, 1283 of 1945, read:

"1. The erection of a frame building within the fire limits is contrary to Section 4.1.2 Building Code."

and

WHEREAS, the applicant states that the premises consist of a plot fronting 82.81 ft. on 89th avenue, 30.38 ft. on Braddock avenue, 175.07 ft. on 221st street, in Block 10666, part of Lot 53, and a plot fronting 230.08 ft. on 221st street, 388.65 ft. on Braddock avenue, 86.73 ft. on 221st place, located in a business and residence use, D area, Class 1 height district, which it is proposed to divide into separate lots and to erect thereon one and one-half story frame one family dwellings, two of which will have attached accessory garages, all as indicated on plans filed with this appeal marked "Received November 1, 1945"; that the buildings are to be constructed of frame, covered on the exterior with 4 in. of masonry veneer from foundation to plate line; that the roofs are to be covered with approved asphalt shingles; and

WHEREAS, the applicant contends that the dwellings will be for one family occupancy and will be of the detached type; that these dwellings will be part of a group development being erected in this same area and adjoining the premises under appeal, all erected by the same owner; that the entire surrounding area is composed of frame dwellings; that all buildings will be set back from the building lines, so that proper rear yards are more than adequately provided for; and

WHEREAS, plans filed with this appeal indicate that the dwellings will be set back from 221st street and 221st place building lines approximately 15 ft., into which set-back front entrances will project; that the dwelling to be erected under N. B. Applic. 595-45, will be set back from 89th avenue a distance of 10 ft.; that the dwelling to be erected under N. B. Applic. 1502-45, will be set back from Braddock avenue approximately 4 ft.; that the buildings will be so located on the respective lots, as to be not nearer than 15 ft. from the next adjoining dwelling.

Resolved, that the decisions of the borough superintendent, acting on N. B. Applications 595, 596, 597, 163, 164, 1281, 1282, 1501, 1502, 1276, 1277 and 1283-45, be and they hereby are *modified* and that the appeal be and it hereby is *granted* as to Objection 1, in connection with each such application, *on condition* that the buildings shall be erected substantially as herein proposed and shall be limited to an occupancy of one family each; that any garage erected in connection with any building shall be accessory only to such dwelling and shall comply with the requirements of the zoning resolution for a similar garage when erected within a residential area and shall be of construction comparable to the proposed construction of the dwelling; that as soon as official city lot numbers are assigned to the lots, a record of same shall be filed with the borough superintendent and with this Board; that an application shall be made to the City Planning Commission for a change of district to residential use; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

THE RESOLUTION (670-45-A)

WHEREAS, A. H. Salkowitz, for Wainwright Homes, Inc., owner, filed November 1, 1945, an appeal from decisions of the borough superintendent, affecting premises 89-31 to 89-35 221st place, east side, 171 ft. and 211 ft. south of Braddock avenue (Block 10668, part of Lot 16), Queens Village, Borough of Queens; and

WHEREAS, the decisions of the borough superintendent, dated October 29, 1945, on N. B. Applications 1499 and 1500-45, read:

"1. The erection of a frame building within the fire limits is contrary to Section 4.1.2 Building Code."

and

WHEREAS, the applicant states the buildings will be 1½ stories (19 ft.) in height, 24 ft. 8 in. by 38 ft. 8 in.; of Class 4 construction; located in a business and residence use, D area, and Class 1 height district; used and occupied as one-family dwellings; and

WHEREAS, the applicant contends that the buildings will be constructed of frame walls, covered on the exterior by 4 in. masonry veneer to plate line; that roofs will be surfaced with approved asphalt shingles; that these dwellings are part of a group development being erected in the same area; that the surrounding area is composed of dwellings of frame construction; that due to the acute angle of the building line on Braddock avenue, these buildings come within the 100 foot business use district boundary line; that all buildings are set back from the building line, so that proper rear yards are more than adequately provided for; and

WHEREAS, the proposed dwellings will be set back from 221st place, a distance of 15 feet and will have side yards along the northerly lot lines of not less than 10 feet and along the southerly lot lines, not less than 5 feet.

Resolved, that the decisions of the borough superintendent, acting on N. B. Applications 1499 and 1500-45, Objection 1, be and they hereby are *modified* and the appeal be and it hereby is *granted* in connection with each such application, *on condition* that the buildings shall be erected substantially as herein proposed and shall be limited to an occupancy of one family each; that any garage, erected in connection with any building, shall be accessory only to such dwelling and shall comply with the requirements of the zoning resolution for a similar garage when erected within a residential area and shall be of construction comparable to the proposed construction of the dwelling; that as soon as official city lot numbers are assigned to the lots, a record of same shall be filed with the borough superintendent and with this Board; that an application shall be made to the City Planning Commisison for a change of district to residential use; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

APPLICANT—Lama and Proskauer, for Borden's Farm Products Company, Inc., owner.
SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the commissioner of buildings), previously granted on condition, under section 21 of the zoning resolution, for a term of ten years, permitting in a business use district the extension in area and maintenance of a gasoline service station, previously granted for five year term.
PREMISES AFFECTED—365-381 Fourth avenue, northeast corner of 6th street (Block 987, part of Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (203-33-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, for a term of years, affecting premises 365-381 Fourth avenue, northeast corner of 6th street (Block 987, part of Lot 1), Borough of Brooklyn, was granted by the Board on July 16, 1935, on certain conditions; and

WHEREAS, the resolution was amended on October 8, 1935 and November 10, 1936 and the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted July 16, 1935, as amended by resolutions adopted October 8, 1935 and November 10, 1936, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7f for a term of ten (10) years from the date of this *amended* resolution, permitting that portion of the building with a frontage of 150 feet on 4th avenue, as indicated on revised plans marked

'Received October 4, 1935' to be occupied as a gasoline service station, *on condition* * * * and that other than as *amended* herein, the conditions of the resolutions adopted by the Board October 8, 1935 and November 10, 1936, shall be complied with in all respects and that a certificate of occupancy shall be obtained."

170-37-BZ

APPLICANT—Saul Steinlauf, for Hermine Corliss, owner.

SUBJECT—Application for Approval of Plans—re Application (decision of the commissioner of buildings) previously granted on condition under section 7f of the zoning resolution, permitting in a business use district, for a term of ten years, the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—79-05 Little Neck road, southeast corner of Union Turnpike (Block 12, Lots 4, 5 and 6), Floral Park, Borough of Queens.

APPEARANCES—

For Applicant: Saul Steinlauf, Hermine Corliss, William O. Staber and Albert Taufman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and revised plans approved.

THE VOTE TO REOPEN AND APPROVE REVISED PLANS—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (170-37-BZ)

WHEREAS, this application, under section 21 of the zoning resolution permitting in a business use district the erection and maintenance of a gasoline service station, affecting premises 79-05 Little Neck road, southeast corner of Union turnpike (Block 12, Lots 4, 5 and 6), Floral Park, Borough of Queens, was granted by the Board April 12, 1938, on certain conditions; and

WHEREAS, on October 11, 1938, plans were approved by the Board, in accordance with the resolution of April 12, 1938; and

WHEREAS, time was extended to obtain permits and complete the work, on October 3, 1939 and October 8, 1940; and

WHEREAS, on March 18, 1941, under section 7f of the zoning resolution, the permit was extended for a term of ten (10) years; and

WHEREAS, a further extension of time to obtain permits and complete the work, was granted on May 5, 1942, June 8, 1943 and May 9, 1944; and

WHEREAS, the applicant requested a further extension of time and a further extension of the permit; and

WHEREAS, the Board deemed that the time to complete should be extended as well as the term of the variance, in view of the conditions that have prevailed under which no construction could be done, as to a building deemed unessential for the war effort; and

WHEREAS, on April 10, 1945, the Board extended for one year, the time to obtain permits and also extended the permit for a term of ten (10) years; and

WHEREAS, the applicant requested an amendment of the resolution and approval of the revised plans.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted April 12, 1938, as amended October 11, 1938, as to approval of plans, by adding thereto:

"* * * that the plans approved October 11, 1938, and marked 'Received October 5, 1938' may be amended in the following respects:

that the lubritorium section may be increased in depth not over two feet and in width not over four feet; that the rear space at the back of lubritorium may be reduced to not less than four feet; that the slate on the roofs may be heavy variegated slate; that a portion of the false timberwork on the rear elevation may be eliminated; that the wall on the easterly lot line may be increased to not over seven feet; that the gates shown at entrance of lubritorium section may be changed to overhead doors; that the window in the rear wall of the lubritorium section shall be changed to 6 x 6 glass block as approved for exterior wall without access panels; that such resolutions as amended through April 10, 1945, shall be complied with in all respects except as herein *amended* as to approved plans (Permit 969-37)."

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

NOTICE

FORMS FOR NOTICE TO PROPERTY OWNERS

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

ELECTRICAL CODE ON SALE

Copies of the Electrical Code of the City of New York, Pocket Edition—344 pages, are now on sale at the Distribution Division of the City Record Office, Room 2213, Municipal Building, Manhattan, N. Y. 7. Price 75 cents; by mail 85 cents.

RULES

EXTRACTS FROM THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK, RELATING TO REFRIGERATING SYSTEMS

General Provisions

§C19-2.0. Definitions.

Unless otherwise expressly stated, whenever used in this chapter the following terms shall respectively be deemed to mean:

34. Refrigerating system, a combination of apparatus in which a refrigerant is circulated for the purpose of extracting heat.

(a) The parts of the system are the compressor, generator, condenser, absorber, receiver, shell type or tube type apparatus, pipes, vessels, or other parts, containing refrigerant.

(b) Direct refrigeration, a system in which the refrigerant is circulated to the substance or space refrigerated.

(c) Indirect refrigeration, a system in which brine cooled by the refrigrant is circulated to the substance or space refrigerated.

(d) Refrigerant is the chemical agent other than brine used to produce refrigeration.

(e) Irritant refrigerant, any refrigerant which when breathed, attacks the throat or lungs.

(f) Hydrocarbon refrigerants, any refrigerant of the hydrocarbon class.

(g) Flammable refrigerant, any refrigerant which will burn or explode when mixed with certain proportions of air.

(h) Refrigerating machinery room, a room in which is located a refrigerating system containing refrigerant, but not including expansion coils when located in cold storage rooms or expansion coils when located in refrigerator boxes.

(i) Factor of safety, the multiple three and one-third (3⅓), the product of which and the test pressure, constitutes the probable rupture pressure.

(j) Pressure imposing element, that apparatus which draws the refrigerant from the low pressure or low temperature side of the system and discharges it into the high pressure or high temperature side of the system.

(k) Pressure limiting device, a pressure or temperature responsive mechanism for automatically stopping the operation of the pressure imposing element.

(l) Brine, any liquid which having been cooled by the refrigerating system is used for the transmission of heat.

(m) Pressure relief device, a pressure relief valve, a rupture member, fusible plug or other approved device for relieving the pressure.

(n) Pressure relief valve, a valve held shut by a spring or other means to automatically relieve pressure in excess of its setting.

(o) Rupture member, a device that will automatically rupture at a pre-determined pressure.

(p) Liquid receiver, a vessel permanently connected to a system by inlet and outlet pipes for storage of a liquid refrigerant.

(q) Container, a cylinder for the shipment of refrigerant constructed to conform to the regulations of the Interstate Commerce Commission.

(r) Mixer, a vessel or device in a system for mixing the ammonia or other soluble vapor with water.

(s) Stop valve, a cut-off valve for use during normal operation.

(t) Service valve, a key-operated shut-off valve used only during shipment, installation or repairs.

(u) Fusible plug, a device having a predetermined-temperature fusible member for the relief of pressure.

§C26-235.0. Definitions.

(a) **Public Buildings.** Public buildings are structures or parts of structures in which persons congregate for civic, political, educational, religious or recreational purposes, or in which persons are harbored to receive medical, charitable or other care or treatment, or in which persons are held or detained by reason of public or civic duty, or for correctional purposes, including among others, court houses, schools, colleges, libraries, museums, exhibition buildings, lecture halls, churches, assembly halls, lodge rooms, club houses with more than five sleeping rooms, dance halls, theatres, bath houses, hospitals, asylums, armories, fire houses, police stations, jails and passenger depots.

(b) **Residence Buildings.** Residence buildings are structures or parts of structures in which sleeping accommodations are provided, except such as may for other reasons be classed as public buildings, including multiple dwellings as defined in the Multiple Dwelling Law.

(c) **Commercial Buildings.** Commercial buildings are structures or parts of structures, which are not public buildings or residence buildings, including among others, office buildings, factory buildings, salesrooms (stores), markets, restaurants, warehouses, freight depots, car barns, stables, garages, motor vehicle repair shops, factories, laboratories, smoke houses, grain elevators, coal pockets, central station power plants and electric sub-stations.

Bonds and Fees.

§C19-24.0. Fees for Permits.

Applicants for permits under the provisions of this chapter shall pay annual fees as follows:

35. Refrigerating systems:

Class A systems	$20.00
Class B systems	10.00
Class C systems containing over six pounds of refrigerant	5.00
Class C systems containing six pounds or less of refrigerant	1.00

Refrigerating Systems

C19- 96.0. Permits.
C26-214.0. Supervision.
C19- 97.0. Classification.
C19- 98.0. Permissible locations.
C19- 99.0. Refrigerating machinery rooms and ventilation.
C19-100.0. Open flames and electrical equipment.
C19-101.0. Testing.
C19-102.0. Piping.
C19-103.0. Safety devices.
C19-104.0. Size of safety devices.
C19-105.0. Location and discharge of safety devices.
C19-106.0. Operating precautions.
C19-107.0. Equipment diagrams.

§C19-96.0. Permits.

(a) Except as hereinafter provided in this article it shall be unlawful to maintain or operate a refrigerating system without a permit.

(b) A permit will not be required for a Class C system when maintained or operated in the residence portion of a dwelling containing not more than two families, or in the residence portions of either a tenement house or a business building.

(c) It shall be unlawful to maintain or operate any refrigerating system employing a refrigerant other than those specified in this article without a permit issued upon such conditions, consistent with the provisions of this article, as are deemed by the fire commissioner necessary in the interest of public safety.

NOTE:—The Fire Chief and Commissioner prescribed under date of April 4, 1934, the following:

1. That the refrigerants dichlorodifluoromethane, known as "Freon" ("Kinetic No. 12" also "F-12") CCl_2F_2 also dichlorotetrafluoroethane ("F-114") $C_2Cl_2F_4$ and monofluorotrichloromethane ("F-11") CFC_3 are non-flammable and non-irritant, unless otherwise hereinafter provided, and

shall be regulated in accordance with the privisions of Article 18 of Chapter 19 of the Administrative Code, as such, except, when used in a room or rooms in which there is an open flame or apparatus to produce an open flame, when the provisions of said article covering irritant refrigerants shall apply.

2. That refrigerating systems employing F-11, F-12 or F-114 are restricted to parts of a building so specified in Section C-19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

3. That refrigerating systems employing F-11, F-12 or F-114 used for air conditioning are restricted to the indirect method except that the direct method may be used in parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

4. That refrigerating systems employing F-11, F-12 or F-114 shall not be installed or maintained in or on the stairways, halls, lobbies, entrances, exits or auditoriums of any building.

5. That refrigerating systems employing F-11, F-12 or F-114, shall not be installed or maintained in a hospital, unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame shall be employed, except that the Class "C" system containing not more than 10 pounds of refrigerant may be used in a diet kitchen which shall be cut off from the rest of the building by a tight fitting self-closing door or doors and provided with a window or windows to the outside air. All open flames, and/or apparatus for producing an open flame, in diet kitchens where these refrigerants are used shall be vented to the outside air as hereinafter required in Paragraph 8.

6. That refrigerating systems employing F-11, F-12 or F-114 may be installed or maintained in a hospital private room, having tight partitions and tight fitting self-closing door or doors and where not more than two persons are helpless and/or given medical treatment, provided there is no open flame and/or apparatus for producing an open flame in such room and when the system contains not more than 10 pounds of refrigerant.

7. That a refrigerating system employing F-11, F-12 or F-114 shall not be installed or maintained in a theatre and/or motion picture theatre unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame and/or apparatus to produce such open flame shall be employed, except that Class "C" systems containing not more than ten pounds of refrigerant may be installed in a rest room, smoking room or lounging room provided in such rooms no open flame or apparatus to produce such open flame shall be employed.

8. That a refrigerating system employing F-11, F-12 or F-114, when used in a room or rooms in which there is an open flame or apparatus to produce such open flame, such open flame and/or apparatus shall be provided with a hood and independent mechanical ventilation so arranged as to convey all the products of combustion to the outside of the building. This provision shall apply only to diet kitchens of hospitals and to Class "C" systems in schools, churches, dance halls, court rooms, police stations, jails, asylums, subways, passenger depots, rooms opening into passenger depots and/or subways and such other places as are deemed by the Fire Commissioner necessary in the interest of public safety.

9. That, except for Class "C" systems located in rooms in which no open flame or apparatus to produce such flame shall be employed containing not more than ten pounds of refrigerant, each refrigerating machinery room in any building in which F-11, F-12 or F-114 are used, shall be maintained vapor-tight and provided with tight fitting, self-closing doors, in accordance with Section C19-99.0 (a).

10. That each refrigerating machinery room in which F-11, F-12 or F-114 is used, shall be adequately ventilated directly to the outside air in accordance with Section C19-99.0 (b), 1, 2, 3 and 4.

11. Test pressures and setting of safety valves for systems employing F-11, F-12 or F-114, shall be included in Section C19-101.0 as follows:

Refrigerant	Column No. 1	Column No. 2	Column No. 3
F-11	25	15	15
F-12	180	120	135
F-114	60	30	30

12. That the size of pressure relief valves for systems in which F-11, F-12 or F-114 is employed, shall be as follows:

Capacity of System	Number Required
Up to 30 tons	One ½ inch
30 to 60 "	One ¾ "
60 to 100 "	One 1 "
100 to 175 "	One 1¼ inches
175 to 250 "	One 1½ "
250 to 450 "	One 2 "
450 to 900 "	Two 2 "

13. That the storage of F-11, F-12 or F-114 shall conform with Section C19-106.0 (c)-5 for other refrigerants.

14. That all other sections or parts of Article 18 of the Administrative Code not so mentioned, shall be complied with.

15. That refrigerating systems employing F-11, F-12 or F-114, installed prior to May 19, 1932, shall be inspected, and if found to comply with the rules, or if in the opinion of the Fire Commissioner, the installations are of a non-hazardous character, a permit may be issued. Installations which have been made in hospitals, theatres, asylums and places of public assembly shall be made to comply strictly with these rules.

(d) A permit, where required, shall be applied for forty-eight hours after installation is completed, containing the name of the person for whom the system is installed and the place or location of the system.

(e) Only the refrigerant specified in the permit shall be used in the system.

(f) Refrigerating systems to which these provisions cannot be applied, may be maintained and operated subject to such conditions as are deemed necessary by the fire commissioner.

§C26-214.0. Refrigeration System Operators; Certificate of Qualification.

(a) It shall be unlawful to maintain or operate in any building any refrigerating system containing more than fifty (50) pounds of refrigerant except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system. Where the system contains two hundred (200) pounds or less of refrigerant and is fully automatic, only one qualified operator will be required.

(b) It shall be unlawful to maintain or operate in a public building or exhibition hall any Class C system permitted for exhibition or demonstration purposes except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system.

(c) Upon receipt of such certificate the applicant therefor shall pay an annual license fee as follows: For the initial fee $5, and for renewal thereof the sum of $1 provided application for such renewal be made within thirty days prior to the expiration of such certificate. Any such certificate may be revoked or suspended for cause at any time by the superintendent.

§C19-97.0. Classifications.

(a) The total amount of refrigerant common to a system operating through one or more evaporators, shall be considered the capacity of the system and determine its class.

(b) A Class A system is a system containing one thousand (1,000) pounds or over of refrigerant, or capable of thirty (30) tons capacity or over.

(c) A Class B system is a system capable of less than thirty (30) tons capacity, or containing less than one thousand (1,000) pounds of refrigerant and more than amounts provided for in a Class C system.

(d) A Class C system is a system containing not more than twenty (20) pounds of refrigerant.

§C19-98.0. Permissible Locations.

(a) It shall be unlawful to install any Class A or Class B systems in any public building as defined by subdivision a of section C26-235.0 of the code, until plans have been filed with and approved by the fire commissioner, and no refrigerant shall be placed in the system until a permit has been obtained from the fire commissioner.

(b) The direct method of refrigeration shall not be used in any building, whether or not a permit is required for installation therein, outside of the refrigerating machinery room except in buildings used exclusively for ice making or for refrigerating purposes, or when such method is not carried above the first floor in business buildings, or in the business sections of business buildings provided the entire system is confined to one floor in the space occupied by a single tenant, or in the business section of a residence building when not carried above the first floor, or in a residence building occupied by not more than two families, or in any building provided a non-irritant and non-flammable refrigerant is used. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(c) It shall be unlawful to use brine in any brine circulating system that will generate flammable vapor at a temperature below 100 degrees Fahrenheit when tested in a Tagliabue open cup tester, and no refrigerant shall be used as a brine.

(d) It shall be unlawful to install or maintain a Class A system using ammonia in any building above the first floor level unless such building is used exclusively for ice making or refrigerating purposes. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(e) Systems on demonstration in exhibition halls shall be limited to the unit type containing not more than ten (10) pounds of refrigerant.

(f) It shall be unlawful to install or maintain a refrigeration system employing an irritant or inflammable refrigerant in or on:

1. The stairways, halls, lobbies, entrances, exits or auditoriums of any building;
2. Dance halls, court rooms, police stations, jails, subways, theatres, or motion picture theatres;
3. Waiting or public rooms in a railroad passenger depot or rooms opening directly therein;
4. Rooms opening directly into a subway, or theatre, or motion picture theatre, or where persons are detained or confined;
5. A school, unless the refrigerating system is used exclusively for instruction or research purposes;
6. A hospital or asylum in which persons are confined or given medical treatment or helpless. Unless otherwise required by this section, such refrigerating system shall be cut off from the building by unpierced fireproof construction. The foregoing provisions do not apply to hermetically sealed unit systems containing not more than six (6) pounds of refrigerant when located in dance halls, police stations, diet kitchens of hospitals, schools, or laboratories, and when located in rooms shut off from the rest of the building by tight partitions and tight-fitting, solid, self-closing doors and located in a room having a window to the outside air.

(g) An intermittent absorption type of refrigerating machine shall not be permitted in a Class A system. Such a type machine shall be permitted in a Class B system only when a heating medium of low pressure steam is used in its operation.

(h) The use of methyl and ethyl chloride, sulphur dioxide, or a hydro-carbon refrigerant will not be permitted in Class A systems.

(i) A Class B system using ethyl chloride or a hydro-carbon refrigerant shall not be installed or maintained in the Borough of Manhattan or in other built-up sections of the city. Elsewhere, it shall be installed or maintained only in a fireproof building of not more than one story in height, and shall be located on the ground floor, which shall be of unpierced fireproof construction. The refrigerating machinery room shall be cut off from the rest of the building by unpierced fireproof walls of not less than eight inches (8″) of brick or six inches (6″) of reinforced concrete. Direct exit therefrom leading to the open air and not to any other part of the building shall be maintained and shall be provided with vapor-tight, self-closing, fireproof doors.

§C19-99.0. Refrigeration Machinery Rooms and Ventilation.

a. Refrigerating machinery rooms.

1. All refrigerating machinery rooms in which an irritant refrigerant is used shall be maintained vapor-tight except that all doors which open to other parts of the building shall only be required to be self-closing and close fitting, and shall be kept closed at all times, except during entrance or exit. All other openings that may permit the passage of vapor to other parts of the building shall be vapor-tight and kept closed. No opening from elevator shafts shall be permitted in the refrigerating machinery room. This provision, however, shall not apply to dumbwaiter shafts the door openings of which are protected with self-closing fire doors or to a system containing less than six (6) pounds of refrigerant. Closets solely contained within and opening only into the refrigerating machinery room shall be considered as part of the room in which it opens.
2. In Class A and Class B systems in which an irritant refrigerant is used, the doors of the refrigerating machinery rooms shall open outwardly.

b. Ventilation.

1. Each Class A, B and C refrigerating machinery room of any system shall be independently provided with means for adequate ventilation to the outer air. The ventilation shall consist of a window or windows opening directly to the open air, or mechanical means capable of exhausting the foul air from the room.
2. When a window or windows are used, if placed in opposite walls so as to provide a through air circulation to the outer air, a total area of inlet and outlet, respectively, of not less than that specified in Column D of the table in subdivision 4 shall be provided. When a window or windows are placed in one wall a total area shall be provided not less than that specified in Column E of such table.
3. When mechanical means are used they shall consist of a power-driven exhaust fan of the enclosed case blower type which shall be capable of removing from the refrigerating machinery room the amount of air specified in Column B of the table in subdivision 4. The inlet to the fan shall be located near the refrigerating equipment. The outlet from the fan shall terminate not less than six (6) feet above the sidewalk and in no case under a stairway or fire escape. Where air ducts are used on either the inlet or discharge side of the fan they shall each have an area not less than that specified in Column C of such table. Sharp bends in the run of the ducts shall be avoided. The control for such mechanical means of ventilation shall be easily accessible and located outside of the refrigerating machinery room.

4.

	Pounds of Refrigerant in System	Mechanical Cu. Ft. per Minute Discharge	Window Area Mechanical Sq. Ft. Duct Area	Window Area in Sq. Ft. for each Opposite Side	Window Area in. Sq. Ft. for One Side Only
	A	B	C	D	E
Up to ...	20	150	1/4	1	6
	50	250	1/3	1 1/2	12
	100	400	1/2	2	16
	150	550	2/3	2 1/2	19
	200	680	2/3	3	25
	250	800	1	3 1/2	29
	300	900	1	4	32
	400	1,100	1 1/4	4 1/2	38
	500	1,275	1 1/4	5	42

600	1,450	1½	6	45
700	1,630	1½	6½	48
800	1,800	2	7	51
900	1,950	2	7½	55
1,000	2,050	2	8	59
1,250	2,350	2¼	9	68
1,500	2,800	2½	11	78
1,750	3,150	3	12½	87
2,000	3,500	3½	14	95
2,500	4,150	4	16	113
3,000	4,500	4½	18	130
4,000	6,000	6	24	167
5,000	7,500	7½	30	204
6,000	9,000	9	36	241
7,000	10,500	10½	42	278
8,000	12,000	12	48	315
9,000	13,000	13	52	342
10,000	14,000	14	56	360
12,000	17,000	17	68	425
14,000	19,000	19	75	470
16,000	22,000	22	86	540
18,000	24,000	24	92	580
20,000	26,500	26	100	630
25,000	33,000	33	121	760
30,000	39,000	39	142	870
35,000	44,000	44	155	940
40,000	51,000	51	176	1,060
45,000	56,000	56	190	1,120

Note—Door openings leading directly to the open air shall be considered equivalent to windows for the requirements specified in columns "D" and "E" of this table.

5. Where a non-irritant or non-inflammable refrigerant is employed, the requirements as given in the table in subdivision 4 may be reduced by one-half. When air or water is employed as the refrigerant no ventilation shall be required.

6. In lieu of mechanical means of ventilation in refrigerating machinery rooms where a Class A system or a Class B system using ammonia is installed, a water deluge may be provided which shall consist of a sprinkler system having open heads of not less than one-quarter inch (¼") orifice spaced not more than eight feet apart in any direction, and such system shall be located above all the refrigerating apparatus and piping in the refrigerating machinery room. Not more than one head shall be installed on a ¾-inch pipe; five heads on a 1-inch pipe; six heads on a 1¼-inch pipe. The deluge system shall be permanently connected with the main house supply or other assured source from which a constant water pressure of not less than twenty pounds per square inch can be maintained on the inlet side of the main control valve or valves at all times. The control valve or valves for such water deluge system shall be manually operated and easily accessible, and shall be labeled and located outside of the refrigerating machinery room.

§C19-100.0. Open Flames and Electrical Equipment.

a. Open flames.

No fire-flame or arc light will be permitted in a Class A or B refrigerating machinery room in which a flammable refrigerant is used.

b. Electrical equipment.

1. All Class A and B refrigerating systems containing more than fifty (50) pounds of refrigerant shall have an emergency swith controlling all of the electrically-operated refrigerating machinery or the remote control of such a switch located outside of the refrigerating machinery room where is can be quickly reached and operated in case of necessity.

2. Where the operating mechanism in any system is dependent upon electrical control, such control in a pressure limiting device shall be on a closed circuit. Nothing herein contained shall require a hand reset on an automatic type of refrigerating machine.

§C19-101.0. Testing.

Every part of any refrigerating system, except pressure gauges and control mechanism shall be tested to at least the following pressures: Class A and B systems containing over fifty (50) pounds of refrigerant shall be tested after installation and proved tight before being operated. A dated declaration of such test, signed by the tester, shall be posted in the machinery room.

Refrigerant	Col. 1	Col. 2 Low Pressure Side	Col. 3
	High Pressure Side	With Safety Valves	Without Safety Valves
Carbon dioxide	1,500	750	1,000
Ethane	1,050	520	760
Ammonia	300	150	225
Propane	250	115	175
Methyl chloride	155	80	120
Sulphur dioxide	135	100	100
Iso-butane	90	45	70
Butane	75	35	50
Ethyl chloride	30	15	25
Dichloromethane	12	12	12
Dichloroethylene	12	12	12
Trichloroethylene	12	12	12

§C19-102.0. Piping.

a. Piping.

1. All piping, liquid receivers or vessels containing the refrigerant, shall be supported on or by strong and durable materials. This provision shall not apply to Class C installations.

2. The arrangement of stop valves, relief devices, and other similar devices, when used shall be as shown on the diagram for Class A and B systems in section C19-107.0 of the code.

3. Every system which may be charged after installation shall have the charging connection located on its low pressure.

b. Gauge glasses.

Liquid level gauge glasses, except those of the bull's eye type, shall have automatic closing shut-off valves and such glasses shall be adequately protected against injury by slotted metal casings.

§C19-103.0. Safety Devices.

a. Construction and setting.

1. Pressure relief valves, pressure limiting devices and rupture members shall be set to prevent the pressure from exceeding the test pressure. The pressure at which the device is set to function shall be indicated thereon. (See section C19-101.0 of the code, columns 1 and 2 of table.)

2. Fusible plugs shall relieve the pressure at a temperature not exceeding 280 degrees Fahrenheit.

b. Use of stop valves.

1. It shall be unlawful to locate a stop valve between a pressure relief device or pressure limiting device and the part of the system protected thereby, unless two pressure relief devices of required size are used, and so arranged that only one pressure relief device can be cut off for repair purposes at any one time.

2. A Class B system in which no stop valves are used and in which the pressure will equalize throughout the system when the pressure imposing element is not in operation may be protected by only one pressure relief device located on the high pressure side.

c. Ammonia mixer.

1. The low pressure side of a Class A ammonia system shall be provided with a hand-operated valve for discharging the ammonia into water through a mixer to the sewer in case of emergency.

2. The ammonia mixer shall be constructed of steel and shall be capable of withstanding a pressure of at least fifty (50) pounds per square inch.

3. It shall be unlawful to locate a valve in the ammonia emergency discharge line, except for the manually-operated valve discharging into the water and ammonia mixer, but there may be one stop valve located inside the building for repair purposes only. This valve shall be sealed open and labeled "Keep Open."

4. The manually operated pressure relief valve shall be located in a locked box which can be opened by members of the Fire Department by means of a Fire Department key. The door of the box shall be on the public thoroughfare side of the building in an easily accessible location and not less than eighteen (18) inches or more than five (5) feet above the sidewalk level. The box shall be permanently labeled with letters of not less than one (1) inch reading "For Fire Department Use Only." The relief valve shall be labeled "Ammonia." A sign shall be posted within the box reading "Do Not Open Valve Until Water Is Flowing."

5. A single standard three (3) inch fire department connection shall be provided through which the necessary water may be supplied to the mixer. The fire department connection shall be located near the box and not less than eighteen (18) inches or more than twenty-four (24) inches above the sidewalk level and shall be permanently labeled having letters not less than one (1) inch high reading "To Ammonia Mixer." A check valve so set as to prevent gases from reaching the fire department connection shall be installed in the water line between the fire department connection and the water and ammonia mixer.

6. The fire department shall have sole use of the mixer and supply the necessary water.

7. In systems using over twenty-seven thousand (27,000) pounds of ammonia there shall be provided one additional water and ammonia mixer for each twenty-seven thousand (27,000) pounds of ammonia or fraction thereof so used in excess.

8. The ammonia mixer and its connection for a Class A system shall conform to the diagram in section C19-107.0 of the code.

§C19-104.0. Size of Safety Devices.

(a) The size of pressure relief valves shall be as follows:

Capacity of System	CO_2 and Ethane, No. Req., Size	Other Refrigerants No Req., Size
Up to 30 tons.....	1—½"	1—½"
30 to 60 tons.....	1—½"	1—¾"
60 to 100 tons.....	1—½"	1—1"
100 to 175 tons.....	1—½"	1—1¼"
175 to 250 tons.....	1—¾"	1—1½"
250 to 450 tons.....	1—1"	1—2"
450 to 900 tons.....	.....	2—2"

(b) Where rupture members are permitted and used, the equivalent area of the relief valve specified must be provided.

(c) Fusible plugs may be used on all Class C systems and on all Class B systems of the hermetically sealed compression type containing not more than fifty (50) pounds of refrigerant. The free discharge opening shall be one-sixteenth (1/16) inch in diameter.

§C19-105.0. Location and Discharge of Safety Devices.

a. Location.

A pressure limiting device shall be provided on the high pressure side of each water-cooled refrigerating system containing more than six (6) pounds of refrigerant. A pressure relief valve shall be provided on the high pressure side of each water-cooled refrigerating system containing twenty (20) pounds or more of refrigerant, but it shall not be necessary to discharge the refrigerant to the outside air or water tank from any such refrigerating system containing fifty (50) pounds or less of refrigerant, any other provision of part 1, of this title, to the contrary notwithstanding.

b. Location and discharge of safety devices.

1. Each compressor or generator of a Class A or B system containing more than 100 pounds of refrigerant shall be protected by a pressure relief valve connected into the high pressure side between the main stop valve and the compressor or generator to relieve excessive pressure as hereinafter provided.

2. A rupture member may be substituted for the relief valve in Co_2 systems or systems operating below atmospheric pressure.

3. Shell type apparatus such as liquid receivers, condensers, evaporators, liquid separators and absorbers of Class A and Class B systems containing more than fifty (50) pounds of refrigerant, and Class B systems containing fifty (50) pounds or less of refrigerant which can be shut off by stop valves, shall each be equipped with a pressure relief valve discharging as hereinafter provided.

4. Class C systems and Class B systems containing fifty (50) pounds or less of refrigerant so constructed that, when subjected to abnormal outside temperature such as that generated in a fire, they may burst due to the expansion of the refrigerant, shall be protected by a pressure relief device.

5. A pressure relief valve shall be required on the low pressure side of a Class B system into which the relief valve or valves on the high pressure side discharge, as so shown on equipment diagram of section C19-107.0 of the code.

c. Discharge of pressure relief valve.

1. Where ammonia is used in Class A systems, the discharge from relief valves must be conducted to the outside atmosphere or into that part of the low pressure side protected by the mixer as specified in subdivision C, of section C19-103.0 of the code. If it is discharged to the outside atmosphere it must be piped above the roof or not less than 12 feet above the grade. The discharge pipe shall be not less than the size of the relief valve outlet. The discharge from more than one relief valve may be run into a common header, the area of which shall be equal to the area of the pipes connected thereto. The outlet orifice shall be turned downward.

2. Where more than fifty (50) pounds of ammonia is used in a Class B system, the discharge from relief valves shall be piped to the outside atmosphere as specified for Class A systems, or to the low pressure side as shown in diagrams in section C19-107.0 of the code, or into a tank of water which shall be used for no purpose except ammonia discharge. At least one gallon of fresh water shall be provided for every pound of ammonia contained in the system. The water used shall be prevented from freezing without the use of salt or chemicals. The tank shall be substantially constructed of not less than one-eighth (⅛) of No. 11 U. S. gauge iron. No horizontal dimensions of the tank shall be greater than one-half (½) the height. The tank shall have a hinged cover or, if of the enclosed type, shall have a vent hole at the top. All pipe connections shall be through the top of the tank only. The discharge pipe from the pressure relief valves shall discharge the ammonia in the center of the tank near the bottom. The tank shall be as securely supported as any other portion of the system. There shall be no opening in the tank below the water level.

3. Where more than fifty (50) pounds of any refrigerant other than ammonia is used, the discharge from relief valves shall be to the atmosphere as specified for Class A ammonia systems. Carbon dioxide may be discharged into the room if the same contains at least 10 cubic feet of capacity per pound of refrigerant used.

4. Arrangements of pressure relief devices for Class A and B systems shall conform to the diagrams in section C19-107.0 of the code.

§C19-106.0. Operating Precautions.

a. Masks and helmets.

1. In a Class A system which operates above atmospheric pressure, there shall be provided at least two helmets or masks.

2. In a Class B system in which more than fifty (50)

pounds of ammonia, sulphur dioxide or other irritant refrigerant is used, there shall be provided at least one helmet or mask.

3. Only helmets or masks that have been approved by the United States Bureau of Mines as suitable for the refrigerant employed shall be used, and they shall be kept in operative condition in an easily accessible case or cabinet located immediately outside the refrigerating machinery room.

b. Signs.

1. On Class A and Class B systems containing more than fifty (50) pounds of refrigerant there shall be painted on and affixed in a permanent manner to the main steam control, main electrical and remote control switches, receivers, containers and shell type coolers, signs having letters not less than one and one-half inches (1½") high, designating the part and refrigerant contained therein.

2. The seller of every Class A or B system shall furnish the purchaser with a sign bearing his name at least 8½" by 11" in size, which gives the rated refrigeration capacity and the quantity and kind of refrigerant required for the satisfactory operation of the system. The purchaser shall conspicuously and permanently display this sign in the machinery room. The quantity and name of the proper refrigerant content and the rated refrigeration capacity shall be stamped on all Class C systems near to or on the name plate.

3. The following information shall be posted in Class A and B machinery rooms where over fifty (50) pounds of refrigerant is used: (a) The names and addresses of the engineers or operators in charge; (b) Location of nearest fire alarm box; (c) The name, address and telephone number of physician to be called in case of emergency; (d) Instructions for safely shutting down the plant in case of emergency.

c. Storage of refrigerant.

1. Refrigerant not contained in the refrigerating system shall be stored only in non-inflammable or non-irritant containers conforming to the regulations prescribed by the Interstate Commerce Commission for the transportation of such refrigerant.

2. Only two containers holding not more than a total of three hundred (300) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class A system.

3. Only one container holding not more than one hundred and fifty (150) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class B system.

4. In a Class C system no refrigerant other than that used in the system shall be stored in the refrigerating machinery room.

5. If a greater amount of inflammable or irritant refrigerant than that permitted in a refrigerating machinery room is desired, it shall be stored in a fireproof building or enclosure used for no other purpose.

6. When the refrigerant is withdrawn from a system it shall be discharged only into a suitable absorbent or containers conforming to the regulations of the Interstate Commerce Commission for the transportation of such refrigerant. It shall be unlawful to permit any refrigerant to escape into the refrigerating machinery room.

7. Containers shall be connected to the system only during period of charging or withdrawing the refrigerant.

§C19-107.0. Equipment Diagrams.

(See arrangement of pressure relief devices for Class A and Class B equipment.)

Penalties.

§C19-152.0. Violations.

Any person who shall willfully violate or neglect or refuse to comply with any provisions of part 1, of this title, except the provisions of article twenty-six, in addition to any other penalties prescribed by law, shall, upon conviction, be punished by a fine of not more than $500, or by imprisonment not exceeding six months, or by both.

CONTENTS

This issue of the Bulletin contains in the order given—

Petition and Certiorari Order Served on the Board of Standards and Appeals.

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting of Tuesday Morning, November 13, 1945, Affecting Calendar Numbers 558-37-BZ, 803-38-BZ, 248-39-BZ, 407-40-BZ, 256-45-BZ, 512-45-BZ, 55-45-BZ, 74-45-SM and 486-45-SM.

Minutes of Regular Meeting of Tuesday Afternoon, November 13, 1945, Affecting Calendar Numbers 561-45-A, 575-45-A, 579-45-A, 580-45-A, 607-45-A, 656-45-A, 617-24-BZ, 331-32-BZ, 535-32-BZ, 361-37-BZ, 480-37-BZ, 866-38-BZ, 1308-39-BZ and 284-42-BZ.

PETITION AND CERTIORARI ORDERS SERVED ON THE BOARD OF STANDARDS AND APPEALS

On November 15, 1945, copy of petition and order of certiorari was served on the Board by Lorenz, Finn & Lorenz, attorneys for 108 West 34th Street Corp., owner of Premises 108 West 34th Street, in objection to variance granted by the Board on October 16, 1945, for extension of building (elevators) exceeding area limitations; Cal. No. 481-45-BZ; premises 102 West 34th Street. 105 West 33rd Street and 1293-1311 Broadway, Borough of Manhattan.

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to November 13, 1945.

Cal. No. Dept. Premises Affected

683-45-A—H.B.M.—49-55 Lexington avenue east side, 39.6 ft. south of East 25th street (3rd to 6th floors, inclusive); (Block 880, Lot 66), Borough of Manhattan, Alt. 686-44.

684-45-SA—Otis Type "G" Hoistway Door, Car Door or Gate Contact, Appliance.

685-45-BZ—H.B.B.—1520-1524 Avenue J and 1002-1016 East 16th street, southwest corner (Block 6717, Lots 9 and 18), Borough of Brooklyn, Alt. 3247-45:

686-45-A—H.B.B.—300 37th street, south side, 125 ft. east of 3rd avenue (Block 700, Lot 16), Borough of Brooklyn, Alt. 3172-45.

687-45-BZ—H.B.B.—3712-3714 13th avenue, west side, 70 ft. and 90 ft. south of 37th street (Block 5295, Lots 37 and 38), Borough of Brooklyn, Alt. 2918-45 and Alt. 2919-45.

688-45-BZ—H.B.Q.—162-34 Pidgeon Meadow road, west side, 289.54 ft. south of 46th avenue (Block 5461, Lot 40), Flushing, Borough of Queens, Alt. 1912-45.

689-45-A—F.D.—378-392 Flushing avenue, south side, 116 ft. 11 in. west of Franklin avenue and 33-37 Little Nassau street (Block 1884, Lots 43, 46 and 48), Borough of Brooklyn, Decision.

690-45-SA—Atomic Oil Burner, Models 1G, 2G, 3G, 4G and 5G, Appliance.

691-45-A—F.D.—35-54 83rd street, west side, 100 ft. north of 37th avenue (Block 1456, Lot 29), Jackson Heights, Borough of Queens, CMVO-37656.

692-45-A—H.B.B.—176 Hope street, south side, 84 ft. 9½ in. west of Union avenue (Block 2387, Lot 12), Borough of Brooklyn, Amendment to Alt. 1649-45.

693-45-A—H.B.M.—270-272 West 19th street, south side, 150 ft. east of 8th avenue (1st floor); (Block 768, Lots 75 and 76), Borough of Manhattan, Alt. 1703-45.

694-45-A—H.B.Bx—North side of West 254th street, 284 ft. east of Mosholu avenue (Block 3421D, Lot 1417), Borough of The Bronx, N.B.126-44, N.B.139-44 and N.B. 140-44.

695-45-A—F.D.—17-19 Rush street, north side, 123 ft. east of Kent avenue (5th floor); (Block 2163, Lot 35), Borough of Brooklyn, 00010-C and Decision.

696-45-A—H.B.M.—217-219 West 57th street, north side, 250 ft. west of 7th avenue and 216-224 West 58th street (4th, 5th and 6th floors); (Block 1029, Lots 21, 23, 44, 45, 46 and 46½), Borough of Manhattan, Misc. F.P. 2077-45.

697-45-A—F.D.—224 Tompkins street, southeast corner of Warren street (Block 552, Lots 23, 24, 25 and 26), Stapleton, Borough of Richmond, 18387-LF and Decision.

698-45-SA—Todd Type "P" Fully Automatic Oil Burning Unit, Models G-15, G-30, G-45, F-60 and G-90, Appliance.

699-45-A—F.D.—401 Lexington avenue, north side, 225 ft. west of Tompkins avenue (Block 1799, Lot 55), Borough of Brooklyn, 155590-LF and Decision.

Restored to Calendar.

289-40-BZ—H.B.Bx—103 Bruckner boulevard (formerly known as 447-457 East 133rd street), north side, 195 ft. west of Brown place (Block 2278, Lots 64-69, inclusive), Borough of The Bronx, Amendment to Alt. 960-39.

1025-39-BZ—H.B.R.—2505 Hylan boulevard, southwest corner of New Dorp lane (Block 4221, Lot 67), New Dorp, Borough of Richmond, Decision re N.B.148-39.

DESIGNATIONS: H.B.—Department of Housing and Buildings; H.B.B.—Department of Housing and Buildings, Brooklyn; H.B.M.—Department of Housing and Buildings, Manhattan; H.B.Q.—Department of Housing and Buildings, Queens; H.B.R.—Department of Housing and Buildings, Richmond; H.B.Bx.—Department of Housing and Buildings, Bronx; H.D.—Health Department, and F.D.—Fire Department.

CALENDAR

Approved appliances and materials are printed in the Supplement to the Bulletin of April 10. 1945, Vol. 30, No. 15A.

NOVEMBER 20, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, November* 20, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

293-45-BZ—Application, May 16, 1945, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Harry Pollack, owner, to permit in a business use district, the reconstruction of an existing gasoline service station and inclusion of a motor vehicle repair shop within 200 ft. of a hospital entrance; premises 739-747 Albany avenue, and 600-610 Clarkson avenue, southeast corner (Block 4846, Lot 1), Borough of Brooklyn.

296-45-BZ—Application, May 14, 1945, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Ida Gottfried, owner, to permit in a business use district, the reconstruction and extension of gasoline service station (previously granted by the Board); premises 1769-1779 Coney Island avenue, east side, 315 ft. south of Avenue N (Block 6749, Lots 78 and 81), Borough of Brooklyn.

322-45-BZ—Application, May 29, 1945, under sections 7e, 7i and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Israel Fleiss, owner, to permit in a partly residence and business use district, the change in occupancy from stores to motor vehicle repair shops; premises 2243-2259 White Plains road, west side, 65 ft. north of Thwaites place (Block 4342, Lot 39), Borough of The Bronx.

612-45-BZ—Application, October 15, 1945, under section 21 of the zoning resolution, of Sidney L. Strauss, applicant, on behalf of Henry J. Pfistner, owner, to permit in a residence and business use district, the erection of a gasoline service station and parking for more than five motor vehicles; premises 94-15 to 94-23 Northern boulevard, 32-45 to 32-61 Junction boulevard, northeast corner and 32-44 to 32-60 95th street, northwest corner of Northern boulevard (Block 1424, Lots 32 and 33), Corona, Borough of Queens.

375-40-BZ—Application of Walter A. Beaudel, applicant and owner, reopened October 23, 1945 for consideration as to extension of time to obtain permits and complete work—Application, previously granted on condition, under section 7c of the zoning resolution, permitting in a residence use district, the alteration and reconstruction of an existing gasoline service station; premises 144-12 Springfield boulevard, northwest corner of North Conduit avenue and 186-08 144th street, northwest corner of Springfield boulevard (Block 3816, Lot 76 and part of Lot 63), Springfield Gardens, Borough of Queens.

212-35-BZ—Application of Jack Z. Cohen, applicant, on behalf of Estate of Edwin J. Long (Loleta A. Long, temporary administratrix), owner, reopened October 30, 1945 for consideration as to extension of variance (expired by limitation)—Application, previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, the occupancy of a plot for sale and display (parking and storage) of more than five motor vehicles for a temporary period; premises 6501-6507 Fort Hamilton parkway and 948-950 65th street, southeast corner (Block 5750, Lot 42), Borough of Brooklyn.

Appeals from Administrative Decisions.

675-45-A—922 East 169th street, south side, 63.47 ft. west of Fox street (Block 2718, Lot 43), Borough of The Bronx.

691-45-A—35-54 83rd street, west side, 100 ft. north of 37th avenue (Block 1456, Lot 29), Jackson Heights, Borough of Queens.

Appliances for Approval

103-45-SA—Chicago Pump Company's Non-Clog Sewage Ejector and Flush-Kleen Sewage Ejector.

558-45-SA—Peerless DeLuxe Lowboy Vented Gas Circulators.

General Resolution

1464-39-GR—Reopening and amendment of General Resolution—re Approval of Inspection Agencies under rules adopted by the Board under Calendar 1139-39-GR addition of the inspection agency, The James H. Herron Co. of Cleveland, Ohio.

HARRIS H. MURDOCK, *Chairman.*

NOVEMBER 20, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, November* 20, 1945, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

389-42-BZ—Application of Emanuel H. Jerabek, applicant on behalf of Dominick Carl Carena, owner, reopened October 16, 1945 for consideration as to amendment of resolution—re Application previously granted on condition under section 7c of the zoning resolution, permitting in a business use district, the alteration and extension of a gasoline service station; premises 82-16 to 82-20 Astoria boulevard and 24-08 to 24-12 83rd street, southwest corner (Block 1094, Lot 6), Jackson Heights, Borough of Queens.

Appeals from Administrative Decisions

554-45-A—48-02 25th avenue, south side, from 48th street to 49th street (Block 744, Lots 40-47, inclusive), Astoria, Borough of Queens.

600-45-A—2522 Barker avenue, east side, 225 ft. north of Mace avenue (Block 4428, Lot 17), Borough of The Bronx.

608-45-A—40-16 31st street, south side, 25 ft. west of 41st street (1st floor); (Block 678, Lot 44), Long Island City, Borough of Queens.

653-45-A—630-636 West 26th street, south side, 136.43 ft. east of 12th avenue (Block 670, Lot 66), Borough of Manhattan.

637-45-A—1586-1588 Pitkin avenue, south side, 65 ft. west of Amboy street (2nd floor); (Block 3517, Lot 35), Borough of Brooklyn.

575-45-A—60 Pearl street, south side, 84 ft. 3 in. east of Broad street (Block 7, Lot 38), Borough of Manhattan.

579-45-A—2250 (2256 displayed) Bedford avenue, west side, 122 ft. 7 in. north of Snyder avenue (Block 5103, Lot 81), Borough of Brooklyn.

580-45-A—2252 (2258 displayed) Bedford avenue, west side, 97 ft. 7 in. north of Snyder avenue (Block 5103, Lot 82), Borough of Brooklyn.

607-45-A—64-68 Broad street and 31 Beaver street, northwest corner (Block 24, Lot 1), Borough of Manhattan.

CALENDAR

656-45-A—21-37 Waverly avenue, east side, 177 ft. 2 in. north of Park avenue and 54-58 Washington avenue, west side, 172 ft. 2 in. south of Flushing avenue (Buildings 10, 11, 12, 13 and 17, 4th floor); (Block 1874, Lots 1, 38 and 40), Borough of Brooklyn.

613-45-A—29-55 Bell boulevard, east side, 525 ft. south of 29th avenue (Block 6054, Lot 1), Bayside, Borough of Queens (Under section 35, General City Law re bed of mapped street—32nd avenue).

632-45-A—1326 and 1330 Ocean parkway, west side, 205 ft. south of Avenue M (Block 6568, Lots 21 and 22), Borough of Brooklyn.

657-45-A—1317-1329 Broadway, west side, from West 34th to West 35th streets, 105-173 West 34th street, 441-459 7th avenue and 108-156 West 35th street (Block 810, Lot 1), Borough of Manhattan.

671-45-A—916-918 (910-912 displayed) Lincoln place, south side, 360 ft. east of New York avenue (Block 1263, Lots 20 and 21), Borough of Brooklyn.

680-45-A—279 Hebertson avenue, west side, 119.17 ft. north of Albion avenue (Block 1031, Lot 24), West Brighton, Borough of Richmond.

696-45-A—217-219 West 57th street, north side, 250 ft. west of 7th avenue and 216-224 West 58th street (4th, 5th and 6th floors); (Block 1029, Lots 21, 23, 44, 45, 46 and 45½), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

NOVEMBER 27, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, November 27*, 1945, at 10 o'clock in Room 1013 Municipal Building, Manhattan, on the following matters:

Zoning Applications.

480-45-BZ—Application, July 27, 1945, under section 21 of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Frank J. Quigan, Inc., owner, to permit in a C area district, the construction of a one story brick boiler room extension, increasing the area of the lot covered beyond that permitted by the zoning resolution; premises 58-01 to 58-33 Grand avenue, 58-28 58th place, northwest corner and 58-02 to 58-32 58th avenue (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, NOVEMBER 13, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, and Tuesday afternoon, October 16, 1945, were approved as printed in Bulletin No. 43, Volume 30.

ZONING APPLICATIONS

558-37-BZ

APPLICANT—Philip S. Garozzo, for Michael Garozzo (lessee), for Druiss Co., Inc., owner.

SUBJECT—Application reopened October 9, 1945, for consideration as to extension of variance—Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—62-66 Henry street and 23-29 Market street, southwest corner (Block 277, Lots 24 to 27, inclusive), Borough of Manhattan.

APPEARANCES—

For Applicant: Philip S. Garozzo.

For Opposition: Harold Klorfein, Park Dept.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (558-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 62-66 Henry street and 23-29 Market street, southwest corner (Block 277, Lots 24 to 27, inclusive), Borough of Manhattan, was granted by the Board on September 27, 1938, on certain conditions; and

WHEREAS, the permit was extended on December 1, 1942 and the applicant requested a further extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on October 9, 1945, restored to the calendar and set for hearing on November 13, 1945, at 10 A.M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 13, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of September 27, 1938, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the premises to be used for the parking and storage of more than five (5) motor vehicles, *on condition* . . . that other than as herein *amended*, the provisions of the resolution of September 27, 1938 shall be complied with and that a certificate of occupancy shall be obtained."

803-38-BZ

APPLICANT—Lama & Proskauer, for Anna Weiss, owner.

SUBJECT—Application reopened September 25, 1945, for consideration as to extension of variance (expired by limitation)—Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—3901-3911 White Plains avenue, northwest corner of East 222nd street (Block 4824, Lots 4 and 7), Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (803-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 3901-3911 White Plains avenue, northwest corner of East 222nd street (Block 4824, Lots 4 and 7), Borough of The Bronx, was granted by the Board on January 24, 1939, on certain conditions; and

WHEREAS, the permit was extended on February 4, 1941, and February 9, 1943 and the applicant requested a further extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on September 25, 1945, restored to the calendar and set for hearing on November 13, 1945 at 10 A.M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 13, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 24, 1939, only in so

far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be used for the parking and storage of more than five (5) motor vehicles, *on condition* . . . that other than as herein *amended*, the provisions of the resolution of January 24, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

248-39-BZ

APPLICANT—Lester L. Callan, for Nicholas J. Roth, lessee (Janssen Dairy Corp., owner).

SUBJECT—Application reopened October 2, 1945, for consideration as to extension of variance—Application (decision of the borough superintendent), previously granted on condition, under section 21 of the zoning resolution, permitting in a business use district, the conversion of occupancy of an existing building, to a motor vehicle repair shop.

PREMISES AFFECTED—41 Barker street, east side, 700 ft. north of Castleton avenue (Block 197, Lot 34), West New Brighton, Borough of Richmond.

APPEARANCES—

For Applicant: Lester L. Callan.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (248-39-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a business use district, for a term of five years, the conversion of occupancy of an existing building, to a motor vehicle repair shop, affecting premises 41 Barker street, east side, 700 ft. north of Castleton avenue (Block 197, Lot 34), West New Brighton, Borough of Richmond was granted by the Board on June 27, 1939, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on October 2, 1945, restored to the calendar and set for hearing on November 13, 1945 at 10 A.M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 13, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the applicant amended the basis of his application to section 7i of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 27, 1939, so that as amended, the resolution shall read:

"*Granted* under section 7, subdivision i of five (5) years from the date of this *amended* resolution, to permit the premises to be occupied as an automobile repair shop, *on condition* that there shall be no anvil or forges installed or used; that no heavy work or collision work shall be done and the only work done shall be by means of hand tools and motor-driven tools not requiring motor power of more than ½ h.p. each; that no signs shall be erected on the premises except one across the front, advertising the automobile repairing, but excluding all temporary and roof signs; that no gasoline shall be stored on the premises other than in the tanks of the cars being repaired; that all permits shall be obtained and all work completed within six (6) months from date of this *amended* resolution and that a new certificate of occupancy shall be obtained."

407-40-BZ

APPLICANT—Lama & Proskauer, for Frederick L. Cranford, as trustee under declaration of trust, owner.

SUBJECT—Application reopened September 25, 1945 for consideration as to extension of time to complete work (expired by limitation)—Application (decision of the borough superintendent), previously granted on condition, under section 7f of the zoning resolution, for a term of ten years, permitting the premises within the business use district to be occupied as a gasoline service station and, also, the erection and maintenance of an accessory building.

PREMISES AFFECTED—1927-1935 Flatbush avenue, northeast corner of Kings Highway (Block 7819, Lot 20), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Time and permit extended.

THE VOTE TO EXTEND TIME AND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (407-40-BZ)

WHEREAS, this application under section 7f of the zoning resolution, permitting the premises within the business use district, to be occupied as a gasoline service station, for a term of ten (10) years and also the erection and maintenance of an accessory building, affecting premises 1927-1935 Flatbush avenue, northeast corner of Kings Highway (Block 7819, Lot 20), Borough of Brooklyn, was granted by the Board on July 16, 1940, on certain conditions; and

WHEREAS, on November 18, 1941, the time to obtain permits and complete the work was extended for one year therefrom and the applicant requested a further extension of time for such similar purpose and for the extension of the permit; and

WHEREAS, this case was reopened by vote of the Board on September 25, 1945, restored to the calendar and set for hearing on November 13, 1945 at 10 A.M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 13, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the applicant now states that all permits have been obtained and part of the work consisting of foundations completed; that the work had been suspended due to the war and the military absence of the tenant.

Resolved, that the Board of Standard and Appeals does hereby *amend* the resolution of July 16, 1940, only in so far as it has reference to obtaining permits, completion of the work and extension of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7f for a term of ten (10) years from the date of this *amended* resolution, to permit the premises under appeal within the business use area to be occupied as a gasoline service station, *on condition* . . . that other than as herein *amended*, the provisions of the resolution of July 16, 1940 shall be complied with and that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution."

256-45-BZ

APPLICANT—Samuel J. Resnick, for Angelo Rodolico, Vincenzo Bongiorno, Sebastiano Rodolico and Guiseppe Rodolico, owners (Jack Wollenberg lessee).

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence and local retail use district, the inclusion of auto repairs, auto painting, and fender and body repairs, in an existing garage for more than five automobiles.

MINUTES

PREMISES AFFECTED—1732-1740 Pacific street, south side, 75 ft. west of Utica avenue (Block 1342, Lot 40), Borough of Brooklyn.

APPEARANCES—

For Applicant: Samuel J. Resnick, Ann Duncan and Jack Wallenberg.

For Opposition: Josephine Lamoneca, Louisa Raiano and R. Cesianamo.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (256-45-BZ)

WHEREAS, Samuel J. Resnick, for Angelo Rodolico, Vincenzo Bongiorno, Sebastiano and Guiseppe Rodolico, owners (Jack Wollenberg, lessee), filed May 2, 1945 an application under sections 7c and 21 of the zoning resolution, to permit in a residence and local retail use district, the inclusion of auto repairs, auto painting, fender and body repairs in an existing garage for more than five automobiles; affecting premises: 1732-1740 Pacific street, south side, 75 ft. west of Utica avenue (Block 1342, lot 40), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of Standards and Appeals, at its regular meeting, November 13, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Pacific street is in a residential and local retail use, C area and Class 1 height district; Utica avenue is in a manufacturing and local retail use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated April 3, 1945, re Alt. App. 212-45, reads:

"1. Proposed increase in occupancy from garage for more than 5 cars to garage for more than 5 cars, motor vehicle repair shop, auto painting and body and fender repairs, located within a residential & local retail district is contrary to Art. 2, Sect. 3 & Art. 2, Sect. 4C of the Zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot 97 ft. frontage by 107 ft. 2½ in. in depth, occupied by a building 97 ft. frontage by 107 ft. 2½ in. in depth, one story, 13 ft. high, of Class 3 construction; that it is proposed to increase the occupancy for a garage for more than five cars, to a garage for more than five motor cars, motor vehicle repair shop, auto painting and body and fender repairs and that the gasoline pumps will be discontinued and no gasoline stored; and

WHEREAS, the applicant contends that the building was erected in 1925, when the area was zoned for unrestricted use; that the building has been used since that year, as a garage for more than five motor vehicles with repairs incidental thereto; that Fire Department practice does not require an owner to obtain a separate permit for repairs, when conducted in a garage located in an unrestricted use district and there is therefore no record that premises have been used previously for repair of motor vehicles; that, further the building was never used legally for any other purpose than garage for more than five motor vehicles; that the zone was subsequently changed (November, 1940), so that the building is partly in local retail and partly in residence use district; that the present lessee obtained possession in March 31, 1944, under lease which permitted the use of the building for garage, motor vehicle repairs, auto painting and body and fender repairs; that the terms of the lease require the lessee to obtain all necessary permits for the conduct of the business; that the lessee has spent considerable money in making premises available for repair and painting of motor vehicles and received a violation from the Borough Superintendent for motor vehicle repairing and garage for more than five cars contrary to the original certificate of occupancy, which permitted garage use only; that the area is given over largely to unrestricted use, which was recognized by the City Planning Commission, when it rezoned portion of the block opposite, to manufacturing use on January 2, 1945, for specific purpose of allowing an extension to existing one-story brick Dept. of Sanitation garage located on lot 18, block 1336; that proposed use of the subject building for motor vehicle repairs, does not tend to depreciate the value of neighboring property; that the continued use of the building as a garage is not economically feasible, because of present war conditions; that the present lessee entered into possession, believing the building having been designed for garage use, could be used for the intended use; that the variation requested herein, is in harmony with the conditions in the neighborhood, especially in view of proposed extension of the Dept. of Sanitation garage on opposite side of Pacific Street; that the painting operations to be conducted in this building will be strictly in conformance with the Code requirements and the Board's Rules and no noxious odors should emanate from the spraying operations, by reason of the conformance thereto; that the amount of vehicular traffic entering the street by reason of the proposed use, will be far less than that which occurred during the previous garage occupancy; that the existing garage use, as a storage garage and gasoline sales to the public, were heretofore conducted; that it is now proposed to discontinue sale of gasoline and to seal up the tanks and remove the pumps; that the expense incurred by lessee in making premises ready for the repair shop, approximates $2,000 or more; that he will suffer hardship if he cannot maintain this lease to carry the building during the present economic depression for garages; that the premises are unique in that the building is designed for garage use and as such, cannot be devoted to use which would be conforming in local retail or residence use zones in which it is located; that there is no other building in the neighborhood similarly situated and available for this use; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant at the hearing amended his basis of appeal to section 7i; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision i, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7i thereof, for a term of five (5) years from the date of this action, to permit the premises to be occupied as proposed, *on condition* that the building shall not be increased in height or area; that no new openings shall be constructed in the side or rear lot line walls; that signs shall be restricted to a permanent sign attached to the front of the building, excluding temporary signs, roof signs and illuminated signs; that the existing gasoline storage system shall be sealed to the satisfaction of the fire commissioner; that all equipment in connection with repairing shall be carried on in accordance with all laws, rules and regulations applicable thereto; that no work shall be carried on, except during regular working hours, excluding night work and work on Sundays and holidays; that no cars shall be parked on the street other than operable cars owned by the tenant or his employees; that all repair work shall be done inside the building; that all permits shall be obtained and all work completed within three (3) months from the date of this resolution.

512-45-BZ

APPLICANT—Lama and Proskauer, for Victor A. Beard, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the change of occupancy of a garage for more than five motor vehicles, previously granted by the Board, to garage for more than five motor vehicles and servicing and auto repairing.

PREMISES AFFECTED—50-60 Pennsylvania avenue, west side, 100 ft. south of Fulton street (Block 3669, Lot 22), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama and Victor A. Beard.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (512-45-BZ)

WHEREAS, Lama and Proskauer, for Victor A. Beard, owner, filed August 22, 1945, an application under section 7i of the zoning resolution, to permit in a business use district, the change of occupancy of a garage for more than five motor vehicles, previously granted by the Board, to garage for more than five motor vehicles and servicing and auto repairing; affecting premises 50-60 Pennsylvania avenue, west side, 100 ft. south of Fulton street (Block 3669, Lot 22), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 13, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Pennsylvania avenue is in a business use, C area and Class 1 height district; Fulton street and Atlantic avenue are in a business use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent acting on Alt. Applic. 2249-45, dated July 30, 1945, reads:

"1. Proposed change in occupancy from public garage for more than five motor vehicles, to public garage for more than five motor vehicles and servicing and repairing of cars in a business use district, is contrary to Art. II, Sec. 4(a)15 and 29 of the zoning resolution. Note: premises were the subject of conditional variations of the Board of Standards and Appeals, Cal. 1379-24-BZ."

and

WHEREAS, the applicant states the premises consist of a plot 100 ft. frontage by 100 ft. in depth, on which there is a one story building, 15 ft. 4 in. in height, of Class 3 construction; that it is proposed to include in the existing garage, the additional use for the servicing and repairing of automobiles; and

WHEREAS, the applicant contends that the premises are improved with a one story masonry fireproof public garage for more than five motor vehicles; that this garage was granted by the Board under Cal. 1379-24-BZ; that permission is requested to include the servicing and repairing of motor vehicles, inasmuch as this is a fireproof building; that the additional use will in no way affect the surrounding area; that directly across the street, Block 3670, Lot 9, is improved with a one story brick public garage; that Lot 18 is improved with a gasoline service station; that Block 3669, Lot 3 is improved with a one story public garage; that Lot 13 also is improved with a one story brick garage; that in view of the foregoing facts, it is respectfully requested that this application be granted; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision i, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7 subdivision i, thereof, for a term of ten (10) years from the date of this action, to permit the premises to be occupied for motor vehicle repairing in addition to the occupancy as storage garage for more than five cars as permitted under Cal. 1379-24-BZ, *on condition* that the repairing shall be by means of hand tools only, except that a drill and grinder may also be permitted to be motor-driven, provided the motor required for each machine does not exceed ½ h.p.; that the equipment may also be installed for brake testing and wheel aligning as well as pneumatic lubricating lifts, as indicated on plans filed with this application marked "Received August 22, 1945"; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the boiler shall be separated from the balance of the building by fireproof construction and enterable only from the exterior; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 1379-24-BZ, except that the gasoline pumps may be located as indicated on plans marked "Received August 22, 1945"; that curb cuts on Pennsylvania avenue shall be restricted to those as shown thereon.

55-45-BZ

APPLICANT—Lama and Proskauer, for Robert Schurz and Marie Goetz, owners.

SUBJECT—Application for consideration—amendment of resolution and approval of plans—re Application (decision of the borough superintendent) previously granted on condition under section 7f of the zoning resolution, permitting in a business use district, for a term of ten (10) years, the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—51-65 Kingsland avenue (51-61 displayed) and 101-129 Woodpoint road, northwest corner (Block 2866, Lots 37 to 48 and 136), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, resolution amended and plans approved.

THE VOTE TO REOPEN, AMEND RESOLUTION AND APPROVE PLANS—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn..... 3
Negative: Chairman Murdock 1

THE RESOLUTION (55-45-BZ)

WHEREAS, this application under section 7f of the zoning resolution, permitting in a business use district, for a term of ten (10) years, the erection and maintenance of a gasoline service station, affecting premises 51-65 Kingsland avenue (51-61 displayed) and 101-129 Woodpoint road, northwest corner (Block 2866, Lots 37 to 48 and 136), Borough of Brooklyn, was granted by the Board on July 24, 1945, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and approval of plans.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 24, 1945, by adding thereto:

"that complete plans marked 'Received October 16, 1945,' two sets, three sheets to each, are hereby *approved* as complying with the requirements of the resolution, provided the one story building shown toward the south as proposed for ice storage is erected at the same time as the proposed gasoline service station and to be used and occupied only as proposed, as a conforming building in a business district; that the area of the plot devoted to the gasoline service station use shall not exceed the total length along Kingsland avenue of 100 ft. and along Woodpoint road of 128 ft.; that curb cuts shall be restricted to two 25 ft. curb cuts as shown, to Woodpoint road and two 25 ft. cuts to Kingsland avenue and no portion of any curb cut to be nearer than 5 ft. to the intersection of Kingsland avenue and Woodpoint road; that the number of gasoline service tanks shall be restricted to four, 550 gallons each;

MINUTES

that pumps shall be not nearer than 10 ft. to the street line; that the entire gasoline selling area, where not occupied by the accessory building, shall be paved with cement or asphalt; that the gasoline selling area shall not be occupied except for such use, together with the usual accessory uses, consisting of car washing, greasing and sale of accessories, but for no other uses; that, as provided in the resolution of July 24, 1945, all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution."

Fig. 2

ing and drying of paints, varnishes, lacquers and other flammable surface coatings and storage of such material adopted under Cal. 353-30-SR.

DESCRIPTION

Applicant's solenoid valves (Fig. 2) are furnished in sizes from ½" up to 3 in. and for handling air at 100 lbs pressure. Valves have no packing boxes or external moving parts, and are fully enclosed. Valves offer very little resistance to the air flow, having globe design body with valve port equal pipe size. Body and trim are bronze. Valve disc is the renewable Jenkins type, standard dimensions.

The method of connecting applicant's solenoid valves is shown on Fig. 1. Applicant requests consideration of their valve for installation outside the spray booth ten feet or more from the open end of booth or space where the spraying is being performed. Sample valve has been submitted to the Board for inspection.

The arrangement of equipment for automatic control is by means of a solenoid operated valve connected in the air supply line of the spray booth. Solenoid valve closes upon current failure. The magnet coil is connected to a double pole, single throw switch which is wired to the load side of the exhaust fan motor switch, so that solenoid valve can be energized only when fan motor is running. Therefore, before spray painting can start, it is necessary to close the fan switch and the valve switch, to provide a supply of air, and it is impossible to provide this supply of air without ventilating fan. When spray painting has been ended, the pulling of the valve switch first will permit additional exhausting of spray booth fumes before fan motor is stopped.

These valves are listed in the various sizes from ½" to 3" diameter.

INSPECTION AND TEST

A model of this valve in operation was inspected and tested at 745 Broadway, New York City, in the presence of the Committee on Tests, a representative of the Division of Combustibles of the Fire Department and representative of the manufacturer on October 10, 1945, and the valve was formed to function as designed and to actuate the spray gun and the fuse when switch was cut off at a distance of 10 ft.

RECOMMENDATION

On the basis of the inspection and test, the Committee recommends the approval of the Magnatrol Valve (Solenoid Valve) for control of air, in sizes from one-half inch to three inches, for uses in New York City, when connected in the manner shown on Fig. 1, be approved for use in New York City, under the Board's powers granted by the Charter of the City of New York, Section 661, Subdivisions 1 and 2, for use under Rule 3.2 of the Spray Rules (Calendar 353-30-SR) provided that when the valves are to be located within 10 ft. of the spray booth, only such valves as are approved for use in explosive atmospheres be installed and that explosion proof conduit be provided on the explosion proof valve for making electric connections to incoming power sources.

The Committee on Tests further recommends that all layouts, including the subject valves when submitted to the authorities having jurisdiction, shall comply with Fig. 1 and that the valves shall have a label reading: "Approved by the Board of Standards and Appeals for Use in New York City under Cal. 74-45-SM."

Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Magnatrol Valve (Solenoid Magnetic Valve for Control of Air), *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

486-45-SM

APPLICANT—Henry Spen & Co., owner.

SUBJECT—Henry Spen 275 Gallon Obround Fuel Oil Tank, approval of.

APPEARANCES—
For Applicant: None.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (486-45-SM)

WHEREAS, Henry Spen and Company, owner, filed on August 1, 1945, an application with the Board of Standards and Appeals for approval of the material known as the Henry Spen 275 Gallon Obround Fuel Oil Tank; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Cal. 486-45-SM October 10, 1945.

Subject: Henry Spen 275 Gallon Obround Fuel Oil Tank, Approval of.

Henry Spen and Company of New York City filed an application with the Board of Standards and Appeals for approval of the Henry Spen 275 Gallon Obround Fuel Oil Tank for use under the provisions of the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION

Henry Spen 275 Gallon Fuel Oil Tanks are obround, made of Commercial grade hot rolled sheet steel #10 U. S. gauge heads and shell, complying with the Oil Burner Rules of the Board, in size 66 in. by 42 in. by 26 in. dished head, formed with extension rims to form a welding surface; flange seams and pipe connections are hand electric arc welded. The tanks are provided with standard pressed steel pipe support lugs and weigh 395 lbs. each with all fittings and lugs. The tank is equipped with four 2" threaded welded pipe connections at top and one 2" pipe connection at bottom of head. A ¾ inch connection is provided in bottom of shell.

TEST

A sample tank was tested at the yard of the Department of Water Supply, Gas and Electricity in the presence of the Committee on Tests and of the manufacturer and successfully met the requirements of Rule 10.3.1 of the Oil Burner Rules.

RECOMMENDATION

On the basis of the foregoing data, it is recommended that the Henry Spen 275 Gallon Obround Fuel Oil Tank be approved for use in New York City, when constructed in accordance with the report and with the drawings filed with the application, but nothing herein shall be deemed to waive any requirement of the Oil Burner Rules of the Board as amended July 1, 1941.

It is further recommended that the permanently affixed plate, as required by Rule 5.3.2, shall have in addition to the wording thereon required, the following addi-

tional wording: "Approved by the Board of Standards and Appeals under Cal. 486-45-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner,
CHARLES M. BLUM,
Commissioner,
LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Henry Spen 275 Gallon Obround Fuel Oil Tank, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING,

TUESDAY AFTERNOON, NOVEMBER 13, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

561-45-A

APPLICANT—A Gordon Lorimer, for Department of Public Works, City of New York, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—34-28 21st street, west side, from 34th to 35th avenues (Block 525, Lot 16), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Abraham Prober.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative 0
Absent: Chairman Murdock 1

THE RESOLUTION (561-45-A)

WHEREAS, A Gordon Lorimer, for Department of Public Works, City of New York, owner, filed September 21, 1945, an appeal from a decision of the borough superintendent, affecting premises 34-28 21st street, west side, from 34th to 35th avenues (Block 525, Lot 16), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 1006-45, dated September 12, 1945, reads:

"1. Entire building is required to be of fireproof construction. Existing portion is not of Class 1 construction. Proposed increase in area of building is contrary to Sec. 4.2.1 Building Code."

and

WHEREAS, the applicant states that the existing building is one story and mezzanine (28 ft.) in height, 361 ft. by 105 ft., irregular in area, erected in 1930; located in an unrestricted use, B area, Class 1½ height district; of Class 3 construction; proposed to be altered and extended by replacing existing nonfireproof area 40 ft. by 100 ft. in area on 35th avenue front, with fireproof construction and the erection of a new fireproof extension 105 ft. by 96 ft., irregular in area, entire building to be used as a garage for more than five motor vehicles, office, lockers and toilet rooms, 230 persons; and

WHEREAS, the applicant contends that although the entire area of the building is in excess of that permitted by Section 4.2.1, the new addition being of fireproof construction, will in no way increase the hazard of the existing building; it is therefore requested that approval be granted, to erect the construction as proposed, as it is adjunct to the existing building; that denial of this appeal would mean frustration of the city's desire to provide adequate service to the people, as it is deemed necessary by the Department of Sanitation.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1006-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that a deluge system, equipped with approved rate of rise detectors, all as shown on plans filed with this appeal marked "Received November 9, 1945", shall be provided and maintained; that in all other respects, the construction and occupancy shall meet the requirements of all laws, rules and regulations applicable thereto.

Minutes of Regular Meeting of Tuesday Afternoon, November 20, 1945, Affecting Calendar Numbers 554-45-A, 575-45-A, 579-45-A, 580-45-A, 600-45-A, 607-45-A, 608-45-A, 613-45-A, 632-45-A, 637-45-A, 653-45-A, 656-45-A, 657-45-A, 680-45-A, 671-45-A, 696-45-A, 1333-22-BZ, 77-33-BZ, 569-37-BZ, 276-43-BZ, 599-44-BZ, 263-19-BZ, 336-37-BZ, 58-39-BZ, 297-39-BZ, 389-42-BZ, 116-44-BZ, 166-38-SA and 1345-39-SM.

Correction Affecting Calendar Numbers 509-45-A and 449-44-BZ.

Rules governing the use of equipment for spraying and drying of paints, varnishes, lacquers and other flammable surface coatings and storage of such materials.

COURT DECISION

Matter of McDowell vs. Murdock:—On September 14, 1943, the Board denied an appeal to declare a building used as a riding stable as a lawfully existing non-conforming use, established prior to July 25, 1916; Cal. 346-43-A; premises 87-86 188th Street, west side, 100 ft. north of Hillside Ave., Hollis, Borough of Queens. Upon Court review, Mr. Justice Johnson referred the matter to an official referee to take testimony and report findings to the court as to the establishment of the use and its continuance. (N.Y. Law Journal, October 24, 1945).

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION
10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on September 11, 1945, as they appeared in Bulletin No. 38, Vol. 30, are hereby corrected to read as follows:

509-45-A

APPLICANT—R. Rappaport, for Twisted Button Novelty Co., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—101-103 Clay street, north side, 225 ft. west of Oakland street (Block 2483, Lot 48), Borough of Brooklyn.

APPEARANCES—

For Applicant: Reuben Rappaport and Arthur Cherici.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (509-45-A)

WHEREAS, R. Rappaport, for Twisted Button Novelty Company, owner, filed August 30, 1945, an appeal from a decision of the borough superintendent, affecting premises 101-103 Clay street, north side, 225 ft. west of Oakland street (Block 2483, Lot 48), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated August 21, 1945, on Sprinkler Applic. 2092-45, reads:

"1. Water supply to a sprinkler system for which nitro-cellulose products are manufactured, stored or kept shall consist of gravity tank and pressure tank or two gravity tanks. C26-1375.0 Adm. Code."

and

WHEREAS, the applicant states that the building is one story (16 ft.) in height, 50 ft. by 100 ft. in area, of class 3 construction, erected in 1924, located in an unrestricted use, A area and class 2 height district and used and occupied since 1925, as a garage and proposed to be used and occupied for the manufacture of celluloid products—30 persons; and

WHEREAS, the applicant contends that the building is constructed of brick and concrete walls, concrete floor and roof construction of steel girders, wood joists; that steel girders and joists are bottom flush and the underside of roof beams covered with ½ in. plasterboards; that a vault for the storage of over 500 lbs. of celluloid is proposed, as shown on Alt. Plan 2169-45; that it is proposed to install a sprinkler system throughout the building; that the system will be fed from a 6 in. connection to the present 6 in. main on Clay street, which is fed two ways; that the main on Clay street is fed from a 12 in. main on Manhattan avenue and a 16 in. main on Oakland street; that the pressure in front of the building is 46 lb.; that it is proposed to run 2½ in. main to supply heads in the storage vault, which will be equipped with 12 heads with baffles, directly connected to the 6 in. riser before any supply is taken off for the sprinkler system in the balance of the building; that the sprinkler system will be connected to central office by water flow alarm.

Resolved, that the decision of the borough superintendent, acting on Sprinkler Applic. 2092-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the sprinkler system shall be in accordance with the plans filed with and as approved by the Fire Insurance Exchange, Sprinkler Division, which approval appears on the blueprint from which these photostats were printed, as filed at this meeting marked "A-2"; that the building shall not be increased in height or area; that the storage vault for films shall be located substantially as shown on plans filed with this appeal marked "Received August 30, 1945", and shall meet all the requirements therefor; that the total amount of celluloid stored on the premises shall at no time exceed 500 lbs.; that such celluloid shall at all times be stored within the vault except for not more than 10 lbs. in process in the building; that all handling and processing of celluloid shall be carried on in the front portion of this building and not farther back from the front wall than 65 ft.; that such water containers for nitro cellulose scrap and portable fire fighting appliances shall be maintained in connection with the manufacture of celluloid products, as the fire commissioner shall direct; that the paint dipping room shall be located substantially in the location shown and shall comply with the requirements of the Building Code therefor, and paint dipping shall be conducted in accordance with the Paint Spraying Rules of the Board; that there shall be installed toward the rear, a stair enclosed in material as approved for one hour construction, leading to a roof bulkhead for access to the roof and as an additional escape in case of fire; that the two exits at the front of the building shall be maintained; that the boiler room shall be separated from the balance of the building by fireproof construction and enterable only from the exterior; that the sprinkler shall be fed as proposed with a 6 in. street main, fed two ways and the sprinkler system shall be connected to fire headquarters through a central office as proposed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

293-45-BZ

APPLICANT—Lama and Proskauer, for Harry Pollack, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the reconstruction of an existing gasoline service station, and the inclusion of a motor vehicle repair shop within 200 feet of a hospital entrance.

PREMISES AFFECTED—739-747 Albany avenue and 600-610 Clarkson avenue, southeast corner (Block 4846, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (293-45-BZ)

WHEREAS, Lama and Proskauer, for Harry Pollack, owner, filed May 16, 1945, an application under section 7c of the zoning resolution, to permit in a business use district, the reconstruction of an existing gasoline service station and the inclusion of a motor vehicle repair shop within 200 feet of a hospital entrance, affecting premises 739-747 Albany avenue and 600-610 Clarkson avenue, southeast corner (Block 4846, Lot 1), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Clarkson avenue is in a business use, D area and Class 1 height district and Albany avenue is in a business use and residence use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 2, 1945, re N.B. Applic. 122-45, reads:

"1. Proposed extension of gasoline service station with minor repairs, violates Art. II, Sec. 4a-46, Zoning Resolution.

2. Proposed extension also violates Art. II, Sec. 21-A, Zoning Resolution, since a hospital entrance is located within 200 ft. of premises."

and

WHEREAS, the applicant states the premises consist of a plot 100 ft. frontage by 92 ft. 1½ in. in depth, on which is located a gasoline service station, 2 family dwelling, auto laundry, 4-car garage and grease pits; that all buildings are of concrete block, except the dwelling, which is frame and stucco; that it is proposed to remove all the structures except the dwelling and construct a new building on the southerly portion of the plot, to house office and accessories, lubritorium, minor repairs and auto laundry; and

WHEREAS, the applicant contends that premises have a frontage of 105 ft. on Albany avenue, 100 ft. on Clarkson avenue, 105 ft. on easterly lot line and 100 ft. on southerly lot line; that 12.88 ft. will be removed from subject premises for the new widening of Clarkson avenue, leaving a frontage of 92.12 ft. on Albany avenue; that the premises are improved with an office 20 ft. by 25 ft. 9½ in., two open grease pits, four one-car garages, an auto laundry and a 2-story dwelling, 20 ft. by 43 ft. at the easterly portion of the plot, gasoline storage tanks and pumps; that the gasoline service station was established prior to 1925; that it is the owners' intention to remove all structures, except the dwelling and construct a new building on the southerly portion of the plot, 73 ft. front by 28 ft. in depth for office and accessories, lubritorium, auto laundry, and minor repairs with hand tools only; that it is proposed to reset the pumps 10 ft. back from all building lines and to repave the entire area with tarvia or concrete; that the gasoline service station was established prior to the enactment of the law prohibiting a service station located within 200 feet of a hospital; that the plot under appeal has been continuously under one ownership since 1893; that in view of the fact that the gasoline service has existed since prior to 1925 and the proposed extension will greatly improve the location and in no way affect the general surroundings, the granting of this application is respectfully requested; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c, to permit the gasoline service station, legally existing on the front portion of the plot, to be extended and altered, so as to occupy the entire plot as indicated on revised plans marked "Received October 31, 1945" as corrected November 20, 1945, *on condition* that the accessory building shall be constructed toward the rear of the premises as indicated and that from the accessory building to Clarkson avenue, there shall be constructed a new brick and iron picket fence in accordance with the detailed construction, as indicated, except as to the material of fence, continuously to the new proposed building line of Clarkson avenue, at a distance from the building on the easterly portion of the plot of not less than the distance shown, namely 4 ft. 4 in.; that the space between such fence and the building shall be planted, as indicated; that the balance of the plot shall be surfaced with concrete or tarvia and graded substantially to the grade of surrounding streets; that all existing buildings and pumps on the portion of plot proposed for enlarged gasoline station, shall be completely removed and only such buildings and pumps shall be installed as are indicated on plan marked "Received October 31, 1945" as corrected; that curb cuts shall be restricted to two, each 35 ft. in width to Clarkson avenue and two each 22 ft. in width to Albany avenue, located as shown on such corrected plan; that the accessory building shall be arranged for office, boiler room, lubritorium and auto laundry as proposed; that no repair work shall be carried on; that the greasing racks shall be of the pneumatic type; that there shall be no windows in the rear lot line wall; that the building shall be of a design as indicated on plans marked "Received October 31, 1945" as corrected November 20, 1945; that the exterior building shall be of face brick and otherwise shall comply with the requirements of the Building Code therefor; that the roof shall be surfaced with natural slate; that no signs shall be erected, except a permanent sign attached to the accessory building and the illuminated globes of bulbs and excluding all temporary signs and roof signs, but permitting the erection of a post standard within the building line near the intersection of the two streets, for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over 4 ft.; that a block of concrete not less than 12 in. in height and segmental in shape, shall be erected at the intersection within the building line as indicated on such plan; that any pumps erected shall be located substantially as shown and not nearer than 10 ft. to either street building line and in the case of Clarkson avenue, not nearer than 10 ft. from the proposed building line; that gasoline storage tanks shall be limited to four, each 550 gallons as shown; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall require; that all permits shall be obtained and all work completed within one year from the date of this resolution.

296-45-BZ

APPLICANT—Lama & Proskauer, for Ida Gottfried, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the reconstruction and extension of gasoline service station (previously granted by the Board).

PREMISES AFFECTED—1769-1779 Coney Island avenue, east side, 315 ft. south of Avenue N (Block 6749, Lots 78 and 81), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (296-45-BZ)

WHEREAS, Lama and Proskauer for Ida Gottfried, owner, filed May 14, 1945, an application under section 7c of the zoning resolution, to permit in a business use district, the reconstruction and extension of a gasoline service station (previously granted by the Board), affecting premises: 1769-1779 Coney Island avenue, east side 315 ft. south of Avenue N (Block 6749, Lots 78 and 81), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Coney Island avenue is in a business use, C area and Class 1¼ height district and Avenue N is in a residence and business use, C area and Class 1¾ height district; and

WHEREAS, the decision of the borough superintendent, dated May 1, 1945, re Alt. Applic. 1044-45, reads:

> "1. The reconstruction of a gasoline service station, lubritorium, automobile repairs shop and office and the extension of the gasoline station use in a business use district is contrary to the Zoning Resolution. Sect. 4 and Sect. 6."

and

WHEREAS, the applicant states that the premises consist of a plot, 160 ft. frontage by 100 ft. in depth, on which is located a building 50 ft. front by 100 ft. in depth (irregular), one story, 14 ft. high, of Class 3 construction; that it is proposed to remove present one-story office, reset the pumps, remove the open air lifts and install the same in the building; that it is also proposed to cut away part of the building and erect a new office and to open a new door at the rear of the building; and

WHEREAS, the applicant contends that the subject premises have a frontage of 100 ft. on Coney Island avenue, 100 ft. in depth and 100 ft. on rear lot line; that it is presently improved with a gasoline service station on Lot 81, which occupies an area of 50 ft. by 100 ft. and with a one-story office, five one-car garages and two lifts in the open; that this gasoline service station was granted by the Board of Standards and Appeals under Cal. 1021-25-BZ; that the adjoining plot, Lot 78, is improved with a one-story masonry building used for automobile repairs and lubritorium, and which was granted by the Board under Cal. 167-34-BZ for a temporary term of five years, expiring September 16, 1946; that it is now the intention of the owners to remove the present one-story office, reset the pumps, remove open air lifts and install the same in the building and also to cut away part of the building on Lot 78, creating a new office and to open a new door from the rear of the building, which will open into the gasoline service station area; that inasmuch as these uses are existing and that the proposed alteration will improve the site, it is requested that the application be granted; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c, to permit the premises as described and as indicated on revised plans filed with this application, marked "Received September 7, 1945" to be altered, rearranged and used substantially as proposed, *on condition* that the existing buildings shall not be increased in height or area; that in all other respects, the construction of the buildings shall comply with all laws, rules and regulations applicable thereto; that the accessory building, greasing lifts, gasoline pumps now erected on Lot 81 shall be removed; that new gasoline pumps may be erected as indicated, not nearer than 10 ft. to the street building line; that the premises, where not covered by existing garages, buildings and gasoline pumps, shall be levelled substantially to the grade of Coney Island avenue and shall be paved with concrete or tarvia; that existing curb cuts shall be removed and new curb cuts installed, as shown: that where curb cuts are not to be constructed, the curbs shall be restored and the sidewalks shall be resurfaced the entire length of the premises; that there shall be erected along the northerly interior lot line, a substantial fence erected on a cement concrete base as shown, except that such fence shall be of the iron-picket type and of a height not less than 5 ft. above grade; that signs on the building shall be restricted to permanent signs attached to the building and the illuminated globes of the gasoline pumps, excluding all roof signs and all temporary signs, but permitting the erection within the building line of a post standard for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 ft.; that the uses on these premises shall be restricted to the gasoline service station as proposed and the five car garage in the rear; that greasing and washing as accessory uses within the building, and also automobile repairing which shall be by hand tools only as permitted under Cal. 167-34-BZ; that the conditions of the resolutions as adopted under such calendar number shall be complied with; that this resolution shall supersede resolution adopted by the Board under Cal. 1021-25-BZ, as applying to that portion of the premises at that time described as Lot 81; that all existing uses in connection with the premises now carried on adjoining Lots 83, 86 and 89 and any signs erected on such lots relating to the premises involving this application, shall be immediately discontinued; that such portable fire fighting appliances shall be installed and maintained as the Fire Commissioner shall direct; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

322-45-BZ

APPLICANT—Henry Nordheim, for Israel Fleiss, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7e, 7i and 21 of the zoning resolution, to permit in a partly residence and business use district, the change of occupancy from stores to motor vehicle repair shops.

PREMISES AFFECTED—2243-2259 White Plains road, west side, 65 ft. north of Thwaites place (Block 4342, Lot 39), Borough of The Bronx.

MINUTES

APPEARANCES—
For Applicant: Henry Nordheim.
For Opposition: Alfred C. Pelizzari and Cristino Pelizzari.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative: Commissioner Savage 1
Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3

THE RESOLUTION (322-45-BZ)

WHEREAS, Henry Nordheim, for Israel Fleiss, owner, filed May 29, 1945, an application under section 7e, 7i and 21 of the zoning resolution, to permit partly in a residence and business use district, the change in occupancy from stores to motor vehicle repair shops, affecting premises 2243-2259 White Plains road, west side, 65 ft. north of Thwaites place (Block 4342, Lot 39), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting November 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that White Plains road is in a business use, C area and Class 1¼ height district; Boston road is in a business use, C area and Class 1¼ height district and Olinville avenue is in a residence use, C area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated May 10, 1945, re Alt. Applic. 231-45, reads:

"1. The proposed change of use to motor vehicle repair shop in a business and residence district, is contrary to Article 2, Sections 3 and 4 of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 103.57 ft. frontage by 93.31 ft. in depth, on which are buildings (stores), 103.57 ft. front by 60 ft. in depth, one story (16 ft.) in height of Class 3 construction and that it is proposed to change stores located at 2249 and 2259 White Plains road to motor vehicle repairing; and

WHEREAS, the applicant contends that this is an application for a variation from the provisions of the zoning resolution so as to permit the occupancy of two stores for motor vehicle repairing; that these stores are numbers 2249 and 2259 White Plains road, where such use has existed for quite some time before the Department of Housing and Buildings filed a violation, doing so finally on March 8, 1945; that there is a considerable amount of traffic at this junction and it is natural that a trade of this kind would thrive and it is quite a necessity and a convenience to this traffic; that this type of occupancy is not out of step with neighborhood conditions, for within the affected area of the 400 ft. frontage either way, there are four gasoline service stations; that during the period before the war, the three lots adjoining this site were occupied for the sale of used cars; that the little frame office shanty is still there as may be noted on Photograph Nos. 1 and 2; that stores proved a failure in this building, as a marketing proposition, due to its isolation from residential occupancies, with the result that manufacturing trades had to be accepted; that this building has also the disadvantage of the elevated railroad structure to darken its frontage; that in 1942 to 1943, this property was assessed at $33,000, in 1943 to 1944 it was assessed at $31,500 and later reduced to $30,000, in 1944 to 1945, it was assessed at $28,000 and later reduced to $26,000 on protest; that in each case the protests were only reviewed by the tax officials, who adjusted the claim and it was not necessary to appeal to the courts; it is therefore requested that the Board grant relief under sections 7e, for 2 years, or under sections 7i and 21, allowing a permanent grant, under such restrictive conditions as the Board sees fit to impose; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under sections 7e and 7i of the zoning resolution, and that the applicant failed to substantiate a basis of appeal under section 21 thereof and was, therefore, not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 231-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

APPEALS FROM ADMINISTRATIVE DECISIONS

675-45-A

APPLICANT—Isidore Klein, lessee, for Charles Polivy, owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.

APPLIANCES SUBMITTED FOR APPROVAL

103-45-SA

APPLICANT—S. K. Steiner, for Chicago Pump Co., owner.
SUBJECT—Chicago Pump Company's Non-Clog Sewage Ejector and Flush-Kleen Sewage Ejector, approval of.
APPEARANCES—
For Applicant: S. K. Steiner.
ACTION OF BOARD—Appliance approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (103-45-SA)

WHEREAS, S. K. Steiner, for Chicago Pump Co., owner, filed on March 2, 1945, an application with the Board of Standards and Appeals for approval of the appliance known as Chicago Pump Company's Non-Clog Sewage Ejector and Flush-Kleen Sewage Ejector; and

WHEREAS, the report of the Committee on Tests reads:

MINUTES

REPORT OF COMMITTEE ON TESTS

Re: Cal. 103-45-SA.

Subject: The Chicago Non Clog Sewage Ejector and Flush-Kleen Sewage Ejector, approval of.

The Chicago Pump Company filed an application with the Board of Standards and Appeals, under the requirements of C26-178.0.b. and C26-1315.0 of the Administrative Code for the approval of the Chicago Non Clog Sewage Ejector and the Flush-Kleen Sewage Ejector for use in New York City.

DESCRIPTION AND PROCESSING.

The Chicago Non Clog Sewage Ejector consists of figure 1, which is a centrifugal pump, consisting of an impeller especially designed to pass large solids. The Impeller is keyed and held in place with a set screw to the shaft and rotates in a casing arranged with inlet and discharge ports. The pump shaft is supported by a radial ball thrust bearing and is guided by ball or sleeve bearing and driven by an electric motor connected to the pump shaft by a flexible coupling.

The pump is made in several styles as follows:

(a) Vertical enclosed shaft for operation submerged in sewage.

(b) Vertical open shaft for operation outside of sewage receiver.

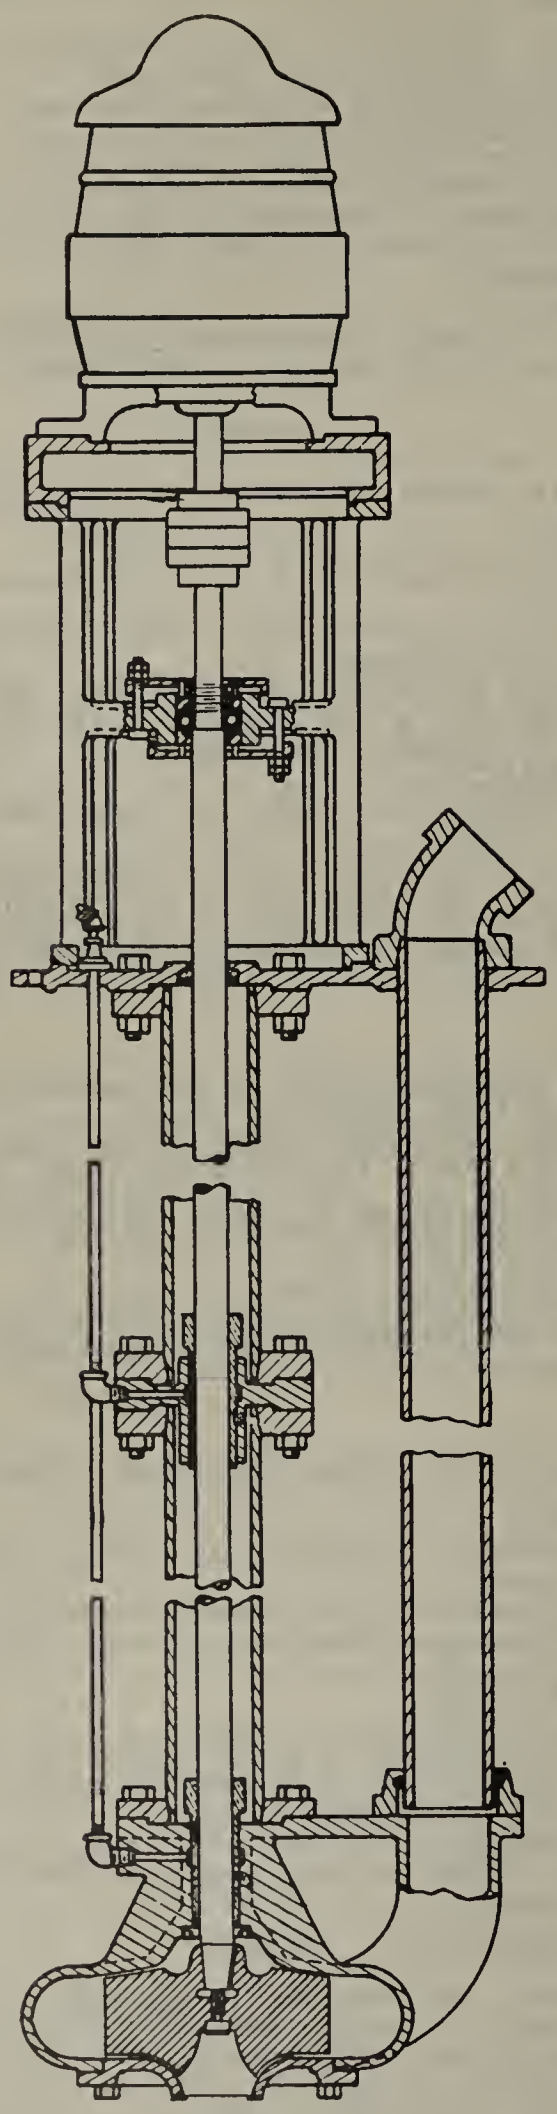

Figure 1.

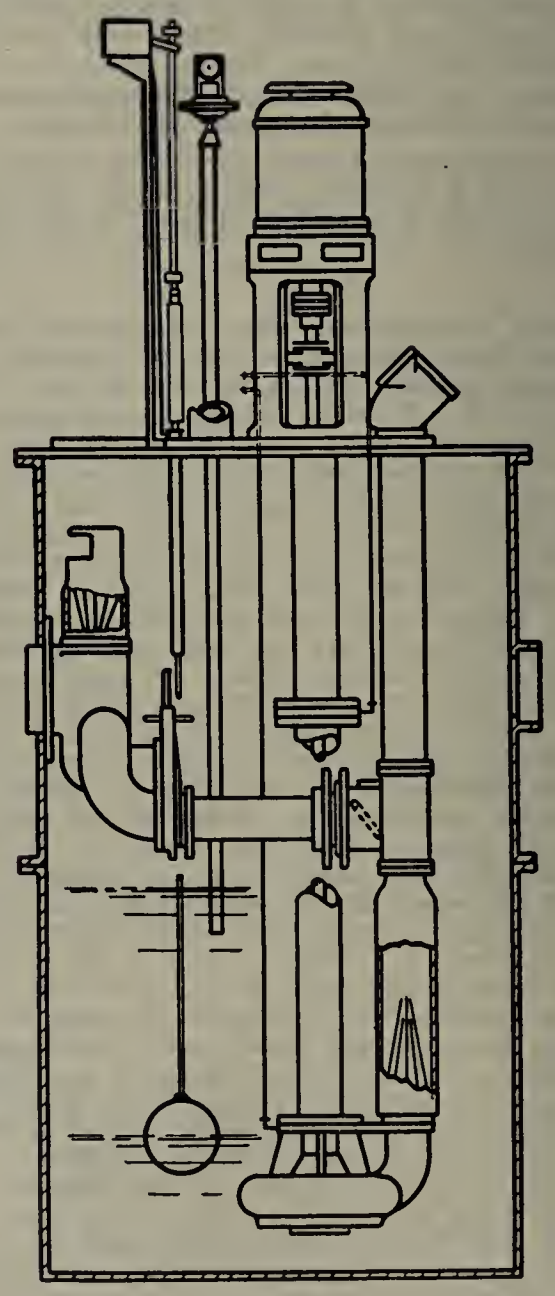

Figure 2.

MINUTES

FLUSH KLEEN SEWAGE EJECTOR.

The Flush Kleen Sewage Ejector, figure 2, employs use of vertical enclosed shaft, vertical open shaft or vertical pedestal mounted centrifugal sewage pumps and Flush-Kleen fittings.

The sewage flows from the building fixtures through special fittings into Flush-Keen strainers located in the discharge piping of the unit. Solids in the sewage are caught and retained by the strainers but the water passes through the strainer and through the pump into the sewage receiver. When the pump starts the solids in the strainers are flushed out and discharged to the sewer with the water.

Vertical Enclosed Shaft Flush-Kleen Ejectors

The pump is suspended from the plate and operates in the sewage receiver. The support plate rests upon the cover of the sewage receiver. A gas-tight installation is made by: (a) use of furnace cement or similar material between support plate and cover of sewage receiver; (b) or use of stuffing box where float rod passes through float switch support stand; (c) or use of flanged vent connections on cover of sewage receiver. (Installer pipes from vent connection to stock.)

Vertical Open Shaft Flush-Kleen Ejectors
Vertical Pedestal Mounted Flush-Kleen Ejectors

The pump is placed adjacent to and is connected to sewage receiver by piping. A gas-tight installation is made by: (a) use of stuffing box where float rod passes through float switch supporting stand; (b) or use of flanged vent connection on cover of sewage receiver (Installer pipes from vent connection to stack) head of water on suction pipe between receiver and pump.

DESCRIPTION AND TESTS

Tests on this equipment were made by Professor G. F. Gebhardt of the Armour Institute with details and results as follows:

EJECTOR UNIT

The ejector unit consists of a standard 48″ diameter x 7′ 0″ deep cast iron sewage ejector basin, in which are installed, a duplex set of two 4″ electric motor driven centrifugal sewage pumps, each driven by a 3 horse power, vertical type, 220 volt, 3 phase, 60 cycle, Alternating Current, squirrel cage motor.

AUTOMATIC CONTROL

These pumps are automatically controlled by two enclosed float switches which are initially actuated by individual copper floats. These floats rise and fall with the water level in the ejector basin, and have extended rods which extend up through pipe guides and stuffing boxes, to the float switches which are mounted on cast iron pedestals above the basin cover. The float rods extend through the eyes of the float switch levers, and are fitted with adjustable start-and-stop buttons.

AUTOMATIC ALTERNATOR

One of the float rods is also fitted with a simple, mechanical device called an automatic alternator. This device automatically alternates the operation of the pumps, causing number one pump to be in service during the first operation, number two pump during the second operation, number one pump during the third operation, number two pump during the fourth operation and so on as long as the pumps are in normal service. If water enters the ejector basin at a higher rate than the quantity discharged by one pump, the other pump will automatically start and continue to operate until normal conditions are restored, at which time the pumps automatically resume their alternate operation.

OPERATION

The Water and Sewage pass through a check valve valve from the sewage inlet of the ejector basin into the discharge lines of the pumps at a point approximately 48 inches above the basin bottom. A copper sewage strainer is interposed between this point in each pump discharge line and the pump casings. These sewage strainers are cylindrical in shape, open at the tops and perforated with ½″ holes over the entire area of their sides and bottoms. Sewage and insoluble material is intercepted by these strainers, while the water passes through the ½″ holes and continues on down through the pump castings into the ejector basin. When the water in the basin reaches high level, one of the pumps is automatically started by its float and float switch mechanism, and the water from the ejector basin is pumped at high velocity through the sewage strainer and discharge pipe of the pump, carrying with it, the sewage and insoluble matter. Therefore, the pump impellers handle only relatively clear water, the solids and other matter being ejected entirely by the velocity and force of the water discharged by the pump impellers.

For test purposes an open tank was mounted beside the ejector basin just above the high-water level. The 4″ discharge lines of the pump were placed so that the water from them was discharged into this tank. Wire baskets having 1″ square mesh were suspended in the open tank in such manner that the water discharged by the pumps passed through them as it entered the open tank. A 6″ pipe line connecting the bottom of this tank to the sewage inlet opening of the ejector basin, allows the water to flow from the open tank back into the ejectors. The first part of the test was for the purpose of determining the ability of the equipment to handle large objects of various kinds. The objects were thrown into the open tank and permitted to pass down into the ejectors. The objects were then discharged by the automatic operation of the pumps, and were caught in the wire baskets as they were entering the open tank, after being discharged by the pumps. The following tests were made:

Test No. 1—Wood Balls

3⅝″ diameter wooden balls were thrown into the open tank, and observation made of the number of balls discharged in a given period time. The results were as follows:

Number of Balls Discharged	50
Duration of Tests, in minutes	5
Number of Pump Operations	10
Diameter of Balls, in inches	3⅝
Average Weight of Balls, each, in ounces	13½

Test No. 2—Towels

A similar test was made with 17″ x 29″ medium weight cotton towels, with the following results:

Number of Towels Discharged	22
Duration of Test, in minutes	5
Number of Pump Operations	10
Size of Towels, in inches	17 x 29

Test No. 3—Crushed Rock

Crushed Rock "2 inch screenings" were thrown into the open tank with the following results:

Total Weight of Rock Discharged, in pounds	41.5
Duration of Test, in minutes	14
Size of Rock Used	2″ screenings
Range of Weight, each, in ounces	1½-5¾

Test No. 4—More Crushed Rock

In the above test, the rock discharged appeared to be limited by the difficulty of flushing it through the inlet lines into the ejectors, rather than by the ability of the pumps to discharge rock, of this size. In view of this, a special test was made to demonstrate the ability of the pumps to discharge larger quantities of heavy material, in event such material should be flushed into the sewage strainers. Accordingly, 2" crushed rock screenings were placed directly into the sewage strainer of one of the pumps. This was done by removing a handhole plate from the discharge fitting above the sewage strainer, which permitted pouring the rock directly into the strainer. The following results were obtained from this test:

Total Weight of Rock Discharged, in pounds	10
Duration of Test, in seconds	82
Size of Rock Used	2" screenings
Range of weight, each, in ounces	1½-5¾

Test No. 5—Heavy Sheeting

A piece of heavy weight sheeting measuring 48" x 48" was run through each pump several times with no indication of clogging either the inlet lines, sewage strainers, or discharge lines of the equipment.

Test No. 6—Men's Overalls

A pair of men's overalls, size 38, were also run through each pump repeatedly with no indication whatever of clogging. The ability of the equipment to handle such material as outlined in the foregoing tests was definitely established.

The second part of the test was to determine the rate of discharge, and the current consumption of the electric motors. For this purpose a General Electric flow meter was installed in the discharge line of one of the pumps, while carefully calibrated wattmeters, voltmeters and ammeters were connected in the current supply lines to the motors. For this part of the test only clear water was pumped. The results were as follows:

Discharge Rate, in gals.; per minute	199
Voltage	223
Current, in amperes	6.25
Power Factor, in per cent	52
Power Input, in kilowatts	1.250
Motor Output, in horsepower	1.305*
Assumed Cost of Power per K.W. hour, in cents	6
Cost of Pumping Water per Thousand Gallons, Sixty-three One Hundredths of One Cent.	

* Calculated from characteristic curves furnished by motor manufacturer.

GENERAL

All installations are equipped with 4" vents which may be reduced to 3". All sumps for both types of ejectors are fully closed and gas tight. All collecting receptacles are either of ⅞" ct. shell or ⅜" welded steel. In Flush Kleen sewage ejector all solids for one period of operation are collected at the strainer, there discharged and collected for next cycle. The system is identified as an open system when the shaft of pumps is of the open type, in all cases the sumps are gas tight.

RECOMMENDATIONS

On the basis of the foregoing data and inspection, the Committee on Tests recommends the approval under C26-191.0.a of the Chicago Non Clog Sewage Ejector, figure 1, and the Flush-Kleen Sewage Ejector, figure 2, as having met the requirements of C26-1315.0, provided that all materials used shall comply with the requirements herein, that all motors shall have suitable controls and characteristics for the load required and that all wiring shall meet the requirements of the Department of Water Supply, Gas and Electricity, City of New York.

Control equipment shall be enclosed and floor mounted, including two fused motor switches, two ample current automatic starters providing overload and low voltage protection, two butt contact float switches and an automatic alternator. This alternator shall automatically transfer the operation from one pump to the other, also start the second pump in event the first pump does not handle the load. Float switches shall be actuated by individual copper floats having extended rods fitted with stuffing boxes. High water alarm shall be floatless type, complete with adjustable mountings, 4 inch gong, dry batteries and an enclosing cabinet.

It is further recommended that each unit shall bear a label of metal, reading as follows: "Approved for use in New York City by the Board of Standards and Appeals, under Cal. 103-45-SA."

(Sgd). BERNARD A. SAVAGE,
Commissioner,
CHARLES M. BLUM,
Commissioner,
LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Chicago Pump Company's Non-Clog Sewage Ejector and Flush-Kleen Sewage Ejector, *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

THE RESOLUTION (558-45-SA)

WHEREAS, the Peerless Manufacturing Corp., owner, filed on September 19, 1945, an application with the Board of Standards and Appeals for approval of the appliance known as the Peerless De Luxe Lowboy Vented Gas Circulators; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

October 23, 1945.

Re: Cal. 558-45-SA.

Subject: Peerless DeLuxe Lowboy Vented Gas Circulators

The Peerless Manufacturing Corporation, owner, filed an application with the Board of Standards and Appeals for approval under the provisions of C26-178.0, b for use under C26-690.0 and C26-697.0 of the Administrative Building Code of the Peerless Gas Vented Cabinet Heater.

DESCRIPTION

Burner:—A 23½ in. long cast iron burner with a 21¾ in. head having 216 ports No. 34 DMS on ⅛ in. high bosses for both natural and manufactured gases. Burner has a 1⅛ in. dia. throat in a 9¼ in. injecting tube 3 in. from the mixer face. Ports are ⅜ in below bottom of radiants and 7¾ in. above the floor.

Radiants: Five fireclay radiants 6¾ in. high having outside dimensions of 3⅛ by 2¾ in. at the bottom, 3⅛ by 17/16 in. at the top, and inside dimensions of 2⅝ by 2¼ in. at the bottom, and 2 5/6 by 1 in. at the top, with irregularly spaced ¼ in. high cones in front, and 73—5/16 in. high cones in back. Distance from bottom of radiants to first cones is 1⅝ in. in front and 1½ in. in back.

Combustion Chamber: A 19¾ by 23⅝ by 3⅞ in. sheet steel drum having 3— 4 in. diam. flueways whose centerlines are 13½ in. above the ports. Chamber contains the burner and radiants.

Heating Elements: Two 15½ by 23⅝ by 2 in. sheet metal drums 2 in. apart; first drum has two 4 in. dia. flueways with centerlines 13½ in. above ports and two 4 in. dia. flueways with centerlines 4¼ in. above ports which pass into rear drum. Rear drum has two 4 in. dia. flueways whose centerlines are 4¼ in. above ports which empty into the draft hood.

Draft Hood: A 17 by 10 by 4½ in. box type sheet steel draft head with a 4 in. dia. vertical outlet and with bottom of skirt 8¾ in. above floor.

Jacket: A 26¼ by 29¼ by 18¼ in. maximum dimensions sheet steel jacket with an 18⅛ by 8⅜ in., cast iron front grill and with 112 louvres 3⅛ by ½ in. in the top.

Floor Pan: A two pan assembly 2¼ in. above floor with two 5 by 23¾ in. sheet metal pans side by side.

Venting: Secondary air reaches ports through ¼ in. openings along the front and back sides of the burner between burner head and radiant support. Combustion products pass up through radiants, through 3—4 in. dia. flueways into first heating element, through four 4 in. dia. flueways into rear heating elements, through two 4 in. dia. flueways into draft hood.

Accessories: A No. 271-95 straight plug Schoenberger gas burner valve and a separate hood fitting. Also approved with General Controls MR-2 safety pilot and B60-4 automatic main control valve.

TEST

Inspection and test of this burner were made at 592 9th Avenue, Manhattan, by the Committee on Tests of the Board in the presence of representatives of the manufacturer. The burner was found to operate satisfactorily. The burner has been approved by the American Gas Association, Inc., certificate #2-670.511.

RECOMMENDATION

On the basis of the inspection and test and the approval of the American Gas Association, Inc., the Committee on Tests recommends that the Peerless Gas Vented Cabinet Heater (Vented Circulator Type Gas Space Heater) be approved for use in New York City under the Board's authority as provided in C26-191.0, a in other than garages or places having explosive atmosphere, provided that the unit be installed in accordance with this report and with the requirements of Art. 12, subart. 1, Administrative Code; that the unit is connected to a flue, conforming to the requirements of Art. 12, and provided also that the unit shall bear a label permanently affixed reading, "Approved by the Board of Standards & Appeals for use in New York City in other than garages and places with explosive atmosphere, under Cal. 558-45-SA."

(Sgd). BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Peerless DeLuxe Lowboy Vented Gas Circulator *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

GENERAL RESOLUTION

1464-39-GR

APPLICANT—The James H. Herron Co.

SUBJECT—Reopening and amendment of General Resolution—re Approval of Inspection Agencies under rules adopted by the Board under Calendar 1139-39-GR addition of the inspection agency, The James H. Herron Co. of Cleveland, Ohio.

APPEARANCES—
For Applicant: Harry C. Fritz.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (1464-39-GR)

WHEREAS, this general resolution, approving certain applicants as approved inspection agencies, was adopted by the Board December 18, 1939, amended April 16, 1940, July 2, 1940, November 6, 1940, December 17, 1940, February 4, 1941, April 1, 1941; and

WHEREAS, the James H. Herron Company requested reopening of the resolution and consideration by the Board as an approved inspection agency; and

WHEREAS, the report of the Committee on Tests, reads:

REPORT OF COMMITTEE ON TESTS

October 26, 1945.

Re: Cal. 1464-39-GR

Subject: Opening Protective Assembly Inspection Agencies—Addition to the List of the Testing Laboratory of the James H. Herron Company.

The James H. Herron Company of Cleveland, Ohio, filed a request with the Board for consideration as an approved testing laboratory for the purposes of performing the inspections required under the Board's rules for the Inspection of Opening Protective Assemblies. The Committee on Tests has reviewed the qualification, facilities, equipment and experience record of this testing laboratory and on the basis of such review, recommends that the testing laboratory of the James H. Herron Company be approved as an inspection agency under the provisions of the Rules of the Board of Standards and Appeals, covering the inspection of opening protective assemblies, Cal. 1139-39-SR, and that such approval shall remain in force until rescinded by the Board; that all inspections made under this laboratory's jurisdiction shall be made under the direction and supervision of one of their many licensed professional engineers, who shall be responsible for such inspections and the inspection work may be delegated to his assistants, Messrs. Frank J. Kriz and Harry C. Fritz. Upon inspection should any variations of the Board's approval be found, such discrepancies shall be brought to the attention of the Board, giving the calendar number of the opening protective assembly in question.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended approval of this applicant as an approved inspection agency.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 18, 1939, as last amended April 1, 1941, so as to include approval of the James H. Herron Company of Cleveland, Ohio as an approved inspection agency, in accordance with above report.

Adjourned: 12:05 P.M.

JOSEPH J. DOYLE,
Chief Clerk.

APPEALS FROM ADMINSTRATIVE DECISIONS

554-45-A

APPLICANT—Irving M. Fenichel, for Vanity Cleaners, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—48-02 25th avenue, south side, from 48th street to 49th street (Block 744, Lots 40-47, inclusive), Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Irving M. Fenichel.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (554-45-A)

WHEREAS, Irving M. Fenichel, for Vanity Cleaners, Inc., owner, filed September 13, 1945, an appeal from a decision of the borough superintendent, affecting premises 48-02 25th avenue, south side, from 48th to 49th streets (Block 744, Lots 40-47, inclusive), Astoria, Borough of Queens; and

WHEREAS, the decision of the borough superintendent dated August 14, 1945, re Misc. Applic. 3167-45, reads:

"4. This sprinkler, as required by Alt. 259-45 to comply with Art. 4.2.1, should consist of a system having two approved automatic sources or one approved automatic source and a fire pump. Art. 15.36."

and

WHEREAS, the applicant states the building is 1 and 2 stories (14 ft. and 24 ft.) in height, 200 ft. by 146 ft., irregular in area at first floor, 59 ft. 4 in. by 50 ft., irregular in area at typical floor; Class 3 construction; located in an unrestricted use, A area and Class 1½ height district; erected under N.B. 9146-27 and used since 1936 as follows: Cellar, storage, 1st floor, technical establishment and laundry, 65 persons; proposed to be used; cellar, same; 1st floor, same; 2nd floor, offices and locker-room, 30 persons; and

WHEREAS, Certificate of Occupancy 2453 issued December 11, 1935, permits the use of the present building for dyeing or dry cleaning establishment; and

WHEREAS, the applicant states that the building in question, the construction of which is virtually completed, is located on a plot having an area of 25,700 sq. ft. and faces on three streets; that it is divided into three fire areas, separated by brick fire walls, constructed as required by the Administrative Building Code, as indicated on plot plan; that Area 1 has an area of 3,438 sq. ft.; that Area 2 has an area of 333 sq. ft.; that Area 3 has an area of 16,250 sq. ft. and has a second floor, the area of which is 2,650 sq. ft. (16⅓% of the first floor), used as offices and locker rooms only; that a sprinkler system is required by the Department of Housing and Buildings only because Area 3 is considered as facing on two streets and therefore, 1,750 sq. ft. in excess of the 14,500 sq. ft. maximum established in Section C26-254.0, Article 5, subdivision (4.2.1) of the Administrative Building Code; that Area 3, which faces on 25th avenue and 48th street, is only 16 ft. 8 in. from 49th street at 25th avenue and opens upon the rear, irregular, vacant portion of the plot which connects with 49th street; that Area 3, the area in question, is relatively only slightly larger than permitted by the Administrative Building Code for areas facing on two streets, without a sprinkler system; and

WHEREAS, the applicant contends that Area 3 is accessible to the third street (49th street), through the vacant portion of the plot; that Area 3 has a second floor area of only 2,650 sq. ft. in lieu of 14,500 sq. ft. permitted by the Code when facing on two streets; that this second floor can be used for commercial use without a sprinkler system; that Area 3 will be used for shipping, receiving, pressing, laundering and similar work and not for cleaning, which will be confined to Area 1, having an incombustible roof of precast concrete and the only solvent used in cleaning will have a flashpoint in excess of 100 degrees F.; that for efficient operation, it has been found necessary to extend the deterging and chemical room to 25th avenue, otherwise Area 3 would have been extended to 49th street and a sprinkler system would not be required; that the sprinkler system will comply with all requirements, except that it will have only one source of supply; it is therefore requested that the Board grant this appeal, in view of the prevailing conditions and in view of the fact that the proposed sprinkler system will afford a degree of safety equal to that required by the Administrative Code.

Resolved, that the decision of the borough superintendent, acting on Misc. App. 3167-45, objection 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the one-source sprinkler system as proposed, shall comply with all laws, rules and regulations applicable thereto; that the water line shall be taken from 48th street instead of 25th avenue, as shown; and, *granted* only so long as the premises are used substantially as proposed and divided as indicated on plans filed marked "Received September 13, 1945"; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

575-45-A

APPLICANT—John J. Gilmartin, for Fagel Realty Corp., owner.

SUBJECT—Appeal from an order and decision of the fire commissioner.

PREMISES AFFECTED—60 Pearl street, south side, 84 ft. 3 in. east of Broad street (Block 7, Lot 38), Borough of Manhattan.

APPEARANCES—

For Applicant: John J. Gilmartin.

For Administration: Peter Maher, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (575-45-A)

WHEREAS, John J. Gilmartin, for Fagel Realty Corp., owner, filed September 28, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 60 Pearl street, south side, 84 ft. 3 in. east of Broad street (Block 7, Lot 38), Borough of Manhattan; and

WHEREAS, Order 19321-LF issued by the Fire Commissioner, on October 25, 1944, reads:

"1. Provide a fixed fire extinguishing system or other means for the extinguishment of fire satisfactory to the Fire Commissioner, throughout the building. C19-161.0 Adm. Code."

and

WHEREAS, the decision of the Fire Commissioner, dated September 11, 1945, reads:

"In reply to your request for reconsideration, on item 1 of Order 19321-LF, a reinspection has been made and in view of the large amount of combustible

material stored in the building, your request must be denied."

and

WHEREAS, the applicant states the building is five stories (47 ft.) in height, 28 ft. 5 in. by 50 ft. in area; Class 3 construction; erected prior to 1893; located in an unrestricted use, B area and Class 2½ height district; used and occupied: cellar, vacant; 1st floor, storage and repair office furniture, 3 persons; 2nd to 5th floors, inclusive, storage of office furniture, no persons; that no change in use or occupancy is proposed; that the building is equipped with one interior open wood stairs, 32 in. wide, leading from the roof to the street and one fire escape at the front, leading to the roof by stairs and to the street by a drop ladder; that windows on the course thereof are not fireproof, self-closing; and

WHEREAS, the applicant contends that the building has been used for many years for the storage of office furniture on all floors except the cellar; that the cellar is cut off from the upper floors; that the ceilings are tight tongue and groove construction, serving as partial fire-retarding; that the furniture repairs are carried out on the first floor by 3 persons; that the upper floors are visited only for removing and adding to the stock; that a 3 ft. passageway is provided on all floors and water buckets are provided and additional portable fire-extinguishing equipment will be installed as directed; that the building is unheated, thus making the installation of a sprinkler system costly and difficult; in view of the small area of the building, the fact it is accessible in case of fire and that the material stored cannot be considered inflammable, it is requested that the order for the installation of the sprinkler system be waived; and

WHEREAS, the premises were inspected by a committee of the Board and the Committee (noted that the cellar, which it had been stated by applicant was vacant, was filled with rubbish and flammable material, and therefore) recommended that the appeal be denied.

Resolved, that the order 19321-LF of the Fire Commissioner and his decision dated September 11, 1945, be and they hereby are *affirmed* and that the appeal be and it hereby is *denied.*

579-45-A

APPLICANT—Lama & Proskauer, for Congregation Shaare Torah, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—2250 (2256 displayed) Bedford avenue, west side, 122 ft. 7 in. north of Snyder avenue (Block 5103, Lot 81), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (579-45-A)

WHEREAS, Lama and Proskauer for Congregation Shaare Torah, owner, filed October 2, 1945, an appeal from a decision of the borough superintendent, affecting premises 2250 (2256 displayed) Bedford avenue, west side, 122 ft. 7 in. north of Snyder avenue (Block 5103, Lot 81), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated September 21, 1945, re Alt. Applic. 1277-45, reads:

"1. Proposed change of occupancy to school in a frame structure over one story high violates Sec. 4.2.1 Building Code.

"2. 60# min. liveload capacity required for classroom—Sec. 7.3.2.2.3 Building Code—40# liveload capacity not acceptable.

"3. Use of 2nd floor with access by stair designated as vacant is not acceptable."

and

WHEREAS, the applicant states that the building is two stories (17 ft. 6 in.) in height, 21 ft. 2 in. by 30 ft. 2 in. in area; Class 4 construction; located in a residence use, C area and Class 1 height district; erected about 1900; used and occupied since 1944: Cellar, ordinary; 1st floor, classroom and coat room, 20 persons; 2nd floor, storage and bathroom; that no change in use or occupancy is proposed; that the building is equipped with one 2 ft. 8 in. wide wood stairs, enclosed in partitions of studs and plaster, equipped with wood doors, which are not self-closing and lead from the 2nd floor to the street; that there is no ladder or scuttle to the roof; and

WHEREAS, Violation 617-44 was issued for occupying the first floor as a religious school for twenty children, without a certificate of occupancy; and

WHEREAS, the applicant contends that the 2nd floor will not be used except for present bathroom and that permission is requested for the use of the building for a school as a temporary use, as it is the plan of the Congregation to construct a modern fireproof building within the next several years; that there are two doors leading to the outside, one at the rear and one at the front; and

WHEREAS, the committee of the Board which inspected the premises (from cellar to attic and noted the construction and that the cellar has a hot air furnace for heating purposes and there is no protection in the cellar; also that the second floor is at least partially occupied), was of the opinion that this building is not suitable for the use proposed and recommended the appeal should not be granted; and

WHEREAS, the Board deemed that if the owners desire a temporary use, they should tear the building down and erect a small inexpensive building of concrete block.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 1277-45, objections 1, 2 and 3, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

THE RESOLUTION (600-45-A)

WHEREAS, Joseph B. Klein, for Charles H. Gerhards, owner (Marcia Schliffer, lessee), filed October 9, 1945, an appeal from a decision of the borough superintendent, affecting premises 2522 Barker avenue, east side, 225 ft. north of Mace avenue (Block 4428, Lot 17), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 589-44, dated September 19, 1945, reads:

"1. Change of occupancy to public use in a frame (Class 4) structure is not permitted. Section C26-254.0. Reconsideration denied."

and

WHEREAS, the applicant states that the building is one story (13 ft.) in height; 25 ft. 9 in. by 54 ft. in area; of Class 4 construction; erected approximately 1925; located in a residence use, D area and Class 1 height district, and used and occupied since 1943 as day care agency for children, 15 persons, and proposed to be occupied, same, 25 persons; that the building is equipped with one interior wood stairs, 2 ft. 6 in. wide, enclosed in studs and sheet rock, extending to the roof by a scuttle; and

WHEREAS, the applicant contends that the building is a one story frame structure, the exterior walls being covered with metal lath and stucco, and the roof being covered with asphalt shingles; that all sides of the building are exposed, affording ample exit facilities, and in addition, all window sills are within 5 ft. of the ground; that the building has no cellar, thus eliminating a possible hazard; that the recreational facilities, both indoors and in the large playground, are a healthful asset to the children; it is therefore respectfully requested that the Board give the matter favorable consideration; and

WHEREAS, on March 7, 1944, a communication was addressed to the Borough Superintendent by the lessee, requesting approval of the occupancy of the building as a nursery school; on March 8, 1944, the Borough Superintendent replied to this request, advising the applicant "it will be necessary to file an application with the Department of Health for the proposed use before any action could be taken by the Department of Housing and Buildings;" and

WHEREAS, on March 23, 1944, a communication was received by the Borough Superintendent from the Department of Health, requesting to be informed if the Borough Superintendent had any objections to the conduct of a day care agency for fifteen children on these premises; and

WHEREAS, this request from the Department of Health was the subject of a Special Report No. 1950-44, dated April 10, 1944, accepted by the Acting Borough Superintendent April 11, 1944, wherein it was stated that the premises complied with the rules and regulations of the Department for use as a day care agency for fifteen children and there were no objections to the issuance of the permit for not more than fifteen children on the first floor; and

WHEREAS, on April 11, 1944, communication addressed to the Department of Health by the Borough Superintendent advised that "the premises comply with all the requirements of the laws and ordinances under the jurisdiction of the Borough Superintendent and all the rules and regulations of the Department of Housing and Buildings for the proposed use as a day care agency for 15 children on the first floor. On Sept. 22, 1944, a request from the Bureau of Child Hygiene of the Department of Health was addressed to the Department of Housing and Buildings for an inspection of the day care agency on the premises in question for the occupancy by 25 children throughout the entire building from 2 to 6 years of age and stating that the occupancy existed. This request was disapproved by the Borough Superintendent October 31, 1944, on the grounds that a 1½ story frame building in a residence district was previously approved as a day care agency for 15 children and recommended that a certificate of occupancy be required before the number of children is increased to 25. A similar request for inspection dated December 27, 1944, addressed to the Department of Housing and Buildings by the Bureau of Child Hygiene resulted in a report by the Borough Superintendent approving the ocupancy of fifteen children on the first floor and disapproving the use for twenty-five children, as no certificate of occupancy has been obtained for use as a day care agency and recommending that a plan be filed with the Department for approval and a certificate of occupancy be obtained; and

WHEREAS, under date of June 8, 1945, a communication was addressed by the Borough Superintendent to the Department of Health, stating that the record relating to 2522 Barker avenue was investigated and that the record indicated that "the building is 1½ story frame—about 1900 sq. ft. in area, and that Section 4.2.1 of the Administrative Code prohibits the use of a frame building over 600 sq.ft. in area as a day care agency for children," and stated that Alt. Applic. 589-44 was disapproved for that reason. In this communication the Borough Superintendent also stated that if the applicant took steps to make an appeal to the Board,

he would, pending the disposition of the appeal, permit temporary use of the building as a day care agency for 25 children; and

WHEREAS, under date of September 22, 1944, the Fire Department approved the use of the premises for twenty-five children and stated on such approval that "Inspection shows no objection to day nursery within the jurisdiction of this Department"; and

WHEREAS, the premises was inspected by a committee of the Board; and

WHEREAS, the Department of Health approves the increase proposed to a total of 25 children.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 589-44, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the number of children in the day care agency or day nursery shall at no time exceed twenty-five (25); that while the agency is being conducted, there shall be not less than three qualified persons in complete charge of the premises, supervising the welfare of the children; that these premises shall be maintained to the satisfaction of the Department of Health and the Division of Day Care of said department; that the heating system shall be maintained to the satisfaction of the fire commissioner; that such portable fire-fighting appliances shall be maintained within the building as the fire commissioner shall direct; that around the space occupied by the heater, there shall be installed three sprinkler heads, approximately 4 feet therefrom and in the kitchen space adjacent to the cooking range, there shall be at least two sprinkler heads; that such sprinkler heads shall be 120 deg. heads, ½ inch in size and may be connected to the domestic water supply in the building; that a door shall be cut in the wall between the space marked "office", between office and kitchen and also a door leading from the solarium to the yard, directly opposite the main entrance to the room marked "music room"; as indicated on plans filed with this appeal marked "Received October 9, 1945"; that all doors serving as means of exit, shall be made to swing outwardly; that the existing exit doors shall be maintained openable at all times while the nursery is in use; that the attic space shall be cut off and not occupied for any use.

607-45-A

APPLICANT—RCA Communications, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—64-68 Broad street and 31 Beaver street, northwest corner (Block 24, Lot 1), Borough of Manhattan.

APPEARANCES—
For Applicant: John J. Dorsey
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (607-45-A)

WHEREAS, RCA Communications, Inc., owner, filed October 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 64-68 Broad street, and 31 Beaver street, northwest corner (Block 24, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, on E.S. Applic. 232-45, dated July 31, 1945, reads:

> "Proposed sign is contrary to Art. II, Sec. 4a, subdiv. 49a of the Zoning Resolution, as same projects more than 18" beyond building line and premises is in a business use district."

and

WHEREAS, the applicant states that the building is 10 stories (130 ft.) in height, 98 ft. 8 in. by 69 ft. 3 in., irregular in area, of class 1 construction, erected in 1891, located in a business use, B area and class 2½ height district; used and occupied since erection: cellar—5 persons; basement—storage and mechanical equipment—10 persons; 1st floor—office, restaurant and bar—172 persons; 2nd to 10th floors—offices—119 persons on the 2nd floor, 98 persons on the 3rd floor, 110 persons on the 4th floor, 32 persons on the 5th floor, 37 persons on the 6th floor, 34 persons on the 7th floor, 100 persons on the 8th floor, 40 persons and the 9th floor and 30 persons on the 10th floor; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system, an approved standpipe system, one interior stairs on the northwest side of building, extending to the roof bulkhead and leading directly to the street, 4 ft. in width, of steel, slate or terrazzo construction, equipped with kalamein doors at the roof and one door at the roof is self-closing; that the building is also equipped with one fire escape on south court wall, extending to the roof by stair and to the court by stair, with egress through the adjoining building; that window and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the nature of the applicant's business is solely in the interest of the public and the building is open for use of the public 24 hours per day, so that they may send and receive radiograms from all parts of the world; that under section 4a, subd. 49, par. c, such signs may be erected on public buildings; and

WHEREAS, the applicant states that this is an application for interpretation of section 4a, subdivision 49(a) of the Zoning Resolution and not an application for a variance; and

WHEREAS, the premises were inspected by a committee of the Board, which made the following report:

REPORT OF COMMITTEE

November 16, 1945.

Re: Cal. 607-45-A
Premises 64-68 Broad Street,
31 Beaver Street, Manhattan.

This is an appeal for interpretation of the law relating to an electric sign proposed to be erected over the building line at the corner of the building. It is proposed to extend beyond the building line for a distance of eight feet.

A business sign, under the Zoning Resolution—Article II, Section 4a, subdivision 49, cannot be erected in a business use district, in which this building is located, to project more than 18 inches. The applicant claims that this limitation is not applicable to this building as the building is "essentially of a public nature where such signs are permitted". The sign would advertise radiogram service.

After inspection of the occupancies of the building, which is an office building, the Committee cannot agree that the sign proposed is other than a "business sign" and should comply with the requirements of the Zoning Resolution, unless, under a proper application to this Board, a zoning variance is granted for an electric sign exceeding the distance from the building line permitted under the law.

The law provides, a remedy where an owner desires to be relieved of the requirements, and this is the course that should be followed rather than the device, too frequently employed, of asking the Board to 'interpret" the law so as to make an exception as to a condition which should properly be the subject of an application for a zoning variance.

(Sgd). HARRIS H. MURDOCK,
Chairman.
BERNARD A. SAVAGE,
CHARLES M. BLUM,
JOHN E. GUNN,
Committee.

Resolved, that the decision of the borough superintendent, acting on E.S. Applic. 232-45, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

608-45-A

APPLICANT—Raymond Irrera, for Fred C. Dick and Augusta Dick, owners (Steinway Lumber Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—40-16 31st avenue, south side, 25 ft. west of 41st street (1st floor); (Block 678, Lot 44), Long Island City, Borough of Queens.

APPEARANCES—
For Applicant: Raymond Irrera.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (608-45-A)

WHEREAS, Raymond Irrera, for Fred C. Dick and Augusta Dick, owners (Steinway Lumber Co., lessee), filed October 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 40-16 31st avenue, south side, 25 ft. west of 41st street (1st floor); (Block 678, Lot 44), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated October 3, 1945, re Alt. App. 964-45, reads:

"3. As power driven saws are to be used on premises, the proposed use of premises is contrary to Article 2, Section 4, sub-section 31 of B.Z.R."

and

WHEREAS, the applicant states that the building is one story (12 ft.) in height, 20 ft. by 80 ft. in area; Class 5 construction; erected in 1920; located in a business use, B area and Class 1½ height district; used from erection, under N.B. App. 3582-20, as follows: 1st floor, garage and battery service station; used since August 1944 for present use, i.e., woodworking shop, with an occupancy of 2 persons; that no certificate of occupancy was obtained for either use; that Violation 1676-45 was issued September 18, 1945 for using premises as a woodworking factory, without a certificate of occupancy; and

WHEREAS, the applicant contends that the premises, operated as a woodworking shop, is used by owner and a helper and the power-driven equipment consists of one 8 in. circular saw and one band saw, each operated by a ½ horsepower electric motor; that the major part of work performed consists of making and assembling wood cabinets, shelving, standing closets, radiator covers, storm and window sash, etc.; that at no time are these saws in continuous operation; that these saws do not constitute a saw mill as defined in Art. 2, Sec. 4, subdivision 31, of the Zoning Resolution; and

WHEREAS, the applicant further contends that a saw mill in his opinion and as intended by the zoning law, is a plant where lumber and timber are made from original logs, requiring large and powerful saws or where sawing is a major and continuous operation; that the saws used in this shop are necessary equipment used solely for expediting work and as labor saving devices and may be comparable to the electric machinery used in a shoe repairing shop or other permitted uses in a business district, where machinery is used in performance of the work; that the applicant believes, therefore, that no violation of the zoning law exists and respectfully request this appeal be acted upon as an "A" case, for the purpose of clarifying whether or not this type of business should be considered a saw mill and further requests that this woodworking shop, which is permitted in a business use district, be permitted to have these saws as accessory equipment; and

WHEREAS, the applicant further states that this appeal is made for the purpose of interpretation of the law and not for a variance of the zoning resolution; and

WHEREAS, the lessee was served with a summons to appear in the City Magistrates Court and sentence was suspended on August 29, 1945; and

WHEREAS, the premises were inspected by a committee of the Board and also the motor driven saws in question were inspected and the records of the Building Department examined, which indicated the premises were formerly used as a metal garage; and

WHEREAS, as in other cases where such saws were used, the Board has uniformly determined that they are precluded under Article 2, Section 4, Subdiv. 31 of the Zoning Resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 964-45, objection 3, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

613-45-A

APPLICANT—George P. Ames, for Albert and Freida Happel, owners.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—29-55 Bell boulevard, east side, 525 ft. south of 29th avenue (Block 6054, Lot 1), Bayside, Borough of Queens. (Under section 35, General City law re bed of mapped street—32nd avenue.)

APPEARANCES—
For Applicant: George P. Ames.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (613-45-A)

WHEREAS, George P. Ames, for Albert and Freida Happel, owners, filed October 15, 1945, an application pursuant to section 35 of the General City Law, to permit the encroachment of an existing building within the bed of a mapped street (32nd avenue) affecting premises 29-55 Bell boulevard, east side 525 ft. south of 29th avenue (Block 6054, Lot 1), Bayside, Borough of Queens; and

WHEREAS, the decision of the borough superintendent dated October 8, 1945, on Alt. Applic. 1699-45, reads:

"1. The approval of the building shown on the bed of the mapped street (32 Ave.) must be secured from the Board of Standards and Appeals, as per Art. 3 sect. 35, of General City Law."

and

WHEREAS, the applicant states that the building is 1½ stories (22 ft.) in height, 33 ft. 4 in. by 38 ft. 8 in. in area, of class 4 construction, erected in 1939, located in a business use, D area and Class 1 height district, used and occupied as a one family dwelling pursuant to Certificate of Occupancy Q8104 issued November 17, 1939, on N.B. Applic. 1654-39; and

WHEREAS, the applicant contends that plans were filed for the dwelling in question in 1939 and permit to build issued without objection and subsequently the Certificate of Occupancy was issued; that granting of the permit to build and issuance of the certificate of occupancy precluded an appeal to the Board; that it is believed that the Building Department at that time was operating under an opinion by the Corporation Counsel that approval of the Board was unnecessary; that the owner now desiring to sell, finds title not marketable, as title companies will not insure on the basis of the decision of the Court of Appeals in Petterson vs. Radspi 290 N.Y. 645; that the owner desiring a marketable title, requests the Board to grant permission to main-

tain the building in the bed of a mapped street; and

WHEREAS, it appears that a report from the Topographical Bureau dated April 25, 1939, called the Department of Housing and Buildings attention to the mapped street; and

WHEREAS, the permit apparently was issued by the borough superintendent, based on an opinion of the Corporation Counsel and the building was erected thereunder, although the opinion of the Corporation Counsel has since been changed, as evidenced by the several court cases which have occurred since 1930.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1699-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under section 35 of the General City Law, *on condition* that the building shall not be increased in height or area and that in the event a portion of the premises is taken by the city for street purposes, no claim shall be made in condemnation for value of the building beyond the cost at the time the building was erected in 1939 as may be determined by the court and for the fair value of the land so taken, as determined by the court.

632-45-A

APPLICANT—Judson E. Schnall, for Schnall and Blaufeux, for Rabbi Mayer Rosenblum, owner.

SUBJECT—Appeal from decision of the borough superintendent.

PREMISES AFFECTED—1326 and 1330 Ocean parkway, west side, 205 ft. south of Avenue M (Block 6568, Lots 21 and 22), Borough of Brooklyn.

APPEARANCES—

For Applicant: Judson E. Schnall.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (632-45-A)

WHEREAS, Judson E. Schnall, for Rabbi Mayer Rosenblum, owner, filed October 19, 1945, an appeal from decisions of the borough superintendent, affecting premises 1326 and 1330 Ocean parkway, west side, 205 ft. south of Avenue M (Block 6568, Lots 21 and 22), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated September 24, 1945, on Alt. 2875-45 and Alt. 2876-45, reads:

"1. Changing occupancy from residence to public use in a class No. 3 building over 20 ft. in height, is contrary to sections 2.1.3.5 and 4.2.1 of Building Code."

and

WHEREAS, the applicant states that each building is two stories (26 ft.) in height, 20 ft. 4 in. by 68 ft. in area at street floor, 20 ft. 4 in. by 60 ft. in area at typical floor, of class 3 construction, erected in 1922, located in a residence use, C area and Class 1½ height district, used and occupied since erection: cellar, play room and boiler room; 1st and 2nd floors, 1 family each; proposed to be used and occupied: cellar, recreation room, prayer room and boiler room, 40 persons; 1st floor, 8 bed rooms, kitchen and office, 28 persons; 2nd floor, 12 bed rooms, 36 persons; that the building as altered will be equipped with one interior stairs at the front of the building, 3 ft. 8 in. wide, of wood construction, with fire-retarded one hour enclosure, leading directly to the street, and equipped with fireproof, self-closing doors; and

WHEREAS, the applicant contends that all the enclosure walls are of brick construction and it is now proposed to combine 1326 with 1330 Ocean parkway, to be occupied as a convalescent home; that it is proposed to remove portions of the party walls on 1st floor and 2nd floor, to combine the buildings for a conjunctive occupancy, to alter the front entrance steps to combine as one entrance, to enclose interior cellar stairs with a fireproof 3-inch gypsum block partition and fireproof, self-closing one hour test door at the bottom, to remove the present stairs leading to 2nd floor and install a 3 ft. 8 in. wide stairs, enclosed in one hour rating fire-retarded partitions; that the building is 26 ft. in height and 2,765 sq. ft. in area, of brick construction, set back 30 ft. from the building line, completely detached, equipped with oil burning heating units and only two stories high; that existing garages on the rear of lot will be used only in conformity with the zoning resolution, as accessory to the principal use on the premises.

Resolved, that the decision of the borough superintendent, acting on Alt. Applics. 2875-45 and 2876-45, objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

637-45-A

APPLICANT—Lama and Proskauer, for Archie Snyder, owner, (Lon Fong, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1586-1588 Pitkin avenue, south side, 65 ft. west of Amboy street (2nd floor); (Block 3517, Lot 35), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

THE RESOLUTION (637-45-A)

WHEREAS, Lama and Proskauer, for Archie Snyder, owner (Lon Fong, lessee), filed on October 23, 1945, an appeal from a decision of the borough superintendent, affecting premises 1586-1588 Pitkin avenue, south side, 65 ft. west of Amboy street (2nd floor); (Block 3517, Lot 35), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated October 19, 1945, on B.N. Applic. 1259-45, reads:

"1. Proposed marquee is contrary to Section 2.4.1.4.8 of the Building Code."

and

WHEREAS, the applicant states the building is two stories (25 ft.) in height; 35 ft. by 90 ft. 5 in. in area; of Class 3 construction; erected 1930; located in a business use, C area and Class 1½ height district, and used and occupied since 1945, cellar, ordinary; 1st floor, store; 2nd floor, restaurant, 210 persons; that no change in use or occupancy is proposed; that the building is equipped with two 3 ft. 8 in. wide iron stairs, enclosed in partitions of studs and ¾ in. portland cement mortar, equipped with fireproof, self-closing doors and leading directly to the street; that a ladder and scuttle to the roof is provided; that there is also a fire escape in the rear, leading to the roof by a ladder and to the yard by iron stairs; and

WHEREAS, the applicant contends it is proposed to remove and reset a marquee presently located at 1625 Pitkin avenue, the premises previously occupied by the Chinese restaurant, to the building in question; that the operators of the restaurant were compelled to move to the building in question because the old location could not be made to comply with Local Law 29; that the erection of this sign is important to this particular type of business; that Pitkin avenue has many marquees and the erection of this one will not affect the appearance of the avenue; and

WHEREAS, a committee of the Board inspected the so-called marquee at 1625 Pitkin avenue and also the proposed new location at 1586-1588 Pitkin avenue and determined that

the construction in question is actually more a sign, than a marquee and recommended that the appeal should not be granted, to transfer the existing sign to the new location as proposed, contrary to the requirements of the Zoning Resolution.

Resolved, that the decision of the borough superintendent acting on B.N. Applic. 1259-45, objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

653-45-A

APPLICANT—Antonin Raymond, for Baltimore and Ohio Railroad, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—630-636 West 26th street, south side, 136.43 ft. east of 12th avenue (Block 670, Lot 66), Borough of Manhattan.

APPEARANCES—

For Applicant: A. Riklin.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (653-45-A)

WHEREAS, Antonin Raymond, for Baltimore and Ohio Railroad, owner, filed October 30, 1945, an appeal from a decision of the borough superintendent, affecting premises 630-636 West 26th street, south side, 136.43 ft. east of 12th avenue (Block 670, Lot 66), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated October 29, 1945, on amendment to N.B. Applic. 250-45, reads:

"1. A marquee projecting beyond bldg. line is not permitted, as per Sec. 2.4.1.4.3 Building Code."

and

WHEREAS, the applicant states the proposed building will be 2 stories (31 ft.) in height; 103 ft. 9 in. by 35 ft. 7½ in. in area, of Class 3 construction; located on a lot 593 ft. by 98 ft. in area, in an unrestricted use, A area and Class 2 height district, and used and occupied as follows: 1st floor, storage of general merchandise, 10 persons; 2nd floor, storage of general merchandise, 8 persons; that the building will be equipped with one 3 ft. 8 in. wide fireproof stairs from the 2nd floor to the street and provided with a ladder and scuttle to the roof; and

WHEREAS, the applicant contends that the proposed building will be an extension to an existing warehouse which is nine stories in height, 353 ft. in length; erected in 1913, and now equipped with a loading platform for the full length of the building; that the proposed two story steel frame and brick building which will be added, will have a total width of 103 ft. 9 in. and will line up with the existing building; that the floor plan of the existing building and the location of the existing railroad tracks do not permit the placing of an additional building in any other way except as proposed; it is essential that there be an extension of the existing loading platform and canopy, in order to provide cover over the large doors at which trucks are to be loaded and unloaded; it is therefore requested that the Board permit the erection of the loading platform and canopy as indicated on plans filed with this appeal; and

WHEREAS, the applicant stated that the proposed new building will be separated from the existing building by a fire wall with approved fire doors therein; and

WHEREAS, the premises were inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, acting on amendment to N.B. Applic. 250-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the erection of the proposed canopy (marquee) on the West 26th street side, as indicated on plans marked "Received October 30, 1945," *on condition* that the shipping and receiving at such new building shall be mainly from the easterly end thereof, as proposed; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

656-45-A

APPLICANT—Christian J. Wolfe, for Rockwood and Company, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—21-37 Waverly avenue, east side, 177 ft. 2 in. north of Park avenue and 54-58 Washington avenue, west side, 172 ft. 2 in. south of Flushing avenue (Buildings 10, 11, 12, 13 and 17, 4th floor); (Block 1874, Lots 1, 38 and 40), Borough of Brooklyn.

APPEARANCES—

For Applicant: Christian J. Wolfe and Howard J. Cameron.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (656-45-A)

WHEREAS, Christian J. Wolfe, for Rockwood and Company, owner, filed October 24, 1945, an appeal from a decision of the borough superintendent, affecting premises 21-37 Waverly avenue, east side, 177 ft. 2 in. north of Park avenue and 54-58 Washington avenue, west side, 172 ft. 2 in. south of Flushing avenue (Buildings 10, 11, 12, 13 and 17, 4th floor); (Block 1874, Lots 1, 38 and 40), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 2255-45, dated October 18, 1945, reads:

"1. Commercial buildings over 50 ft. in height is contrary to Sec. 4.2.1 of Building Code.

"2. All exit doors to swing in line of egress and to be 3 ft. 8 in. in width.

"3. All stairways to comply with Sec. 270 of Labor Law.

"4. Fire walls to comply with Sec. 265 of Labor Law and openings in fire walls shall be protected with fire doors as specified in Sect. 10.8.1 of Bldg. Code."

and

WHEREAS, the applicant states that the buildings will be 4 stories (62 to 64½ ft.) in height; 181 ft. 2 in. by 100 ft. in area on the Waverly avenue front; 75 ft. by 100 ft. in area on the Washington avenue front; of Class 3 construction; and erected as follows: Building No. 12 in 1919; Buildings 10, 11 and 13 in 1920 and Building 17 in 1933; located in an unrestricted use, A area and Class 1½ height district and used and occupied since 1924 as follows: 1st floor, storage, 29 persons; 2nd floor, storage, 20 persons; 3rd floor, storage and manufacturing of chocolates; and proposed to be used and occupied as follows: 1st, 2nd and 3rd floors, same; 4th floor, storage and manufacturing, 55 persons; that the building is equipped with an approved two source sprinkler system and four interior stairs, 44 in. to 48 in. wide, three of which are of wood, and one of steel construction, enclosed in 12 in. brick walls; and

WHEREAS, the applicant contends as to Objection 1, that the 1st floor is fireproof and directly on the ground; that it conforms with Sec. 4.2.1 of the Code, as it is only four stories; that all five buildings adjoin each other, with 2nd 3rd and 4th floors level, and are divided by fire walls and self-closing fire doors; that the floor loads are supported on piers with 12 in. non-bearing curtain walls between, and on interior wood or steel columns; that the only exceptions are the front and rear bearing walls of Bldg. No. 13, where

wall thicknesses are increased below the 2nd story as required; that all five buildings are equipped with an approved two source sprinkler system, including the 4th story; that the new roof deck will be supported on Lally columns, steel columns and brick piers and will be fire-protected with 1¾ in. Porex slabs ¼ in. cement top finish with slag roofing and the ceiling and girders encased with metal lath and ¾ in. cement plaster; and contends as to Objection 2, that all exit doors comply with the requirement for a minimum width of 3 ft. 8 in. and swing in line of egress, with the exception of the 54 in. 58 in. and 60 in. wide openings in the fire walls between Buildings 10, 11 and 13, which have self-closing sliding doors on both sides of the wall; that if necessary additional 44 in. single swing and slide doors will be installed in the two fire walls; and contends as to Objection 3, that these buildings were erected after October 1, 1913 and were approved as warehouses; that the upper floors are now to be partly used for factory purposes; that Stairways 1, 2 and 4 are of wood, enclosed by 12 in. brick walls, but will be constructed of incombustible materials if the Board so desires; as to Objection 4, that the 12 in. walls enclosing stairs, which are in line with the dividing fire walls, have exits leading to stairs Nos. 1, 2 and 4; that this portion of the wall could be considered as stair enclosure and not as a fire wall between buildings, so that a single door swinging in the line of egress would suffice; and

WHEREAS, the premises were inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 2255-45, objections 1, 2, 3 and 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the buildings, as proposed to be extended to four stories in height, shall not exceed a total height of 65 feet; that the existing wooden stairways within the stair enclosures shall be removed and steel stairs complying with the Building Code, substituted therefor; that all doors opening to such stair enclosures shall comply with the Code requirements; that the existing doors in fire walls other than doors to stairways may be continued, provided such openings in fire walls serving as a second means of exit from any section of the building shall be equipped with one sliding and one hinged fire door, meeting the requirements therefor; that the two-source sprinkler system shall be extended and maintained throughout the premises; that the buildings shall not be further increased in height or area; and granted only so long as the building is occupied in compliance with the requirements of this resolution and for the use proposed; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

657-45-A

APPLICANT—Robert D. Kohn and John J. Knight, for R. H. Macy and Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (657-45-A)

WHEREAS, Robert D. Kohn and John J. Knight, for R. H. Macy and Co., Inc., owner, filed October 25, 1945, an appeal from a decision of the borough superintendent, affecting premises 1317-1329 Broadway, west side, from West 34th to West 35th streets, 105-173 West 34th street, 441-459 7th avenue, and 108-166 West 35th street (Block 810, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 1724-45, dated October 18, 1945, reads:

> "1. Not more than two adjoining stories in any structure may be connected by an open well, unenclosed stairway, or escalator, C26-292.0-c."

and

WHEREAS, the applicant states that the building is 10 and 19 stories and pent house (286 ft. 9 in.) in height; 595 ft. by 197 ft. in area; of Class 1 construction; located in a business use, B area and Class 2 height district; erected 1898, 1921, 1928 and 1930 and used and occupied as a department store; that the building is equipped with a two source sprinkler system, standpipe system, interior fire alarm system and that fire drills are maintained; that there are nine (9) interior stairs and one fire tower enclosed in terra cotta, equipped with metal covered, self-closing doors and leading from the roof bulkhead, directly to the street; and

WHEREAS, the applicant contends the building is subdivided into three fire areas, equipped with a 100% supervised two source sprinkler system, a standpipe system, and central station fire alarm and that a watchmen's service is maintained; that the enclosures for the existing escalators are constructed of metal and 6 in. terra cotta block with sidelights and double acting doors held open by means of fusible links and chains; that sash, side lights and doors are glazed with quarter inch polished wire glass; that it is proposed to remove existing enclosures and replace same by means of fireproof balustrading, finished with plaster on two sides, the well opening to be provided with a rolling shutter in a horizontal position at top of balustrading, manually operated; that the well opening below shall be protected by a steel or cement flame baffle 24 in. below general ceiling level and additionally protected by means of an automatic sprinkler water curtain with heads 4 ft. on centers around the perimeter of the well opening; that an automatic electrical device will be installed, to stop the operation of the escalator upon the closing action of the shutter; and

WHEREAS, the applicant contends that the protection, proposed to be afforded by the alterations, is equal or superior to that of the existing construction; and

WHEREAS, under Cal. 227-38-A, the Board modified a decision of the borough superintendent, permitting the removal of the existing kiosks previously installed in connection with the existing escalators on the 2nd floor adjacent to column 54 on the 4th and 8th floors on up and down escalators between columns 145 and 146, and columns 155 and 156, and substituting therefor, fireproof balustrades with a steel roller shutter at each opening, so arranged to be operated by hand by means of a chain secured by heavy rings to the bottom rail of the shutter, etc., and requiring a two inch reinforced concrete baffle extending downwardly around each floor opening and within 2 ft. thereof and the provision of sprinkler heads spaced 4 ft. apart, within 2 ft. of such baffles; and

WHEREAS, under Cal. 1048-40-A, the Board modified a decision of the borough superintendent acting on Alt. Applic. 3227-40, permitting the installation of one new escalator from 1st to 2nd story, to replace existing escalator and to permit the removal of kiosks on such existing escalator at column 57, on condition that the new escalator be installed in accordance with the requirements of the resolution adopted by the Board under Cal. 227-38-A.

Resolved, that the decision of the borough superintendent on Alt. Applic. 1724-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the alteration shall be completed substantially as indicated on plans filed with this appeal marked "Received October 25, 1945," (floor plan) and marked "Received November 14, 1945," two sheets, (details); that the requirements similar to those required by the Board under Cal. 227-38-A adopted May 17, 1938 as printed in Bulletin 9, Vol. 24 and under Cal. 1048-40-A adopted November 13, 1940, as printed in Bulletin 47, Vol. 25, shall be complied with.

ZONING APPLICATIONS

1333-22-BZ

APPLICANT—J. David Rickover, for Fred, Katherine and Margaret Nienstedt, owners.

SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7i of the zoning resolution, for a term of two years, permitting in a business use and extending into a residence use district, the change of occupancy of a business building to a motor vehicle repair shop.

PREMISES AFFECTED—662 East Fordham road, south side, 50.96 ft. west of Cambreling avenue (Block 3091, Lot 22), Borough of The Bronx.

APPEARANCES—

For Applicant: Joel D. Rickover.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (1333-22-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting partly in a business use district and partly in a residence use district, the erection and maintenance of a business building, affecting premises 662 East Fordham road, south side, 50.96 ft. west of Cambreling avenue (Block 3091, Lot 22), Borough of The Bronx, was granted by the Board on January 26, 1923, on certain conditions; and

WHEREAS, on November 23, 1943, the resolution was amended, to permit under section 7i, the change of occupancy of a business building, to a motor vehicle repair shop, for a term of two years; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 23, 1943, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

> "*Granted* for a term of two (2) years under section 7i, *on condition* . . . that other than as herein *amended,* the provisions of the resolution of January 26. 1923, as amended through November 23, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

Negative 0

THE RESOLUTION (449-44-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, the reconstruction of three (3) buildings, two of which are two stories in height, occupied as garages for more than five motor vehicles and one 1-story in height, occupied as a garage for five motor vehicles, into one (1) building, one story in height, to be occupied as a garage for more than five motor vehicles, affecting premises 238-242 Vanderbilt avenue, west side, 208 ft. 7 in. north of DeKalb avenue (Block 2092, Lots 53, 54 and 55), Borough of Brooklyn, was granted by the Board, on January 9, 1945 on certain conditions; and

WHEREAS, the applicant has requested under date of July 13, 1945, that one condition of the resolution adopted January 9, 1945, be amended in relation to the requirement that no windows shall be constructed in the side line or rear walls, inasmuch as the windows have been constructed in such walls without authorization; and

WHEREAS, the Board required that the applicant file consents from adjoining owners as to such windows and such consents have been filed.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted January 9, 1945, by adding thereto:

". . . that the above requirement as to the omission of windows in the side line or rear walls may be waived. *in view of* consents filed with the Board, of owners of property adjacent at the side and rear and that other than as above *amended*, the conditions of the resolution of January 9, 1945, shall be complied with (Alt. Applic. 1634-44)."

---

* Correction—The word "provided" deleted in line 26 of the resolution and the words "*in view of*" inserted therefor, and the alteration number inserted in the last line of the resolution.

RULES

RULES GOVERNING THE USE OF EQUIPMENT FOR SPRAYING AND DRYING OF PAINTS, VARNISHES, LACQUERS AND OTHER FLAMMABLE SURFACE COATINGS AND STORAGE OF SUCH MATERIALS.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JUNE 10, 1932 AND REVISED JULY 16, 1937, EFFECTIVE AUGUST 16, 1937 AND AMENDED JULY 25, 1944, EFFECTIVE AUGUST 21, 1944.

(353-30-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subdivisions 2 and 3 of the Charter of the City of New York, to effectuate the provisions of C19-84.0, C19-85.0 and C19-86.0 of the Administrative Code.

Rule 1. Application.

1.1 No person, firm or corporation shall spray, dip or immerse any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other inflammable or combustible substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes except in conformance with these rules, and under a permit issued by the Fire Commissioner. Where the quantity of spraying, dipping or immersing materials used in a day does not exceed two quarts, except for spraying as performed under Rule 5.13, and the total amount of material stored does not exceed twenty gallons, these rules shall not apply.

1.2 APPLICATIONS. Application for the required permit to store and use the above-mentioned materials shall be made to the Fire Commissioner on forms prescribed by him and shall contain such information as he may require. When a spray, dipping, immersing, storage or mixing room is to be installed, an application shall be filed with and approved by the Borough Superintendent before a permit is issued by the Fire Commissioner.

1.3 RESTRICTIONS. No spraying, dipping or immersing of any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes shall be permitted in any premises or portion thereof as follows:

1.3.1 Which is occupied as a class A or B multiple dwelling or a dwelling for one or two-families, except where a location is provided which is separated by fireproof construction from the residential occupancy and ventilated as provided in Rule 3.

1.3.2 Which is occupied as a place of public assembly except trade schools where the buildings are of Class I or Class II construction and spraying, dipping or immersing are demonstrated for instruction purposes only.

1.3.3 Which is artificially lighted by any means other than electricity.

1.3.4 Which is heated by other than the use of steam or hot water circulating systems and the boiler is located outside the space where spraying, dipping or immersing is carried on.

Rule 2. Definitions.

2.1 The term "SPRAY or SPRAYING SPACE" "DIPPING SPACE or IMMERSING SPACE" when used in these rules shall mean that portion of the premises used for the actual work of spraying, dipping or immersing any article or thing with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds, commonly used for painting, varnishing, staining or similar purposes in any booth or room.

2.2 The term "CABINET BOOTH" when used in these rules shall mean a compartment with a back, top and two sides of incombustible materials over a substantial metal frame and equipped with air exhaust facilities, located within a room or any portion of any premises where spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.3 The term "CANOPY BOOTH or HOOD" when used in these rules shall mean an installation consisting of a metal canopy or hood, without any side or end panels enclosing the object sprayed and an air exhaust system under which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.4 The term "TUNNEL BOOTH" when used in these rules shall mean a compartment consisting of two sides and top, equipped with an air exhaust system in which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.5 The term "SPRAY ROOM" when used in these rules shall mean a fully enclosed ventilated room approved for such use in which any article or thing is sprayed by any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.6 The term "DIPPING ROOM" when used in these rules shall mean a fully-enclosed ventilated room approved for such use in which any article or thing is dipped, or immersed in any flammable paints, varnishes, lacquers or any other flammable substances, mixtures, or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.7 The term "FIREPROOF or FIRE-RESISTING PARTITIONS" used in these rules shall mean the standards set in the Labor Law and the Rules of the Board of Standards and Appeals for factory buildings. All openings in this type of partition shall only be equipped with self-closing fireproof assemblies.

2.8 The term "STORAGE ROOM" when used in these rules shall mean a fully-enclosed ventilated room used for the storage and mixing of any inflammable paints, varnishes, lacquers or any flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes.

2.9 The term "CERTFICATE OF FITNESS" when used in these rules shall mean the written permission granted by the Fire Commissioner to an individual to supervise and to process spraying, dipping and immersing materials and equipment, in accordance with the provisions of Section C19-14.0 of the Administrative Code and these Rules.

2.10 The term "PERMIT" when used in these rules shall mean the written permission issued to a person, firm or corporation by the Fire Commissioner, to store and use materials covered by Sections C19-12.0 and C19-84.0 of the Administrative Code and these Rules.

Rule 3. Ventilation.

3.1 Spraying or dipping spaces shall be ventilated when in operation so that the movement of air shall be at least one hundred (100′) linear feet per minute in the breathing zone of the operator and be of sufficient capacity to prevent the accumulation of mist or vapors. For requirements of ventilation of storage rooms see Rule 4.4.1.

3.2 Air shall be admitted to the spraying, dipping or immersing spaces in an amount equal to the capacity of the fan or fans and in such a manner as to avoid short-circuiting the path of air in the working zone of such spaces. Exhaust fans shall be kept running constantly while spraying, mixing or dipping. Exhaust fan control shall be interconnected with spray gun so as to operate simultaneously. Exhaust fans shall, in addition, be arranged to operate independently of spray gun. Ventilation Equipment shall be kept in operation for a sufficient length of time thereafter to exhaust all vapors, fumes or residues of spraying materials from the spray booth, dip space or drying room. Air admitted to the spraying, dipping, immersing drying spaces or storage rooms shall be fresh air taken from the outside of the building.

3.3 EQUIPMENT. Motors shall be located outside of spraying, dipping or immersing spaces except as provided in Rule 4.

Rule 4. Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, Drying Equipment and Material Storage Rooms.

4.1 Spray booths shall be constructed of metal or incombustible materials satisfactory to the administrative official having jurisdiction. Ventilation and lighting for spray booths, spray rooms, dipping rooms, drying rooms and storage rooms shall comply with the requirements of these rules.

4.1. Spray, dip and immersing rooms shall be enclosed on all sides with partitions constructed of incombustible materials with floors in such rooms of concrete. Where such rooms are located over wooden floors, such wooden floors shall be surfaced with 1″ of grout adequately reinforced or a mixture of Portland cement, asphalt and sand similarly reinforced. Ceilings over such rooms shall be protected by 5/8″ unsanded gypsum plaster or 7/8″ of cement or sanded gypsum plaster on approved 3.0 lb. metal lath or other equivalent fire-resisting ceiling protection. Ventilation, lighting and heating for these rooms shall comply with the requirements of these rules. Where additional fire fighting equipment is necessary, such equipment shall be furnished in accordance with the direction of the Fire Commissioner. Floor drains leading to the house draining system or the public sewer, shall not be permitted. All dip tanks shall be provided with hinged metal covers held open by a fusible link, such covers to be equipped with an opening to permit automatic flooding of the tank with fire extinguishing media of a type and so located as the Fire Commissioner shall direct.

4.1.2 Panels of polished wired glass or plate-glass at least one-quarter (1/4) of an inch thick, not exceeding seven hundred and twenty (720) square inches in area and not more than forty-eight (48″) inches in any linear dimension may be used in the sides of a spray booth or room.

4.1.3 The inner sides of walls, ceilings and the floors of all spraying or dipping spaces shall have a smooth surface.

4.1.4 All openings in spray, dip or immersing rooms shall be protected by fireproof opening protective assemblies. Windows opening on a street may be used to provide ventilation but no window on a lot line or less than 20 ft. from any opening in a wall of an adjacent building shall be permitted except when the subject room is more than 20 ft., in the horizontal plane, above an adjoining building.

4.1.5 Ferrous metals used in the construction of spraying, dipping or immersing spaces shall be thoroughly painted on the inside or be galvanized.

4.1.6 All spraying, dipping or immersing spaces shall be so constructed that at least three (3) feet of clear working space shall always be maintained for each operator spraying, dipping or immersing the material being processed.

4.2 STORAGE ROOMS.

4.2.1 Storage rooms shall be constructed of fireproof or fire resisting material and shall have a window opening to the outer air but such window shall not be on a lot line, enclosed court, nor opposite within twenty feet of windows of adjacent buildings nor part of the same premises, such window openings to be fireproofed and lower half provided with open louvers or ventilated by metal duct or fan at least 8 inches in diameter. The floors of all storage rooms shall be of incombustible non-ferrous materials. The sill of the door shall be at least 6 inches above the finished floor. All doors to be tin-clad, approved, fireproof and self-opening.

The lighting equipment shall comply with rule 4.5.2.2 and shall have an electric switch located outside the room. Immediately adjacent to such room shall be provided such portable fire extinguishing equipment for use within the storage room as the fire commissioner shall direct.

4.3 DRYING EQUIPMENT.

4.3.1 Gas Fired Drying Ovens. Gas fired drying ovens shall be of a type as approved by the Board. Such ovens shall be constructed of metal and incombustible materials so designed as to preclude the direct application of flame to the material in process. The exhausts from both the heating compartment and the drying compartment shall be individually equipped with adequate fans and exhaust piping connected directly to the outer air. The controls for the fans shall be so interlocked with the

gas supply line that when the gas is flowing the fans are in operation. An extra switch shall be provided to permit the operation of the fans when the gas supply is off. Each oven shall be equipped with approved gas burning equipment with electrical controls so arranged as to shut off the gas valve when ignition fails or the gas supply pressure drops to 2 inches of water.

The use of a continuous gas pilot light is prohibited unless an automatic gas shut off valve is provided, which will shut the gas off at the pilot light when the flame is extinguished or the supply of gas cut off. Electrical pilot ignition shall be of the continuous type, or equal in performance, designed for use in high temperatures, with controls so interlocked as to shut off the gas supply when current is interrupted. An auxiliary manually operated gas shut off valve shall be located not nearer than 25 feet from the oven so as to control the gas supply in the event of an emergency. Such ovens shall be adequately insulated on all sides, including the base, which shall have the equivalent of a double thickness of such insulation, unless the floor is protected by a 3 in. mat of reinforced concrete placed over and bonded into the existing concrete floor and projecting not less than 6 inches outside the projected area of the equipment, or unless an unenclosed clear air space not less than 4 inches above the floor is maintained between the floor and the underside of the oven.

4.3.1.1 Gas fired drying ovens shall not be located nearer than 25 feet from spraying or dipping spaces unless such oven is approved for use in explosive atmospheres.

4.3.2 Electric Infra Red Ray Drying Ovens.

4.3.2.1 Electric Infra Red Ray Drying Ovens shall be of a type as approved by the Board. Such ovens shall be constructed of electric equipment installed in accordance with the National Electric Code and the requirements of the Department of Water Supply, Gas and Electricity. Ovens when erected shall be placed on concrete floors without any additional protection, provided that at least 12 inches of clear space above the floor is provided to permit adequate ventilation.

4.3.2.1.1 In drying processed material, involving the evaporation of considerable amounts of flammable solvents by infra-red lamps, such installations shall not be confined in small rooms unless such rooms are thoroughly ventilated by a power driven ventilation system of sufficient capacity to provide 100 linear feet of air per minute; the controls of the ventilation system to be so interlocked with the Infra-Red Ray System that the latter cannot function unless the ventilating system is in operation. When equipped with duct ventilating system, the Infra-Red Ray Oven shall be adequately secured so as to prevent moving.

4.3.2.1.2 Where the evaporation of a considerable amount of flammable vapors are involved, ventilated hoods located as near to the floor as practicable or enclosures shall be provided at the initial stage of the process with adequate exhaust system to discharge the primary evaporation from the solvents to the outer air, so that when the processed material progresses through the lamp drying tunnels only a comparatively small amount of solvent is left for evaporation. A space between such ventilating section and the drying section shall be maintained.

4.3.2.1.3 Lamps and other electrical equipment shall be kept free from flammable deposits and adequate cleaning shall be maintained.

4.3.2.1.4 Lamp drying units shall be separated from spraying and dipping processes complying with these rules, by a distance of at least 15 feet or shall be installed in a separate fireproof room.

4.3.2.1.5 Controls shall be arranged so that the lamps in the tunnels will be shut off automatically if and when the conveyor stops.

4.3.2.1.6 Where there are no conveyors and the material being processed is left stationary in the dryer, there shall be an excessive temperature switch to shut off the lamps to avoid overheating the material being processed if it is not removed from the dryer in time.

4.3.2.1.7 Material to be processed on the conveyors shall be rigidly supported so as not to be liable to displacement and cause lamp breakage and short circuits. Where there are no conveyors, materials should be fixed on dollies running on tracks or other equivalent method to accomplish the same result.

4.3.3 The use of these processes shall be limited to metal or other incombustible material requiring paint processing.

4.3.4 Such fire fighting equipment suitable for electrical and solvent vapor fires shall be provided as the fire commissioner may direct.

4.4. SPECIFICATIONS FOR DUCTS, PIPES AND FANS

4.4.1 All ducts used for ventilating spray, dip or immersing spaces shall be constructed of approved incombustible materials or metal of not less than the following gauges of metal.

Ducts twenty-four (24″) inches or less in diameter No. 22 gauge.
Ducts over twenty-four (24″) inches and not over thirty-six (36″) inches in diameter No. 20 gauge.
Ducts exceeding thirty-six (36″) inches in diamteer No. 18 gauge.

4.4.2 Ducts shall be strongly constructed and be installed in a workmanlike manner. They shall be rigidly supported.

4.4.3 Ventilating ducts shall run as directly as practicable to the outer air and be protected with a hood against the weather. The exhaust terminal or hood shall also be protected with a screen of copper or bronze with a mesh not larger than one-quarter (¼″) inch.

4.4.4 Where a duct passes through a non-fireproof floor or roof, the duct shall be protected at such point by an outer pipe or sleeve with an air space of at least one (1″) inch between the sleeve and pipe protected from the woodwork by at least a 1″ blanket of asbestos, compressed rockwool or glasswool, or equivalent fire-resistive material extending through the entire depth of the ceiling construction and adequately secured to the outer pipe. The outer pipe shall be not less than two (2″) inches from any woodwork and such woodwork shall be covered with at least 26 gauge metal or other incombustible material.

4.4.5 Ventilating ducts shall not terminate within ten (10) feet measured horizontally of any chimney outlet, unprotected air intakes or within twenty (20) feet of any exit or any opening in an adjoining building.

4.4.6 If induced draft is used to create an air movement, the air shall be supplied from a point outside the spray or dip or immersing space. Fans and motor must be located outside the spray, or dip space, except approved explosion-proof motor and non-ferrous blade fans which, however, are not to be located where residues of spraying material may collect on such equipment.

4.4.7 The exhaust system from any spray, dip or immersing space shall not be connected to any other ventilating system or be discharged into a chimney or flue used for the purpose of conveying gases of combustion.

4.4.8 Exhaust fan blades shall be constructed of non-ferrous metal. All exhaust and ventilating fans to be permanently connected to their source of power, using metallic conduit. Rheostats in fan bases not permitted. Fan blades not coming in direct contact, with spraying fumes, need not comply with this requirement.

4.4.9 Adequate access doors or panels made tight fitting by means of screw bolts, clamps or springs shall be provided, to permit inspection and cleaning.

4.5 ELECTRICAL EQUIPMENT AND LIGHTING FIXTURES.

4.5.1 No motors, switches, rheostats, lamps, fluorescent light or other electrical equipment shall be located in spray, dipping or immersing rooms or within ten (10′) feet of the open end of any spray compartment, spray booth, immersing or dipping space unless such electrical equipment be of a type approved for use in explosive atmosphere and where a conduit leads from a hazardous location to a non-hazardous location, the conduit shall be sealed off by an approved sealing compound. Except that alternating current induction motors of the totally enclosed type, having no brushes, make and break contacts, collectors or other arcing or sparking parts may be located within ten (10′) feet of a spray booth, spray compartment or dipping space when approved by the administrative official having jurisdiction. No open flame shall be used within 25 ft. of spray, dip or coating space or paint storage room or cabinet except when separated by fireproof construction, except as provided in Rule 4.3.1. Gas Fired Drying Ovens and 4.3.2.1.4 Electric Infra Red Dry Ovens.

4.5.2. Lighting Fixtures.

4.5.2.1 Artificial lighting shall be only by means of electricity.

4.5.2.2 When lighting fixtures are located within 10 feet of a spray booth, spraying space, dipping space or within a storage room they shall be of the rigid stem type, enclosing all wiring and be equipped with keyless sockets having vapor proof globes. Where exposed to breakage, globes shall be adequately protected by substantial metal guards or equivalent means. Fluorescent tube type lighting fixtures when used in spray booths or in spray and dip spaces or in storage rooms or rooms containing inflammable vapors, shall be of a type approved for use in explosive atmospheres. The auxiliaries of mercury vapor lamps shall be offset at least ten (10) feet from spray booth, spray or dip spaces unless enclosed in explosion-proof protection.

4.5.2.3 All electrical equipment shall be installed and grounded as provided by the Administrative Code covering electrical equipment and permanently connected to their source of current supply, using metallic conduit.

4.5.2.4 No pin plug receptacles shall be used except when the use of receptacles and attachment plugs become necessary they shall be so connected to form a part of a unit device with explosion-proof interlocking switch precluding the removal of the plug when the switch is in the "on" position or by an approved explosion-proof enclosure which can seal the arc when the current is interrupted. Such receptacles and plugs shall be of the polarized type providing a connection for the grounding wire of the portable cords.

4.5.2.5 All electric wiring shall be enclosed in rigid standard weight metallic conduits with explosion proof joints and fittings. Joints in metallic conduit having threaded couplings shall not have less than five (5) fully en-

gaged threads. Where flexible connections are required a flexible fitting approved for explosive atmospheres shall be used.

4.5.2.6 The use of portable cords or trailer lights are prohibited, except when flexible cord approved for hard usage containing one (1) extra insulated conductor properly connected to form a grounding connection for metal lamp guards, motor frames and all other exposed metal portions of such portable lamps and devices may be used. When portable lamps are used they shall be enclosed in a manner approved for explosive atmospheres and with substantial guards of metal to prevent breakage. Sockets shall be of the keyless moulded composition type with no exposed metal parts.

Rule 5. Maintenance and Operation.

5.1 Every premises wherein a spraying, dipping, or immersing space is maintained and operated shall be continuously under the charge and supervision of one or more persons holding a certificate of fitness, whose duty shall be to see that the spray, dipping and immersing space comply with the rules and the terms of the permit are not violated. No other duties shall interfere with the enforcement of these rules while the work is in process. A copy of these rules shall be available near the space where these rules apply.

5.2 Smoking or the carrying of lighted cigars, cigarettes, matches or pipes in spray, dipping or immersing space is prohibited.

5.3 No person shall be permitted within a spray space between the spray gun and the exhaust outlet while the spray gun is in use.

5.4 Spraying, dip or immersing spaces and its surroundings shall be kept clean at all times and shall be kept clear of all materials, equipment and utensils not required in the operation of the spray. Side walls, ceilings, baffle plates, etc., shall be sprayed with soap and water solution, before cleaning, or cardboard or masking paper may be fastened before any operation and after said operation all waste material shall immediately be removed from the premises.

5.5 Floors within and surrounding spray, dip or immersing spaces shall be kept clean and free from waste material at all times.

5.6 Spray rooms, booths, fans, ducts, and other equipment shall be cleaned frequently and maintained in clean and efficient working condition; lacquer spraying booths shall be wet down before cleaning.

5.7 Implements used for cleaning shall be made of non-ferrous material to avoid sparks.

5.8 Metal waste cans with self-closing covers shall be provided for all spraying, dipping or immersing spaces and storage rooms. The number to be installed shall be determined by the administrative official having jurisdiction.

5.9 Approved fire appliances shall be installed in all spraying, dipping or immersing spaces and in storage rooms as may be determined by the administrative official having jurisdiction.

5.10 Accumulation of flammable waste, sweepings or deposits from spray, dip or immersing space is prohibited. All such waste shall be placed in approved waste cans and be removed from the premises at the close of work each day.

5.11 All sand papering of lead painted surfaces shall be done with wet sand paper.

5.12 When a motor vehicle is taken into a spray space, the batteries shall be disconnected before the process of spraying is begun.

5.13 Before spraying is performed on elevator cars all electric power operating all elevators enclosed in a common shaft, shall be turned off. While such work is in progress portable fire extinguishers shall be provided and maintained adjacent to the work as the fire commissioner shall direct. Such shafts shall be well ventilated of fumes before starting elevators.

5.14 Inflammable solvents used for cleaning equipment or for any other purpose shall not be discharged into the house drain.

Rule 6. Material Storage and Mixing.

6.1 Main supplies of spray coating and dipping materials and thinners shall be kept in an outside storage building, storage rooms or in vented metal cabinets in accordance with the following amounts:

6.1.1 Spraying materials not in excess of 100 gallons may be stored in single walled metal cabinets ventilated to the outer air. Such cabinet to be metal covered on all sides, including the doors and arranged for ventilation at top and bottom.

6.1.2 Spraying materials not in excess of 200 gallons may be stored in double-walled metal cabinets ventilated to the outer air or wood cabinets metal covered on all sides, including the door, and arranged for ventilation at top and bottom, to the outer air.

6.1.3 Spraying materials in excess of 200 gallons shall be stored in a separate exterior storage building of fireproof or fire-resisting material with ventilated plain glass skylight or in a storage room constructed fireproof in a fireproof building or fire-resisting in a non-fireproof building. The maximum amount of spraying materials to be stored in a storage room of a non-fireproof building shall be determined by the administrative official having jurisdiction.

6.1.4 Mixing or thinning of coating materials shall be conducted in a storage building or storage room, except that containers of total capacity not exceeding ten gallons may be opened and their contents mixed in the spray room or room in which booths are located while the air exhaust system is operating.

6.1.5 Working supplies sufficient for not more than one day's use but not exceeding twenty gallons to each booth, nor a total of one hundred gallons, may be kept in the spray room or room in which spray booths are located; covers of containers must be kept thereon when such containers are not actually in use. This amount is in addition to the amount allowed in Rule 6.1.7.

6.1.6 Gravity feed material containers for supplying spray guns shall not exceed ten gallons in capacity and shall be supported by wire cables or metal brackets having a factor of safety of four when filled with the heaviest spraying materials used.

6.1.7 Pressure feed tanks and other equipment for use in connection with direct spraying under air pressure shall be restricted to tanks of not more than sixty gallons, individual capacity, designed, constructed and approved for this specific purpose by the Board of Stand-

ards and Appeals. Each tank shall be provided with a safety valve set at a pressure not exceeding eighty pounds. All gravity feed containers and other spraying equipment shall be approved as above.

6.1.8 The installation of all electrical wiring, switches, lighting and all other electrical equipment, and the provisions of these rules against carrying matches or smoking and prohibiting flame or spark-producing devices, shall also apply to storage or mixing rooms.

6.2 Storage of Materials where nitro cellulose products are manufactured.

6.2.1 Storage of spraying, dipping and immersing materials shall be as provided in Rule 6.1.1 through Rule 6.1.3, but in a building in which nitro cellulose products are manufactured, stored or kept the amount shall be not over twenty-five (25) gallons as per Section C19-113.0, subdivision h of the Administrative Code.

6.3 Sprinklers.

6.3.1 Sprinkler heads shall be provided in all spray, dip or immersing spaces and storage rooms and shall be installed in accordance with the Sprinkler Rules of the Board of Standards and Appeals, except in non-sprinklered buildings where sprinkler connection may be made to the house water supply, provided the size of the house water supply line is adequate for the number of sprinkler heads.

6.4 Maintenance of Sprinkler Heads.

6.4.1 Sprinkler heads in spraying, dipping and immersing spaces shall be cleaned at least once a week under the supervision of the person holding the certificate of fitness and a coating of light grease or vaseline shall be applied after each cleaning to prevent the formation of a hard deposit and render the sprinkler useless in case of fire. The use of paper bags or other materials about sprinkler heads is prohibited.

Rule 7. General Requirements.

Notice—Attention is called to the provisions of the Administrative Code as to violations reading as follows:

Section C19-152.0 of the Administrative Code, "Any person who shall willfully violate or neglect or refuse to comply with any of the provisions of this chapter in addition to any other penalties prescribed by law or ordinance shall, upon conviction, be punished by a fine of not more than $500 *or by imprisonment not exceeding* 6 *months, or by both such fine and imprisonment."*

NOTE:—The principal cause of fires in spray-booth installations are: broken electric lamps and other electrical defects; cleaning the interior of booths, fans and motors with highly flammable solvents; accummulation of deposits in the tubes and vent pipes from neglect in cleaning them frequently; unnecessary accumulation of waste and refuse, smoking and a general lack of cleanliness.

(a) "No Smoking" signs, with letters at least 2 inches in height, shall be posted at entrances to and in all spray rooms and paint storage rooms or building.

(b) No combustible materials shall be stored or maintained within 15 feet of any spray booth.

(c) All stocks shall be arranged so as not to interfere with the operation of automatic sprinkler heads.

(d) Adequate mechanical or natural ventilation shall be provided.

(e) No open flames or devices creating open flames or arcs shall be maintained within 25 feet of the spray or dipping process.

(f) The premises where painting, dipping or immersing is performed shall be kept clear of empty paint cans, rubbish, paint accumulations and other combustible material.

Rule 8. Existing Spray Booths and Installations.

8.1 These rules shall be retroactive in the following respects:

Rule 1.3.4 Heating of Rooms.

Rule 3.1 Air Exhaust System.
3.2 Air Supply and Mixing.

Rule 4.0 Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, New Drying Equipment, and Material Storage Rooms.
4.1.3 Surfacing of Booths.
4.1.5 Surfacing of metal in Booths.
4.3.2 Maintenance of Ducts.
4.4.6 Method of Induced Draft.
4.5.1 Electrical Equipment.
4.5.2 Electrical Lighting.

Rule 5.1 Certificate of Fitness.
5.2 Smoking, Matches, etc.
5.6 Maintenance of Equipment.
5.7 Cleaning Implements.
5.9 Fire Appliances.
5.10 Accumulation and disposal of waste materials.
5.12 Motor Vehicles in booths or rooms.
5.13 Spraying Elevator Cabs.

Rule 6. **Material**, Storage and Mixing.

Rule 7. General Requirements.

Rule 8.1 Rules 6.1, 6.2, 6.3 and 6.4 may not be applied in fireproof buildings equipped with an approved existing automatic sprinkler system where the general conditions of cleanliness are properly maintained at all times.

Rule 9. Permits and Plans.

Before a permit is issued by the fire commissioner, plans shall be filed with the borough superintendent, stating name, address, floor and space where the painting, dipping or spraying processes or storage room are to be installed. Such plan shall include a complete layout of the proposed installation and shall clearly indicate the location of all exterior wall openings, in premises and adjacent buildings, exits, chimneys, vent openings and proposed processes.

Plans shall be filed with the borough superintendent for storage and mixing rooms. Such plans shall show the complete floor plan of the proposed equipment and the location of the proposed equipment with respect to the storage and mixing rooms, exterior wall openings, in premises and adjacent buildings, exits and all chimneys within 20 feet of storage rooms and vent openings.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1015, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

For Administration: Fred. Dahlem, Dept. of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (344-45-BZ)

WHEREAS, Lama and Proskauer, for Antonio Sicuro, owner, filed June 5, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a residence and business use district, the extension of use and area of an existing building affecting premises: 167 Grove street, north side, 80 ft. east of Central avenue (Block 3315, Lot 59), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 27, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Grove street is in a residence and business use, C area and Class 1 height district and Central avenue is in a business use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 15, 1945, re Alt. App. 940-45, reads:

"M.D.L.2. Premises are in a business and residential use district. Proposed business use of the easterly 20 ft. portion of the lot, is contrary to Art. 2, Section 3, of the Zoning Resolution.

5. Extension at the rear is contrary to Art. 4, Section 13 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 40 ft., 10 in. frontage by 100 ft. in depth, on which is to be located an extension to the present building 25 ft. by 12 ft. 3 in.; that it is proposed to use unbuilt upon balance of the yard and erect an extension 25 ft. wide by 12 ft. 3 inches deep to be used for the manufacture of whipped butter; and

WHEREAS, the applicant contends that the plot is presently improved with a 3-story frame building and one-story brick garage for the owner's use; that the first floor is occupied as storage space for eggs, cheese and butter; that at the

rear of the first floor is a large refrigerator and a room is used for manufacturing whipped butter; that the 2nd floor is occupied by two families and the 3rd floor by two families; that it is the owner's intention to use the balance of unbuilt upon space on 1st floor which is approximately 12 ft. 3 in. by 25 ft., for the manufacture of whipped butter; that inasmuch as the 1st floor practically occupies 93% of the area, this additional space would in no way affect the adjoining properties; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion under section 7, subdivision c of the zoning resolution as to extension of use and that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution as to extension of area and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution and that the application be and it hereby is *granted* under sections 7c and 21 thereof, to permit extension of use and extension of area, consisting of constructing an intervening unit 12 ft. by 25 ft. in area, between the existing front and rear buildings, as indicated on plans filed with this application marked "Received June 5, 1945," *on condition* that such new unit shall not exceed one story in height as proposed and that the entire rear building shall be altered as proposed, including the reconstruction of the existing walls on the lot line to make same of masonry in place of frame; that the existing fire escape on the rear of the 3-story portion of the building shall have an extension ladder as proposed, reaching to the rear yard of the adjoining lot 4, No. 329 Central avenue, represented as being in the same ownership; that the ceiling of the rear extension shall be fire-retarded throughout; that such portable fire-fighting appliances shall be maintained throughout the premises as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

423-45-BZ

APPLICANT—Henry Nordheim, for Mt. Eden Construction Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7(b), 7(c) and 21 of the zoning resolution, to permit in a residence and business use district, the extension of present building and to occupy more than 65% of the area of the lot in a B area district.

PREMISES AFFECTED—101-115 East Mt. Eden avenue and 1600-1606 Walton avenue, northeast corner (Block 2838, Lot 1), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim and Israel Schulman.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3

Absent: Commissioner Savage..... 1

THE RESOLUTION (423-45-BZ)

WHEREAS, Henry Nordheim, for Mt. Eden Construction Corporation, owner, filed July 2, 1945 an application under sections 7b, 7c and 21 of the zoning resolution, to permit in a residence and business use district, the extension of present building and to occupy more than 65% of the area of the lot in a B area district, affecting premises 101-115 East Mt. Eden avenue and 1600-1606 Walton avenue, northeast corner (Block 2838, Lot 1), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting November 27, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Mt. Eden avenue is in a business and residence use, B area and Class 1¼ height district and Walton avenue is in a business and residence use, B area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated June 6, 1945, on Alt. Applic. 572-40, reads:

> "10. Delineate business and residence districts on plot plan; rear of plot appears to be in a residence zone, under Building Zone Resolution. Business use in a partly residence and partly business zone is prohibited. Article 2, Section 3.
>
> 15. In a "B" area district, not more than 65% of the area of the lot may be occupied."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 100 ft. in depth, on which is located a building 100 ft. frontage by 75 ft. in depth, 1 story (14 ft.) in height, of class 3 construction and that it is proposed to alter the building, by adding an extension at the easterly rear part of the building; and

WHEREAS, the applicant contends that plans were filed for the alteration in 1940, but due to restriction on materials, the work could not be done and now the owner wishes to proceed with the alteration; that the use district boundary line cuts across the property in a diagonal line, starting at the easterly front corner of the lot and at the north line, it is exactly 25 ft. in on the property; that the request does not violate the restriction of extending the use not more than 25 ft. beyond the more restricted area; as to section 7c, the owner will conform the operation to whatever conditions the Board deems best; that the owner could build an extension at the rear within the triangle located in the business area, but it would be so small as to be useless and he is at present deprived of the proper use of land for which the Tax Office collects revenue; that the owner has a prospective tenant to occupy the front store if the proposed rear section is provided; that he cannot use the residential area of the land for residence purposes; that the Tax Department places an assessment of $60,000 on the property and $50,000 of this amount is for the land; that the zoning resolution was amended March 1, 1945, prohibiting greater than 65% occupancy; that this affects his proposition also, since the property is greater than 5000 sq. ft.; that had he been able to proceed with the matter in 1940, this additional hardship would not confront the owner; that this extension will not alter the character of the neighborhood, since it is on the rear of the building having a 100 ft. frontage on Mt. Eden avenue and is directly back of an apartment house located on the corner of the Grand Concourse and Mt. Eden avenue, which building has stores; that all of Mt. Eden avenue from the west side of the Grand Concourse is a lane of stores and the two corner apartment houses also have stores; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivisions b and c as to extension of use and that the applicant failed to substantiate a basis to warrant the exercise of discretion to grant under section 21 as to extension of area of the zoning resolution and is therefore not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent, on Alt. Applic. 572-40, objections 10 and 15, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

480-45-BZ

APPLICANT—Lama & Proskauer, for Frank J. Quigan, Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an unrestricted use and C area district, the construction of a one-story brick boiler room extension, increasing the area of the lot covered beyond that permitted by the zoning resolution.

PREMISES AFFECTED—58-01 to 58-33 Grand avenue, 58-28 58th place, northwest corner and 58-02 to 58-32 58th avenue (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Apposition: Walter Szachez, Charlotte Kolinsky, Rose Caponigro, Catherine Buckheit, Marie Kossman, Emma Matheis, Anna Johnston, Mary Degen, Paul Romano, Rose Grossitio and others.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3
Negative 0
Absent: Commissioner Savage..... 1

THE RESOLUTION (480-45-BZ)

WHEREAS, Lama and Proskauer, for Frank J. Quigan, Incorporated, owner, filed July 27, 1945, an application under section 21 of the zoning resolution, to permit in an unrestricted use and C area district, the construction of a one-story brick boiler room extension, increasing the area of the lot covered beyond that permitted by the zoning resolution; affecting premises 58-01 to 58-33 Grand avenue, 58-28 58th place and 58-02 to 58-32 58th avenue (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 27, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Grand avenue, 58th place, 58th avenue and Rust street are in an unrestricted use, C area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated July 18, 1945, re Alt. Applic. 1003-45, reads:

> "1. Proposed boiler room extension increases the area of the lot occupied at the curb level, beyond that permitted by Section 13(b) of the Building Zone Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 220.82 ft. frontage by 204.28 ft. in depth, irregular in area, on which is a building 220 ft. 9⅞ in. front by 108 ft. 7 in. deep, one story, 13 ft. high of Class 3 construction and that it is proposed to construct a one-story brick boiler room extension, approximately 16 ft. by 25 ft. irregular in area; and

WHEREAS, the applicant states that the premises in question is improved with a one and two story structure housing a factory, engaged in the manufacture of gun clips; that it is proposed to construct a one story brick boiler room extension approximately 16 ft. by 25 ft., irregular in shape; that due to the various additions added to the factory, it is evident that the boiler room must be enlarged to take care of the additional load required; that inasmuch as the factory covers almost 100% of the area of the plot and as it faces four streets, no one can possibly be affected by its construction, and as the building now exceeds the area as permitted by Sect. 13(b) of the zoning resolution, no possible harm can come by granting this application; and

WHEREAS, it appears that the proposed extension was erected several years ago without an approval of plans or a permit having been obtained; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 thereof, to permit the extension of the boilerroom already constructed as indicated on plans filed with this application, marked "Received September 7, 1945," *on condition* that in all other respects, the requirements of the zoning resolution and all other laws, rules and regulations applicable to the building and occupancy shall be complied with and that the existing chimney shall be extended either in masonry or steel for an additional height of approximately fifteen (15) feet; that all permits required shall be obtained and all work completed within six months from the date of this resolution.

616-45-BZ

APPLICANT—Boris W. Dorfman, for Vode Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use district, the alteration, extension in rear of plot and conversion of occupancy from Class "B" multiple dwelling, to showrooms, which does not comply with B area requirements of zoning resolution.

PREMISES AFFECTED—28 West 37th street, south side, 396 ft. 1 in. west of 5th avenue (Block 838, Lot 66), Borough of Manhattan.

APPEARANCES—

For Applicant: Boris W. Dorfman.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (616-45-BZ)

WHEREAS, Boris W. Dorfman, for Vode Realty Corporation, owner, filed October 15, 1945, an application under section 21 of the zoning resolution, to permit in retail use district, the alteration, extension in rear of plot and conversion of occupancy from Class "B" multiple dwelling, to showrooms, which does not comply with B area requirements of the zoning resolution; affecting premises: 28 West 37th street, south side, 396 ft. 1 in. west of 5th avenue (Block 838, Lot 66), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, November 27, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that West 37th street is in a retail use, B area and Class 2 height district and Fifth avenue is in a restricted retail use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated September 13, 1945, on Alt. App. 1529-45, reads:

> "3. Extension of structure front and rear in a retail use and B area district, is contrary to Section 12b Zoning Resolution as structure exceeds 65% of area of lot.
>
> 4. Provide a rear yard to comply with sections 12a and 17a Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 23 ft., 11 in. frontage by 98 ft., 9 in. in depth, on which is located a building 23 ft., 11 in. by 83 ft. 6½ in., 5 stories (60 ft.) in height, of Class 3 construction; and

MINUTES

WHEREAS, the applicant contends as to objection 3 of the borough superintendent's decision, that the excess of 65% of occupied area, caused by the front extension, is dictated by considerations of esthetic character, in that it will eliminate the unsightly rubbish, snow and filth trap and improve the appearance of the building and the street; that the rear extension is necessary, because of conditions created by the special kind of merchandise distributed in this district; that the entire neighborhood is given to the importation and wholesale distribution of ornaments for ladies hats and are made of tulle, feathers, lace and ribbons; that they are packed in large cartons, weigh very little, but are very bulky and require large areas for their display; that without considerable area for such display, the first and second stories are practically unrentable for this purpose and may force the owner to rent the space to other business at a much lower rent; that this will prove a considerable hardship, in that it will not provide a reasonable return on the investment, as the bulk of the income is derived from the lowest two stories; that the majority of buildings in this area cover the entire lot and the building in the rear has no yard at grade; that the building on the east side is erected without a yard at grade and the present wing of this building is within 8 feet of the rear lot line; that the proposed extension of the two lowest stories will, perhaps, improve conditions, as it will reduce the depth of the dark recess; that in view of the aforementioned facts, strict adherence to Section 12.b. will not serve the purpose and intent of the Zoning Law; that the applicant requests the Board to grant this application under Section 21 and permit the front extension to the lot line and the rear extension on 1st and 2nd stories, to within 8 feet from the rear lot line; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 thereof, to permit the extension in area of the building to the street line and the construction of the addition, two stories high in the rear, substantially as indicated on plans filed with this application marked "Received October 15, 1945," *on condition* that the extension in the rear shall not be beyond the depth of the building on the adjoining lot to the east, #65, as to the second story; that the first story shall not be nearer to the rear line than 8 feet; that the rear yard shall be paved; that the building shall not be further increased in height and area and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 617-45-A; that all permits required shall be obtained and all work completed within one year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (617-45-A)

WHEREAS, Boris W. Dorfman, for Vode Realty Corporation, owner, filed October 15, 1945 an appeal from a decision of the borough superintendent, affecting premises 28 West 37th street, south side, 396 ft. 1 in. west of 5th avenue (Block 838, Lot 66), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated September 20, 1945, on Alt. Applic. 1529-45, reads:

"2. Conversion of a non-fireproof residence structure, to a commercial building over 4 stories and 50 ft. in height, is contrary to section 4.2.1 code and requires structure to be fireproof throughout."

and

WHEREAS, the applicant states that the building is 5 stories (60 ft.) in height, 23 ft. 11 in. by 98 ft. 9 in. in area at 1st floor, 23 ft. 11 in. by 83 ft. 6½ in. in area at typical floor, of Class 3 construction, erected in 1892, located in a retail use, B area and Class 1½ height district and used and occupied: cellar—boiler room and storage; basement—dwelling—1 family; 1st floor—doctor's office and furnished room; 2nd floor—reception and club room; 3rd floor—four furnished rooms; 4th floor—five furnished rooms; 5th floor—five furnished rooms; proposed to be used and occupied throughout for showrooms and sales with ten persons on the 1st and 2nd floors combined; 10 persons on each of the 3rd, 4th and 5th stories; that the building is to be equipped with a one source sprinkler system, one 4 ft. wide wood stairs, enclosed in wood and plaster partitions, equipped with wood doors which will be made self-closing and leading to the roof bulkhead and one fire escape to be erected at the rear, leading to the roof by a ladder and to the yard by a drop ladder with egress to the street through the basement; and

WHEREAS, Certificate of Occupancy 24426 issued February 9, 1939, permits the use of the building as a heretofore converted class "B" multiple dwelling; and

WHEREAS, the applicant further states that it is proposed to eliminate every bedroom on the 3rd, 4th and 5th floors, to clear all floors from existing shafts, partitions, store rooms and closets, to provide centrally located iron stairs, enclosed in brick walls and fireproof, self-closing doors and to entirely eliminate the basement story; and

WHEREAS, the applicant contends that even though the building exceeds the height limit permitted, the Code would permit an area of 7500 sq. ft. on each floor or a total of 30,000 sq. ft., whereas the floor area of this entire building is only 9,700 sq. ft. or less than one third of the permissible floor area and it is therefore requested that the Board grant this appeal.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1529-45, objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be further extended in height or area and that it shall be occupied only for offices and showrooms, as proposed and for no manufacturing at any time; that the new stairway shall be constructed as indicated on plans filed with this appeal, marked "Received

October 15, 1945"; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 616-45-BZ and that the requirements of the resolution adopted thereunder, shall be complied with in all respects.

710-45-A

APPLICANT—Carl Weitz Optical Company, lessee, for A. E. Staley Manufacturing Co., owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—84-86 North 6th street and 163-169 Wythe avenue, southeast corner (3rd floor); (Block 2334, Lot 5), Borough of Brooklyn.

APPEARANCES—

For Applicant: Ralph Gurfield and Louis Jacobson.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (710-45-A)

WHEREAS, Carl Weitz Optical Company, lessee, for A. E. Staley Manufacturing Co., owner, filed November 16, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 84-86 North 6th street and 163-169 Wythe avenue, southeast corner (3rd floor); (Block 2334, Lot 5), Borough of Brooklyn; and

WHEREAS, Order 601-LC, issued by the fire commissioner, October 2, 1945 and repeated in a decision of the fire commissioner, dated November 9, 1945, reads:

"Your application for a permit for the storage of 200 lbs. of nitro-cellulose, is hereby disapproved until the following is done:

1. Install an approved sprinkler system with two approved sources of supply, consisting of an approved pressure tank and an approved gravity tank, or of two approved gravity tanks; provide a minimum working pressure of at least 25 pounds per square inch at the highest line of sprinklers, in accordance with C19-26-1375 of the Administrative Code."

and

WHEREAS, the applicant states that the building is 3 stories (40 ft.) in height, 41 ft. 8 in. and 100 ft. front by 100 ft. in depth, of Class 3 construction, erected in 1925, located in an unrestricted use, B area and Class 2 height district and used and occupied since 1925: cellar, storage and boiler room; 1st floor, storage of food products, 3 persons; 2nd floor, manufacturing table pads, 10 persons; 3rd floor, manufacturing optical frames, 50 persons, for which Certificate of Occupancy 32317 was issued March 25, 1925, permitting the use of the building as follows: cellar and 1st floor, freight storage; 2nd and 3rd floors, light manufacturing, 12 persons; and

WHEREAS, the applicant contends that in 1944, Fire Department permit B235292 was issued, to expire October 9, 1945, for 200 lbs. of material; that having received the permit from the Fire Department, the lessee negotiated a lease for five years and spent 40 thousand dollars to install machinery in the plant, including the necessary installations to meet the requirements of the Fire Department; that the building is equipped with a two source sprinkler system, supplied by a 6 in. direct connection to a 12 in. city main on Wythe avenue and an 8 in. main on North 6th street; that these mains are on 45 lb. pressure; that since the building is 3 stories (40 ft.) in height, there is more than the 25 lb. minimum pressure supplied on the highest line; that the alarm valve and signal system are connected to the central stations through an ADT system thereby affording constant supervision; that there have been no structural changes in the building in question; that to deny this appeal, would compel the applicant to discontinue the business, to lose a considerable part of the original investment, as all the equipment, cabinets, lighting fixtures, etc., would have to be removed and it is therefore requested that the Board grant favorable consideration of this appeal.

Resolved, that Order 601-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted*, as to item 1, *on condition* that the building shall not be increased in height or area; that the occupancy, which is the subject of this order, may be continued on the top or third floor; that the amount of nitro-cellulose material stored shall not exceed 200 pounds and that such material, except for small quantities in the process of production, shall be stored within an approved steel cabinet, protected with a sprinkler head, vented to the outside air, as indicated on plans filed with this appeal, marked "Received November 16, 1945"; that the sprinkler system, including the connection to the fire department through the central station, shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that this modification shall continue only so long as the premises are occupied substantially as proposed and in accordance with the requirements of this resolution.

GENERAL RESOLUTION

1464-39-GR

APPLICANT—Alfred T. Holl.

SUBJECT—Reopening and amendment of General Resolution—re Approval of Inspection Agencies under rules adopted by the Board under Calendar 1139-39-GR—addition of the inspection agency, Alfred T. Holl of Canton, Ohio.

APPEARANCES—

For Applicant: Alfred T. Holl.

ACTION OF BOARD—Application reopened and general resolution amended.

THE VOTE TO REOPEN AND AMEND GENERAL RESOLUTION—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (1464-39-GR)

WHEREAS, this general resolution, approving certain applicants as approved inspection agencies, was adopted by the Board December 18, 1939, amended April 16, 1940, July 2, 1940, November 6, 1940, December 17, 1940, February 4, 1941, April 1, 1941 and November 20, 1945; and

WHEREAS, Alfred T. Holl, of Canton, Ohio, requested a reopening and amendment of the general resolution, for consideration by the Board, for the inclusion of his name as an approved inspection agency; and

WHEREAS, the report of the Committee on Tests, reads:

REPORT OF COMMITTEE ON TESTS

November 8, 1945.

Re: Cal. 1464-39-GR.

Subject: Opening Protective Assembly Inspection Agencies—an addition to the list of the name of Alfred T. Holl, Registered Professional Engineer.

An application has been filed with the Board by Mr. Alfred T. Holl of Courthouse, Canton, Ohio, for consideration as an approved inspector for the purpose of performing the inspections required under the Board's Rules for the Inspection of Opening Protective Assemblies. The Committee on Tests has reviewed the applicant's qualifications and experience record and on the basis of such review recommends that Alfred T. Holl, Registered Professional Engineer No. 397 of Ohio, be approved as an inspector, under the provisions of the Rules of the Board of Standards and Appeals covering

the Inspection of Opening Protective Assemblies, Cal. No. 1139-39-SR, provided that all inspections made under his jusisdiction be made by him in person and he shall thoroughly examine each assembly being manufactured under the Board's approval and report to this Board any variations or discrepancies that he may find, giving the calendar number of the opening protective assembly in question. The applicant shall comply with all the requirements of this recommendation and shall enforce the provisions of the Board's Rules on the Inspection of Opening Protective Assemblies, Cal. 1139-39-SR and this approval shall remain in force until rescinded by the Board.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,
CHARLES M. BLUM,
Commissioner,
LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended approval of this applicant as an approved inspection agency.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 18, 1939, as last amended November 20, 1945, so as to include approval of Alfred T. Holl, of Canton, Ohio, as an approved inspection agency, in accordance with above report.

Adjourned: 12:40 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, NOVEMBER 27, 1945.

Present: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy.

APPEALS FROM ADMINISTRATIVE DECISIONS

591-45-A

APPLICANT—Globe Products Co., Inc., lessee, for 330 Morgan Avenue Corp., owner.
SUBJECT—Appeal from a decision of the fire commissioner.
PREMISES AFFECTED—330 Morgan avenue, northeast corner of Calhoun street (2nd floor); (Block 2911, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: Wallace G. Storch.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUUTION (591-45-A)

WHEREAS, Globe Products Co., Inc., lessee, for 330 Morgan Avenue Corp., owner, filed September 28, 1945, an appeal from a decision of the fire commissioner, affecting premises 330 Morgan avenue, northeast corner of Calhoun street (2nd floor); (Block 2911, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated August 30, 1945, reads:

"This will acknowledge receipt of your letter of August 23rd, wherein you request a permit for employees to smoke in your factory building situated at the above mentioned premises.

You are advised that your request must be denied for the reason that smoking is prohibited by mandatory provisions of the Labor Law and the Rules of the Board of Standards and Appeals.

You may appeal this decision within 30 days to the Board of Standards and Appeals, Room 1015, Municipal Building, Manhattan."

and

WHEREAS, the applicant states the building is three stories (43 ft. 6 in.) in height; 80 ft. by 90 ft. in area; of Class 3 construction; erected in 1927; located in an unrestricted use, A Area and Class 1½ height district, and used and occupied since September, 1945, as follows: cellar, vacant; basement, vacant; 1st floor, shipping and 2 rest rooms, 7 persons; 2nd floor, filling containers and offices, 24 persons; 3rd floor, cooking jams and jellies, 15 persons; that the building is equipped with an approved one source sprinkler system and interior fire alarm system, but that fire drills are not maintained; that there are two interior stairs, 44 in. wide, of steel construction with cement treads, enclosed in 12 in. brick, equipped with metal self-closing doors, the front stair extends to the roof bulkhead and rear stair leads to the roof by a ladder and scuttle, and to the street through the stair hall; and

WHEREAS, the applicant contends that the employees of the company are stationed, approximately eight hours a day, in the office portion of the building; that this section of the building is also used by salesmen and others who transact business with the firm; that the factory section of the building, where jams, jellies and pie fillings are prepared, blended and cooked and made ready for shipment, is entirely separated from the office portion; that all walls surrounding the office area have been completely fire stopped with approved plaster blocks; that if permission to smoke is granted, care will be exercised at all times, so that the fire hazard will not be increased; it is therefore respectfully requested that permission to smoke be granted to persons within the office portions of this building on the second floor, as shown on plans submitted with this appeal; and

WHEREAS, the premises and the surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the fire commissioner, dated August 30, 1945, and that the appeal be and it hereby is *granted,* permitting smoking within the building *on condition* that smoking shall be restricted to the spaces as proposed, namely the enclosed offices on the 2nd floor front; that no smoking shall be permitted elsewhere throughout the building; that signs shall be posted in such spaces as smoking is herein permitted, as the fire commissioner shall direct; that proper receptacles shall be maintained within such spaces, for smoker's refuse; that the sprinkler system and interior fire alarm system shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that this variance shall continue only so long as the building is occupied as at present and the requirements of this resolution are complied with.

678-45-A

APPLICANT—Herbert Lippmann, for 98 Delancey Street Corp., owner (Caine Bros., Inc., lessee).
SUBJECT—Appeal from an order and decision of the fire commissioner.
PREMISES AFFECTED—1421-1423 3rd avenue, east side, 90 ft. north of East 80th street (Block 1526, Lot 4), Borough of Manhattan.
APPEARANCES—
For Applicant: Herbert Lippmann.
For Administration: Peter Maher, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Blum and Deputy Chief Murphy 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (628-45-A)

WHEREAS, Herbert Lippmann, for 98 Delancey Street Corp., owner (Caine Bros., Inc., lessee), filed October 19, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises 1421-1423 3rd avenue, east side, 90 ft. north of East 80th street (Block 1526, Lot 4), Borough of Manhattan; and

WHEREAS, order 35433-LF, issued by the fire commissioner August 9, 1945 and referred to in a decision of the fire commissioner, dated September 26, 1945, reads:

"1. Repair or replace the defective shutters with proper iron shutters at all openings in the exterior wall above the first story, which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at the rear of the building, or other approved protection. Sec. 491-A-3-2-0, Adm. Code. Chap. C26-649.0 Adm. Code."

and

WHEREAS, the applicant states that the building is 5 stories (57 ft.) in height, 33 ft. 6 in. by 95 ft. in area at 1st floor, 33 ft. 6 in. by 88 ft. in area at typical floor, of Class 3 construction, located in a business use, B area and Class 1½ height district and used and occupied: cellar—storage of hardware—no persons; 1st floor and mezzanine—store and office—7 persons; 2nd floor—office and plumbing showroom—3 persons; 3rd floor—repair shop—no persons; 4th and 5th floors—vacant; that the building is equipped with one 3 ft. 9 in. wide wood open stairs from the roof bulkhead to the 1st story and one discontinued fire escape at the rear, leading to the roof by a ladder, with no egress from its lowest termination; and

WHEREAS, the applicant contends that within 30 ft. vertically of any rear opening of the building in question, there is one set of windows, in 206 East 81st street to the north, at 90 degrees to the rear wall of the building in question; that these windows are 16 ft. 2 in. from the most northerly jamb of any of the windows in the building in question; that there is little danger of spread of fire at a 90 degree angle to the windows of the building in question; that only two sets (vertically) of windows in the building in question are within 30 ft.; that the roof of the garage, at 208 East 81st street, is rubberoid with wood joists protected by ribbed steel ceiling; that the roof parapet is level with the sills of the 2nd story windows and 14 ft. away from the rear wall of the building in question; that there is an unprotected skylight in the garage and only two sets of windows in the building in question, face directly on the garage; that the contents of the building is hardware and building supplies which is chiefly incombustible and stock and shelves are chiefly of steel; that two floors are vacant and a third floor has only a small faucet repair shop; that the rear windows are protected by burglary protection screens, which would spread an alarm in the event of fire, when the building is closed; that of the 16 pairs of shutters on the rear wall above the 1st floor, only four pairs are fit for painting and all others would have to be replaced or extensively rebuilt.

Resolved, that the order of the fire commissioner, acting on Order 35433-LF, item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the exposure windows on the 2nd and 3rd stories, a total of eight, shall be protected either by fire shutters or shall be equipped with fireproof, self-closing windows; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this modification is granted only so long as the upper two floors remain vacant, namely the 4th and 5th, as represented.

655-45-A

APPLICANT—Eadie, Freund and Campbell, for Acme Backing Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—43-63 Meadow street, northeast corner of Bogart street (Block 3029, Lot 90), Borough of Brooklyn.

APPEARANCES—

For Applicant: James K. Campbell.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative: 0
Absent: Commissioner Savage 1

THE RESOLUTION (655-45-A)

WHEREAS, Eadie, Freund and Campbell, for Acme Backing Corporation, owner, filed October 23, 1945, an appeal from a decision of the borough superintendent, affecting premises 43-63 Meadow street, northeast corner of Bogart street (Block 3029, Lot 90), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated September 24, 1945, on Alt. Applic. 2442-45, reads:

"1. The construction of a marquee projecting beyond the building line on a building not of an essentially public nature, is prohibited by the Building Code, Sect. 2.4.1.4.8."

and

WHEREAS, the applicant states that the building is 2 stories (28 ft. 6 in.) in height, 273 ft. front by 169 ft. and 63 ft. in area, of Class 3 construction, erected in 1928, located in an unrestricted use, A area, and Class 1½ height district and used for processing textiles—68 persons on the 1st floor and 25 persons on the 2nd floor; that the building is equipped with a one source sprinkler system throughout and an interior fire alarm system, but that fire drills are not maintained; that there are three 3 ft. 8 in. wide steel interior stairs brick enclosed, equipped with kalamein, self-closing doors and leading from the roof to the street; and

WHEREAS, the applicant contends that the owner performs work on textile materials which are brought to the plant in rolls or bolts; that the continual receiving and discharging of these textile goods involves the constant loading and unloading of trucks under all weather conditions; that the frequent damage of goods during inclement weather and the exposure of employees to discomfort and hazard to health, makes some means of protection desirable and it is therefore requested that permission be granted for the erection of a marquee, as indicated on plans filed with this appeal; that Meadow street is only two blocks in length and carries very little traffic; that the opposite side of Meadow street is devoted to activities which would not be interfered with, if a marquee were erected; that other owners in the neighborhood have marquees, the location of which are indicated on street diagram filed with this appeal.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 2442-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the marquee shall not exceed the dimensions as to length and width as indicated on plans filed with this appeal, two sheets marked "Received October 23, 1945" and in no event shall the facia of the marquee extend beyond the building line, so as to be less than 2 ft. from the curb; that the marquee shall be solely for protection in connection with deliveries and shipping, but shall not be used for signs and shall be constructed throughout with incombustible materials.

APPLICANT—Tolbert, Ewen & Patterson & John J. McNamara, for Nielk Realty Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—217-219 West 57th street, north side, 250 ft. west of 7th avenue and 216-224 West 58th street (4th, 5th, and 6th floors); (Block 1029, Lots 21, 23, 44, 45, 46 and 46½), Borough of Manhattan.

APPEARANCES—

For Applicant: John J. McNamara and H. Bongard.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3
Negative: 0
Absent: Commissioner Savage 1

THE RESOLUTION (696-45-A)

WHEREAS, John J. McNamara, for Tolbert, Ewen & Patterson, applicants for Nielk Realty Corporation, owner, filed November 7, 1945, an appeal from a decision of the borough superintendent, affecting premises 217-219 West 57th street, north side, 250 ft. west of 7th avenue, running through to 216-224 West 58th street (4th, 5th and 6th floors); (Block 1029, Lots 21, 23, 44, 45, 46 and 46½), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated November 21, 1945, on Misc. F.P. Applic. 2077-45, reads:

"No. 1 (amended). Within 50 ft. of this structure there is a building occupied as a school and within this structure itself, there is located 2 places of public amusement or assembly (on the 1st floor thereof); therefore by the terms of C19-117.0 subd.A.1 'No permit for the handling, use, storage or recovery of inflammable motion picture film shall be issued.'"

and

WHEREAS, the applicant states that the building will be 10 stories (123 ft. 6 in.) in height, 50 ft. and 110 ft. front, 201 ft. and 100.5 ft. in depth, on a lot 50 ft. front by 201 ft. in depth, of Class 1 construction, erected prior to 1916, located in a restricted retail and business use, B area and Class 1½ and 2 height districts, and occupied: cellar—storage and boiler room; 1st floor—restaurant and cabaret; 2nd, 3rd and 4th floors—vacant; proposed to be used and occupied: cellar—storage, mechanical rooms and toilet rooms—20 persons; 1st floor—broadcasting studios—748 persons; 2nd floor—broadcasting studios and offices—50 persons; 3rd floor—offices—150 persons; 4th floor—offices and recording studios, screening rooms, film cutting rooms and vaults—70 persons; 6th floor—offices, recording studios, screening rooms, film cutting rooms and vaults—150 persons; 7th to 10th floors inclusive—offices—150 persons each; proposed to be equipped with a two source sprinkler system throughout, a standpipe system, interior fire alarm system and one 3 ft. 8 in. wide fireproof stairs from the roof bulkhead, directly to the street and one fire tower from the roof to the street; and

WHEREAS, the applicant contends that the building will be equipped with a two source automatic sprinkler system as required for the proposed occupancy and an approved type fire alarm system on all floors; that the school referred to in the decision of the borough superintendent, is a private school occupied as an art school and gallery for adult students and is five stories in height, of fireproof construction; that its westerly wall is unpierced; that the nearest film vaults in the building in question will be located more than 50 ft. from the westerly wall of the school buildings and there will be at least three 4 in. fireproof partitions in addition to the 8 in. brick walls of the vaults and the 12 in. building wall between the nearest vault and the easterly lot line; that each film vault will have an area not exceeding 750 cu. ft. and will comply with the requirements of the Administrative Code.

Resolved, that the decision of the borough superintendent, acting on Misc. F. P. Applic. 2077-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall be constructed substantially as proposed; that no storage film vault shall be constructed other than those shown on plans filed with this appeal marked "Received November 7, 1945" on the 4th, 5th and 6th floors on the West 58th street side; that the floor slab on such floors where the vaults occur, shall be not less than 8 in. in thickness of reinforced concrete; that in addition, there shall be a corridor constructed of fireproof material in front of such vaults, with two doors therefrom, each a single fireproof, self-closing door, opening in the direction of exit; that such partitions shall be constructed in front of the vaults on each of the three floors; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

713-45-A

APPLICANT—Ben John Small, for 56 East 52nd Street Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—56 East 52nd street, south side, 75 ft. west of Park avenue (Block 1287, Lot 39), Borough of Manhattan.

APPEARANCES—

For Applicant: Ben John Small.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3
Negative: 0
Absent: Commissioner Savage 1

THE RESOLUTION (713-45-A)

WHEREAS, Ben John Small, for 56 East 52nd Street Corporation, owner, filed November 19, 1945, an appeal from a decision of the borough superintendent, affecting premises 56 East 52nd street, south side, 75 ft. west of Park avenue (Block 1287, Lot 39), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 1852-45, dated November 14, 1945, reads:

"3. Building should be of fireproof construction, as height exceeds 4 stories and 50 ft. and use changed from residence to offices, Section 4.2.1 Building Code.

If Objection 3 is waived, the following objections apply:

4. One 3 ft. stair should be provided, constructed of incombustible material, enclosed in 2 hour partitions with one hour self-closing doors, with a minimum width of 3 ft. Sections 6.1.2.2.3, 6.4.1.7.1 and 6.4.1.8.1 of the Building Code.

7. Stair should continue to the roof. Section 6.4.1.1 Building Code."

and

WHEREAS, a subsequent decision of the borough superintendent, dated November 16, 1945, repeated Objection 3; and

WHEREAS, the applicant states that the building is 5 stories (56 ft. 7 in.) in height; 15 ft. by 82 ft. in area; of Class 3 construction; erected 1904; located in a restricted retail use, B area and Class 1½ height district, and used and occupied as a furnished room house, now vacant, and proposed to be used and occupied as follows: Cellar, storage and boiler room; 1st floor, office and waiting room, 3 persons; 2nd to 5th floors, offices, 4 persons on each floor; that the building is equipped with a multiple dwelling type sprinkler in

the stair hall, one 3 ft. 6 in. wide stairs of wood stringers and treads, enclosed in fire retarded partitions, equipped with one hour self-closing doors and leading directly to the street; that a ladder and scuttle to the roof is provided; and

WHEREAS, the applicant contends as to Objection 3 that the proposed occupancy of the building will be reduced from the present occupancy of approximately 26 to 19 persons; that the building is only 1200 sq. ft. in area and its stair halls are sprinklered throughout; that the building will be occupied by two tenants; and contends as to Objection 4, that the stairway is 3 ft. 6 in. wide, will be enclosed in one hour partitions and that the existing sprinkler system will be maintained; that the cellar stair enclosure is one hour construction and the cellar ceiling is one hour construction; and as to Objection 7, it is requested the Board accept a scuttle and ladder to the roof.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1852-45, Objections 3, 4 and 7, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the building may be altered substantially as herein proposed; that the fire retarded enclosure of the primary means of exit, including the sprinkler system as approved for use when the building was occupied as a Class B multiple dwelling, shall be maintained, complying with the requirements therefor; that the scuttle to the roof shall be changed in location, so as to be within stair enclosure; that the ladder leading thereto shall be a double rung steel ladder; that the scuttle shall be equipped with an easy opening device; that this variance as to the scuttle shall be continued only so long as there are adjacent buildings of similar height adjoining; that the building shall be occupied only by two tenants as proposed, with no greater occupancy than as set forth; that the cellar stair enclosure and cellar ceiling shall be maintained as proposed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Absent: Commissioner Savage 1

THE RESOLUTION (723-45-A)

WHEREAS, Carl H. Salminen, for J. DiBenedetto and L. DeMonte, owners, filed November 23, 1945, an appeal from decisions of the borough superintendent, affecting premises 58-50 and 58-56 214th street, northwest corner Horace Harding boulevard (Block 7464, Lot 27), Bayside, Borough of Queens; and

WHEREAS, the decisions of the borough superintendent, dated November 19, 1945, on N. B. Applications 1866 and 1868-45, read:

"1. The erection of a frame building within the fire limits, is contrary to Section 4.1.2—Building Code."

and

WHEREAS, the applicant states that the premises consist of a plot fronting 97.49 ft. on Horace Harding boulevard and 103.14 ft. on 214th street, which it is proposed to subdivide into two separate lots and to erect on each lot, a 1½ story frame dwelling, 20 ft. in height, located in a business use, D area and Class 1 height district and each occupied as follows: cellar—boiler room and storage;. 1st floor—dwelling—1 family; attic—future dwelling—1 family; that it is also proposed to erect a two car garage 20 ft. by 21 ft. in area, of masonry construction with frame front gable, on the corner plot, set back from Horace Harding boulevard a distance of 1 ft. and from the westerly lot line a distance of 1 ft.; that the dwellings will be surfaced on the exterior with masonry veneer and the roof will be surfaced with asphalt shingles; that the dormers will be surfaced with wood siding; that the dwellings will be set back from 214th street a distance of 15 ft., into which set back, open porches and entrance steps will project approximately 9 ft.; that the corner dwelling will be set back from Horace Harding boulevard a distance of 25 ft., and will have a side yard on the northerly side of 8 ft., into which set back, the chimney breast will project not more than two ft.; that the dwelling to be erected on the plot 63 ft. north of Horace Harding boulevard, will have a side yard on the southerly side of 9 ft. 8 in. and on the northerly side, of 4 ft.; and

WHEREAS, the applicant contends that it is presently proposed to erect a two car garage only on the corner plot and any future garage erected on the other plot will be of similar construction; that the construction of the proposed dwellings will be in harmony with the development of the adjoining premises to the north and west; that these dwellings will be erected for one family occupancy, each to be arranged for future occupancy of the attic by a second family, on completion of partitions and plumbing, which will be done in accordance with the Code in force at such future date; that the proposed two car garage on the corner plot will be used conjunctively as accessory to both dwellings, until the erection of a second garage, which may be erected at a future date.

Resolved, that the decisions of the borough superintendent on N. B. Applications 1866 and 1868-45, Objection 1, be and they hereby are *modified* and that the appeal be and it hereby is *granted on condition* that the buildings shall be located and constructed substantially as proposed; that each building shall be restricted to the occupancy of one family; that the front of the garage as proposed, shall be not nearer than 10 ft. to Horace Harding boulevard and shall be not nearer to the rear line than 1 ft.; that the terraces as proposed, shall be left uncovered and shall not extend above curb grade more than 2 ft.; that as soon as lot 27 is subdivided, a record shall be filed of the new lot numbers with the borough superintendent and with the Board; that in all other respects, the buildings and occupancies shall comply with all laws, rules and regulations applicable thereto.

Resolved further, that irrespective of this variance as to proposed wall construction, either or both of the dwellings may have conforming masonry walls.

THE RESOLUTION (142-37-A)

WHEREAS, this appeal from an order and a decision of the fire commissioner, affecting premises Avenue V and Mill avenue (582 ft. west of foot of Mill avenue and 156 ft. south of Avenue V); (National Lead Building); (Block 8470 Lot 1091), Mill Basin, Borough of Brooklyn, was granted by the Board on June 8, 1937, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the fire commissioner, dated November 26, 1945, referring to order 99744-LC, dated May 18, 1945.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 8, 1937, so that amended, the resolution shall read:

"*Resolved*, that the order of the fire commissioner, No. 69038-LC, item No. 5, be and it hereby is *modified*, and that the appeal be and it hereby is *granted* so as to permit the storage of not over 1,000 lbs. of chlorate of potash *on condition* that the chlorate of potash shall be stored in a fireproof compartment to be constructed within the fireproof room at the rear of the building; that this compartment shall be constructed of fireproof materials with a fireproof door thereto and vented to the outer air; that the roof of this enclosure may be glazed with wire plate glass; that not over 250 lbs. of chlorate of potash shall be used at any time in connection with the manufacturing operations; that the automatic fire door, separating the fireproof room from the balance of the manufacturing plant shall be kept in good working order and normally kept closed; that in all other respects the requirements of the code of ordinances shall be complied with.

Resolved further, that in the event the owner desires to store not over three thousand pounds of chlorate of potash, the decision of the fire commissioner on Order 99744-LC is hereby *modified on condition* that the fireproof room within the building shall be maintained as required by the resolution adopted June 8, 1937; that all chlorate of potash shall be maintained within such room to a total not exceeding 3,000 lbs. in the original steel shipping containers; that not more than one such container shall be opened at a time for daily requirements; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct."

MINUTES

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Blum and Deputy Chief Murphy 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (1072-23-BZ)

WHEREAS, this application, permitting in a residence use district, the maintenance of a garage for the storage of five motor vehicles, four spaces to be rented to persons not residing on the premises, affecting premises 41 Richmond street, east side, 322 ft. south of Jamaica avenue, (Block 4103, Lot 8), Borough of Brooklyn, was granted by the Board on November 20, 1923, on certain conditions, for a term of two years; and

WHEREAS, the permit was extended from time to time, the last such extension having been granted on November 23, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 20, 1923, as amended through November 23, 1943, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7e for a term of five (5) years from the date of this *amended* resolution, to permit . . . and that other than as herein *amended*, the provisions of the resolution of November 20, 1923 shall be complied with and that a certificate of occupancy shall be obtained."

314-35-BZ

APPLICANT—Harry Yahr, for Shelton Holding Corp., owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a retail use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—15-23 West 43rd street, north side, 225 ft. west of Fifth avenue (Block 1259, Lots 25, 28 and 28½), Borough of Manhattan.

APPEARANCES—
For Applicant: Harry Yahr.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Blum and Deputy Chief Murphy 3
Negative 0
Absent: Commissioner Savage 1

THE RESOLUTION (314-35-BZ)

WHEREAS, this application, under section 7h of the zoning resolution, permitting in a retail use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 15-23 West 43rd street, north side, 225 ft. west of Fifth avenue (Block 1259, Lots 25, 28 and 28½), Borough of Manhattan, was granted by the Board on January 14, 1936, on certain conditions; and

WHEREAS, the permit was extended from time to time, the last such extension having been granted on December 7, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 14, 1936, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* . . . and that other than as herein *amended*, the provisions of the resolution of January 14, 1936 shall be complied with and that a certificate of occupancy shall be obtained."

SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a retail use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—225-235 West 33d street, north side, 259.3 ft. west of Seventh avenue (Block 783, Lots 22 to 26, inclusive), Borough of Manhattan.

APPEARANCES—
For Applicant: Henry George Greene.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative: 0
Absent: Commissioner Savage 1

THE RESOLUTION (802-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a retail use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 225-235 West 33rd street, north side, 259.3 ft. west of Seventh avenue, (Block 783, Lots 22 to 26, inclusive), Borough of Manhattan, was granted by the Board on May 9, 1939, on certain conditions; and

WHEREAS, the permit was extended on October 28, 1941 and November 16, 1943; and

WHEREAS, the applicant requested a further extension on the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 9, 1939, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be used for the parking and storage of more than five (5) motor vehicles, *on condition* . . . and that other than as herein *amended*, the provisions of the resolution of May 9, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

933-38-BZ

APPLICANT—Ernest E. Belfi, for Pennsylvania Railroad Company, owner.

SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a retail use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—234-236 West 31st street, south side, 400 feet west of Seventh avenue (Block 780, Lot 60), Borough of Manhattan.

MINUTES

APPEARANCES—
For Applicant: Ernest E. Belfi.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative: 0
Absent: Commissioner Savage 1

THE RESOLUTION (933-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a retail use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 234-236 West 31st street, south side, 400 ft. west of Seventh avenue (Block 780, Lot 60), Borough of Manhattan, was granted by the Board on October 31, 1939, on certain conditions; and

WHEREAS, the permit was extended on October 28, 1941 and November 16, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of October 31, 1939, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit . . . and that other than as herein *amended*, the provisions of the resolution of October 31, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

795-40-BZ

APPLICANT—John J. Gilmartin, for John Primavera, owner.
SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting partly in a local retail use and partly in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—546-548 Ralph avenue, west side, 107 ft. 9½ in. north of St. John's place (Block 1381, Lot 44), Borough of Brooklyn.
APPEARANCES—
For Applicant: John J. Gilmartin.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3
Negative: 0
Absent: Commissioner Savage 1

THE RESOLUTION (795-40-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a local retail use district and partly in a residence use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 546-548 Ralph avenue, west side 107 ft. 9½ in. north of St. John's place (Block 1381, Lot 44), Borough of Brooklyn, was granted by the Board on May 20, 1941, on certain conditions; and

WHEREAS, the permit was extended on December 14, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 20, 1941, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* . . . and that other than as herein *amended*, the provisions of the resolution of May 20, 1941, shall be complied with and that a certificate of occupancy shall be obtained."

Adjourned, 4:00 P.M.

JOSEPH J. DOYLE,
Chief Clerk.

---

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on May 29, 1945, as they appeared in Bulletin No. 23, Vol. 30, are hereby corrected to read as follows:

280-45-A

APPLICANT—Irving J. Berger, for Victor Metal Products Corp., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—190-200 Diamond street and 264-272 Calyer street, southeast corner (Block 2602, Lots 8 and 12), Borough of Brooklyn.
APPEARANCES—
For Applicant: Irvin J. Berger.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4
Negative 0

THE RESOLUTION (280-45-A)

WHEREAS, Irving J. Berger, for Victor Metal Products Corp., owner, filed May 10, 1945, an appeal from a decision of the borough superintendent, affecting premises 190-200 Diamond street and 264-272 Calyer street, southeast corner (Block 2602, Lots 8 and 12), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated April 23, 1945, re Alt. Applic. 271-45 reads:

9. "Provide two means of egress from each floor, complying with the requirements of Sec. 270 of the Labor Law, as building was extended under Alt. 6163-29.

10. Vertical openings shall be enclosed throughout their height by enclosures of fireproof materials, as per Sec. 270-7 of the Labor Law. Denied."

and

WHEREAS, the applicant states that the building is 3 stories (51 ft.) in height; 140 ft. 2 in. frontage (plans show a total frontage of 175 ft., additional 35 ft. being a two-story adjoining building occupied by same concern and connected thereto); that it is 50 ft. and 100 ft. in depth at street floor; and 50 ft. and 61 ft. 2 in. in depth at typical floor; Class 3 construction; located in unrestricted use C area, Class 1¼ height districts; erected about 1897 and 1929 and used and occupied since as follows: 1st, 2nd and 3rd floors, manufacturing collapsible tubes, 35 persons, 32 persons and 14 persons, respectively; proposed occupancy —1st floor, 35 persons; 2nd floor, 45 persons; 3rd floor, 80 persons—same use—manufacturing collapsible tubes; that the building is equipped with an approved one-source sprinkler system; that there are two interior stairs, one stairway at the northwest corner, marked "Stair A"

MINUTES

on plans filed with this appeal, is 3 ft. 8 in. wide, constructed of wood, enclosed with fire-retarded partition on both sides, with No. 24 gauge sheet metal over ½ in. plaster board, and one stairway, 75 ft. from the southwest corner, marked "Stair B" on plans, constructed of steel and concrete, enclosed in masonry,-both lead, directly to the street and one extends to the roof bulkhead, construction of doors one and one-half hour, self-closing; that Certificate of Occupancy 60300 was issued May 2, 1930, for use of the building as a factory, with 120 lbs. liveload p.s.f. on each floor and occupancy of 20 persons on 1st floor, 22 persons on the 2nd floor and 4 persons on the 3rd floor; that Permit 6163-29 was issued and work completed May 2, 1930; and

WHEREAS, the applicant contends that the records in the Department of Housing and Buildings indicate that the section of the building at the corner of Diamond and Calyer streets, was erected in 1897 and purchased by the present owner in 1926 and that it has been used continuously for the same purpose since that time; that in 1928, the building was altered, by enclosing the present wooden stair (indicated as Stair A) on both sides with ½ in. plaster board and 24 in. gauge sheet metal; that in 1929, the building was enlarged by adding a three story extension to the south, which was approved by the Bureau of Buildings and in which there was constructed a steel and concrete stair (indicated as Stair B), enclosed in masonry and so located as to be directly accessible to both the old and new portions of the building; that another Certificate of Occupancy, 62144 was issued October 29, 1930, for this extension, approved for floor loads of 75 lbs. p.s.f. for the 2nd and 3rd floors, the first floor being on the ground and all permitted for factory throughout; that as to objection 9, the Borough Superintendent questions the construction of Star "A" as to compliance with the Labor Law, under Section 270; and as to objection 10, that the openings consist of conveyors, indicated on the drawings as Nos. 1 and 2; Conveyor No. 1 extends from 2nd to 3rd floors only and it would be difficult to enclose it, because of the wood floor construction; that it is proposed to construct the necessary guard rails and slatted fire doors at the floor, as called for in Section 10.13.2 of the Building Code; that Conveyor No. 2 extends from the 1st to the 3rd floors and it is proposed to protect this with self-supporting angle iron construction with 20 gauge sheet metal and fire doors at each opening; and

WHEREAS, it appears that the section of the frontage of 40 ft. used in conjunction with this plant to the south, is separated from the balance of the factory by fireproof, self-closing doors on the ground and second floors.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 271-45, and that the appeal be and it hereby is *granted,* as to objection 9 *on condition* that the existing means of exit as indicated on plans filed with this appeal marked "Received May 10, 1945" shall be maintained, and in addition, a stairway at the Diamond street side of the southerly building, intended for future office space, shall be continued to the roof with a bulkhead, which may be fire-retarded construction and a fire-retarded passageway stair enclosure constructed on the second floor; that the door, leading to the second story roof from the 3rd floor toward the front, shall be maintained; that the enclosures around stairs "A" and "B" may be maintained, as previously approved by the Department of Housing and Buildings, as stated; as to objection 10, that the openings for conveyors may be maintained as proposed and provided that in all other respects, other than as herein modified, the biuldings and occupancy shall comply with all laws, rules and regulations applicable thereto; that the one source sprinkler system shall be maintained throughout the building, in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that the building shall not be increased in height or area; that the floor loads per superficial foot per floor shall be maintained in accordance with Certificates of Occupancy 60300 and 62144.

* Correction—The deletion of any reference to a standpipe system, a fire alarm system and the maintenance of a fire drill in the building.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES GOVERNING THE INSTALLATION OF INTERIOR FIRE ALARM SIGNAL SYSTEMS, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, SEPTEMBER 27, 1917, AMENDED DECEMBER 6, 1917 AND FEBRUARY 7, 1918 AND REVISED DECEMBER 11, 1936

(108-16-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Tuesday afternoon, January 22,* 1946, at 2 P: M., in Room 1013, Municipal Building, Manhattan, on the Proposed Amendments to Rules Governing the Installation of Interior Fire Alarm Signal Systems.

New matter is indicated in *italics.*

Section 279 *State Labor Law* **Fire Alarm Signal Systems and Fire Drills:**

1. Fire alarm signal systems. Every factory building over two stories in height in which more than twenty-five persons are employed above the ground floor shall be equipped by the owner thereof with a fire alarm signal system having a sufficient number of signals clearly audible to all occupants of the building, and so arranged as to permit the sounding of all the alarms within the building whenever the alarm is sounded in any portion thereof. Such system shall be maintained in good working order and no person shall tamper with same or render ineffective any portion thereof except to repair it. A person discovering a fire shall cause an alarm to be sounded immediately. The Board of Standards and Appeals in the City of New York, may make rules and regulations prescribing the number, character and location of the signals and the method and character of the installation, including that of all appliances in connection therewith.

Rule 16. Alarm Boxes.

16.1 In fire alarm signal systems the metal case enclosing exposed or surface alarm boxes shall be of cast iron *or cast No.* 43 *aluminum* and drilled and tapped to receive the conduit. When exposed to moisture the box shall be enclosed in a suitable weather-proof outer shell. In new buildings, approved back boxes embedded in the wall may be used and the conduits shall be properly secured by lock nuts and bushings.

RULES

OIL BURNER RULES

(217-21-SR)

RULES COVERING THE INSTALLATION AND USE OF OIL BURNING EQUIPMENT AND THE STORAGE OF OILS USED IN CONNECTION THEREWITH

Adopted by the Board of Standards and Appeals June 15, 1934, Amended July 12, 1935, January 28, 1936, December 4, 1936, and July 1, 1941.

(Superseding Fuel Oil Rules adopted by the Board of Standards and Appeals, November 6, 1919; amended January 6, 1922; January 18, 1924; November 3, 1926; September 11, 1928; January 11, 1929; March 20, 1931; May 12, 1931; November 24, 1931; May 10, 1932; June 24, 1932 and November 4, 1932.

Authority: Section 666, paragraph 2 of the New York City Charter.

Rule 1. Scope.

1.1 No person shall install oil-burning, or oil-storage equipment for use within the City of New York except as provided in these rules.

1.2 These rules shall not apply to gas companies storing or using oil in the manufacture of illuminating gas for public use.

Rule 2. Definitions.

2.1 For the purpose of these rules the following terms shall be interpreted in accordance with these definitions:

2.2 APPROVED: Shall mean devices hereafter approved by the Board of Standards and Appeals and also, when required by the Board of Standards and Appeals, approved, listed as standard, and/or labeled by any nationally recognized standard testing laboratory not operated for commercial profit, provided all such devices are installed in accordance with these rules. Such approval is subject to suspension or revocation for non-compliance with these rules. All devices approved by the Board of Standards and Appeals prior to the adoption of these rules shall be accepted.

2.3 AUTOMATIC PUMP: Shall mean an automatic transfer pump operating independent of the burner to provide a continuous supply of oil.

2.4 BURNER: A device designed for the purpose of burning oil.

2.5 COMMERCIAL INSTALLATIONS: Oil burner installations in buildings, other than dwellings when used for heating and generation of power for use on premises.

2.6 CONTROLS: Such electrical or mechanical devices as are installed for the purpose of providing safe and continuous operation.

2.7 DISCHARGE LINE: That portion of the line between the discharge outlet of the pump and the burner oil inlet connection.

2.8 DOMESTIC INSTALLATIONS: Oil burner installations installed in dwellings as defined in these rules.

2.9 DWELLINGS: Buildings used exclusively for dwelling purposes and occupied by one or two families, including convents, rectories and monasteries.

2.10 ELECTRICALLY GROUNDED: For protection against lightning shall mean storage tanks set directly in or on the ground and/or with underground piping connections. Where storage tanks without underground piping connections are built on bases above the surface of the earth, such storage tanks shall be grounded at two (2) points 180° (degrees) apart as follows:

2.10.1 The conductor from tank to ground connection shall be of copper not smaller than No. 6 (.162″) A.W.G. wire, or pipe not less than one-half inch (½″) in diameter.

2.10.2 One end of conductor shall be permanently and electrically bonded to tank. The other end shall be bonded to a ground connection consisting of a water pipe or a rod, pipe or plate having a surface area of not less than one hundred and ninety (190) square inches, buried in moist earth not less than two feet (2′) below the surface of the earth.

2.11 FILL PIPE: That portion of the line between the fill pipe terminal and the fill pipe connection in the storage tank.

2.12 FIRE RETARDING MATERIALS:

2.12.1 One-half (½) inch plaster boards, or asbestos boards, or three-eights (⅜) inch gypsum wall boards weighing not less than 16 pounds per square yard with pointed joints covered with No. 26 U. S. gauge sheet metal with one (1) inch lapped seams nailed to the wood beams when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are spaced more than sixteen (16) inches on centers, or

2.12.2 Two thicknesses of one-quarter (¼) inch asbestos boards laid with tight staggered joints and nailed to the beams, when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are more than sixteen (16) inches on centers, or

2.12.3 Metal lath weighing not less than three pounds per square yard, attached to furring strips and plastered with Portland cement mortar at least three-quarters (¾) inch thick.

2.12.4 Note—All fire retarding material to be applied as required in rules for fire retarding material of the Board of Standards and Appeals.

2.13 GROUND: An electrical conductor having capacity to absorb current.

2.14 INDUSTRIAL INSTALLATIONS: Oil burner installations for industrial purposes.

2.15 OIL: Any liquid mixture, substance or compound derived from petroleum, including kerosene and fuel oil as defined in C19-2.0 of the Administrative Code and Rule 3.

2.16 OIL BURNING EQUIPMENT: Any device including burners, oil burning heaters, internal combustion engines used for heating, power or other purposes designed for and/or using oil as defined in these rules.

2.17 OIL LEVEL INDICATING DEVICE: A means by which the level of the oil in a storage tank may be indicated.

2.18 OVERFLOW PIPE: A pipe which conveys, by gravity, the oil from the maximum level of an auxiliary tank to the storage tank or from the pump to the storage tank.

2.19 PERMANENT DEFORMATION: Wherever phrase, "without permanent deformation," is used in these rules it shall mean that the tanks or containers shall, after release of test pressure, resume their original size and shape.

2.20 PERMIT: Shall mean permit for storage of oil.

2.21 PORTLAND CEMENT CONCRETE: Shall mean a mixture of one (1) part cement and not more than two and one-half (2½) parts sand and five (5) parts of coarse aggregate and complying in all other respects with the requirements of C26-311.0 of the Administrative Building Code.

2.22 PREHEATER: A device designed for heating oil for the purpose of decreasing the viscosity.

2.23 RELIEF VALVE: A valve held shut by a spring or other means of automatically relieving pressure in excess of its setting.

2.24 RELIEF LINE: That portion of the line between the bypass connection of the relief valve and the supply line or storage tank.

2.25 REMOTE CONTROL: A hand, electric, or mechanically-operated device to shut off the oil supply. A thermostat is not acceptable as a remote control.

2.26 SCAVENGING LINE: A line installed to permit the removal of water or foreign matter from a storage tank.

2.27 SHOP FABRICATED: Shall mean completely built in the shop of the tank manufacturer.

2.28 SHUT-OFF VALVE: A device that can be actuated to prevent the flow of liquid in a line of pipe.

2.29 STORAGE CONTAINER: Any container for oil connected to a burner or oil-burning heater and having a capacity of six (6) gallons or less.

2.30 STORAGE TANK: Any tank for oil having a capacity of two hundred and seventy-five (275) gallons or more, having a fill line and vent line connected thereto.

2.31 STORAGE TANK, AUXILIARY: Any container for oil having a capacity of not over 60 gallons and used as an intermediary tank for gravity feed and equipped with an automatic or manually operated pump.

2.32 SUPPLY LINE: That portion of the line between the storage tank and the pump oil inlet connection or hand valve. Where a pump is not used, it shall be that portion of the line between storage tank and burner and burner oil inlet connection or hand valve.

2.33 TEST WELL: An opening in the top of the storage tank or a straight pipe connected to such opening through which a gauge stick may be inserted into the storage tank.

2.34 TRANSFER PUMP: An oil pump that is not an integral part of the burner and which is installed between storage tank and burner.

2.35 VENT PIPE: That portion of the line between vent pipe terminal and vent pipe connection in the storage tank.

Rule 3. Oil Permitted.

3.1 Oil permitted under these rules shall be any hydrocarbon oils free from acid, grit and fibrous or other foreign matter. The fuel oils shall be classified as provided in Commercial Standard CS12-38 U. S. Department of Commerce, and shall have a flash-point not lower than 100 degrees Fahrenheit when tested in a Pensky-Martens closed cup tester (American Society for Testing Materials Method D-93-36) and marketed under the following commercial grades:

Range Oil
No. 1 Fuel Oil
No. 2 " "
No. 3 " "
No. 4 " "
No. 5 " "
No. 6 " "

3.2 The use of crankcase refuse oil as fuel oil is strictly prohibited.

Rule 4. Standards For Approval of Oil Burners by the Board.

4.1 Approved burners, including oil-burning heaters, shall be an assembly of approved parts suitable for use with each other for the service intended, as approved, such burners shall be provided with suitable safeguards to prevent abnormal discharge of oil.

4.1.1 When assembled each burner shall be tested for defects and proper functioning throughout its operating range. Parts shall be so designed as to maintain alignments and to permit interchangeability.

4.1.2 The CO^2 in the flue gas shall be maintained at not less than 8% without smoking and throughout the operating range of the capacity of the burner when tested.

4.1.3 Flexible tubing used as an integral part of burner shall be not longer than 72 inches and of an approved type.

4.2 Approval of burners or oil-burning heaters designed for installation with storage of not more than six (6) gallons shall include approval of storage containers and limitations of installation. If more than six (6) gallons' storage is desired for such burners or oil-burning heaters, a storage tank shall be installed as provided for in these rules. Portable containers of not more than six (6) gallons' capacity may be filled from such storage tanks by means of an approved hand pump located above the top of the tank.

4.3 The requirements of these rules shall not apply to the use and installation of portable burners not requiring a connection to a flue where such burners are of the type commonly used for household purposes including oil stoves, oil heaters and oil lamps equipped with a woven wick, nor do the requirements of these rules apply to such portable apparatus such as blow torches, soldering pots, tar heaters, snow melters, etc.

Rule 5. Material and Construction of Tanks.

5.1 **Cylindrical Tanks (except vertical tanks located outside of buildings above ground).**

5.1.1 All tanks for the storage of fuel oil shall be built of steel plates made by the open hearth process and known to the trade as "tank steel." Such plate shall be free from physical imperfections, such as laminations, cracks, mill scale, etc. All steel must be new in good condition and free from rust. the thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

5.1.2 All tanks shall be welded or riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates. Filler of any kind between plates is prohibited.

5.1.3 Thickness of cylindrical tanks, except tanks of 275 gallons capacity or less·

Tanks 36 in. in diameter and less—¼ in. shell, ¼ in. heads.

Tanks 37 to 72 in. in diameter—¼ in. shell, 5/16 in. heads.

Tanks 73 to 120 in. in diameter—5/16 in. shell, ⅜ in. heads.

Tanks over 120 in in. diameter to be of ⅜ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

5.1.4 All cylindrical, oval or obround storage tanks shall have dished heads with a curvature the radius of which is not greater than the diameter of the tank. Dished heads shall be formed with an adequate cylindrical extension rim to provide welding or riveting surface. Should flat heads be used they shall be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

5.1.5 Diameter and spacing of rivets:

Riveting in single lap seams shall not exceed a pitch as follows:

In shell ¼ in. thick, ⅝ in. in diameter rivets 2¼ in. pitch.

In shell 5/16 in. thick, ⅝ in. in diameter rivets 2⅜ in. pitch.

In shell ⅜ in. thick, ¾ in. in diameter rivets 2½ in. pitch.

5.2 Rectangular Tanks.

5.2.1 All rectangular tanks shall be built of steel plates of the quality required for cylindrical tanks, and of a thickness of not less than 5/16 of an inch.

5.2.2 Corners may be made up by bending the plates or by use of angles.

5.2.3 Rivets in seams shall be ⅝ of an inch in diameter and spaced not more than 2¼ inches center to center.

5.2.4 All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural steel members which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tanks as the case may be.

5.2.5 When structural steel members are used such as angle, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the members. In no case shall the rivets be in excess of six (6) inches center to center on these members.

5.2.6 When structural steel reinforcing members are tied together with braces in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken in the minimum net section.

5.2.7 If structural steel members are omitted and the sides of the tank are braced by means of rods or bars, these members should not be spaced farther apart than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch on the minimum net section.

5.2.8 The connection between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars so that the bar will break before the connection will let go.

5.3 All Tanks Except Vertical Above-Ground Storage Tanks.

5.3.1 All storage tanks for oil of two hundred and seventy-five (275) gallons' capacity or less, except buried tanks, shall have a minimum thickness of shell and head plates of manufacturers Standard 10 gauge (.134″). Auxiliary storage tanks of 60 gallons or less shall be similarly constructed but need not be of a gauge thicker than U. S. Standard No. 14.

5.3.2 At time of installation all storage tanks shall bear a permanently fixed plate, spot-welded or equivalent, bearing the name of tank manufacture, the gauge of material and capacity of tank. All shop fabricated storage tanks shall be installed without structural alteration.

5.3.3 All openings shall be through the top of the storage tank except that storage tanks of 275-gallons may be provided with a three-quarter inch (¾″) opening for gravity discharge and a one-inch (1″) opening in the bottom for cleaning and protection against corrosion.

5.3.4 All buried storage tanks shall have a thorough coating on the outside of two coats of red lead protected by hot tar, asphaltum, or other equivalent rust-resisting material. All such tanks shall be electrically grounded.

5.3.5 Manholes; Tanks for oils having a viscosity less than 500 sec. Saybolt Universal at 100° F. need not have manholes; where used for such oils the manhole covers shall be bolted and made gastight; where used for oils having a viscosity greater than 500 sec. Saybolt Universal at 100° F. (No. 5 or No. 6 Commercial Standard grades) shall have manhole covers bolted or otherwise secured to the tanks and kept hydrostatically tight at all times.

5.4 Vertical Storage Tanks Over 1,000 Gallons Capacity Located Outside of Building Above Ground.

5.4.1 Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality required for cylindrical tanks.

5.4.2 The minimum thickness of shell or bottom plates shall be ¼ inch and the minimum thickness of roof plates ⅛ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals} \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

R equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No.

14 of the New York State Industrial Commission).

5.4.3 Roof plates shall have single riveted watertight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed with proper efficiency to meet requirements of above formulas for shell plates.

5.4.4 In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

5.5 Storage Containers.

5.5.1 Storage containers for oil of six (6) gallons capacity or less used in connection with burners or oil-burning heaters shall be designed to withstand a hydrostatic pressure test of five (5) pounds per square inch without permanent deformation, rupture or leakage and shall be approved as provided in Rule 4.2. Glass storage containers shall not exceed three gallons capacity, protected with a metal jacket provided with hand grips and designed to be rigidly fastened to stand or wall and shall be approved as provided in Rule 4.2.

Rule 6. Location of Tanks.

6.1 Inside of Buildings, Above Ground.

6.1.1 Storage tanks having a capacity of two hundred and seventy-five (275) gallons and auxiliary tanks may be installed above ground in or on the lowest story of a building, provided such tanks shall be mounted on substantial incombustible supports, with tank permanently attached thereto, and located not less than seven feet (7′) of clear unobstructed space measured horizontally from any furnace or source of exposed flame unless tank is protected as provided for in Rule 6.1.2. Such storage tanks inside buildings shall have an individual capacity of not more than two hundred and seventy-five (275) gallons capacity and not more than one such tank shall be connected to one burner. Not more than two (2) two-hundred-and-seventy-five (275) gallons storage tanks shall be installed in a building above ground without protection as provided for in Rule 6.1.2.

6.1.2 Storage tanks having a capacity of more than two hundred and seventy-five (275) gallons, when installed inside of buildings, shall be located on the lowest floor level and all portions of such tanks above the floor shall be protected by a continuous jacket of not less than four inches (4″) of Portland cement concrete reinforced with not less than No. 20 gauge steel wire cloth 2″ x 2″ mesh, and extending at least four inches (4″) beyond the horizontal outline of tank in all directions, with weep holes along the bottom one inch in diameter not more than 3 ft. apart.

Each storage tank may be placed in a protective enclosure having solid masonry walls not less than eight inches (8″) in thickness and of dimension not less than fifteen inches (15″) greater on all sides than the outside dimensions of the storage tank. The walls of the enclosure shall be carried up to a height not less than two feet (2′) above the top of the tank. A fireproof access door shall be installed in the enclosure above the point where the enclosure has a capacity equal to the tank; and for each additional 10 feet or fraction thereof by which the longest inside dimension of the enclosure exceeds 35 feet an additional fireproof access door shall be similarly installed at one or more intervals of not less than 10 feet. The ceiling above the tank enclosure shall be either fireproof or fire-retarded.

6.1.3 The capacity of individual storage tanks located inside of buildings shall not exceed twenty thousand (20,000) gallons.

6.1.3.1 All buried storage tanks shall be constructed of metal not less than ¼″ in thickness.

6.1.4 All storage containers used in connection with burners or oil-burning heaters shall be installed in a substantial and workmanlike manner with rigid metal fasteners to wall or floor and protected against mechanical injury.

6.2 Inside of Buildings, Below Ground.

6.2.1 Storage tanks having a capacity of 275 gallons or more may be buried inside a building with the top of the tank not less than two feet below floor level. In lieu of two feet of earth over the tank, the tank may be covered by concrete flooring equivalent to the basement floor but not less than the equivalent of 4 inches of reinforced Portland cement concrete with not less than No. 20 gauge steel wire cloth 2″ x 2″ mesh. Tanks shall be placed in firm soil and shall be surrounded by clean sand or well tamped earth, free from ashes or other corrosive substance, and free from stones larger than will pass through a one-inch mesh. When necessary to prevent floating, tanks shall be securely anchored. Storage tanks buried below the floor, prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material.

6.2.2 Storage tanks buried below the floor shall not be less than ¼″ in thickness.

6.2.3 No tank shall be buried so as to be nearer than three feet to any foundation wall or foundation footing.

6.3 Outside of Buildings, Below Ground.

6.3.1 Storage tanks located outside of buildings, below ground, shall be buried with the top of the tank not less than two feet (2′) below the natural grade of the surface of the ground. Tanks shall be placed on firm soil and shall be surrounded by clean sand or well tamped earth, free from ashes or other corrosive substance, and free from stones larger than will pass through a one-inch (1″) mesh. When necessary to prevent floating, tanks shall be securely anchored.

6.3.2 No tank shall be buried so as to be nearer than 3 feet to any foundation wall.

6.3.3 All buried storage tanks larger than two hundred and seventy-five (275) gallons, prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material. All tanks shall be electrically grounded.

6.3.4 All buried storage tanks shall be constructed of metal not less than ¼″ in thickness.

6.4 Outside of Buildings, Above Ground.

6.4.1 Storage tanks located outside of buildings above ground shall be not less than one and one-quarter (1¼) tank diameters and in no case less than ten feet (10′) from the line of adjoining property, the nearest building or adjacent tank. Such tanks shall be electrically grounded. The maximum capacity of individual tanks located outside of buildings above ground shall be fixed by the following schedule:

If distant 25 feet from line of adjoining property which may be built upon	16,000 gallons
If distant 30 feet.....	24,000 "
If distant 40 feet.....	36,000 "
If distant 50 feet.....	48,000 "
If distant 60 feet.....	60,000 "
If distant 75 feet.....	96,000 "
If distant 85 feet, or more	100,000 "

6.4.2 Each such storage tank shall be protected by an embankment or a dyke. Such protection shall have a capacity of not less than one and one-half (1½) times the capacity of the tank so surrounded and shall be at least four feet (4′) high but in no case higher than one-fourth (¼) the height of the tank when the height of the tank exceeds sixteen feet (16′). Embankments or dykes shall be made of earthwork with clay core; or of masonry, or of impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth; free from stones, vegetable matter, etc., and shall have a flat section at the top of not less than three feet (3′) and a slope of at least one and one-half (1½) to two (2) on all sides. Concrete or masonry dykes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded. Embankments or dykes shall be continuous and unpierced. C-19-50.0 of the Administrative Code.

6.4.3 All above ground storage tanks larger than two hundred and seventy-five (275) gallons, prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material. All tanks shall be electrically grounded.

6.5 Tanks Located Along Line of Subways.

6.5.1 Along the line of subways no tank shall be placed within twenty feet (20′) of any wall, separating a building from the subway, and, where practicable, tanks shall be placed in a lower position than the roadbed of the subway, except as may be modified in specific instances by the Board of Standards and Appeals.

Rule 7. Piping.

7.1 Installation of Piping and Tubing.

7.1.1 Piping and tubing shall be run in a substantial and workmanlike manner. Exposed piping shall be protected against mechanical injury and shall be securely supported with rigid metal fasteners or hangers. All pipes connected to buried tanks except test well piping shall be provided with double swing joints at tank.

7.1.2 Only new standard full-weight iron, steel or brass pipe, or new extra-heavy copper brass or aluminium alloy tubing, properly marked and duly approved, may be used. Drawn metal tubing when used for conveying oil, shall be adequately protected. Such tubing unless protected against mechanical injury shall be used only in the same room in which the burner is installed. Drawn tubing when used in domestic installations shall be not less than three-eighths inch (⅜″) inside diameter up to shut-off valve at burner. Soldered connections are prohibited.

7.1.3 Overflow pipes where installed shall not be smaller in size than the supply pipe.

7.2 Relief Valves.

7.2.1 Where a shut-off valve is installed in the discharge line from an oil pump a relief valve shall be installed in the discharge line between the pump and the first shut-off valve.

7.2.2 Oil preheaters shall be of approved type and provided with a relief valve to prevent excessive oil pressure. Oil preheaters shall not be installed in the steam or water space of the boiler.

7.2.3 Relief valves shall be set to discharge at not more than one and one-half (1½) times the maximum working pressure of the system. The discharge from relief valves shall be returned to storage tank or to the supply line. There shall be no shut-off valve in the line of relief.

7.3 Vent Pipe.

7.3.1 An open vent of iron or steel, without trap, and draining to the tank, shall be provided for each storage tank. The lower end of the vent pipe shall not extend through the top of the storage tank more than one inch (1″). Cross connection between vent pipe and fill pipe is prohibited.

7.3.2 Where a battery of storage tanks, designed to hold the same grade of oil, is installed, vent pipes may be run into a main header.

7.3.2.1 The area of the header and common vent shall be equal to the sum of the areas of the vent pipe.

7.3.3 Vents shall be not less than one and one-quarter inches (1¼″) in diameter for storage tanks up to 1,100 gallons' capacity and not less than two inches (2″) in diameter for storage tanks of 1,100 gallons and more. Vents for auxiliary storage tanks shall not be less than ½ inch in diameter and may be run into the storage tank vent.

7.3.4 Vent pipes shall be provided with weatherproof hoods and shall terminate outside the building not less than two feet (2′) from any building opening and not less than two feet (2′) nor more than twelve feet (12′) above the fill pipe terminal, except as may be otherwise approved by the Board. When such openings are fixed and constructed of incombustible materials they shall not be deemed openings within the intent of this rule. If the vent pipe terminal is not visible from the fill pipe terminal location, a one-inch (1″) line shall be connected to tank and shall parallel the fill pipe and terminate at the fill pipe terminal with unthreaded end. Such tell tale lines shall be provided with a check valve set to prevent flow of surface water to storage tank.

7.4 Fill Pipes.

7.4.1 Fill pipe shall terminate outside the buildings with the fill pipe terminal located at or above grade at least two feet (2′) of any building opening or subway grating at or below the level of the fill pipe terminal. No fill pipe shall be less than 2 inches in diameter.

7.4.2 Each storage tank shall be provided with a separate fill pipe except where a battery of tanks is installed, containing the same grade of oil, a common fill and header pipe may be installed provided the area of common header pipe is no smaller than the largest branch fill pipe. When different grades of oil are piped to separate tanks from a common fill line, each branch fill pipe shall be provided with a shut-off valve.

7.4.3 Where the top of the storage tanks is above the fill pipe terminal the fill pipe shall be connected to the top of the tank and be provided with a shut-off valve and a swing check valve which shall be located at the fill pipe terminal.

7.4.4 All fill pipe terminals shall be of approved type constructed of a suitable material, provided with lugs for imbedding in concrete or in lieu thereof a set screw to fasten terminal to fill pipe. The outer flange of the fill pipe terminal shall be provided with letter reading "Fuel Oil" and the calendar number under which the fill pipe terminal has been approved. The fill pipe terminal shall be separately threaded to receive the seal cap and the fill pipe. The seal cap shall be suitably threaded and slotted for a special opening wrench. An oilproof gasket inserted in a groove in the fill pipe terminal shall be provided so as to render the fill pipe terminal leakproof. A strainer is not required but if used must be of not less than ⅛ inch mesh. Where there is a storage system of volatile inflammable oil and a storage system for fuel oil to be used in the same premises, the terminal of fuel oil fill pipe shall be provided with a left-handed thread, and the fill pipe fitting shall be of a different size than that required for the fill pipes to gasoline tanks.

7.5 Heating Coils in Storage Tanks.

7.5.1 All heating to reduce viscosity of oils in storage tanks shall be only by means of hot water or low pressure ten (10) pounds per square inch maximum steam coils or electric heaters approved for oil storage tanks.

7.6 Scavenging Line.

7.6.1 When a scavenging line is installed it shall terminate outside of the building and shall be capped oil tight when not in use.

Rule 8. Valves and Control of Oil Flow.

8.1 Each supply line from storage tanks of two hundred and seventy-five (275) gallons' capacity and from auxiliary storage tanks shall be provided with a shut-off valve at the tank and at the burner and when connected to burners designed for gravity feed, shall be provided with an approved constant level device.

8.2 Each supply line for storage tanks of more than two hundred and seventy-five (275) gallons' capacity, shall be provided with a shut-off valve at the burner and where the top of the tank is above the oil inlet connection to the burner and/or transfer pump, shall be provided with an approved anti-syphon device located at the highest point in supply line, except that where heavy oil (No. 6 Commercial Standard Grade) having a viscosity of one hundred (100) seconds or more Saybolt Furol at one hundred and twenty-two degrees Fahrenheit (122° F.) is used, the anti-syphon device shall not be required.

8.3 Except as may be modified in specific instances by the Board of Standards and Appeals, oil from storage tanks of two hundred and seventy-five (275) gallons' capacity or more may be delivered to burners installed above the lowest floor of a business building only under the following provisions:

8.3.1 Plans for such installations shall be submitted for approval to the administrative official having jurisdiction before such installation is made.

8.3.2 Such burners shall not be installed in any story of any building the floor of which is more than fifty feet (50′) above the street level. Only one oil delivery line shall be installed for each floor.

8.3.3 Oil delivery lines to burners located above the lowest floor of a building shall not be larger than two inches (2″) iron pipe size.

8.3.4 The pressure in oil lines to burners located above the lowest floor of a building shall not be more than is necessary to deliver oil to the burners and such pressure shall not in any case exceed thirty (30) pounds per square inch. With each automatic burner there shall be installed and maintained in good working order a set of suitable safety controls of the electric or mechanical type. The proper control for each burner is to be listed in the resolution under which the burner is approved. The controls are to provide the following functions:

Temperature control
Ignition "
Stack or
Combustion "
Pressure "
Gravity "

8.4 A remote control shall be provided whereby the flow of oil to any burner can be stopped, and such remote control shall be located outside the entrance to the room in which the burner is located and as close to such entrance as practical, except when outside location is impracticable such control may be located immediately inside the room in which the burner is located if such location is accessible at all times. All such controls shall be legibly labeled "Remote Control for Oil Burner." On auxiliary storage tanks used with manually operated burners such remote control may be installed on feed lines between tank and burner.

8.5 Except as provided by Rule 4.2 of these rules for approved combination burner and storage container devices, pressure in storage tank or container for the purpose of discharging oil is prohibited.

8.6 In systems where either steam or air is used for atomizing the oil, the oil and the atomizing supply shall be interlocked, so that in case of the inter-

ruption of the atomizing supply, the supply of oil will immediately be cut off. Except that this requirement shall not apply to air and oil supply units directly connected to a common driver.

Rule 9. Oil Level Indicating Devices and Test Wells.

9.1 All tanks located inside of buildings shall be provided with an oil level indicating device. Test wells shall not be permitted in tanks located inside of buildings. Unused tank openings shall be permanently sealed to prevent removal of plugs or cover.

9.2 Oil level indicating devices shall be constructed of substantial materials so designed that there can be no leakage of oil or oil vapor.

9.3 Test well shall be capped oil tight and kept closed when not in use.

Rule 10. Permits, Plant, Inspection and Tests of Storage Tanks and Piping.

10.1 Permits.

10.1.1 No oil installation of more than six (6) gallons' capacity shall be operated until after a permit has been issued by the Fire Commissioner.

10.1.2 Applications for permit shall be made by the installer who holds a certificate or license issued by the Fire Commissioner on forms furnished by the Fire Commissioner and shall provide for the location of the building in which the installation is to be made, name and address of owner and/or occupant, name and address of installer, make and approval number of burners, pumps and other devices, capacity number and location of storage tanks, together with approval of such proposed installation by the Borough Superintendent of Buildings when required under Rule 10.2.

10.1.3 No permit shall be issued by the Fire Commissioner until the installation has been inspected by his representative and the installer has furnished an affidavit that the CO_2 content of the flue gas by actual test of the completed installation is not less than 8 per cent without smoking.

10.2 Plans to be Filed Where Structural Considerations Are Involved.

10.2.1 The installer shall file with the Borough Superintendent of Buildings plans showing the size and location of all storage tanks having a capacity greater than 275 gallons where such tanks are to be installed either inside of buildings in or below the lowest floor level or outside of buildings below ground. Plans, however, shall be filed where 275 gallon tanks are to be buried and for all multiple dwellings and for all places of public assembly. All plans, as in this section required, shall be certified to the Fire Commissioner by the Borough Superintendent of Buildings before any work is started. All such plans shall show compliance with all structural requirements and shall show all salient features of the installation. Plans shall also be approved by the Board of Transportation for all tanks located in or outside of buildings along the line of subways under the limitation in Rule 6.5.1.

10.3 Inspection and Tests of Installations of Storage Tanks and Piping.

10.3.1 Storage tanks of approved type and not exceeding two hundred and seventy-five (275) gallons' capacity and all piping for oil connected thereto shall show no leakage when tank and all piping for oil is completely filled with oil when subjected to a test of 10 pounds per square inch for a period of ten (10) minutes in installations in multiple dwellings, places of public assembly and amusement, except that no tests shall be required for installations in occupancies not specifically mentioned herein.

10.3.2 Storage tanks of more than two hundred and seventy-five (275) gallons' capacity and all piping for oil connected thereto shall show no change in shape, rupture or leakage when subjected to a hydrostatic test with water or oil as follows:

10.3.2.1 Oval, obround, rectangular and specially shaped storage tanks and piping connected thereto, twenty-five (25) pounds per square inch.

10.3.2.2 Cylindrical storage tanks and piping connected thereto, fifty (50) pounds per square inch.

Pressure shall be applied for a period of thirty minutes. When oil is used there shall be no fire or flame in the room or rooms in which the test is being conducted. All tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all necessary equipment for conducting tests. Such test may be made with oil in freezing weather for tanks located outside of building.

10.3.3 Defective tanks, if repaired by welding. shall have all oil removed and shall be purged of all explosive gases or vapors.

10.3.4 The anti-syphon devices, where used as provided for in these rules, shall be approved devices.

10.3.5 All piping conveying oil from a transfer pump to a burner subjected to a pressure in excess of 50 lbs. per sq. inch shall be tested for a pressure of 1½ times the working pressure.

10.4 Fee for Permit and Test of Storage Tanks and Piping.

10.4.1 When application for permit is made, as provided for in Rule 10.1, a fee covering the permit shall be paid in accordance with the schedule given in the Administrative Code.

Rule 11. Inspection of Installations With Not More Than Six (6) Gallons' Storage Capacity.

11.1 All installations of burners with not more than six (6) gallons' storage capacity except where such installations are made in dwellings shall be

reported by installer to the Fire Commissioner giving location of building in which installation is made, name and address of owner and/or occupant, name and address of installer and the make and approval number of burner. Such reported installations shall be inspected as required by the Administrative Code.

Rule 12. Ventilation.

12.1 No burner shall be installed in any boiler, heater, range or stove unless each boiler, heater, range or stove be connected with a separate flue in a legal chimney, complying with Article 11 of the Administrative Building Code except that in high pressure mercantile and industrial plants several units may be connected to a boiler room stack.

12.2 Adequate ventilation, at least equivalent to area of the smoke pipe at the point where it enters the flue, shall be provided in all rooms in which burners are installed.

12.3 Dampers shall be so constructed that they cannot completely cut off the passage of flue gases at any time, and on all installations in one and two family dwellings an approved automatic draft control of the same size as the cross-sectional area of the pipe or breaching shall be installed in the breaching or flue pipes.

Rule 13. Automatic Pumps.

13.1 Automatic pumps, when not an integral part of the burner shall be of approved type, provided with automatic means for preventing continuous discharge of oil in case of pipe breakage.

Rule 14. Fire Protection

NOTE: In order that the intent of Local Law No. 145 be carried out, Section C26-693.0, sub. d, par. 1, 2, 3, is superseded by the following:

14.1 The clear distance between smoke pipe connections, of any boilers, furnaces or other heating apparatus to flues, and combustible material shall not be less than eighteen (18) inches, except that this clearance may be reduced to nine (9) inches where a baffle consisting of not less than No. 29 gauge sheet metal backed by ¼ inch thick asbestos is placed two (2) inches above and extending along the entire length of the smoke pipe connections and twice the width thereof and such baffle is securely fastened from the ceiling with substantial hangers. In lieu of such baffle the combustible material may be covered with fire-retarding material as defined in these rules.

14.2 The clear distance between any non-insulated heat-producing parts of boilers, furances or other heating apparatus and combustible material shall not be less than twenty-four inches (24″). Where such parts are insulated by two inches (2″) of asbestos, or equivalent, the clear distance shall be not less than twelve inches (12″), or, in lieu of such insulation the combustible material shall be covered with fire retarding material as defined in these rules extending 8 ft. in front and 4 ft. side and rear of the apparatus.

14.3 No movable combustible material shall be stored or maintained within five feet (5′) of heating apparatus, except where same is protected by fire retarding material.

14.4 Burners and all accessories, including tanks and piping, shall be maintained oil tight and kept clean at all times.

14.5 The floor beneath boiler or furnace and within five (5) feet in all directions shall be of fireproof construction.

14.6 Oil burning devices designed for installation with storage of not more than six (6) gallons shall be firmly anchored to the floor, set level, and the floor beneath the stoves or any such heating devices protected by a shield of ½″ asbestos or equivalent extending at least twelve inches (12″) beyond the projected area of such device where required within the specific approval of each burner. Approved safety cans only shall be used for the storage and filling of oil containers. The fuel oil used for these burners shall be range oil or No. 1 or No. 2 fuel oil. The manufacturer or installer of these burners shall within 48 hours after each installation notify the Fire Department in writing of the name of the person to whom this burner is sold and the address of the premises where installed.

14.7 Near each boiler or furnace of a fuel oil-burning unit there shall be kept ready for use fire extinguishing equipment of not less than two quart capacity approved as suitable for oil fires or not less than two pails of sand, the pails to have rounded bottom.

Rule 15. Instruction Cards and Certificate of Fitness.

15.1 Cards, giving complete instructions for the care and operation of the system shall be permanently fixed near the apparatus in readable condition. Where burners or oil-burning heaters designed for use with storage of not more than six (6) gallons' capacity are installed, there shall also be posted a copy of the specifications under which it was approved by the Board of Standards and Appeals in addition to the instruction card herein provided for.

15.2 Every heating system in which the oil is preheated or systems not fully automatic when operating, shall be under the direct supervision of a person holding a certificate of fitness issued by the Fire Commissioner and who shall be in the building at all times while the burners are in operation, except, that a person holding a certificate of fitness as a licensed engineer or as a licensed fireman issued after May 1, 1941 under the provisions of C-26-213.0 of the Administrative Building Code, or a person with such license issued prior to May 1, 1941 carrying an endorsement reading "Oil Burners" shall not be required to obtain such certificate.

Rule 16. Modification.

16.1 When, for any reason, it may be impracticable to comply strictly with the foregoing rules, the administrative official having jurisdiction shall have power to accept substitute methods provided the spirit and substance of these rules shall be complied with.

Rule 17. Existing Installations.

17.1 Oil burner systems heretofore installed and duly approved as complying with all laws and rules then applicable thereto shall be deemed acceptable, provided there have been no subsequent alterations to the apparatus, except as to Rule 15.2.

OF THE

BOARD OF STANDARDS AND APPEALS

CITY OF NEW YORK

Issued under authority of Chapter 27, Section 665 of the Charter of the City of New York.

Published weekly by the Board of Standards and Appeals at its office, Rooms 1000 to 1018, Municipal Building, New York City.

Vol. XXX | Subscription $2.50 a year | December 11, 1945 | Single Copies, 5 cents By Mail, 8 cents | No. 50

DIRECTORY

BOARD OF STANDARDS AND APPEALS

HARRIS H. MURDOCK, Chairman

BERNARD A. SAVAGE

CHARLES M. BLUM

CHIEF JOHN E. GUNN

JOSEPH J. DOYLE, *Chief Clerk*

OFFICE—Municipal Building, Rooms 1000 to 1018.

TELEPHONE—WOrth 2-5600.

OFFICE HOURS FOR PUBLIC—9 a. m. to 4 p. m.
Saturdays 9 a. m. to 12 noon.

Address all communications to the Chairman

CONTENTS

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting of Tuesday Morning, December 4, 1945, Affecting Calendar Numbers 345-36-BZ, 352-45-BZ, 588-45-BZ, 618-45-BZ, 685-45-BZ, 708-45-BZ, 609-45-BZ, 691-45-A, 631-45-A, 536-45-SM and 615-45-SM.

Minutes of Regular Meeting of Tuesday Afternoon, December 4, 1945, Affecting Calendar Numbers 307-45-A, 564-45-A, 565-45-A, 594-45-A, 694-45-A, 715-45-A, 717-45-A, 40-44-A, 447-45-A, 444-45-A, 623-45-A, 163-45-A, 699-45-A, 440-38-BZ, 28-40-BZ, 630-44-BZ, 73-38-BZ, 1175-39-BZ, 292-38-SA, 427-38-SA and 89-40-SM.

Notice of a Public Hearing on proposed amendments to rules governing installation of interior fire alarm signal systems.

Rules—Extracts From the Administrative Code of the City of New York, Relating to Refrigerating Systems.

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to Deeember 4, 1945.

Cal. No. Dept. Premises Affected

735-45-BZ—H.B.Bx.—1355 Virginia avenue and 1891 McGraw avenue, northwest corner (Block 3936, Lots 32, 35 and 38), Borough of The Bronx, N.B. 136-45.

736-45-BZ—H.B.M.—3740 Broadway, northeast corner of West 155th street (Block 2114, Lot 1), Borough of Manhattan, N.B. 241-45.

737-45-A—F.D.—1835 West Farms road, west side, 145.78 ft. south of East 176th street and 1830 Boone avenue (basement); (Block 3015, Lots 76, 78 and 80), Borough of The Bronx, Decision re 42449-C.

738-45-BZ—H.B.R.—2865 Richmond avenue and 10 Yukon avenue, southeast corner (Block 2460, Lot 100), New Springville, Borough of Richmond, N.B. 219-45.

739-45-BZ—H.B.M.—407 West 38th street, north side, 100 ft. west of 9th avenue (Block 736, Lot 29), Borough of Manhattan, Amendment to Alt. 1467-45.

345-36-BZ

APPLICANT—Ira B. Livingston, for John Seinfeld, owner.

SUBJECT—Application reopened July 3, 1945—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the alteration and conversion of occupancy of basement of existing multiple dwelling to stores.

PREMISES AFFECTED—2095 Grand Concourse, west side, 93.63 ft. north of East 180th street (Block 3161, Lot 26), Borough of The Bronx.

APPEARANCES—

For Applicant: Maxwell Wyckoff, S. Alderman, John Seinfeld.

For Opposition: None.

For Administration: Edwin A. Cox and Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 3, 1946 at 10 A.M. for decision by the Board without further argument.

352-45-BZ

APPLICANT—Lama and Proskauer, for Nathan Ossip, owner.

MINUTES

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the reconstruction of gasoline service station with a new building, to install two additional 550 gallon gasoline storage tanks and to rearrange pumps.

PREMISES AFFECTED—81-22 Rockaway boulevard, 94-38 82nd street, southwest corner and 81-09 to 81-17 95th avenue (Block 9010, Lot 26), Woodhaven, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 3, 1946 at 10 A.M. for inspection by a committee of the Board and further consideration.

588-45-BZ

APPLICANT—Norman Lederer, for Far Rockaway Lumber Co., owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7a and 7c of the zoning resolution, to permit in a business use district, the erection of a shed to store lumber.

PREMISES AFFECTED—21-06 New Haven avenue, north side, 250 ft. west of Beach 20th street (Block 215, Lot 4), Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: Norman Lederer.

For Opposition: Catherine Simon, Abraham Gralla, Fay Smokler, J. Alpert and Les Boerle.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 3, 1946 at 10 A.M. for inspection by a committee of the Board and decision without further argument.

618-45-BZ

APPLICANT—Albert J. Appell, for Charlotte H. Appell, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 7e of the zoning resolution, to permit in a residence use district, the change of occupancy from club, bowling alleys, banquet hall and dwelling to retail stores, offices and dwelling.

PREMISES AFFECTED—448 West 51st street, south side, 243 ft. 9 in. east of 10th avenue (Block 1060, Lot 154), Borough of Manhattan.

APPEARANCES—

For Applicant: Albert J. Appell.

For Opposition: Rev. Hugh Gilmartin and Edward Victory.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 3, 1946 at 10 A.M. for inspection by a committee of the Board and decision.

685-45-BZ

APPLICANT—Paul Friedman, for Chesthill Realty Corp., owner (Waltgoodcook Corp. and Avenue J Florist, lessees).

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a partly residence and partly retail use district, the extension for restaurant purposes of a one story building.

PREMISES AFFECTED—1520-1524 Avenue J and 1002-1016 east 16th street, southwest corner (Block 6717, Lots 9 and 18), Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: D. Weynberg.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to December 11, 1945 at 10 A.M. at request of objector's attorney.

708-45-BZ

APPLICANT—Paul Friedman, for Sears, Roebuck & Co., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a business use district, the parking of more than five motor vehicles for patrons and employees during store hours.

PREMISES AFFECTED—2359-2381 Bedford avenue, east side, 158 ft. 3½ in. south of Tilden avenue (Block 5135, Lot 53), Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman and Olin J. Moore.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (708-45-BZ)

WHEREAS, Paul Friedman, for Sears, Roebuck and Company, owner, filed November 15, 1945, an application under section 7h of the zoning resolution, to permit in a business use district, the parking of more than five motor vehicles for patrons and employees during store hours; affecting premises: 2359-2381 Bedford avenue, east side, 158 ft. 3½ in. south of Tilden avenue (Block 5135, Lot 53), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 4, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Bedford avenue is in a residence, business and unrestricted use, C area and Class 1¼ height district and Tilden avenue is in a business and unrestricted use, C area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated November 13, 1945, re B.N. applic. 1417-45, reads:

"1. Proposed occupancy of free parking for more than five motor vehicles for patrons and employees of Sears, Roebuck and Co. during store hours only, is contrary to Art. II, Sec. 4a, subd. 15 of the Zoning Resolution, as plot is located in a business use district."

and

WHEREAS, the applicant states the premises consist of a plot 264.29 ft. frontage by 163.34 ft. in depth, irregular, on which it is proposed to construct a parking lot for more than five motor vehicles; that it is proposed to level the plot to grade and cement, pave or surface the same with appropriate material, properly rolled and bound, and to extend the existing curb cuts; and

WHEREAS, the applicant contends that the premises consist of vacant plot on the easterly side of Bedford avenue, 158.41 ft. south of Tilden avenue, with a frontage of 264.29 ft. on Bedford avenue, a northerly lot line 163.34 ft. long (parallel with Tilden avenue), a rear lot line 250.70 ft. long and a southerly lot line 67.66 ft. long (parallel with Tilden avenue), having an area of approximately 29,000 square feet; that at the building line is constructed a woven wire fence 6 feet in height with two woven wire gates, having a 20 foot wide opening, approximately 80 feet south of the northerly lot line; that opposite said opening is an existing drop curb 13 ft. in width, constructed under Curb Cut Permit A-24412, issued October 20, 1934; that there is a 7 ft.

curb cut south of the legal curb cut, for which there is no permit; that part of the premises formerly used for day parking from 8 A.M. to 1 A.M. for more than five cars under Letter Permit #333-1934, which permit was revoked by the Commissioner of Buildings February 26, 1936; that an appeal to review said revocation was denied July 10, 1936, under Cal. 76-36-A, without prejudice to the right of the owner to file a zoning application; that under section 7h an application was filed for permission to park and store more than five motor vehicles and was dismissed for lack of prosecution—(Cal. 96-37-BZ); that the owner proposes to use the plot for the free parking of more than five motor vehicles for patrons and employees of the subject owner, whose department store is located at the northwest corner of Bedford avenue and Beverly road, and such parking is to be during store hours only; that it is proposed to level the plot to grade and either cement, pave or surface with steam cinders, clean gravel or other suitable material, properly rolled and ground; to construct an extension to the existing curb cut, so that it will be 30 feet wide; to install suitable illumination, so arranged as to reflect away from adjoining occupancies; to maintain adequate aisle space for easy entrance and egress; to install such fire-fighting appliances as the Fire Commissioner may deem necessary and to comply with such other conditions as the Board may see fit to impose; that the applicant further contends that there is a need for additional facilities for free parking, inasmuch as the existing facilities are inadequate to accommodate the patrons and employees of the Sears, Roebuck Co.; that to grant this application would be in the public interest, because it enables the overflow of patrons' automobiles to be stored on the lot instead of increasing the traffic congestion by parking on streets; that this proposed use is consistent with existing uses for automobile storage, service and gasoline service stations in the neighborhood; that special need for such facilities exists during the months of November and December, due to pre-Christmas shopping; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision h, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7h thereof, for a term of five (5) years from the date of this action, to permit the premises to be occupied as proposed, for free parking of motor vehicles of patrons and employees of Sears, Roebuck & Co., *on condition* that the plot shall be maintained as proposed; that the fencing as indicated on plans filed with this application marked "Received November 15, 1945", of the woven wire post type, shall be installed and maintained on all street and interior lot lines where walls of adjoining buildings do not occur; that proper and adequate bumpers shall be maintained approximately 3 ft. away from the lot line walls of buildings on adjoining lots, for the protection to the same; that the entrance to the plot may be as shown on plan filed with this application marked "Received November 15, 1945" or there may be two entrances each not over 25 ft. in width each located not nearer than 20 ft. to the interior side lot lines to the north and south; that the plot shall be leveled substantially to the grade of Bedford avenue and shall be surfaced with steam cinders, properly rolled and bound, with a wearing surface of asphalt, properly rolled and graded for drainage; that no signs shall be erected on the premises, except that there may be a sign on the fence, advertising the use as proposed, and if there are two entrances, a sign may be erected at each entrance; that such signs shall not exceed ten square feet each and may be illuminated, but shall not extend beyond the building line; that all permits shall be obtained and all work completed within six (6) months from the date of this resolution and that a certificate of occupancy shall be obtained.

APPEALS FROM ADMINISTRATIVE DECISIONS

609-45-A

APPLICANT—Norman Lederer, for Far Rockaway Lumber Co., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—21-06 New Haven avenue, north side, 250 ft. west of Beach 20th street (Block 215, Lot 4), Far Rockaway, Borough of Queens.

APPEARANCES—
For Applicant: Norman Lederer.
For Opposition: Catherine Simon, Abraham Gralla, Fay Smokler, J. Alpert and Les Boerle.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 3, 1946 at 10 A.M. for further consideration in connection with Cal. 588-45-BZ.

691-45-A

APPLICANT—Marx Realty & Improvement Co., Inc., for Unibra Realties, Inc., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—35-54 83rd street, west side, 100 ft. north of 37th avenue (Block 1456, Lot 29), Jackson Heights, Borough of Queens.

APPEARANCES—
For Applicant: E. Mindlin and J. Michal.
For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal withdrawn to comply.

THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

631-45-A

APPLICANT—M. Schulgasser, lessee, for Margaret Bruckner, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—439 West 50th street, north side, 300 ft. east of 10th avenue (street floor); (Block 1060, Lot 13), Borough of Manhattan.

APPEARANCES—
For Applicant: N. Wellens.
For Administration: E. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affrmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative: 0

THE RESOLUTION (631-45-A)

WHEREAS, M. Schulgasser, lessee, for Margaret Bruckner, owner, filed October 19, 1945, an appeal from an order of the fire commissioner, affecting premises 439 West 50th street, north side, 300 ft. east of 10th avenue (street floor); (Block 1060, Lot 13), Borough of Manhattan; and

WHEREAS, the order 42728-LC of the fire commissioner, dated September 20, 1945, reads:

"1. Remove from the premises all medicinal preparations, proprietary articles, drugs, chemicals, oils, volatile solvents, and other substances which alone or in combination with other substances or articles are of a highly combustible, inflammable or explosive nature and discontinue use of the premises as a wholesale drug store. Section C19-136.0.2 Administrative Code of the City of New York.

Reason: It is a violation of Section C-19-136.0.2 of the Administrative Code to conduct a wholesale drug store in a building occupied as a tenement house."

and

WHEREAS, the applicant states that the building is 4 stories (48 ft.) in height, 25 ft. by 40 ft. in area; of Class 3 construction; located in a residence use, B area and Class 1½ height district, and used and occupied as follows since 1933: Basement, storage of drugs and cosmetics; 1st floor, store and storage of drugs, 4 persons; 2nd floor, 2 apartments, 3 persons; 3rd floor, 2 apartments, 4 persons; 4th floor, 2 apartments, 3 persons; 3rd floor, 2 apartments, 4 persons; apartments, 5 persons; that no change in use or occupancy is proposed; that the building is equipped with one interior stairs, 3 ft. wide of wood construction, enclosed with plaster on lath, and equipped with wood self-closing doors, and leading from the roof bulkhead, to the street; that there is also one exterior fire escape in the rear, leading to the roof by a ladder and to the yard by a drop ladder; and

WHEREAS, plans filed with this appeal marked "Received November 15, 1945", indicate the following: that stair hall partitions, ceilings and soffits of stairs are fire retarded as per rules of the Division of Housing; and

WHEREAS, the applicant contends that at the time of the enactment of the law, it was the practice in wholesale drug houses, to manufacture or handle in bulk, drugs, chemicals, oils, volatile solvents and other substances of a highly combustible, inflammable or explosive nature; that while this applicant may be doing a wholesale drug business, according to the definition of the Code, the articles handled consist of tooth paste and powder, shaving creams, cough syrups and patent medicines, soap, hand lotions, hair tonics, patented medical powders, malted milk, razor blades, camera supplies and insecticides; that no highly explosive, inflammable or combustible materials are stored; that all of the items are of a proprietary nature and are packaged by the manufacturer and no articles are received in bulk or packaged on these premises; that the amount of insecticides handled does not total ¾ of 1% of the general merchandise located in the store; that a small amount of these materials has been carried in the fire retarded cellar; and

WHEREAS, the applicant states that the premises have been occupied by a jobber of drugs and sundry dry-goods for approximately twelve years and that the zone was changed from business to residence use in 1936.

Resolved, that the order of the fire commissioner, 42728-LC, item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the premises shall be maintained substantially as proposed and to the satisfaction of the fire commissioner and that all materials shall be packaged as proposed and none of a highly inflammable or combustible type shall be stored on the premises; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the portion of the building occupied as a multiple dwelling shall comply with all requirements therefor.

MATERIALS SUBMITTED FOR APPROVAL

536-45-SM

APPLICANT—Walworth Co., owner.

SUBJECT—Silbraz Joints, types Walseal, Flaggseal, Craneseal and Faircoseal, approval of.

APPEARANCES—

For Applicant: William R. Cab and W. Murphy.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (536-45-SM)

WHEREAS, Walworth Co., owner, filed on August 13, 1945, an application with the Board of Standards and Appeals for approval of the material known as Silbraz Joints, types Walseal, Flaggseal, Craneseal and Faircoseal; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Cal. 536-45-SM

Subject: Silbraz Joints—Walseal, Flaggseal, Craneseal and Faircoseal.

Approval of:

The Walworth Company, owner, filed an application with the Board of Standards and Appeals under the provisions of C26-178.0, C26-191.0, C26-1222.0 and C26-1254.0 Administration Building Code for approval of Silbraz Joints—Walseal, Flaggseal, Craneseal and Faircoseal.

DESCRIPTION

The Silbraz Joint, a sleeve type joint manufactured in sizes of ⅜" to 12" I.D., in which pipe is inserted in a bored socket in the outlet of the fitting, flange or valve. Each outlet has a ring of brazing or welding alloy pre-inserted. This joint is designed for the connection of bronze or copper pipe. The brazing alloy known as Sil-Fos contains 80% of copper, 15% of silver and 5% of phosphorus; the melting point is 1185° F. with the alloy flowing freely at 1300° F. In the process of making the joint, pipe and fittings are assembled in position and properly supported for alignment and pitch. Heat is applied with an oxyacetylene flame to the pipe near the edge of the fitting in order to expand the pipe tightly into the fitting. The torch flame is then directed on the bead of the fitting so that a 1½ to 2 inch circumferential length of the bead is heated by a wiping motion of the flame. The direction of wiping is from the fitting toward the pipe. The heated portion of the bead is expanded, or stretched outward, which causes a clearance gap to occur between the pipe and the fitting. It is into this gap that the Sil-Fos flows from the insert in the fitting, when the parts have reached the proper brazing temperature. At this time the heating operation is discontinued momentarily—a few seconds—to permit the bead to cool and contract, or "unstretch." The contraction of the bead forces the Sil-Fos in all directions within the clearance gap to the shoulder inside the Walseal Fitting and to the outside edge of the fitting. When the Sil-Fos comes out at the edge of the fitting it forms a silvery-white fillet which is readily seen by the mechanic making the joint.

In relation to whether this process constitutes welding as defined in C26-1254:

(1) Brazing processes form one of the three subdivisions of welding in the American Welding Society's master chart of welding processes, and the Society defines brazing as "a group of welding processes wherein the filler metal is a non-ferrous metal or alloy whose melt point is higher than 1000° F, but lower than that of the metals or alloys to be joined". It is to be noted that only the filler metal melts, not the parts joined. It is also to be noted that the soldering processes are excluded by the 1000° F minimum melting point of the filler metal, although the use of the word "soldering" to describe true brazing persists to some extent in the trades.

(2) There is no other welding process besides brazing established in the forming of joints in non-ferrous pipe; therefore the term "welding" in Administrative Code C26-1254 refers to brazing when applied to non-ferrous pipe joints.

TESTS

A test of this joint was made at Columbia University with following result:

Material:	"Walseal" Threadless Bronze Fittings and Joints				
Test No:	60029	60030	60031	60032	60033
Mark:	1	2	3	4*	4a
How Tested:	(Tension Test)		(Hydrostatic Test)		
Shape of Test Piece	2 pieces of 1″ brass pipe made into 1″ "Walseal" coupling using "Sil-Fos" brazing alloy to make the joints	Ditto, in 2″ size	1″ material consisting of 1 tee, 2 caps and reducer, 2 pieces of 6″ lengths and 1 piece of 24″ length made up in shape of tee and joints brazed with "Sil-Fos" alloy	Ditto, in 2″ sizes	
Max. Load, lbs.:	15200	27500	—	—	—
Water pressure, lbs. sq. in.:	—	—	4780	2660	2500
Failure:	In coupling castings, "Walseal" brazed joint intact		In tee casting, "Walseal" brazed joint intact	Not tested due to failure due to leak in hydraulic machine connection.	In cap casting. Retest of #4. Apparently the first test weakened the cap casting, and caused it to fail at slightly lower pressure

*Specimen carrying 800 lbs. sq. in. hydrostatic pressure suspended in mid-air and given 300 blows with 1″ fibre hammer. No indication that vibration had any effect on "Walseal" joints. Later tested to 2660 lb. sq. in. hydrostatically.

Further data of tests made by the U. S. Naval Experimental Station at Annapolis on the applicant's fitting including pressure, torsion, impact and tension tests of assembled units gave results as follows:

> The shearing strength for sleeve joints between copper and composition "G" bronze with .003 to .004 clearance ranges from approximately 10000 lb. per sq. in. at normal temperature to 3700 lb. per sq. in. at 900 deg. Fahr."
>
> Results of tension tests for the regular heavy pattern "Walseal" fittings have shown load values to failure of 82 per cent of the tensile strength of the annealed copper tubing for the ¾ inch size and 55 per cent of the strength of the tubing for the 1 inch size. For the modified type fittings corresponding percentages of 95 and 90 per cent were obtained for the ¾ and 1 inch size fittings, respectively. Accordingly, the increased depth of socket for the modified fittings has resulted in tensile load values of 90 to 95 per cent of the strength of the annealed, Class D, copper tubing."

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests recommends the approval of the Silbraz Joints known as Walseal, Flaggseal, Craneseal and Faircoseal under C26-191.0a for use in New York City for brass and copper piping conforming to C26-1234.0 and C26-1235.0 or any other brass or copper piping I.P. size O.D. as approved by the Board under the provision of C26-1222.0 when installed as described herein, C26-1240.0 as a new plumbing material when used for welding plumbing joints and connections as provided in C26-1254.0 provided that each package of Silbraz fittings shall have a label reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. 536-45-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner

CHARLES M. BLUM,
Commissioner

LESLIE V. HUBER,
Chief Engineer
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Silbraz Joints, types Walseal, Flaggseal, Craneseal and Faircoseal, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

615-45-SM

APPLICANT—Port Marine Contracting Co., owner.

SUBJECT—Port Obround 275 Gallon Fuel Oil Tank, approval of.

APPEARANCES—
For Applicant: G. B. Gibbons.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (615-45-SM)

WHEREAS, Port Marine Contracting Co., owner, filed on October 16, 1945, an application with the Board of Standards and Appeals for approval of the material known as Port Obround 275 Gallon Fuel Oil Tank; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

November 16, 1945.

Re: Cal. 615-45-SM

Subject: Port Obround 275 Gallon Fuel Oil Tank, approval of.

The Port Marine Contracting Company of Brooklyn, N. Y. filed an application with the Board of Standards and Appeals under the provisions of the Oil Burner Rules of the Board and Section 666, subdiv. 1 of the Charter of the City of New York, for approval of the Port Obround 275 Gallon Fuel Oil Tank.

DESCRIPTION

The obround tanks are constructed of No. 10 U. S. gauge commercial grade hot rolled sheet steel with seams welded. The heads are dished with adequate extension rim, constructed of 10 gauge steel with welds offset 1¼ inches. There are four 2 in. openings in the top of the tank and one ¾ in. outlet at bottom of head. The tanks are 66 in. over all by 42 in. by 26 in. The tanks are provided with standard pressed steel pipe support lugs. Total weight without lugs is 400 lbs.

MINUTES

TESTS

A sample tank was subjected to a pressure test at the yard of the Department of Water Supply, Gas and Electricity in the presence of the Committee on Tests and successfully met the requirements of Rule 10.3.1 of the Oil Burner Ruies. Details of construction, workmanship and protection of steel were found to comply with the Rules of the Board.

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests recommends that the Port Obround 275 Gallon Fuel Oil Tank be approved for use in fuel oil installations in New York City when constructed in accordance with the details of this report and drawings filed with this application, but nothing herein shall be deemed to waive any requirement of the Oil Burner Rules of the Board. It is further recomended that all welding conform to the Fusion Welding and Gas Cutting Rules of the Board and that the permanent affixed plate required by Rule 5.3.2 of the Oil Burner Rules in addition to the wording thereon shall have the following wording: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 615-45-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner.

CHARLES M. BLUM,
Commissioner.

LESLIE V. HUBER,
Chief Engineer.
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Port Obround 275 Gallon Fuel Oil Tank, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 12:05 P.M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, DECEMBER 4, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy.

APPEALS FROM ADMINISTRATIVE DECISIONS

307-45-A

APPLICANT—Maxwell Schantz, for Kings County Trust Company, as trustee, for Estate of George A. Powers owner (Hudson Bay Fur Company, lessee).

SUBJECT—Application reopened and restored to calendar October 16, 1945—re Appeal from a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—557 Fulton street, north side, 103 ft. east of Bond street and 12 DeKalb avenue (Block 2093, Lot 30), Borough of Brooklyn.

APPEARANCES—

For Applicant: Maxwell Schantz and Henry Cash.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (307-45-A)

WHEREAS, Maxwell Schantz, for Kings County Trust Company as trustee, for Estate of George A. Powers, owner (Hudson Bay Fur Company, lessee), filed May 19, 1945, an appeal from a decision of the borough superintendent, affecting premises 557 Fulton street, north side, 103 ft. east of Bond street and 12 De Kalb avenue (Block 2093, Lot 30), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated April 19, 1945, on B. N. Applic. 14277-36, reads:

"9. Required stairs from 2nd and 3rd floors to be provided with enclosure having a one hour fire rating (Section 6.4.1.8.1).

"10. Required stairs to comply with Section 6.4.1.11, as to extension to the roof and to the street, in one hour enclosure.

"11. Provide stairs from cellar floor directly to the street. Enclosure for same to be of incombustible material in the cellar and one hour fire retarded partitions on the 1st floor (Section 6.1.2.2.3).

"12. Provide legal ventilation for 1st and 2nd floor areas."

and

WHEREAS, the applicant states the building is 3 stories, and cellar (35 ft.) in height; 20 ft. 6 in. front on Fulton street, 19 ft. 5 in. front on DeKalb avenue with an average depth of 98 ft. 1½ in.; of Class 3 construction; erected approximately 60 years ago; located in a business use, D area, and Class 1 height district and used and occupied since 1936 as follows: cellar, boiler room, stock and storage; 1st floor, retail sales, 10 persons; 2nd floor, factory (furrier) stock and waiting room, 3 persons; 3rd floor, clothing racks not now being used, and proposed to be used and occupied as follows: cellar, same, 3 persons; 1st floor, retail sales, 50 persons; 2nd floor, same, 25 persons, 3rd floor, stock and storage, 5 persons; that the building is equipped with one interior stairs, 3 ft. and 3 ft. 10 in. in width of wood construction, unenclosed, leading from the interior of the building to the 3rd story; that a ladder and scuttle to the roof is provided; that the building is equipped with one fire escape to the DeKalb avenue front, a party wall type connecting to 10 DeKalb avenue and leading to the street by a drop ladder; that windows and doors on the course of the fire escape are not fireproof, self-closing; and

WHEREAS, the applicant contends that this appeal is from the decision on amendment filed in April, 1945, to complete the alteration work on a permit granted in 1936; that although the existing use of the cellar, 1st and 2nd floors, was originally granted, it is now necessary due to business requirements, to use the 3rd floor; that the existing occupancy was granted for cellar 1st and 2nd floors for a slightly different number of persons; that the occupancy of the cellar, 1st and 2nd floors is existing; that although Violation 358 was issued against the 3rd floor occupancy, no practical use was made of said 3rd floor, as only pole racks were placed there; that it is proposed to make exits comply with the Labor Law; that approval is requested for the number of persons stated, but due to seasonal fluctuations, the number of persons employed at factory work will vary with a maximum equal to that stated in this appeal; that for the major portion of the year there will be no more than 5 persons; and

WHEREAS, on July 17, 1945, this appeal was withdrawn by the applicant, to permit him to file the same plans with the Board as were filed with the borough superintendent; and

WHEREAS, the plans filed with the Board have now been amended to agree with those filed with the borough superintendent; and

WHEREAS, this appeal was restored to the calendar by vote of the Board, on October 16, 1945; and

WHEREAS, the applicant further contends that the building is being used by one tenant exclusively; that the building is over 50 years old and designed and arranged for commercial and industrial uses; that the present exits comply with the Building Code under Permit B.N. Applic. 14277-36; that it is further proposed to erect new Labor Law fire escapes in lieu of the existing fire escapes and the erection of a new roof bulkhead as a secondary means of egress; that the existing 5 ft. 10 in. wide first floor interior stairs and the 5 ft. wide second floor interior stairs with new 5 ft. wide bulkhead stairs will conform with the Labor Law exit requirements; that Rule 6 of the Factory Exit Rules covers a building where less than 25 employees above the second floor are engaged in manufacturing; that in this case only three employees will be engaged above the 2nd floor, to store or remove merchandise; that there will be no permanent occupants on the 3rd floor; that relief is sought from the cellar exit objections, inasmuch as the interior cellar stairs are 3 ft. wide and enclosed with 4 in. terra cotta block partition with fireproof, self-closing door at the foot; that the stairs leading from the street to the cellar are enclosed in cement block partitions and are 3 ft. wide with fireproof, self-closing door at the foot; that the top of the stairs at the street are covered with wrought iron doors flush with the sidewalk; that there will be no permanent occupants in the cellar; that the proposed occupancy is for three persons, only long enough to store merchandise or remove same from storage; that relief is sought from objection 12, ventilation requirements, as far as it pertains to the first and second floors, as such ventilation conditions existed prior to 1938 and were deemed adequate under B. N. Applic. 14277-36; that the 1st floor is vented through 3 ft. by 5 ft. transoms over double exit doors on DeKalb avenue; that the 2nd floor is vented by three windows on the DeKalb avenue front at the workshop; that the partitions do not extend to the ceiling; that the part fronting on Fulton street is occupied for storage and equipped with an 18 in. electric fan; that the 3rd floor is vented by three windows on each of the DeKalb avenue and Fulton street sides; that this condition has been existing since the building was erected and occupied and can be deemed adequate; that electric exit signs are shown through the building within the structure.

Resolved, that the decision of the borough superintendent, acting on B.N. Applic. 14277-36, Objections 9, 10, 11 and 12, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the existing primary means of exit shall be continued by means of the bulkhead to the roof; that such bulkhead shall be of approved construction; that a new fire escape, complying with the requirements of the Labor Law for a new fire escape, shall be constructed on the DeKalb avenue side of the building; that the doors leading to such fire escape, as well as the windows along the course thereof, shall comply with the requirements; that there shall be installed throughout the building, a sprinkler system which may be one source, complying with the requirements of the Building Code therefor; that proper aisles shall be maintained through approved central station and with a siamese on each street; that unless adequate natural ventilation is furnished on the 1st and 2nd floors, mechanical ventilation shall be supplied, complying with the requirements of the Building Code therefor; that proper aisles shall be maintained through each floor as the Building Superintendent and Fire Commissioner shall direct; that in all other respects, the requirements of the borough superintendent, as given on B.N. Applic. 14277-36, other than as varied herein, shall be complied with, as well as all other requirements of all laws, rules and regulations applicable to the building and occupancy and the requirements of Violations 344-1945, 358-1945, exit Violation 9-1945; Violation 1196-1945, and any other violations of the Building Superintendent or Fire Commissioner shall be complied with.

564-45-A

APPLICANT—Max Wechsler, for Garment Center Capitol Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—216-234 West 38th street, 500 7th avenue, northwest corner and 201-219 West 37th street (basement and 1st floor); (Block 787, Lot 40), Borough of Manhattan.

APPEARANCES—
For Applicant: Max Wechsler.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

THE RESOLUTION (564-45-A)

WHEREAS, Max Wechsler, for Garment Center Capitol, Inc., owner, filed September 21, 1945, an appeal from a decision of the borough superintendent, affecting premises 216-234 West 38th street, 500 7th avenue, northwest corner and 201-219 West 37th street (basement and 1st floor); (Block 787, Lot 40), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 1346-45, dated August 22, 1945, reads:

"1. Proposed removal of loading space is contrary to Section 19A, subdivision b, Zoning Resolution."

and

WHEREAS, the applicant states that the building is 17 stories (190 ft.) in height, 74 ft. 8 in. by 275 ft. in area, of Class 1 construction, located in a retail and unrestricted use, B area and Class 2 height district, erected in 1921, and used and occupied since erection: basement—storage and shipping—210 persons; 1st floor—stores—200 persons; 2nd to 9th floors—manufacturing of clothing—400 persons each floor; 10th to 17th floors—manufacturing of clothing—360 persons on each floor; that no change in use or occupancy is proposed; that the building is equipped with an approved two source sprinkler system, a standpipe system and an approved interior fire alarm system and that regular monthly fire drills are maintained; that there are three interior stairs, 3 ft. 8 in. in width, of steel construction, fireproof enclosed, extending to the roof bulkhead and leading directly to the street, equipped with fireproof, self-enclosing doors; that the building is equipped with two fire towers; that the adjoining building to the north on 7th avenue is 43 stories in height, to the west, 17 stories in height and to the east, 6 stories in height; and

WHEREAS, the applicant contends that at the time of the erection of this structure, loading platforms and spaces were not required and the intent of section 19A is for new buildings and existing buildings that are to be arranged, designed for the uses specified therein; that if the intent of the section is to require spaces for loading for all buildings which show manufacturing and storage in excess of 25,000 sq. ft. and erected prior to the passage of the section, then all buildings in the vicinity which have no loading spaces, would require the same; that the existing loading platform and ramps are used by motor trucks only 10 percent of the time and hand carts, used in the garment district for transporting merchandise, use the ramps 90 percent of the time and do not use the loading platforms at all; that the existing ramps leading to loading platforms are too steep for easy pushing of hand carts and cause much congestion leading to and from the freight elevators, resulting in inefficient delivery of merchandise; that by the elimination of the loading platform and the ramps leading to same, the hand carts will have practically a level passage to freight elevators, thereby removing all congestion; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 1346-45, objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

565-45-A

APPLICANT—Max Wechsler, for Garment Center Capitol, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—494-498 7th avenue, 200-214 West 37th street, southwest corner and 205-221 West 36th street (basement and 1st floor); (Block 786, Lot 51), Borough of Manhattan.

APPEARANCES—

For Applicant: Max Wechsler.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

THE RESOLUTION (565-45-A)

WHEREAS, Max Wechsler, for Garment Center Capitol, Inc., owner, filed September 21, 1945, an appeal from a decision of the borough superintendent, affecting premises 494-498 7th avenue, 200-214 West 37th street, southwest corner and 205-221 West 36th street (basement and 1st floor); (Block 786, Lot 51), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent acting on Alt. Applic. 1345-45, dated August 22, 1945, reads:

"1. Repeat. Proposed removal of loading space is contrary to Section 19A, Subdivision b, Zoning Resolution."

and

WHEREAS, the applicant states that the premises is 24 stories (260 ft.) in height; 98 ft. 9 in. by 225 ft. in area; of Class 1 construction; erected in 1921; located in an unrestricted use, B area and Class 2 height district and used and occupied as follows: basement, storage and shipping, 235 persons; 1st floor, stores, 200 persons; 2nd to 16th floor, clothing factory, 515 persons per floor; 17th to 22nd floors, clothing factory, 470 persons per floor; 23rd floor, club room and gymnasium, 375 persons; that no change in use or ocupancy is proposed; that the building is equipped with an approved two source sprinkler system, a standpipe system, and an interior fire alarm system; that fire drills are maintained; that there are three interior steel stairs, 3 ft. 8 in. wide, fireproof enclosed, equipped with fireproof, self-closing doors, extending to the roof bulkhead and leading to the street, and that there are two fire towers; and

WHEREAS, the applicant contends that at the time of erection of this structure in 1921, loading platform and loading spaces were not required; that the intent of Section 19A is for new buildings and existing buildings that are to be arranged, and designed for the uses specified; that if the intent of the section is to require spaces for loading for all buildings which show manufacturing and storage in excess of 25,000 sq. ft. and erected prior to the passage of the section, then practically all buildings in the vicinity which have no loading spaces, would require the same; that existing loading platform and ramps are used by motor trucks only 10% of the time; that hand carts pushed by a man, use the ramps 90% of the time and do not use the loading platforms at all; that the existing ramps leading to loading platforms are too steep for easy pushing of hand carts, therefore causing congestion leading to and from the freight elevators and result in inefficient delivery of merchandise; that by eliminating the loading platform and the ramps leading to same, the hand carts will have a practically level passage to freight elevators; it is therefore respectfully requested that the objection of the Department of Housing and Buildings be rescinded, to permit the removal of the loading platform; and

WHEREAS, the applicant further contends that the loading space does not conform to Section 19A, subdivisions a and b of the Zoning Resolution, as the total floor area of the building is 870,600 sq. ft. and has a loading area of 3260 sq. ft., which is equal to 13 loading spaces; that this building requires 8750 sq. ft. of loading spaces or 35 loading spaces; therefore, since the loading spaces do not conform, if it is permitted to eliminate as much loading space as is necessary, it will make the building as efficient as possible; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1345-45, objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

594-45-A

APPLICANT—Albert William Lewis, for Ernest St. John Mann, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—142-146 West 31st street, south side, 225 ft. east of 7th avenue (Block 806, Lots 66, 67 and 68), Borough of Manhattan.

APPEARANCES—

For Applicant: Albert William Lewis.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (594-45-A)

WHEREAS, Albert William Lewis, for Ernest St. John Mann, owner, filed October 1, 1945, an appeal from a decision of the borough superintendent, affecting premises 142-146 West 31st street, south side, 225 ft. east of 7th avenue (Block 806, Lots 66, 67 and 68), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, on N. B. Applic. 713-45, dated November 14, 1945, reads:

"2. The means of egress are inadequate, as per C26-273, Administrative Code."

and

WHEREAS, the applicant states that the proposed building will be 2 stories and penthouse (29 ft. 4 in.) in height, 60 ft. by 89 ft. in area, of Class 1 construction, on a lot 75 ft. by 98 ft. 9 in. in area, located in a restricted retail use, B area and Class 2 height district; that the proposed building will be used and occupied as a New York City fire house as follows: cellar—boiler room; 1st floor—apparatus room—20 persons; 2nd floor—dormitories—20 persons; that the building will be equipped with one 3 ft. 8 in. steel stairs with blue stone treads, enclosed in three hour partitions, equipped with ¾ hour self-closing, fireproof doors and leading from the roof bulkhead to the side yard, having egress to the street; and

WHEREAS, the applicant contends that the building will have 4,782 sq. ft. area and will be occupied by a hook and ladder company, a water tower company and searchlight machine company and headquarters for battalion chief, with a total complement of 60 men, of which not more than 40 men will be in the building at any one time, 20 men on duty on the first floor and 20 men in the dormitories on the second floor; that there will be one continuous legal stairway, six brass poles from the 2nd floor to the 1st floor, two from the penthouse to the second floor and one from the hose tower to the penthouse floor; that for disciplinary reasons, the Fire Department desires only one stairway, to permit control of the men from the patrol desk; that request

is made that consideration be given to the slight fire hazard in a building of this occupancy and the ample firemen's poles for use of all occupants; that there will be no members of the public occupying the building.

Resolved, that the decision of the borough superintendent, acting on N. B. Applic. 713-45, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be maintained as indicated on plans filed with this appeal marked "Received October 1, 1945"; that in lieu of second means of exit, brass poles as indicated, a total of six, from the 2nd floor to the 1st floor may be substituted, provided at each pole on the 2nd floor, there shall be a fireproof enclosure with fireproof, self-closing door; that in addition, similar poles may be constructed within the 3rd floor penthouse plan as shown and also in the tower plan as shown; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance is granted only so long as the building is occupied as proposed and is not increased in height or area other than beyond what is shown on such plans.

694-45-A

APPLICANT—Robert C. Weinberg, for Vinmont Land Corporation, owner.

SUBJECT—Appeal from decisions of the borough superintendent.

PREMISES AFFECTED—North side of West 254th street, 284 ft. east of Mosholu avenue (Block 3421D, Lot 1417), Borough of The Bronx.

APPEARANCES—

For Applicant: Robert C. Weinberg and Murray Sendler.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative: 0

THE RESOLUTION (694-45-A)

WHEREAS, Robert C. Weinberg, for Vinmont Land Corporation, owner, filed November 7, 1945, an appeal from decisions of the borough superintendent, affecting premises north side of West 254th street, 284 ft. east of Mosholu avenue (Block 3421D, Lot 1417) Borough of The Bronx; and

WHEREAS, the decisions of the borough superintendent, on N. B. Applic. 126, 139 and 140-44, dated October 24, 1945, read:

"7. Building is considered of frame construction, Class 4. Walls, cornices, open porches and supports should be of incombustible materials."

and

WHEREAS, the applicant states that the premises consist of a lot 100 ft. by 120 ft. in area, upon which it is proposed to erect a Class 4 building, 2 stories in height, 32 ft. by 85 ft. in area, located in a residence use, F area and Class 1 and Class 1¼ height district and occupied as a one family dwelling; and

WHEREAS, plans filed with this appeal show that it is proposed to erect three buildings, 2 stories in height, attached 30 ft., 30 ft. and 25 ft. front by 30 ft. and 36 ft. in depth, of Class 4 construction, each arranged for occupancy as one family dwelling; and

WHEREAS, the applicant contends that this appeal affects one of eight similar individual structures, each to contain three, four or five separate dwelling units; that each structure has been designed to be not any larger than the typical private one family dwelling characteristic of this section of the city; that since the premises are outside the fire limits where Class 4 construction is permitted, this appeal is to permit a limited application of the provisions of Class 4 construction, while the principal structural elements of the building will conform to Class 3 construction; that the footings, foundations, basement walls, party walls and end walls of the buildings and the exterior walls of the two longer sides of the buildings up to the second floor level, will be Class 3 construction throughout; that in order to give variety to the design and to make the construction lighter and more weatherproof, it is proposed to use for part of the second story walls, fully insulated frame construction, covered with fire-resistive asbestos and other composition exterior finish and to utilize wood or other incombustible materials for decorative purposes in connection with eaves, cornices, open porches and other elements of the building, which are not part of the main structure; that the effect of this construction will be to create buildings closer to Class 3 construction than the average large single family residence in this district, yet retaining the attractive architectural qualities, by using a variety of materials; it is therefore requested that the Board permit the use of Class 4 frame construction as proposed.

Resolved, that the decisions of the borough superintendent, acting on N. B. Applications 126, 139 and 140-44, Objection 7, be and they hereby are *modified* and that the appeal be and it hereby is *granted on condition* that the buildings as proposed, shall be basically of Class 3 construction, and that only such portions as indicated shall be of wood, provided such wood is protected as to weather surfaces as proposed; that in all other respects, the buildings shall comply with all requirements of all laws, rules and regulations applicable thereto; that this variance shall be of no force and effect unless the Board takes favorable action under a resolution now pending on the reserve calendar, known as Calendar 670-44-BZ.

715-45-A

APPLICANT—Julius Eckmann, for Jandous Realty Co., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—210-214 East 40th street, south side, 144.6 ft. east of 3rd avenue (5th floor); (Block 920, Lot 56), Borough of Manhattan.

APPEARANCES—

For Applicant: Julius Eckmann.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4

Negative 0

THE RESOLUTION (715-45-A)

WHEREAS, Julius Eckmann, for Jandous Realty Co., owner, filed November 13, 1945, an appeal from a decision of the borough superintendent, affecting premises 210-214 East 40th street, south side, 144.6 ft. east of 3rd avenue (5th floor); (Block 920, Lot 56), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 1694-45, dated October 15, 1945, reads:

"1. The proposed extension (in height) of a four story non-fireproof structure, is contrary to §270 Labor Law.

2. The required means of egress and construction of same, must conform with §269 and 270 Labor Law.

3. The minimum exit requirements for the 5th floor, must conform with C26-273 (6.1.2.2.3.) Adm. Code."

and

WHEREAS, the applicant states the building is 4 stories (45 ft.) in height; 51.3 ft. by 98.9 ft., irregular in area, of Class 3 construction; erected prior to 1890, located in an unrestricted use, B area and Class 1½ height district, and used and occupied since 1927 as follows: cellar, storage and boiler room; 1st floor, manufacturing metal work, 20 per-

sons; 2nd floor, offices, 25 persons; 3rd floor, offices and manufacturing electrical equipment, 15 persons; 4th floor, manufacturing dental supplies and electrical equipment, 20 persons, and proposed to be used and occupied, upon completion of alteration and extension in height, as follows: cellar, storage and boiler room; 1st floor, manufacturing of metal work, 20 persons; 2nd floor, manufacturing of metal work and offices, 25 persons; 3rd floor, manufacturing electrical equipment and offices, 15 persons; 4th floor, manufacturing dental supplies and electrical equipment, 20 persons; 5th floor, offices, 15 persons; that the building is equipped with an interior fire alarm system and that fire drills are maintained; that there is one 3 ft. 8 in. wide wood stairs, enclosed in 6 in. terra cotta on the 1st floor, fire retarded above, equipped with fireproof, self-closing doors and leading from the roof bulkhead to the street and one fire escape at the rear, extending to the roof by stair and to the court by iron stairs, with egress to the street through a fireproof passageway at the 1st floor; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant states it is proposed to build an additional one store across the front portion of the building, 50 ft. deep, with a net area within walls of less than 2500 sq. ft.; that the new construction will be incombustible, the roof to be of steel beams with cantilite concrete or gypsteel roof plank with beams and girders protected with approved fireproofing; and

WHEREAS, the applicant contends that the Jandous Realty Company, occupying the rear west portion of the 2nd floor for their offices, will occupy the proposed addition for offices; that additional space is required by the tenants in the building and there is no space available, due to the present rental emergency conditions throughout this section of the city; that the new area will be served by the present stairs and fire escape and the use will be restricted to office use with an office live load; that in view of these conditions and the character of the new construction, it is requested that the Board grant favorable consideration to this appeal; and

WHEREAS, Certificate of Occupancy 13225, issued November 7, 1927, permits the use of the building on the 1st floor for store and factory and above for factory, with an occupancy of 45 persons per story, 120 lb. live load throughout.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1694-45 and that the appeal be and it hereby is *granted*, as to Objection 1, *on condition* that the building shall not be increased in height or area beyond what is now proposed; as to Objection 2, that the existing means of exit, as indicated on plans filed with this appeal marked "Received November 13, 1945", 3 sheets, shall be maintained and in addition, the primary means of exit shall be carried to the 5th floor roof through an approved bulkhead; that the number of occupants in the building shall be based on the number as permitted for the primary means of exit; as to Objection 3 that the exits as shown and as herein permitted, shall be maintained; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

717-45-A

APPLICANT—F. P. Platt and Brother, for U. S. Trust Co. of New York (guardian of Frances De Villers Brokaw, an infant) and Henry Luce, owners.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1 East 79th street and 982 5th avenue, northeast corner (Block 1491, Lot 1), Borough of Manhattan.

APPEARANCES—

For Applicant: Charles I. Platt, J. S. Bookwalter, Harold R. Reamans, R. A. Heising and L. B. Elliman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3
Negative 0
Not Voting: Commissioner Savage..... 1

THE RESOLUTION (717-45-A)

WHEREAS, F. P. Platt and Brother, for U. S. Trust Company of New York (guardian of Frances De Villers Brokaw, an infant) and Henry Luce, owners, filed November 17, 1945 an appeal from a decision of the borough superintendent, affecting premises 1 East 79th street and 982 5th avenue, northeast corner (Block 1491, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 1377-45, dated September 13, 1945, reads:

"3. The change of occupancy of a Class 3 building used for residence purposes to a public use, is contrary to C26-253, C26-239 and C26-754 Adm. Code.

4. File complete plans of all floors, showing the use of all existing rooms, also show all existing means of egress to conform with C26-273.

5. The stair construction must conform with C26-292."

and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 1377-45, dated November 15, 1945, reads:

"3. Repeated.

4. The required means of egress shall conform with C26-273 Adm. Code.

5. Repeated.

6. All entrances, public halls, stairs shall be sufficient for 100 lb. per sq. ft. liveload."

and

WHEREAS, the applicant states that the building is 4 stories, and basement (70 ft.) in height, 47 ft. by 79 ft. in area, of Class 3 construction, erected in 1887, located in a residence use, B area and Class 1½ height district and now vacant; proposed to be used and occupied as follows: cellar—storage and heating; basement—caretaker's apartment and clerical rooms—8 persons; 1st floor—reception, smoking and directors' rooms—23 persons; 2nd floor—club organization offices—15 persons; 3rd floor—committee and conference rooms—11 persons; 4th floor—bedrooms and conference rooms—6 persons; attic—household storage—no persons; that the building is equipped with one enclosed iron stairs with wood treads, enclosed in 12 in. brick walls, equipped with hardwood doors, which are not self-closing and proposed to lead from the cellar to the roof with egress from its termination at the basement level, directly to the street; that this stairway is 2 ft. 5 in. in width, as indicated on plans filed with this appeal; and

WHEREAS, the applicant contends that this appeal is to permit the existing residence building for use of the Institute of Radio Engineers; that instead of full compliance with the requirements of the Administrative Code, it is requested that the Board approve the existing non-fireproof construction, as the building is of substantial construction; that the Board accept the service stairway extended from third to fourth floors, to provide two means of egress from the 4th story, with the installation of one hour test partitions on each story, to provide two separate stairhalls and that the existing floor construction (70 lbs. liveload) be approved, as it is more than ample for all loading demands which will occur; that in view of the small occupancy proposed, which precludes any hazardous congregation and that the actual use will be that of a private club not open to the public, it is requested that the Board grant this appeal; and

WHEREAS, the proposed use has been accepted by the Borough Superintendent as a club, permitted in a residence use district, such acceptance being based on an affidavit filed by the treasurer of the Institute of Radio Engineers, Incorporated, the proposed lessee, which states the purposes, powers and provisions authorized by the certificate of incorporation, to be as follows:

"That the particular purposes for which said corporation is formed are scientific, literary, and educational, and it aims to advance the art and seience of radio, to publish works of literature, science and art for such purpose, to do all and every act necessary, suitable and proper for the aceomplishment of any of the purposes or the attainment of any of the objects or for the furtherance of any of the powers hereinbefore set forth, either alone or in association with other corporations, firms or individuals, and to do every other aet or acts, thing or things, incidental or appurtenant to or growing out of or connected with the aforesaid seience and art, or powers or any part or parts thereof, provided the same be not inconsistent with the laws under which this corporation is organized or prohibited by the laws of the State of New York."

and

WHEREAS, the Board has not passed upon the proposed use as deemed permitted in a residence use area by the Borough Superintendent; and

WHEREAS, the premises and surroundning area were inspected by a Committee of the Board.

Resolved, that the decisions of the borough superintendent, acting on amendment to Alt. Applic. 1377-45, be and it hereby is *modified* as to objections dated November 15, 1945 and that the appeal be and it hereby is *granted* as to Objeetion 3, *on condition* that the building shall not be inereased in height or area; that the occupancy shall be by the Institute of Radio Engineers, Incorporated, for the use and for the number of occupants as proposed; as to Objeetion 4, that the existing means of exit shall be maintained with the primary means of exit constructed to include the fourth story as proposed and shown on plans filed with this appeal marked "Received November 17, 1945", 8 sheets; that doors at all openings shall be maintained substantially as indicated on such plans; that all doors shall be made to swing in the direction of exit; that self-closing doors shall be installed at all openings from rooms where doors are not now shown at all or not shown as self-closing; that a one hour partition shall be constructed with fireproof, self-closing door therein, to separate the basement caretaker's apartment from the stairhall of the main stairway designated as "Hall No. 1"; as to Objection 5, that the existing means of exit may be aecepted with changes as herein required, and in addition, that a means of exit shall be provided from the caretaker's apartment, directly to the yard and a ladder shall also be maintained in the area as shown as a secondary means of exit from the cellar; as to Objection 6, that the floor load of 70 lbs. per superficial foot shall be maintained for all floors through the 4th floor; that the proposed dumb waiter enelosure, as shown on openings on four floors, shall eomply with the requirements of Section C26-646.0; that all openings to the northerly lot line air shaft shall be made fireproof, self-closing or blocked up with approved masonry or approved three-quarter hour glass blocks; that sprinkler heads, which may be fed from the domestic water line, shall be installed in the caretaker's kitchen, dumb waiter shaft and in all closets, store rooms and mail rooms and shall be fed through pipes of sizes and (sprinklerheads) and spaced, as required by the Code; that such portable fire fighting appliances shall be maintained as the fire eommissioner shall direct: that all rubbish and furniture now in the building, shall be completely removed; that the cellar shall be used solely for the heating equipment of the building; that the attie and the fourth floor spaces having no windows, shall be kept vacant: that in all other respeets, the requirements of all laws, rules and regulations relating to the building and ocupancy shall be complied with and that all alterations as shown on plans marked "Received November 17, 1945" designed to provide safety for the occupants and as herein provided, shall be eompleted and certificate of occupancy obtained prior to occupancy.

40-44-A

APPLICANT—Lucille B. Howard, lessee; for L. Victor Weil, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—42 West 74th street, south side, 225 ft. east of Columbus avenue (Block 1126, Lot 55), Borough of Manhattan.

APPEARANCES—

For Applicant: Lueille B. Howard and Sol Feinberg.
For Administration: Fred Dahlem, Dep't of Housing and Building.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (40-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 42 West 74th stret, south side, 225 ft. east of Columbus avenue (Block 1126, Lot 55), Borough of Manhattan, was granted by the Board on February 1, 1944, on eertain conditions, resolution amended on February 23, 1944 and the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted February 1, 1944, as amended by resolution adopted February 23, 1944, by adding thereto:

"that the number of persons permitted within the building may be increased from the number stated by the applicant, namely thirty-one persons including help, to forty-seven persons, including help, to be located as follows:

8 beds on the first floor;
14 " " " seeond floor;
12 " " " third floor;
6 " " " fourth floor;
5 " " " fifth floor, plus two for help.

and that in all other respects, the building and occupancy shall eomply with all laws, rules and regulations applieable thereto."

447-45-A

APPLICANT—Seymour L. Morse, for Ambassador Upholstery Co., Ine., lessee; The Philbe Corp., owner.

SUBJECT—Applieation for consideration—reopening and amendment of resolution—re Appeal from orders of the fire eommissioner (previously granted on condition).

PREMISES AFFECTED—1270 47th street, south side, 60 ft. west of 13th avenue (1st floor); (Block 5628, part of Lot 35), Borough of Brooklyn.

APPEARANCES—

For Applicant: Seymour L. Morse.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (447-45-A)

WHEREAS, this appeal from orders of the fire commissioner affeeting premises 1270 47th street, south side, 60 ft. west of 13th avenue (1st floor); (Block 5628, part of Lot 35), Borough of Brooklyn, was granted by the Board on July 27, 1945, on certain conditions; and

WHEREAS, the applieant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted July 27, 1945, so that as amended, the resolution will read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in Order 15287-LF of the fire commissioner and that the appeal be and it hereby is *granted* as to item 1, *on condition* that no windows shall be barred, except the windows as indicated on plans filed with this appeal marked 'Received July 14, 1945,' in the rear one story portion of the premises and that bars may be continued on the windows as thereon indicated, provided the exits to the outside, as shown are maintained; and *granted* as to Order 15288-LF, *on condition* that at the opening between the portion of the building marked "shop," used for factory purposes, and the balance of the building, shall be protected with an approved 3-hour fire-resistive opening protective assembly; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto."

444-45-A

APPLICANT—Leonard S. Wegman, for H. M. Rubin Company, owner.

SUBJECT—Application for consideration—reopening and restoration to calendar for consideration of new proposal—re Appeal from a decision of the commissioner of Marine and Aviation (previously withdrawn).

PREMISES AFFECTED—Southeast corner of Vernon boulevard and 53d avenue (Block 38, Lots 3-15), Long Island City, Borough of Queens.

APPEARANCES—
For Applicant: Leonard S. Wegman.

ACTION OF BOARD—Appeal reopened, restored to the calendar and set for hearing on Decembebr 11, 1945 at 10 A.M.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

623-45-A

APPLICANT—Lama and Proskauer, for 1083-1087 Willoughby Ave. Corp. owner; Styl-Rite Optical Corp., lessee.

SUBJECT—Application for consideration—reopening and restoration to calendar for consideration of new denial of Borough Superintendent—re Appeal from an order of the fire commissioner (previously withdrawn).

PREMISES AFFECTED—1083-1087 Willoughby avenue, north side, 100 ft. west of Wilson avenue (4th floor); (Block 3196, Lot 38), Borough of Brooklyn.

APPEARANCES—
For Applicant: Leonard Liebowitz.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and restored to the calendar subject to usual procedure.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative: 0

163-45-A

APPLICANT—Kalvid Realty Corp., owner.

SUBJECT—Application reopened and restored to calendar September 25, 1945—re Appeal from a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—54-31 to 54-37 Myrtle avenue, 343-359 Woodbine street, northwest corner and 350 St. Nicholas avenue, southwest corner of Woodbine street (2nd floor); (Block 3445, Lots 1 and 32), Ridgewood, Borough of Queens.

APPEARANCES—
For Applicant: David I. Silverman.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 3, 1946 at 2 P.M. for further consideration. Applicant to file additional information.

699-45-A

APPLICANT—Artograph Paper Box Co., Inc. (lessee); 35 Steuben Street Realty Corp., owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—401 Lexington avenue, north side, 225 ft. west of Tompkins avenue (Block 1799, Lot 55), Borough of Brooklyn.

APPEARANCES—
For Applicant: Samuel Gardstein and Louis Barnett.
For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Laid over to December 11, 1945 at 2 P.M. for further consideration and report from Division of Fire Prevention.

ZONING APPLICATION

440-38-BZ

APPLICANT—Marcy Rosen (lessee), for Hugh P. Skelly, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoing resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—2902-2930 Surf avenue, southwest corner of West 29th street (Block 7068, part of Lot 1), Borough of Brooklyn.

APPEARANCES—
For Applicant: Marcy Rosen and Louis Ackerhalt.
For Opposition: Harold Klorfein, Dept. of Parks.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (440-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 2902-2930 Surf avenue, southwest corner of West 29th street (Block 7068, part of Lot 1), Borough of Brooklyn, as granted by the Board on October 17, 1939, on certain conditions; and

WHEREAS, the permit was extended on October 15, 1941 and October 26, 1943; and

WHEREAS, the applicant requested a further extension of the permit; and

WHEREAS, it appears that the premises are now in the ownership of the City of New York, and an authorization has been filed by the Director of Real Estate, authorizing this application for an extension of the variance.

Resolved, that the Board of Standards and Appeals does hereby *amend,* the resolution adopted October 17, 1939, as amended by resolution adopted through October 26, 1943, only so far as it has reference to the terms of the permit, so that as amended this portion of the resolution shall read:

"* * * *granted* under section 7h thereof, for a term of two years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five motor vehicles, *on condition* * * * and that other than as *amended* herein, the resolution adopted October 17, 1939, shall be complied with in all respects; that a certificate of occupancy shall be obtained; that in the event these premises now in the ownership of the City of New York is assigned to the Department of Parks at any time during the term of this permit, this permit shall be deemed discontinued."

28-40-BZ

APPLICANT—Reginald S. Hardy, for 42 South 11th Avenue Realty Co., Inc., owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition under section 7c of the zoning resolution, permitting in a business use district, the reconstruction and rearrangement of existing gasoline service station and accessory building.

PREMISES AFFECTED—14-80 Clintonville street, west side, 1 ft. north of Cross Island boulevard (Block 4697, Lots 15 and 18), Whitestone, Borough of Queens.

APPEARANCES—
For Applicant: Reginald S. Hardy.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (28-40-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, lubritorium, auto-laundry and auto-repair shop, affecting premises 14-80 Clintonville street, west side, 1 ft. north of Cross Island boulevard (Block 4697, Lots 15 and 18), Whitestone, Borough of Queens, was granted by the Board May 28, 1940 on certain conditions; and

WHEREAS, time to obtain permits and complete the work, was extended from time to time, the last such extension having been granted on December 19, 1944; and

WHEREAS, the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted May 28, 1940, only so far as it has reference to the time within which to obtain permits and complete work, so that as amended, this portion of the resolution shall read:

" * * * that all permits required shall be obtained and all work completed within one year from the date of this *amended* resolution and that other than as herein *amended*, the conditions of the resolution of May 28, 1940, shall be complied with (N.B. Applic. 8544-39)."

630-44-BZ

APPLICANT—New York Water Service Corp., owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a residence use district, the erection of a building to be used as a well house in connection with an existing electrically operated water pumping station (water works) on a plot located partly in a residence use and partly in a business use district.

PREMISES AFFECTED—83-75 Woodhaven boulevard, northeast corner of Moss road (Block 3907, Lot 960) Woodhaven, Borough of Queens.

APPEARANCES—
For Applicant: Arthur T. Luce and S. W. Mooney.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (630-44-BZ)

WHEREAS, this application, under section 7c of the zoning resolution, permitting in a residence use district, the erection of a building to be used as a well house in connection with an existing electrically operated water pumping station (water works) on a plot located partly in a residence use and partly in a business use district, affecting premises 83-75 Woodhaven boulevard, northeast corner of Moss road (Block 3907, Lot 960), Woodhaven, Borough of Queens, was granted by the Board on November 28, 1944, on certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted November 28, 1944, only so far as it has reference to the time within which to obtain permits and complete the work, so that as amended, this portion of the resolution shall read:

"* * * that all permits required shall be obtained and all work completed prior to June 1, 1946 and that other than as herein *amended*, the conditions of the resolution of November 28, 1944, shall be complied with (N.B. Applic. 293-44)."

73-38-BZ

APPLICANT—Paul Friedman, for Sears, Roebuck and Company, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, the parking of more than five motor vehicles for a temporary period.

PREMISES AFFECTED—2420 Bedford avenue and 2301-2323 Beverly road, northwest corner (Block 5133, Lot 14), Borough of Brooklyn.

APPEARANCES—
For Applicant: Paul Friedman.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to the calendar and set for hearing on January 3, 1946 at 2 P. M.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

1175-39-BZ

APPLICANT—Paul Friedman, for Sears, Roebuck and Company, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two (2) years, the parking of more than five motor vehicles.

MINUTES

PREMISES AFFECTED—2201-2209 Beverly road and 149-175 East 22nd street, northeast corner (Block 5133, Lots 38 to 49, inclusive), Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES GOVERNING THE INSTALLATION OF INTERIOR FIRE ALARM SIGNAL SYSTEMS, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, SEPTEMBER 27, 1917, AMENDED DECEMBER 6, 1917 AND FEBRUARY 7, 1918 AND REVISED DECEMBER 11, 1936

(108-16-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Tuesday afternoon, January* 22, 1946, at 2 P. M., in Room 1013, Municipal Building, Manhattan, on the Proposed Amendments to Rules Governing the Installation of Interior Fire Alarm Signal Systems.

New matter is indicated in *italics.*

Section 279 *State Labor Law* **Fire Alarm Signal Systems and Fire Drills:**

1. Fire alarm signal systems. Every factory building over two stories in height in which more than twenty-five persons are employed above the ground floor shall be equipped by the owner thereof with a fire alarm signal system having a sufficient number of signals clearly audible to all occupants of the building, and so arranged as to permit the sounding of all the alarms within the building whenever the alarm is sounded in any portion thereof. Such system shall be maintained in good working order and no person shall tamper with same or render ineffective any portion thereof except to repair it. A person discovering a fire shall cause an alarm to be sounded immediately. The Board of Standards and Appeals in the City of New York, may make rules and regulations prescribing the number, character and location of the signals and the method and character of the installation, including that of all appliances in connection therewith.

Rule 16. Alarm Boxes.

16.1 In fire alarm signal systems the metal case enclosing exposed or surface alarm boxes shall be of cast iron *or cast No.* 43 *aluminum* and drilled and tapped to receive the conduit. When exposed to moisture the box shall be enclosed in a suitable weather-proof outer shell. In new buildings, approved back boxes embedded in the wall may be used and the conduits shall be properly secured by lock nuts and bushings.

ELECTRICAL CODE ON SALE

Copies of the Electrical Code of the City of New York, Pocket Edition—344 pages, are now on sale at the Distribution Division of the City Record Office, Room 2213, Municipal Building, Manhattan, N. Y. 7. Price 75 cents; by mail 85 cents.

RULES

EXTRACTS FROM THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK, RELATING TO REFRIGERATING SYSTEMS

General Provisions

§C19-2.0. Definitions.

Unless otherwise expressly stated, whenever used in this chapter the following terms shall respectively be deemed to mean:

34. Refrigerating system, a combination of apparatus in which a refrigerant is circulated for the purpose of extracting heat.

(a) The parts of the system are the compressor, generator, condenser, absorber, receiver, shell type or tube type apparatus, pipes, vessels, or other parts, containing refrigerant.

(b) Direct refrigeration, a system in which the refrigerant is circulated to the substance or space refrigerated.

(c) Indirect refrigeration, a system in which brine cooled by the refrigrant is circulated to the substance or space refrigerated.

(d) Refrigerant is the chemical agent other than brine used to produce refrigeration.

(e) Irritant refrigerant, any refrigerant which when breathed, attacks the throat or lungs.

(f) Hydrocarbon refrigerants, any refrigerant of the hydrocarbon class.

(g) Flammable refrigerant, any refrigerant which will burn or explode when mixed with certain proportions of air.

(h) Refrigerating machinery room, a room in which is located a refrigerating system containing refrigerant, but not including expansion coils when located in cold storage rooms or expansion coils when located in refrigerator boxes.

(i) Factor of safety, the multiple three and one-third (3⅓), the product of which and the test pressure, constitutes the probable rupture pressure.

(j) Pressure imposing element, that apparatus which draws the refrigerant from the low pressure or low temperature side of the system and discharges it into the high pressure or high temperature side of the system.

(k) Pressure limiting device, a pressure or temperature responsive mechanism for automatically stopping the operation of the pressure imposing element.

(l) Brine, any liquid which having been cooled by the refrigerating system is used for the transmission of heat.

(m) Pressure relief device, a pressure relief valve, a rupture member, fusible plug or other approved device for relieving the pressure.

(n) Pressure relief valve, a valve held shut by a spring or other means to automatically relieve pressure in excess of its setting.

(o) Rupture member, a device that will automatically rupture at a pre-determined pressure.

(p) Liquid receiver, a vessel permanently connected to a system by inlet and outlet pipes for storage of a liquid refrigerant.

(q) Container, a cylinder for the shipment of refrigerant constructed to conform to the regulations of the Interstate Commerce Commission.

(r) Mixer, a vessel or device in a system for mixing the ammonia or other soluble vapor with water.

(s) Stop valve, a cut-off valve for use during normal operation.

(t) Service valve, a key-operated shut-off valve used only during shipment, installation or repairs.

(u) Fusible plug, a device having a predetermined-temperature fusible member for the relief of pressure.

§C26-235.0. Definitions.

(a) **Public Buildings.** Public buildings are structures or parts of structures in which persons congregate for civic, political, educational, religious or recreational purposes, or in which persons are harbored to receive medical, charitable or other care or treatment, or in which persons are held or detained by reason of public or civic duty, or for correctional purposes, including among others, court houses, schools, colleges, libraries, museums, exhibition buildings, lecture halls, churches, assembly halls, lodge rooms, club houses with more than five sleeping rooms, dance halls, theatres, bath houses, hospitals, asylums, armories, fire houses, police stations, jails and passenger depots.

(b) **Residence Buildings.** Residence buildings are structures or parts of structures in which sleeping accommodations are provided, except such as may for other reasons be classed as public buildings, including multiple dwellings as defined in the Multiple Dwelling Law.

(c) **Commercial Buildings.** Commercial buildings are structures or parts of structures, which are not public buildings or residence buildings, including among others, office buildings, factory buildings, salesrooms (stores), markets, restaurants, warehouses, freight depots, car barns, stables, garages, motor vehicle repair shops, factories, laboratories, smoke houses, grain elevators, coal pockets, central station power plants and electric sub-stations.

Bonds and Fees.

§C19-24.0. Fees for Permits.

Applicants for permits under the provisions of this chapter shall pay annual fees as follows:

35. Refrigerating systems:

Class A systems	$20.00
Class B systems	10.00
Class C systems containing over six pounds of refrigerant	5.00
Class C systems containing six pounds or less of refrigerant	1.00

Refrigerating Systems

C19- 96.0. Permits.
C26-214.0. Supervision.
C19- 97.0. Classification.
C19- 98.0. Permissible locations.
C19- 99.0. Refrigerating machinery rooms and ventilation.
C19-100.0. Open flames and electrical equipment.
C19-101.0. Testing.
C19-102.0. Piping.
C19-103.0. Safety devices.
C19-104.0. Size of safety devices.
C19-105.0. Location and discharge of safety devices.
C19-106.0. Operating precautions.
C19-107.0. Equipment diagrams.

§C19-96.0. Permits.

(a) Except as hereinafter provided in this article it shall be unlawful to maintain or operate a refrigerating system without a permit.

(b) A permit will not be required for a Class C system when maintained or operated in the residence portion of a dwelling containing not more than two families, or in the residence portions of either a tenement house or a business building.

(c) It shall be unlawful to maintain or operate any refrigerating system employing a refrigerant other than those specified in this article without a permit issued upon such conditions, consistent with the provisions of this article, as are deemed by the fire commissioner necessary in the interest of public safety.

NOTE:—The Fire Chief and Commissioner prescribed under date of April 4, 1934, the following:

1. That the refrigerants dichlorodifluoromethane, known as "Freon" ("Kinetic No. 12" also "F-12") CCl_2F_2 also dichlorotetrafluoroethane ("F-114") $C_2Cl_2F_4$ and monofluorotrichloromethane ("F-11") CFC_3 are non-flammable and non-irritant, unless otherwise hereinafter provided, and

shall be regulated in accordance with the privisions of Article 18 of Chapter 19 of the Administrative Code, as such, except, when used in a room or rooms in which there is an open flame or apparatus to produce an open flame, when the provisions of said article covering irritant refrigerants shall apply.

2. That refrigerating systems employing F-11, F-12 or F-114 are restricted to parts of a building so specified in Section C-19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

3. That refrigerating systems employing F-11, F-12 or F-114 used for air conditioning are restricted to the indirect method except that the direct method may be used in parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

4. That refrigerating systems employing F-11, F-12 or F-114 shall not be installed or maintained in or on the stairways, halls, lobbies, entrances, exits or auditoriums of any building.

5. That refrigerating systems employing F-11, F-12 or F-114, shall not be installed or maintained in a hospital, unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame shall be employed, except that the Class "C" system containing not more than 10 pounds of refrigerant may be used in a diet kitchen which shall be cut off from the rest of the building by a tight fitting self-closing door or doors and provided with a window or windows to the outside air. All open flames, and/or apparatus for producing an open flame, in diet kitchens where these refrigerants are used shall be vented to the outside air as hereinafter required in Paragraph 8.

6. That refrigerating systems employing F-11, F-12 or F-114 may be installed or maintained in a hospital private room, having tight partitions and tight fitting self-closing door or doors and where not more than two persons are helpless and/or given medical treatment, provided there is no open flame and/or apparatus for producing an open flame in such room and when the system contains not more than 10 pounds of refrigerant.

7. That a refrigerating system employing F-11, F-12 or F-114 shall not be installed or maintained in a theatre and/or motion picture theatre unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame and/or apparatus to produce such open flame shall be employed, except that Class "C" systems containing not more than ten pounds of refrigerant may be installed in a rest room, smoking room or lounging room provided in such rooms no open flame or apparatus to produce such open flame shall be employed.

8. That a refrigerating system employing F-11, F-12 or F-114, when used in a room or rooms in which there is an open flame or apparatus to produce such open flame, such open flame and/or apparatus shall be provided with a hood and independent mechanical ventilation so arranged as to convey all the products of combustion to the outside of the building. This provision shall apply only to diet kitchens of hospitals and to Class "C" systems in schools, churches, dance halls, court rooms, police stations, jails, asylums, subways, passenger depots, rooms opening into passenger depots and/or subways and such other places as are deemed by the Fire Commissioner necessary in the interest of public safety.

9. That, except for Class "C" systems located in rooms in which no open flame or apparatus to produce such flame shall be employed containing not more than ten pounds of refrigerant, each refrigerating machinery room in any building in which F-11, F-12 or F-114 are used, shall be maintained vapor-tight and provided with tight fitting, self-closing doors, in accordance with Section C19-99.0 (a).

10. That each refrigerating machinery room in which F-11, F-12 or F-114 is used, shall be adequately ventilated directly to the outside air in accordance with Section C19-99.0 (b), 1, 2, 3 and 4.

11. Test pressures and setting of safety valves for systems employing F-11, F-12 or F-114, shall be included in Section C19-101.0 as follows:

Refrigerant	Column No. 1	Column No. 2	Column No. 3
F-11	25	15	15
F-12	180	120	135
F-114	60	30	30

12. That the size of pressure relief valves for systems in which F-11, F-12 or F-114 is employed, shall be as follows:

Capacity of System	Number Required
Up to 30 tons	One ½ inch
30 to 60 "	One ¾ "
60 to 100 "	One 1 "
100 to 175 "	One 1¼ inches
175 to 250 "	One 1½ "
250 to 450 "	One 2 "
450 to 900 "	Two 2 "

13. That the storage of F-11, F-12 or F-114 shall conform with Section C19-106.0 (c)-5 for other refrigerants.

14. That all other sections or parts of Article 18 of the Administrative Code not so mentioned, shall be complied with.

15. That refrigerating systems employing F-11, F-12 or F-114, installed prior to May 19, 1932, shall be inspected, and if found to comply with the rules, or if in the opinion of the Fire Commissioner, the installations are of a non-hazardous character, a permit may be issued. Installations which have been made in hospitals, theatres, asylums and places of public assembly shall be made to comply strictly with these rules.

(d) A permit, where required, shall be applied for forty-eight hours after installation is completed, containing the name of the person for whom the system is installed and the place or location of the system.

(e) Only the refrigerant specified in the permit shall be used in the system.

(f) Refrigerating systems to which these provisions cannot be applied, may be maintained and operated subject to such conditions as are deemed necessary by the fire commissioner.

§C26-214.0. Refrigeration System Operators; Certificate of Qualification.

(a) It shall be unlawful to maintain or operate in any building any refrigerating system containing more than fifty (50) pounds of refrigerant except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system. Where the system contains two hundred (200) pounds or less of refrigerant and is fully automatic, only one qualified operator will be required.

(b) It shall be unlawful to maintain or operate in a public building or exhibition hall any Class C system permitted for exhibition or demonstration purposes except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system.

(c) Upon receipt of such certificate the applicant therefor shall pay an annual license fee as follows: For the initial fee $5, and for renewal thereof the sum of $1 provided application for such renewal be made within thirty days prior to the expiration of such certificate. Any such certificate may be revoked or suspended for cause at any time by the superintendent.

§C19-97.0. Classifications.

(a) The total amount of refrigerant common to a system operating through one or more evaporators, shall be considered the capacity of the system and determine its class.

(b) A Class A system is a system containing one thousand (1,000) pounds or over of refrigerant, or capable of thirty (30) tons capacity or over.

(c) A Class B system is a system capable of less than thirty (30) tons capacity, or containing less than one thousand (1,000) pounds of refrigerant and more than amounts provided for in a Class C system.

(d) A Class C system is a system containing not more than twenty (20) pounds of refrigerant.

§C19-98.0. Permissible Locations.

(a) It shall be unlawful to install any Class A or Class B systems in any public building as defined by subdivision a of section C26-235.0 of the code, until plans have been filed with and approved by the fire commissioner, and no refrigerant shall be placed in the system until a permit has been obtained from the fire commissioner.

(b) The direct method of refrigeration shall not be used in any building, whether or not a permit is required for installation therein, outside of the refrigerating machinery room except in buildings used exclusively for ice making or for refrigerating purposes, or when such method is not carried above the first floor in business buildings, or in the business sections of business buildings provided the entire system is confined to one floor in the space occupied by a single tenant, or in the business section of a residence building when not carried above the first floor, or in a residence building occupied by not more than two families, or in any building provided a non-irritant and non-flammable refrigerant is used. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(c) It shall be unlawful to use brine in any brine circulating system that will generate flammable vapor at a temperature below 100 degrees Fahrenheit when tested in a Tagliabue open cup tester, and no refrigerant shall be used as a brine.

(d) It shall be unlawful to install or maintain a Class A system using ammonia in any building above the first floor level unless such building is used exclusively for ice making or refrigerating purposes. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(e) Systems on demonstration in exhibition halls shall be limited to the unit type containing not more than ten (10) pounds of refrigerant.

(f) It shall be unlawful to install or maintain a refrigeration system employing an irritant or inflammable refrigerant in or on:

1. The stairways, halls, lobbies, entrances, exits or auditoriums of any building;
2. Dance halls, court rooms, police stations, jails, subways, theatres, or motion picture theatres;
3. Waiting or public rooms in a railroad passenger depot or rooms opening directly therein;
4. Rooms opening directly into a subway, or theatre, or motion picture theatre, or where persons are detained or confined;
5. A school, unless the refrigerating system is used exclusively for instruction or research purposes;
6. A hospital or asylum in which persons are confined or given medical treatment or helpless. Unless otherwise required by this section, such refrigerating system shall be cut off from the building by unpierced fireproof construction. The foregoing provisions do not apply to hermetically sealed unit systems containing not more than six (6) pounds of refrigerant when located in dance halls, police stations, diet kitchens of hospitals, schools, or laboratories, and when located in rooms shut off from the rest of the building by tight partitions and tight-fitting, solid, self-closing doors and located in a room having a window to the outside air.

(g) An intermittent absorption type of refrigerating machine shall not be permitted in a Class A system. Such a type machine shall be permitted in a Class B system only when a heating medium of low pressure steam is used in its operation.

(h) The use of methyl and ethyl chloride, sulphur dioxide, or a hydro-carbon refrigerant will not be permitted in Class A systems.

(i) A Class B system using ethyl chloride or a hydrocarbon refrigerant shall not be installed or maintained in the Borough of Manhattan or in other built-up sections of the city. Elsewhere, it shall be installed or maintained only in a fireproof building of not more than one story in height, and shall be located on the ground floor, which shall be of unpierced fireproof construction. The refrigerating machinery room shall be cut off from the rest of the building by unpierced fireproof walls of not less than eight inches (8″) of brick or six inches (6″) of reinforced concrete. Direct exit therefrom leading to the open air and not to any other part of the building shall be maintained and shall be provided with vapor-tight, self-closing, fireproof doors.

§C19-99.0. Refrigeration Machinery Rooms and Ventilation.

a. Refrigerating machinery rooms.

1. All refrigerating machinery rooms in which an irritant refrigerant is used shall be maintained vapor-tight except that all doors which open to other parts of the building shall only be required to be self-closing and close fitting, and shall be kept closed at all times, except during entrance or exit. All other openings that may permit the passage of vapor to other parts of the building shall be vapor-tight and kept closed. No opening from elevator shafts shall be permitted in the refrigerating machinery room. This provision, however, shall not apply to dumbwaiter shafts the door openings of which are protected with self-closing fire doors or to a system containing less than six (6) pounds of refrigerant. Closets solely contained within and opening only into the refrigerating machinery room shall be considered as part of the room in which it opens.
2. In Class A and Class B systems in which an irritant refrigerant is used, the doors of the refrigerating machinery rooms shall open outwardly.

b. Ventilation.

1. Each Class A, B and C refrigerating machinery room of any system shall be independently provided with means for adequate ventilation to the outer air. The ventilation shall consist of a window or windows opening directly to the open air, or mechanical means capable of exhausting the foul air from the room.
2. When a window or windows are used, if placed in opposite walls so as to provide a through air circulation to the outer air, a total area of inlet and outlet, respectively, of not less than that specified in Column D of the table in subdivision 4 shall be provided. When a window or windows are placed in one wall a total area shall be provided not less than that specified in Column E of such table.
3. When mechanical means are used they shall consist of a power-driven exhaust fan of the enclosed case blower type which shall be capable of removing from the refrigerating machinery room the amount of air specified in Column B of the table in subdivision 4. The inlet to the fan shall be located near the refrigerating equipment. The outlet from the fan shall terminate not less than six (6) feet above the sidewalk and in no case under a stairway or fire escape. Where air ducts are used on either the inlet or discharge side of the fan they shall each have an area not less than that specified in Column C of such table. Sharp bends in the run of the ducts shall be avoided. The control for such mechanical means of ventilation shall be easily accessible and located outside of the refrigerating machinery room.

4.

	Pounds of Refrigerant in System	Mechanical Cu. Ft. per Minute Discharge	Window Area Mechanical Sq. Ft. Duct Area	Window Area in Sq. Ft. for each Opposite Side	Window Area in. Sq. Ft. for One Side Only
	A	B	C	D	E
Up to ...	20	150	¼	1	6
	50	250	⅓	1½	12
	100	400	½	2	16
	150	550	⅔	2½	19
	200	680	⅔	3	25
	250	800	1	3½	29

1,250	2,350	2¼	9	68
1,500	2,800	2½	11	78
1,750	3,150	3	12½	87
2,000	3,500	3½	14	95
2,500	4,150	4	16	113
3,000	4,500	4½	18	130
4,000	6,000	6	24	167
5,000	7,500	7½	30	204
6,000	9,000	9	36	241
7,000	10,500	10½	42	278
8,000	12,000	12	48	315
9,000	13,000	13	52	342
10,000	14,000	14	56	360
12,000	17,000	17	68	425
14,000	19,000	19	75	470
16,000	22,000	22	86	540
18,000	24,000	24	92	580
20,000	26,500	26	100	630
25,000	33,000	33	121	760
30,000	39,000	39	142	870
35,000	44,000	44	155	940
40,000	51,000	51	176	1,060
45,000	56,000	56	190	1,120

Note—Door openings leading directly to the open air shall be considered equivalent to windows for the requirements specified in columns "D" and "E" of this table.

5. Where a non-irritant or non-inflammable refrigerant is employed, the requirements as given in the table in subdivision 4 may be reduced by one-half. When air or water is employed as the refrigerant no ventilation shall be required.

6. In lieu of mechanical means of ventilation in refrigerating machinery rooms where a Class A system or a Class B system using ammonia is installed, a water deluge may be provided which shall consist of a sprinkler system having open heads of not less than one-quarter inch (¼") orifice spaced not more than eight feet apart in any direction, and such system shall be located above all the refrigerating apparatus and piping in the refrigerating machinery room. Not more than one head shall be installed on a ¾-inch pipe; five heads on a 1-inch pipe; six heads on a 1¼-inch pipe. The deluge system shall be permanently connected with the main house supply or other assured source from which a constant water pressure of not less than twenty pounds per square inch can be maintained on the inlet side of the main control valve or valves at all times. The control valve or valves for such water deluge system shall be manually operated and easily accessible, and shall be labeled and located outside of the refrigerating machinery room.

§C19-100.0. Open Flames and Electrical Equipment.

a. Open flames.

No fire-flame or arc light will be permitted in a Class A or B refrigerating machinery room in which a flammable refrigerant is used.

b. Electrical equipment.

1. All Class A and B refrigerating systems containing more than fifty (50) pounds of refrigerant shall have an emergency swith controlling all of the electrically-operated refrigerating machinery or the remote control of such a switch located outside of the refrigerating machinery room where is can be quickly reached and operated in case of necessity.

2. Where the operating mechanism in any system is dependent upon electrical control, such control in a pressure limiting device shall be on a closed circuit. Nothing herein contained shall require a hand reset on an automatic type of refrigerating machine.

§C19-101.0. Testing.

Every part of any refrigerating system, except pressure gauges and control mechanism shall be tested to at least the following pressures: Class A and B systems containing over fifty (50) pounds of refrigerant shall be tested after installation and proved tight before being operated. A dated declaration of such test, signed by the tester, shall be posted in the machinery room.

Refrigerant	Col. 1 High Pressure Side	Col. 2 Low Pressure Side With Safety Valves	Col. 3 Low Pressure Side Without Safety Valves
Carbon dioxide	1,500	750	1,000
Ethane	1,050	520	760
Ammonia	300	150	225
Propane	250	115	175
Methyl chloride	155	80	120
Sulphur dioxide	135	100	100
Iso-butane	90	45	70
Butane	75	35	50
Ethyl chloride	30	15	25
Dichloromethane	12	12	12
Dichloroethylene	12	12	12
Trichloroethylene	12	12	12

§C19-102.0. Piping.

a. Piping.

1. All piping, liquid receivers or vessels containing the refrigerant, shall be supported on or by strong and durable materials. This provision shall not apply to Class C installations.

2. The arrangement of stop valves, relief devices, and other similar devices, when used shall be as shown on the diagram for Class A and B systems in section C19-107.0 of the code.

3. Every system which may be charged after installation shall have the charging connection located on its low pressure.

b. Gauge glasses.

Liquid level gauge glasses, except those of the bull's eye type, shall have automatic closing shut-off valves and such glasses shall be adequately protected against injury by slotted metal casings.

§C19-103.0. Safety Devices.

a. Construction and setting.

1. Pressure relief valves, pressure limiting devices and rupture members shall be set to prevent the pressure from exceeding the test pressure. The pressure at which the device is set to function shall be indicated thereon. (See section C19-101.0 of the code, columns 1 and 2 of table.)

2. Fusible plugs shall relieve the pressure at a temperature not exceeding 280 degrees Fahrenheit.

b. Use of stop valves.

1. It shall be unlawful to locate a stop valve between a pressure relief device or pressure limiting device and the part of the system protected thereby, unless two pressure relief devices of required size are used, and so arranged that only one pressure relief device can be cut off for repair purposes at any one time.

2. A Class B system in which no stop valves are used and in which the pressure will equalize throughout the system when the pressure imposing element is not in operation may be protected by only one pressure relief device located on the high pressure side.

c. Ammonia mixer.

1. The low pressure side of a Class A ammonia system shall be provided with a hand-operated valve for discharging the ammonia into water through a mixer to the sewer in case of emergency.

2. The ammonia mixer shall be constructed of steel and shall be capable of withstanding a pressure of at least fifty (50) pounds per square inch.

3. It shall be unlawful to locate a valve in the ammonia emergency discharge line, except for the manually-operated valve discharging into the water and ammonia mixer, but there may be one stop valve located inside the building for repair purposes only. This valve shall be sealed open and labeled "Keep Open."

4. The manually operated pressure relief valve shall be located in a locked box which can be opened by members of the Fire Department by means of a Fire Department key. The door of the box shall be on the public thoroughfare side of the building in an easily accessible location and not less than eighteen (18) inches or more than five (5) feet above the sidewalk level. The box shall be permanently labeled with letters of not less than one (1) inch reading "For Fire Department Use Only." The relief valve shall be labeled "Ammonia." A sign shall be posted within the box reading "Do Not Open Valve Until Water Is Flowing."

5. A single standard three (3) inch fire department connection shall be provided through which the necessary water may be supplied to the mixer. The fire department connection shall be located near the box and not less than eighteen (18) inches or more than twenty-four (24) inches above the sidewalk level and shall be permanently labeled having letters not less than one (1) inch high reading "To Ammonia Mixer." A check valve so set as to prevent gases from reaching the fire department connection shall be installed in the water line between the fire department connection and the water and ammonia mixer.

6. The fire department shall have sole use of the mixer and supply the necessary water.

7. In systems using over twenty-seven thousand (27,000) pounds of ammonia there shall be provided one additional water and ammonia mixer for each twenty-seven thousand (27,000) pounds of ammonia or fraction thereof so used in excess.

8. The ammonia mixer and its connection for a Class A system shall conform to the diagram in section C19-107.0 of the code.

§C19-104.0. Size of Safety Devices.

(a) The size of pressure relief valves shall be as follows:

Capacity of System	CO_2 and Ethane, No. Req., Size	Other Refrigerants No Req., Size
Up to 30 tons	1—½"	1—½"
30 to 60 tons	1—½"	1—¾"
60 to 100 tons	1—½"	1—1"
100 to 175 tons	1—½"	1—1¼"
175 to 250 tons	1—¾"	1—1½"
250 to 450 tons	1—1"	1—2"
450 to 900 tons	.....	2—2"

(b) Where rupture members are permitted and used, the equivalent area of the relief valve specified must be provided.

(c) Fusible plugs may be used on all Class C systems and on all Class B systems of the hermetically sealed compression type containing not more than fifty (50) pounds of refrigerant. The free discharge opening shall be one-sixteenth (1/16) inch in diameter.

§C19-105.0. Location and Discharge of Safety Devices.

a. Location.

A pressure limiting device shall be provided on the high pressure side of each water-cooled refrigerating system containing more than six (6) pounds of refrigerant. A pressure relief valve shall be provided on the high pressure side of each water-cooled refrigerating system containing twenty (20) pounds or more of refrigerant, but it shall not be necessary to discharge the refrigerant to the outside air or water tank from any such refrigerating system containing fifty (50) pounds or less of refrigerant, any other provision of part 1, of this title, to the contrary notwithstanding.

b. Location and discharge of safety devices.

1. Each compressor or generator of a Class A or B system containing more than 100 pounds of refrigerant shall be protected by a pressure relief valve connected into the high pressure side between the main stop valve and the compressor or generator to relieve excessive pressure as hereinafter provided.

2. A rupture member may be substituted for the relief valve in Co_2 systems or systems operating below atmospheric pressure.

3. Shell type apparatus such as liquid receivers, condensers, evaporators, liquid separators and absorbers of Class A and Class B systems containing more than fifty (50) pounds of refrigerant, and Class B systems containing fifty (50) pounds or less of refrigerant which can be shut off by stop valves, shall each be equipped with a pressure relief valve discharging as hereinafter provided.

4. Class C systems and Class B systems containing fifty (50) pounds or less of refrigerant so constructed that, when subjected to abnormal outside temperature such as that generated in a fire, they may burst due to the expansion of the refrigerant, shall be protected by a pressure relief device.

5. A pressure relief valve shall be required on the low pressure side of a Class B system into which the relief valve or valves on the high pressure side discharge, as so shown on equipment diagram of section C19-107.0 of the code.

c. Discharge of pressure relief valve.

1. Where ammonia is used in Class A systems, the discharge from relief valves must be conducted to the outside atmosphere or into that part of the low pressure side protected by the mixer as specified in subdivision C, of section C19-103.0 of the code. If it is discharged to the outside atmosphere it must be piped above the roof or not less than 12 feet above the grade. The discharge pipe shall be not less than the size of the relief valve outlet. The discharge from more than one relief valve may be run into a common header, the area of which shall be equal to the area of the pipes connected thereto. The outlet orifice shall be turned downward.

2. Where more than fifty (50) pounds of ammonia is used in a Class B system, the discharge from relief valves shall be piped to the outside atmosphere as specified for Class A systems, or to the low pressure side as shown in diagrams in section C19-107.0 of the code, or into a tank of water which shall be used for no purpose except ammonia discharge. At least one gallon of fresh water shall be provided for every pound of ammonia contained in the system. The water used shall be prevented from freezing without the use of salt or chemicals. The tank shall be substantially constructed of not less than one-eighth (⅛) of No. 11 U. S. gauge iron. No horizontal dimensions of the tank shall be greater than one-half (½) the height. The tank shall have a hinged cover or, if of the enclosed type, shall have a vent hole at the top. All pipe connections shall be through the top of the tank only. The discharge pipe from the pressure relief valves shall discharge the ammonia in the center of the tank near the bottom. The tank shall be as securely supported as any other portion of the system. There shall be no opening in the tank below the water level.

3. Where more than fifty (50) pounds of any refrigerant other than ammonia is used, the discharge from relief valves shall be to the atmosphere as specified for Class A ammonia systems. Carbon dioxide may be discharged into the room if the same contains at least 10 cubic feet of capacity per pound of refrigerant used.

4. Arrangements of pressure relief devices for Class A and B systems shall conform to the diagrams in section C19-107.0 of the code.

§C19-106.0. Operating Precautions.

a. Masks and helmets.

1. In a Class A system which operates above atmospheric pressure, there shall be provided at least two helmets or masks.

2. In a Class B system in which more than fifty (50)

pounds of ammonia, sulphur dioxide or other irritant refrigerant is used, there shall be provided at least one helmet or mask.

3. Only helmets or masks that have been approved by the United States Bureau of Mines as suitable for the refrigerant employed shall be used, and they shall be kept in operative condition in an easily accessible case or cabinet located immediately outside the refrigerating machinery room.

b. Signs.

1. On Class A and Class B systems containing more than fifty (50) pounds of refrigerant there shall be painted on and affixed in a permanent manner to the main steam control, main electrical and remote control switches, receivers, containers and shell type coolers, signs having letters not less than one and one-half inches (1½") high, designating the part and refrigerant contained therein.

2. The seller of every Class A or B system shall furnish the purchaser with a sign bearing his name at least 8½" by 11" in size, which gives the rated refrigeration capacity and the quantity and kind of refrigerant required for the satisfactory operation of the system. The purchaser shall conspicuously and permanently display this sign in the machinery room. The quantity and name of the proper refrigerant content and the rated refrigeration capacity shall be stamped on all Class C systems near to or on the name plate.

3. The following information shall be posted in Class A and B machinery rooms where over fifty (50) pounds of refrigerant is used: (a) The names and addresses of the engineers or operators in charge; (b) Location of nearest fire alarm box; (c) The name, address and telephone number of physician to be called in case of emergency; (d) Instructions for safely shutting down the plant in case of emergency.

c. Storage of refrigerant.

1. Refrigerant not contained in the refrigerating system shall be stored only in non-inflammable or non-irritant containers conforming to the regulations prescribed by the Interstate Commerce Commission for the transportation of such refrigerant.

2. Only two containers holding not more than a total of three hundred (300) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class A system.

3. Only one container holding not more than one hundred and fifty (150) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class B system.

4. In a Class C system no refrigerant other than that used in the system shall be stored in the refrigerating machinery room.

5. If a greater amount of inflammable or irritant refrigerant than that permitted in a refrigerating machinery room is desired, it shall be stored in a fireproof building or enclosure used for no other purpose.

6. When the refrigerant is withdrawn from a system it shall be discharged only into a suitable absorbent or containers conforming to the regulations of the Interstate Commerce Commission for the transportation of such refrigerant. It shall be unlawful to permit any refrigerant to escape into the refrigerating machinery room.

7. Containers shall be connected to the system only during period of charging or withdrawing the refrigerant.

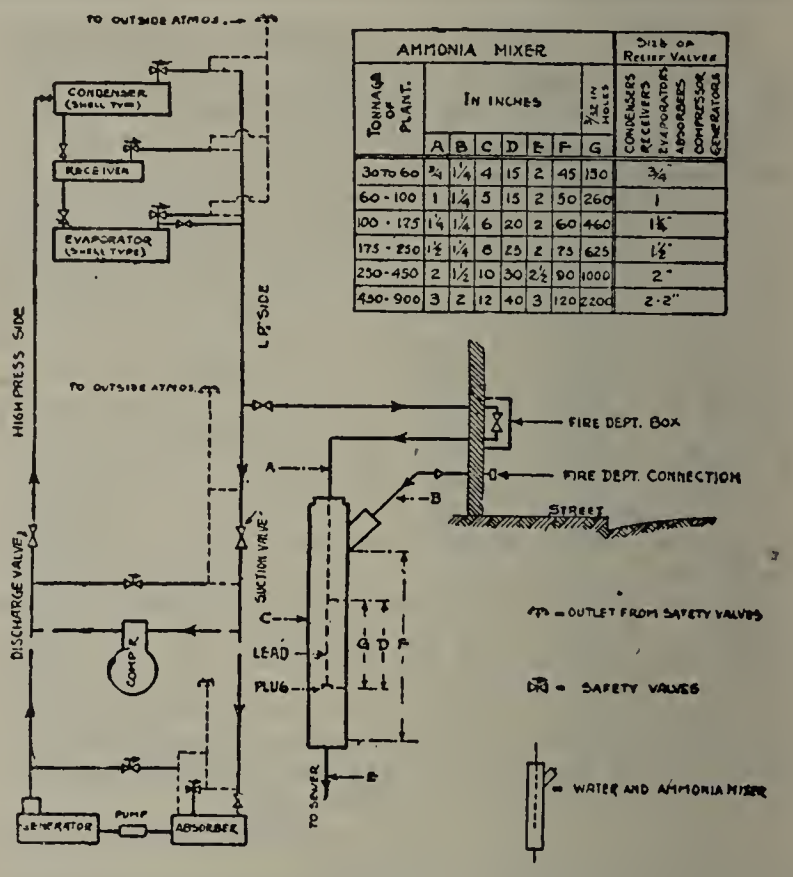
§C19-107.0. Equipment Diagrams.

(See arrangement of pressure relief devices for Class A and Class B equipment.)

Penalties.

§C19-152.0. Violations.

Any person who shall willfully violate or neglect or refuse to comply with any provisions of part 1, of this title, except the provisions of article twenty-six, in addition to any other penalties prescribed by law, shall, upon conviction, be punished by a fine of not more than $500, or by imprisonment not exceeding six months, or by both.



AMMONIA MIXER

The Hearing Calendar.

Minutes of Regular Meeting of Tuesday Morning, December 11, 1945, Affecting Calendar Numbers 289-40-BZ, 619-45-BZ, 234-36-BZ, 336-37-BZ, 597-39-BZ, 583-45-BZ, 685-45-BZ, 695-45-A, 716-45-A, 137-45-A, 444-45-A, 754-45-A, 475-44-A, 310-40-SM and 538-45-SA.

Minutes of Regular Meeting of Tuesday Afternoon, December 11, 1945, Affecting Calendar Numbers 625-45-A, 643-45-A, 677-45-A, 686-45-A, 699-45-A, 1197-39-A, 685-41-S, 492-42-A, 751-44-A, 20-45-A, 1078-40-A, 692-45-A, 712-45-A, 714-45-A, 729-45-A, 94-19-BZ, 368-19-BZ, 586-42-BZ, 700-29-BZ, 401-31-BZ, 503-38-BZ, 982-39-BZ, 1181-39-BZ, 151-41-BZ, 721-41-BZ, 772-41-BZ, and 598-43-BZ.

Correction Affecting Calendar Number 577-45-A.

Notice of a Public Hearing on proposed amendments to rules governing installation of interior fire alarm signal systems.

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

Campagna, owner (Monitor Institutes, Inc., under contract to purchase, lessee), to permit in a residence use district, the alteration and change of occupancy from multiple dwelling to business use (offices for research bureau); premises 640 West 249th street (Spaulding lane), south side, 162 ft. west of Arlington avenue (Block 3419, part of Lot 290), Borough of The Bronx.

819-45-BZ—Application, December 29, 1945, under sections 7a and 21 of the zoning resolution, of T. H. Engelhardt, applicant, on behalf of United National Bank of Long Island, owner, to permit in a business use, D area district, the extension of an existing building (Bank) to occupy more than permitted area; premises 103-48 Lefferts boulevard, west side, 93.66 ft. north of Liberty avenue (Block 9556, Lots 26 and 27), Richmond Hill, Borough of Queens.

1000-40-BZ—Application of Oscar Goldschlag, applicant, on behalf of Eckert Realty Corp., owner, reopened July 14, 1942, under sections 7e and 21 of the zoning resolution, to permit in a residence use, B area district, the conversion of apartments to retail stores in basement, which is the street floor facing the Grand Concourse; premises 2337 Grand Concourse, 164 Field place, southwest corner (Block 3164, Lot 19), Borough of The Bronx.

442-45-BZ—Application, June 28, 1945, under section 21 of the zoning resolution, of Oscar Goldschlag, applicant, on behalf of Grandboro Realty Corp., owner, to permit in a residence use, B area district, the conversion of apartments to retail stores on first floor facing the Grand Concourse; premises 2327 Grand Concourse, west side, 150 ft. south of Field place (Block 3164, Lot 25), Borough of The Bronx.

443-45-BZ—Application, July 5, 1945, under section 21 of the zoning resolution, of Oscar Goldschlag, applicant, on behalf of Andart Realty Corp., owner, to permit in a residence, B area district, the conversion of apartments to retail stores on the first floor facing the Grand Concourse; premises 2331 Grand Concourse, west side, 100 ft. south of Field place (Block 3164, Lot 23), Borough of The Bronx.

411-45-BZ—Application, July 2, 1945, under section 21 of the zoning resolution, of Emil Koeppel, applicant, on behalf of General Outdoor Advertising Co., owner, to permit in a business use and residence use district, the extension of an existing garage for more than five cars; for storage and paint shop; premises 538 Washington avenue, west side, 80 ft. south of Fulton street and 898-902 Fulton street (Block 2012, Lots 32, 35, and 39), Borough of Brooklyn.

CALENDAR

927-22-BZ—Application of Herman Kron, applicant, on behalf of Rogers Place Corporation, owner, reopened October 9, 1945, under section 7b and 7c of the zoning resolution, to permit in a residence and business use district, the alteration and conversion of occupancy from public baths to factory; premises 913-915 Westchester avenue, north side, 93.47 ft. west of Rogers place (Block 2698, Lot 79), Borough of The Bronx.

Appliance and Materials for Approval.

703-45-SA—Watson Electro-Mechanical Interlock, Type 5-B.

145-45-SM—Atlas Mortar Masonry Cement.

432-45-SM—Alpha Mortar Cement.

706-45-SM—Flexicore Floor and Roof Slabs.

496-39-SM—Alpha Type I Portland Cement (reopening and amendment).

604-44-SM—Alpha High Early Strength Portland Cement, Type III (reopening and amendment).

HARRIS H. MURDOCK, *Chairman.*

FEBRUARY 13, 1946, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Wednesday morning, February* 13, 1946, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

503-44-BZ—Application, August 30, 1944, under section 7c of the zoning resolution, of Ettore Mazzei, applicant and owner, to permit in a retail use district, light manufacturing, not incidental to sale or retail business, occupying more than permitted floor area; premises 82 Seaview avenue, southwest corner of Jefferson street (Block 3306, Lot 44), Grant City, Borough of Richmond.

739-45-BZ—Application, November 30, 1945, under section 21 of the zoning resolution, of J. M. Berlinger, applicant, on behalf of Mayfry Estates, Inc., owner, to permit in an unrestricted use, B area district, the extension of present building to cover entire plot for one (1) story; premises 407 West 38th street, north side, 100 ft. west of 9th avenue (Block 736, Lot 29), Borough of Manhattan.

633-45-BZ—Application, October 20, 1945, under section 21 of the zoning resolution, of Ferdinand Savignano, applicant, on behalf of Julius Spilka, owner, to permit in an unrestricted use, C area district, the extension of present building to occupy more area than permitted at curb level; premises 1474-1476 60th street, south side, 60 ft. west of 15th avenue (Block 5720, Lot 38), Borough of Brooklyn.

736-45-BZ—Application, November 3, 1945, under sections 7e, 7f, 7i and 21 of the zoning resolution, of John Kadel, applicant, on behalf of The Rector, Churchwardens and Vestrymen of Trinity Church in the City of New York, owner, to permit in a business use district, the erection of a gasoline service station, lubritory, office, repairs for four (4) cars and car washing; premises 3740 Broadway, northeast corner of West 155th street (Block 2114, Lot 1), Borough of Manhattan.

797-45-BZ—Application, December 19, 1945, under section 21 of the zoning resolution, of Queens Avenue Realty Corporation, applicant and owner (Lievendag Motors, Inc., lessee), to permit in a business use, C area district, the erection of a building to occupy more area than permitted at curb level; premises 164-26 Northern boulevard, and 164-27 Sanford avenue, southwest corner (Block 5337, Lot 17), Flushing, Borough of Queens.

9-46-BZ—Application, January 9, 1946, under section 21 of the zoning resolution, of Irvin L. Scott, applicant, on behalf of Charles F. Noyes, owner (51 West 51st Street Corporation, lessee), to permit in retail use, B area district the alteration and extension of an existing business building (restaurant) to cover more than permitted area; premises 51-55 West 51st street, north side, 153 ft. east of Avenue of The Americas (6th avenue); (Block 1267, Lots 8 and 107), Borough of Manhattan.

982-39-BZ—Application of Julius Eckman, applicant, on behalf of Chapmald Realty Corp., owner, reopened December 11, 1945, under sections 7h and 21 of the zoning resolution, to permit in a residence use district, for a term of years, the parking and storage of more than five (5) motor vehicles (previously denied by the Board under section 21 and again denied by the Board under section 7h of the zoning resolution); premises 406-420 West 55th street, south side, 100 ft. west of 9th avenue (Block 1064, Lots 37, 39, 40, 41, 42 and 141), Borough of Manhattan.

40-46-BZ—Application, January 17, 1946, under section 21 of the zoning resolution, of Sidney L. Strauss, applicant, on behalf of North River Savings Bank, owner, to permit in a retail use, B area district, the erection of an addition to an existing building covering more than 65% of the lot area; premises 206-212 West 34th street, south side, 100 ft. west of 7th avenue and 209-211 West 33rd street (Block 783, Lots 33 and 50), Borough of Manhattan.

398-45-BZ—Application, June 20, 1945, under sections 7A, 7f and 7i of the zoning resolution, of Stanley Kilburn, applicant and owner, to permit in a business use district, the alteration and extension of an existing building occupied as a restaurant, and the change of occupancy to showrooms, gasoline service station, repair shop and dwelling, and to permit show windows and entrances more than 25 ft. from the intersection of the residence and business use districts; premises 209-01 to 209-19 Northern boulevard, north side, between Corporal Kennedy street (Stewart avenue) and 209th street (Wright avenue); (Block 6279, Lot 21), Bayside, Borough of Queens.

48-46-BZ—Application, January 23, 1946, under section 21 of the zoning resolution, of Samuel Rosenblum, applicant, on behalf of 13 East 53rd Street Realty Corp., owner (Olmsted Restaurant, Inc., lessee), to permit in restricted retail use, B area districts, the proposed extension exceeding permitted area coverage of lot at curb level, and also omitting required 10 feet rear yard; premises 13 East 53rd Street, north side, 225 ft. east of 5th avenue (Block 1289, Lot 10), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

FEBRUARY 13, 1946, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Wednesday afternoon, February* 13, 1946, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matter:

Appeal from Administrative Decision.

796-45-A—22-32 Buckingham road, west side, 172 ft. 7 in. south of Caton avenue (cellar and 1st floor); (Block 5076, Lot 14), Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, DECEMBER 11, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy.

ZONING APPLICATIONS

289-40-BZ

APPLICANT—Irving N. Fenichel, for Lerad Realty Corp., owner.

SUBJECT—Application reopened November 13, 1945 for consideration as to amendment of resolution—re Application (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a C area district, the extension of an existing building without conforming to the area and yard requirements of the zoning resolution, the Board having granted a variation but the work was not started until the area and yard requirements were changed.

PREMISES AFFECTED—103 Bruckner boulevard, north side, 195 ft. west of Brown place (formerly 447-457 East 133rd street, north side, 200 ft. west of Brown place); (Block 2278, Lots 64 and 69), Borough of The Bronx.

APPEARANCES—

For Applicant: None.

For Opposition: Charles Keegan, V. F. Roxhoe, Agnes McHale, Ernest Moulard, Catherine Butler, John J. Walsh and Henry McHale.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 15, 1946 at 10 A.M., at request of representative for objectors.

619-45-BZ

APPLICANT—James Whitford, for William J. Couch, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7a of the zoning resolution, to permit in a residence use district, the extension of an existing garage and repair shop, and to include auto truck showroom and repair shop.

PREMISES AFFECTED—977 Victory boulevard, north side, 932 ft. east of Melrose avenue (Block 240, Lot 26), Tompkinsville, Borough of Richmond.

APPEARANCES—

For Applicant: James Whitford and William J. Couch.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

234-36-BZ

APPLICANT—Joseph Brill, for Trebuhs Realty Co., Inc., owner (Bonded Auto Sales, lessee).

SUBJECT—Application reopened September 25, 1945 (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail-1 district, the change in occupancy from garage, previously granted by the Board, for more than five motor vehicles and stores to garage for more than five motor vehicles, used car sales and storage, stores and dance school.

PREMISES AFFECTED—1690-1698 Broadway and 203-209 West 53rd street, northeast corner (Block 1025, Lot 25), Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Brill and Ralph Whittaker.

For Opposition: Ruth Ronson.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended and permit extended.

THE VOTE TO AMEND RESOLUTION AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4

Negative 0

THE RESOLUTION (234-36-BZ)

WHEREAS, this application, under section 21 of the zoning resolution, permitting in a business use district, for a term of five (5) years, the conversion of occupancy of part of an existing building, to the storage of more than five motor vehicles, affecting premises 1690-1698 Broadway and 203-209 West 53rd street, northeast corner (Block 1025, Lot 25), Borough of Manhattan, was granted by the Board on March 16, 1937, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and an extension of the permit, which permit had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on September 25, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 11, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Broadway is in a retail-1 use, B area and Class 2 height district and West 53rd street is in a retail-1 use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated October 18, 1945, on application for a certificate of occupancy, reads:

"2. Use of premises in a retail district, as a garage for more than five motor vehicles, would be contrary to Art. 2, Sec. 4 of the Zoning Law."

and

WHEREAS, the applicant states that the premises consist of a plot, 101 ft. 7½ in. frontage by 112 ft. 4¾ in. in depth (irregular) on which is located a building 101 ft. 7½ in. by 112 ft. 4¾ in. deep (irregular), 2 stories and basement (25 ft.) in height, of Class 3 construction and that it is proposed to use the basement for the storage of more than five cars; and

WHEREAS, the applicant contends that the building was completed in 1935 and the basement was designed and constructed with the intention that it should be used for the storage of used cars to be demonstrated and sold from part of the floor above, which was intended to be occupied by an automobile sales agency or for the sale of new or used automobiles; that it is so occupied by the Bonded Auto Sales which keeps about 35 cars in the basement, many of which are taken out for the purpose of demonstration and sale; that the basement is not being used and is not intended for use as a garage, that is, where cars are stored for hire; that the basement is fireproof and the use is private garaging; that through inadvertence or misunderstanding, the application for the certificate of occupancy specified that the basement was to be used as "storage," it being probably considered at the time that since the use was not to be in any way allied with garaging for hire, that the word "storage" more correctly designated the purpose; that if the application is denied, the applicant will suffer hardship, as the cars are

being handled in the only practical way and without any risk or danger.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted March 16, 1937, only so far as it has reference to the term of the permit, so that as amended this portion of the resolution shall read:

"****granted* under section 7e for a term of two years from the date of this *amended* resolution, to permit the continuation of the same type of business as was operated under the previous variance by the Packard Company agency by the present agency known as Bonded Auto Sales; that the windows on the interior lot lines in the cellar shall be blocked up with approved masonry or glass block approved for exterior wall construction; that the cellar shall be ventilated to the satisfaction of the borough superintendent; and that in all other respects the resolution adopted by the Board March 16, 1937, shall be complied with; that a new certificate of occupancy shall be obtained for the building."

336-37-BZ

APPLICANT—Stewart and Shearer, for The New York Public Library, Astor, Lenox and Tilden Foundations, owners.

SUBJECT—Application reopened November 20, 1945 for consideration as to extension of variance (expired by limitation)—Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a retail use district, the parking and storage of more than five motor vehicles, for a term of two years.

PREMISES AFFECTED—322-328 West 57th street, south side, 275 ft. west of 8th avenue (Block 1047, Lots 44 and 46), Borough of Manhattan.

APPEARANCES—

For Applicant: Clarence Kempner.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (336-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a retail use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 322-328 West 57th street, south side, 275 ft. west of Eighth avenue (Block 1047, Lots 44 and 46), Borough of Manhattan, was granted by the Board on March 1, 1938, on certain conditions; and

WHEREAS, the permit was extended on March 5, 1940 and March 3, 1942; and

WHEREAS, the resolution was amended on October 19, 1943 and the applicant requested a further extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on November 20, 1945, restored to the calendar and set for hearing on December 11, 1945, at 10 A.M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting on December 11, 1945, after due publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the decision of the borough superintendent, dated December 6, 1945, on Alt. Applic. 2059-45, reads:

"1. A temporary C.O. 29185 was granted for a parking lot for more than 5 cars in retail district under the resolution of B. of S & A Cal. 336-37-BZ for a period of two years from Mar. 3, 1942. This permit has expired. Parking of more than 5 cars in a retail district is contrary to Art. II, Sub. 4a.15 Z.R."

and

WHEREAS, C.O. 29185 dated July 21, 1942 reads: "Parking and storage of more than five motor vehicles. Area of parking lot 100 ft. by 100 ft. Note: No sign shall be erected other than a sign at the entrance advertising the parking and storage use; that such sign shall not exceed 5 sq. ft. in area. This is a temporary C.O. issued for a period of two years beginning from March 3, 1942."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted March 1, 1938, as amended by resolutions adopted through October 19, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7h thereof, to permit the premises to be used for the parking and storage of more than five motor vehicles for a term of two years from the date of this *amended* resolution; on condition * * * and that other than as herein *amended,* the resolution adopted by the Board on March 1, 1938, shall be complied with in all respects and that a new certificate of occupancy shall be obtained."

597-39-BZ

APPLICANT—Lama and Proskauer, for Socony-Vacuum Oil Co., Inc., owner.

SUBJECT—Application reopened July 3, 1945 (decision of the borough superintendent) under section 7c of the zoning resolution, permitting in a business use district, the extension of an existing gasoline service station, and the inclusion of new parking and storage of more than five motor vehicles (previously granted on condition).

PREMISES AFFECTED—84-04 Parsons boulevard and 152-16 84th avenue, southwest corner (Block 9751, Lots 1 and 5), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (597-39-BZ)

WHEREAS, this application, under sections 7c and 21 of the zoning resolution, permitting in a business use district, the alteration and extension of an existing gasoline service station, affecting premises 84-04 Parsons boulevard and 152-16 84th avenue, southwest corner (Block 9751, Lot 1), Jamaica, Borough of Queens, was granted by the Board on December 12, 1939, on certain conditions; and

WHEREAS, the resolution was amended on June 16, 1942 and the applicant requested a further amendment of the resolution, to permit on Lot 5, the inclusion of the parking and storage of more than five motor vehicles; and

WHEREAS, this case was reopened by vote of the Board on July 3, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 11, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Parsons boulevard is in a business use, D area and Class 1 height district and 84th avenue is in a business and residence use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 5, 1945, re Alt. Applic. 736-45, reads:

"1. The extension of an existing gasoline station and the inclusion of new parking and storage of motor vehicles in a business district is contrary to Art. II, sec. 4 of the Zoning Resolution and in variance with resolution by the Board of Standards and Appeals, Cal. 597-39-BZ and same must be submitted to said Board for further consideration."

and

WHEREAS, the applicant states that the premises consist of a plot 85.33 ft. frontage by 106.47 ft. in depth, on which is located a building 45 ft. 11 in. front by 45 ft. 11 in. deep, one-story (15 ft.) in height, of Class 3 construction; that on the premises is another building, 30 ft. front by 55 ft. deep, one-story (15 ft.) in height, of Class 3 construction, housing two stores; that it is proposed to demolish present buildings with stores, in order to extend area of existing gasoline service station and permit the additional use for parking of more than five motor vehicles; and

WHEREAS, the applicant contends that premises are presently improved with two buildings, one, 45 ft. 11 in. by 45 ft. 11 in. housing a lubritorium, auto laundry, storage space and office; the other, a one-story stucco building, housing two stores, measuring approximately 30 ft. by 55 ft.; that it is the intention of the owners to demolish the stucco building with stores, so as to extend the area of the existing gasoline service station and permit the additional use for parking more than five cars; that it is proposed to construct along the lot lines, brick wall with wood pickets, to match the existing wall on the westerly lot line of the gasoline service station; that no new pumps or storage tanks will be installed; that this additional area is necessary to give better facilities to the patrons of the existing gasoline service station; that the cellar will be filled up to grade and the entire extended area paved with concrete; that this proposed extension will in no way affect surrounding property owners, but will afford better facilities to the patrons of the gasoline service station.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of December 12, 1939, as amended June 16, 1942, by adding thereto:

"*Resolved further,* that the decision of the borough superintendent on Alt. Applic. 736-45 dated June 5, 1945 be and it hereby is *modified* and that the application be and it hereby is *granted* under section 7c, to permit an extension in area, consisting of the addition of the adjoining lot to the south known as Lot 5, as indicated on plans filed with this application marked 'Received June 19, 1945' *on condition* that the requirements of the resolution of December 12, 1939 shall be complied with as to the plot as enlarged; that the adjoining space shall be paved as required therein; that a wall and fence shall be maintained along the new interior lot lines to the south and west; that retaining walls where necessary to the south and west, shall be erected to the height of the adjoining land and a fence as proposed, shall be erected on top of such wall; that such walls on the interior lot lines shall be brick and where now existing of masonry shall be faced with face brick and the fence erected thereon shall be kept properly painted; that all walls shall be at least 6 ft. in height above the grade of the gasoline station area, but in no event to a total height of wall and fence of less than 6 ft.; that the existing building shall be removed on Lot 5 and the cellar shall be completely filled to grade; that the plot shall be used for no purpose other than permitted herein as a gasoline service station and not over ten (10) cars shall be parked or stored on the plot, in addition to those being serviced and the accessory use of washing and greasing; that no cars shall be parked or stored other than those being serviced; that new curbs and sidewalk shall be constructed, conforming to the lines of Parsons boulevard, as proposed to be widened; that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution."

583-45-BZ

APPLICANT—Jules Lewis, for Cord Trading Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7b of the zoning resolution, to permit in a residence and business use district, the erection of a building for showrooms and manufacturing, and is also in excess of the height permitted under the zoning resolution.

PREMISES AFFECTED—388-402 Hudson street and 264-270 West Houston street, northeast corner and 22-28 Clarkson street (Block 581, Lots 45 to 53 and 83), Borough of Manhattan.

APPEARANCES—

For Applicant: Jules Lewis.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustav Goldman, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (583-45-BZ)

WHEREAS, Jules Lewis, for Cord Trading Corporation, owner, filed September 27, 1945, an application under section 7b of the zoning resolution, to permit in a residence and business use district, the erection of a building for showrooms and manufacturing and which is also in excess of the height and area permitted under the zoning resolution; premises: 388-402 Hudson street, and 264-270 West Houston street, northeast corner and 22-28 Clarkson street (Block 581, Lots 45 to 53 and 83), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 11, 1945, after due notice by publication in its Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that Hudson street is in a business and residence use, B area and Class 2 and 1¼ height district; Clarkson street and West Houston street are in a business, residence and unrestricted use, B area and Class 2 and 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated September 12, 1945, as amended November 29, 1945, re N.B. App. 199-45, reads:

"1. Business use in a residence district is contrary to Art. II, Section 3 Zoning Resolution.

"2. Offsets of the portion of structure in the residence, Class 1¼ for the 6, 7 and 8th floors are contrary to Art. III, Section 8e Zoning Resolution.

"3. Portion of structure in residence district may not occupy more than 65% of its area. Art. IV, Section 12b, Zoning Resolution.

"4. Provide a yard adjacent to residence portion, yard to begin at curb level. Sections 17a and b, Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 200 ft. frontage by 125 ft. in depth, on which it is proposed to erect a building 200 ft. front by 125 ft. deep, 12 stories (104 ft.) in height, of Class 1 construction; that it is proposed to erect a new building for showrooms with 25% manufacturing; and

WHEREAS, the applicant contends that the westerly 100 ft. of plot is zoned for business and the easterly 25 ft. for residence use; that this entire property has been in single continuous ownership for the past ten years, waiting for the opportunity to build; that the recent change in the zoning law and very recent change in zoning district in the rear, from unrestricted to residence use has been particularly adverse to this plot, which was purchased for the

sole purpose of improving with a business building on entire area; that the change to residence use in the rear has totally destroyed the rear, 25 ft by 200 ft., as no profitable use could be made of it; that a rear yard must be left along the line of abutment, which under the new Zoning Law, varies from 10 ft. in 2nd story to 30 ft. 6 in. in top story; that this district is essentially commercial, as there are factories or commercial buildings on nearly all sides, namely to the east (the building facing Varick street), south, west and northwest; that in connection with the objection to the excessive heights, due also to a recent drastic change in the height district, this applies only to an area with a frontage of 11 ft. 5 in. and a depth of 5 ft. 7 in. at the rear of the building, in the 6th story only, and an area with a frontage of 5 ft. 9 in. and a depth of 16 ft. 10 in. at the rear of the building in the 7th and 8th stories only, both of these on the Clarkson street front only; that if an allowance for dormers was made, these small areas would be further diminished; that it is impossible to comply with the strict letter of the law and these small cutoffs would serve no useful purpose; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under section 7, subdivision b of the zoning resolution, and that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardships.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area regulations of the zoning resolution and that the application be and it hereby is *granted* under sections 7b and 21 thereof, to permit the extension into the more restricted district, as indicated on plans filed with this application marked "Received September 27, 1945," and modifying the decision of the borough superintendent dated November 29, 1945, re N.B. Applic. 199-45, objections 1, 2, 3 and 4, *on condition* that the amount of space in the building used for manufacturing shall not exceed 25 per cent; that the requirements of section 7-A shall be complied with in all respects, but the loading spaces on West Houston street and Clarkson street, as shown, may be permitted; that no advertising signs shall be attached to the face of the building within the residence use district and no roof signs shall be erected; that in the event it is required by the Board of Education that the existing chimney on the school on the adjoining lot, 54, shall be raised in order to produce the necessary draft due to the height of the proposed building, the extension of such chimney shall be constructed at the expense of the owner of this proposed building; that in all other respects, the building and occupancy shall comply with all laws and rules applicable thereto; that all permits required shall be obtained and all work completed within one year from the date of this resolution.

685-45-BZ

APPLICANT—Paul Friedman, for Chesthill Realty Corp., owner (Waltgoodcock Corp. and Avenue J Florist, lessees).

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a partly residence and partly retail use district, the extension for restaurant purposes of a one-story building.

PREMISES AFFECTED—1520-1524 Avenue J and 1002-1016 East 16th street, southwest corner (Block 6717, Lots 9 and 18), Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman, Walter Shapiro and Emanuel Lurio.

For Opposition: D. Weynberg, Robert Sosler, Eleanor Sosler and Sidney Levy.

For Administration: Fred. Dahlem, Dept. of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Savage 1

Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3

THE RESOLUTION (685-45-BZ)

WHEREAS, Paul Friedman, for Chesthill Realty Corp., owner (Waltgoodcock Corp. and Avenue J Florist, lessees), filed November 7, 1945, an application under decision of the borough superintendent, under section 7c of the zoning resolution, to permit partly in residence and partly in retail use districts, the extension for restaurant purposes of a one-story building, affecting premises 1520-1524 Avenue J and 1002-1016 East 16th street, southwest corner (Block 6717, Lots 9 and 18), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 11, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Avenue J is in a residence, retail and business use, C area and Class 1¼ height district and East 16th street is in a retail and residence use, C area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent acting on Alt. Applic. 3247-45, dated October 22, 1945, reads:

"1. Extending business use into a residential zone, is contrary to Art. 2, sect. 3 of Zone Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 45.4 ft. frontage by 141 ft. in depth, on which is located a building 45.4 ft. front by 100 ft. deep (irregular), 1 story (16 ft.) in height of Class 3 construction; that it is proposed to erect in the rear yard, a one-story brick extension to the existing restaurant, 18 ft. by 26.4 ft., 16 ft. in height; and

WHEREAS, the applicant contends that the plot is presently zoned as retail use for a distance of 100 feet south of Avenue J and the remainder of 41 feet is zoned as a residence use district; that the entire property was zoned as residence use in 1916 and the portion now zoned as retail use, was changed to that designation on July 23, 1945; that the rear yard, approximately 41 feet by 45.4 feet is vacant and it is proposed to erect thereon, a one-story brick extension to the existing restaurant, the extension to be 18 feet by 26.4 feet in area and 16 ft. in height; it is proposed to finish the East 16th street wall with face brick and glass block and the southerly wall with common brick and glass block and the westerly wall with common brick and provide a window facing the elevated railroad station; to construct the coping of cast stone and the roof of an approved rubberoid type; that it is also proposed to remove a portion of the rear wall of the existing building, extend the seating area of the restaurant and relocate the kitchen and lavatories; to provide shrubbery along the East 16th street frontage for the entire front of proposed extension and extending to the southerly lot line of the plot; also to provide shrubbery along the southerly lot line for its entire length and to maintain the rear yard as a grass and shrubbery plot only; that the applicant further contens that the Board has jurisdiction under section 7c, to grant the relief requested, under such conditions as will safeguard the character of the more restricted district; that the proposed change will improve the appearance of the rear yard, by eliminating the present fenced-in unattractive weed patch and the erection of a small, attractive extension, set back from the building line, to permit planting of shrubbery along the entire front, planting the entire vacant rear yard and setting it off, from the building line and the adjoining vacant lot, by shrubbery; that this extension will increase the seating capacity of the restaurant and consequently increase the revenue to the city, because of the proposed improvement and consequent increase in assessed valuation of the property; that the proposed extension will not adversely affect the neighborhood; that the only window to be cut, will face the elevated railroad sta-

tion and the rear yard will not be used for any purpose in connection with the railroad; that the conditions imposed by the Board, if application is granted, will regulate the hitherto unregulated appearance of the rear yard and improve the appearance of the premises and will afford full protection to nearby property owners; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance, under section 7c of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3247-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

APPEALS FROM ADMINISTRATIVE DECISIONS

695-45-A

APPLICANT—Modern Carpet Sweeper Co. (lessee), for Rebecca Gussack, Nathan Gussack and Henry W. Gussack, owners.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—17-19 Rush street, north side, 123 ft. east of Kent avenue (5th floor); (Block 2163, Lot 35), Borough of Brooklyn.

APPEARANCES—
For Applicant: M. R. Meyer and C. Anthony.
For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Laid over to December 18, 1945 at 10 A. M. for further consideration after inspection by Fire Department representative.

716-45-A

APPLICANT—S. Millman and Son, for Abraham Karron, owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—243-245 Glenmore avenue, northeast corner of Snediker avenue (5th floor); (Block 3698, Lot 32), Borough of Brooklyn.

APPEARANCES—
For Applicant: Peter Millman and A. Karron.
For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Laid over to January 22, 1946 at 10 A.M. for inspection by a committee of the Board and decision.

137-45-A

APPLICANT—Philip Freshman, for Milkin Realty Corp., owner (Tung Sol Electric Corp., lessee).

SUBJECT—Application reopened and restored to calendar October 16, 1945—Appeal from a decision re order of the fire commissioner (previously withdrawn).

PREMISES AFFECTED—51-55 Nassau avenue, and 68-74 Guernsey street, northeast corner (3rd floor); (Block 2644, Lot 45), Borough of Brooklyn.

APPEARANCES—
For Applicant: Philip Freshman, W. Hammond and John Drewes.
For Administration: E. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (137-45-A)

WHEREAS, this appeal from an order and a decision of the fire commissioner, affecting premises 51-55 Nassau avenue and 68-74 Guernsey street, northeast corner (3rd floor); (Block 2644, Lot 45), Borough of Brooklyn, was withdrawn on July 27, 1945; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on October 16, 1945 and restored to the calendar; and

WHEREAS, the applicant has now submitted Order 431-LC, issued by the fire commissioner September 7, 1945, which reads:

> "You are hereby notified that an inspection of the above premises, used to store and use hydrogen and carbon monoxide gas shows that the following must be done before the permit requested by you can be issued.
>
> "1. Discontinue the use of the mixed hydrogen and carbon monoxide gas on the 3rd floor in the special filament heating furnaces since same creates an undue fire risk and is against the interest of public safety. C19-11.0 Administrative Code."

and

WHEREAS, the applicant states the building is three stories (46 ft.) in height, 98 ft. 8 in. by 74 ft. 10⅜ in. in area; Class 1 construction; erected in 1903; located in a business use, C area, Class 1¼ height district; used for the manufacture of radio tubes, 26 persons on the 1st floor, 199 persons on the 2nd and 168 persons on the 3rd floor; that the building is equipped with one 3 ft. 8 in. wide steel stairs, enclosed with terra-cotta blocks and equipped with steel, self-closing doors, and leads from the roof bulkhead, directly to the street, and with one fire escape in the center court, leading directly to the street on the first floor; and

WHEREAS, the applicant contends that in connection with the manufacture of radio tubes, small metallic parts are annealed in two small ovens, one 13 by 18 by 42 in. and another 12 in. by 14 by 40 in., located in a fireproof room on the 3rd floor on the westerly side of the building; that the gas used for these ovens has to be processed to a condition that permits the content or quality of gas to its practical use for annealing small metallic parts of radio tubes; this is accomplished by using a device known as the Westinghouse Endo gas generator which is a retort, wherein the impurities of the original gas piped through a gas meter in the cellar from local gas company, has been eliminated through a process of crackling, and then piped to the ovens referred to above; that the use of gas as processed is essentially necessary in connection with the manufacture of radio tubes; that inasmuch as the ovens are located in a fireproof room, entirely isolated from any areas where persons are working and no extra hazard is involved, it is requested the order of the fire commissioner be modified so that the use of the gas may be continued; and

WHEREAS, the applicant now contends that at the time of the original hearing before the Board, the question was raised as to the gas generating device involved; that this device is now indicated to be of the type manufactured by the Westinghouse Electric and Manufacturing Company, as filed with the Board for approval under Cal. No. 1-44-SA, which application for approval was dismissed for the reason that the device was in connection with the manufacturing process and was not considered as a fixed utility within the building.

Resolved, that Order 431-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted as to Item 1, on condition* that the piping of gas from the the generator on the first floor shall be removed and installed on the exterior of the building, entering at the third story at a point as close as possible to the fireproof room on the third floor, where annealing ovens are maintained; that in the ceiling of such room on the third floor there shall be additional natural ventilation, consisting of a skylight in the ceiling with fixed louver; that such skylight shall be not less than 4 ft. by 4 ft. in size with not less than 5 sq. ft. of fixed ventilation; that a temperature switch shall be installed at each oven, with a solenoid valve in the gas line, so as to close the valve in the event of flame failure or the failure of ignition; that a partition shall be constructed on the first floor,

so as to enclose the space where the generator is installed; that such partition shall be constructed of fireproof materials with fireproof, self-closing door, to separate such room from the balance of the building used for loading and unloading; that fixed ventilation shall be provided for such generator room to the satisfaction of the fire commissioner, by means of existing windows and a new skylight in this area; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that this appeal is granted only so long as the equipment and methods used are to the satisfaction of the fire commissioner.

444-45-A

APPLICANT—Leonard S. Wegman, for H. M. Rubin Co., owner.

SUBJECT—Application reopened and restored to calendar December 4, 1945—Appeal from a decision of the commissioner of marine and aviation (previously withdrawn).

PREMISES AFFECTED—Southeast corner of Vernon boulevard and 53rd avenue (Block 38, Lots 3 to 15), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Leonard S. Wegman and Andrew Bato.

For Administration: E. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (444-45-A)

WHEREAS, Leonard S. Wegman, for H. M. Rubin Co., owner, filed July 13, 1945, an appeal for review of a decision of and a recommendation to the Commissioner of Marine and Aviation, affecting the southeast corner of 53rd avenue and Vernon boulevard (Block 38, Lots 3 to 15), Long Island City, Borough of Queens; and

WHEREAS, the decision of the Commissioner of Marine and Aviation dated July 6, 1945, based on an application for the installation of one 20,000 gallon and two 1500 gallon naphtha tanks and one 10,000 gallon fuel oil storage tank, reads:

"Your application of June 6th, 1945, for a permit which would authorize the installation of one 20,000 gallon and two 1500 gallon naphtha tanks and one 10,000 gallon fuel oil tank on privately owned property at 53rd avenue east of Vernon boulevard, Newtown Creek, Borough of Queens, is hereby denied.

In accordance with the usual procedure your plans were referred by us to the Fire Department of the City of New York for examination and recommendation. These plans have been returned to us by the Fire Department and our attention directed to the fact that the storage of naphtha is in excess of the amount specified in Section C19-51 of the Administrative Code which limits the quantity to 550 gallons.

You may submit an appeal to the Board of Standards and Appeals of the City of New York. Should the said Board decide that extenuating circumstances warrant the proposed installations, this Department would be guided accordingly."

and

WHEREAS, this appeal was withdrawn by the applicant on July 27, 1945 to submit to the Commissioner of Marine and Aviation, for decision, the question of the proposed distillation of solvent in connection with the installation in question; and

WHEREAS, the decision of the Commissioner of Marine and Aviation, dated November 19, 1945, reads:

"Your request for a permit for the installation of one 20,000 gallon and two 1,500 gallon naphtha tanks and one 10,000 gallon fuel oil tank; also the reclaiming and distillation system at 53rd avenue east of Vernon boulevard, Newtown Creek, Borough of Queens, indicated on your amended plan submitted October 22nd, 1945, is hereby denied. However, you may sumbit an appeal to the Board of Standards and Appeals of The City of New York and if the said Board decides that extenuating circumstances warrant the proposed installation, this Department will be guided accordingly."

and

WHEREAS, the applicant states that the plot is 96 ft. by 100 ft. irregular in area, located in an unrestricted use, A area and Class 2 height district, proposed to be used for converting animal fat, bones and other waste fats into grease, tallow and feed; and

WHEREAS, plans filed with this appeal marked "Received November 20, 1945" (10 sheets) indicate that it is proposed to install one 8 ft. by 56 ft. 20,000 gallon naphtha storage tank and two 3 ft. by 40 ft. 1500 gallon naphtha service tanks and one 10,000 gallon fuel oil tank; and

WHEREAS, the applicant contends that the Commissioner of Marine and Aviation had previously granted a permit for the construction of the plant which is now practically complete except for the machinery currently being installed; that when application was made for the solvent storage tanks necessary for plant operation, approval was withheld; that the method by which solvent will be recovered at this plant, namely simple vaporization and condensation, does not in any way conflict with Section C19-49 of the Administrative Code; that the intent of the Code appears to be to prohibit the manufacture by refining and distillation of the petroleum products; that the products handled at this plant will be entirely animal; that the form of vaporization and condensation employed will be merely incidental to the basic operation and is only for the purpose of separating the solvent from the liquid tallow; that the installation of a 550 gallon capacity tank would be more hazardous than that proposed as the extraction process to be used requires 4,500 gallons of fresh naphtha per 8 hour day per extractor or a total of 22,500 gallons if all five extractors are simultaneously used; that the proposed 20,000 gallon storage tank and two 1500 gallon service tanks provide just sufficient to cover the maximum daily requirements; that the solvent to be used for extracting is heptane, a naphtha derivative, having a flash point of 96.8 deg. F.; that the solvent will be delivered to the plant in tank cars and pumped into the 8 ft. by 56 ft. storage tank and will flow by gravity into the two 3 ft. by 40 ft. tanks, controlled by float valves, set to permit only enough solvent into the tanks to replace the amount pumped out; that these tanks are connected to solvent pumps in the cooking room by means of a pipe line; both the inlet and outlet pipes of these tanks are individually controlled to permit shutting off one tank in the event of emergency; that during normal operations both tanks are connected by means of an equalizing pipe at the outlets and having a common vent pipe; pumps deliver the solvent to the valve nest which is a multiple manifold control panel, and by means of this control the solvent can be taken from either one of the two pumps and directed into any of the five pipe lines leading to the cookers; that the amount of solvent pumped into a cooker is up to 1500 gallons and enters the cooker through the bottom through five connections, each provided with a valve and filter; that before the solvent is pumped into the cooker the steam to the jacket is shut off; the solvent remains in the cooker for 30 to 50 minutes during which it gets saturated with tallow and is warmed due to the high temperature in the cooker and the solvent must be cooled before being pumped out again. The cooler used is a conventional type consisting of a bank of double pipes with the miscella flowing through the inner pipes and cooling water in the outer pipes. The solvent is then pumped through the manifold through two rotary pumps to miscella tanks thru an opening at the top. These tanks serve in addition to storage as settling tanks. This operation is repeated twice for each batch of material and the miscella is next pumped by centrifugal pumps to one of the stills in which the solvent is distilled

out of miscella with the tallow left at the bottom of the stills. The solvent vapors are condensed in condensers attached to the stills while the solvent is drained into the water separation tanks which is provided with an overflow for the solvent at the top and for the water at the bottom. The water overflow is provided with a seal and arranged to prevent siphoning; that the separating line between solvent and water will be at a safe height above the water flow connection and below the solvent overflow, calculated on the basis of the hydrostatic pressure to prevent the liquids from flowing in the wrong direction. The finished product is pumped from the stills to the tallow storage tanks while the solvent is returned from the separating tank to the 1500 gallon working tank; and

WHEREAS, the applicant contends that the following safety measures have been provided; that one threat to safety is the fact that the top of the 20,000 gallon naphtha storage tank is at a comparatively high elevation which could not be avoided without sacrificing storage capacity as the 3 ft. by 40 ft. 1500 gallon working tanks could not be placed lower on account of the ground water; that the proposed arrangement represents the limit satisfying the requirements of sufficient pitch between the storage and working tanks making it possible to drain the storage tank into the working tanks, providing the level of the solvent in the working tanks is sufficiently low; that to counteract this high elevation of the 20,000 gallon storage tank the discharge pipes of solvent pumps are carried up higher than the top of the storage tank; that the indoor part of the pipe line connecting the work tanks to solvent pumps is welded and laid in an open trench with steel plate covers and it will be part of the inspection and maintenance routine to examine this part of the pipe line regularly to discover seepage; that whatever flow could take place through the pumps when not working is stopped by the valves of the valve nest; that the return line from pumps to storage tanks is higher than both vent pipes and contains a check valve to prevent back flow in case of excessive pumping of solvent into the storage tank. The venting of all the miscella tanks, condensers and water separating tanks prevents siphoning and activated carbon absorption system will be installed to dispose of the solvent vapors before they become dangerous. Stuffing boxes of pumps will be provided with pressure lubrication using lubricants resisting action of the solvent; that should a leak of solvent occur a combustible gas alarm system will detect the vapors before they reach the lower explosive concentration; that this installation will have sampling stations at a number of points in the cooking room and the analyzing element will analyze the samples continuously in rotation at brief intervals giving an alarm when the concentration reaches the predetermined point and indicating the station at which this occurs; and

WHEREAS, the applicant contends that a continuous line rate-of-rise type fire alarm system will be installed to signal fires not discovered immediately by the operating personnel; that fire extinguishing equipment installed will include a steam extinguishing system consisting of pipe lines along the wall near the floor and along the center row of columns as low as possible. These pipes will be perforated and the steam will be supplied from the boiler used for operating the plant; that in case of fire the line used for operating purposes will be shut off by one valve outside the cooking room in the boiler room and adjoining valve controlling the fire extinguishing line open; that in addition wheeled type portable CO_2 extinguishers will be set up at various points; that regular inspection, maintenance and fire drill schedules will insure the prompt functioning of all of these devices.

Resolved, that the Board recommends to the Commissioner of Marine and Aviation that his decision dated July 6, 1945 on an application for the installation of one 20,000 gallon, two 1500 gallon naphtha storage tanks and one 10,000 gallon fuel oil tank and the distillation of solvents be *modified on condition* that the premises and the operation of the equipment shall be installed and maintained substantially as proposed and to the satisfaction of the Commissioner of Marine and Aviation and the fire commissioner; that the tanks to be buried adjacent to the one story building as indicated on plans submitted with this appeal, shall be anchored to prevent floating and supported to the satisfaction of the Commissioner of Marine and Aviation; that in addition to the construction as indicated, the top of the tanks shall be covered with either reinforced concrete or at least 12 in. of other material or clean fill, as the Commissioner of Marine and Aviation shall determine; that such manholes in the top of the tank as he may determine, shall be installed for inspection and cleaning; that such manholes shall be securely bolted to the tank and lead gaskets or other equivalent gaskets shall be employed; that such tanks should comply with the requirements of the Oil Burner Rules as to construction and all other requirements for tanks of such size, except as may be required under the rules of the Administrative Code for the protection of tanks used for the storage of naphtha; that while such oil is being stored, live steam with a pressure of approximately 125 lbs. shall be kept on at all times to provide means for fire protection as proposed.

754-45-A

APPLICANT—Sam Giambalvo, for J. Amendolara, owner.

SUBJECT—Appeal from a decision and order of the fire commissioner re Transportation of Kerosene in Tank Truck in New York City (capacity of Tank not in confomity with Administrative Code requirements covering Tank Trucks).

APPEARANCES—

For Applicant: Sam Giambalvo and Giuseppe Amendolara.

For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (754-45-A)

WHEREAS, Sam Giambalvo, for J. Amendolara, owner, filed December 7, 1945, an appeal from a decision of an order of the fire commissioner re: Transportation of kerosene in tank truck in New York City (capacity of tank not in conformity with Administrative Code requirements covering tank trucks); and

WHEREAS, Order 42843-LC, issued by the fire commissioner, on September 26, 1945, reads:

"An inspection of truck No. 1 on a Ford chassis used for the transportation of any liquid products of petroleum, shale oil or coal tar, as required by Section C19-52.0-a, Title C, Part 1, Article 8 of the Administrative Code of the City of New York, shows the following requirements necessary before a permit can be issued.

1. Discontinue the use of cargo tank in excess of three hundred (300) U. S. Gallons. Section 14.41."

and

WHEREAS, a decision of the fire commissioner, dated November 29, 1945, referring to Order 42843-LC, was filed with this appeal; and

WHEREAS, the applicant requests permission to transport kerosene in a 400 gallon tank truck, which complies with the requirements of the fire commissioner in all respects, except that it exceeds 300 gallons capacity; that the tank is constructed of 10 gauge plates, except the bottom, which is 3/16 in.; that the tank is welded throughout and structually safe for the proposed use and will be installed on the owner's 1½ ton 1944 Ford chassis, which has been adequately reinforced to carry the proposed load.

Resolved, that Order 42843-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the truck in all other respects, shall comply with the requirements therefor.

475-44-A

APPLICANT—Leo H. Schoen, for Reliable Remover and Lacquer Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Appeal from an order of the fire commissioner re Packaging of Inflammable Mixtures, known as "Reliable Paint, Varnish and Lacquer Remover" in 8 oz., 16 oz., 32 oz. and 128 oz. glass containers (previously withdrawn).

PREMISES AFFECTED—42-56 Crescent street, west side, 84 ft. north of 43d avenue (1st floor, rear building); (Block 429, Lot 31), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Leo H. Schoen.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3

Negative: Commissioner Savage 1

THE RESOLUTION (475-44-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 42-56 Crescent street, west side, 84 ft. north of 43rd avenue (1st floor, rear building); (Block 429, Lot 31), Long Island City, Borough of Queens, was withdrawn on February 14, 1945; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on March 20, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, on June 20, 1945, this appeal was granted on certain conditions, for a term of six months; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 20, 1945, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* for a term of six months from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of June 20, 1945, shall be complied with."

MATERIAL AND APPLIANCE SUBMITTED FOR APPROVAL.

310-40-SM

APPLICANT—United States Gypsum Company.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Approval of U.S.G. Two Inch Medium and Long Span, Tongue and Groove, Metal Bound Gypsum Plank.

APPEARANCES—

For Applicant: David C. Ossman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (310-40-SM)

WHEREAS, the U. S. Gypsum Company, owner, filed March 26, 1940, an application with the Board of Standards and Appeals, for approval of the material known as U.S.G. Two Inch Medium and Long Span, Tongue and Groove, Metal Bound Gypsum Plank; and

WHEREAS, this material was approved by the Board on July 2, 1940, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, the Report of the Committee on Tests, reads:

REPORT OF COMMITTEE ON TESTS.

December 8, 1945.

Re: Cal. 310-40-SM

Subject: U.S.G. Two Inch Medium and Long Span, Tongue and Groove, Metal Bound Gypsum Plank, approval of.

The applicant on December 5, 1945 requested reopening of the aforementioned application for the purpose of eliminating from the body of the report, the words reading "Planks wherever used shall be placed so as to provide a minimum of two bearing points for each plank," contending that this limitation reduces the strength of a roof deck since it does not have the stiffening effect of the negative moments normally developed over the supports because in order to meet the requirements for a minimum of two supports for each plank, the planks have to be cut and because of the cutting the metal tongue and groove connection with adjacent planks is eliminated and consequently no continuity can be developed. The applicant requests permission for the planks to be laid on the roof in a manner similar to the method of laying observed in the original tests which permitted planks to be laid as in the tests: namely, there were certain of the planks which had the one bearing point and the integrity of the construction was predicated upon the tongue and groove connections between adjacent planks regardless of the bearing points.

The Committee has considered the foregoing data and recommends that the sentence reading, "Planks wherever used shall be placed so as to provide a minimum of two bearing points for each plank" be eliminated from the report adopted by the Board July 2, 1940 and that in lieu thereof, the following wording be substituted: Planks wherever used shall be so placed as to allow the use of full lengths. Where a cut section of plank has but one bearing point, such cut section shall be drawn tight so as to fully engage adjoining tongues and grooves and when cut pieces are so used adjacent planks shall have bearing at two or more supports.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 2, 1940 in accordance with the recommendation set forth in the Report of Committee dated December 8, 1945.

538-45-SA

APPLICANT—Cyclotherm Corporation, owner.

SUBJECT—Cyclotherm Steam Generator (Oil Burner), Models OHM and OL, approval of.

APPEARANCES—

For Applicant: V. N. Connors.

ACTION OF BOARD—Appliance approved in accordance with the report of the Committee of Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (538-45-SA)

WHEREAS, the Cyclotherm Corporation, owner, filed on September 7, 1945, an application with the Board of Standards and Appeals for approval of the appliance known as the Cyclotherm Steam Generator (Oil Burner), Models OHM and OL; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Cal. #538-45-SA.

SUBJECT: Cyclotherm Steam Generator (Oil Burner), Models OHM and OL, Approval of.

The Cyclotherm Corporation of New York filed an application with the Board of Standards and Appeals for approval of the Cyclotherm Steam Generator (Oil Burner), Models OHM and OL, under the provision of C26-178.0b and Art. 12, Heating, Combustion and Chimneys, Administrative Building Code and the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION

The Cyclotherm Oil Burner is designed for use as an integral part of a heating unit such as a heating boiler, a hot water heater, or air heater. It is equipped with a complete set of controls and auxiliaries for automatic operation. The Model OL oil burner is furnished in varying sizes arranged for burning from one to eighteen gallons of light fuel oil (28 to 44 A.P.I. Gravity) per hour. The Model OHM oil burner is furnished in sizes burning from eighteen to one hundred fifty gallons of light or heavy fuel oil (14 to 26 A.P.I. Gravity) per hour.

The burner consists of five main assemblies:

The Burner Assembly
The Nozzle and Electrode Assembly
The Ignition Transformer Assembly
The Power Unit Assembly
Control Equipment

The Burner Assembly consists of an integral blower and burner housing of welded steel. The outlet of the blower housing is bolted to the inlet of the burner housing. Thus the air from the blower fan passes to the burner housing tangentially, imparting a whirling motion to the air as it enters the furnace.

The blower fan is mounted within the blower housing and is directly connected to the shaft of the motor.

The burner head is mounted on the burner housing and is so designed that a portion of the air from the burner housing is led through a small integral duct to the nozzle opening in the burner head. This provides the primary air for initial ignition for the fuel, final combustion taking place within the furnace after the fuel has been properly mixed with the remaining air from the blower. The burner head is lined with cast refractory to insulate the head. Various sizes of blower-burner housings and burner heads are furnished, designed to provide for the most efficient firing of each burner at its rated capacity.

The Nozzle and Electrode Assembly is bolted to the burner head. The nozzle is locked in place in the burner head with a set screw. Model OL burner is furnished with an atomizing type fixed capacity nozzle, consisting of a nozzle body, a fine mesh strainer, a slotted insert and a nozzle tip. Model OHM is furnished with a fixed capacity pilot nozzle and a variable capacity atomizing main nozzle. This nozzle is designed to vary the amount of fuel delivered to the combustion chamber. A return port in the whirl chamber of the nozzle is connected to a return oil line and a regulating valve which changes setting response to steam demand. Thus the oil discharge from the nozzle to the furnace is varied by controlling the amount returned from the nozzle to the tank. The electrodes are nichrome, cemented into ceramic insulators or spark plug bodies. The steel bushing of the spark plug is securely screwed into the nozzle and electrode assembly.

The Ignition Transformer is of the high voltage (110 or 220 volts—10,000 volts) type, with mid-point of the secondary grounded. The windings are fully insulated and shielded to eliminate radio interference. The ignition transformer is mounted on the burner assembly, so located that the armored high tension wires are as short as possible. It is arranged for intermittent or continuous service.

The Power Unit assembly consists of a burner motor, a fuel unit and the blower fan. The burner motor is a constant speed, continuous duty, induction type mounted on a pressed steel base, which is attached to the blower housing. The double end shaft extension is arranged with one end directly connected to the blower fan; the other end is fitted with a V pulley to drive the fuel unit through a V-belt.

The fuel unit for Model OL oil burner consists of a compact assembly of strainer, two stage, gear type oil pump and pressure regulating valve. The fuel unit is securely attached to the burner motor base by means of a mounting flange. It draws oil from the fuel oil supply tank, strains it and delivers it under a pressure of 100 p.s.i. to the atomizing nozzle when the burner is in operation. Excess oil is by-passed back to the tank. A pressure gauge and an oil solenoid valve are on the pressure line near the pump.

Model OHM oil burners are arranged to burn light oil 28-44 A.P.I. gravity (or gas) for ignition and start and heavy oil 14-28 A.P.I. gravity for normal operation. A fuel unit similar to Model OL is provided for the light oil. For the heavy oil, a gear type, positive displacement fuel pump is provided, driven by a separate motor. A duplex strainer is on the suction side of the pump and a pressure regulating valve, pressure gauge and oil solenoid valve on the discharge side. The blower fan is a paddle type wheel of aluminum of substantial construction, accurately balanced and light in weight.

Control Equipment: Model OL

Control equipment consists of a limit control (Pressure or temperature), low water cut-off and a flame safety control.

Operation:

The normal operation of the Model OL oil burner when started by the control system is as follows:

Connection is made for the ignition circuit and spark is produced at the tips of the ignition electrodes. The burner motor, blower fan and the fuel pump start, delivering fuel oil to the pressure regulator valve which, when pressure is built up, opens the valve and forces oil under pressure of 100 p.s.i. through the atomizing nozzle. The blower fan forces air for combustion through the burner housing imparting a whirling motion to the air as it enters the combustion chamber, where it is mixed with the spray of oil from the nozzle and ignited by spark from the electrodes. When the burner stops the oil supply to the nozzle is shut off by the pressure regulating valve and the oil solenoid valve. Under normal conditions the burner is started and stopped by the steam pressure limit control, providing "on" and "off" cycles in response to steam demand. If the water in the boiler drops below the normal operating level the burner will be stopped by the low water level cut-off. In case of ignition failure or flame failure the burner will be stopped by the flame safety control. In such cases the burner will not re-cycle, the flame safety control must be "reset" for further operation.

Control Equipment: Model OHM

Control equipment for Model OHM oil burner provides for automatic modulation and control of the firing rate with the following equipment:

Steam Pressure Control (High Limit)
Modulating Pressure Control controls oil regulating valve in return oil line
Modutrol Relay activates modutrol motor
Modutrol Motor
Oil regulating valve controls amount of oil that returns to tank
Fire Control linkage and automatically adjusted air damper
Protectorelay controls ignition in case of ignition failure
Photo-electric eye shuts down entire unit in case of flame failure

The modutrol motor, oil regulating valve, oil pressure gauge, and the fire control linkage are mounted beside the burner housing. The modutrol motor, under control of the modulating pressure control, operates the air damper (in the duct at the entrance to the burner housing) and the regulating valve. These are synchronized to supply the correct amount of air and fuel to the burner for the most efficient combustion at any firing rate.

Operation:

Normal operation of the Model OHM oil burner is as follows:

Ignition spark is established, the burner motor, light oil fuel unit and blower fan start and the light oil (or gas) solenoid valve opens. Fuel is drawn from the tank through the strainer to the light oil pump and forced through the pressure regulating valve to the pilot nozzle where it is atomized, mixed with air and ignited by the electric spark.

Steam generated by the firing is run through a pressure reducing valve, through the coils of the oil heater.

The heavy oil pump is started manually and heavy oil is drawn from the tank, through the strainer to the pump and forced through coils in the heater and back to the tank. When the circulating oil temperature reaches 170° to 190° F., the burner may be stopped and restarted for full automatic operation under control of the protectorelay and other auxiliaries.

When restarted, ignition is established and fuel oil (or gas) is ignited at the pilot nozzle as above. Approximately 30 seconds after the pilot flame has ignited the solenoid valve on the heavy oil pressure line opens and oil is delivered to the main nozzle at a pressure of 300 p.s.i., where it is atomized, mixed with air and ignited by the flame from the pilot nozzle. This also places the modutrol motor in operation to control the air and heavy oil supply to the burner. The modutrol motor in turn is controlled by the modulating pressure control which responds closely to the boiler steam pressure and steam demand. After approximately 2½ minutes (if flame is well established) the ignition circuit and the light oil fuel unit will be stopped. Operation of the burner will continue subject to recycling or shutdown under control of the steam pressure limit control, low water level control and flame safety control.

INSPECTION TEST

The burner was inspected and tested at the plant of the Marlon Confection Corporation, 321 West 54th Street, in the presence of the Committee on Tests, Commissioner Blum and Chief Engineer Huber and of the manufacturers and was found to operate as designed.

RECOMMENDATION

On the basis of this inspection and test, it is recommended that the Cyclotherm Steam Generator Oil Fired Models OHM & OL be approved under Sec. C26-191.0a for use in New York City when installed in accordance with the requirements of the Oil Burner Rules of the Board of Standards and Appeals and with this report, and that any boiler installed shall be approved and conform to the requirements of the Administrative Building Code Art. 12, Sub-Art. 1 and provided that each installation shall have a label permanently affixed reading 'Approved by the Board of Standards and Appeals for use in New York City under Cal. #538-45-SA.'

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer.
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Clyclotherm Steam Generator (Oil Burner), Models OHM and OL, *on condition* that the appliance be manufactured, equipped, installed, used and labeled in accordance with the above report.

ADJOURNED: 1:20 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, DECEMBER 11, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy.

APPEALS FROM ADMINISTRATIVE DECISIONS

625-45-A

APPLICANT—Samuel B. Lincoln, for Wallerstein Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—351 Walker street, northeast corner of Lake avenue (Block 1161, Lots 1, 3, 6, 9 and part of Lot 34), Mariners Harbor, Borough of Richmond.

APPEARANCES—
For Applicant: Samuel B. Lincoln and Harold E. Smith.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (625-45-A)

WHEREAS, Samuel B. Lincoln, for Wallerstein Co., Inc., owner, filed October 15, 1945, an appeal from a decision of the borough superintendent, affecting premises: 351 Walker street, northeast corner of Lake avenue (Block 1161, Lots 1, 3, 6, 9 and part of Lot 34), Mariners Harbor, Borough of Richmond; and

WHEREAS, the decision of the borough superintendent, acting on N. B. Applic. 198-45, dated October 8, 1945, reads:

"1. The proposed erection of this fireproof new building to be used for storage and manufacturing is not permitted as it is contrary to a Board of Standards and Appeals resolution which, states in part 'that the lot to the south shall remain unbuilt upon for a width of

at least 33 ft.' (Board of Standards and Appeals, Cal. 1197-39-A)."

and

WHEREAS, the applicant states that the proposed building will be 4 stories and basement (62 ft.) in height, 156 ft. 4 in. by 108 ft. to 94 ft. in depth at the 1st and 2nd floors; 149 ft. front by 108 to 94 ft. in depth at the 3rd and 4th floors, of Class 1 construction; located in an unrestricted use, A area, and a Class 1½ height district and used for the storage and manufacturing of chemicals, 6 persons in the basement and 30 persons on each of the upper floors; that the building will be equipped with a one source sprinkler system, two 44 in. fireproof stairs from the roof bulkhead, leading directly to the street; and

WHEREAS, the applicant contends that a standard fire wall will be constructed between the new building and the existing building C2, as indicated on plans filed with this appeal; that in granting permission to erect building C2 as an addition to building C-1 without a dividing fire wall, the Board required a 33 ft. space on the south side of Building C-2 to remain unbuilt upon; that Buildings C-1 and C-2 are occupied for chemical manufacturing, where all processes are wet and operations are carried in general, in large steel tanks and consequently there is no particular or unusual fire hazard from the process; that the proposed building will be used partly for storage and partly for manufacturing and will carry the storage of materials to be used in process in Buildings C-1 and C-2, and it will be a serious handicap to manufacturing operations, if the owner were required to maintain a 33 ft. open space between the proposed building and building C-2; that permission is therefore requested to build on the 33 ft. space referred to in the Board's resolution under Cal. 1197-39-A, and at the same time, increase the combined area of Building C-1 and C-2 from 31,967 sq. ft. to 37,327 sq. ft., by the addition of process mezzanines, constructed with steel framing and reinforced concrete floor slabs, as indicated on plans filed with this appeal, marked "Received November 26, 1945."

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 198-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the building shall comply with all laws, rules and regulations applicable thereto; that a sprinkler system, standpipe and fire alarm systems, if required by the Code, shall be installed and such other fire fighting equipment as the fire commissioner shall direct; that any openings between this building and the one adjoining to the north, shall be protected with self-closing opening protective assemblies, as approved for three hours; that this building may be located as proposed, irrespective of the requirement in the resolution adopted by the Board under Cal. 1197-39-A, provided plant streets shown on plans filed with this appeal, shall be maintained as shown and in addition, a means of access to such plant street shall be provided from Walker street or Granite avenue, adjacent to the intersection of Granite avenue and Walker street; that in all other respects, the building and occupancy shall comply with all laws and rules applicable thereto.

643-45-A

APPLICANT—Lama and Proskauer, for Green Bus Lines Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—48-09 Rockaway Beach boulevard, southeast corner of Beach 49th street (Block 336, Lot 60), Far Rockaway, Borough of Queens (Under section 35, General City Law re bed of mapped street—Beach 49th street).

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (643-45-A)

WHEREAS, Lama and Proskauer, for Green Bus Lines, Inc., owner, filed October 23, 1945, an application pursuant to Section 35 of the General City Law, to permit the erection of an extension to and the maintenance of an existing extension and a portion of the main building within the bed of a mapped street (Beach 49th street), affecting premises 48-09 Rockaway Beach boulevard, southeast corner of Beach 49th street, (Block 336, Lot 60), Far Rockaway, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated October 15, 1945, on Alt. Applic. 1490-43, reads:

"4. Position of building appears to be in bed of mapped street. Secure permission of the Board of Standards and Appeals for the proposed alteration, as per Art. 3, Sect. 35 of General City Law.

"6. Bus parking shed is within the bed of mapped street contrary to Article 3, Sect. 35 of General City Law."

and

WHEREAS, the applicant states that the building is 1 story (16 ft.) in height, 86.29 ft. by 165.17 ft. in area, of Class 3 construction, erected in 1918, located in a residence use, C area and Class 1 height district and used as a bus garage; and

WHEREAS, the plans filed with this appeal indicate that the building is 82 ft. in width, 162 ft. in depth, with an existing extension 18 ft. by 117.10 ft. in area, proposed new tire storage building to be erected 28 ft. by 18 ft. in area, within the bed of Beach 49th street and new coal storage building 6 ft. 3 in. by 58 ft. in area, new stock room, 6 ft. 6 in. by 31 ft. in area, and an existing boiler room 6 ft. 6 in. by 18 ft. 4 in. in area; and

WHEREAS, the applicant states that the portion of the building which is in the bed of a mapped street, is an open shed measuring approximately 18 ft. by 160 ft. in area, erected many years ago and has been in existence prior to the purchase of the parcel by the present owner; that at the time of the erection of this open shed, the premises was zoned unrestricted and changed to residence use on December 28, 1939; that the present owner has occupied the building since 1936 and purchased the same in 1943; that in view of the fact that the condition is existing, having been erected prior to the change of zone, it is requested that this application be granted; and

WHEREAS, Beach 49th street is shown on the Final Map Section 228, of the Borough of Queens, for a width of 60 ft., under date of July 15, 1925; and

WHEREAS, File Map No. V-162, filed December 10, 1915, No. 3311, Drawing 72, indicated the proposed widening of Beach 49th street; and

WHEREAS, examination of the records of the borough superintendent forwarded to this office, indicates the following: Misc. Application 4441, approved June 25, 1935, was for the installation of two 550 gallon gasoline tanks at the easterly side of the building and plans filed with this application indicate the building to be 80 ft. by 155 ft. in area, set back from Beach 49th street building line a distance of 20 ft. and do not indicate the existence of the wood shed; N.B. Applic. 13244, filed July 30, 1926, to erect one building, 100 ft. front, 100 ft. rear and 100 ft. deep, to be occupied as a garage and was approved September 18, 1926, work commenced August 24, 1926, work completed March 25, 1927; that the building was to be erected on a plot 106 ft. fronting on Rockaway boulevard with a depth of 106 ft. fronting on Beach 50th street, now known as Beach 49th street; that there appears to have been no amendment filed to the approved application which would increase the build-

ing in area to its present size; that there appears, however, a drawing filed as an amendment October 10, 1926, approved October 10, 1926, indicating the building to be 86 ft. front on Rockaway Beach boulevard and 105 ft. in depth fronting on Beach 49th street with 20 ft. vacant along the westerly side of the lot, extending into Beach 49th street; that Building Notice 2456 filed April 7, 1937, was to erect a 10 ft. by 10 ft. brick cashier's office in the present public garage and indicated the garage to be 100 ft. front on Rockaway Beach boulevard and 100 ft. front on Beach 49th street; that Alteration 1278-43 was filed to extend existing boiler rooms and enclose existing approved roofed over section of building; that this application indicated existing building to be 90 ft. by 160 ft. in area and plans filed therewith, indicate an existing open shed east of the building line of Beach 49th street; that the plot plan filed with this application and examined by the Topographical Bureau, indicates the plot to be located on the southeast corner of Beach 49th street and Rockaway Beach boulevard; that Beach 49th street is shown to a width of 60 ft.; that Misc. Applic. 2690-43, filed October 6, 1943, approved May 10, 1944, after action by the Board under Cal. 509-43-A, indicated the building to be 86 ft. by 165 ft. in area; that this application was for the installation of gasoline storage tanks and the use of existing fuel oil storage tank; that Alteration 1490-43, which is the alteration application now in question and which was the subject of variance granted by the Board under Cal. 598-43-BZ, was further examined by the borough superintendent subsequent to the decision of the Board on December 19, 1944, with the result that the objections herein appealed, were issued

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1490-43, objections 4 and 6, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under section 35 of the General City Law, to permit the continuance of the portion of the building within the bed of Beach 49th street and the proposed extension, as indicated on plans filed with this application (2 sheets) marked "Received October 23, 1945," *on condition* that in the event the bed of Beach 49th street as now laid out, is acquired by the city for street purposes, that all extension of the building, existing and proposed, westerly of the main wall of the building, shall be removed at the expense of the owner and no claim made therefor, other than for the fair value of the land on which such extensions exist, as may be determined by the court; that the wall, if required to be removed, shall be subject to such award for condemnation as the court may determine, including the cost of removal of the wall and construction of a new wall outside the lines of the proposed street; that an application shall be made promptly to the City Planning Commission, for relocation of proposed Beach 49th street, so as not to include the main westerly wall of the building within the bed of the street: that a copy of such application to the City Planning Commission shall be filed with the Board and the borough superintendent; that the proposed extension as indicated, referred to in objection 4, shall not be increased in height or area and shall be used solely for the use proposed in connection with the use of the main building as a bus terminal; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cals. 509-43-A and 598-43-BZ, as granted by resolution dated December 19, 1944, and as may be hereafter amended.

677-45-A

APPLICANT—Lama and Proskauer, for Frieda I. Bader, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—509 Liberty avenue, northwest corner of Van Sicklen avenue (1st floor); (Block 3961, Lot 26), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (677-45-A)

WHEREAS, Lama and Proskauer, for Frieda I. Bader, owner, filed on November 2, 1945, an appeal from a decision of the borough superintendent, affecting premises 509 Liberty avenue, northwest corner of Van Sicklen avenue (1st floor); (Block 3961, Lot 26), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated October 2, 1945, on Alt. Applic. 2959-44, reads:

"1. Extension of public occupancy in 1st floor of frame structure, is contrary to 4.2.1 and 2.1.3.5 of the Bldg. Code."

and

WHEREAS, the applicant states the building is 2 stories (19 ft.) in height; 25 ft. by 100 ft. in area at 1st floor, 25 ft. by 53 ft. in area at 2nd floor, of Class 4 construction; erected 1890; located in a business use, C area and Class 1½ height district, and used and occupied as follows: cellar, ordinary; 1st floor, chapel, 30 persons; 2nd floor, one family dwelling and storage of coffins since 1890, and now proposed to be used and occupied as follows: cellar, ordinary; 1st floor, funeral chapel, 30 persons; 2nd floor, front, dwelling, one family; 2nd floor rear, storage of coffins; that the building is equipped with two wood interior stairs, enclosed in partitions of plaster on wood studs, equipped with wood doors which are not self-closing; that the southerly stairway is 3 ft. wide and provided with a ladder and scuttle to the roof, and the westerly stairway is 3 ft. 6 in. in width; and

WHEREAS, the applicant contends that it is proposed to legalize an extension made to the chapel, which originally covered an area of 11 ft. by 50 ft. and now covers an area of approximately 24 ft. by 48 ft.; that the building has been devoted to this use since its erection in 1890; that the owner at that time, occupied part of the 1st floor for living purposes and rented the 2nd floor for living purposes; that the alteration was made without obtaining a permit; that inasmuch as the building was primarily constructed as an undertaking establishment and not increased in area and is occupied by the owner, it is requested that this appeal be granted; and

WHEREAS, it appears from information received that the building has been occupied since 1925 as a funeral chapel for the full length of the building along Van Sicklen avenue and with a portion of the first floor occupied for living purposes, which have since been eliminated and it is now proposed to occupy the building as a funeral chapel on the first floor and as a residence for one family on the front portion of the 2nd floor and for storage on the rear portion of the 2nd floor, separated from the front portion by an intervening roof.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 2959-44, objection 1, be and it hereby is *granted on condition* that the building shall not be increased in height or area and shall be occupied only as proposed and as indicated on plans filed with this appeal, marked "Received November 2, 1945"; that within the 2nd floor storage space, such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the cellar ceiling shall be fireretarded throughout and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

686-45-A

APPLICANT—Philip Freshman, for Tessie Maronia, owner (Joseph and Abraham Friedberg, lessees).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—330 37th street, south side, 125 ft. east of 3rd avenue (Block 700, Lot 16), Borough of Brooklyn.

APPEARANCES—

For Applicant: Philip Freshman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (686-45-A)

WHEREAS, Philip Freshman, for Tessie Maronia, owner (Joseph and Abraham Friedberg, lessees), filed November 8, 1945, an appeal from a decision of the borough superintendent, affecting premises 330 37th street, south side, 125 ft. east of 3rd avenue (Block 700, Lot 16), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 3172-45, dated November 5, 1945, reads:

"1. Two fireproof enclosed stairs required, as per Sec. 270 Labor Law."

and

WHEREAS, the applicant states the building is two stories (28 ft. 10 in.) in height; 25 ft. by 80 ft. in area; of Class 3 construction; erected in 1916, located in an unrestricted use, B area and Class 1 height district, and used and occupied as follows: Cellar, 1st and 2nd floors, storage of baled rags, 3 persons on the 1st floor, 5 persons on the 2nd floor; that it is proposed to be used and occupied as follows: Cellar, storage of luggage; 1st floor, storage and shipping, 3 persons; 2nd floor, office and factory, 30 persons (luggage manufacturing throughout); that the building is equipped with one 3 ft. 8 in. wide wood stairs, enclosed in fire retarded partitions on the 1st floor, equipped with one hour self-closing fireproof doors; and

WHEREAS, the applicant states that the interior stairs are enclosed with fire retarded partitions on 1st floor, will be fully enclosed with stud, metal lath and ¾ in. cement plaster on both floors, including all ceilings under stair halls and exposed stair soffits; that all doors to such enclosure will be one hour test self-closing in steel bucks; that it is proposed to provide a 3 ft. 8 in. wide open iron stairs at the rear, leading to a 20 ft. deep yard with egress through a 4 ft. wide opening in the fence to the adjoining property, accessible to 38th street, consent for which is filed with this appeal; that it is proposed to enclose existing cellar stairs with fireproof blocks, equipped with one hour self-closing fireproof door and to provide a 2 ft. by 3 ft. scuttle with a fixed iron ladder to the roof, in the public hall; that all other provisions of the Labor Law will be complied with; that the maximum occupancy will be 30 persons on the 2nd floor; and

WHEREAS, the applicant contends that in view of the non-hazardous nature of the proposed occupancy and the relatively small area of the building to be used for factory, that a modification of the requirements of the decision of the borough superintendent is respectfully requested.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 3172-45, objection 1, and that the appeal be and it hereby is *granted on condition* that the exits shall be maintained as proposed and indicated on plans filed with this appeal (2 sheets) marked "Received November 8, 1945"; that in addition, a ladder shall be provided from the roof at the rear, to the platform at the second floor level on the proposed rear iron stair; that a second means of exit from the cellar shall be provided, which shall lead to the rear yard; that consent to cross adjoining premises shall be filed with the borough superintendent; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

699-45-A

APPLICANT—Artograph Paper Box Co., Inc. (lessee); 35 Steuben Street Realty Corp., owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—401 Lexington avenue, north side, 225 ft. west of Tompkins avenue (Block 1799, Lot 55), Borough of Brooklyn.

APPEARANCES—

For Applicant: Samuel Gardstein and Louis Barnett.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (699-45-A)

WHEREAS, Artograph Paper Box Company, Inc., lessee, for 35 Steuben Street Realty Corp., owner, filed November 9, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 401 Lexington avenue, north side, 225 ft. west of Tompkins avenue (Block 1799, Lot 55), Borough of Brooklyn; and

WHEREAS, Order 15559-LF, issued by the fire commissioner, August 6, 1945 and referred to in a decision of the fire commissioner, dated October 11, 1945, reads:

"1. Provide a fixed fire extinguishing system or other means for the extinguishment of fire throughout the premises, satisfactory to the Fire Commissioner. Section C19-161.0 Adm. Code."

and

WHEREAS, the applicant states that the building is 2 stories (23 ft. 6 in.) in height, 105 ft. 3 in. by 100 ft. in area, of Class 3 construction, erected in 1925, located in an unrestricted use, C area and Class 1¼ height district and used and occupied without a certificate of occupancy, as follows: cellar-boiler room; 1st floor—paper cutting and storage—2 persons; 2nd floor—paper box manufacturing—16 persons, and proposed to be used and occupied: cellar—same; 1st floor—paper cutting and storage—10 persons; 2nd floor—paper box manufacturing—30 persons; that the building is equipped with one 3 ft. 2 in. and one 5 ft. 6 in. fireproof stairs, leading directly to the street, one of which leads to the roof; and

WHEREAS, the applicant contends that under Calendar 556-44-A, the Board permitted the change of use of the premises from public garage to manufacturing of paper boxes, on condition that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the applicant relied on the decision of the Board and made the alterations required by the Board's resolution and sought a certificate of occupancy; that in connection with the application for a certificate of occupancy, a letter was sent by the borough superintendent, informing the fire department that he was about to issue such certificate and although more than eight months had elapsed since the adoption of the Board's resolution, the Fire Department issued an order requiring a fixed fire extinguishing system; that since 1925, the building has been used as a public garage including the storage of gasoline, lubricants and other inflammable items, which made the building more dangerous in its use than the manufacturing of paper boxes, with the two means of egress and the installation of portable fire-fighting appliances; that the building is fireproof, exclusive of the roof; that the installation of a fixed fire extinguishing system would work a hardship on the applicant, because such installation is expensive and because they relied on the resolution of the Board; that there is nothing in the law requiring the installation of a fixed fire extinguishing system; it is therefore requested that the Board supersede the order of the fire commissioner or in the alternative, direct the issuance of a certificate of

occupancy, on condition that the premises be maintained with portable fire-fighting appliances to the satisfaction of the fire commissioner.

Resolved, that **order 15559-LF** of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to item 1, *on condition* that the requirements of the resolution adopted by the Board under Cal. 556-44-A, shall be complied with and that the portable fire-fighting appliances installed in accordance therewith, shall meet the requirements of the fire commissioner; and *granted* only so long as the premises are used as proposed and no other use is installed in the building other than this stated; that the building shall not be increased in height or area; that the dumbwaiter installed in the rear, as indicated on plans filed with this appeal, marked "Received November 9, 1945" shall comply with the requirements of the Building Code therefor.

1197-39-A

APPLICANT—Lockwood Greene Engineers, Inc., for Wallerstein Company, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution re Appeal from a decision of the borough superintendent (previously granted on condition).

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 23, 1945, as they appeared in Bulletin No. 44, Vol. 30, are hereby corrected to read as follows:

577-45-A

APPLICANT—George Keister, for Domenica Mauceri, owner (Standard Switchboard Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

MINUTES

PREMISES AFFECTED—134-142 Noll street, south side, 250 ft. west of Central avenue (4th floor); Block 3154, Lots 18-22), Borough of Brooklyn.

APPEARANCES—

For Applicant: George Keister and Milton Schwartz.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn... 4

Negative 0

THE RESOLUTION (577-45-A)

WHEREAS, George Keister, for Domenica Mauceri, owner (Standard Switchboard Company, lessee), filed October 1, 1945, an appeal from a decision of the borough superintendent, affecting premises: 134-142 Noll street, south side, 250 ft. west of Central avenue (4th floor); (Block 3154, Lots 18-22), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on B.N. App. 825-45, dated October 5, 1945, reads:

"2. Proposed reduction of liveload capacity to 75 lbs. per square foot, is contrary to Sec. C26-345.0 Admin. Code."

and

WHEREAS, the applicant states the building is 4 stories and cellar (57 ft. 6 in.) in height, 125 ft. by 90 ft. in area on a lot 125 ft. by 100 ft. in area, of Class 3 construction; erected in 1927; located in an unrestricted use, B area and Class 1½ height district; used and occupied; Cellar, heating plant; 1st floor, manufacture of switchboards, 50 persons; 2nd floor, manufacture of men's trousers, 75 persons; 3rd floor, manufacture of trousers, 60 persons, and manufacture of women's apparel, 15 persons; 4th floor, manufacture of switchboards, 40 persons; that no change in use or occupancy is proposed; that the building is equipped with a two-source sprinkler system and a standpipe system, two 4 ft. wide iron and cement stairs, enclosed in brick, equipped with fireproof, self-closing doors and extending from the roof bulkhead, to the street and one fire-escape, leading to the roof by stairs and to the yard by stair, windows and doors on the course thereof are fireproof, self-closing; and

WHEREAS, the applicant contends that the paint spraying installation was approved by the Fire Department, with the requirement that the applicant file plans with the Borough Superintendent for construction of the paint spray room; that the lessee of the 4th floor has no control over the 3rd story and cannot obtain consent to reinforce the floor under the new spray room; that the floor construction has been approved for a liveload of 120 lbs. per square foot and the dead load added by the new construction of the spray room, is not more than 35 lbs. per square foot; that the occupancy of this spray room is never more than two persons and the weight of the materials treated not more than 200 lbs., so that a liveload of 75 lbs. per square foot would be adequate; it is therefore requested that the Board grant a variation for this room only, while used for its present purpose, and permit the liveload of 75 lbs. per square foot to be posted in the spray room.

Resolved, that the decision of the borough superintendent acting on B.N. App. 825-45, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall be maintained as proposed; that all floor loads shall be posted throughout, including the 75 lb. liveload, where the spray room is proposed to be located on the 4th floor; that within such spray room, the 75 lb. floor load shall be posted; that this variance is granted only so long as the premises are occupied as proposed and upon vacating the 4th floor, the spray booth shall be removed; that all spray booths and paint storage shall comply with the rules of the Board therefor; that such portable fire-fighting appliances shall be maintained as the fire commissioners shall direct.

---

* Correction—"4th *floor, manufacture of switchboards,* 40 *persons;"* inserted in line 21 of the resolution and in reference the dead floor load in line 40 of the resolution, the weight is changed from "25 lbs." to "35 lbs."

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES GOVERNING THE INSTALLATION OF INTERIOR FIRE ALARM SIGNAL SYSTEMS, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, SEPTEMBER 27, 1917, AMENDED DECEMBER 6, 1917 AND FEBRUARY 7, 1918 AND REVISED DECEMBER 11, 1936

(108-16-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Tuesday afternoon, January 22*, 1946, at 2 P. M., in Room 1013, Municipal Building, Manhattan, on the Proposed Amendments to Rules Governing the Installation of Interior Fire Alarm Signal Systems.

New matter is indicated in *italics*.

Section 279 *State Labor Law* Fire Alarm Signal Systems and Fire Drills:

1. Fire alarm signal systems. Every factory building over two stories in height in which more than twenty-five persons are employed above the ground floor shall be equipped by the owner thereof with a fire alarm signal system having a sufficient number of signals clearly audible to all occupants of the building, and so arranged as to permit the sounding of all the alarms within the building whenever the alarm is sounded in any portion thereof. Such system shall be maintained in good working order and no person shall tamper with same or render ineffective any portion thereof except to repair it. A person discovering a fire shall cause an alarm to be sounded immediately. The Board of Standards and Appeals in the City of New York, may make rules and regulations prescribing the number, character and location of the signals and the method and character of the installation, including that of all appliances in connection therewith.

Rule 16. Alarm Boxes.

16.1 In fire alarm signal systems the metal case enclosing exposed or surface alarm boxes shall be of cast iron *or cast No. 43 aluminum* and drilled and tapped to receive the conduit. When exposed to moisture the box shall be enclosed in a suitable weather-proof outer shell. In new buildings, approved back boxes embedded in the wall may be used and the conduits shall be properly secured by lock nuts and bushings.

Fire Retarding Rules for Garages, etc.

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to December 18, 1945.

Cal. No. *Dept.* *Premises Affected*

765-45-SM—Metal Lath Manufacturers Association 2 inch Solid Metal Lath Partitions (erected with Standard Channels, Metal Lath and Gypsum Plaster), manufactured by Metal Lath Manufacturers Association, Material.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

FEBRUARY 5, 1946, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, February* 5, 1946, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

547-32-BZ—Application of Lama and Proskauer, applicants, on behalf of Socony Vacuum Oil Co., Inc., owner, reopened October 9, 1945, under section 7c of the zoning resolution, to permit in a business use district, the inclusion of parking and storage of more than five motor vehicles, on gasoline service station (previously granted by the Board); premises 4519-4525 Broadway, southwest corner of Bennett avenue (Block 2180, Lot 652) Borough of Manhattan.

766-45-BZ—Application, December 12, 1945, under section 7e of the zoning resolution, of Albert E. Wheeler, applicant, on behalf of Marie P. Campagna, owner (Monitor Institutes, Inc., under contract to purchase, lessee), to permit in a residence use district, the alteration and change of occupancy from multiple dwelling to business use (offices for research bureau); premises 640 West 249th street (Spaulding lane), south side, 162 ft. west of Arlington avenue (Block 3419, part of Lot 290), Borough of The Bronx.

819-45-BZ—Application, December 29, 1945, under sections 7a and 21 of the zoning resolution, of T. H. Engelhardt, applicant, on behalf of United National Bank of Long Island, owner, to permit in a business use, D area district, the extension of an existing building (Bank) to occupy more than permitted area; premises 103-48 Lefferts boulevard, west side, 93.66 ft. north of Liberty avenue (Block 9556, Lots 26 and 27), Richmond Hill, Borough of Queens.

1000-40-BZ—Application of Oscar Goldschlag, applicant, on behalf of Eckert Realty Corp., owner, reopened July 14, 1942, under sections 7e and 21 of the zoning resolution, to permit in a residence use, B area district, the conversion of apartments to retail stores in basement, which is the street floor facing the Grand Concourse; premises 2337 Grand Concourse, 164 Field place, southwest corner (Block 3164, Lot 19), Borough of The Bronx.

442-45-BZ—Application, June 28, 1945, under section 21 of the zoning resolution, of Oscar Goldschlag, applicant, on behalf of Grandboro Realty Corp., owner, to permit in a residence use, B area district, the conversion of apartments to retail stores on first floor facing the Grand Concourse; premises 2327 Grand Concourse, west side, 150 ft. south of Field place (Block 3164, Lot 25), Borough of The Bronx.

443-45-BZ—Application, July 5, 1945, under section 21 of the zoning resolution, of Oscar Goldschlag, applicant, on behalf of Andart Realty Corp., owner, to permit in a residence, B area district, the conversion of apartments to retail stores on the first floor facing the Grand Concourse; premises 2331 Grand Concourse, west side, 100 ft. south of Field place (Block 3164, Lot 23), Borough of The Bronx.

411-45-BZ—Application, July 2, 1945, under section 21 of the zoning resolution, of Emil Koeppel, applicant, on behalf of General Outdoor Advertising Co., owner, to permit in a business use and residence use district, the extension of an existing garage for more than five cars; for storage and paint shop; premises 538 Washington avenue, west side, 80 ft. south of Fulton street and 898-902 Fulton street (Block 2012, Lots 32, 35, and 39), Borough of Brooklyn.

927-22-BZ—Application of Herman Kron, applicant, on behalf of Rogers Place Corporation, owner, reopened October 9, 1945, under section 7b and 7c of the zoning resolution, to permit in a residence and business use district, the alteration and conversion of occupancy from public baths to factory; premises 913-915 Westchester avenue, north side, 93.47 ft. west of Rogers place (Block 2698, Lot 79), Borough of The Bronx.

Appliance and Materials for Approval.

703-45-SA—Watson Electro-Mechanical Interlock, Type 5-B.

145-45-SM—Atlas Mortar Masonry Cement.

432-45-SM—Alpha Mortar Cement.

706-45-SM—Flexicore Floor and Roof Slabs.

496-39-SM—Alpha Type I Portland Cement (reopening and amendment).

604-44-SM—Alpha High Early Strength Portland Cement, Type III (reopening and amendment).

HARRIS H. MURDOCK, *Chairman.*

FEBRUARY 13, 1946, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Wednesday morning, February* 13, 1946, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

503-44-BZ—Application, August 30, 1944, under section 7c of the zoning resolution, of Ettore Mazzei, applicant and owner, to permit in a retail use district, light manufacturing, not incidental to sale or retail business, occupying more than permitted floor area; premises 82 Seaview avenue, southwest corner of Jefferson street (Block 3306, Lot 44), Grant City, Borough of Richmond.

739-45-BZ—Application, November 30, 1945, under section 21 of the zoning resolution, of J. M. Berlinger, applicant, on behalf of Mayfry Estates, Inc., owner, to permit in an unrestricted use, B area district, the extension of present building to cover entire plot for one (1) story; premises 407 West 38th street, north side, 100 ft. west of 9th avenue (Block 736, Lot 29), Borough of Manhattan.

633-45-BZ—Application, October 20, 1945, under section 21 of the zoning resolution, of Ferdinand Savignano, applicant, on behalf of Julius Spilka, owner, to permit in an unrestricted use, C area district, the extension of present building to occupy more area than permitted at curb level; premises 1474-1476 60th street, south side, 60 ft. west of 15th avenue (Block 5720, Lot 38), Borough of Brooklyn.

736-45-BZ—Application, November 3, 1945, under sections 7e, 7f, 7i and 21 of the zoning resolution, of John Kadel, applicant, on behalf of The Rector, Churchwardens and Vestrymen of Trinity Church in the City of New York, owner, to permit in a business use district, the erection of a gasoline service station, lubritory, office, repairs for four (4) cars and car washing; premises 3740 Broadway, northeast corner of West 155th street (Block 2114, Lot 1), Borough of Manhattan.

797-45-BZ—Application, December 19, 1945, under section 21 of the zoning resolution, of Queens Avenue Realty Corporation, applicant and owner (Lievendag Motors, Inc., lessee), to permit in a business use, C area district, the erection of a building to occupy more

CALENDAR

area than permitted at curb level; premises 164-26 Northern boulevard, and 164-27 Sanford avenue, southwest corner (Block 5337, Lot 17), Flushing, Borough of Queens.

9-46-BZ—Application, January 9, 1946, under section 21 of the zoning resolution, of Irvin L. Scott, applicant, on behalf of Charles F. Noyes, owner (51 West 51st Street Corporation, lessee), to permit in retail use, B area district the alteration and extension of an existing business building (restaurant) to cover more than permitted area; premises 51-55 West 51st street, north side, 153 ft. east of Avenue of The Americas (6th avenue); (Block 1267, Lots 8 and 107), Borough of Manhattan.

982-39-BZ—Application of Julius Eckman, applicant, on behalf of Chapmald Realty Corp., owner, reopened December 11, 1945, under sections 7h and 21 of the zoning resolution, to permit in a residence use district, for a term of years, the parking and storage of more than five (5) motor vehicles (previously denied by the Board under section 21 and again denied by the Board under section 7h of the zoning resolution); premises 406-420 West 55th street, south side, 100 ft. west of 9th avenue (Block 1064, Lots 37, 39, 40, 41, 42 and 141), Borough of Manhattan.

40-46-BZ—Application, January 17, 1946, under section 21 of the zoning resolution, of Sidney L. Strauss, applicant, on behalf of North River Savings Bank, owner, to permit in a retail use, B area district, the erection of an addition to an existing building covering more than 65% of the lot area; premises 206-212 West 34th street, south side, 100 ft. west of 7th avenue and 209-211 West 33rd street (Block 783, Lots 33 and 50), Borough of Manhattan.

398-45-BZ—Application, June 20, 1945, under sections 7A, 7f and 7i of the zoning resolution, of Stanley Kilburn, applicant and owner, to permit in a business use district, the alteration and extension of an existing building occupied as a restaurant, and the change of occupancy to showrooms, gasoline service station, repair shop and dwelling, and to permit show windows and entrances more than 25 ft. from the intersection of the residence and business use districts; premises 209-01 to 209-19 Northern boulevard, north side, between Corporal Kennedy street (Stewart avenue) and 209th street (Wright avenue); (Block 6279, Lot 21), Bayside, Borough of Queens.

48-46-BZ—Application, January 23, 1946, under section 21 of the zoning resolution, of Samuel Rosenblum, applicant, on behalf of 13 East 53rd Street Realty Corp., owner (Olmsted Restaurant, Inc., lessee), to permit in restricted retail use, B area districts, the proposed extension exceeding permitted area coverage of lot at curb level, and also omitting required 10 feet rear yard; premises 13 East 53rd Street, north side, 225 ft. east of 5th avenue (Block 1289, Lot 10), Borough of Manhattan.

Appliance for Approval.

821-45-SA—Instant Heat Oil Burner.

FEBRUARY 19, 1946, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, February* 19, 1946, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

37-41-BZ—Application of Henry Nordheim, applicant, on behalf of Ardea Realty Corp., owner, reopened December 18, 1945, for consideration as to extension of variance (expired by limitation)—Application, previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 3349-3359 Webster avenue, west side, 176.98 ft. south of Gun Hill road (Block 3355, Lot 126), Borough of The Bronx.

743-42-BZ—Application of Kitzler and Nurick, applicants, on behalf of D. J. Leary (Arthur Leary, Executor) and John Teague, owners, reopened December 18, 1945, for consideration as to extension of variance (expired by limitation)—Application previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 51-59 Maujer street and 451-457 Lorimer street, northwest corner (Block 2785, Lots 32, 35 and 36), Borough of Brooklyn.

687-45-BZ—Application, November 8, 1945, under section 21 of the zoning resolution, of Ferdinand Savignano, applicant, on behalf of Andrew Ercolino, owner, to permit in an unrestricted use, C area district, the extension of present building to occupy more area than permitted at curb level; premises 3712-3714 13th avenue, west side, 70 ft. and 90 ft. south of 37th street (Block 5295, Lots 37 and 38), Borough of Brooklyn.

735-45-BZ—Application, November 28, 1945, under section 21 of the zoning resolution, of Herbert E. Matz, applicant, on behalf of St. Pauls Evangelical Lutheran Church, owner, to permit in residence and retail use, D area district, the erection of Church Parish House and Parsonage to occupy a greater percentage of area of lot than is permitted; premises 1355 Virginia avenue, and 1891 McGraw avenue, northwest corner (Block 3936, Lots 32, 35 and 38), Borough of The Bronx.

688-45-BZ—Application, November 9, 1945, under section 21 of the zoning resolution, of Edward J. Farrell, applicant, on behalf of Emil Kupprat, owner, to permit in a business use district, the change of occupancy from office and marble storage to permit cutting, polishing and lettering of stones and monuments in addition to office and marble storage; premises 162-34 Pidgeon Meadow road, west side, 289.54 ft. south of 46th avenue (Block 5461, Lot 40), Flushing, Borough of Queens.

44-46-BZ—Application, January 22, 1946, under section 21 of the zoning resolution, of Boris W. Dorfman, applicant, on behalf of Daumar Realty Co., Inc., owner, to permit in a residence and business use, D area district, the extension of present buildings to cover more area than permitted at curb level; premises 1609-1611 Avenue U, north side, 96 ft. and 112 ft. west of East 17th street (Block 7321, Lots 45 and 46), Borough of Brooklyn.

367-38-BZ—Application of Koch and Wagner, applicants, on behalf of John F. Trommer, Inc., owner, reopened January 8, 1946, under section 7c of the zoning resolution, to permit in a business use district, the extension in height of an existing building; premises 88-98 Conway street, east side, 98 ft. 8 in. south of Bushwick avenue (Block 3476, part of Lot 16), Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, DECEMBER 18, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy.

The minutes of the regular meetings of the Board held on Tuesday morning and Tuesday afternoon, November 13, 1945, were approved as printed in Bulletin No. 47, Vol. 30.

ZONING APPLICATIONS

58-39-BZ

APPLICANT—Anfred Realty Corp., owner.

SUBJECT—Application reopened November 20, 1945 for consideration as to extension of permits—Application (decision of the borough superintendent), previously granted on condition, under section 21 of zoning resolution, permitting in a business use district, the conversion of occupancy of a building to a motor vehicle repair shop, for a temporary term of years.

PREMISES AFFECTED—1351½ Webster avenue, west side, 424.49 ft. north of East 169th street (Block 2887, Lot 165), Borough of The Bronx.

APPEARANCES—

For Applicant: I. I. Braff.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 15, 1946 at 10 A.M. at request of applicant's representative.

701-45-BZ

APPLICANT—Robert J. Farrington, for Krause Service Station, Inc., owner.

SUBJECT—Application (decision of the borough superintendent under sections 7c and 7i of the zoning resolution, to permit in a business use district, the change of occupancy from stores and welding, to auto showroom and service station, motor vehicle repair shop and garage for more than five cars.

PREMISES AFFECTED—700-710 Southern boulevard and 1031 Leggett avenue, northeast corner (Block 2729, Lot 1). Borough of The Bronx.

APPEARANCES—

For Applicant: R. J. Farrington, Harry Tipperwitz and Allen Bates.

For Opposition: S. H. Kaltman, S. Kaufman and Anthony Valenti.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustave Goldman, Board of Education.

ACTION OF BOARD—Laid over to January 3, 1946 at 10 A.M. for applicant to file revised plans.

67-45-BZ

APPLICANT—Alphonse Rapp, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use district, an automobile repair shop in the existing building on the first floor, and a two-family dwelling on two other floors, also to permit more than 55% of area of lot at curb level to be used in proposed change of occupancy.

PREMISES AFFECTED—322 Monroe street, south side, 88 ft. east of Corlears street (Block 264, Lot 5), Borough of Manhattan.

APPEARANCES—

For Applicant: Charles Pokorny and Alphonse Rapp.

For Opposition: Harold Klorfein, Dep't of Parks.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Savage 1

Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3

THE RESOLUTION (67-45-BZ)

WHEREAS, Alphonse Rapp, owner, filed on February 13, 1945, an application under section 21 of the zoning resolution, to permit in a residence use district, an automobile repair shop in the existing building on the first floor and a two-family dwelling on the other two floors, also to permit more than 55% of area of lot at curb level to be used in proposed change of occupancy; affecting premises 322 Monroe street, south side, 88 ft. east of Corlears street (Block 264, Lot 5), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 18, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Monroe street is in a residence use, D area and Class 1 height district and Corlears street is in a residence use district, D area and Class 1 height distirct; and

WHEREAS, the decision of the borough superintendent, dated, January 11, 1945, re Alt. Applic. 2200-41, reads:

"3. The use of the first floor as an automobile repair shop, office and garage, is prohibited in a residence district, as per Article II, Sec. 3 zoning resolution.

"5. Building being in a 'D' area district and proposed change of occupancy is prohibited, as it occupies at curb level more than 55% of area of lot, contrary to Sec. 14, Art. IV, zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 22 ft. frontage by 70 ft. in depth, on which is located a vacant building 3 stories, 30 ft. in height, 22 ft. front by 44 ft. deep, of Class 3 construction and that it is proposed to erect a modern automobile repair shop and a two-family dwelling in existing building; and

WHEREAS, the applicant contends that if the premises are to be used only for the purpose allowed in this zone, that is as residences, it cannot yield a reasonable return; that the property is in a neighborhood which has greatly changed; that in the immediate vicinity of the property are factories, garages, warehouses and vacant lots; that trucks are parked continually on the streets surrounding the property; that so far as residential property is concerned, conditions are very bad and residents have moved out of the neighborhood, because of the changed character of the neighborhood; that the use of the street floor of the premises for automobile repair shop will not alter the essential character of the neighborhood; that the establishment of the proposed automobile repair shop will not endanger the safety or impede the health of residents in the vicinity; that adjoining properties will be helped, rather than hurt, by the erection of the automobile repair shop, because it will substitute a brand new modern place for a vacant, dilapidated building which has become an eye-sore in the neighborhood and it will alleviate the depressing effect that such a vacant building has on surrounding property values; that there is no demand for any residences in this neighborhood; that the property was unrestricted until April 5, 1935, when changed to residence zone and continued by amendment March 1, 1939; that due to unique circumstances, and not to general conditions existing in the neighborhood, there is no market

for this property and it cannot be disposed of; and if permitted by the Board, the applicant will build an attractive, fireproof modern automobile repair shop which will enhance the neighborhood and add to the value of surrounding property; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution, and was therefore not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 2200-41, objections 3 and 5, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

310-45-BZ

APPLICANT—Josephine Linnemeyer, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a retail use district, the erection of a one-story brick building to be used as a store and gasoline service station, with auto laundry and lubritorium.

PREMISES AFFECTED—258-15 Hillside avenue and 83-60 259th street, northwest corner (Block 8770, Lot 1), Queens Village, Borough of Queens.

APPEARANCES—

For Applicant: C. Pokorny, Josephine Linnemeyer and M. Leed.

For Opposition: David Postal, Robert Postal and E. E. Major.

For Administration: F. Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4

THE RESOLUTION (310-45-BZ)

WHEREAS, Josephine Linnemeyer, owner, filed May 23, 1945, an application under section 7f of the zoning resolution, to permit in a retail use district, the erection of a one-story brick building to be used as a store and gasoline service station, with auto laundry and lubritorium; affecting premises: 258-15 Hillside avenue and 83-60 259th street, northwest corner (Block 8770, Lot 1), Queens Village, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 18, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Hillside avenue is in a retail use, D area and Class 1 height district and 259th street is in a retail and residence use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated April 23, 1945, re N.B. Applic. 135-45, reads:

"1. The use of the above located plot for a gasoline service station, auto washing and lubrication is contrary to Article 2, section 4 of the B.Z.R.

"2. Provide rear yard as per sect. 14 and 17 of B.Z.R.

"3. Vehicle entrances and business entrances more than 25 ft. back from Hillside avenue on 259 street contrary to Sect. 7A of B.Z.R."

and

WHEREAS, the applicant states the premises consist of a plot 100 ft. frontage by 100 ft. in depth, to be occupied by a building one-story (15 ft. to 19 ft.) in height, 67 ft. front by 50 ft. deep, of Class 3 construction and that it is proposed to use the proposed building as a store and gasoline service station, with auto laundry and lubritorium; and

WHEREAS, the applicant contends that practical difficulty and unnecessary hardship exists to warrant the variance; that the owner is a widow and in feeble health; the taxes on subject property have not been paid since 1934 and owner is about to lose the property; that a prospective buyer is willing to construct the building at his own cost in accordance with plans filed, amounting to $25,000; that this tenant will immediately clear up all tax arrears and start paying rent for the property as soon as a building permit is issued; that Hillside avenue is a much travelled thoroughfare and has a lot of transient and vehicular traffic passing over this roadway; that few people live in vicinity of the subject property and there is no demand for stores or any business; that the proposed use will not alter the essential character of the neighborhood or endanger the safety or impair the health of its residents; that the granting of the application is in harmony with the general purpose and intent of the Zoning Law, because it permits a reasonable use of property without adversely affecting nearby property owners; that the location is suitable for a gasoline service station and if permitted by this Board, an attractive modern station will be built, thus adding to the value of surrounding property; that objections 2 and 3 of decision have been eliminated on the new plans; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision f of the zoning resolution.

Resolved, that the decision of the borough superintendent acting on N.B. App. 135-45, objections 1, 2 and 3, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

541-45-BZ

APPLICANT—Samuel Rosenblum, for Lillie Seicke, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7f and 21 of the zoning resolution, to permit in a business use district, the erection of a gasoline service and selling station.

PREMISES AFFECTED—302-306 East 161st street, southwest corner of Park avenue (Block 2420, Lot 129), Borough of The Bronx.

APPEARANCES—

For Applicant: Samuel Rosenblum, L. Seicke, Elsie Dock and S. Bixbaum.

For Opposition: H. Klorfein, D. Riordan, A. Hoffman and F. Falkenburg.

For Administration: F. Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4

THE RESOLUTION (541-45-BZ)

WHEREAS, Samuel Rosenblum, for Lillie Seicke, owner, filed September 6, 1945, an application under sections 7f and 21 of the zoning resolution, to permit in a business use district, the erection of a gasoline service and selling station; affecting premises 302-306 East 161st street, southwest corner of Park avenue (Block 2420, Lot 129), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 18, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that East 161st street is in a business use, B area and Class 1½ height district and Park avenue is in a business and unrestricted use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 6, 1945, re N.B. App. 74-45, reads:

"1. Proposed use of these premises as a Gasoline Service and Selling Station in a business district, is contrary to Article 2, Section 4(a) (46) of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 129.98 ft. frontage by 96.03 ft. in depth (irregular), on which it is proposed to erect a building 61 ft. by 24 ft., one story (14 ft.) in height, of Class 3 construction and that it is proposed to tear down the frame dwellings and erect a gasoline service station; and

WHEREAS, the applicant contends that the present old frame dwellings have outlived their usefulness; that the owner has owned the property for approximately 40 years and the present income is not enough to meet the carrying charges, taxes, interest, etc.; that Park avenue, through which the N. Y. Central Railroad tracks runs, is developed as a commercial artery to take the overflow of traffic from the main lines now running north and south; that East 161st street is also in the same category and forms a connecting link between the west side parkways, Jerome avenue, the Grand Concourse and the easterly main thoroughfares; that it is in close proximity to the Yankee Stadium with the heavy traffic flowing from the same, both summer and winter, so that the erection of a gasoline service station here would serve a useful community function; that the property to the west, occupied to a great extent by the N. Y. Central freight yards, is all unrestricted, and the property to the south, on the same block, is all unrestricted; that the property on the other side of Park avenue, 100 ft. south of East 161st street is also unrestricted, indicating that the development of such areas would be with heavy commercial uses; that at the southerly end of the block on which subject site is located, there is at present a one-story garage and automobile repair shop; that inasmuch as the property is practically surrounded by unrestricted property which cannot be used because of the freight yards of the railroad, and as the same is a junction point of the traffic arteries leading to it, and that the present uses have become obsolete, compared to the value of the property, it is respectfully requested permission be granted to erect a gasoline service station as outlined, and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision f, and that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and was therefore not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent acting on N.B. Applic. 74-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

602-45-BZ

APPLICANT—James Allen Tuck, for United Grocers Co., owner.

SUBJECT—Aplication (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an unrestricted use and C area district, the extension of an existing warehouse, occupying more than the prescribed percentage of area of the lot.

PREMISES AFFECTED—1630 Cody avenue, east side, 274 ft. west of Wyckoff avenue (Block 3557, Lot 28), Ridgewood, Borough of Queens.

APPEARANCES—

For Applicant: James A. Tuck and Herman F. Kuzel.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (602-45-BZ)

WHEREAS, James Allen Tuck, for United Grocers Co., owner, filed October 10, 1945, an application under section 21 of the zoning resolution, to permit in an unrestricted use C area district, the extension of an existing warehouse, occupying more than the prescribed percentage of area of the lot, affecting premises 1630 Cody avenue, east side, 274 ft. west of Wyckoff avenue (Block 3557, Lot 28), Ridgewood, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 18, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Cody street is in an unrestricted use, C area and Class 1 height district and Wyckoff avenue is in an unrestricted use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 14, 1945, re Alt. Applic. 1495-45, reads:

"1. The proposed extension is not permitted, as not more than 60% of the lot may be occupied by any building or buildings. Sec. 13b—zoning law."

and

WHEREAS, the applicant states the premises consist of a plot, 50 ft. frontage by 100 and 126 ft. in depth, on which it is proposed to erect a building 50 ft. front by 100 and 126 ft. in depth, 2 stories (32 ft. 6 in.) in height, of Class 1 construction, to be made part of an existing building 100 ft. by 192 ft. 11 in. deep, irregular in area and that it is proposed to build a two story fireproof building as an extension to the present two story warehouse; and

WHEREAS, the applicant contends that the proposed building, together with the existing one, will form a complete unit for the conduct of the business; that consideration be given to the total area of the property occupied in the application of the zoning resolution provisions; that if in the interpretation of the Board, this property, due to its location at the termination or apex of the block, is designated a corner lot, the 1st floor with 74% of coverage is 1% under the required 75% for this type of lot; that for the 2nd floor, the coverage of 84.3% is only 9.3% in excess; that due to the width of the railroad right-of-way of 120 ft. and a 50 ft. street beyond, giving a total distance of 170 ft. of unobstructed light and air at the rear of the building; that taking the property as a whole, the fact that the triangular areas of the existing building on the northerly end, both 1st and 2nd floors are only of limited value to the owner; that to overcome these space limitations and meet competitive forces, the more spacious areas on the southerly end of the property must be utilized to the fullest; that the railroad embankment is 16 feet above curb level of Cody Avenue and would make a rear yard on the 1st floor level entirely useless and impractical; that if access to the railroad siding is to be secured, which is absolutely essential to the owners' business and a rear yard cannot be created on the street level (1st floor), because any platform erected on the 2nd floor level to reach tracks, will simply cover the area below; that from the standpoint of practical utility, a platform against the railroad tracks for unloading purposes has no value, since the spur track in a reverse curve again joins the straight track and the railroad will not permit any freight car to project beyond a certain point; that a derail limits the movement of freight cars to a confined length on the spur track serving the building; thus it becomes necessary to anticipate the possible location of cars for unloading and place two doors at the rear, where such unloading can be done with safety, directly into the building; that for the conduct of the business, the owner has no need of lighting from the side or south wall of the building and no windows or openings of any kind will be provided in this wall; that an occupancy of only 60% of the now vacant lot, as required under Section 13b of the Zoning Resolution, will create a serious hardship and cause unnecessary expense to the owner; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was therefore entitled to relief as to use and area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district requirements of the zoning resolution, and that the application be and it hereby is *granted* under section 21 thereof, to permit the extension as proposed and as indicated on plans filed with this application marked "Received October 10, 1945" (three sheets), *on condition* that the building shall not exceed two stories in height as proposed and shall be constructed of class 1 construction; that the loading and unloading space as shown shall be provided and maintained; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

610-45-BZ

APPLICANT—Samuel Rosenblum, for Bridge 60th Street Realty Corp., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in an unrestricted use district, the erection of an electric sign on front of multiple dwelling and store.

PREMISES AFFECTED—1133-1141 2nd avenue, southwest corner of East 60th street (Block 1414, Lots 25, 26, 126, 27 and 28), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum, Pincus Cashman and Charles Haber.

For Opposition: K. Mertig.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

THE RESOLUTION (610-45-BZ)

WHEREAS, Samuel Rosenblum, for Bridge 60th Street Realty Corp., owner, filed February 9, 1945, an application under section 7e of the zoning resolution, to permit in an unrestricted use district, the erection of an electric sign on front of multiple dwelling and store; affecting premises: 1133-1141 2nd avenue, southwest corner East 60th street (Block 1414, Lots 25, 26, 126, 27 and 28), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting, December 18, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that 2nd avenue is in an unrestricted use, B area and Class 1½ height district and East 60th street is in a business and unrestricted use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated October 4, 1945, re Electric Sign App. 227-45, reads:

"1. Sign is prohibited under Section 21B of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 100 ft. 5 in. frontage by 58 ft. in depth, on which is located a building of same size, 4 stories (45 ft.) in height, Class 3 construction and that it is proposed to erect a sign on the front of the premises; and

WHEREAS, the applicant contends that the premises at present are used for stores, storage and dwellings; that the proposed sign is intended to cover the front of the building and all regulations pertaining to its construction will be complied with; that this property is located in an unrestricted district, so that there can be erected on this property and block, uses that would be obnoxious by reason of type of manufacture, such as celluloid manufacture, crematories, blacksmithing, fat rendering, sulphuric acid manufacturing and in fact, a great many industries that would be far more obnoxious and unpleasant than the erection of a sign on the front of the building; that while the terminus of the Queensboro Bridge is on Second avenue, this bridge with its terrific congestion of traffic, does not in itself present any aesthetic appearance, in fact, the entire neighborhood alongside the Bridge has no prepossessing appearance; there are at present on the roof of the site, signs which have been there for a great many years and therefore under the provisions of the zoning resolution can remain there; that to the south of the premises and on the roof of existing structures, there are additional signs; that north of 60th street are big advertising signs painted on the side walls of the structures, all of which can remain, pursuant to the zoning law, so nothing will be gained by prohibiting a sign on the front of this structure; that photographs reveal how congested traffic is at this point and nothing short of the demolition of the entire block would add anything to the beauty of the situation; that while the proposed regulation may be of value along the river front where the highways are used for pleasure traffic, the Queensboro Bridge is so palpably a commercial highway that it would be guilding the lily to prevent any signs from going up, as the inherent use of the structure itself for commercial purposes prevents any beautiful landscaping effects; that as the restriction will not obviate the existing conditions and as the property is unrestricted and adjoining properties as well as this property, now have existing advertising signs, it is respectfully requested that a variation be granted; and

WHEREAS, the premises and area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on E. S. Applic. 227-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

612-45-BZ

APPLICANT—Sidney L. Strauss, for Henry J. Pfistner, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence and business use district, the erection of a gasoline service station and parking for more than five motor vehicles.

PREMISES AFFECTED—94-15 to 94-23 Northern boulevard, 32-45 to 32-61 Junction boulevard, northeast corner and 32-44 to 32-60 95th street, northwest corner of Northern boulevard (Block 1424, Lots 32 and 33), Corona, Borough of Queens.

APPEARANCES—

For Applicant: S. L. Strauss and John R. M. Mullen.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Savage 1

Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy 3

THE RESOLUTION (612-45-BZ)

WHEREAS, Sidney L. Strauss, for Henry J. Pfistner, owner, filed October 15, 1945, an application under section 21 of the zoning resolution, to permit in a residence and business use district, the erection of a gasoline service station and parking for more than five (5) motor vehicles;

directing premises: 94-15 to 94-23 Northern boulevard, 32-45 to 32-61 Junction boulevard northeast corner and 32-44 to 32-60 95th street, northwest corner of Northern boulevard (Block 1424, lots 32 and 33), Corona, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting, December 18, 1945, after due notice by publication in its Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that Northern boulevard is in a business use, C area and Class 1½ and 1¼ height district; Junction boulevard is in a business use, C area and Class 1½ height district and 95th street is in a residence and business use, C area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated September 27, 1945, re N.B. Applic. 352-45, reads:

"1. The erection of a gasoline service station and parking for more than five cars in a business and residence use district, is contrary to Art. II, sec. 3 and sec. 4, B.Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot 97.75 ft. frontage by 186.11 ft. in depth (irregular), on which it is proposed to erect a building 36 ft. front by 60 ft. deep (irregular) one-story (20 ft.) in height, of Class 3 construction and that it is proposed to restrict the service station to the Northern boulevard frontage; and

WHEREAS, the applicant contends that the premises is located in an area dotted with non-conforming uses; that Junction boulevard is a principal traffic artery leading to LaGuardia Field and in addition, a trolley line runs north and south on this street; that on the easterly side of 95th street, directly across from subject premises, is a lumber yard; that on the westerly side of Junction boulevard, directly opposite subject premises, the block is almost totally vacant, with the exception of the corner of Junction and Northern boulevard, where there is a one-story brick garage and a one-story brick automobile showroom and adjoining this showroom to the west, is a used car lot; that there is a great amount of vacant land on both sides of Northern boulevard in both directions from the property affected; that the general area is one in which the introduction or proper improvement of the site affected with a suitable gasoline service station, will in no way be affected; that it is proposed to restrict the service station to the Northern boulevard frontage as shown on plans filed with this application; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and is therefore not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent acting on N.B. Applic. 352-45, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

644-45-BZ

APPLICANT—Julius Eckmann, for Marguerite Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7a of the zoning resolution, to permit in a residence use district, the extension of an existing factory.

PREMISES AFFECTED—801 Bartholdi street, northeast corner of Barnes avenue (Block 4633, Lot 11), Borough of The Bronx.

APPEARANCES—

For Applicant: Julius Eckman, J. Lawrence, W. Shroder and S. Maggin.

For Opposition: R. Ippolita and S. Ippolita.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and G. Goldman, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (644-45-BZ)

WHEREAS, Julius Eckmann, for Marguerite Corporation, owner, filed October 22, 1945, an application under section 7(a) of the zoning resolution, to permit in residence use district, the extension of existing factory; affecting premises: 801 Bartholdi street, northeast corner Barnes avenue (Block 4633, Lot 11), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, December 18, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the zoning resolution show that Barnes avenue is in a residence use, C area and Class 1¼ height district; Bartholdi street and Magenta street are in a residence use, C area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated October 15, 1945, re Alt. Applic. 521-45, reads:

"1. Proposed extension of existing factory is contrary to Board of Standards and Appeals resolution 192-36-BZ, adopted Sept. 15, 1942.

"2. Proposed extension of factory in a residence use district is contrary to Article 2, Section 3 of the Zoning Resolution."

and

WHEREAS, under Cal. 192-36-BZ the Board on September 29, 1936, granted a variation under section 7a, permitting the extension of an existing factory 216 ft. by 50 ft. in area, one clere story in height, by erecting a 2-story extension 240 ft. by 30 ft. in area, the roof of the top story to be approximately 13 ft. above grade, on certain conditions; and

WHEREAS, on September 15, 1942, a further variation was granted under this Cal. 192-36-BZ, Vol. 2, to permit an extension at the south end 28 ft. by 43 ft., one story, nonfireproof; and on October 31, 1944, time was extended to install the sprinkler system; that the extension proposed under Cal. 192-36-BZ, Vol. 1, covered the same but larger area as that now proposed under Cal. 644-45-BZ; and

WHEREAS, the applicant states the premises consist of a plot 120 ft. frontage by 240.04 ft. in depth, on which is located a building 43 ft. by 240 ft. in depth, 1 story (16 ft.) in height, of Class 3 construction, and that it is proposed to erect a new building 40 ft. front by 160 ft. deep, one story, (16 ft.) in height, of Class 3 construction; and

WHEREAS, the applicant contends that on the plot is located a one-story nonfireproof lace factory, 43 ft. by 240 ft. in area; that it is proposed to increase the area of the building by an addition to the west, fronting on Barnes avenue for a distance of 160 ft., extending south from Magenta street; that this addition would be 40 ft. wide, as the present factory wall is 40 ft. back (east) from Barnes avenue; that this building has always been used as a lace factory, erected for the Excelsior Lace Works; that from 1910 to 1930, it was occupied as a factory by Martin Henkel; that since 1930, it has been occupied for same by Carver Lace Works, a subsidiary of the Marguerite Corporation, owners of the premises; that owing to the expansion of business, an increase in floor space is required; that the present floor is set about 8 ft. below the sidewalk level and the roof extends about 8 ft. above the sidewalk; that enlarging the building as proposed will bring the structure to the streets, thus filling in an unsightly gap and improving the appearance of the structure; that the present factory is equipped with numerous machines and looms with substantial foundations, and the established improvement represents a considerable investment; that the proposed expansion to the west would be augmenting the established equipment without adversely affecting any property owners; that the

proposed addition will be of incombustible materials, brick walls, steel roof purlins and girders and precast light weight concrete or gypsum roof slabs; that the present structure is being equipped with automatic sprinklers and the proposed addition would be similarly equipped; that the Board did grant a variation in June, 1936, to build a 2-story addition along Barnes Avenue front, set back about 6 ft. from the property line; that the now proposed one-story structure would close the gap between the retaining wall on Barnes avenue and the then proposed front wall; that the two-story structure was not erected, but a small one-story expansion to the south, fronting on Bartholdi street and 28 ft. by 43 ft. in area was approved by the Board in September, 1942, and subsequently constructed; that for the foregoing reasons, the applicant submits that the proposed extension will not injuriously affect the neighborhood in any respects, rather it would improve the existing conditions; that the premises have been used and occupied over 45 years as a lace factory up to the present date; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision a, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7a thereof, to permit the proposed extension of an existing factory into the residence use district as proposed and as indicated on plans filed with this appeal marked "Received October 22, 1945," (3 sheets), *on condition* that the building shall not be further increased in height or area; that no signs shall be erected on the premises, except that there may be a neat sign not over 15 sq. ft. in area attached to the building near the existing entrance door on Bartholdi street; that the boiler room shall be cut off from the balance of the building by fireproof construction and enterable only from the exterior; that the sprinkler system shall be extended through the entire premises; that in all other respects, the building and occupancy shall comply with the requirements of the zoning resolution and all other laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 192-36-BZ, Vol. II, as to the extension since erected to the south facing Bartholdi street; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

675-45-A

APPLICANT—Isidore Klein, lessee, for Charles Polivy, owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—922 East 169th street, south side, 63.47 ft. west of Fox street (Block 2718, Lot 43), Borough of The Bronx.

APPEARANCES—
For Applicant: Robert H. Berger.

ACTION OF BOARD—Laid over to January 3, 1946 at 10 A.M. at request of applicant's representative.

741-45-A

APPLICANT—Ellis L. Lavine, for Ruco Management Corp., owner (Springfield Electric Specialties, Inc., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—120-126 Wooster street, east side, 25 ft. south of Prince street (2nd floor); (Block 500, Lots 11 and 13), Borough of Manhattan.

APPEARANCES—
For Applicant: Ellis L. Lavine.
For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Laid over to January 15, 1946 at 10 A.M., for further consideration.

623-45-A

APPLICANT—Lama & Proskauer, for 1083-1087 Willoughby Avenue Corp., owner (Style-Rite Optical Corp., lessee).

SUBJECT—Application reopened and restored to calendar December 4, 1945—re Appeal from an order of the fire commissioner and a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—1083-1087 Willoughby avenue, north side, 100 ft. west of Wilson avenue (4th floor); (Block 3196, Lot 38), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama and L. Leonard.
For Administration: E. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (623-45-A)

WHEREAS, Lama and Proskauer, for 1083-1087 Willoughby Ave. Corp., owner (Style-Rite Optical Corp., lessee), filed October 16, 1945, an appeal from an order of the fire commissioner, affecting premises 1083-1087 Willoughby avenue, north side, 100 ft. west of Wilson avenue (4th floor); (Block 3196, Lot 38), Borough of Brooklyn; and

WHEREAS, this appeal was withdrawn on November 7, 1945, to permit the applicant to file plans with the borough superintendent; and

WHEREAS, this case was restored to the calendar and set for hearing on December 4, 1945; and

WHEREAS, Order 503-LC issued by the fire commissioner, September 21, 1945, reads:

> "With reference to your application for permit to store and use nitro-cellulose on the above premises, this department regrets that it is without authority to grant the permit, since Sec. C19-110(b)-4 of the Administrative Code prohibits the issuance of such permit in any building within the fire limits which is not of fireproof construction, if more than 3 stories in height.
>
> 1. YOU ARE THEREFORE HEREBY ORDERED, to discontinue the storage and use of nitro-cellulose (celluloid) on these premises. C19-110-b-4, Administrative Code."

and

WHEREAS, the applicant filed a decision of the borough superintendent, dated November 23, 1945, on B.N. Applic. 804-45, which reads:

> "1. Upon inspection by Fire Dept.—Bldg. does not fully comply with Art. 19 of Ch. 19.
>
> 1-A Bldg. 4 stories in height and of Class 3 construction (non fireproof) C19-110 b-4.
>
> 1-B Bldg. within 50 ft. of a place of public assembly. C19-110. b.2.
>
> 1-C Existing sprinkler system does not comply with Ch. 26-1375.0 Adm. Bldg. Code."

and

WHEREAS, the applicant states that the building is 4 stories (55 ft. 7 in.) in height, 54 ft. 4 in. by 90 ft. in area, of Class 3 construction, erected in 1922, located in a business use, C area and Class 1 height district and used and occupied since 1945 as follows: cellar—ordinary; 1st floor—manufacturing net goods—20 persons; 2nd floor—manufacturing bathrobes—20 persons; 3rd floor—manufacturing ladies jackets—40 persons; 4th floor—manufacturing optical frames—25 persons; that the building is equipped

with a two source sprinkler system, two 3 ft. 8 in. wide interior iron stairs, brick enclosed, equipped with self-closing, fireproof doors and leading from the roof bulkhead, directly to the street; and

WHEREAS, the applicant contends that it is proposed to install two cabinets on the 4th floor, each 3 ft. by 2 ft. 4 in. in area, 5 ft. 10 in. in height, to be used for the storage of nitro-cellulose which is used in the manufacture of optical frames; that the cabinets will be constructed of 18 gauge metal and will be of an approved type, which cabinet will be equipped with a sprinkler head, supplied by the existing sprinkler system; that these cabinets are essential in order to conduct the business and therefore it is requested that the Board grant a variance; and

WHEREAS, it appears that the building is protected by a two source sprinkler system consisting of a street main and a roof gravity tank with a capacity of 10,000 gallons and the usual required siamese.

Resolved, that the decision of the fire commissioner as to Order 503-LC and the decision of the borough superintendent on Bldg. Notice. Applic. 804-45, Objections 1, 1-A, 1-B and 1-C, be and they hereby are *modified* and that the appeal be and it hereby is *granted on condition* that the storage of cellulose products shall be restricted to the top floor of the building as proposed and as indicated on plans filed with this appeal marked "Received October 16, 1945"; that the amount of such celluloid material on the premises shall not exceed 400 lbs.; that such material shall be stored within approved steel cabinets as indicated, except for the amount necessary for daily work in process; that such cabinets shall be protected by a regular sprinkler head each and shall be located so as to be not nearer than 10 ft. to any stair entrance and approximately midway between the stairs and adjacent to the wall; that the windows on the northerly wall facing the court and in the elevator shaft shall be fireproof windows, self-closing and glazed with wire glass; that the sprinkler system with a 10,000 gallon roof tank shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 273-24-S and 244-38-A.

695-45-A

APPLICANT—Modern Carpet Sweeper Co. (lessee), for Rebecca Gussack, Nathan Gussack and Henry W. Gussack, owners.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—17-19 Rush street, north side, 123 ft. east of Kent avenue (5th floor); (Block 2163, Lot 35), Borough of Brooklyn.

APPEARANCES—

For Applicant: M. R. Meyer and E. Anthony.
For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (695-45-A)

WHEREAS, Modern Carpet Sweeper Co. (lessee), for Rebecca, Nathan and Henry W. Gussack, owners, filed November 9, 1945, an appeal from a decision re an order of the fire commissioner, affecting premises 17-19 Rush street, north side, 123 ft. east of Kent avenue (5th floor); (Block 2163, Lot 35), Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, acting on Order 00010-C, dated July 3, 1945, reads:

"4. Discontinue the use of open flame within 25 ft. of spray, dip or coating space or paint storage room or cabinet except when separated by fireproof construction. Rule 4.5.1, Spray Rules."

and

WHEREAS, the applicant states the building is 5 stories and basement (60 ft.) in height; 56 ft. by 125 ft. in area; of Class 3 construction; located in an unrestricted use, A area and Class 2 height district; erected prior to 1913 and used and occupied since 1934 as follows: cellar, storage, no persons; 1st floor, storage and punch press, no persons; 2nd floor, office and storage, 4 persons; 3rd floor, storage and assembly, 1 person; 4th floor, assembly, 6 persons; 5th floor, punch presses, 2 persons; and proposed to be used without change and occupied as follows: cellar, no persons; 1st floor, 3 persons; 2nd floor, 4 persons; 3rd floor, 3 persons; 4th floor, 25 persons; 5th floor, 15 persons; that no certificate of occupancy has been issued; that the building is equipped with a one source sprinkler system and approved interior fire alarm system but that fire drills are not maintained; that there is one 37 in. wide steel stairs, brick enclosed, equipped with fireproof, self-closing doors and leading directly to the street; that this stairway does not extend to the roof; that there is also a fire escape on the south wall leading to the roof by stair and to the street through a fire passage in the cellar; that windows and doors on the course of the fire escape are fireproof self-closing; that the building to the north is one story and basement; to the east, five stories and to the west, a vacant lot; and

WHEREAS, the applicant contends that the order requires separation of an apartment on the 1st floor where the caretaker resides, from the remaining portions of the plant, by fireproof construction; that the use of this apartment will be discontinued; that an order has been placed to provide a simultaneous switch on the spray booth fan and the switch of the spraying gun; that this appeal is made particularly with reference to the requirement to discontinue the use of an open flame gas burner used for heating a degreasing tank within 25 ft. of the dip tank; that this gas flame is so arranged as to be enclosed on all sides and top by a heavy gauge sheet metal welded box; that while the degreasing tank is less than 25 ft. from the dipping tank, the hazard is not as much as to require a fireproof separation; that the present enclosure should be equivalent to a vapor-tight separation which is usually accepted for an open flame segregation; that the distance between the flame and the dip tank is approximately 20 ft.; that the material used is a synthetic enamel having a rather high flash point; that an exhaust system is provided over the dip tank to carry directly to the outer air any fumes, which might escape from the tank; that the products manufactured could not be completed without these facilities; that the dip tank is located in a conveyor in a baking unit about 80 ft. long, 12 ft. high and 8 ft. wide, and constructed of heavy steel on fireproof base, and is located in the only place in the building that has sufficient head room to accommodate it; it is therefore requested that the Board grant this appeal.

Resolved, that the decision of the fire commissioner as to Order 00010-C, Item 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the equipment shall be maintained to the satisfaction of the fire commissioner and substantially as proposed; that such equipment shall be on the fourth or top floor; that the sprinkler system shall be maintained to the satisfaction of the fire commissioner; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 79-26-S, 80-26-A and 754-41-A.

704-45-A

APPLICANT—Interborough Engineering Co., for John Robertson Co., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—133 Water street, northwest corner of Adams street (1st floor); (Block 28, Lot 23), Borough of Brooklyn.

APPEARANCES—
For Applicant: Vince Perotto.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (704-45-A)

WHEREAS, Interborough Engineering Co., for John Robertson Co., owner, filed November 15, 1945, an appeal from an order of the fire commissioner, affecting premises 133 Water street, northwest corner of Adams street (1st floor); (Block 28, Lot 23), Borough of Brooklyn; and

WHEREAS, Order 747-LC, issued by the fire commissioner, dated October 16, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store and use Acetylene, Oxygen, Hydrogen, shows that the following must be done before the permit requested by you can be issued:

FORTHWITH

"1. Discontinue use of hydrogen gas, as its use is deemed not in the interest of public safety by this department. C19-11.0, Admin. Code."

and

WHEREAS, the applicant states the building is 3 stories (35 ft.) in height, 55 ft. 8 in. by 100 ft. in area; Class 3 construction; located in an unrestricted use, A area, Class 2 height district; erected in 1890; used and occupied: Cellar, storage; 1st floor, machine shop, 15 persons; 2nd floor, office, 5 persons; 3rd floor, same; that the building is equipped with one 36 in. and 42 in. interior wood stairs, enclosed with partitions of metal lath and plaster, equipped with wood, self-closing doors and leading from the top story, directly to the street, with a ladder and scuttle to the roof; that there is no fire escape; that the building adjoining to the west is three stories and to the north two stories in height; that no certificate of occupancy has been issued for the present use and occupancy; and

WHEREAS, the applicant contends that the tenant has been using hydrogen, in connection with welding of monel metal to alloy steel, for the past fifteen years without an accident; that the process consists of welding a monel metal sleeve to a heat-treated alloy steel piston in an atmosphere of hydrogen; that the process is used approximately eight hours every two weeks; that the hydrogen will rise to the highest point in the building and if by chance it was to leak out of the skylights which are located along the entire length of the shop, there are numerous windows on two sides for free escape of the gas; that there will be not more than two cylinders of hydrogen on the premises at any one time; that if the entire contents of the hydrogen cylinder were to leak, it would not injure anyone in the shop and would not cause any accident.

Resolved, that the decision of the fire commissioner as to Order 747-LC, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that not more than two cylinders of acetylene, two cylinders of oxygen and two cylinders of hydrogen shall be stored on the premises; that of these, only one cylinder of each shall be in use at one time and the others shall be spare; that such cylinders, where in use or as spares, shall be properly supported to the satisfaction of the fire commissioner, by means of non-ferrous bands; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

728-45-A

APPLICANT—Ellis L. Lavine, for Yorke Terminal Warehouse, Inc., owner (N. Y. Progressive Wood Heel Corp., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—1155 Manhattan avenue, northwest corner of Commercial street (Block 2476, part of Lot 60), (Building No. 4, 4th floor); Borough of Brooklyn.
APPEARANCES—
For Applicant: Ellis L. Lavine.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Negative 0

THE RESOLUTION (728-45-A)

WHEREAS, Ellis L. Lavine, for Yorke Terminal Warehouse, Inc., owner (N. Y. Progressive Wood Heel Corp., lessee), filed November 20, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 1155 Manhattan avenue, northwest corner of Commercial street (Bldg. No. 4, 4th floor); (Block 2476, part of Lot 60), Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated October 25, 1945, re Order 99986-LC, issued June 26, 1945, reads:

"With reference to your letter of October 9th, 1945, relative to the premises 1155 Manhattan avenue, Brooklyn, I have to advise you that no permit will be issued by this Department to the New York Progressive Wood Heel Co. for the storage and use of lacquers, etc., until Item 1 of Order 99986-LC, which reads as follows, has been complied with:

"1. Provide that the exhaust fan control shall be interconnected with the spray gun, so as to operate simultaneously and shall in addition, be arranged to operate independently of spray gun. Rule 3.2, Spray Rules."

Before this item will be dismissed it will be necessary to make the following change:

"1. Replace the thin wall conduit with standard weight rigid iron treaded conduit."

"A certificate issued by the Dept. of Water Supply, Gas and Electricity will not relieve you from complying with the above recommendation."

and

WHEREAS, the applicant states the building is six stories (80 ft.) in height, 145 ft. and 32 ft. front by 65 ft. and 50 ft. deep; of Class 6 construction; erected in 1879; located in an unrestricted use, A area and Class 2 height district; and used and occupied since 1913: Cellar, storage, 3 persons; 1st floor, storage, manufacturing cosmetics and office, 15 persons; 2nd floor, manufacturing sweaters and office, 80 persons; 3rd floor, manufacturing paper boxes and office, 30 persons; 4th floor, manufacturing wood heels, 25 persons; 5th floor, office, 10 persons; 6th floor, manufacturing braid and office, 15 persons; that the building is equipped with a two-source sprinkler system, standpipe system, and interior fire alarm system, but that fire drills are not maintained; and there is one 4 ft. wide steel stairs with slate treads, enclosed in brick, equipped with Underwriter's labeled fire doors, which are self-closing; that this stairway leads from the roof bulkhead, directly to the street; that the building is also equipped with one fire escape at the front, leading to the roof by a ladder and to the street by stairs; that there are no windows on the course of the fire escape; and

WHEREAS, the applicant contends that when installation was made to comply with Rule 3.2 of the Paint Spray Rules, as shown on diagram filed with this appeal, this installation conformed with the Board's approval under Cal. 2-45-SA (Fig. 1); that the installation if satisfactory to the fire commissioner, except that a wall conduit was used, which is not in accordance with the requirements of the Paint Spray Rules, although the installation has been ap-

proved by the Department of Water Supply, Gas and Electricity; that the electric wiring in question is all run outside the room in which paint spraying is done and no part of this wiring is in a hazardous location; that the wiring installed complied with section b-30-52.0 of the Electric Code; it is therefore requested that the decision of the fire commissioner be modified, so that the permit may be issued for the storage of paint.

Resolved, that the decision of the fire commissioner as to Order 99986-LC, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the requirements of the Paint Spray Rules of the Board and all other laws, rules and regulations shall be complied with; that the conduit shall be located as indicated on plans filed with this appeal marked "Received November 20, 1945" (two sheets), so as to be outside the area where the spray booths are located; that in all other respects, the requirements of Order 99986-LC shall be complied with and all electrical work shall comply with the code requirements.

734-45-A

APPLICANT—Ellis L. Lavine, for Gretsch Building No. 4, Inc., owner (Lewyt Corp., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.

APPEARANCES—

For Applicant: Ellis L. Lavine.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (734-45-A)

WHEREAS, Ellis L. Lavine, for Gretsch Building No. 4, Inc., owner, filed November 23, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises 54-82 Broadway (60 displayed) and 407-419 Wythe avenue, southeast corner (10th floor); (Block 2130, Lot 5), Borough of Brooklyn; and

WHEREAS, Order 14257-LF, issued by the fire commissioner, on January 24, 1945, reads:

"YOU ARE HEREBY ORDERED AND REQUIRED, within 30 days from the date of the service of this order, to:

"1. Have exhaust fan control interconnected with spray gun so as to operate simultaneously. Exhaust fan shall, in addition, be arranged to operate independently of spray gun."

and

WHEREAS, the decision of the fire commissioner, dated October 26, 1945, reads:

"With reference to your visit to this office on October 24th, in connection with the above mentioned order, you will please be informed that no reply was sent you in response to yours of August 3rd for the reason that you had been informed on several occasions that the valves which you installed in the spray booth could not be accepted, for the reason that they have not been approved by the Board of Standards and Appeals. The records also indicate that under date of September 7, 1945, a communication was sent you by the Chairman of the Board advising you fully in the matter.

"The valves now in place cannot be accepted by this Department unless they are approved for use in the City of New York by the Board of Standards and Appeals."

and

WHEREAS, the applicant states the building is 10 stories (115 ft.) in height, 259 ft. 8 in. by 77 ft. 8 in. in area; Class 1 construction; erected in 1915; located in an unrestricted use, B area and Class 1½ and 2 height district; used and occupied as follows: Basement, manufacture of metal products and boiler-room, 200 persons; 1st floor, manufacturing chewing gum, 350 persons; 2nd to 10th floors, manufacturing metal stamping and screw machine products, 350 persons each floor; that the building is equipped with a two source sprinkler system, a standpipe system and five 5 ft. wide interior stairs of steel and concrete, enclosed with concrete and gypsum partitions, equipped with fireproof, self-closing doors and leading from the roof bulkhead, directly to the street and five exterior stairs leading to the roof by stairs and to the street and yard by stair, with egress to the street from the yard through an alleyway; that windows and doors on the course of the fire escapes are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy 112265, issued April 5, 1945, on N.B. App. 3628-15, permits the present occupancy; and

WHEREAS, the applicant contends that in February 1945, it made several installations to comply with Rule 3.2 of the Paint Spray Rules, as indicated on the diagram filed with this appeal and at that time, the Board had not approved any Solenoid valves for automatic interlocking of Paint Spray Gun and Ventilating equipment; that the Board did, however, at a later date approve such a valve and the method which was used on the installation now in question is substantially the same as the layout approved by the Board under Cal. 2-45-SA; that the Solenoid valve which has been installed was No. 681 as manufactured by the Detroit Lubricator Co., which varies from the type approved by the Board under Cal. 2-45-SA, in that it has a manually operated set screw by which the seat of valve could be kept open without current flowing through the magnetic coil; that the Solenoid valves in question were altered so that the installation serves the purpose of complying with Rule 3.2; it is therefore requested the Board modify the decision of the fire commissioner and accept the installation of the Solenoid valves as installed and altered, as being in compliance with Rule 3.2 of the Paint Spray Rules.

Resolved, that the decision of the fire commissioner as to Order 14257-LF, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the installation of the valve and all other equipment complies with the requirements of the Paint Spraying Rules of the Board and that the system shall be maintained to the satisfaction of the fire commissioner and *granted on condition* that an application shall be promptly filed by the Detroit Lubricator Co. for test and approval of their Solenoid Valves for use under the Paint Spray Rules.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (273-45-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 255-257 Wallabout street, north side, 150 ft. west of Harrison avenue (1st floor); (Block 2249, Lots 42 and 43), Borough of Brooklyn, was granted by the Board on May 29, 1945, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on Order 1058-C of the fire commissioner, dated November 27, 1945.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 29, 1945, so that as amended, the resolution shall read:

"*Granted* as to Order 1058-C, Item 1, *on condition* that there shall be no openings in the easterly wall of this building; that the existing doorway, from this building to the adjoining yard, shall be bricked up with approved masonry; that all inflammable materials shall be maintained as proposed, toward the westerly portion of the building as far removed as possible from the westerly wall of the building adjacent to the east; that such quantities of inflammable materials as are proposed shall either be stored in a buried system as required, or if approved by the fire department, in an approved fireproof vault; that a storage and mixing room shall be constructed and maintained in accordance with the requirements therefor; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that no open flames shall be maintained within 40 ft. of such mixing and storage room; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto."

THE RESOLUTION (678-45-SM)

WHEREAS, Klaff and Sons, owner, filed on October 18, 1945, an application with the Board of Standards and Appeals for approval of the material known as Klaff and Sons, 275 Gallon Fuel Oil Tank, Obround with Flanged and Dished Heads; and
WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

November 30, 1945.

Re: Cal. 678-45-SM
Subject: Klaff and Sons, 275 Gallon Fuel Oil Tanks Obround with Flanged and Dished Heads, approval of.

Klaff and Sons of 443 East 100th Street, Brooklyn, New York, filed an application with the Board of Standards and Appeals for approval of the Klaff and Sons 275 Gallon Obround Fuel Oil Tank with flanged and dished heads, under the provisions of the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION

The tanks are constructed of No. 10 U. S. Gauge commercial grade hot rolled sheet steel. The heads are dished of No. 10 U. S. gauge steel with weld offset 1½ inch. Tanks have one lateral welded seam ⅞ inch lap. The tanks are provided with four 2 in. spuds welded on top of tank. A ¾ inch feed coupling is welded in the head at bottom, and there are four pressed steel pipe support legs, seams and spuds are welded. The tanks are 26 in. by 42 in. head and 63 inch long. The weight of the tank without legs is 386 lbs.

TEST

A sample tank was subjected to a hydraulic pressure test at applicant's plant in the presence of the Committee on Tests of the Board and successfully met the requirements of Rule 10.31 of the Oil Burner Rules. Details of construction, workmanship and protection of steel were found to comply with the Rules of the Board.

RECOMMENDATION

On the basis of the foregoing data, the Committee on Tests recommends that the Klaff and Sons 275 Gallon Obround Fuel Oil Tank be approved for use in fuel oil installations in New York City, when constructed in conformity with the details of this report and drawings filed with this application, but nothing herein shall be deemed to waive any requirements of the Oil Burner Rules of the Board. It is further recommended that all welding conform to the Fusion Welding and Gas Cutting Rules of the Board and that the permanent affixed plate required by Rule 5.3.2 of the Oil Burner Rules, in addition to the wording therein shall have the following wording: "Approved by the Board of Standards and Appeals for Use in New York City under Cal. 678-45-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Klaff and Sons, 275 Gallon Obround Fuel Oil Tank, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

711-45-SM

APPLICANT—James J. Johnsen, for Lancaster Heat Transfer Company, owner.
SUBJECT—Lancaster Horizontal Rotary Oil Burner, Types WP, LP, LPH and WPH, approval of.
APPEARANCES—
For Applicant James J. Johnsen.

ACTION OF BOARD—Material approved in accordance with report of the Committee on Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (711-45-SM)

WHEREAS, James J. Johnsen, for Lancaster Heat Transfer Company, owner, filed on November 5, 1945, an application with the Board of Standards and Appeals for approval of the material known as the Lancaster Horizontal Rotary Oil Burner, Types WP, LP, LPH and WPH; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

December 5, 1945

Cal. 711-45-SA.

Subject: Lancaster Horizontal Rotary Oil Burner, Types WP, LP, LPH and WPH, approval of.

The Lancaster Heat Transfer Co., Inc., filed an application with the Board of Standards and Appeals for approval of the Lancaster Horizontal Rotary Oil Burner, types WP, LP, LPH and WPH under the provisions of C19-57-0 of the Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION

The Lancaster Oil Burner consists of a plate on which is mounted the fan housing containing as an integral part, air baffle vanes, and fan wheel to supply primary air for the proper combustion of fuel oil. The outer housing is bolted to the inner housing. Gear housing containing shaft and gears for speed reduction of the pump are fastened and carried by the outer housing. Fan wheel and oil nozzle are mounted on the shaft. This shaft derives its driving force by power furnished through the motor, which is coupled within coupling housing with flexible coupling. To the gear housing is attached a pump bracket on which is mounted the oil pump. These housings are of cast iron and steel. The pump is a Brown & Sharp or any standard approved pump of proper capacity for the model of burner and is connected to a shaft with a flexible coupling. The shaft is a part of the reduction gear assembly. The fan is of aluminum of centrifugal type. The replacement of the motor is accomplished by removing bolts holding motor which is attached to coupling housing. Within the inner housing an oil feed fitting is attached which acts as an oil receptacle to receive the oil supply after processing to oil nozzle. The primary air intake is controlled by an air shutter. Within the gear housing are 3 ball bearings which are supported by spacers and bearing lock covers. In some designs 2 bearings may be utilized. In the case of #5 or lighter oils, swing fittings are utilized on top and bottom of the burner hinge, and the bottom swing fitting is for the supply of oil from the suction line to the pump to the burner. The top swing fitting is for the relief of excess unused oil back to its source, or for the relief of any excessive pressure. The burner is equipped with strainer, strainer basket, the area of which is 6 times greater than the diameter of the supply pipe.

With #6 oil, 2500 or 5,000 watt electrical approved preheater is used and controlled by a means of a thermostatic device. The electrical preheater is provided with a relief valve to take care of any excessive pressure, and relieved to the return line. This electrical preheater is also connected to a primary approved heat exchanger, or any other means used for preheating as a primary media which is also provided with a relief valve to conform with rule 7.2.2 of the Oil Burner Rules as adopted by the Board of Standards and Appeals.

The burners are made in four types, WP, LP, LPH and WPH and in four sizes ranging in capacity from 6000 to 41000 square feet of radiation, or an equivalent of 45 to 300 HP for use with low or high pressure steam boilers.

Type LP is a burner with separate motor pump set installed remotely. WP has an integral fuel oil pump. Type LPH and WPH are the same as LP and WP except that they have an approved electrical preheater incorporated in the assembly as an integral part.

Controls consist of: oil regulating valve
solenoid electric oil valve operated and synchronized electrically
overall protector relay 161.B
pressuretrol 410
stack switch C40
low water cut off
aquastat L416A

The ignition is gas electric. An air and oil interlocking device is used when burners are installed with remote pump set conforming with 8.6 of the Oil Burner Rules.

TEST

A type WP model of the burner was inspected and tested at 2105 Linden Street, Brooklyn, N. Y. in the presence of Commissioner Blum and Chief Engineer Huber of the committee on tests, and Inspector Sklamerk the representative of the Division of Combustibles of the Fire Department, and a representative of the manufacturer. With the oil supply cut off, and a cold combustion chamber, the burner was put into operation; and on successive tests, the controls functioned to shut the burner down in 45 seconds. The burner was then put into normal operation and the burner functioned as designed. During the period of tests, there were no flare backs due to faulty ignition, and on examination the combustion chamber showed no undue carbon deposits. A test of the CO_2 contained in the fuel gases indicated not less than 11% throughout the operating range of the capacity of the burner.

RECOMMENDATION

On the basis of the inspection and tests, the committee on tests recommend that the Lancaster Horizontal Rotary Oil Burner, types WP, LP, LPH and WPH be approved for domestic and commercial use in New York City with fuel oil not heavier than #5 cold, and #6 preheated, United States Department of Commerce standards when installed in accordance with this report, and with the Oil Burner Rules of the Board of Standards and Appeals, provided the burner has a label permanently affixed reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. 711-45-SA."

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Lancaster Horizontal Rotary Oil Burner, Types WP, LP, LPH and WPH, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

THE RESOLUTION (135-45-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 225 Duffield street, east side, 229 ft. south of Willoughby street (1st and 2nd floors); (Block 2077, Lot 16), Borough of Brooklyn, was withdrawn after discussion, on June 12, 1945; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar, subject to usual procedure; and

WHEREAS, the decision of the borough superintendent, dated July 2, 1945, on Alt. Applic. 1872-45, reads:

"1. Provide at least two means of exit complying with Sect. 270 of the Labor Law."

and

WHEREAS, the applicant states that the building is two stories (23 ft.) in height; 21 ft. by 95 ft. in area at 1st floor, 21 ft. by 43 ft. 6 in. in area at typical floor; of Class 3 construction; erected in 1941; located in an unrestricted use, B area and Class 1 height district and used and occupied since 1941 at follows: cellar, storage and boiler room, no persons; 1st floor, shoe repair shop, 12 persons; 2nd floor, dress factory, 8 persons and that no change in use or occupancy is proposed; and

WHEREAS, Certificate of Occupancy 102284 was issued August 26, 1941, permitting the use and occupancy of the building as follows: cellar, ordinary; 1st floor, store, 10 persons, 120 lb. liveload; 2nd floor, offices, 7 persons, 120 lbs. liveload; and

WHEREAS, Violation 5486-44 issued December 1, 1944 was issued for occupying the second floor for manufacturing contrary to Certificate of Occupancy 102284; and

WHEREAS, the applicant contends that there is an interior wooden stair from the cellar to the 1st floor and a vertical wrought iron ladder located in the front area, leading to the street; that from the 1st floor there are two 2 ft. 6 in. doors at the front and two 2 ft. 6 in. doors leading to a 5 ft. yard in the rear; that the 2nd floor has a 4 ft. and 3 ft. 11 in. wide steel stairway, enclosed in fire retarding materials, leading to the street and a stationary iron ladder to scuttle and roof; that the main roofs of adjoining buildings are approximately 12 ft. higher and these buildings have front extensions one story and basement in height, with safe egress to such extension roofs from the main roof of the building in question, which is approximately 5 ft. higher than the adjoining front extension roofs; that it is proposed to alter the building as follows: cellar: enclose interior cellar stairs with 4 in. terra cotta blocks and one hour self-closing door at the bottom; that the risers of these stairs are to be closed; that these stairs on the 1st floor are to have proper guard rails around same in addition to the present trap door; that the 1st floor—store doors at the front to be made double acting, instead of swinging in; that it is proposed to fire retard underside of steel stairs leading to second floor, with metal lath and two coats of Portland cement plaster, because the space under these stairs is used for a clothes closet at the present time; that a spray booth was installed about a month ago by the present lessee which booth is to be legalized by the proper authorities; that a fire escape balcony is to be provided on the front of the 2nd floor, with a 2 ft. by 5 ft. 6 in. fireproof wire-glass casement door leading to the same; that the balcony is to be provided with a sliding drop ladder in guides; that the balance of this single sash, containing the cosement door, is to be kalamein, wire-glazed; that exit signs and exit lights are to be provided at the new fire escape and at the present stair exit door; that a 3 ft. clear passageway is to be maintained to all exits at all times; and

WHEREAS, the applicant contends that 5 quarts of lacquer are stored, but only 6 ounces are sprayed per day, to glaze shoes; that the building substantially complies with the requirements of the Administrative Code; that to provide two fireproof stairways in a building of such limited area, is impracticable and would create an unnecessary hardship on the owner; that the proposed fire escape with sliding drop ladder from the 2nd floor, as indicated on plans filed with this appeal, should be acceptable, as the 2nd floor is only 11 ft. 6 in. above the sidewalk; that in view of the small area of the building and the low occupancy and the fact that there is no connection between the 1st floor and 2nd floor occupancy and in view of the proposed fire retarding, it is requested that the Board accept the conditions as herein proposed.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1872-45 and that the appeal be and it hereby is *granted* as to objection 1, *on condition* that the primary means of exit shall be maintained substantially as proposed herewith and in accordance with the requirements therefor; that a second means of exit shall be provided from the 2nd floor, by means of an exterior balcony on Duffield street, with a sliding drop ladder in guides to the street; that a goose-neck ladder from such balcony to roof shall be provided; that the number of persons on the 2nd floor shall be limited to the capacity of the primary means of exit, but in no event exceeding 10 persons; that in addition, a goose-neck ladder shall be provided from the rear yard to the roof of the first story extension and from the roof of the first story extension to the roof of the second story of the building; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

689-45-A

APPLICANT—Caye Construction Co., Inc., for Anna Sirotkin, owner (New York Cleaning and Dyeing Co., lessee).

SUBJECT—Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—378-392 Flushing avenue, south side, 116 ft. 11 in. west of Franklin avenue and 33-37 Little Nassau street (Block 1884, Lots 43, 46 and 48), Borough of Brooklyn.

APPEARANCES—

For Applicant: Louis Engle.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (689-45-A)

WHEREAS, Caye Construction Co., Inc., for New York Cleaning and Dyeing Co., lessee, filed November 9, 1945, an

appeal from a decision of the fire commissioner, affecting premises 378-392 Flushing avenue, south side, 116 ft. 11 in. west of Franklin avenue and 33-37 Little Nassau street (first floor); (Block 1884, Lots 43, 46 and 48), Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated November 7, 1945, reads:

"In response to your communication of October 31st, 1945, you are advised that no approval may be issued for the stationary guards erected on the windows of the above mentioned premises which is occupied as a factory. The provisions of the Labor Law are mandatory and the Fire Commissioner is without authority to make modifications. Therefore, your request is herewith denied."

and

WHEREAS, the applicant states the building is one story (14 ft.) in height; 72 ft. by 82 ft. 9 in. in area, of Class 3 construction; erected 1921; located in an unrestricted use, B area and Class 1¼ height district and used and occupied: cellar, storage and boiler room; 1st floor, pressing and assorting room and boiler room, 35 persons, and proposed to be used and occupied without change 47 persons; that use and occupancy is accessory to a dry cleaning plant located in the adjoining building to the west; and

WHEREAS, the applicant states that there are 11 windows affected, 8 on the street front and 3 on the rear wall; that egress from the portion affected consists of 3 large driveway doors, two pair of doors and one large rolling steel shutter and one sliding tin clad door; and

WHEREAS, Certificate of Occupancy 96881 issued June 20, 1940, on Alt. Applic. 1155-40, permitted the use of the building on Lot 43 as a dry cleaning plant with an occupancy of 40 persons; and

WHEREAS, the applicant contends that the windows affected by this appeal are 4 on Flushing avenue, 4 on Franklin avenue and 3 on side lot line adjacent to adjoining building, all as indicated on plans filed with this appeal; that the remaining 5 windows on the side lot line are old windows which were reused from the old building before the construction of the extension and are equipped with removable guards; that the building in question is an extension on an existing building which houses a cleaning and dyeing establishment; that the new addition, as indicated on plans filed with this appeal, is used for pressing and sorting of clothes; that a new certificate of occupancy will be applied for; that the stationary iron guards in question were installed on this building in error; that this appeal is filed to avoid the considerable expense necessary to change these guards to make them removable and that the owner requires the maintenance of the stationary guards as a protection against theft.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the fire commissioner, dated November 7, 1945, and that the appeal be and it hereby is *granded on condition* that all exits as indicated on plans filed with this appeal, marked "Received November 9, 1945" (2 sheets) shall be maintained openable at all times during working hours, including the horizontal exit to the adjoining section of the building under the same ownership; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

692-45-A

APPLICANT—Charles A. Levitt, for Celuplex Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—176 Hope street, south side, 84 ft. 9½ in. west of Union avenue (Block 2387, Lot 12), Borough of Brooklyn.

APPEARANCES—

For Applicant: Charles A. Levitt.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4

Negative 0

THE RESOLUTION (692-45-A)

WHEREAS, Charles A. Levitt, for Celuplex Co., Inc., owner, filed October 3, 1945, an appeal from a decision of the borough superintendent, affecting premises 176 Hope street, south side, 84 ft. 9½ in. west of Union avenue (Block 2387, Lot 12), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated October 1, 1945, on amendment to Alt. Applic. 1649-45, reads:

"1. Comply with superintendent's approval of 8/14/45, indicated on waiver of examiner's objection #2. (Provide two fireproof stair exits—Sec. 270 Labor Law.)"

and

WHEREAS, the decision of the borough superintendent, dated June 8, 1945, on Alt. Applic. 1649-45, reads:

"2. Provide two fireproof stair exits—Sec. 270 Labor Law."

and

WHEREAS, on August 14, 1945, Objection 2, dated June 8, 1945, was waived by the borough superintendent and a fire retarded stairway proposed at the rear, together with an exit through the rear yard, based on an affidavit from owner at the rear, permitting access to his property; and

WHEREAS, on September 21, 1945, an amendment was filed to Alt. Applic. 1649-45, to eliminate the front stair construction and its brick enclosure and substitute a door opening and a counterbalanced ladder to grade and a ladder to the roof; and

WHEREAS, the applicant states the building is 2 stories (25 ft.) in height; 25 ft. by 80 ft. in area; of Class 3 construction; erected 1921; located in an unrestricted use, B area and Class 1 height district and used and occupied since August, 1945, as follows: 1st floor, offices, shipping and manufacturing, 10 persons; 2nd floor, fabricating celutex, 10 persons; that no change in use or occupancy is proposed; that the building is equipped with one 4 ft. wide wood stairs, enclosed in fire retarded material, equipped with fireproof, self-closing doors and leading to the rear yard, and that a ladder and scuttle to the roof is provided; and

WHEREAS, the applicant contends that it is proposed to install a steel balcony at the 2nd floor, with counterbalanced ladder to the street and an inclined ladder to the roof at the front of the present building; that there is a rear exit from 2nd floor, which leads to the yard in the rear; that all necessary easements have been secured from the adjoining owners, to permit access to the street; that by planning the exits as proposed, space will be provided to operate and it is therefore requested that the Board accept these conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the borough superintendent, acting on amendment to Alt. Applic. 1649-45, objection 2, dated June 8, 1945, and that the appeal be and it hereby is *granted on condition* that a fire escape, complying with the requirements of the Labor Law, shall be erected on the front of the building, as indicated on revised plans marked "Received December 13, 1945" and that the existing enclosed stairway, toward the rear with a ladder and scuttle to the roof, shall be maintained; that such stairway, exiting to the rear yard, shall have access to the street through the property in the rear, known as 475 Grand street, in accordance with the agreement filed with this appeal, marked "Received December 18, 1945"; that a copy of same shall be filed with the borough superintendent and also recorded with the County Register; that the occupancy of the second floor shall not exceed the permitted occupancy of the primary means of exit, but in no event more than ten (10) persons; that the building shall not be increased in height or area; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable, other than as modified by the Board under Cal. 432-26-A.

MINUTES

714-45-A

APPLICANT—Irwin Clavan, for Stuyvesant Town Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—Block bounded by East 14th street, north side, to East 20th street, south side, between 1st avenue, Avenue C and East River drive (Blocks 946 to 951, inclusive, 972 to 977, inclusive, and 982 to 987 inclusive, Lots 1); (Stuyvesant Town Houses), Borough of Manhattan.

APPEARANCES—

For Applicant: Irwin Clavan, Joseph DiStasio and F. H. Frankland.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4

Negative 0

THE RESOLUTION (714-45-A)

WHEREAS, Irwin Clavan, for Stuyvesant Town Corporation, owner, filed November 13, 1945, an appeal from a decision of the borough superintendent, affecting premises bounded by the north side of 14th street, First avenue, Avenue C, Marginal street (East Rive drive) and the south-side of 20th street (Blocks 946 to 951 inclusive, Blocks 972 to 977 inclusive, Blocks 982 to 987 inclusive, Lots 1); (Stuyvesant Town Houses), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated October 25, 1945, on amendment to N.B. Applications 11 to 45-45 inclusive, reads:

"14A. Building should be designed for a 20 lbs. per sq. ft. windpressure on the upper 50% of its height, since the height of part of the bldg. is more than 2½ times its least width and since the construction of bldg. is not homogeneous, due to bolting of connections. Sec. 7.3.3.3. B.C.

"15B. Column connections and splices field or shop, should be riveted, since the height of a wing (part of structure) is more than 2½ times its least width. Secs. 7.3.3.1 and 8.6.2.9 B.C."

and

WHEREAS, the applicant states that the premises are located in a business and unrestricted use, A and B area and Class 1½ and Class 2 height district, proposed to be developed with multiple dwellings and stores, storage and garage buildings, Class 1 construction, 12 and 13 stories in height, to be used and occupied throughout as the Stuyvesant Town Housing Development; and

WHEREAS, the applicant has filed a schedule of data on elevations of buildings marked "Received December 6, 1945," indicating that there are 35 buildings involved ranging in height from 112.8 ft. above grade to 126.88 ft. above grade and from 108.75 ft. above datum to 117.58 ft. above datum to the top of the roof steel; that the buildings consist of five types as indicated on drawings 1 to 12, showing the building layout and typical floor site tabulation plan; and

WHEREAS, the applicant contends as to Objection 14A, that in respect to Section 7.3.3.3 of the Building Code, the building heights under consideration are less than 2½ times their width and contends as to objection 15B, as to section 8.6.2.9 of the Building Code, par. a, that the structures are less than 125 ft. high and their width not less than 2½ times the height, as to par. b, that regardless of height or width, there is no prohibition against bolting all connections between beams and between beams and girders; as to par. c (a) that where width governs and the buildings are not over 125 ft. high, connections of beams and girders to columns and beams and girders, bracing columns may be bolted; as to par. C (b) that as these buildings are tier structures less than 200 ft. high and as the width is not less than 2½ times the height, column splices may also be bolted; that the stresses in all bolts at all proposed bolted connections will be less than those provided under Section 7.4.5; and

WHEREAS, in support of this appeal the applicant has filed a statement by F. H. Frankland, Consulting Engineer and a statement by Joseph DiStasio, Engineer for the project; and

WHEREAS, the statement dated November 3, 1945 addressed to the Board by F. H. Frankland, Consulting Engineer, sets forth that the plans of the buildings in question are in the form of one or more crosses, which arrangement provides a superior ability to resist wind forces than rectangular buildings covering equivalent ground area and of the same overall dimensions of height and a width that of the wings alone; that the Merchants Association Advisory Committee, Sub-committee on Steel and Iron at the time of publication of the code had as an objective, the assurance that wind action would not cause tension in the windward column splices which if it occurred, would tend to open the splices and permit extra deflection of the structure; that obviously, wind forces cannot exist unless the walls are in place and the walls cannot be in place unless the floor slabs are in place; that if the floor slabs are in place, transmitting horizontal shear from the projecting cells to the central core cell, there can be no possibility that even the extreme faces of the projecting cells could deflect further than the structure as a whole deflects; therefore if the column splices of the central core cell are safe against opening on the windward side, so are the column splices in the projecting cells; that the buildings in question will resist wind loads as units, as each structure will be rigidly tied together in its entirety by its floor system; that the writers of the code were of the opinion that the true width of buildings with wings was the sum overall dimensions in the last horizontal direction; that in the buildings in question, the height will not be in excess of 120 ft. and the least horizontal width is 104 ft.; that the buildings in question will be in accordance with recognized and sound engineering practice; that the sub-committee on steel and iron unanimously intended that the least width of buildings of the shape under consideration was 104 ft.; and

WHEREAS, report of Joseph DiStasio & Co., Consulting Engineers, addressed to the Board in connection with this appeal, states that drawing 23-11, revised October 3, 1945, filed with this appeal, shows typical column schedule and column connections, including a diagram of the legal wind load of 20 lbs. per sq. ft. of exposed surface from the top of the building, down to the 100 ft. level; that the connections shown on this drawing will resist this wind effect, by the use of unfinished bolts within the allowable unit stresses provided by the Code.

Resolved, that the decision of the borough superintendent, acting on N.B. Application 11 to 45-1945, objections 14A and 15B, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that wind pressure shall be calculated and provided for at 20 lbs. per square foot of exposed surface from the top of the structures down to 100 feet above curb grade, in accordance with the requirements of Section C26-350.0 (7.3.3.2) of the Building Code; that all field connections of beams or girders to columns for their entire height shall be made with snug fitting unfinished bolts with Dardelet thread and lock nut, or other approved thread and lock nut; that these bolts shall have their entire bearing length full-bodied and with the thread outside of the enclosed bearing; that in order there shall be no bearing on the thread, these bolts shall be equipped with a washer under the nut; that all other field connections, including column splices, may be made with snug fitting unfinished bolts; that to insure compliance, all field bolt heads shall be painted or dipped in a paint of a color different from the shop or field coats of the steel; that field erection bolts, used for the purpose of temporarily fastening and plumbing the members, shall be replaced by the special bolts herein required and every hole where the surfaces are not in true alignment shall be reamed, so as to provide for

a snug fit of the special bolts; that all temporary erection bolts shall be painted as above required before delivery to the job.

733-45-A

APPLICANT—Harold P. Zoller, for Optical Products Co., Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—39-40 30th street, northwest corner of 40th avenue (1st and 2nd floors); (Block 399, Lots 31, 33 and 35), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Harold P. Zoller.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Murphy..... 3
Negative: Commissioner Savage 1

THE RESOLUTION (733-45-A)

WHEREAS, Harold P. Zoller, for Optical Products Co., Inc., owner, filed November 27, 1945, an appeal from a decision of the borough superintendent, affecting premises 39-40 30th street, northwest corner of 40th avenue (1st and 2nd floors); (Block 399, Lots 31, 33, 35), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated November 19, 1945, re N.B. Applic. 1848-45, reads:

"1. Provide an approved automatic sprinkler system, consisting of two automatic sources, but such sources shall consist of gravity tank and pressure tank supplies or two gravity tank supplies. Art. 15.41."

and

WHEREAS, the applicant states that the building will be two stories (26 ft.) in height, 109 ft. 4 in. by 83 ft. 4 in. in area; Class 1 construction, on a lot 208.78 ft. by 100.10 ft. in area, located in an unrestricted use, B area and Class 1½ height district; used and occupied for manufacture of celluloid eyeglass frames, 50 persons on the first floor and 160 persons on the 2nd floor; that the building will be equipped with a two-source sprinkler system; that there will be two interior stairs, one 5 ft. 6 in. and the other 3 ft. 8 in. in width, enclosed in 8 in. brick and 6 in. terra cotta, plastered on one side, equipped with hollow metal, self-closing doors, leading directly to the street and one of which will lead to the roof bulkhead; and

WHEREAS, the applicant contends that an approved fireproof vault will be installed on the second floor, vented to the roof and equipped with 12 sprinkler heads and baffle treads; that sprinklers will be controlled by O.S. & Y. valve; that the proposed sprinkler system for the building will be supplied by a 6 in. tap to an 8 in. main in 30th street and 6 in. tap to an 8 in. main in 40th avenue; that each of the 8 in. city mains is fed two ways and may be shut down independently of the other: that the water pressure at the curb is 39 lbs. per sq. in. and static pressure at the hydrant head will be 25 lbs.; that each of the 8 in. mains is fed from several larger sources, as indicated on the Grid Plan filed with this appeal; that adequate fire-fighting appliances will be installed and the sprinkler system connected to fire headquarters through an approved central station; that in view of the fact the entire section is so protected in the way of water pressure fed from so many sources and that even with a breakdown at the tunnel shaft several miles away, there would still be pressure sufficient to supply 25 lbs. at the highest sprinkler line, it is felt that the building will have adequate fire protection within the intent of the law; it is therefore requested the Board accept the proposed two-source system in lieu of the two-source system prescribed by the Admin. Code, Section 15.41.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 1848-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the sprinkler system shall be maintained with the two sources as proposed; that the storage vault for nitro-cellulose products shall be constructed as proposed and in accordance with requirements; that no nitrocellulose products shall be within the factory in the open, except such amounts as are necessary for the day's work, and at night all such material shall be placed within the vault; that such cans with water for waste shall be installed and maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto and such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct.

750-45-A

APPLICANT—LeRoy A. Perry, for 311 Greene Avenue, Inc., owner (Lincoln Metal Products Corp., lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—311-317 Greene avenue, north side, 178 ft. 3 in. east of Classon avenue and 136 Clifton place (1st floor); (Block 1953, Lot 64 and part of Lot 16), Borough of Brooklyn.
APPEARANCES—
For Applicant: Leroy A. Perry.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (750-45-A)

WHEREAS, LeRoy A. Perry, for 311 Greene Avenue, Inc., owner (Lincoln Metal Products Corp., lessee) filed December 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 311-317 Greene avenue, north side, 178 ft. 3 in. east of Classon avenue and 136 Clifton place (1st floor); (Block 1953, Lot 64 and part of Lot 16), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated November 5, 1945, on Alt. Applic. 1772-45, reads:

"11. Comply with Section 270 of the Labor Law as to limiting dimensions of treads and risers."

and

WHEREAS, the applicant states that the building is 1 story and basement (23 ft.) in height, 91 ft. by 193 ft. 10 in. in area, of class 3 construction, erected in 1925, located in an unrestricted use, B area and Class 1½ height district and used and occupied since July 1945 as follows: cellar, boiler room; basement, garage; 1st floor, garage; proposed to be used and occupied: cellar, boiler room; basement, manufacturing sheet metal products, 40 persons; 1st floor, manufacturing sheet metal products and office, 20 persons; that the building is equipped with a standpipe system, two 4 ft. wide steel stairs with cement treads enclosed in 6 in. terra-cotta blocks, equipped with fireproof, self-closing doors and leading directly to the street; that a ladder and scuttle is provided to the roof; and

WHEREAS, Violation XO-70, issued August 22, 1945, was for erecting stair on the Greene avenue side from the street to the 2nd floor, with risers 8 in. high and treads 9 in. wide. instead of having risers 7¾ in. high and treads 10 in. wide; and

WHEREAS, the applicant contends that the building was used since erection in 1925 as a public garage and it is now proposed to alter for factory use; that plans were approved for such alteration under Alt. 1722-45; that the means of egress consist of a 4 ft. wide steel stair with concrete landings, enclosed in 6 in. terra cotta blocks, with fireproof,

self-closing doors leading to Clifton place and a 4 ft. wide steel stairway, with concrete landings, enclosed in 6 in terra cotta blocks, equipped with fireproof, self-closing doors leading to Greene avenue; that it is this stairway leading to Greene avenue that is in question; that the risers are 8 in. high, with 9¾ in. treads including nosing, instead of 7¾ in. risers by 10 in. treads, exclusive of nosing; that in view of these conditions, it is requested that the Board grant a variation, to permit the existing conditions to remain.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1772-45 and that the appeal be and it hereby is *granted,* as to Objection 11, *on condition* that in all other respects, the stair shall comply with the requirements therefor; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations relating thereto, and that the building shall not be increased in height or area.

752-45-A

APPLICANT—Samuel Rosenblum, for Penn Zone Management Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—130-134 Front street, southwest corner of Pine street (Block 38, Lot 35), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4

Negative 0

THE RESOLUTION (752-45-A)

WHEREAS, Samuel Rosenblum, for Penn Zone Management Co., Inc., owner, filed December 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 130-134 Front street, southwest corner of Pine street (Block 38, Lot 35), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated November 26, 1945, on Alt. Applic. 1482-45, reads:

"1. This building was structurally altered in 1920, and proposal to change use of bldg. for offices and light manufacturing requires that exits comply with Sec. 270 Labor Law as for a bldg. erected after Oct. 1, 1913.

"2. The floors should be good for 120 lbs. per sq. ft. Sec. 7.3.2.3 Bldg Code."

and

WHEREAS, the applicant states that the building is 7 stories (75 ft.) in height, 64 ft. 2 in. by 86 ft. 5 in. in area, of Class 1 and 3 construction, erected in 1888, altered in 1920, located in an unrestricted use, B area and Class 2 height district and used and occupied since 1944 as follows: cellar, storage and boiler room, 1 person; 1st floor, manufacturing electrical supplies, fish hooks and casings, 18 persons; 2nd floor, manufacturing picture frames and toys, 22 persons; 3rd floor, manufacturing radios, 10 persons; 4th floor, manufacturing jewelry and silk flags, 27 persons; 5th floor, manufacturing lamp shades and hats, 21 persons; 6th floor, manufacturing jewelry novelties and lamp shades, 16 persons; 7th floor, manufacturing lamp shades, 14 persons; that the building is equipped with one 3 ft. 8 in. wide fireproof stairs from the roof to the street and one fire escape at the rear, leading to the roof by stairs and to yard by stair, with egress to the street by a passageway through first floor; that windows and doors on the course of the fire escape are fireproof and self-closing; and

WHEREAS, Violation 466 was issued May 13, 1945, for changing the occupancy of the building from offices as authorized in Certificate of Occupancy 3839, to factory use with 68 persons engaged in manufacturing, without having obtained a new Certificate of Occupancy; and

WHEREAS, the owner was convicted and fined in Municipal Term Magistrates Court on December 4, 1945 on a charge of violating section C26-185.0 of the Administrative Code; and

WHEREAS, Certificate of Occupancy 3839 issued on Alt. Applic. 1470-21, permits the use of the building for offices throughout, with an occupancy of 50 persons and a liveload of 60 lbs.; and

WHEREAS, the applicant contends that the building was originally built prior to 1888 and the southerly portion of 24 ft. replaced by fireproof construction in 1920, which made the exits available to both sections; that due to this alteration, the borough superintendent now requires exits should be made to comply with section 270 of the Labor Law; that the exits comply with the requirements of the Labor Law for a factory building in existence prior to 1913; that in order to make every portion of the premises accessible to the exterior stairway, it is proposed to add an additional platform at the rear, as indicated on plans filed with this appeal; that the occupancy per floor is less than the capacity of the interior stairs; that the nature of the occupancy is not heavy manufacturing, but consists of manufacturing jewelry novelties, radios, lamp shades, etc., which does not require any heavy loading; that in no case is the existing bearing capacity of the floors exceeded; that while the permissible floor load is 60 lbs., the building is of such small area with a fireproof wall dividing it into two sections and the southerly section of fireproof construction and since the occupancy will not exceed 60 lbs. liveload and will be posted to that effect, it is requested that a variation be granted from objections 1 and 2 of the borough superintendent.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1482-45 and that the appeal be and it hereby is *granted,* as to Objection 1, *on condition* that the interior stairway, as a primary means of exit and the exterior iron stairway as a secondary means of exit, shall be maintained through all floors, as indicated on plans filed with this appeal, marked "Received December 5, 1945" (2 sheets); that such stairways shall extend to the roof and shall have fire exits to the street, as indicated on plans; that the primary means of exit shall comply with the requirements therefor, as proposed; that in addition to the platform for providing exit from the rear of the northerly portion of the building to the exterior iron staircase, there shall also be a doorway on Pine street toward the westerly end, so as to make a direct means of escape from the exterior fire escape without passing through the fireproof passageway to Front street; as to objection 2, that the floor loadings shall not exceed 60 lbs. per superficial foot and shall be so posted; that with this loading the floors may be occupied for manufacturing purposes as proposed, provided the manufacturing is of a light type and no heavy machinery or other equipment installed on any floor that would be in excess of 60 lbs. per superficial foot; that such loading shall be posted; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

753-45-A

APPLICANT—Schuman and Lichenstein, for Bronze Realty Corp., owner (U.S. Bronze Sign Co., Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—53-05 37th avenue, north side, 125.07 ft. west of 54th street (1st floor); (Block 1192, Lot 80), Woodside, Borough of Queens.

APPEARANCES—

For Applicant: Simon N. Alderman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (753-45-A)

WHEREAS, Schuman and Lichenstein, for Bronze Realty Corp., owner (U. S. Bronze Sign Co., Inc., lessee), filed December 6, 1945, an appeal from a decision of the borough superintendent, affecting premises 53-05 37th avenue, north side, 125.07 ft. west of 54th street (1st floor); (Block 1192, Lot 80), Woodside, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated November 29, 1945 on Misc. Applic. 4650-45, reads:

"1. A required sprinkler under Art. 4.2.1 in a factory should consist of any two of the automatic sources or one of the automatic sources and a fire pump, as described in Art. 15.12 and 15.13 as provided by Art. 15.36 Bldg. Code."

and

WHEREAS, the applicant states that the building will be one story (13 and 17 ft. 2 in.) in height; 157 ft. 8 in. by 154 ft. 6 in. in area, of Class 3 construction, located on a lot 230.24 ft. by 187.91 ft. in area, in an unrestricted use, A area and Class 1½ height district and used and occupied: Cellar, boiler room; 1st floor, manufacturing bronze tablets, 205 persons; mezzanine, storage, no persons; that the building will be equipped with an approved one source sprinkler system throughout, one interior 3 ft. 8 in. steel stairs, enclosed in 4 in. gypsum block partitions, equipped with fireproof, self-closing doors and leading directly to the street and that a ladder and scuttle to the roof will be installed; and

WHEREAS, the applicant contends that the proposed building will be subdivided into fire areas of 5400 sq. ft. and 11820 sq. ft. which will be 1820 sq. ft. in excess of limits permitted for non-sprinklered areas; that the entire building will be sprinklered from the single automatic source of supply with a direct 6 in. connection to the city water main which is fed two ways; that the water pressure at the curb is 55 lbs.; that the Long Island right-of-way adjoins the proposed building at the north; that at the east there is a right-of-way and underpass leading to maintenance shops and garage of the Queens and Nassau bus lines and at the west there is a 25 ft. strip of open space which will be maintained.

Resolved, that the decision of the borough superintendent, acting on Misc. Applic. 4650-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed one source sprinkler system shall comply with all requirements therefor; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area.

756-45-A

APPLICANT—Wininger and Selby Inc., for Third Avenue Transit Corp., (successor to Third Avenue Railway Co.) owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—2460-2478 2nd avenue, east side, from East 126th street to East 127th street (Block 1803, Lot 1), Borough of Manhattan.
APPEARANCES—
For Applicant: S. Edw. Wininger, Raymond L. Brandes and George L. Epp.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (756-45-A)

WHEREAS, Wininger and Selby, Inc., for Third Avenue Transit Corp., owner, filed December 7, 1945, an appeal from a decision of the borough superintendent, affecting premises 2460-2478 2nd avenue, east side, between East 126th street and East 127 street (Block 1803, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated December 3, 1945, on Misc. F.P. Applic. 2329-45, reads:

"1. The use of six 5000 gallon tanks for the storage of Diesel oil, is contrary to Fire Department regulations, which require such tanks to be installed as per C19-69.0 of the Adm. Code."

and

WHEREAS, the proposed building will be one story and mezzanine (30 ft.) in height; 200 ft. by 518 ft. in area, of Class 1 construction; located on a lot 200 ft. by 541 ft. in area, in a manufacturing use, A area and Class 2 height district and used and occupied as bus repair and storage on the 1st floor with an occupancy of 60 persons and for offices, recreation, etc. on the mezzanine and locker room floor with an occupancy of 100 persons; that the building will be equipped with an approved two source automatic sprinkler system; that there will be three 3 ft. 8 in. interior fireproof stairs leading directly to the street and a ladder and scuttle to the roof will be provided; and

WHEREAS, it is proposed to install six 5,000 gallon Diesel oil tanks instead of fifty-five 550 gallon tanks; and

WHEREAS, the applicant contends that there will be approximately 50 valves and hundreds of pipe fittings less with the proposed installation than would be required for the number of tanks of 550 gallons capacity necessary to provide the required storage capacity of 30,000 gallons of Diesel oil; that each extra valve and fitting would be a source of leakage and confusion to the operators; that with the larger tanks there will be 6 man holes and the tanks occupy only about 50% of the area required for the smaller tank installation, thus confining the area of any possible hazard to a smaller portion of the building; that no gasoline will be stored at these premises; that the Diesel oil which it is proposed to store will have a flash point of 140 deg. C. and is not considered an inflammable liquid; that the tanks will be constructed and installed as indicated on plans filed with this appeal and strictly in accordance with the requirements of the Administrative Code.

Resolved, that the decision of the borough superintendent, acting on Misc. F. P. Applic. 2329-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the requirements of all laws, rules and regulations shall be complied with; that the installation of tanks shall comply with the requirements of the Administrative Code for gasoline storage tanks, except that the requirements of the Oil Burner Rules of the Board of Standards and Appeals shall be complied with as to the construction, design and tests of the tanks themselves; that the installation shall be substantially as indicated on plan filed with this appeal marked "Received December 7, 1945" for construction in connection with a new building plan filed with the borough superintendent under N.B. Applic. 286-45.

760-45-A

APPLICANT—Dollar Savings Bank of the City of New York, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—76 Hugh J. Grant Circle, southeast corner of East 177th street (Block 3795, Lots 13, 14 and 15), Borough of The Bronx.
APPEARANCES—
For Applicant: A. L. Muller and C. Loyd Laporte.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.

MINUTES

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy 4
Negative 0

THE RESOLUTION (760-45-A)

WHEREAS, Dollar Savings Bank of the City of New York, owner, filed December 7, 1945, an appeal from a decision of the borough superintendent, affecting premises 76 Hugh J. Grant Circle, southeast corner of East 177th street (Block 3795, Lots 13, 14 and 15), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent dated November 13, 1945, on amendment to N.B. Applic. 110-45, reads:

"4. Provide two stairways, completely enclosed in three hour partitions and leading directly to the street, as per Sections 6.1.2.2.3, 6.4.1.8.1 and 6.4.1.11 of the Building Code."

and

WHEREAS, the applicant states the building will be one story (38.5 ft.) in height; 95.69 ft. by 75 ft. in area on a lot 95.69 ft. by 142 ft. in area, of Class 1 construction; located in a restricted retail, use D area and Class 1¼ height district and used and occupied as follows: basement, machine and boiler room, toilets and locker rooms and safe deposit vault, 6 persons; 1st floor, banking room and working space; that the building will be equipped with two interior stairs, one of which will be enclosed in 6 in. terra cotta, equipped with hollow metal doors and leading directly to the street, and one sloping ladder in the side yard, from grade to the roof, with egress to the street through an open side yard; and

WHEREAS, the applicant contends that the requirement for two stairways leading directly to the street is not necessary for the purpose of fire protection, due to the general plan of the building and the nature of its construction and because of the fact that traffic in the vault basement will be light, never more than a few persons at any one time; that to enforce this requirement would injure the security of the propety, consisting of cash and securities held in safekeeping on the premises; it is proposed to build only one enclosed stairway, leading to the street and in lieu of second stairway leading to the street, to provide an open stairway leading to 1st floor of bank near the main entrance; that a 2nd stairway enclosure, leading to the street would be impractical for security reasons; that the proposed open stairway will permit any disturbance in the basement to be heard on the main banking floor and permits immediate observation and access by attendants on the 1st floor to the basement; that this type of stairway has been heretofore approved for banks in the City of New York.

Resolved, that the decision of the borough superintendent, dated November 13, 1945, on amendment to N.B. Applic. 110-45, Objection 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the exits shall be arranged and maintained substantially as indicated on plans filed with this appeal marked "Received December 7, 1945", (3 sheets); that the building shall be occupied as proposed and shall not be increased in height or area and shall conform in all other respects with all laws, rules and regulations applicable thereto.

278-45-A

APPLICANT—Henry Bender and Gertrude Foley, owners.
SUBJECT—Application for consideration—Amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).
PREMISES AFFECTED—135-25 Northern boulevard, north side, 212 ft. 3 in. west of Farrington street (1st and 2nd floors); (Block 4958, Lots 55 and 18), Flushing, Borough of Queens.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4
Negative 0

THE RESOLUTION (50-41-BZ)

WHEREAS, this application under section 21 of the zoning resolution, to permit in a business use district, the erection and maintenance of a business building (public market) having entrance and show windows more than twenty-five ft. from the business corner, affecting premises 292-293 President street, north side, 50 ft. west of Smith (Block 435, Lot 38), Borough of Brooklyn, was denied by the Board on July 22, 1941; and

WHEREAS, the applicant requested a reopening and restoration to the calendar, based on a new proposal, under section 7h of the zoning resolution, to permit partly in a residence use district and partly in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 310-320 Smith street and 291-295 President street, northwest corner (Block 435, Lot 36 and part of Lot 31), Borough of Brooklyn; and

WHEREAS, this case was reopened by vote of the Board on April 11, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, on May 1, 1945, the Board granted this application under section 7h of the zoning resolution, on certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted May 1, 1945, only so far as it has reference to the time within which to obtain permits and complete the work, so that as amended, this portion of the resolution shall read:

"* * * that in view of statement by applicant that all plans have been filed, that all permits required shall be obtained and all work completed within six months from the date of this *amended* resolution; and that other than as *amended* herein, the resolution adopted by the Board May 1, 1945, shall be complied with in all respects; and that a certificate of occupancy shall be obtained."

474-41-BZ

APPLICANT—Colonial Beacon Oil Company, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the erection and maintenance of an accessory building on a gasoline service station.

THE RESOLUTION (474-41-BZ)

WHEREAS, this application, under section 7c of the zoning resolution, permitting in a business use district, the erection and maintenance of an accessory building on a gasoline service station, affecting premises 96-02 Corona avenue and 49-01 Junction boulevard, southeast corner (Block 999, Lot 1), Corona, Borough of Queens, was granted by the Board on December 2, 1941, on certain conditions; and

WHEREAS, time to obtain permits and complete the work, was extended on December 15, 1942, December 21, 1943 and December 12, 1944; and

WHEREAS, the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 2, 1941, as amended through December 12, 1944, only so far as it has reference to obtaining permits and completion of work, so as amended, this portion of the resolution shall read:

"In view of statement by applicant that all plans have been filed with the borough superintendent, that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of December 2, 1941, shall be complied with (N.B. Applic. 7867-40)."

493-41-BZ

APPLICANT—Colonial Beacon Oil Company, owner.
SUBJECT—Application for consideration—reopening and extension of time to complete (expired 11/28/45) re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business district, the erection and maintenance of an accessory building on an existing gasoline service station.
PREMISES AFFECTED—2322-2326 First avenue and 401 East 119th street, northeast corner (Block 1807, Lot 1), Borough of Manhattan.
APPEARANCES—
For Applicant: Joseph B. Lynch.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and time extended.
THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Murphy. 4

RULES

FIRE RETARDING RULES FOR GARAGES, ETC.

Adopted by the Board of Standards and Appeals Aug. 30, 1917; Amended Nov. 1, 1917, and Feb. 3, 1922.

Rule 1. Fire Retarding Materials for Garages, Motor Vehicle Repair Shops and Oil Selling Stations. In garages, motor vehicle repair shops and oil selling stations any material or form of construction shall be deemed fire-retardng wthin the meaning of Section C26-254.0, of the building code, that resists the action of flame and heat when subjected to a continuous fire for one hour at an average temperature of seventeen hundred (1700) degrees Fahrenheit without the passage of flame, and with a maximum temperature rise to four hundred (400) degrees Fahrenheit on the side away from the fire. The point at which the temperature of a transmitted heat is measured shall be protected from external air and weather conditons.

When the test specimen is in the form of partition construction, the area under test shall be not less than one hundred (100) square feet and least dimension shall be not less than nine (9) feet. When in the form of floor construction, the area under test shall be not less than two hundred (200) square feet and the least dimension shall be not less than fourteen (14) feet.

During the fire, the floor construction shall support the live load for which it is designed and after the fire shall safely sustain twice the designed live load with a maximum deflection of not more than one two-hundredth (1/200) part of the span.

Rule 2. Wood Joisted Floor Construction. Wood joisted floor construction shall be accepted as fire-retarding construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations when the beams are protected on the upper and under sides with the fire-retarding materials specified in rules for floor and ceiling coverings.

Rule 3. Floor Covering. Any one of the following forms of construction shall be accepted as fire-retarding for the covering of the upper sides of wood floor beams in joisted floor construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations.

(a) Seven-eights (7/8) inch wood underflooring protected with a membrane of two-ply waterproofing covered with not less than two and one-half (2½) inches of 1:2½:5 concrete or better, reinforced with not less than one-fourth (¼) of one (1) per cent of steel mesh;

(b) Two and one-half (2½) inches of 1:2:4 concrete applied directly to the top of the joists, with or without temporary support, reinforced with not less than one-fourth of one per cent steel rods, mesh or steel lath, and having the tops of the joists coated with approved waterproof paint or protected by tar paper on the top and on the sides for a distance of three inches from the top.

Rule 4. Ceiling Covering. Any one of the following forms of construction shall be accepted as fire-retarding for the covering of the undersides of wood floor beams in joisted floor construction in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations:

(a) One-half (½) inch plaster boards, or three-eighths (⅜) inch gypsum wall boards weighing not less than 16 pounds per square yard with pointed joints covered with No. 26 U. S. gauge sheet metal with one (1) inch lapped seams nailed to the wood beams when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are spaced more than sixteen (16) inches on centers;

(b) Two thicknesses of one-quarter (¼) inch asbestos board laid with tight staggered joints and nailed to the beams, when spaced not more than sixteen (16) inches on centers, or nailed to furring strips when the floor beams are more than sixteen (16) inches on centers;

(c) Metal lath weighing not less than three pounds per square yard, attached to furring strips and plastered with Portland cement mortar at least three-quarters (¾) inch thick.

Rule 5. Attachment to Ceiling. Fire-retarding ceilings in non-fireproof buildings used as garages, motor vehicle repair shops or oil selling stations shall be attached to wood floor beams and girders in such manner as to maintain an air space between the wood beams and all wood beams shall be seasoned before applying the protective coat.

Rule 6. Openings in Fire-Retarding Floors. Pipes or conduits which pass through floors shall be fitted with metal thimbles and made watertight for a height of three (3) inches above the floor.

Rule 7. Columns. All structural posts and columns in non-fireproof buildings required to be fire-retarded shall be protected with fire-retarding materials specified for ceiling coverings in these rules, or with any of the materials accepted in fireproof construction; except that an air space shall not be required around steel or cast iron columns.

Where necessary for protection against mechanical injury, the fire-retarding protection on columns shall be jacketed to a height of five (5) feet from the ground with No. 4 U. S. gauge metal.

Rule 8. Girders. All girders in non-fireproof buildings required to be fire-retarded shall be protected with the fire-retarding materials specified for ceiling coverings in these rules, or with any of the materials acceptable in fireproof construction; except that an air space need not be provided around steel girders.

Rule 9. Shaft Enclosures. Existing stairways and vertical shafts in non-fireproof business buildings hereafter converted to be used as garages, motor vehicle repair shops or oil selling stations shall be enclosed in fire-retarding partitions continued through the non-fireproof floor construction, and when unfilled wood stud partitions are used, the space between the floor beams shall be fire-stopped with incombustible materials. All openings in such partitions shall be protected with accepted metal-covered fire doors or windows. Wherever necessary for protection against mechanical injury, the partition shall be jacketed to a height of five (5) feet on the garage side with No. 4 U. S. gauge metal. Any one of the following forms of partitions shall be accepted for the enclosure:

(a) Two by four inch wood studs, spaced not more than sixteen (16) inches on centers, covered both sides with metal lath weighing not less than three pounds per square yard, attached to furring strips and plastered with Portland cement mortar at least three-quarters (¾) of an inch thick;

(b) Two by four inch wood studs placed not more than sixteen (16) inches on centers, covered both sides with seven-eights (7/8) inch wood sheathing, one-half (½) inch plaster boards with pointed joints and No. 26 U. S. gauge sheet metal with one-inch lapped seams;

(c) Two by four inch wood studs spaced not more than sixteen (16) inches on centers, covered both sides with seven-eights (7/8) inch wood sheathing, two thicknesses of one-quarter (¼) inch asbestos boards laid with tight staggered joints and jacketed with No. 16 U. S. gauge metal on the garage side to a height of five (5) feet;

(d) Two by four inch wood studs spaced not more than sixteen (16) inches on centers, filled in solidly between the studs with four inches of approved fireproof materials and covered on both sides with No. 26 U. S. gauge metal;

(e) Existing wood stud, lath and plaster partitions covered on the garage side with No. 26 U. S. gauge sheet metal with one inch lapped seams.
